Introduction

The purpose of this report is to analyse the most relevant issues included in the audit reports on the annual accounts for fiscal 2009 of the listed companies¹, as well as the oversight duties performed by the CNMV (National Securities Market Commission) in relation to such accounts, with a view to increasing the transparency of its actions.

The annual accounts and the management report, together with the audit report², are deemed regulated interim information. The CNMV must verify that such information has been prepared in accordance with applicable regulations and, if this is not the case, request such compliance. The purpose of this role is to reinforce investors' trust in the reliability of the financial information published by listed entities.

To exercise this oversight role, the Securities Market Act (Act 24/1988 of 28 July) empowers the CNMV to request listed entities to publish additional information, reconciliations, corrections or, as the case may be, restatements of the published financial information.

Additionally, with a view to improving the quality of the financial information for the coming years, some aspects identified in reviewing the annual accounts and which can be improved upon have been emphasised. Some of the most prominent include those areas which were identified and published in the prior year and which were analysed more thoroughly in the review process.

Pursuant to the practices of other European oversight agencies of regulated financial information published by listed companies, a section is included which identifies the areas in the financial statements that will be examined more closely by the CNMV in the review process of the annual accounts for fiscal 2010 and of the interim financial statements for fiscal 2011.

1 The term listed company shall mean the issuers of securities admitted to trading on an official secondary market or other regulated market domiciled in the European Union when Spain is the Member State of origin.

2 Article 35 of Act 24/1988 of 28 July on Securities Market sets forth the obligation of subjecting to audit the annual accounts of the issuers with securities admitted to trading on an official secondary market or other regulated market domiciled in the European Union. The audit report shall be published together with the annual financial report.

I Audit reports

Number of reports received

The CNMV publishes the audit report together with the annual accounts and the management report of listed entities in the official register set forth in Article 92 of Securities Market Act, which can be consulted on the web site.

The number of audit reports of annual accounts for fiscal 2009 received by the CNMV totals 965 —including individual and consolidated annual accounts— belonging to 776 issuers of securities.

The 5,5% increase in year-on-year terms is due to the increase in securitisation funds. The number of audit reports on the annual accounts of issuers with shares admitted to trading has decreased 3,4%, due to the exclusions and mergers of listed companies during fiscal 2009.

Source: CNMV

The 54 special audit reports received during fiscal 2010, which are publicly available in the official register of the CNMV, are mandatory for those issuers of securities admitted to trading, whose audit reports on the annual accounts for the prior year include an adverse, disclaimed or qualified opinion.

The special audit reports update, at the end of the first half of the year, the circumstances that brought about the qualifications stated by the auditor in its report on the annual accounts for the prior year.

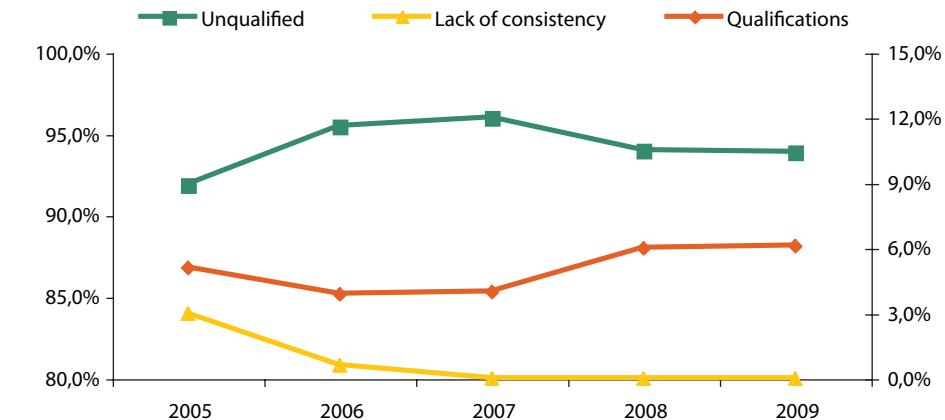

In 12 special audit reports —22,2% of the total— the auditor states that the qualifications in the audit report have been amended, either fully or partly, in the financial statements for the first half of the current year (a higher percentage than that of fiscal 2009: 14,3%).

2009

Chart 1 shows the evolution over the last five years in the audit reports of annual accounts that include an unqualified opinion, exceptions for lack of consistency and other qualifications.

Opinions stated in the audit reports of annual accounts

CHART 1

Source: CNMV

The percentage of audit reports with unqualified opinion decreased slightly in fiscal 2009 to 93,9% (94,0% in 2008) of the total received, due to the increase in opinions containing an uncertainty on the recovery of assets or on the final outcome of an event.

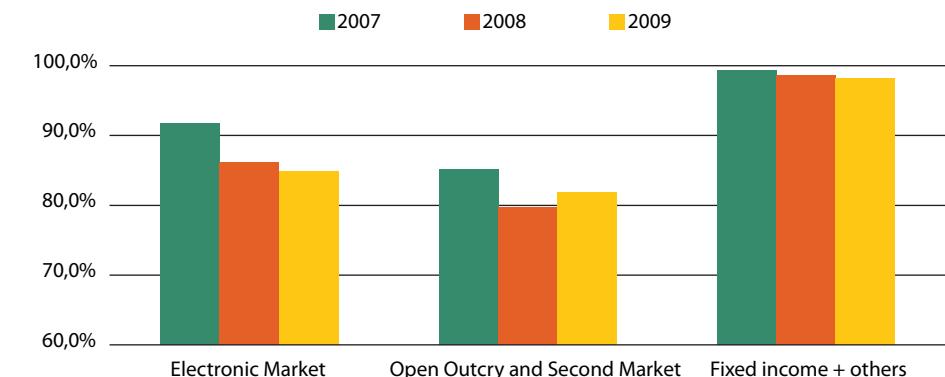

In the audit reports for fiscal 2009 of two companies the auditor disclaimed an opinion. The listing of both these companies is suspended and they are undergoing liquidation.

Audit reports by market

Chart 2 classifies the audit reports of issuers with an unqualified opinion based on the markets on which their issued securities trade.

Percentage of unqualified audit reports

CHART 2

Source: CNMV

- In companies on the Electronic Market, the percentage of unqualified audit reports has decreased 1,3 percentage points, continuing with the trend of the prior two years. In 2009, the decrease in the percentage of unqualified reports

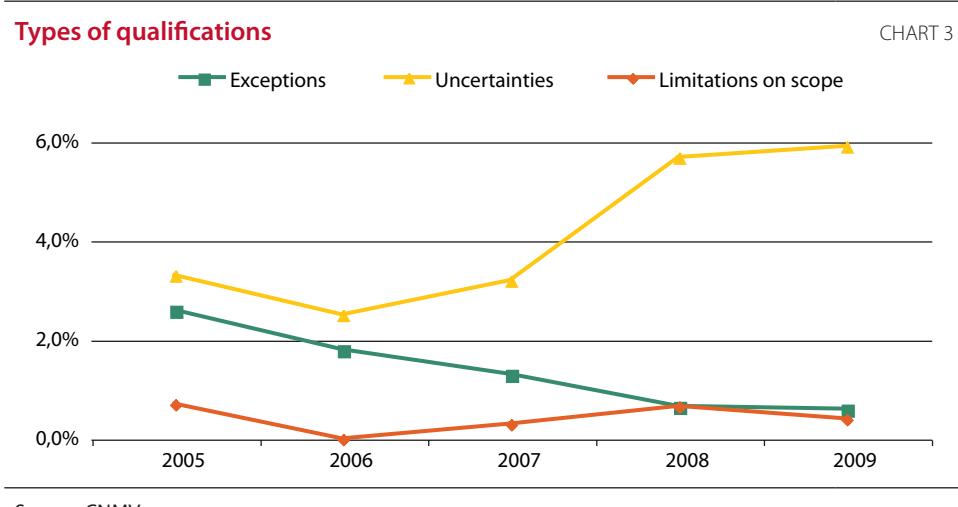

is explained mainly by the increase in uncertainties (especially the recovery of assets).

For the second consecutive year all audit reports of IBEX 35 companies have an unqualified opinion. Additionally, it is the second time that this occurs since the creation of the CNMV's public audit register.

