Included in the Chapter 4
of the 2022 Consolidated Management Report
on Telefónica, S.A. and its Group of Companies

4.1. Main aspects of Corporate Governance in 2022 and prospects for 2023

GRI 2-9, 2-17

4.1.1. Corporate Governance System

Telefónica's basic corporate governance principles are set forth in its Bylaws, in the Regulations of its Board of Directors, in the Regulations for the General Shareholders' Meeting, in the Regulations for the Audit and Control Committee, in the Regulations for the Nominating, Compensation and Corporate Governance Committee, in the Internal Code of Conduct for Securities Markets Issues, and in certain Policies relating to this matter; particularly noteworthy, among others, are the Diversity Policy in relation to the Board of Directors and the Selection of Board Members, the Disclosure, Contact and Engagement Policy for Shareholders, Institutional Investors and Proxy Advisors, the Remuneration Policy of the Directors of Telefónica, S.A. and the Responsible Business Policy. These regulations determine the action principles of the Board, govern its organization and operation, and set the rules of conduct of its members.

The principles underlying Telefónica's corporate governance are the following:

- a. the maximization of the value of the Company in the interest of the shareholders,
- b. the essential role of the Board of Directors in the supervision of the management of the Company, and
- c. transparency as regards information in relations with its stakeholders including employees, shareholders, investors and customers, among others.

As provided in the Regulations of the Board of Directors, the Board will take the necessary measures to ensure: (i) that the Company's management team pursues the creation of value for the shareholders, (ii) that such management team is under its actual supervision, (iii) that no person or small group of persons holds a decision-making power that is not subject to checks and balances or controls, and (iv)

that any shareholder receives privileged treatment compared to the others.

4.1.2. Continuous improvement of Corporate Governance

Telefónica undertakes the firm commitment to continuously improve its corporate governance framework by expanding, enhancing and consolidating best practices in this subject.

In relation to the above, the Company carries out an ongoing analysis and review of its corporate governance structures and the degree of compliance with the main recommendations existing in the subject of good governance, always in consideration of possible initiatives to make short and medium term improvements and seeking out the formula for governance that best defends the interests of its shareholders and value creation.

In this context, as it has done throughout the 2021 financial year, Telefónica has continued to improve and strengthen its corporate governance framework in 2022 by, among other measures: i) the continuous implementation of Training and Information Programmes to all members of its Board of Directors for the purpose to continue to comply with the best practices and recommendations in Corporate Governance; ii) the celebration, for the first time, of the General Meeting of Shareholders in hybrid format, for the purposes of ensuring an effective commitment with the Company's shareholders; and iii) the update of part of its regulations and internal policies in those matters where it has been required (for example, the Equality Policy of the Telefónica Group).

The detail of the matters indicated in the above paragraphs is given below:

> Training and Information Programme

Telefónica continually offers all members of its Board of Directors training programmes and refresher

courses on those aspects of special importance to the performance of their duties.

In this regard, throughout the 2022 financial year, training and information sessions have been imparted to the members of the Board of Directors related to the following topics, among others:

- Sustainability:
 - Workshop oriented towards providing a general view on the main ESG criteria from Telefónica's perspective, given on January 25, 2022.
 - Training session on European Taxonomy, specifically on the regulatory development related to the financial sector with the attainment of the decarbonisation goals of the European economy, and with the compliance of the United Nations' Sustainable Development Goals, given on May 30, and June 6, 2022.

In addition, the Company has an onboarding process for new Board Members, which provides them with a welcome pack with important information about the Company. The purpose is for new member of the Board of Directors or its Committees can have the right support they need to rapidly get up to speed regarding the Company and its Group, in such way that from they can actively perform their duties immediately after their appointment.

Some of the most important documents provided to the new Board Members are: (i) the basic corporate regulations (Bylaws, Regulations for the General Shareholders' Meeting, Regulations of the Board of Directors, Regulations of the Audit and Control Committee, and Regulations for the Nominating, Compensation and Corporate Governance Committee. Similarly, the Diversity Policy in relation to the Board of Directors and the Selection of Board Members, the Remuneration Policy of the Directors, and the Disclosure, Contact and Engagement Policy for Shareholders, Institutional Investors and Proxy Advisors); (ii) the Internal Code of Conduct for Securities Markets Issues (RIC), which establishes a

series of communication obligations and restrictions on carrying out operations with securities issued by companies of the Telefónica Group; (iii) the Responsible Business Policy; (iv) the Schedule of ordinary sessions of the Board of Directors and of the Board Committees; and (v) the presentation of the Company's governing bodies and the organisational structure.

> General Shareholders' Meeting 2022

The General Shareholders' Meeting held on April 8, 2022, took place for the first time in a hybrid mode, that is, with the attendance of shareholders in-person and online. However, as a consequence of the health crisis caused by COVID-19, and given the possibility that, on the date scheduled for the General Shareholders' Meeting, there might be some type of regulatory limitation or recommendation from the health authorities that would affect people's mobility or their ability to convene, the Company's Board of Directors recommended that shareholders or their representatives participate remotely in the General Meeting (by granting a proxy or casting a vote prior to the Meeting, or by attending the meeting remotely) following the Meeting by audiovisual means through the Company's corporate website, advising against physical attendance .

The objective pursued by Telefónica was to offer a format for the General Meeting of Shareholders that was attractive and accessible, to thus ensure the Company's effective commitment to its shareholders. In following, the key points highlighted at the General Meeting of Shareholders of Telefonica S.A. in 2022 are detailed:

- Significant increase in the quorum of attendance (58.58%), with the highest quorum since 2009, and the participation of shareholders and investors.

- Possibility of attending and exercising the rights of the shareholders online.
- Full broadcast in live streaming of the General Meeting of Shareholders.

> Update of Corporate Regulations and Policies

Goods and Services (NCC-003); and (v) the Regulations on Sanctions.

At its meeting held on May 31, 2017, the Board of Directors of the Company approved the General Framework for Discretionary Treasury Shares Operations of Telefónica, S.A., as provided in articles 16.2 and 17.6 of Telefónica's Internal Rules of Conduct in Matters Relating to the Securities Markets (the "IRC").

Such General Framework sets forth the discretionary action principles for the management of treasury shares, observing and respecting the provisions of the above-mentioned Rules, particularly as regards restrictions on price, volume and timing of the transactions.

As of the closing date of the 2022 fiscal year, the number of direct shares held as treasury shares stood at 85,217,621 (1.48% of the share capital).

As for the changes in treasury shares that occurred during the fiscal year, see [Note 17 \(Equity\)](#) of the Consolidated Accounts of Telefónica, S.A. for fiscal year 2022.

Furthermore, and in connection with the authorization granted to the Board of Directors by the shareholders at the General Shareholders' Meeting to acquire the Company's own shares, the shareholders acting at the Ordinary General Shareholders' Meeting of Telefónica held on June 8, 2018 resolved to renew the aforementioned authorization granted by the shareholders themselves at the General Shareholders' Meeting of May 30, 2014 for the derivative acquisition of own shares, either directly or through companies of the Group, on the terms that are literally set forth below:

"A) To authorize, pursuant to the provisions of Section 144 et seq. of the Spanish Companies Act (Ley de Sociedades de Capital), the derivative acquisition by Telefónica, S.A., either directly or through any of the subsidiaries, at any time and as many times as it deems appropriate, of its own fully-paid in shares through purchase and sale, exchange or any other legal transaction.

The minimum acquisition price or minimum value consideration shall be equal to the par value of the shares of its own stock acquired, and the maximum acquisition price or maximum value consideration shall be equal to the listing price of the shares of its own stock acquired by the Company on an official secondary market at the time of the acquisition.

Such authorization is granted for a period of five years as from the date of this General Shareholders' Meeting and is expressly subject to the limitation that the par value of the Company's own shares acquired directly or indirectly pursuant to this authorization added to those already held by Telefónica, S.A. and

any of its subsidiaries shall at no time exceed the maximum amount permitted by the Law at any time, and the limitations on the acquisition of the Company's own shares established by the regulatory Authorities of the markets on which the shares of Telefónica, S.A. are traded shall also be observed.

It is expressly stated for the record that the authorization granted to acquire shares of its own stock may be used in whole or in part to acquire shares of Telefónica, S.A. that it must deliver or transfer to directors or employees of the Company or of companies of its Group, directly or as a result of the exercise by them of their option rights, all within the framework of duly approved compensation systems referencing the listing price of the Company's shares.

- B) *To authorize the Board of Directors, as broadly as possible, to exercise the authorization granted by this resolution and to implement the other provisions contained therein; such powers may be delegated by the Board of Directors to the Executive Commission, the Executive Chairman of the Board of Directors, the Chief Operating Officer or any other person expressly authorized by the Board of Directors for such purpose.*
- C) *To deprive of effect, to the extent of the unused amount, the authorization granted under Item V on the Agenda by the shareholders at the Ordinary General Shareholders Meeting of the Company on May 30, 2014."*

Authorisation to increase share capital

As regards the authorizations conferred in respect of the share capital, and in addition to the authorization already described to acquire the Company's own shares, the shareholders acting at the Ordinary General Shareholders' Meeting held on June 12, 2020 resolved to delegate to the Board of Directors, as broadly as required by Law, pursuant to the provisions of Section 297.1.b) of the Companies Act, the power to increase the share capital on one or more occasions and at any time, within a period of five year from the date of adoption of such resolution, by the maximum nominal amount of 2,596,065,843 euros, equal to one-half of the share capital of the Company on the date of adoption of the resolution at the General Shareholders' Meeting, issuing and floating the respective new shares for such purpose with or without a premium, the consideration for which will consist of monetary contributions, with express provision for incomplete subscription of the shares to be issued. The Board of Directors was also authorized to exclude pre-emptive rights in whole or in part, as provided in section 506 of the Companies Act. However, the power to exclude pre-emptive rights is limited to 20% of the share capital on the date on which the resolution is adopted. In accordance with the above-mentioned authorization, as of the end of fiscal year 2022, the Board

would be authorized to increase the share capital by the maximum nominal amount of 2,596,065,843 euros.

Furthermore, the shareholders at the Ordinary General Shareholders' Meeting of Telefónica, S.A., held on June 12, 2020, delegated to the Board of Directors, in accordance with the general rules governing the issuance of debentures and pursuant to the provisions of applicable law and the Company's Bylaws, the power to issue debentures, bonds, notes and other fixed-income securities and hybrid instruments, including preferred shares, which may in all cases be simple, exchangeable and/or convertible and/or grant the holders thereof a share in the earnings of the Company, as well as warrants, with the power to exclude the pre-emptive rights of shareholders. The aforementioned securities may be issued on one or more occasions, within a maximum period of five years as from the date of adoption of the resolution. However, the power to exclude pre-emptive rights is limited to 20% of the share capital on the date on which the resolution is adopted. The securities issued may be debentures, bonds, notes and other fixed-income securities, or debt instruments of a similar nature, or hybrid instruments in any of the forms admitted by Law (including, among others, preferred interests) both simple and, in the case of debentures, bonds and hybrid instruments, convertible into shares of the Company and/or exchangeable for shares of the Company, of any of the companies of its Group or of any other company and/or giving the holders thereof an interest in the corporate earnings. Such delegation also includes warrants or other similar instruments that may entitle the holders thereof, directly or indirectly, to subscribe for or acquire newly-issued or outstanding shares, payable by physical delivery or through differences. The aggregate amount of the issuance or issuances of instruments that may be approved in reliance on this delegation may not exceed, at any time, 25,000 million euros or the equivalent thereof in another currency. In the case of notes and for purposes of the above-mentioned limits, the outstanding balance of those issued in reliance on the delegation shall be computed. In the case of warrants, and also for the purpose of such limit, the sum of the premiums and exercise prices of each issuance shall be taken into account.

Furthermore, under the aforementioned delegation resolution, the shareholders at the Ordinary General Shareholders' Meeting of Telefónica, S.A. resolved to authorize the Board of Directors to guarantee, in the name of the Company, the issuance of the aforementioned instruments issued by the Companies belonging to its Group of Companies, within a maximum period of five years as from the date of adoption of the resolution.

Restrictions on the transferability of securities and/or voting rights

As for the existence of restrictions on the transfer of securities and/or voting rights, in accordance with article

26 of the Company's Bylaws, no shareholder may exercise a number of votes exceeding 10 percent of the total share capital with voting rights existing at any time, regardless of the number of shares held, all of the foregoing with full and mandatory submission to the provisions of the Law. In determining the maximum number of votes that each shareholder may cast, only the shares held by the shareholder in question shall be computed, not including those held by other holders who have delegated their representation to that shareholder, without prejudice to the application of the same percentage limit of 10% to each of the shareholders represented individually.

The limitation established in the preceding paragraph shall also apply to the maximum number of votes that may be cast –either jointly or separately– by two or more shareholder companies belonging to the same group of entities, as well as to the maximum number of votes that may be cast by an individual or legal entity that is a shareholder, and the entity or entities, also shareholders, that the former directly or indirectly controls.

For the purposes indicated in the preceding paragraph, in order to consider the existence of a group of entities, as well as the control situations indicated above, the provisions of section 18 of the Companies Act shall apply.

Establishing in the Bylaws the maximum number of votes that may be cast by the same shareholder or by shareholders belonging to the same group (article 26 of the Bylaws) is warranted because the purpose of such measure is to establish an appropriate balance and to protect the position of minority shareholders, preventing a possible concentration of votes on a small number of shareholders, which could affect the furtherance of the corporate interest or the interest of all the shareholders as a guide for the actions of the shareholders at the General Shareholders' Meeting. Telefónica believes that this measure does not constitute a mechanism to block public tender offers but rather a guarantee that the acquisition of control will require sufficient consensus among all the shareholders since, as is natural and may be seen from experience, potential offerors may condition their offer to the removal of such requirement.

In addition, and in accordance with section 527 of the Companies Act, at listed companies, bylaw provisions that directly or indirectly establish, in general terms, the maximum number of votes that may be cast by a single shareholder, companies belonging to the same group or those acting in concert with the foregoing shall cease to have effect when, following a public tender offer, the offeror has reached a percentage equal to or greater than 70 percent of the capital carrying voting rights, unless such offeror is not subject to equivalent neutralization measures or has not adopted them.