- The unqualified reports of issuers of shares that are traded on the Open Outcry Market and on the Second Market increased by 2,1 percentage points vis-à-vis fiscal 2008. However, these entities continue to file less favourable reports than the companies with securities admitted to trading on the Electronic Market.
- Securitisation funds do not tend to include qualifications in their audit opinion —one securitisation fund did include qualifications in fiscal 2009—. This causes the percentage of unqualified reports of fixed-income securities issuers to total 98,2%. If securitisation funds are not included, the percentage of reports with unqualified opinions drops to 93% (95,1% in 2008).

Types of qualifications

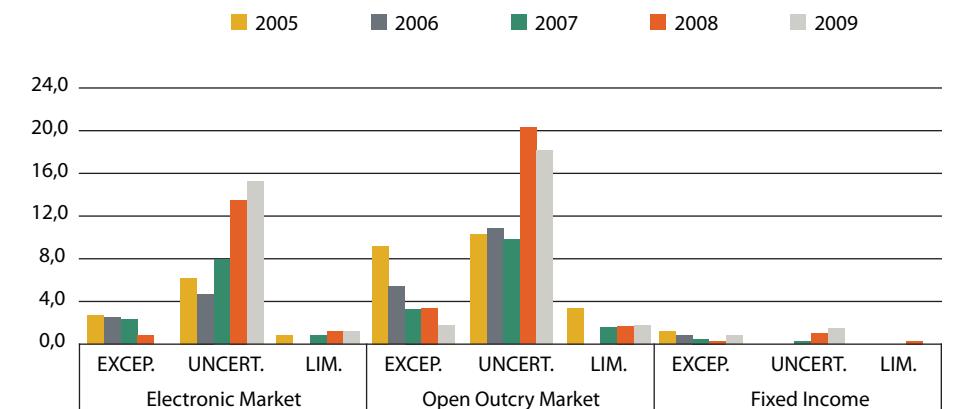

Chart 3 reflects the evolution in qualifications of the audit reports for the 2005-2009 period, grouped by type.

Source: CNMV

Types of qualifications by market (in %)

CHART 4

Source: CNMV

The most relevant conclusions that can be drawn from analysing the data in Charts 3 and 4 are as follows:

- The number of audit reports containing errors or failing to comply —exceptions— with the generally accepted accounting standards and principles remained the same —6 reports in fiscal 2009 and 2008—.
- Limitations on scope are very significant qualifications as they reflect that the auditor has not been able to apply the procedures required by the Technical Auditing Standards, for lack of the information needed to form an opinion. In this case the CNMV submits a written request to immediately amend the limitations arising from the issuing company.

Initially, 9 audit reports for 2009 were registered related to 6 issuers of securities with limitations on scope. As a result of the CNMV requests, and once the procedures set forth in the Technical Audit Standards were applied, specific auditor's statements were received, thus correcting the limitations on scope included in 5 audit reports belonging to 3 entities.

After the audit tasks performed to overcome the limitation contained in one of these reports, the auditor included in its opinion a quantified qualification and an uncertainty.

- The number of audit reports which have some type of uncertainty has increased, going from 52 in 2008 to 57 in 2009. This number had practically doubled in fiscal 2008 —jumping from 28 reports in fiscal 2007 to 52 reports in 2008—. However, while in 2008 the increase was explained mainly by the rise in entities with significant risks regarding their going concern, in 2009 the uncertainties associated with the recovery of assets increased.

Uncertainties regarding the continuation of business, in which the auditor reflects in its opinion the doubts on the ability of the company or its group to continue doing business, basically remained the same (35 in 2008 versus 34 in 2009).

The auditor included this type of uncertainty on the individual and/or consolidated annual accounts in 8 real estate companies (11 in 2008), 5 industrial entities (6 in 2008), 4 financial entities (2 in 2008) and 1 in the goods and services sector.

The new standard applicable³ to the audit reports for the coming years establishes that the auditor's opinion will not be affected by significant uncertainties, provided that such circumstances are properly informed in the report. However, the following aspects are to be taken into account:

- (i) When the significant uncertainty refers to matters regarding the entity's ability to continue as a going concern, provided that such circumstances are adequately informed in the report, the auditor shall include an emphasis-of-matter paragraph in its report to inform of that uncertainty in relation to the application of the business operations continuity principle.
- (ii) The treatment of other uncertainties —which are being adequately informed in the report— resulting from causes different to those generating doubts in the application of the going concern principle, should not be considered a qualification of an opinion, but rather, and at the auditor's discretion, an emphasis-of-matter paragraph could be included in the event of circumstances that may significantly affect annual accounts.
- (iii) In extreme cases, such as those situations in which, due to the possible interaction of multiple uncertainties, the joint effect of which may be very material to annual accounts, the auditor may consider it appropriate to deny its opinion instead of including an emphasis-of-matter paragraph.
- (iv) Finally, if a material uncertainty should exist and the related information is not reflected in the annual accounts, the auditor must take into account the failure of compliance with accounting principles and criteria that such circumstance leads to, in order to issue its report.

³ Act 12/2010, of 30 June, and Resolution of 8 October 2010 issued by the ICAC (Institute of Accounting and Account Auditing) which referred to public information the amendment to section 3 of the Technical Audit Standards, published by Resolution of 19 January 1991, regarding the Technical Standards on Reports, with the period for comments remaining open until 9 December 2010.

II Review of annual accounts

Review of issuers' annual accounts

The Securities Market Act entrusts the CNMV with the responsibility of verifying that the regulated interim information, including annual financial reports, have been prepared in accordance with applicable standards. In exercising this role, the CNMV is empowered to request listed entities to publish additional information, reconciliations and amendments or, as the case may be, modifications of the published financial information.

In this process it is common for the CNMV to address the issuers requesting further information on certain matters in writing. The additional reports that the issuers send in response to those requests are published in the official register and can be consulted on the CNMV's web site.

The CNMV's oversight role regarding annual financial statements is based on two review levels.

Firstly, all reports received by the CNMV are subject to a formal review and a review of compliance with the requirements set forth in current regulations. Furthermore, this type of review also includes other matters resulting from specific changes in applicable regulations.

Secondly, a substantive review is performed on a given number of audited annual accounts. A mixed selection model is applied to identify the entities that will be subject to review, based on risk and random rotation, abiding by the principles stated in Standard No. 1 of the CESR (Committee of European Securities Regulators).

The concept of risk that is used in the model combines two factors:

- The probability that the financial statements will contain a material error.
- The potential impact of any material errors on market confidence and investor protection.

The risk-based selection is supplemented with random rotation criteria to ensure that the financial information of all issuers of shares and debt is reviewed every four and six years, respectively.

This review system has been applied since fiscal 2006, making this year the fourth in the cycle. Thus, all issuers of shares admitted to trading on a secondary market have had their regulated financial information substantively reviewed at least once within that cycle.

CNMV

Report on the review
of the annual financial
reports filed with the
CNMV

2009

As regards making the annual report available to the public, the CNMV has sent requests to 24 entities (48 the prior year) due to late submission.

Formal review

This type of review on annual accounts and management reports for fiscal 2009 has in all cases included: (i) the statement of responsibility for the content of the annual financial reports signed by the administrators (Article 8, Royal Decree 1362/2007); (ii) the inclusion of the Annual Corporate Governance Report in the management report (Article 202, Limited Companies Act —Royal Decree 1564/1989—); (iii) the capital management of companies (IAS 1.124A-C); (iv) the follow-up on matters found in previous reviews; (v) the impairment of assets available for sale belonging to credit institutions; and (vi) the differences between the annual accounts and the financial information for the second half of the year sent beforehand.

In fiscal 2009, the thoroughness of formal reviews has increased in certain cases. In fact, 26 of the 37 companies that were served requests for this level of review were asked to furnish further information on matters regarding accounting policies and breakdowns provided in the annual financial report. A total of 20 entities have received requests pertaining to formal reviews in relation to the qualifications in their audit reports.

As regards asset securitisation funds, a formal review was performed on a random sample of 50 funds that included, among others, the following verifications: (i) concordance between the 2009 annual accounts and the interim information for the second half of the year sent earlier; (ii) information regarding assets acquired to honour debts; (iii) breakdowns of the impairment in value of assets; and (iv) information on swaps.