On the other hand, the provisions of Law 19/2003, of July 4, on the Legal System of Transfers of Capital and of Financial Transactions with Foreign Countries (the Law 19/2003) also apply, which provisions establish that the Government may decide the suspension of the regime of deregulation on foreign investments set out therein in the event of acts, businesses, transactions or operations that, because of their nature, form or conditions of performance, affect or may affect activities related, even if only occasionally, to public order or activities directly related to the national defense, or activities that affect or may affect public order, public safety and public health, as well as the provisions of Royal Decree 664/1999, of April 23, on foreign investments.

In addition, account should be taken of the latest amendments to Law 19/2003 (introduced by Royal Decree-Law 8/2020 of March 17, Royal Decree-Law 11/2020 of March 31, Royal Decree-Law 34/2020 of November 17, Royal Decree-Law 12/2021 of June 24, Royal Decree-Law 27/2021 of November 23, and Royal Decree-Law 20/2022 of December 27) which, in addition to maintaining the aforementioned regime, establishes the suspension of the liberalisation regime for certain investment operations, particularly affecting foreign direct investment in Spain in certain sectors, including the telecommunications sector. This regime establishes a compulsory process, based on reasons of security, public order and public health, which implies that the closure of certain investment operations in Spain is subject to prior administrative authorisation, when the circumstances provided for in the aforementioned regulation are met.

On the other hand, the shareholders at a General Shareholders' Meeting of Telefónica, S.A. have not resolved to adopt any neutralization measure in the event of a public tender offer in reliance on the provisions of the Securities Market Act.

4.2.2. Significant Shareholders

GRI 2-9, 2-10

4.3.1. Shareholders' Rights

The Bylaws of Telefónica, S.A. provide for a single class of shares (common shares), giving all the holders thereof identical rights. There are no non-voting shares or shares, or a loyalty vote, carrying more than one vote or with privileges in the distribution of dividends, or reinforced quorum or qualified majorities other than those established by law.

There is no provision for the shareholders at a General Shareholders' Meeting having to approve decisions entailing an acquisition, disposition or the contribution to another company of essential assets or similar corporate transactions other than those established by law.

This section describes some of the main rights of the shareholders of the Company.

Right to receive information

The General Shareholders' Meeting is called as much in advance as required by law, through a notice published in, at a minimum, (i) the Official Gazette of the Commercial Registry or one of the widest circulation dailies in Spain, (ii) the website of the National Securities Market Commission and (iii) the Company's corporate website.

The notice published on the Company's corporate website remains accessible on a continuous basis at least until the holding of the General Shareholders' Meeting. Likewise, the Board of Directors may publish notices in other media, if it deems appropriate, in order to ensure public and effective dissemination of the call to meeting.

From the date of publication of the notice of the call to the General Shareholders' Meeting, the Company makes available to its shareholders the documents and information that must be provided to them in accordance with legal or bylaw-mandated requirements in connection with the various items included on the agenda; such items and documents are posted on the Company's website from the above-mentioned date. Notwithstanding the foregoing, shareholders may obtain such documents and information immediately and free of charge at the Company's registered office, and request that they be delivered or mailed to them free of charge, in the cases and on the terms established by law.

In addition, from the date of publication of the call to the General Shareholders' Meeting and until the fifth day prior to the date set for the holding of the meeting on first call, any shareholder may request in writing such

information or clarifications or ask such questions in writing as it deems relevant concerning the matters included on the Agenda of the call to meeting, or concerning the information accessible to the public that the Company may have provided to the National Securities Market Commission since the holding of the immediately preceding General Shareholders' Meeting, or concerning the auditor's report.

The Board of Directors will be required to provide in writing, until the day of the holding of the General Shareholders' Meeting, the requested information or explanations, as well as to reply, also in writing, to the questions asked. The replies to the questions and to the requests for information will be sent through the Secretary of the Board of Directors by any of the members of the Board or by any person expressly authorized by the Board of Directors for such purpose.

During the holding of the General Shareholders' Meeting, shareholders may request such information or explanations as they deem appropriate concerning the matters included on the Agenda or with respect to the information accessible to the public provided by the Company to the National Securities Market Commission since the holding of the last General Shareholders' Meeting or concerning the auditor's report. In the event that it is impossible to satisfy the shareholder's right at that time, the Board of Directors will be required to provide such information in writing within seven days of the end of the General Shareholders' Meeting.

The Board of Directors will be required to provide the requested information as described in the two preceding paragraphs in the manner and within the periods established by law, except in those cases where (i) such information is unnecessary for the protection of the shareholder's rights or there are objective reasons to consider that it could be used other than for corporate purposes, or the dissemination thereof would harm the Company or its related companies; (ii) the request for information or explanations does not relate to matters included on the Agenda or, in the case of paragraph two of this subsection (Right to Receive Information), to information accessible to the public that was provided by the Company to the National Securities Market Commission since the holding of the last General Shareholders' Meeting; and (iii) it is so established in statutory or regulatory provisions. The exception described in subsection (i) above shall not apply if the

information was requested by shareholders representing at least one-fourth of the share capital.

The replies to shareholders attending the General Shareholders' Meeting from a distance electronically and simultaneously and exercising their right to receive information through such procedure shall be provided, where applicable, during the meeting itself, or in writing, within seven days following the General Shareholders' Meeting.

Supplement to the call to the General Shareholders' Meeting and right to submit new proposals for agreement

Shareholders representing at least three percent of the share capital may request that a supplement to the call to the Ordinary General Shareholders' Meeting be published, including one or more items on the Agenda, provided the new items are accompanied by a rationale or, if appropriate, by a duly substantiated proposed resolution. In addition, and on the terms set forth in section 519 of the Companies Act (Ley de Sociedades de Capital), shareholders representing at least three percent of the share capital may, within five days following publication of the notice of the call to meeting, submit duly substantiated proposed resolutions on matters already included or that must be included on the Agenda. Such rights shall be exercised by means of duly authenticated notice, which must be received by the Company in accordance with the provisions of the Law.

Right to attend and to appoint a proxy

Shareholders holding at least 300 shares registered in their name in the respective book-entry register five days prior to the General Shareholders' Meeting and providing evidence thereof through the respective attendance card or certificate issued by the Company or by any of the Depositary Entities Members of Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. (IBERCLEAR) or in any other form allowed by applicable legislation, may attend the General Shareholders' Meeting called.

Any shareholder having the right to attend may be represented at the General Shareholders' Meeting by another person, even if such person is not a shareholder. Proxies may be granted through the proxy forms printed on the attendance cards or in any other manner allowed by law, without prejudice to the provisions of the Companies Act regarding cases of representation by family members and the grant of general powers of attorney. The documents granting the proxy for the General Shareholders' Meeting shall include instructions concerning the direction of the vote. Unless the shareholder granting the proxy expressly states otherwise, it shall be deemed that such shareholder issues precise voting instructions in favor of the proposed resolutions submitted by the Board of Directors on the matters included on the Agenda. If there are no voting

instructions because the shareholders acting at the General Shareholders' Meeting could decide on matters that, while not included on the Agenda and therefore not known on the date on which the proxy is granted, might be put to a vote at the General Shareholders' Meeting, the proxy shall cast the vote in the direction the proxy considers best, taking into account the interest of the Company and that of the shareholder the proxy represents. The same provisions shall apply when the respective proposal or proposals submitted to a decision of the shareholders at the General Shareholders' Meeting were not made by the Board of Directors.

It is expressly stated for the record that the notice of call of the last Ordinary General Shareholders' Meeting expressly provided that unless the shareholder granting the proxy expressly stated otherwise, such shareholder would be deemed to issue precise instructions to vote against the respective resolution on any matter that, while not included on the Agenda and therefore not known on the date on which the proxy was granted, might be put to a vote at the General Shareholders' Meeting.

If the proxy document does not state the specific person to whom the shareholder grants his proxy, it shall be deemed to have been granted to the Chair of the Board of Directors of the Company or to the person who may replace him as Chair of the General Shareholders' Meeting. If the appointed proxy should be in a situation of conflict of interest regarding the vote on any of the proposals which, whether or not included on the Agenda, are submitted at the General Shareholders' Meeting and the shareholder granting the proxy has not issued precise voting instructions, the proxy shall be deemed to have been granted to the Secretary for the General Shareholders' Meeting.

Shareholders who are not holders of the minimum number of shares required to attend may also grant a proxy in writing with respect to such shares to a shareholder with the right to attend or form a group with other shareholders in the same situation until they have the necessary number of shares, and grant a proxy in writing to one of them.

Right to vote and adoption of resolutions

Every share present in person or by proxy at the General Shareholders' Meeting shall entitle the holder thereof to one vote.

Resolutions shall be adopted by simple majority, meaning that proposed resolutions will be approved when the number of votes in favor of each proposal is greater than the number of votes against it (regardless of the number of blank votes and abstentions), without prejudice to the reinforced voting quorums established in the law and in the Bylaws.

Rules for amending the Company's Bylaws

The Bylaws and Regulations for the General Shareholders' Meeting of Telefónica confer upon the shareholders acting at a General Shareholders' Meeting the power to approve the amendment of the Bylaws (articles 15 and 5, respectively), subject to applicable legal provisions for all other matters.

The procedure for amending the Bylaws is established in sections 285 and seq. of the Companies Act, and must be approved at the General Shareholders' Meeting complying with the quorum and majorities required in sections 194 and 201 of the same law. In particular, if the General Shareholders' Meeting is summoned to deliberate on Bylaw amendments, including capital increases or reductions, on eliminating or restricting preemptive rights in respect of new shares and on the transformation, merger, spin-off or the global assignment of assets and liabilities and the relocation of the registered office abroad, then shareholders that own at least fifty percent of the subscribed capital with voting rights will have to be present or be represented by proxy on first call. If there is no sufficient quorum, the General Shareholders' Meeting will be held on second call, in which case at least twenty-five percent of the subscribed capital with voting rights will need to be present, either in person or by proxy. When shareholders that represent less than fifty percent of the subscribed capital with voting rights are present at the Meeting, either in person or by proxy, the resolutions referred to above may only be approved when two-thirds of the capital, present or represented by proxy at the Meeting, vote in favor of the resolution.

Pursuant to section 286 of the Companies Act, if the Bylaws are amended, the Directors or, if appropriate, the shareholders who made the proposal must draw up in full the text of their proposed amendment and a written report justifying the amendment, which must be made available to the shareholders when the General Shareholders' Meeting is called to deliberate on the amendment.

Furthermore, and pursuant to section 287 of the Companies Act, the notice calling the General Shareholders' Meeting must clearly state the items that might be amended, and note that all the shareholders are entitled to analyze the full text of the proposed amendment and the report on such amendment at the registered offices, as well as to request such documents to be delivered or sent to them free of charge.

Pursuant to section 291 of the Companies Act, when new obligations are established for the shareholders due to an amendment of the Bylaws, the resolution must be passed with the approval of the affected shareholders. Furthermore, if the amendment directly or indirectly affects a type of shares, or part of them, the provisions of section 293 of such Act shall apply.

The procedure for voting on proposed resolutions at the General Shareholders' Meeting is regulated in section 197

of the Companies Act and in the internal regulations of Telefónica (in particular, article 23 of the Regulations for the General Shareholders' Meeting). This article states, among other things, that when amendments are made to the Bylaws, each article or group of articles which is materially different will be voted on separately.

Structure of the Board of Directors (size, composition, diversity, procedure for selecting Directors)

Size

As of December 31, 2022, and on the date of issuance of this Report, the Board of Directors was and is composed of 15 members, whose profiles and professional career appear in Section related to "Professional career of the members of the Board of Directors". Specifically, at the 2022 Annual General Meeting, the number of members of the Board of Directors was set at 15 in accordance with the provisions of article 29 of the Bylaws.

The number of members of the Board of Directors is sufficient to achieve the Board's effective and operational functionality, according to the organizational structure of the Group.

Likewise, it is important to bear in mind that the Board of Directors of the Company has six Committees (the Executive Commission and five Advisory Committees), thereby ensuring the active participation of all of its Directors.

Composition by category of Director

- Executive Directors: 2/15
- Independent Directors: 9/15

The independent Directors represent 60% of the Board of Directors, which complies with corporate governance recommendations, which require that the management body consist of a large majority of external Directors and that the number of independent Directors represent at least one-half of the total number of Directors. It should be noted that these recommendations have been expressly incorporated in the Regulations of the Board of Directors of the Company, as amended on December 16, 2020.

- Proprietary Directors: 2/15
- Other External Directors: 2/15

Mr. Peter Erskine and Mr. Francisco Javier de Paz Mancho are considered to be Other External Directors, for the following reasons:

Mr. Peter Erskine was appointed a Director of Telefónica, S.A. in 2006, such that, more than 12 years after his appointment, and in accordance with the provisions of section 529 *duodecies* of the Companies Act, in 2018 he was reclassified from Independent Director to Other External Director.

Similarly, Mr. Francisco Javier de Paz Mancho was appointed a Director of Telefónica, S.A. in 2007, such that, more than 12 years after his appointment, and in accordance with the provisions of section 529 *duodecies* of the Companies Act, in 2019 he was reclassified from Independent Director to Other External Director.

Diversity

Telefónica S.A. has a Director Selection Policy as of November 25, 2015. This Policy was updated i) on December 13, 2017 to include the Diversity Policy applicable to the Board of Directors and, consequently, was renamed the Diversity Policy in relation to the Telefónica, S.A. Board of Directors and the Selection of Directors, and ii) on December 16, 2020, in order to adapt this Policy to the applicable regulations and, specifically, to the recommendations of the Good Governance Code of the National Securities Market Commission (CNMV), which was partially reformed in June 2020.

This Policy ensures that the procedures for selecting Directors are based on a prior analysis of the skills required by the Board of Directors, and favors thereof diversity of knowledge, training and professional experience, age, disability and gender on the Board, free from any implicit bias that might imply any form of discrimination, particularly on account of gender, disability or any other personal condition, and that facilitate the selection of female Directors in a number that allows the achievement of an equal balance of women and men.