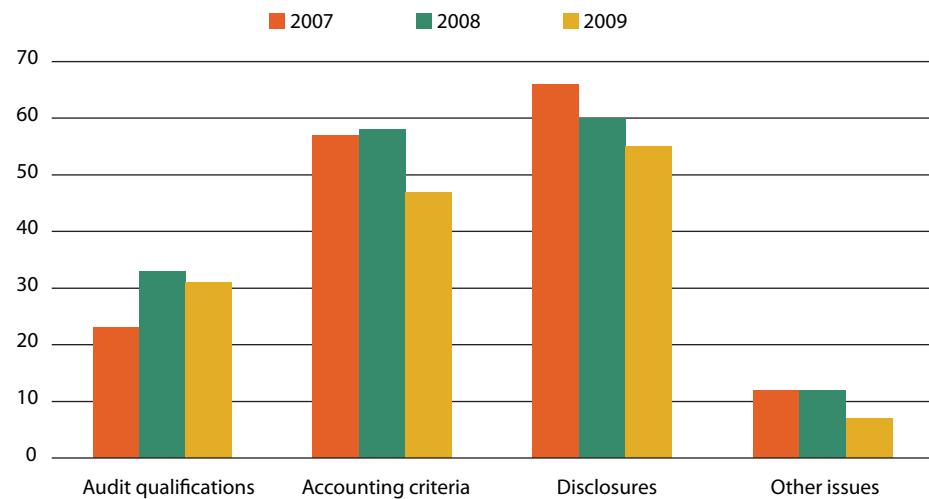

The incidences observed confirm those identified in the substantive review process, which are included as a reminder in the requests issued to each one of the securitisation management companies (trustees), as matters to be taken into consideration in the annual accounts of future years.

Substantive review

As a result of this type of review, requests were served on 59 entities for audit qualifications, omission of information or to clarify the accounting criteria and valuation methods applied.

Reasons for the requests arising from substantive reviews (*)

CHART 5

* Requests for qualifications include those sent to entities subject to formal review (20 entities in 2009) and to ASFs (1 fund in 2009). It should also be taken into account that in the formal reviews requests have been sent related to accounting policies (17) and to information breakdowns (15) that were not included in the chart.

Source: CNMV

The main issues addressed in the requests to entities (different from those for asset securitisation funds) refer to the following:

- Qualifications: Uncertainties regarding going concern continuity and other contingencies, limitations on scope, uncorrected errors or noncompliance with generally accepted accounting principles and standards.
- Application of accounting criteria and failure to include information breakdowns. Table 2 shows the reasons why the entities analysed have received a greater number of requests.
- Other issues: Formal aspects regarding the inclusion of the Annual Corporate Governance Report in the management report, capital management policies, discrepancies arising between the annual accounts and the interim information for the second half of the year, among others.

It should be noted that in the audit report for fiscal 2008, a breakdown was included of the areas on which the review of the annual financial reports for fiscal 2009 would focus. Table 2 includes the list of requests that have been made with regard to those matters.

Information requested about accounting policies and disclosures

TABLE 2

No. of requests	Accounting criteria	Information disclosures
Valuation criteria for financial instruments and main risks and uncertainties (IFRS-7; IAS-32; IAS-39)	34	39
Business combinations and consolidation (IFRS-3; IAS-27; IAS-28; IAS-31)	18	19
Valuation of inventory and real estate investments (IAS-2; IAS-40)	3	13
Income taxes (IAS-12)	7	25
Revenue recognition and stage of completion (IAS-18; IAS-11)	7	3
Related party transactions (IAS-24)	0	3
Impairment of assets (IAS-36)	20	30

Source: CNMV

For further information on the main criteria and disclosures required in relation to the abovementioned areas, see section III of this report.

In most cases, the explanations provided by the issuers justify the accounting policy adopted or else the adjustment derived from applying a criterion in keeping with current standards would not materially affect the fair presentation of the financial statements considered as a whole. Nonetheless, in those situations in which the CNMV criterion regarding the application of the standard differed from how the issuing company applied the standard and the adjustment was material in nature, the CNMV requested such company to amend or restate the company's financial statements.

In this regard, in the annual financial report of an issuing entity, there was found to be noncompliance with the recognition and valuation principles in the current standards, which, given their materiality, have caused the CNMV to request the company to restate the consolidated annual accounts for fiscal 2009, as well as amend the consolidated public interim information for that year.

Furthermore, several issuers were found to have failed to comply with recognition and valuation principles provided in current standards which, given their materiality did not require restatement of the annual accounts, but which shall need to be amended in the annual accounts for fiscal 2010, by restating the comparative information.

In these cases, issuers have been requested to break down in their financial statements for fiscal 2009 the effect of amending the error incurred and to undertake to change the accounting treatment in the annual financial report for fiscal 2010, pursuant to IAS 8: *Accounting Policies, Changes in Accounting Estimates and Errors*. The case of noncompliance that was found was affecting the following matters, among others:

- Impact on revenue recognition in the electricity sector of changes introduced in the rate of last resort.
- Registration of accounts between companies of a group generated due to tax consolidation.
- Presentation of the statement of cash flows.
- Presentation of discontinued operations in the P&L account.

Work meetings have also been held with: (i) 51 listed entities; (ii) 7 securitisation management companies (trustees); and (iii) 4 audit firms that audit 95,9% of the reports received by the CNMV.

As regards the substantive review of the annual accounts of asset securitisation funds, a total of 36 requests were sent, with only one of them involving a request for further information on a scope limitation qualification. The rest dealt with the following issues: (i) an amendment for the impairment in value of securitised assets; (ii) interest rate swap; (iii) variable commission; (iv) reserve fund; and (v) differences and inconsistencies in the breakdown of the information in the annual accounts and the management report.

Claims and reports regarding annual accounts

The claims and reports filed by third parties have required the CNMV to effect additional actions, some of which include requesting additional information to that included in the audited annual accounts, with the purpose of clarifying the matters brought up by them.

The most relevant issues in these claims and reports affected the following aspects of the financial statements:

- Impairment of financial, material, intangible assets and goodwill.
- Lack of disclosures on whether there are contingent liabilities.
- Legal issues concerning the preparation of financial statements.
- Related party transactions.

Audit reports and limited reviews regarding interim information

A total of 33,7% of issuers (35,1% in the same period the prior year) have subjected condensed annual accounts for the first half of fiscal 2010 to full audit or limited review by auditors. This percentage increased to 82,3% (76,5% in 2009) if we only consider the IBEX 35 entities.

In the full audit cases (13 entities), the auditor offers reasonable assurance on the interim financial statements while in the limited review engagements (71 entities), the assurance offered by the auditor is moderate.

Of the entities that have subjected their financial statements to a limited review or a full audit, only 6 included qualifications in their reports. These qualifications had already been included in the audit reports of the annual accounts for fiscal 2009.

III Aspects to be improved in annual accounts

Of the review of the annual accounts for fiscal 2009, the CNMV identified some aspects of the accounting standards that it considers relevant and that, in some cases, were not adequately applied. The purpose of this identification is for issuers to improve the quality of their regulated financial information that they provide to the market.

It is worth mentioning that most of those aspects come from areas that, in the last annual report on the CNMV oversight of annual accounts published in December 2009, were selected to form the subject matter of a more thorough review with regard to the annual accounts for 2009.

Impairment of non-financial assets

In the analysis of the possible impairment of assets, entities should take the following into account:

- When measuring the impairment of assets in accordance with their value in use, for each cash generating unit entities should disclose the key assumptions used (IAS 36.134.d.i), how they were determined (IAS 36.134.d.ii) and whether they come from external information sources.
- The issuers are to explain and justify the changes in the hypotheses used to calculate the impairment with regard to those used in previous years.
- The goodwill acquired in a business combination should be assigned to each one of the cash generating units or group of units. Each unit or group of units should represent the lowest level of the entity in which goodwill is controlled for internal management purposes, and should not be larger than an operating segment, as defined in paragraph 5, IFRS 8: *Operating Segments*.

However, some entities have allocated acquired goodwill in operating segments without making a thorough analysis to determine whether they should be allocated to a lower level.

- If a reasonably possible change in a key assumption can cause the book value to exceed its recoverable value, entities are to disclose: (i) the amount by which the recoverable amount exceeds the book value; (ii) the value assigned to the key assumptions; and (iii) the amount by which the hypothesis value should be changed to match the recoverable amount to the book value.

Valuation of real estate assets

Inquiry No. 7 issued by ICAC published in ICAC Official Gazette No. 80 of 2009 establishes that in the calculation of the net realisable value of the real estate in-

ventories and the value in use of real estate investments, with elements that can be used to measure the possible impairment of such assets, the fair value is the best benchmark.

However, there may be differences between the fair value and net realisable value (value in use, as the case may be) due to specific factors of the company such as the capacity of imposing selling prices above or below the market prices, or construction or selling costs different from those of the rest of the companies of the sector, among others.

The CNMV considers that the above disparity between the fair value and the net realisable value (value in use) could be justified when there is a reasonable business plan relating to such assets (or groups of assets), when it has been reviewed by an independent expert and when this expert has made a statement in his/her report on the fairness of the assumptions used by the company.

Furthermore, the specific factors and their impact on the value to justify the difference should be included in the Annual Report and in the appraisers' reports.

Registration, valuation and disclosures on financial instruments

The main incidences that have been identified in connection with the fulfilment of registration, valuation and disclosure standards of financial instruments are as follows:

- Lack of disclosure of information on specific criteria applied to determine whether there is objective evidence of impairment in value of equity instruments, classified as financial assets available for sale.
- Insufficient disclosure on cash flow hedges (IFRS 7.23) that do not enable the movements of the fair value of the hedge instruments to be reconciled with the amounts registered in the shareholders' equity and P&L due to the registration of the hedge.
- Measurement of the effectiveness of the hedges of transactions provided when there are temporary differences between the maturity of a hedge instrument and the hedged item, especially when it is a non-financial asset/liability.
- The information regarding the disclosure of financial risks -credit, liquidity and market risk- does not comply with all quantitative and qualitative disclosures required by IFRS 7.
- The information provided on the fair value of financial instruments (IFRS 7.27), including hedging instruments, is very general in nature and fails to detail: methods applied, assumptions made, parameters used and, as the case may be, sensitivity of the fair value of changes in the assumptions.

Related party transactions

The materiality of these types of transactions is to be established not only by the size of the transaction, but also by the nature of the related parties involved in the transaction.

IAS 24: *Related Party Disclosures* requires that not only the amount of the transactions be disclosed but also the outstanding amounts at the end of the year (IAS 24.17).

It should be kept in mind that the information to be included on related party transactions in the individual annual accounts is regulated by the new General Accounting Plan and that, in certain aspects, it is more rigorous than the adopted IFRS. Thus, the following information is to be disclosed, among other matters: the pricing policy of transactions with related parties, associating it to one used with third parties and, if there are no similar transactions, entities must indicate the criteria or methods followed to determine the quantification of the transaction; and the profit or loss resulting from the transaction, describing the duties and risks assumed by each related party.

For fiscal 2010, the application of Article 229 of Capital Companies Act (Royal Decree 1/2010) requires that the situations involving conflicts of interest be disclosed in the report. Furthermore, it establishes that the obligation of directors of disclosing their direct or indirect interests in the capital stock of a company with a corporate purpose that is the same as, similar or supplementary to the activity constituting the corporate purpose of their own companies is extended to cover their related parties (those listed in Article 231 in the abovementioned act).

Business combinations

The main issues that have been requested in relation to this matter include the following:

- Business combinations in which the issuer recognises a negative consolidation difference.
- Registration of the tax effect resulting from the recognition of assets, liabilities and contingent liabilities of the entity acquired at fair value.
- Accounting for the future obligation to purchase equity instruments from non-controlling shareholders, due to having granted an option to sell.

As in prior years, the information to be disclosed on business combinations effected fails to comply with all of the requirements set forth in pages 66-73 of IFRS 3: *Business Combinations*. Specifically, the following is not included: (i) information on the provisional nature of the accounting of some combinations; (ii) contingent payments that depend on future events and their accounting treatment; (iii) profit and loss for the period provided by the entity acquired as at the date of acquisition; and (iv) ordinary income and the profit and loss of the entity resulting from the combination, as though the transaction would have taken place at the beginning of the year.

Revenue recognition

Revenue recognition is an area in which different effects were identified during fiscal 2009 that questioned the amount accounted for by the issuer. As indicated in prior years, the entity must act with the maximum degree of honesty prior to recognising revenue in the following cases, when (i) agreements are subject to mile-

stones or conditions subsequent or precedent, which occur most frequently in the real estate sector and in the pharmaceutical industry; (ii) the amount collected from the transactions is not representative of the total transaction; and (iii) when sales are financed by the entity itself and its recovery cannot reasonably be ensured.

Presentation of financial statements

As regards the presentation of financial statements, entities must take into account that:

- As indicated by basis for conclusion 13 of IAS 1: *Presentation of Financial Statements*, it may be misleading and would impair the comparability of financial statements if items of an operating nature were excluded from the results of operating activities. It would be inappropriate to exclude items because they occur irregularly or are unusual in amount, as in the case of impairment in assets related to operations or goodwill.
- The statement of cash flows should not contain: cash flows calculated on a net basis (except when this is allowed [p.22 of IAS 7: *Cash Flow Statements*]), non-cash transactions, or cash flows calculated on an accrual basis (except when the indirect method is used due to the inclusion of income or loss and their adjustments in operating activities).
- Entities should adequately present discontinued operations. In general, the business lines or significant geographical areas that a company has sold or intends to sell within the following twelve months.

The sale of a business segment should be treated as a discontinued activity and the P&L account for the year comparative to the current year should restate the profit and loss of that activity as discontinued.

Income tax

- Entities should adequately account for the recognition of tax credits after a business combination by capitalising the negative tax bases of the acquired company. The revised IFRS 3, applicable as from the years beginning on or after 1 July 2009, states that the recognition of deferred tax assets after the business combination shall be registered in profit or loss, not adjusting goodwill, as indicated in the prior standard.

Asset securitisation funds

In preparing the annual accounts for fiscal 2010, the following should be taken into account:

- According to CNMV Circular 2/2009, Standards 12 and 13, registering financial assets and liabilities acquired and issued at a discount at their nominal amount is only permitted when the effect of the interest is very insignificant and, con-

sequently, under these circumstances there should be no allocation of interest whatsoever in the P&L account.

- When determining the impairment in value of securitised assets, the criteria that should be applied are those set forth in CNMV Circular 4/2010, and not those stated specifically in the fund's instrument of creation. Any additional provision made should be disclosed separately and be accompanied with an explanation of the criteria used for its calculation.
- Regarding the book value of assets classified as impaired, standard 23 of Circular 2/2009 mentioned above does not include any exception whatsoever for financial assets vis-à-vis government agencies. Furthermore, the book value of those assets should be presented in the balance sheet under current assets or non-current assets, depending on their maturity term. Thus, uncollected past due receivables or assets which should be collected in the following 12 months cannot be classified as non-current assets.
- When foreclosed assets are sold, the Annual Report shall include information regarding the sale's terms and conditions, such as determining the selling price, independence of the counterparty, etc.
- Pursuant to Standard 29 of Circular 2/2009, the Annual Report should include information on the fair value and its variation during the year, of securitised assets, debt issued and the swap contract, indicating the calculation method used, as well as a description and quantification of the main parameters applied.

Furthermore, the calculation to determine the fair value of the interest rate swap should be adequately reviewed.

- The Annual Report should include a disclosure of the criteria applied to determine the efficacy of cash flow hedges of the interest rate risk, as set forth in Standard 29 of Circular 2/2009.
- The importance of strengthening the internal control of the securitisation management companies (trustees) and a greater involvement of the auditor to minimise misstatements and inconsistencies.
- An early submission, as far as possible, of the disclosures required by the amendment introduced by Circular 4/2010 to Standard 29 of Circular 2/2009, more specifically: (i) variable commission; (ii) reserve fund; (iii) foreclosed assets; (iv) impairment in value; and (v) periodic settlements.