In accordance with the provisions of said Policy, the selection of candidates to serve as a Director at Telefónica adheres to the following principles:

1. An effort is made to ensure that the Board of Directors has a balanced composition, with a large majority of non-Executive Directors and an appropriate mix of Proprietary and Independent Directors, while also endeavoring to ensure that Independent Directors have sufficient weight within the Board of Directors.
2. The Board of Directors endeavors to ensure that the procedures for the selection of Directors favor diversity of knowledge, training, professional experience, age and

gender, and are free from any implicit biases that might imply any form of discrimination. All of the foregoing is in order for the Board of Directors to have an appropriate, diverse and balanced composition overall, which i) enriches analysis and debate, ii) contributes multiple viewpoints and positions, iii) favors decision-making taking into account the nature and complexity of the business, as well as the social and environmental context, iv) gives it maximum independence, and v) allows for compliance with legal requirements and good governance recommendations in relation to composition and suitability required to be met by the members of the various internal oversight Committees of the Board of Directors.

In particular, the Company's Board of Directors promotes the aim of inclusion of female Directors, as well as measures that promote the Company having a significant number of female senior executive officers based on good governance recommendations, all without prejudice to the key principles of merit and ability that must govern all of the Company's staff selection processes.

The Board of Directors regularly evaluates the degree of compliance and effectiveness of this Policy and, in particular, the percentage of female directors at any given time.

In particular, and on the occasion of the proposal for re-election, ratification and appointment of the members of the Board of Directors submitted to the 2022 Ordinary General Shareholders' Meeting, both the Nominating, Compensation and Corporate Governance Committee and the Board of Directors verified compliance with the Policy, taking into account, among other issues, diversity of knowledge, training, experience and age.

3. The process for the selection of candidates to serve as Directors is also based on a prior analysis of the skills required by the Board of Directors. Such analysis is conducted by the Company's Board of Directors, with the advice and with the required report or proposal, if applicable, of the Nominating, Compensation and Corporate Governance Committee.

4. In the case of re-election or ratification, the report or proposal of the Nominating, Compensation and Corporate Governance Committee contains an evaluation of the work and effective dedication to the position for the most recent period of time during which the proposed Director has been in that position, as well as the Director's ability to continue to perform satisfactorily.

5. The required report or proposal of the Nominating, Compensation and Corporate Governance Committee is published upon the call to the General Shareholders' Meeting at which the ratification, appointment or re-election of each Director is submitted.

Furthermore, the Board of Directors and the Nominating, Compensation and Corporate Governance Committee ensure, within the scope of their respective powers, that the candidates chosen for the position of Director are persons

of recognized probity, competence and experience, who are willing to devote the time and effort required for the performance of their duties, exercising rigorous care in the selection of the persons called upon to serve as Independent Directors.

Accordingly, all the candidates for the position of Director shall be professionals of integrity, whose conduct and professional career is in line with Telefónica's Responsible Business Principles.

Additionally, candidates for Director shall be considered in particular if they have professional experience, in telecommunications, technology, consumer awareness, ESG knowledge, marketing, accounting, auditing, risk management (both financial and non-financial) and international experience and team leadership in multinationals will be valued.

On the other hand, with regard to gender diversity, the Company has purposely sought out women who fit the required professional profile. In this regard, the Company has made a qualitative leap in terms of the percentage represented by female Directors with respect to the total number of members of the Board of Directors, having gone from 11.11% in 2016 to 33.33% at this time.

All of the measures and procedures that have been agreed upon and adopted by the Board of Directors and by the Nominating, Compensation and Corporate Governance Committee in order to include on the Board a number of females that enables a balanced presence of women and men, and to prevent the selection procedures from being affected by any implicit bias that would hinder the appointment of female Directors, have been initiated and implemented by the Company.

Similarly, in the change in the composition of the Company's Board of Directors that was implemented in 2017, at the proposal of the Nominating, Compensation and Corporate Governance Committee, the Board of Directors unanimously appointed Ms. Carmen García de Andrés as an Independent Director of Telefónica. This appointment was ratified by the shareholders at the Ordinary General Shareholders' Meeting of Telefónica held on June 9, 2017.

Likewise, in 2018 the Company's Board of Directors, at the proposal of the Nominating, Compensation and Corporate Governance Committee, unanimously appointed Ms. María Luisa García Blanco as an Independent Director of Telefónica. This appointment was ratified by the shareholders at the Ordinary General Shareholders' Meeting of Telefónica held on June 8, 2018.

On the other hand, in 2019 the Company's Board of Directors, at the proposal of the Nominating, Compensation and Corporate Governance Committee, unanimously appointed Ms. Claudia Sender Ramírez and Ms. Verónica Pascual Boé as Independent Directors of Telefónica. These appointments were ratified by the Ordinary General Shareholders' Meeting of Telefónica held on June 12, 2020,

at which both were appointed as Directors for the statutory term of 4 years.

Finally, in 2021, the Board of Directors of the Company unanimously appointed, at the proposal of the Nominating, Compensation and Corporate Governance Committee, Ms. María Rotondo Urcola as an independent Director of Telefónica. This appointment was ratified by the Ordinary General Shareholders' Meeting of Telefónica held on April 8, 2022, at which she was appointed Director for the statutory term of 4 years.

It should also be noted that the same criteria and principles that the Company applies to the process of selecting and appointing the members of the Board of Directors are applied to the appointment of the Directors who are part of the various Committees of the Company's Board of Directors, as well as, with regard to gender diversity, the appointment of female senior executive, all without prejudice to the key principles of merit and ability that must govern all of the Company's staff selection processes.

In this regard, in 2021 the Nominating, Compensation and Corporate Governance Committee verified compliance with the Diversity Policy in relation to the Board of Directors of Telefónica, S.A. and the selection of Directors on the occasion of the appointment of Ms María Rotondo Urcola as Director and the appointment of the members of the Committees of the Board of Directors.

Likewise, compliance with the aforementioned Policy was verified on the occasion of the proposal for re-election, ratification and appointment of Directors submitted and approved by the Ordinary General Shareholders' Meeting of April 8, 2022.

On the occasion of the proposed re-election, ratification and appointment of the members of the Board of Directors, information was provided to shareholders on the diversity criteria and objectives in the reports prepared by the Board of Directors and the Nominating, Compensation and Corporate Governance Committee.

In this regard, the Nominating, Compensation and Corporate Governance Committee verified that, in the process of preparing and approving the proposals for re-election, ratification and appointment of Directors that were submitted to the General Shareholders' Meeting in 2022, the provisions of the Diversity Policy in relation to the Board of Directors of Telefónica, S.A. were complied with, following an adequate and rigorous procedure to ensure that the proposals that were made, as appropriate, by the Board of Directors (in relation to proposals affected non-independent Directors, following a favorable report from the Nominating, Compensation and Corporate Governance Committee) or by the Nominating, Compensation and Corporate Governance Committee (in relation to proposals that affected independent Directors) were in the best interests of the Company.

Lastly, with regard to performance evaluation, the Board of Directors conducts an annual evaluation of its operation

and of that of its Committees, assessing in particular the application, in terms of the composition and competencies of the Board of Directors, of the various aspects of diversity included in the aforementioned Policy, as well as the performance of the Chairman of the Board of Directors, of the Company's Chief Executive Officer and of the various Directors, paying special attention to the heads of the various Board Committees and adopting appropriate measures for their improvement. This assessment is carried out every 3 years with the assistance of an external consultant, whose independence is verified by the Nominating, Compensation and Corporate Governance Committee. In this regard, as indicated at the end of this section under the title "Evaluation of the Board and of its Committees", for the evaluation corresponding to the financial year 2020, the Company has been supported by Egon Zehnder as external advisor.

The Diversity Policy in relation to the Telefónica, S.A. Board of Directors and the Selection of Directors is public and may be viewed on the corporate website (www.telefonica.com).

Procedure for the Selection, Appointment, Re-election and Cessation of Directors

Selection and Appointment

As mentioned earlier, Telefónica's Bylaws provide that the Board of Directors shall consist of a minimum of five and a maximum of twenty members, who shall be appointed by the shareholders at the General Meeting. Specifically, at the Annual General Meeting of April 8, 2022, the number of members of the Board of Directors was set at fifteen in accordance with article 29 of the Bylaws.

The Directors shall hold office for a maximum period of four years and may be re-elected one or more times for periods of the same maximum length. On a provisional basis, the Board of Directors, in accordance with the provisions of the Companies Act and of the Bylaws, may fill existing vacancies on an interim basis.

In this regard, it should be noted that on certain occasions, when it is indispensable because vacancies have occurred after the General Shareholders' Meeting was held, and in accordance with the provisions of the Companies Act, Directors are appointed on an interim basis, subject to ratification at the next General Shareholders' Meeting.

Otherwise, and in any event, the proposals for the appointment of Directors must comply with the provisions of the Bylaws and of the Regulations of the Board of Directors, must be preceded by the corresponding report of the Nominating, Compensation and Corporate Governance Committee and, in the case of Independent Directors, by the corresponding proposal. In any event, the proposals must be accompanied by a supporting report from the Board of Directors assessing the competence, experience and merits of the proposed candidate.

In this regard, and in accordance with the responsibilities assigned to the Nominating, Compensation and Corporate Governance Committee, this Committee must evaluate the

skills, knowledge and experience required on the Board of Directors, defining the functions and competencies required of the candidates who must fill each vacancy, and evaluating the specific amount of time and dedication that will allow them to perform their duties effectively.

With regard to the latter, and in accordance with the provisions of Article 29.2 of the Regulations of the Board of Directors, those who are members of more than five Boards of Directors of other companies other than Telefónica, S.A. and its Group companies may not be appointed to the Company's Board. For these purposes, a) all Boards of Directors of companies that are part of the same Group shall be counted as a single board of directors; and b) those Boards of Directors of asset-holding companies or those that constitute vehicles or complements for the professional exercise of the Director himself/herself, his/her spouse or person with a similar relationship, or his/her closest relatives, shall not be counted. As an exception, and for duly justified reasons, the Board of Directors may exempt the Director from this prohibition.

Similarly, Nominating, Compensation and Corporate Governance Committee must submit to the Board of Directors the proposals for the appointment of Independent Directors, whether for their appointment on an interim basis or for their submission to a decision by the shareholders at the General Shareholders' Meeting, along with the proposals for the re-election or separation of said Directors at the General Shareholders' Meeting. Likewise, it must report on the proposals for the appointment of the remaining Directors of the Company, whether for their appointment on an interim basis or for their submission to a decision by the shareholders at the General Shareholders' Meeting, along with the proposals for their re-election or separation at the General Shareholders' Meeting.

Similarly, it shall explain the category of each Director by the Board of Directors at the General Shareholders' Meeting at which the shareholders must make or ratify their appointment. Furthermore, such category shall be reviewed annually by the Board, after verification by the Nominating, Compensation and Corporate Governance Committee, and a summary of this review shall be included in the Annual Corporate Governance Report.

In any case, and in the event of the re-election or ratification of Directors at the General Meeting, the report of the Nominating, Compensation and Corporate Governance Committee or, in the case of Independent Directors, the proposal of said Committee, shall contain an assessment of the work and effective dedication to the position during the last period of time in which it was held by the proposed Director, as well as its ability to continue to do so.

The Board of Directors and the Nominating, Compensation and Corporate Governance Committee shall ensure, within the scope of their respective powers, that the candidates proposed for the position of Director are persons of recognized probity, competence and experience, who are willing to devote the time and effort required for the performance of their duties, exercising rigorous care in the

selection of the persons called upon to serve as Independent Directors.

The Board of Directors must endeavor to ensure that the procedures for the selection of its members promote diversity with respect to issues such as age, gender, disability, knowledge, education and professional experience, and are free from any implicit bias that might imply any form of discrimination, and, in particular, facilitate the selection of female Directors in such numbers as to achieve a balanced presence of women and men.

In this regard, and as mentioned earlier, at its meeting of November 25, 2015 the Board of Directors approved a Policy for the Selection of Directors, which on December 13, 2017, was updated to include the Diversity Policy applicable to the Board of Directors, such that it was renamed the Diversity Policy in relation to the Telefónica, S.A. Board of Directors and the Selection of Board Members. Likewise, on December 16, 2020, the Board of Directors approved an update of this Policy to reflect the most recent regulatory standards and, in particular, to adjust it to the provisions of the Recommendations of the Good Governance Code of the National Market Securities Commission (CNMV) regarding diversity.

The Nominating, Compensation and Corporate Governance Committee shall verify, on an annual basis, compliance with the Policy for the diversity of the Board of Directors and selection of Directors, and shall include the corresponding summary in the Annual Corporate Governance Report and in such other documents as are deemed appropriate. In addition, the Board of Directors shall periodically evaluate the degree of compliance with and effectiveness of the Policy and, in particular, the percentage of female Directors at any given time, and a detailed description of the Policy, as well as the objectives set in this respect and the results obtained, shall be included in the Annual Corporate Governance Report. Likewise, the Nominating, Compensation and Corporate Governance Committee may also propose to the Board of Directors any updates and proposed improvements of the Policy it deems appropriate.

Re-election

The Company's Directors may be re-elected one or more times for periods of the same length as that of the initial period.

In the same way as proposals for appointments, proposals for the re-election of Directors must be preceded by the corresponding report of the Nominating, Compensation and Corporate Governance Committee, and, in the case of Independent Directors, by the corresponding proposal.

Cessation or Removal

Directors shall cease to hold office when the time period for which they were appointed expires, or when so decided by the shareholders at the General Meeting in the exercise of the powers legally granted to them.

When a Director ceases to hold office before the end of his or her term, whether by resignation or by resolution of the General Meeting, the Director must adequately explain in a letter which will be sent to all members of the Board of Directors the reasons for leaving office or, in the case of non-executive Directors, the Director's views as to the grounds for removal by the shareholders acting at the General Meeting.

In addition, to the extent material to investors, the Company shall as soon as possible make public the cessation in office, including sufficient information as to the reasons or circumstances stated by the Director.