IV Main areas subject to review of 2010 annual accounts

According to the CNMV's oversight duties and continuing with the initiative adopted the previous year, this chapter of the report includes a breakdown of the focus areas for the review of 2010 financial statements.

The selection has been the result of an analysis of the current economic scenario, of changes in standards and of the experience gained in the reviews performed in prior years under international and local accounting standards. Additionally, the different matters brought forth in the claims and reports received during the last year have also been taken into account.

An adequate accounting treatment of the matters addressed in those areas shall contribute to improving the reliability and quality of the financial statements of listed entities, properly reflecting the true image of their financial situation, equity and the results of their operations.

Business combinations

The revised IFRS 3: *Business Combinations* came into force in the first fiscal year beginning on or after 1 July 2009, which for listed entities with fiscal years mirroring the calendar year shall apply in 2010.

This standard significantly changes how business combinations are accounted for. At the same time, the amendments to IAS 27, IAS 28 and IAS 31 also come into effect.

The review of the correct application of these standards shall be one of the main objectives of the coming year. Some aspects the analysis will focus on include: (i) recognition and measurement of goodwill and of non-controlling interests; (ii) revaluation of the previous existing equity interest or the residual equity interest maintained against the P&L account; (iii) accounting for contingent payments; (iv) economic facts that can translate into an increase or decrease in the degree of influence; (v) the existence of protective and/or participatory rights of non-controlling shareholders; (vi) recording acquisitions or sales of non-controlling interests; (vii) costs of the operation and pre-existing relations; and (viii) business combinations under agreement.

Additionally, the business combinations among companies under joint control, excluded from the scope of IFRS 3, shall also be reviewed.

Mergers and savings banks' Institutional Protection Schemes

The annual accounts for fiscal 2010 of each new entity should disclose the following:

- The opening balance sheet of the new entity, determined by adding the consolidated balances of each one of the savings bank plus the adjustments that result from applying the acquisition method.
- A complete P&L account as though the combination had been carried out on 1 January 2010, separately showing the effect of the adjustments.
- In relation to the adjustments: (i) a description and, as the case may be, justification for including it as part of the combination (for example, restructuring costs, settlement of certain agreements or other liabilities); (ii) an explanation of the methodology applied for its calculation, of the hypotheses considered and, as the case may be, a sensitivity analysis; and (iii) a list of and justification for pending adjustments or adjustments accounted for on a temporary basis.
- The most relevant comparative data of each one of the combined entities and the data for the prior year shall be included for reference purposes.
- The previous historical information disclosed separately and only for explanatory purposes of the transition to facilitate comparability, although it does not represent accounting data.
- Detailed information on the entities, subsidiaries and multigroup entities over which it has control under an agreement, including a description of its main terms and conditions.

Recording the impairment of assets

Issuers in general have disclosed information on the assumptions used to calculate the impairment tests, which will enable to follow up more accurately on the evolution in time of those hypotheses, to identify situations in which the fluctuations may be less justified and, in that case, gather further information, including business plans.

An analysis will also be performed of whether the allocation of goodwill to the different cash generating units meets the requirements set forth in paragraph 8o of IAS 36, so that goodwill represents the lowest level within the entity, in which it is controlled for internal management purposes.

Valuation of real estate assets

It is mandatory to disclose the concrete specifications of the entity that justify the differences that may exist between the net realisable value of inventories, the value in use of the real estate investments and the fair value of both. The business plan the company has for those assets (or groups of assets) shall be reviewed by the independent expert, who should render an opinion in his/her report on the fairness of the hypotheses used by the company.

Depreciation criteria for property, plant and equipment

Changes in the criteria used to depreciate property, plant and equipment shall be especially considered. It will also be verified whether a significant alteration in the useful life of the entity's asset has actually taken place. The impact the new estimates have on the P&L account tends to be material, in addition to generating certain volatility in its evolution. Consequently, the entity may have to provide due justification of the measure adopted, relying on independent expert reports to support the decision from a technical viewpoint.

Possible impairment of such assets shall also be reviewed, as well as that of the related assets, including goodwill, due to the impairment indicator in its book value.

Service concession arrangements

An analysis shall be performed of the application of IFRIC 12: *Service Concession Arrangements*, placing special emphasis on: (i) whether the application scope of IFRIC 12 has been correctly applied; (ii) the recognition and measurement of revenue, as per IAS 11: *Construction Contracts*, for the construction of infrastructure subject to the concession; and (iii) the classification of the consideration to be received by the concessionaire as a right to a financial asset or an intangible asset.

Furthermore, all disclosures required by the first application of this interpretation appearing in SIC 29: *Service Concession Arrangements* and IAS 8: *Accounting Policies, Changes in Estimates and Errors* shall be reviewed. Among others, a disclosure shall be included of the amount of adjustments derived from applying the above-mentioned IFRIC for each relevant financial statement item —for the current year and for each prior year for which information has been reported—, and the amount of the income and profit and loss recognised in the period for the exchange of construction services for a financial or intangible asset.

Measurement criteria used for financial instruments

The review of the recognition and valuation of financial instruments will focus on: (i) analysing the efficiency of the cash flow hedges and accounting for the inefficient part; (ii) the valuation of those financial instruments the fair value of which is determined according to valuation techniques (levels 2 and 3); and (iii) impairment of financial assets, especially those held for sale; among others.

Special attention will also be paid to the information disclosures required by IFRS 7 on these matters.

Related party transactions

Proper disclosure of the amount and nature of related party transactions will be verified, including the transactions performed in the period and the balances at year end, and that the developments introduced by the Capital Companies Act, related to duties of loyalty, are included in the Annual Report.

CNMV

Report on the review
of the annual financial
reports filed with the
CNMV

2009

Operating segments

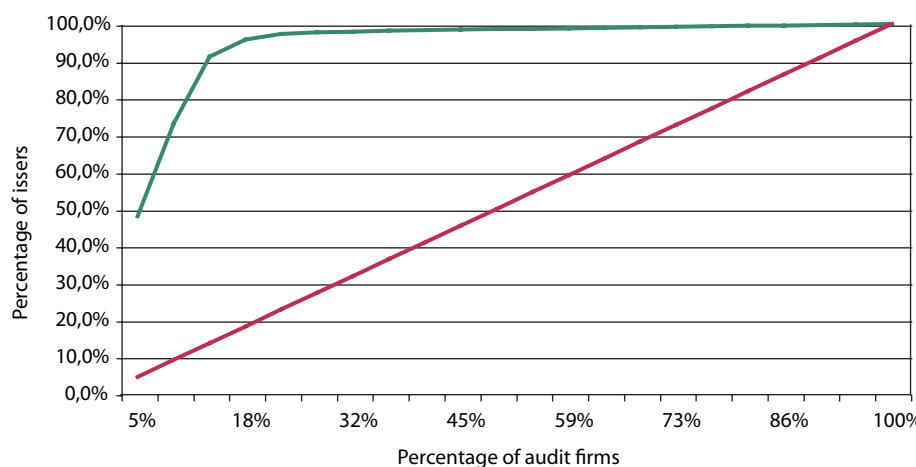

Special heed will be paid to the proper disclosure of each one of the operating segments identified by the entity, as well as to the explanation of the criteria used in identifying those segments and of the chief operating decision maker of such segments.

V Audit firms

The four main audit firms by business volume, namely Deloitte, Ernst & Young, PricewaterhouseCoopers and KPMG, have issued 95,9% (95,4% in 2008) of the audit reports received by the CNMV on annual accounts for fiscal 2009. Chart 6 shows the abovementioned degree of concentration.

Concentration of audits by firm

CHART 6

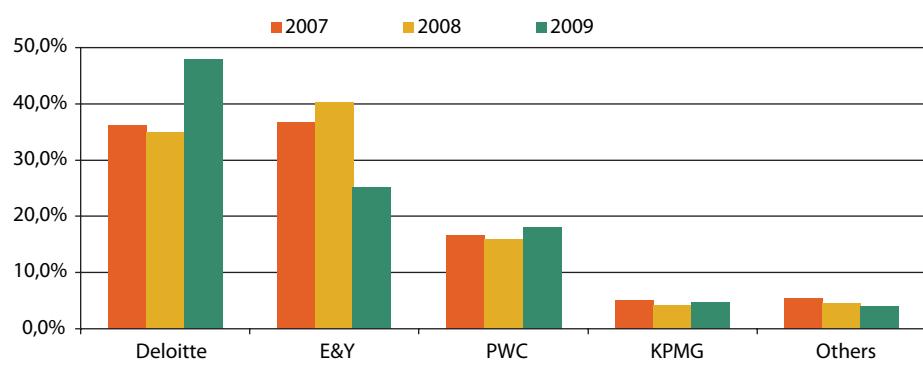

Source: CNMV

Chart 7 shows the breakdown of the audit reports prepared by the four main firms for the last three years.

Distribution of audits by firm

CHART 7

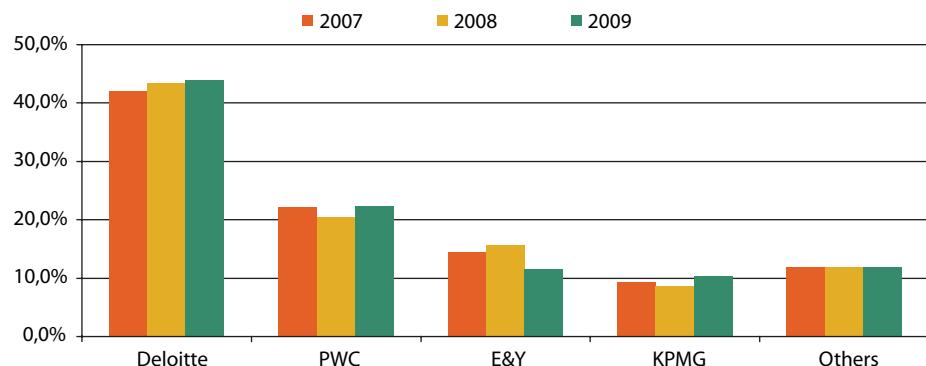

Source: CNMV

As shown, the degree of concentration in the four big firms has increased in the last years due mainly to the increase in securitisation funds which are audited exclusively by these firms.

Not taking into account the securitisation funds —a total of 508 funds submitted their audited annual accounts in fiscal 2009—, the degree of concentration in the big four firms has remained practically constant during the fiscal years between 2007 and 2009.

Distribution of audits by firm, excluding securitisation funds

CHART 8

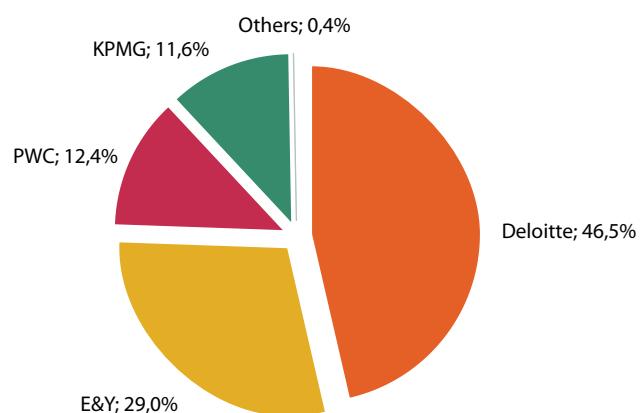

Source: CNMV

All IBEX 35 index companies⁴ have been audited by the four major auditing firms: Deloitte 15, PWC 8, EY 6 and KPMG 5.

Chart 9 shows the distribution of the audit reports in the different firms based on the stock capitalisation of the issuers of shares audited at 31 December 2009.

Distribution of audits by firm based on capitalisation

CHART 9

Source: CNMV

⁴ The IBEX 35 entities that file their annual financial report with the CNMV total 34, inasmuch as Arcelor-Mittal is not subject to such obligation as Spain is not its Member State of origin.

VI Submission dates of audit reports

The average period for the issuing of an audit report is 96 days (98 days for reports for fiscal 2008). The average term for filing the annual financial report with the CNMV was shortened between 2007 and 2008, from 119 to 112 days, a term that has remained for filing the fiscal 2009 reports.

Table 3 analyses the term for the issuing of the audit report on the annual accounts and the term for its submittal to the CNMV for registration and publication.

As regards the annual accounts of 2008, the number of entities that have published their annual financial report within the 2 months following the end of the year has increased by 18% (77 entities vis-à-vis 65 entities in 2008). These companies have, therefore, been exempted from preparing a full financial report on the second half of the year.

Thus, 10% of the issuers of securities admitted to trading have filed their annual financial reports with the CNMV within the first 2 months of 2010.

Term for the issuing and filing of the audit report with the CNMV

TABLE 3

Days	No. of days between the closing date of the annual accounts and the audit report issue		No. of days between the closing date of the annual accounts and the filing with the CNMV

AHORRO FAMILIAR, S.A.		YES							1			
Unquantified qualifications												
* The company has a 50% equity interest in Colprado Inmobiliaria, S.L., the fiscal 2009 audit report of which includes limitations and uncertainties regarding the accounting value of a cooperative apartment building involved in a fire in 2009, without being able to assess the value of the financial investment until the investigation has come to a close.												
AMCI HABITAT, S.A.		YES							1			
Unquantified qualifications												
* The entity has an equity imbalance, which has triggered a debt renegotiation process with financial institutions and a notice filed with the courts informing the beginning of negotiations for accession to an early proposal of a composition with creditors, as well as presenting shareholders with a series of measures to re-establish a balance in the equity accounts. Additionally, the company has granted loans to subsidiaries and associate companies that are also undergoing debt renegotiation procedures with their creditors.

<p>The entity has an investment totalling 2.7 million Euros, involving 6.07% of CR Aeropuertos, S.L., and direct loans granted to that company along with other financing transactions involving related loans granted to third parties totalling, net of impairment losses, 142.9 and 33.8 million Euros, respectively. Additionally, the subsidiary Caja Castilla-La Mancha Corporación, S.A. has an equity interest in this company of 30.36%, totalling 15.8 million Euros.</p> <p>The entity has an investment totalling 11.6 million Euros, net of value impairment corrections, representing 12.80% of El Reino de Don Quijote de La Mancha, S.A., and loans granted to this company in an amount, net of impairment losses, of 27.5 million Euros. In both companies, CR Aeropuertos, S.L. and El Reino de Don Quijote de La Mancha, S.A., there are uncertainties of a significant nature, related to the recovery of the investments made and to be made, as well as the conclusion of negotiation processes underway to restructure their debt, due to the state the airport operations are in and due to the slowdown of the projects involving El Reino de Don Quijote de La Mancha, S.A.'s residential and recreational complex.</p> <p>It is not possible to objectively assess the impact of these uncertainties on the valuation of the entity's investments mentioned above and registered under «Interest-Associate companies» and «Credit investments-customer credit», and on the valuation of the entity's investment in the subsidiary Caja Castilla-La Mancha Corporación, S.A., registered in «Interest-Group companies» for a total of 299.8 million Euros.</p>

CAJA DE AHORROS DE CASTILLA-LA MANCHA (CONT.)						
			* On 28 March 2009 and with a view to mitigating the adverse circumstances for the entity's solvency and liquidity that were becoming evident in early fiscal 2009, the Executive Committee of Banco de España agreed to temporarily substitute the entity's Board of Directors, appointing three administrators to manage the entity. In spite of the measures adopted and the support received, the worsening crisis, the fact that access to capital markets continued to be restricted and the entity's positioning in the real estate sector have caused the entity to incur in losses before taxes of 592.6 million Euros in 2009, the tax effect of which is included in the amount of tax assets registered, which total, along with those of the prior year, 564.3 million Euros, net of deferred tax liabilities.			
			Furthermore, to assess the corrections for the value impairment of the investment in subsidiaries, Caja Castilla La Mancha Corporation, S.A. and Midamarta, S.L., the entity considered its tax assets, totalling 146 million Euros, resulting from the losses they incurred, with the future recovery of those tax assets being subject to the future evolution of profits or losses, as well as the actual implementation of the integration project mentioned ahead. Accumulated losses have caused the entity's equity to be negative in the amount of 193.4 million Euros, with the entity's solvency ratio (on a consolidated basis) standing at 8.22%, with an excess of concentration over the limits set forth in risks assumed with subsidiaries and multigroup companies that cannot be consolidated for regulatory capital requirement purposes.			
			In this context, the Executive Committee of Banco de España on 3 November 2009 approved the partial integration project of the entity into Banco Libertad, S.A., a company belonging to the Cajastur Group. At the date of the auditor's report (1 April 2010), this integration project was pending formalisation through the mandatory spin-off project and report issued by the administrators, relevant administrative authorisations, the resolution of certain legal inquiries and approval of the entity's General Meeting and of the General Shareholders' Meeting of Banco Libertad, S.A.			
			The annual accounts do not include the effects that could be derived from implementing this integration project. The aspects described in the above paragraphs are indicative of an uncertainty on the future evolution of the entity and its group, including the recovery of the abovementioned tax assets, which will essentially depend on whether the abovementioned integration project is definitively approved, as well as on the additional measures and decision resulting from its implementation.