The Board of Directors shall not propose the removal of any Independent Director prior to the end of the bylaw-mandated period for which the said Director was appointed, unless due grounds therefor are present, as acknowledged by the Board at the proposal of the Nominating, Compensation and Corporate Governance Committee. Specifically, due grounds shall be deemed to exist when the Director has failed to perform the duties inherent in his position.

The removal of Independent Directors may also be proposed as a result of Public Tender Offers, mergers or other similar corporate transactions that entail a change in the structure of the company's capital.

Likewise, in accordance with the provisions of article 12 of the Regulations of the Board of Directors, the Directors must tender their resignation to the Board of Directors and formalize, where appropriate, and depending on the circumstances, such resignation in the following cases:

- a. When they cease to hold the executive positions with which their appointment as Directors was associated, or when the reasons for their appointment no longer exist.
- b. When they are affected by any of the cases of incompatibility or prohibition provided by Law.
- c. When they are severely reprimanded by the Nominating, Compensation and Corporate Governance Committee for having failed to fulfill any of their obligations as Directors.

Likewise, Directors must inform when they are subject to circumstances, whether or not related to their conduct within the Company itself, that may adversely affect the standing or reputation thereof, and particularly when they are under investigation in any criminal matter, in which case the Directors must notify the Company of the progress of any such legal proceedings. Having been notified or otherwise become aware of any of the circumstances mentioned in this paragraph, the Board of Directors shall examine the case as soon as possible and, based on the specific circumstances, and after a report from the Nominating, Compensation and Corporate Governance Committee, shall determine the measures to be adopted, including the request for the resignation of said Director, which it must accept, or the proposal to resign at the next

General Meeting. Any such matter shall be included in the Annual Corporate Governance Report unless special circumstances justify otherwise, which circumstances must be recorded in formal minutes. Those obligations shall be without prejudice to any information that the Company must disseminate at the time that any such measures are adopted.

In this regard, and in compliance with the provisions of the aforementioned Article 12.3 of the Board of Directors' Regulations, the Director Mr Isidro Fainé Casas notified Telefónica of his procedural situation in relation to the Preliminary Proceedings of Summary Trial 96/2017, before the Central Court of Instruction number 6 of the National High Court, and which was reported in the 2021 Annual Corporate Governance Report. It is noted that, in January 2023, the National High Court confirmed the dismissal of the case.

Neither the Bylaws nor the Regulations of the Board establish any limit as to the age of the Directors.

Functions and Operation of the Board of Directors
General functions of the Board of Directors

The Board of Directors is the highest management and representative body of the Company. As such it is empowered, within the scope of the corporate purpose defined in the Bylaws, to perform any legal acts or transactions for purposes of management and disposition, under any title, except for those reserved by law or by the Bylaws exclusively to the shareholders at a General Shareholders' Meeting.

The foregoing provisions notwithstanding, the Board of Directors is configured basically as a supervisory and control body, entrusting the day-to-day management of the Company's business to the executive bodies and to the management team.

The Board of Directors cannot delegate those powers that the law or the Bylaws reserve to its own exclusive purview, or those other powers that are necessary for the responsible exercise of its basic function of supervision and control, or the powers delegated to it by the shareholders at a General Shareholders' Meeting, unless such subdelegation is expressly authorized.

Specifically, the Board of Directors cannot, under any circumstances, delegate the following powers:

- a) Supervision of the effective operation of the Committees that it has created and of the activities of the delegated bodies and of the Officers that it has designated.
- b) Determination of the Company's general policies and strategies.
- c) Authorization or waiver of the obligations arising from the duty of loyalty, in accordance with the provisions of the Law, in the Bylaws and in the Regulations of the Board of Directors.
- d) Its own organization and operation.
- e) Preparation of the Annual Accounts and their submission at the General Shareholders' Meeting.
- f) Preparation of any type of report that by law must be presented to the management body, provided that the transaction to which the report refers cannot be delegated.
- g) Appointment and removal of the Company's Chief Operating Officers, as well as the establishment of the terms of their contracts.
- h) Appointment and removal of the Officers who are to report directly to the Board or to any of its members, as well as the establishment of the basic conditions of their contracts, including their compensation.
- i) Decisions regarding the compensation of the Directors, within the framework of the Bylaws and of the compensation policy approved by the shareholders at the General Shareholders' Meeting.

- j) The call to the General Shareholders' Meeting and the preparation of the agenda and the proposed resolutions.
- k) The policy regarding the Company's own shares.
- l) The powers delegated by the shareholders at the General Shareholders' Meeting to the Board of Directors, unless subdelegation of such powers was expressly authorized by the shareholders.
- m) Approval of the strategic or business plan, the annual management and budgetary goals, the investment and finance policy, the corporate social responsibility and sustainability policy or dividend policy.
- n) Determination of the risk control and risk management policy, including tax-related risks, and supervision of the internal information and control systems.
- o) Determination of the corporate governance policy of the Company and of the Group; its organization and operation; and, in particular, the approval and modification of its internal Regulations.
- p) Approval of the disclosure, contact and engagement policy for shareholders, institutional investors and proxy advisers, including the policy on communication of economic/financial, non-financial and corporate information.
- q) Approval of the diversity policy in relation to the Board of Directors and the selection of directors.
- r) Approval of the financial information that the Company must periodically disclose because of its status as a listed company.
- s) Definition of the structure of its Group of companies.
- t) Approval of investments or transactions of all kinds that, because of their high amount or special characteristics, are of a strategic nature or entail a special tax risk, unless their approval is within the purview of the shareholders at the General Shareholders' Meeting.
- u) Approval of the creation or acquisition of interests in special-purpose entities or entities that are domiciled in countries or territories that are considered to be tax havens, as well as any other transactions of a similar nature that, due to their complexity, might diminish the transparency of the Company and its Group.
- v) The approval, subject to a report from the Audit and Compliance Committee, of related-party transactions under the terms established in Article 39 of the Board Regulations, unless their approval corresponds to the General Meeting.

The Company's Board of Directors may delegate the approval of transactions between companies forming part of its group that are carried out within the scope of ordinary management and under market conditions, as well as transactions entered into under contracts whose standard conditions are applied *en masse* to a large number of customers, carried out at prices or rates

established on a general basis, and whose amount does not exceed 0.5% of the net turnover of the company, determined in accordance with the rules of calculation laid down in the Law.

In any event, when duly justified urgent circumstances arise, the decisions corresponding to the foregoing matters may be adopted by the delegated bodies or persons and must be ratified at the next meeting of the Board of Directors that is held after the adoption of the decision.

• **Committees of the Board of Directors**

As of December 31, 2022, and on the date of issuance of this Report, the Board of Directors had and has an Executive Commission and five advisory or control

committees, whose composition, duties and powers are described in detail in advance.

Operation of the Board of Directors

Both the Bylaws and the Regulations of the Board specify that the Board of Directors shall meet routinely once a month, and, at the initiative of the Chairman, as often as he deems it appropriate for the proper functioning of the Company.

During fiscal year 2022 the Telefónica Board of Directors held 14 meetings, each lasting between three and one-half and four and one-half hours, depending on the topics discussed. Likewise, it should be noted that one of these meetings corresponds to the strategic off site session that the Board of Directors holds annually to analyze the company's strategy and its impact on the business developed by the Telefonica Group.

The meetings of the Board of Directors have been held in mixed format. At all these meetings, the Secretary of the Board of Directors attested to the identity of all the attendees.

The power to call a meeting of the Board of Directors and, if appropriate, to draw up the Agenda of the Board's meetings rests with the Chairman of the Board of Directors, who must however call a meeting when requested to do so by three Directors who indicate the issues to be discussed.

A meeting of the Board of Directors may also be called by at least one-third of its members, with an indication of the Agenda, if, after the submission of a request to the Chairman of the Board of Directors, the Chairman, without just cause, has not called the meeting within a period of one month.

The Company adopts the measures that are necessary in order for the Directors to have, whenever possible and sufficiently in advance, the necessary information, which shall be drawn up and oriented specifically toward the preparation of the meetings of the Board and of its Committees. In no case shall its compliance be waived on the grounds of the importance or confidential nature of the information, except under absolutely exceptional circumstances.

In this regard, and in accordance with the provisions of articles 18 and 20 of the Regulations of the Board of Directors, the Board of Directors and its Committees shall draw up a calendar of the meetings to be held during the year. Such calendar may be modified by resolution of the Board itself or of the corresponding Committee, or pursuant to a decision by its Chairman, in which case the modification must be disclosed to the Directors as soon as possible.

The Board and its Committees also have an Action Plan that contains a detailed description and the frequency of the activities to be carried out in each fiscal year, according to the powers and duties assigned to them.

Similarly, all of the meetings of the Board and of the Committee have a pre-established Agenda, which is communicated at least three days before the date on which the meeting is scheduled to be held, along with the call to the meeting. The Agenda for each meeting clearly indicates the items regarding which the Board of Directors or the Executive Commission must make a decision or adopt a resolution.

With the same goal, in general, the documentation associated with the Agenda for the meetings is made available to the Directors sufficiently in advance. In this regard, and in compliance with the provisions of article 19 of the Regulations of the Board of Directors, the Chairman of the Board of Directors organizes the discussions, seeking and encouraging the active participation of all of the Directors in the deliberations, safeguarding the unconstrained statement of their viewpoints. Similarly, with the assistance of the Secretary, the Chairman ensures that the Directors receive beforehand sufficient information to deliberate on the items on the Agenda. He also ensures that sufficient time is devoted to the discussion of strategic issues and stimulates debate during the meetings, safeguarding the unconstrained statement of viewpoints by the Directors.

To facilitate the provision of all of the information and clarifications that may be necessary regarding some of the issues to be addressed, the main officers of the Group attend essentially all of the meetings of the Board and of its Committees, along with the speakers who are deemed appropriate, for the presentation of matters lying within their purview.

Furthermore, and in general, the Regulations of the Board (article 27) expressly provide that the Directors are vested with the broadest powers for obtaining information about any aspect of the Company and to examine its books, records, documents and other background materials relating to corporate activities. The exercise of this right of information is channeled through the Chairman or the Secretary of the Board of Directors, who handle requests from the Directors, either providing the information directly to the Directors or placing them in touch with the proper contact persons at the appropriate organizational level.

The Board of Directors can validly hold a meeting when a majority of its serving members are present or represented at the meeting. The Directors must personally attend the meetings of the Board of Directors. If, under exceptional circumstances, they are unable to do so, they shall ensure that the proxy they give to another member of the Board of Directors includes, insofar as possible, the appropriate instructions. Non-executive Directors can delegate their proxy only to another non-executive Director. Such delegations may be made by letter, mail or in any other way that ensures the certainty and validity of the proxy, in the opinion of the Chairman of the Board of Directors (article 19 of the Regulations of the Board of Directors and article 34.4 of the Bylaws).

In all cases, resolutions are adopted by an absolute majority of the votes of the Directors who are present at the meeting, either in person or by proxy, except in those instances in which, for certain resolutions to be valid, the law, the By-Laws or the Regulation of the Board of Directors requires the favorable vote of a larger number of Directors.

Board Committees

Both the Bylaws and the Regulations of the Board provide for an Executive Commission of the Board of Directors, with general decision-making authority and, consequently, with the express delegation of all of the powers of the Board of Directors, except for those powers that, by law or pursuant to the Bylaws, cannot be delegated.

The Regulations also authorize the Board of Directors to create one or more advisory or control committees entrusted with the task of examining and continuously monitoring any area of special importance to the good governance of the Company, or performing the specific analysis of any factor or issue whose significance or magnitude requires it. Such Committees do not have the status of corporate bodies, but rather are tools in the service of the Board of Directors, to which they convey the conclusions that they reach with regard to the issues or subjects whose handling has been entrusted to them.

As of December 31, 2022, and on the date of issuance of this Report, the Board of Directors had and has an Executive Commission and five advisory or control committees, whose composition, duties and powers are described below.

The Company's Board of Directors, at its meeting held on December 16, 2020, and at the proposal of the Nominating, Compensation and Corporate Governance Committee, approved the partial amendment of the Regulations of the Board of Directors of Telefónica, S.A., which amendment consisted of the following: i) adapting it to the Recommendations of the Good Governance Code amended in June with which the Company currently fully complies; ii) adapt it to certain Recommendations of the Good Governance Code not amended in June 2020 and which the Company had already been complying with; and iii) incorporate some complementary aspects or technical clarifications. Among other issues, certain aspects relating to the composition of the Board Committees were modified, and new functions were adjusted and assigned to the Audit and Control Committee, the Nominating, Compensation and Corporate Governance Committee and the Sustainability and Quality Committee, and the express regulation of the Strategy and Innovation Committee was included in the Regulations.

In coordination with the amendment of the Regulations of the Board of Directors, the Board of Directors, at its meeting held on December 16, 2020, approved the partial amendment of the Regulations of the Audit and Control Committee and the Regulations of the Nominating, Compensation and Corporate Governance Committee, to include the changes introduced to the Regulations of the

Board of Directors with respect to the composition and duties assigned, respectively, to each Committee.

Likewise, the Board of Directors, at its meeting held on June 29 and 30, 2021, and at the proposal of the Nominating, Compensation and Corporate Governance Committee, approved the partial amendment of the Board of Directors' Regulations of Telefónica, S.A., basically consisting of adapting said regulations to the following features introduced by Law 5/2021: (i) the amendment of the regime of related-party transactions applicable to listed companies, establishing new rules for their approval and reinforce their transparency; (ii) the prohibition of appointing legal persons as directors who in listed companies; and (iii) the review of the requirements for the Audit Committee of a parent company to perform the functions of the Audit Committee in its subsidiaries that are public interest entities (PIEs). In this context, certain functions of the Audit and Control Committee were adjusted.

In coordination with the amendment of the Board of Directors' Regulations, the Board, at its meeting held on June 29 and 30, 2021, agreed to partially amend the Regulations of the Audit and Control Committee in order to incorporate the changes made to the of the Board of Directors' Regulations with regard to the list of functions attributed to the Audit and Control Committee.

On the other hand, with regard to the meetings held by the Board of Directors' Committees, during financial year 2022, the meetings of the Board of Directors' Committees were held in mixed format, with the attendance of the Directors in person and online. At all these meetings, the Secretary of each Committee attested to the identity of all the attendees.

Regarding the matters addressed by the Committees, and in accordance with the provisions of article 20 b) 3. of the Regulations of the Board, a full report is delivered to the Board of Directors so that it will be aware of the said matters for the exercise of its responsibilities. At the beginning of each of the monthly meetings of the Board of Directors, the Chairman of each of the Committees delivers a report on the major matters that were addressed and on the activities and tasks that were carried out by the respective Committee, making available to the Directors the corresponding documentation, so that the Directors will be aware of such activities for the purposes of the exercise of their responsibilities.

Additionally, and in the same way as the Board of Directors itself, all of the Committees prepare, at the start of each fiscal year and in accordance with the provisions of article 20 b) 3. of the Regulations of the Board of Directors, an Action Plan that contains a detailed description of, and a schedule for, the actions to be taken in each fiscal year in each Committee's individual area of activity.

Similarly, all of the Committees prepare an Activity Memorandum (which, for the Audit and Control Committee and the Nominating, Compensation and Corporate Governance Committee, is known as the Performance

Report), which summarizes the major activities and actions that were carried out during the preceding fiscal year, including the details of the matters that were examined and addressed at the meetings that were held, and emphasizing the aspects associated with their duties and responsibilities, composition and performance.

Mechanisms established to preserve the independence of external auditors

With regard to the independence of the Company's external auditor, and in accordance with the provisions of Telefónica's Regulations of the Board of Directors (Article 41), the Board of Directors has established, through the Audit and Control Committee, a stable and professional relationship with the Accounts Auditor, with strict respect for the independence thereof.

Furthermore, the Audit and Control Committee, as part of its fundamental powers (Article 22 of the Regulations of the Board of Directors and Article 4 of the Regulations of the Audit and Control Committee), has established and maintains the appropriate relationships with the auditors to receive information on those matters that may threaten their independence, to be considered by the Committee, and any others related to the process of carrying out the audit, and, where appropriate, the authorisation of services other than those prohibited, in accordance with the terms set forth in the applicable law, as well as other communications set forth in audit legislation and audit regulations.

In any case, the Audit and Control Committee annually receives the accounts auditor's declaration of independence with regard to the Company or entities directly or indirectly related to it, as well as detailed and personalised information on the additional services of any kind provided and the corresponding fees received from these entities by the reported auditor, or the persons or entities related to him/her in accordance with the provisions of current regulations.

Furthermore, the Committee issues, prior to issuing the audit report of the accounts, an annual report that expresses an opinion on whether the independence of the accounts auditor has been compromised. This report states, in any case, the evaluation, with supporting evidence/ rationale, of the provision of each and every one of the additional services referred to in the previous section, taken into account individually and together, different to the statutory audit and in relation to the independence regime or the regulations governing account auditing.

In any event, the Audit and Control Committee must preserve the independence of the statutory auditor in the performance of its duties, and in this regard: (i) in the event of the resignation of the statutory auditor, examine the circumstances giving rise to such resignation; (ii) endeavor to ensure that the compensation received by the statutory auditor for its work does not compromise the quality or independence thereof; (iii) ensure that the Company communicates through the CNMV any change in auditor and attaches a statement regarding any disagreements with the outgoing auditor and, if any, the substance thereof; (iv) ensure that the statutory auditor meets annually with the full Board of Directors to inform the Board of Directors of the work performed and on the accounting status and the risks of the Company; and (v) ensure that the Company and the statutory auditor applicable legal provisions

regarding the provision of non-audit services, limits on the concentration of the auditor's business, and generally all other provisions regarding the independence of the auditors.

In addition, and in accordance with the Regulations of the Board of Directors (Article 22), the Company's Audit and Control Committee puts forward proposals to the Board of Directors for the selection, appointment, re-election and replacement of the external auditor, taking responsibility for the selection process in accordance with the law, as well as the terms and conditions of his/her contract, regularly obtaining information from the auditor on the audit plan and the execution thereof, as well as preserving his/her independence in the exercise of his/her duties.

Furthermore, the external auditor has direct access to the Audit and Control Committee, participating regularly in its meetings, without the presence of members of the Company's management team when this is deemed necessary. In this regard, and in accordance with the requirements of US regulations on this matter, the External Auditor reports to the Audit and Control Committee, at least on an annual basis, on the most significant accounting policies and practices followed in drawing up the Company's financial and accounting information, on any alternative accounting treatment within generally accepted accounting principles and practices that affects any relevant element within the financial statements that may have been discussed with the management team, and, finally, on any relevant communication between the auditor and the Company's management team. In addition, and in accordance with Article 41 of the Regulations of the Board of Directors, the auditor shall hold an annual meeting with the full Board of Directors to provide an update on the work carried out and the evolution of the Company's accounting and risk situation.

In accordance with the Company's internal regulations, and also in line with the legal requirements imposed by Spanish, European and US regulations, contracting any service with the Company's External Auditor must always be approved beforehand by the Audit and Control Committee. Furthermore, this contracting of services, other than those of the audit itself, is carried out in strict compliance with the Audit Act, European regulations and the Sarbanes-Oxley Act enacted in the United States and its implementing regulations. In this respect, and before hiring the auditor, the Audit and Control Committee analyses the content of the work to be carried out, assessing the situations that may entail a risk to the independence of the Company's External Auditor, and specifically supervises the percentage represented by the fees paid by the latter of the audit firm's total revenue. In this regard, the Company states in its Annual Report, in accordance with the legal requirements in force, how much the Company's External Auditor is paid, including those fees related to services of a different nature from auditing.

Consequently, the Company has implemented, in practice, the legal provisions on this matter as indicated in the preceding paragraphs.

c) Operation.

The Audit and Control Committee must have access to information in a suitable, timely and sufficient manner, for which purpose:

- The Chairman of the Committee and, if deemed appropriate or requested, the rest of its members, shall maintain regular contact with the key personnel involved in the governance and management of the Company.
- The Chairman of the Committee, through the Secretary of the Committee, shall channel and provide the necessary information and documentation to the other members of the Committee, allowing sufficient time for them to analyze such information prior to their meetings.

The Audit and Control Committee shall meet at least once every quarter, and whenever a meeting is deemed appropriate, in response to a call from its Chairman. In any event, the Committee shall meet, at a minimum, on each date on which annual or interim financial information is published. In such cases, the Internal Auditor shall be present. If any type of review report is issued, the Auditor shall also be present.

In this regard, and with reference to the meetings held with the Statutory Auditor and with the Internal Auditor, the provisions of article 7 of the Regulations of the Company's Audit and Control Committee are complied with, which provisions establish that, for the proper exercise of its supervisory function, the Committee must be familiar with, and understand, the decisions made by Senior Management regarding the application of the most significant criteria and the results of the reviews conducted by the Internal Audit Office, while maintaining fluid communications with the Statutory Auditor. In point of fact, the External Auditor has participated in meetings of the Audit and Control Committee in order to explain the work that was done, and also to clarify, at the request of Committee, those issues that may have been raised in connection with the duties assigned to such External Auditor. The members of the Committee also held separate meetings with each of these contact persons when such meetings were deemed necessary, in order to conduct a rigorous follow-up of the preparation of the Company's financial information.

During 2022 it held 12 meetings, lasting on average two hours each. Also noteworthy is the high level of participation of all of its members.

Likewise, in the fulfillment of its duties, the Committee may request the presence of the following persons at its meetings: the Statutory Auditor, the head of the Internal Audit Office, any Director, employee or Officer of the Company and the experts that it deems appropriate.

Attendance at the formal meetings of the Committee shall be preceded by the allocation, on the part of its Members, of sufficient time to analyze and evaluate the information received by them.

The Committee also has a Secretary, as well as the necessary support staff for planning meetings and agendas; for drafting documents and meeting minutes; and for compiling and distributing information, among other tasks.

For the purposes of appropriate scheduling that makes it possible to ensure the efficient accomplishment of the objectives pursued, the Committee establishes an Annual Work Plan.

The meetings are scheduled by the Chairman of the Committee, who communicates them to the Secretary of the Committee, so that its members will receive the documentation sufficiently in advance. All of these actions are performed bearing in mind that the duties of the Members of the Committee are fundamentally supervisory and advisory, with no involvement in execution or management, which are the responsibility of Senior Management.

It is about being an ethical and responsible company, and Telefónica's strategy and governance reflect this concern.

The Group's Responsible Business Principles and Responsible Business Plan respectively form the ethical framework and roadmap for sustainability, and both are approved by the Board of Directors, as well as the Group's most relevant policies in this area (see sustainability policies in Governance and Culture of Sustainability chapter and in the governance subsection of each of the chapters on the main sustainability topics). Furthermore, the Sustainability and Quality Committee supervises the implementation of the Responsible Business Plan at its monthly meetings.

Evaluation of the Board and of its Committees

Once a year, all of the Company's Directors evaluate the performance of the Board of Directors of Telefónica, S.A., of its Committees and of the General Shareholders' Meeting. Furthermore, every three years such evaluation is carried out with the assistance of an external consultant, whose independence is verified by the Nominating, Compensation and Corporate Governance Committee. Thus, the evaluation of the Board of Directors for the financial year 2017 was carried out with the assistance of the external consultant Villafañe & Asociados Consultores, the evaluations of the financial years 2018 and 2019 were carried out internally by the Company, without assistance of an external consultant, and for the evaluation corresponding to the financial year 2020, the Board of Directors, at the proposal of the Nominating, Compensation and Corporate Governance Committee, has had the support, as an external advisor, of the consulting firm Egon Zehnder; and the assessments for the 2021 and 2022 financial years has been carried out internally by the Company, without the support of an external advisor.

Specifically, at the end of the 2022 financial year, all Directors were given a questionnaire to carry out the evaluation process for that year.

The questionnaire contained a wide range of questions grouped under the following headings:

The Nominating, Compensation and Corporate Governance Committee, at its meeting held on January 24, 2023, reviewed and analysed the results of this evaluation, concluding that, in general, the aspects related to the Board

of Directors, Committees and General Meeting had been highly valued and were considered optimal and competent on the whole.

However, as a result of this evaluation, and in order to continue improving the functioning of the company's corporate governance system, certain areas for optimisation were identified, in view of which, and after a detailed examination and analysis of the results achieved, the Board of Directors, at the proposal of the Appointments, Remunerations and Corporate Governance Committee, at its meeting of January 25, 2023, established an Action Plan for the implementation of the following suggestion and recommendation:

- Earlier submission of session documentation and improvement of its content where possible. Therefore, work will also continue on optimising the process of making the documentation of Board and Committee meetings available to the Directors, so that it is made available, whenever possible, at an earlier date.

4.4.2. Management Team

As regards the Company's Executive Committee, its composition as of December 31, 2022 is shown below:

4.5. Transactions with Related Parties and Conflicts of Interest

4.5.1. Transactions with Related Parties

• The procedure for approval of related-party and intragroup transactions

As mentioned above, the Board of Directors, at its meeting held on June 29 and 30, 2021, and at the proposal of the Nominating, Compensation and Corporate Governance Committee, approved the partial amendment of the company's Board of Directors' Regulations which basically consists of adapting them to the novelties of Law 5/2021 of April 12, which amends the revised text of the Capital Companies Act and other financial regulations with regard to the promotion of long-term shareholder involvement in listed companies (Law 5/2021). Specifically, the Board of Directors' Regulations were adapted to the amendments introduced by Law 5/2021 to the regime of related-party transactions applicable to listed companies.

Likewise, the Board of Directors, at its aforementioned meeting held on June 29 and 30, 2021, approved, in coordination with the aforementioned amendment of the Board of Directors' Regulations, to partially amend the Regulations of the Audit and Control Committee, in order to incorporate the changes introduced in the Board of Directors' Regulations.

Following the aforementioned amendment, Article 5.4 of the Board of Directors' Regulations includes the following non-delegable powers of the Board, among others:

The approval, subject to a report from the Audit and Control Committee, of related-party transactions under the terms established in Article 39 of these Regulations, unless its approval corresponds to the General Meeting.

The Company's Board of Directors may delegate the approval of transactions between companies forming part of its group that are carried out within the scope of ordinary management and under market conditions, as well as transactions entered into under contracts whose standard conditions are applied en masse to a large number of customers, carried out at prices or rates established on a general basis, and whose amount does not exceed 0.5% of the net turnover of the company, determined in accordance with the rules of calculation laid down in the Law.

In this regard, and in accordance with the provisions of article 31.f) of the Board of Directors' Regulations:

No Director may directly or indirectly carry out professional or commercial operations or transactions with the company or with any of the companies of its

group, when such operations or transactions are outside the ordinary course of business or are not carried out under market conditions, except for those operations or transactions that are authorised by the company under the terms provided for in the regime on related-party transactions established by law, in the Articles of Association, and in these Regulations.

Article 39 of the Board of Directors' Regulations establishes the following with regard to the regime on related-party transactions:

1. *The Board of Directors, subject to a favourable report from the Audit and Control Committee, shall approve transactions that the company or its subsidiaries carry out with directors, shareholders holding 10% or more of the voting rights or represented on the company's Board of Directors, or any other persons who should be considered related parties under the terms of the law, provided that, under current legislation, they are considered to be related party transactions, and unless their approval corresponds to the General Shareholders' Meeting. This power cannot be delegated, except in the cases and under the terms provided for in the law and in Article 5.4 of these Regulations.*
2. *In relation to the adoption of the motion to approve related-party transactions whose competence corresponds to the Board of Directors and has not been delegated, the Director involved or the Director representing or related to the shareholder involved must abstain from participating in the deliberation and voting in accordance with the provisions of the law.*
3. *In the event that the Board of Directors delegates the approval of related-party transactions in accordance with the provisions of the law and Article 5.4 of these Regulations, the Board of Directors itself shall establish an internal procedure of information and periodic control in relation thereto, in which the Audit and Control Committee shall intervene, in order to verify the fairness and transparency of these transactions and, where appropriate, compliance with the applicable legal criteria. The approval of such transactions shall not require a prior report from the Audit and Control Committee.*
4. *In relation to related-party transactions whose approval depends on the General Meeting, the*

proposed motion for approval adopted by the Board of Directors shall be submitted to the General Meeting with an indication as to whether it has been approved by the Board of Directors with or without the majority of the independent Directors voting against.