DOGI INTERNATIONAL FABRICS, S.A.	YES						2	
<u>Unquantified qualifications</u>								
* Uncertainty caused by the Cofides claim of 3.4 million Euros involving a loan granted to the Chinese affiliate, jointly-and-severally guaranteed by the parent company. This amount, which is included as a contingent debt within the total insolvency debts, is not registered as a liability in the company's individual financial statements as at 31 December 2009; as company management considers that the negotiations underway with Cofides will enable them to reach a refinancing agreement between it and the Chinese affiliate, which will entail the parent company's remission of the payable. At the date of the auditor's report the abovementioned agreement was not formally drawn up.								
* Uncertainty about the company's capacity to continue doing business in a way that it can convert its assets and settle its liabilities in the amounts and according to their classifications disclosed in the annual accounts, which is subject to the approval of the composition with creditors, compliance of the business plan according to the terms and conditions set and the company's capacity to successfully, in financial terms, carry out its future ordinary operations and obtain the financing from its shareholders or third parties whenever necessary.								
DOGI INTERNATIONAL FABRICS, S.A.	YES						1	
<u>Unquantified qualifications</u>								
* Same as the second unquantified qualification in the individual audit.								
ESPAÑOLA DEL ZINC, S.A.	D/O						2	2
<u>Unquantified qualifications</u>								
* Limitation as the auditors were unable to circulate customers, suppliers, banks and lawyers to obtain their confirmation on operations in 2009 and on balances, commitments or contingencies as at 31 December 2009; hence, it has not been possible to verify the proper accounting bookings of all operations and commitments involving third parties, nor to determine, as the case may be, whether there are other legal liabilities or contingencies.								
* Limitation due to the fact that at the date of issue of the auditor's report the company does not have duly formalised accounting and administrative procedures, which is why the auditors cannot ensure that they have analysed the necessary, complete and accurate information in order to identify adjustments and other relevant facts that may affect financial statements, especially the «Public Administrations» and «Staff» captions. Neither have they been able to verify all of the representations made by the administrators to the Board Secretary regarding section 127 ter, subsection 4, of the Revised Text of Companies Act (TRLSA).

ESPAÑOLA DEL ZINC, S.A. (CONT.)							
FERGO AISA, S.A.						YES	3
						Unquantified qualifications	
						* The company's capacity to recover credits and receivables from companies in the group and associate companies, and the guarantees loaned to companies in the group and associate companies with financial institutions will depend on the capacity of these subsidiaries to generate earnings and re-establish their equity balance, a circumstance that, given the multiple relations between the group's companies, which are run by one management structure, is related to the going concern of the Fergo Aisa group as a whole.	
						* In determining the market value of stock valuations made by independent experts were used, based on the estimates of future cash flows, forecast profitability and comparable transactions. Considering the evolution in general of real estate asset valuations in the last few months, especially of rural land, which makes up a very significant part of the company's total stock, the fact that there are very few comparable transactions and the group's financial situation which can indicate the need to convert real estate assets in the short term, there may be additional impairments in the market value of the real estate assets that are not liable to objective valuation at the current date.

	Individual	Consolidated group	Qualifications affecting profit and loss	Qualifications affecting equity	Amounts	%	Uncertainties and others	Amounts	%	Limitations ²
INMOBILIARIA COLONIAL, S.A. (CONT.)										
<p>* As at 31 December 2009 Colonial has deferred tax assets and liabilities in the amount of 688 and 173 million Euros, respectively. The parent company's administrators have estimated the recovery of deferred tax assets based on a business plan that contemplates the turnover of certain assets belonging to Colonial group, as well as the conversion of certain investment transactions in the future. Consequently, the recovery of the capitalised tax credits will depend on whether the hypotheses contained in the business plan are fulfilled.</p>										
LA SEDA DE BARCELONA, S.A.	YES									
<p>Unquantified qualifications</p>										
<p>* Losses for the year totalled 402 million Euros, bringing equity to 93 million Euros, which makes the company fall under section 163 of the Companies Act. Debts total 888 million Euros and the working capital is negative at 330 million Euros. The company is in the final negotiation process to refinance the syndicated loan, a transaction related to the capital increase approved by the Shareholders' Meeting on 17 December 2009 in the amount of 300 million Euros, which is expected to take place in the first half of 2010. The company has reached agreements to restructure the debt with its main suppliers and the rest of the credit institutions. Under these conditions, the company's capacity to settle its liabilities and convert its assets will depend on the success of the outcome of the restructuring plan and, specifically, on the anticipated capital increase, on third parties refraining from enforcing certain guarantees and on the judgment that the English court will enter in May 2010 on the Scheme of Arrangement and on the syndicated loan in its entirety.</p>										
<p>* On 22 January 2010 the definitive Project Finance was executed between affiliate Artenius Sines PTA, S.A. and Caixa Geral de Depósitos, S.A. in the amount of 371 million Euros, subject to certain conditions, one of them involving the company's capital increase. Until that point in time Caixa Geral had granted the affiliate two bridge loans in 2008 and 2009 totalling 114 million Euros, and in January 2010 it granted a third loan with a 95 million Euro limit, all of them maturing on 15 July 2010 and secured by pledging all of the current and future shares that the company has of Artenius Sines, and the rights to use the land on which it stands. The project's feasibility and/or the company's involvement in that project are at stake, affecting the recoverability of the assets in that affiliate totalling 69 million Euros distributed among receivables, loans and equity instruments, and possibly affecting the commitments undertaken by the company with third parties, the amount of which totals 80 million Euros.</p>

COMPANY	AUDITS			QUANTIFIED QUALIFICATIONS ¹			UNQUANTIFIED QUALIFICATIONS		
	Individual	Consolidated group	Qualifications affecting profit and loss	Qualifications affecting equity	Uncertainties and others	Amounts	Limitations ²	Amounts	%
LA SEDA DE BARCELONA, S.A. (CONT.)									
<p>* The company holds an equity interest of 50.11% in the share capital of Simpe, S.p.A., with a totally impaired investment and balances receivable from that affiliate. Simpe has received subsidies (16.3 million) and loans (5.2 million Euros) from government agencies. To consider such subsidies as non-reimbursable and avoid the early repayment of the loans, it was decided, among other conditions, that the plant should start up operations on 30 June 2009 and continue running for a minimum of 5 years. It is currently inactive and Italian authorities have deferred this until 31 December 2010. Additionally, La Seda is undergoing negotiations to sell this affiliate. It is unknown whether La Seda will obtain the financial resources needed for Simpe to begin operations before 31 December 2010 and, consequently, not have to honour the guarantees granted in relation to the subsidies and the loans received for an overall amount of 30 million Euros.</p>									
<p>* The company holds an indirect interest in the share capital of UK, Ltd. through its interest in Artenius Holding, B.V. On 27 July 2009, Artenius UK voluntarily filed a legal petition to close down its plant located in Wilton (United Kingdom). The balances of trade payables and receivables have been impaired, as has the financial interest in the amount of 210 million Euros. On 25 March 2010 it was agreed with the English bankruptcy administrators that the company would settle a series of payables to suppliers in exchange for the company undergoing insolvency proceedings to refrain from claiming certain amounts owed to it by both the company and its affiliates, nor the guarantees granted. One of the terms of the agreement is for the bankruptcy administration to obtain the consent to the agreement of all suppliers whose debts are being borne by the Company and that the company carry out the capital increase. It is not possible to determine whether all terms and conditions and formalities needed to make the agreement effective before 31 July 2010, its expiration date, will be met.</p>									
<p>If this is not the case, other additional liabilities related to guarantees provided could be offered by La Seda to the creditors of Artenius UK in the amount of 21 million Euros, the only alternative being to renegotiate the agreements reached with Wilton's bankruptcy administrators, with the resulting impact on the annual accounts.</p>