Likewise, Article 4, section xiv) of the current Regulations of the Audit and Control Committee establishes, among the competencies of this Committee, the following:

Report on related party transactions to be approved by the General Meeting or the Board of Directors and supervise the internal procedure established by the Company for those transactions whose approval has been delegated by the Board of Directors, as the case may be.

In relation to the above, and within the framework of the aforementioned regulation, the Board of Directors of the Company, at its meeting held on June 29 and 30, 2021, following a favourable report from the Audit and Control Committee, moved to establish a generic delegation for the approval of all related-party transactions that are so allowed, that is:

- a. Intra-group transactions (companies subject to a potential conflict of interest) that are carried out in the ordinary course of business and on an arm's length basis; and
- b. Transactions which are concluded under contracts whose standardised conditions are applied *en masse* to a large number of customers, made at general prices or rates, and whose amount does not exceed 0.5% of the company's net turnover.

Such delegation was made to the bodies or persons who, in accordance with the general powers of attorney in force at any given moment and the internal contracting regulations of Telefónica, S.A. and the other applicable companies in its group, and in accordance with the functions they perform within the Telefónica Group (such as financing, telecommunications services and all those derived from the ordinary business of the group), have the powers to carry out such delegation.

The approval of the related-party transactions referred to in the aforementioned delegation motion of the Board of Directors, does not require a prior report from the Audit and Control Committee, although such transactions must be reported half-yearly to the Audit and Control Committee and the Board of Directors in order to verify the fairness and transparency of such transactions and, where appropriate, compliance with the applicable legal criteria.

During fiscal year 2022 neither Telefónica, S.A. nor any company in its Group has carried out transactions with any member of the Board of Directors or with any member of senior management other than those derived from the Group's ordinary business or traffic, except as indicated in the following paragraph in respect of transactions with parties related to Directors.

Notwithstanding the above, the significant and relevant transactions carried out by companies of the Telefónica Group with related parties are included in [Note 11 \(Related Parties\)](#) and in [Note 10 \(Associates and joint ventures\)](#) of the Consolidated Annual Accounts of Telefónica, S.A. of Telefónica, S.A. corresponding to fiscal year 2022, as in [Section D of the Statistical Annex of the Annual Corporate Governance Report](#).

Moreover, and in accordance with the provisions set out in the Regulations of the Board, Directors shall refrain from participating in votes that affect matters in which they or persons related to them have a direct or indirect interest.

Directors must also report with respect to themselves as well as the persons related thereto (a) the direct or indirect interests held by them and (b) the offices held or duties performed at any company that is in a situation of actual competition with the Company.

For purposes of the provisions of this paragraph, the following shall not be deemed to be in a situation of actual competition with the Company, even if they have the same or a similar or complementary corporate purpose: (i) companies controlled thereby (within the meaning of Article 42 of the Commercial Code); and (ii) companies with which Telefónica, S.A. has established a strategic alliance. Likewise, for purposes of the provisions hereof, proprietary directors of competitor companies appointed at the request of the Company or in consideration of the Company's interest in the capital thereof shall not be deemed to be in a situation of prohibition of competition.

Transactions arising from the duty of loyalty and its exemption regime shall also be subject to prevailing laws.

- With regard to significant shareholders, Article 39 of the Board Regulations establishes that the Board of Directors, following a favourable report from the Audit and Control Committee, shall approve transactions that the company or its subsidiaries carry out with shareholders holding 10% or more of the voting rights or represented on the Company's Board of Directors, provided that, under current legislation, they are considered to be related-party transactions, and unless their approval corresponds to the General Shareholders' Meeting. This power cannot be delegated, except in the cases and under the terms provided by law and in Article 5.4 of the Company's Board of Directors' Regulations, as described in section 4.5.1 above.
- With respect to Senior Executives, the Internal Code of Conduct for Securities Markets Issues, updated on May 6, 2020, sets out the general principles of conduct for the persons subject to the said regulations who are involved in a conflict of interest. The aforementioned Code includes all the Company's management personnel within the concept of affected persons.

In accordance with that established in this Regulation, the People with Management Responsibilities, their Administrative Personnel and the managers or employees of Telefónica Group who have Privileged Information, or participate or have access to or knowledge of a Confidential Operation (as defined in the previous terms of the internal conduct regulations regarding Stock Markets) have the obligation to (a) remain loyal to the Group and its shareholders at all times, regardless of his/her own or other's interests; (b) refrain from intervening in or influencing decision making that could affect persons or companies with which there is conflict; and (c) refrain from accessing information classified as confidential that affects said conflict. Additionally, these people (except for the members of the Company Board of Directors who will be governed in terms of communicating conflicts under the standards established in the regulation of the Board of Directors) have the obligation to make the Company aware of these situations, by means of the computer system established by Telefónica for this purpose, as soon as possible, that would potentially entail the manifestation of conflicts of interest because of its activities outside the Telefónica Group, its family relationships, its personal assets or any other reason with: (a) financial intermediaries operating with the Group Telefónica; (b) professional or institutional investors who have a significant relationship with the Group Telefónica; (c) suppliers of significant equipment or material; or (d) professional service providers or External Advisors.

Telefónica, S.A. is the only company of the Telefónica Group that is listed in Spain, so it is not necessary to

have defined the specific mechanisms that would be applied to resolve possible conflicts of interest with subsidiaries listed in Spain.

Based on the information provided above, it is also noted that Telefónica, S.A. is not controlled by another entity within the meaning of Article 42 of the Commercial Code.

In order to perform its supervisory duties, the Audit and Control Committee has the support of the entire Company Management, including Internal Audit, which sets up as an independent area in the management of the Company, reporting directly and supporting the Audit and Control Committee in its competencies on assurance, risk management, and the internal control system. For this purpose, Internal Audit applies a systematic and disciplined approach by the following main lines of action:

- Coordination and review of the consistency of the Internal Regulation Framework of the Telefónica Group;
- Coordination and supervision of the Risk Management System;
- Ongoing audit activities;
- Supervision of controls on fund outflows;
- Specific reviews or audits on the Company processes. Among these activities, the following, at least, are included:
 - a. Assessment on the internal control over financial reporting, required by the Sarbanes-Oxley Act of 2002, to companies listed in the United States of America which also serves to cover the assessment

on the System for the Internal Control over financial reporting (ICFR) for companies listed in Spain.

- b. Audits on the efficiency and effectiveness of the design and execution of the controls in processes, including the preparation and reporting of non-financial information; and
 - c. Other audits and compliance reviews across the Telefónica Group;
- Assessment of the internal control environment through specific audits on the applications and infrastructures used in product and service deployment for both internal and external clients. With the focus on the governance model in the deployment of new technologies: 5G, Public Cloud (IaaS), Private Cloud (SaaS) and the virtualization mainly due to the impact on cybersecurity and data protection risks, as well as on the Group's transformation projects, such as SAP4Hana or RAITT, which can affect network and system security, cybersecurity and data protection. In an environment in which Big Data and information management is vital, plus an incipient use of Artificial Intelligence algorithms and the massification of the use of RPAs, the data governance model also becomes a focal point in which to evaluate the internal control model;
 - Audits related to facts reported through the Whistleblowing Channel, including, where applicable, the identification of improvements in the design of internal controls in the processes analyzed during these tasks;
 - Perform other specific audits or reviews, of interest for the Board of Directors or the Management of the Company.

All the different areas and functional units of the Telefónica Group are relevant for the internal control over financial reporting (ICFR), the Finance and Control area playing a key role, as they are responsible for preparing, maintaining and updating the different procedures that govern their operations, these procedures identify the tasks to be carried out, as well as the persons in charge for executing these tasks.

Departments and/or mechanisms in charge of: (i) the design and review of the organizational structure; (ii) defining clearly the lines of responsibility and authority, with an appropriate distribution of tasks and functions; and (iii) sufficient procedures so this structure is communicated effectively throughout the Company.

People area carries out the deployment of the organizational structure in the respective fields within the framework of the decisions taken by the Board of Directors of the Company.

The financial-accounting information system in the Telefónica Group is regulated through several manuals, instructions and internal rules and regulations, internally available on the Intranet, the most noteworthy of which are the following:

- **Corporate Regulation on the Recording, Communication and Control of Financial and Non-Financial Information of the Telefónica Group**, which sets out the basic principles of the financial-accounting information system of the Group, as well as the procedures and mechanisms in place to supervise this system.
- **Manual of Accounting Policies**, which includes the accounting standards applicable to the reporting of the companies of the Telefónica Group for the preparation of the consolidated financial information. The Manual of Accounting Policies is based on IFRS (International Financial Reporting Standards), specifically, on the set of regulations and interpretations in force published by the IASB at all times.
- **Reporting instructions**, which establish the procedures and calendar to be followed by all the companies of the Telefónica Group in the reporting of the financial-accounting information and the external audit in order to comply with the legal and informational obligations of the Telefónica Group, including aspects of the internal control evaluation on the Group's financial report, both from Internal Auditing and the Accounts Auditor. Similarly, specific reporting instructions are devised for companies in which the Telefónica Group participates by means of a joint management agreement (joint ventures and operations) and for the main companies over which it has significant influence.
- **Manual for Completing the Consolidation Reporting of the Telefónica Group**, which is updated, at least, annually and establishes specific instructions to fill in the reporting forms necessary for the preparation of consolidated annual accounts and interim consolidated financial information.
- **Annual calendar of financial-accounting information**, applicable to all Telefónica Group companies to establish the monthly deadlines for reporting the financial-accounting information.
- **Corporate Accounting Plan ("PCC")**, which includes the list of accounts, their content, and the corresponding accounting movements. The PCC intends to homogenize the sources of financial information included in the accounting of the companies of the Telefónica Group.
- **Corporate Regulation on Intragroup Operations**, mandatory for all companies in the Telefónica Group, and whose purpose is to recast in a specific regulation the mandatory compliance criteria with regard to the accounting recording and payment of transactions between companies in the Group.

Code of conduct, approving body, dissemination and instruction degree, included principles and values (stating whether there are specific mentions to the recording of operations and the preparation of financial information), body in charge of analyzing non-compliance and proposing corrective or disciplinary actions.

With regards to the Code of Conduct, the Board of Directors of Telefónica approved the Business Principles, that are applied in a homogeneous manner in all countries where the Telefónica Group operates and apply to all its employees (the Business Principles affect at all levels of the organization, directors and non-directors) and they include commitments in matters of privacy and security, compliance and fiscal transparency, responsible communication and protection of minor stockholders, among others.

The Business Principles emanate from three basic values: integrity, commitment and transparency, which are essential values to foster the trust relationship that Telefónica wants to have with its groups of interest.

Regarding the financial information, the following principles are set:

- **Transparency of the information:** we shall provide, immediately and without discrimination, all the relevant information. We are aware of the importance for all our groups of interest to share true, complete, timely and clear information in the reports registered with the relevant Supervising Bodies of the Securities Markets, as well as in other public communications of the Company.
- **Privileged Information:** we abstain from using, in our own profit or that of third parties, any privileged information, safeguarding the confidentiality and establishing the controls and processes legally required by the Supervising Bodies of the Securities Markets in all the actions related to these markets.

The Business Principles are available for all employees at the Intranet, there are procedures to update, monitor adherence to and disseminate these Business Principles in the Telefónica Group. Likewise, training programs are also periodically established to ensure employees are aware of these principles. In the case of new employees, in addition to providing them the Responsible Business Principle as part of the documentation provided in the onboarding process, they are offered specific training on the subject within a maximum of 3 months from their joining the company.

In this regard, Telefónica has a Corporate Policy on the Comprehensive Discipline Program that aims to define the basic principles of the Group's disciplinary system and that provides that all employees must receive a homogeneous, objective, proportional and non-arbitrary treatment, without prejudice to and with absolute respect for the legislation and other regulations that are applicable in each

case to the Group companies in the different countries in which it operates.

Telefónica has the Business Principles Office, composed of department heads from the areas of Global Sustainability, General Secretariat, Legal Services, People area, Internal Audit, Purchasing, Compliance, Security, Global Consumer, Strategy, Finance, Communication, Data & Analytics, Telefónica Tech and Telefónica Infra. This Office monitors the responsible Business Plan approved by the Board of Directors and reports to the Sustainability and Quality Committee, through the head of Sustainability. Among the responsibilities of this Office, the following stand out:

- Ensure that Telefónica develops its business in an ethical and responsible manner, through the monitoring and implementation of the Responsible Business Plan (which derived from the Company's Strategic Plan). Said Responsible Business Plan details objectives and projects regarding the Group's sustainability management, which includes, among others, respect for Human Rights, customer responsibility, commitments to privacy, freedom of expression and information, security, the ethical management of artificial intelligence, the responsible management of technology, the sustainable management of the supply chain, the strategy of climate change and the environment, the promotion of diversity, security and the well-being of our employees, as well as a business strategy focused on generating products and services that contribute to addressing the great social and environmental challenges of society (sustainable innovation).
- Propose and supervise initiatives and measures that contribute to compliance with the Business Principles of the Group.
- Analyze any matter or proposal that takes place in the Group that could represent a risk for the compliance with the Business Principles and the associated policies.

On a different issue, in case of being aware of any conduct which contravenes what is established by the Law, by the Business Principles or by other valid internal regulations, after proper analysis, disciplinary measures will be applied in accordance with the regime established in the applicable labor legislation, distinguishing between minor, serious and very serious sanctions, depending on the circumstances.

Telefónica also has an "Internal Code of Conduct" for matters relating to Securities Markets, last modified on May 6, 2020, which sets out the general guidelines and principles of conduct to be followed by persons affected by securities and financial instrument operations issued by the Company or its subsidiary Companies.

Similarly (and as detailed below), Telefónica has a Whistle-blowing Channel which is available to all stakeholders so they may inquire about, inform or report—anonously or

personally—questions, requests or complaints on any aspect related to the Responsible Business Principles.

Whistle-blowing Channel, which enables to inform the Audit and Control Committee about any irregularities of a financial and accounting nature, as well as eventual breaches of the code of conduct and irregular activities in the organization, informing, where applicable, about a confidential nature and whether it allows for anonymous communications, respecting the rights of the whistle-blower and the reported party.

With regard to the Whistle-Blowing Channel, as specified in Article 22 of Telefónica, S.A.'s Regulations for the Board of Directors, and in Article 4 of Regulation for the Audit and Control Committee, the Audit and Control Committee's competencies include, among others: "establishing and supervising a mechanism that allows employees and other people related to the Company, such as Board Members, shareholders, suppliers, contractors or subcontractors to communicate, in a confidential and anonymous manner, respecting the rights of the whistle-blower and the reported party, irregularities of potential significance, including financial and accounting ones, or of any other nature, related to the Company, detected within the Company or its Group."

The Telefónica Group has a Policy of Management of the Whistleblowing Channel where the bases of the management of the Whistleblowing Channel of the Telefónica Group are set, through which employees, directors and Board members of the Telefónica Group, shareholders, suppliers and other parties can communicate confidentially and, where appropriate, anonymously, any information they become aware of, by any means -formal or not- about the existence of any possible irregularity, any act contrary to legality or internal regulations, also including eventual irregularities referring to accounting matters, issues related to auditing and/or aspects related to the internal control over financial reporting, in compliance with section 301 of the Sarbanes-Oxley Act, of 2002, of the United States of America and other regulatory requirements in this sense.

When managing the Whistleblowing Channel it is mandatory to apply the confidentiality principles to data provided and declarations made, and also the principles of respect and legal basis; so that any decision adopted after receiving a complaint will be reasoned, proportionate and will consider the circumstances of the facts denounced, always with full respect to the rights and the due guarantees for the whistle-blower and the persons affected, if any.

In listed Companies, Internal Auditing periodically informs the Audit and Control Committee of the Board of Directors about a) activity related to the Whistle-blowing Channel, b) complaints regarding matters related to accounting aspects, to audit issues, to internal controls over financial

information and / or all those issues referred to in the Sarbanes-Oxley Act, including any fraud, material or not, that affects the Management, or any other employee of the listed Company, who has a relevant role in the internal control of the financial information reporting process, and c) of the result of the management derived from the audit of these cases.

Periodic training and updating courses for personnel involved in the preparation and review of financial information, as well as ICFR assessment, which cover, at least, accounting rules, auditing, internal control and risk management.

The Consolidation and Accounting Polices Area develops specific training actions, as well as updating seminars addressed to all personnel in the financial areas and other affected areas of the Group (Tax, M&A, etc.), with the aim of making known those changes which, from an accounting and financial point of view, are relevant for the preparation of the consolidated financial information.

This Area also publishes updated Information Bulletins on IFRS (International Financial Reporting Standards) where to present a summary of the main changes in accounting matters, as well as clarifications on various applicable aspects that may arise in this matter.

The Telefónica Group has also a training platform included in the corporate People area management tool, which includes both a Finance School, with specific knowledge and updating programs in financial information matters and an internal control training program that includes training related to auditing, internal control and risk management.

In addition, it should be noted that, based on the relevance of any new accounting developments, the staff of the departments involved in financial reporting attend (when possible and/or necessary) technical sessions given by external companies, related to the main developments in accounting.

Finally, the Group offers the Corporate University "Universitas Telefónica" with the objective of contributing to the Group's progress through the ongoing development of its professionals. All the programs in the training offer of the University of Telefónica are based on the development of the corporate culture, the business strategy and management and leadership competences.

4.7.2. Risk Assessment of Financial Information

Main characteristics of the risk identification process.

The ICFR was developed by the Group in accordance with international internal control standards established by COSO (Committee of Sponsoring Organizations, from the Treadway Commission), which establishes five

components in which the effectiveness and efficiency of internal control systems should be based:

- Establish an adequate control environment for the monitoring of all these activities.
- Assess the risks that an entity could incur in compiling its financial information.
- Design the necessary controls to mitigate the most critical risks.
- Establish the appropriate information circuits for the detection and communication of system weaknesses or inefficiencies.
- Monitor said controls to ensure their operability and the validity of their effectiveness over time.

Given the width of the universe of processes with impact on financial reporting at the Telefónica Group, a model has been developed to select the most relevant processes based on applying the so-called Scope Definition Model, which is a part of the Audit Methodology on the Group's Internal Control over Financial Information. This model, based both in the principle of relative importance and the assessment of risks related to financing reporting, is applied to the financial information reported by subsidiaries multi-group and associate companies. The model selects the significant accounts, i.e., those accounts with the largest contribution to the Group's consolidated financial information, to uphold the evaluation of internal control on financial reporting. Subsequently, identifies the relevant processes which generate the information of those accounts, as well as the significant risks regarding financial reporting on these processes.

Once the relevant processes have been identified, an analysis is made on those processes that have a more relevant impact on significant accounts, reviewing the effectiveness of the design and operating of the key controls which address the main associated risks or "objectives of financial information" (also named financial premises).

Given that the internal control evaluation the Group's financial reporting is performed as of the closing date of each year, during the year the corresponding activities are carried out to contrast the initial results obtained through the Scope Definition Model.

The aforementioned procedure for identifying and reviewing the key controls covers the objectives of the financial information (also named financial premises) of accuracy, valuation, integrity, cut-off of operations, existence / occurrence, presentation and comparability, as well as breakdown, and rights and obligations. This identification of the key controls, aimed at addressing the aforementioned financial premises of the significant accounts and relevant processes in scope, is carried out annually, continuously verifying during the period that no event has taken place so as to determine a modification thereof.

With regard to the process for identifying the company perimeter, the Finance and Control Office carries out, in a periodic manner, an update on its consolidation perimeter, verifying additions and removals of companies with the legal and financial departments of the different companies which are part of the Group, including the corporate departments.

As previously mentioned, Telefónica constantly monitors the most significant risks that could affect the main companies that make up its Group. For that purpose the Company has a Risk Management Model based on COSO (Committee of Sponsoring Organizations of the Treadway Commission). It is implemented in a homogeneous manner in the main operations of the Group, so that the persons responsible for the Company, in their field of action, carry out a timely identification, assessment, response and monitoring of the main risks. Telefónica's risk management, including those related to financial information, is integrated into the planning process and is aligned with the Company's strategy, in line with the requirements of COSO ERM 2017, "Enterprise Risk Management - Integrating with Strategy and Performance".

The Board of Directors of the Company, through the Audit and Control Committee, is the entity's governing body that supervises the process, as defined in Article 22 of the Regulation of the Board of Directors of Telefónica.

4.7.3. Control Activities

Procedures for reviewing and authorizing the financial information and the description of the ICFR, to be disclosed in the securities market, indicating those responsible, as well as the documents describing the flow of activities and controls (including those related to fraud risk) of different types of transactions that may materially affect the financial statements, including the accounts closing procedure and specific review of relevant value judgements, estimates, valuations and projections.

The Board of Directors of Telefónica, S.A. approved, on December 16, 2020, an update of the "Regulations Governing Disclosure and Reporting to the Markets" (RCIM). This regulation regulates the basic principles of functioning of the financial disclosure control processes and systems for reporting economic-financial, non-financial and corporate information, through which to aim at guaranteeing that the Company's relevant or privileged information is known by the markets, investors and other stakeholders, thus maximizing the disclosure and quality of this information, and ensuring that the mechanisms required to perform regular evaluations of the functioning of these processes and systems are established.

In addition, on a quarterly basis, the Consolidation and Accounting Polices Department (which forms part of the Finance and Control Department) of Telefónica submits to the Audit and Control Committee the periodic financial

information, highlighting the main events occurred and the accounting criteria applied in its preparation, clarifying those aspects of major importance occurred during the period.

Likewise, the Telefónica Group has documented economic-financial processes in place which enable that the criteria for preparing financial information are common, both in the companies of the Group and in those activities that are outsourced, if any.

Likewise, the Company follows documented procedures for preparing the consolidated financial information, so that the persons responsible for the different areas involved verify this information.

Additionally, in accordance with internal regulations, the Executive Chairmen or Chief Executive Officers and the Finance Directors of the companies of the Group must submit to the Consolidation and Accounting Policies Office an annual certificate stating to have reviewed the financial information presented, stating that the financial statements submitted represent faithfully, in all their relevant aspects, the financial situation, results and liquidity situation, and, additionally, that there are not known significant risks to the business or unhedged risks which might have a significant incidence on the equity and financial position.

In relation to the accounting closing procedure, the Consolidation and Accounting Policies Office issues the reporting and external audit instructions (in the case of external audits, only for the purposes of schedules and reports to be issued) for the closure of each period, which shall include the content, procedures and schedule to be followed by the departments and companies of the Telefónica Group as well as investee entities through joint control agreements (joint ventures and operations) or material entities over which it exercises significant influence and through its external auditors in the reporting of the financial-accounting information and the results of the external audit processes.

The specific review on relevant judgments, estimates, valuations and projections is carried out by the Consolidation and Accounting Policies Office, to identify critical accounting policies to the extent that they require the use of estimates and value judgements. In these cases, the Consolidation and Accounting Policies Office establishes, likewise, the necessary operational coordination actions with the rest of the units in the Telefónica Group in their specific fields of action and knowledge, prior to presenting them to the Audit and Control Committee. The most relevant ones are dealt with by the Audit and Control Committee and Senior Management defines the presentation format in the annual accounts, prior to approval by the Board of Directors.

Finally, Internal Audit, within its annual audit plan, among other actions, establishes annually work plans to assess the model for internal control over financial reporting of the Telefónica Group, in line with the above stated. That is, the Internal Audit plans include the review on the design and

operability of the controls on the breakdown and reporting of financial information, as well as the assessment of the internal control system of the mentioned process for the preparation of financial information, and the review of any significant modification, during the annual assessment period, that could materially affect the Group's internal control system on the process for the preparation of the consolidated annual accounts.

Internal control policies and procedures on information systems (among others, on access security, change control, system operation, operation continuity, separation of functions) that support the relevant processes of the company with regard to the preparation and publication of financial information.

The Global Security Policy considers an integral concept of the physical and operational security of human resources the information, technologies, cybersecurity, and material resources that support them as fundamental assets, with the purpose of guaranteeing corporate protection against potential damage or eventual losses. For this reason, guaranteeing the Group security is considered an essential aspect in the strategy of Telefónica and an essential enabler of the organization 's activity.

With the approval of this Policy, the Board of Directors expresses its determination and commitment to reaching a level of security that is adequate to the needs of the business and that guarantees the protection of the assets in a homogeneous way in all the companies of the Telefónica Group.

In this context, the Global Digital Security and Intelligence Office is responsible for the definition and promotion of the implementation of Security Policies and Standards in the Telefónica Group, understanding Security as an integral concept. These Policies and Standards aim at preserving the assets and protecting the strategic interests and objectives of the Telefónica Group, both in its vertical organization (including its business units) and in its cross-cutting dimension (including all its technological assets and business processes). With them, the confidentiality and integrity of the assets, interests and objectives of the Telefónica Group that are strategic is guaranteed, protecting them, as well, from potential actions that might affect their availability, damage their value, alter their contents, reduce their efficiency or affect their operability. The Global Digital Security and Intelligence Office is also in charge of measuring the level of implementation of the Security Regulations Framework on the assets and processes of the four technological platforms mentioned above and in charge of supervising the status of security on an ongoing manner.

The Telefónica Group's Global Directorate for Networks and Information System, is responsible for the technological strategy of both the Network and the Information Systems for the Group's 4 main markets,

defining the strategy and technological planning, as well as its evolution and ensuring compliance with the quality of service, cost and security conditions required by the Group. Among its various functions are the definition of Systems and Networks that improve the efficiency, effectiveness and profitability of the Group's processes. For operators in Latin America, these same functions are assumed and carried out by the Network and Information Systems Department of this segment.

The security activities developed by organizational structures, responsible for assets and employees for the protection of the Group's technological assets and processes will be governed by the following principles, for whose promotion, management, control and improvement the appropriate mechanisms must be established.

- **Principle of Legality:** ensure the necessary compliance with all laws and regulations in matters of Security, both national and international, valid at any given time in any of the territories where the Telefónica Group operates.
- **Principle of Efficiency:** in order to reach the required level of Security in an efficient manner, the anticipatory and preventive nature of actions must be ensured. For this purpose, knowledge of potential threats must be privileged and potential risks must be analyzed, as part of an intelligence process where to identify and understand the most relevant threats that affect the organization. The objective is to get ahead of their action and evolution, and to safeguard the Telefónica Group's global organization from their potential harmful effects and mitigate the damages from those risks down to an acceptable level for the business.
- **Principle of Co-responsibility:** users must preserve the Security of the assets that Telefónica makes available to them, in line with the security criteria, requirements, procedures, and technologies defined in the Security Regulations Framework, as well as in line with the applicable laws and regulations in this matter. At the same time, users must exclusively use the assets for the performance of activities that correspond to their workstation and assigned tasks.
- **Principle of Cooperation and Coordination:** in order to reach the levels of efficiency required by Telefónica business project, the global action and integral concept of Security activities must be preserved and, together with the aforementioned requirements of anticipation and prevention, cooperation and coordination between all business units and employees must be prioritized, in order to generate the adequate synergies and to jointly reinforce the capabilities.

With the aim of reaching a homogeneous level of security, a Global Security Regulations Framework is defined, which will take into account the analyses of risks and threats as well as the setting of precise protective or corrective prevention measures.

Likewise, strategic plans will be conceived and prepared so that they enable to identify and prioritize the projects and budgets necessary for reaching the adequate levels of Security and Auditability, minimizing the security risks identified in the corresponding analyses, and maximizing the effectiveness of the investment and the resources used.