METROVACESA, S.A. (CONT.)						
			*	In determining the market value of the company's investment property and inventory, valuations made by independent experts as at 30 December 2009 were used. Considering the past deviations, between the real estate asset sale prices and their available valuations, the general evolution in real estate asset valuations over the last few months and the company's financial situation, which can involve the need to convert assets in the short term, there may be additional impairments in the cost of the Company's real estate assets not registered in the annual accounts, which are not liable to objective quantification.		
METROVACESA, S.A.	YES			2		
Unquantified qualifications						
			*	Same as the first unquantified qualification in the individual audit.		
			*	Same as the second unquantified qualification in the individual audit.		
MOBILIARIA MONESA, S.A.	YES			1		
Unquantified qualifications						
			*	Investee company Delforca 2008, Sociedad de Valores, S.A. has a dispute with Banco de Santander, S.A., the final outcome of which will depend on a successful arbitral award issued by the Spanish Court of Arbitration in Madrid and whereby this company would be able to pay off a liability totalling 70 million Euros plus interest estimated as that date in the amount of 3.4 million Euros, not including legal fees.		
				In light of this situation, the company has sought the opinion of three independent experts on the likelihood of obtaining a successful award and the success of a hypothetical subsequent claim by Banco de Santander, whose conclusions set it at under 50%; hence, pursuant to current accounting regulations, the company and Mobiliaria Monesa itself have stated the aforementioned contingency in the report, without setting any provision whatsoever. However, in the hypothetical case that the award is favourable, this company may have to register a liability in an amount that to date cannot be objectively determined, and the limit of which could cause the company to have negative equity and insufficient liquid means to pay its debts, affecting the company's going concern if there is no financial support from its shareholders or other ways of re-establishing its equity.

		* The company holds indirect interests through its subsidiaries Natraceutical, S.A. and Txokal Oñati, S.L., in the companies of the subgroup Laboratoires Forté Pharma and in the companies Forté Pharma Ibérica, S.L.U., Natrajacali NV and Les Delices d'Ellezelles, S.P.R.L. The total amount of the investment in these companies exceeds its theoretical accounting value as a result of the implicit goodwill in those interests, which totals 96.6 million Euros. Management has drawn up business plans for these companies for the coming fiscal years that show financial forecasts with results that would make it possible to recover the registered value of these investments, which is why no impairment whatsoever was registered on their cost. Therefore, the future recoverability of the abovementioned investments is subject to compliance with the growth and profitability hypotheses established by the company's management in the abovementioned business plans.					
NATRA, S.A.	YES					2	
	Unquantified qualifications						
		* Same as the first unquantified qualification in the individual audit.					
		* On 30 December 2009, through its subsidiary Natraceutical, S.A., the group executed an integration agreement of its functional ingredients division with French company Naturex, S.A., receiving an interest in its share capital as consideration, as well as cash contributions subject to given conditions related basically to the final closing figures of fiscal 2009 of the companies involved in the agreement. As at the date of the auditor's report, the terms under which the final agreements will be carried out are pending conclusion, making it impossible to objectively determine the effects that may arise, as the case may be, on the accounting of this transaction as a result of the abovementioned description.

	YES						
	Unquantified qualifications						
	*	Uncertainty relating to the fact that the company's capacity to continue as a going concern, convert its assets, especially its inventories, property investments, and investments and loans to companies of the group and associate companies and joint ventures, and to settle its liabilities in the amounts and according to the classification disclosed in the annual accounts, which have been prepared on the assumption that the company's activity will continue, is subject to company operations mentioned in the report, recovery of the real estate market and the success of refinancing negotiations with its creditors.					
	YES						
	Unquantified qualifications						
	*	In 2009 the group offset its balances receivable and payable with a third party in the amount of 36.4 million Euros under a previous agreement. However, no confirmation was received from the third party, against whom insolvency proceedings have been filed by one of its creditors, as regards the offsetting carried out. With respect to part of these balances which total 4.1 million Euros, the group has received a claim demanding this amount, as the third party assigned that receivable to one of its creditors, the opinion of the group's legal advisors in this regard being favourable. Consequently, it is not possible to conclude on the offsetting carried out nor on the recoverability of the balance receivable that would arise, as it depends on both the final resolution of the existing claim and on the evolution of the third party's financial situation.					
	YES

QUABIT INMOBILIARIA, S.A.								

* As explained in note 26 to the consolidated annual accounts, different companies in the group have received income tax and value added tax assessment notices for different fiscal years, part of which have been appealed. The group registered part of the tax payable, totalling 10.1 million Euros, related to items which it estimates will have an unfavourable outcome, recognising an expense of 7.7 million Euros and a receivable from Public Administrations totalling 2.4 million Euros on account of the portion of reimbursement that will be requested for the amount already paid over in the Vizcaya Jurisdiction. No notices were registered for the 28.3 million Euros of the value added tax instalment and 4.6 million Euros for related interest, as, in accordance with the opinion of its advisors, these amounts should not have been paid over. The point in time in which these amounts become due and payable will depend on the outcome of the relevant appeals, and it is not possible to reach a conclusion in this regard.

YES

Unquantified qualifications

* In the following months the company will undertake two capital increases with which it will conclude the agreed-upon restructuring with the creditor banks of both the syndicated loan and the bridge loan, with both maturing on 19 May 2013. The capital increases will be approved by the General Shareholders' Meeting of the company once the relevant authorisations have been received from stock market authorities.

	Quantified qualifications					
	* As at the end of fiscal 2009 the company did not furnish sufficient information to its auditors for them to obtain evidence of the accounting value of given assets, which is why the auditor's report included a scope limitation. Subsequently, the auditor received the abovementioned information, representing that, as a result of the information obtained and its analysis, the situation that gave rise to the scope limitation resulted from a qualification due to a failure to comply with generally accepted accounting principles and an uncertainty.					

- (1) The column of qualifications affecting profit and loss includes the amounts of quantified qualifications on profit and loss for the year as represented by the auditors. Except in those cases in which the auditor has explicitly represented in its report that such qualifications refer to profit (loss) before taxes, as a general rule, the figure showing the effect of the auditor's quantified qualifications stated as a percentage of the profit (loss) for the year, has been calculated using the profit (loss) amount after taxes, included into the audited company's equity (individual and/or consolidated, as the case may be) at year end.
- The column showing qualifications affecting equity only includes the amounts that the auditor explicitly represents in its opinion, directly affecting the audited company's equity. Consequently, this column of qualifications on equity does not include the indirect effect on that equity of the quantified qualifications in the previous column of qualifications affecting profit (loss).
- Pursuant to the presentation system herein described, the theoretical total impact on equity as at year-end resulting from the set of quantified qualifications reflected by the auditor in its opinion would be the sum total of the amount reflected in the columns showing qualifications on profit (loss) (assuming that these qualifications comply with the general rule of pertaining to the profit (loss) included in equity) and the amount reflected in the column of qualifications affecting equity.

- (2) These auditor's reports include scope limitations on the work performed by the auditor. In order to overcome such limitations, the CNMV has requested the company to provide the auditor with the documentation necessary for the auditor to be able to complete the audit. The auditor's additional conclusions are added to the CNMV public audit register, together with the original.
- The purpose of this table is solely to provide concise information on the audits available at the CNMV for public consultation, as well as to provide an informative synopsis on the qualifications that may be included in those reports. However, the full understanding of the auditor's opinion can be obtained only by fully reading the relevant auditor's report.