The Security Organization coordinates the Security responsibilities of the various Telefónica Group structures, promoting cooperation among them to guarantee the efficient and joint protection of the assets.

Finally, the Internal Audit unit, with the scope established in its Annual Audit Plan, sets out work plans to verify the effectiveness of design and operation, as well the efficiency of the defined internal control environment, to ensure compliance with all Group policies and regulations on Security and Data Processing and Protection, focusing on the governance model and the integrity accuracy of the information, reviewing in the audit work the adequacy and effectiveness of the defined controls, both in their design and operation.

Internal control policies and procedures aimed at supervising the managing of activities outsourced to third parties, as well as those aspects of assessment, calculation or valuation commended to independent experts that may affect in a material manner the financial statements.

In the case that a process or part of a process is outsourced to a third party unrelated to the company, this does not exempt from the need to have controls which ensure an adequate internal control level in the whole of the process. Given the importance of service outsourcing and the consequences that this can cause on the opinion about the effectiveness of the internal control over financial reporting, the necessary actions are taken in the Telefónica Group in order to achieve to evidence an adequate control level. The actions that are carried out to achieve the mentioned objective may vary among the three following ones, which, depending on the case, may be complementary:

- **Certification of internal control by an independent third party:** ISAE 3402 and/or SSAE 18 certifications in their different typologies.
- **Establishing specific controls:** identified, designed, implemented and assessed by the Company and/or the Telefónica Group.
- **Direct assessment:** an assessment, carried out by the Internal Audit area, on certain administrative outsourced processes, with the scope established in its annual audit plan.

When Telefónica or any of its subsidiaries uses the services of an independent expert whose result and conclusions

may present potential impacts on the consolidated financial information, with regard to the process to select a supplier, the area that requests the service and, if applicable, together with the Purchase department, must make sure about the competence, training, credentials and independence of the third party regarding the methods and main hypotheses used. The Finance and Control Office has established control activities aimed at guaranteeing the validity of data, the methods used, and the reasonability of the hypotheses used by the third party through the recurrent monitoring on the own KPIs¹ of each duty which enable to ensure compliance of the outsourced process according to the policies and guidelines issued by the Group.

Likewise, there is an internal procedure for engaging independent experts which requires certain levels of approval.

4.7.4. Information and Communication

A specific function in charge of defining, keeping updated the accounting policies (area or department of accounting policies) and resolving issues or conflicts derived from its interpretation, maintaining fluid communication with those responsible for operations in the organization, as well as an updated accounting policy manual informed to the units through which the entity operates.

The Consolidation and Accounting Policies Office of the Group is in charge of defining and updating the accounting policies for the purposes of consolidated financial information.

Thus, this area periodically issues updated Information Bulletins on IFRS (International Financial Reporting Standards), where this area presents a summary of the main changes in accounting matters, as well as clarifications on various aspects that may arise regarding this matter.

Additionally, the Telefónica Group has a Manual of Accounting Policies which is permanently updated. The objectives of this Manual are: to adapt the corporate accounting principles and policies to the IFRS regulatory framework; to maintain accounting principles and policies which enable that the information is comparable within the Group and which facilitate an optimum management from the origin of the information; to improve the quality of the accounting information of the various Group companies and of the Consolidated Group by disclosing, agreeing and implementing accounting principles which are unique to the Group; and to facilitate the accounting integration of acquired and newly-created companies into the Group's accounting system by means of having a reference manual.

All companies belonging to the Telefónica Group must comply in a mandatory manner with the mentioned

Manual when carrying out their reporting for the preparation of the consolidated financial information.

This documentation is available for the whole Group on the Telefónica Intranet in an integrated Accounting and Reporting portal. In this portal, in addition to the digitalized Manual, also includes the history of IFRS Bulletins, as well as the Reporting Manual with its forms and all the details of the corporate chart of accounts. All accounting and reporting update communications are made through this tool, which is part of the Group's digital transformation project.

Likewise, the Accounting Policies Area maintains a fluid communication with the accounting heads of the Group's main operations, both proactively and reactively. This communication is useful not only for resolving doubts or conflicts but also to ensure that accounting criteria in the Group are homogeneous as well as to share best practices among operators.

Mechanisms for obtaining and preparing the financial information with standardized formats applied and used by all the units in the entity or the Group, which support the main financial statements and notes, as well as information detailing the ICFR.

As stated above, there is a Manual for Filling in the Consolidation Reporting of the Telefónica Group which provides specific instructions for preparing the details which make up the reporting pack, provided by all components of the Telefónica Group for the preparation of the Telefónica Group's consolidated financial statements and the consolidated explanatory notes.

Likewise, the Telefónica Group has implemented a specific system, through a software, which supports the reporting of the individual financial statements of its various subsidiaries, as well as the necessary notes and disclosures for preparing the consolidated annual accounts. This tool is used, likewise, to carry out the consolidation process and its subsequent analysis. The system is managed centrally, and all components of the Telefónica Group use the same account plan.

4.7.5. Supervision of System Operation

The supervision activities and results of the ICFR evaluation performed during the year. Procedure for which the person responsible performs the evaluation establishes the scope and reports their results, with the entity defining an action plan that details the pertinent corrective measures and consideration of its impact on the financial information.

A

As indicated above, the Corporate Bylaws and the Regulation of the Board of Directors state that the primary duty of the Audit and Control Committee shall be to support the Board of Directors in its supervisory duties,

establishing among its competencies to supervise the effectiveness of the Company's internal controls and the systems for risk management and control, as well as to discuss with the Account Auditors significant deficiencies or material weaknesses in the internal control system over financial reporting (ICFR) detected during the development of both the integrated audit performed by the Account Auditor and the evaluation of internal control on the Group's financial reporting at the end of each year, carried out by Internal Audit.

Along the same lines as the above, Telefónica has an Internal Control Policy that sets that the Board of Directors, through the Audit and Control Committee, supervises the internal control system, with the support of the Internal Audit unit of the Telefónica Group. In that Policy, "internal control" is defined as the process performed by the Board of Directors, Management and the rest of the staff of the Company, being designed with the purpose of providing a reasonable assurance degree for the attainment of the objectives related to operations, information and compliance. With the purpose of helping to the achievement of its objectives, the Company has an internal control model defined in accordance with the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

Likewise, there is an Internal Audit Organization Policy, which includes aspects regarding the organization and functioning of this area. According to what is set in that Policy, Internal Audit is the area in Telefónica in charge of confirming, by means of appropriate evidence, the adequate functioning of the internal control and risk management structures and, if applicable, detecting possible inefficiencies or non-compliance with the control system that the Group establishes in its processes. In this respect, Internal Audit becomes an area independent from the Company management which directly reports and supports the Audit and Control Committee in its competencies on assurance, risk management and the internal control system.

The Internal Audit function is developed in accordance with the International Standards for the Professional Practice of Internal Auditing and, in this regard, it has been awarded a Quality Certificate from the International Institute of Internal Auditors.

With regard to the supervision of Internal Control over Financial Reporting (ICFR), Telefónica, S.A., as company listed on the New York Stock Exchange, is subject to the regulatory requirements established by the North American regulatory bodies that affect companies listed on that Stock Exchange. Among those requirements is the aforementioned Sarbanes-Oxley Act, of 2002, and, specifically, Section 404 of that Act, which stipulates the need for companies listed in the US market to assess on an annual basis the effectiveness of the procedures and structures of the internal control over financial reporting (ICFR). In order to comply with this requirement, and as stated above, the Telefónica Group has a model to assess

the system for the internal control over financial reporting (ICFR). Internal Audit is the area in charge of performing, on an annual basis, the assessment on its effectiveness at the year's end.

Additionally, and also in accordance with what is established by this Act and the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), the External Auditor issues their own independent opinion on the effectiveness of the system for the internal control over financial reporting (ICFR).

Review on specific processes and controls

Without prejudice to filling in the self-assessment questionnaire, in certain companies of the Group, according to criteria regarding the relevance of their contribution to the economic-financial magnitudes of the Group and other considered risk factors, a direct review is made on their processes and key controls, applying the Internal Control Auditing Methodology on the Group's Financial Information, specifically the "Scope Definition Model" (which forms part of that assessment methodology), which enables to identify the significant financial accounting by company of the consolidation perimeter, for the purposes of evaluating the Internal Control System for Financial Information (ICFR) at the Telefónica Group level, based on the aforementioned evaluation methodology, which is also in accordance with the guidelines established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its "Internal Control - Integrated Framework 2013" report.

Once the significant accounts are identified Having identified within the scope of the evaluation based on the calculated consolidated materiality, the Internal Control Auditing Methodology on the Group's Financial Information is applied as follows:

- Identify economic-financial processes associated with the significant accounts so that a reasonable coverage is achieved in the evaluation of the ICFR.
- Also identify Information Technology (IT) systems and tools and technological infrastructures associated with these scoped processes.
- Identify significant risks regarding financial reporting associated to those processes.
- Carry out Walkthroughs of the economic-financial processes in the scope of the evaluation, assessing the design of the controls associated with these processes, and identifying the key controls that address the risks associated with these processes.
- Assess the operability of the previously qualified key controls, by applying the corresponding evaluation tests based on the identified risks, and the results of the aforementioned effectiveness tests of the design.

- Where appropriate, control deficiencies identified are reported to the Audit and Control Committee, as well as the design and implementation of the corresponding actions plans which are regularly mentioned by the Audit and Control Committee.
- Additionally, in the event that control deficiencies and/or opportunities for improvement are identified during the Internal Control System for Financial Information (ICFR) assessment procedures, they are reported to Management through the corresponding conclusions issued by Internal Audit, prior analysis of their impact, both at individual and aggregate level, on the evaluation of the Internal Control System for Financial Information (ICFR) of the Telefónica Group. For the purposes of this assessment, the existing compensating controls are taken into consideration, which mitigate the risks that the deficiencies identified could not be remedied at year-end.

Review on IT general controls

The Information Technology General Controls (ITGCs), which support the financial and economic processes in the assessment scope of the internal control over financial reporting (ICFR), are assessed at least annually, fundamentally according to aspects related to regulations and guidelines which apply at global level in the Group.

The review on IT general controls over the aforementioned IT systems and tools and the technological infrastructures, has the objective to assess the effectiveness of the design and operability of key controls related to (i) managing changes to programs, which includes the authorization of the changes implemented at the production stage and that must be supported by their corresponding user tests (UATs), ensuring an adequate segregation of duties and environments, such as (ii) logical access, which includes the control on credentials and profiles, as well as the segregation of duties and the monitoring of activities that are critical in information systems and tools and in the technological infrastructures that supports them (databases and operating systems), and (iii) other IT general controls which support the correct operation of information systems and tools (managing changes to infrastructures, back-ups, managing patches and programmed tasks and their monitoring and managing gaps).

Self-assessment Questionnaires

In addition, all the companies that depend from the Group receive annually internal control self-assessment questionnaires, whose answers must be subsequently certified by the persons responsible for the internal control over financial reporting (ICFR), in each Company (Executive Presidents and/or Finance Directors or their functional equivalents). These questionnaires address aspects of internal control over financial reporting (ICFR) that are considered minimum requirements in order to achieve a reasonable assurance of the reliability of the financial information reported. The answers are

demonstrably audited by the corresponding Internal Audit Units.

Action plans

In the event that control deficiencies and/or opportunities for improvement are detected as a result of the assessment of the Telefónica Group's Internal Control System for Financial Information (SClIF), depending on the scope established, the control owners communicate their action plans agreed for solving the identified control deficiencies and/or improvement opportunities, as well as the deadlines scheduled for their implementation which is regularly monitored by the Audit and Control Committee. These action plans have as fundamental objectives:

- To remedy the control deficiencies identified in the ICFR annual assessment, so that the control activities are designed and operate in an effective manner, or failing that, the risk generated is substantially mitigated.
- To prioritize the implementation of improvement opportunities in the efficiency of processes; improvement opportunities are defined as such, since they do not constitute internal control deficiencies.

Weakness detection and management procedure

As previously stated, the Internal Audit area is also in charge, among other functions, to provide support to the Audit and Control Committee in the supervision of the functioning of the system for the internal control over financial reporting (ICFR).

The Internal Audit department participates in the Audit and Control Committee meetings and informs regularly about the conclusions of the carried out works, and also informs about the action plans designed and agreed for mitigation and about the degree of implementation thereof. This includes, where applicable, to communicate internal control significant deficiencies and material weaknesses which may have been identified in the process for ICFR assessment, as well as the follow-up on the implementation of action plans related to significant deficiencies and material weaknesses.

On the other hand, the Accounts Auditor also participates in the Audit and Control Committee, at the request of the Audit and Control Committee, in order to explain and clarify aspects of their audit reports and the rest of work carried out by the External Auditor, which including work carried out to audit the effectiveness of the internal control over financial reporting. The External Auditor is obliged to communicate the internal control significant deficiencies or material weaknesses identified in the development of their audit on the system for the internal control over financial reporting (ICFR). For this purpose, the Accounts Auditor has direct access at all times to Senior Management and the Chairman of the Audit and Control Committee, and, in parallel with the Internal Auditing, it also reports independently to that Committee the results of both the preliminary and final phase of their audit on the system for the internal control over financial reporting (ICFR).

Internal Audit has carried out its assessment of the effectiveness of the Internal Control System for Financial Information (SCIF) as of December 31, 2022. To perform this assessment, the guidelines established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its "Internal Control - Integrated Framework 2013" report, were considered. 4.7.6. External Auditor's Report

On the other hand, the projection to future periods of the evaluation of internal control is subject to risks such that said internal control being inadequate as a result of future changes in the applicable conditions, or that in the future the level of compliance of the established policies or procedures may be reduced.

We believe that the evidence we have obtained provides a sufficient and adequate basis for our opinion.

Detail the procedure

The Company adopts the necessary measures, whenever possible, that the Directors receive the necessary information, specially drawn up and geared to preparing the meetings of the Board and its Committees, sufficiently in advance. Under no circumstances shall such a requirement not be fulfilled, on the grounds of the importance or the confidential nature of the information, apart from absolutely exceptional cases.

In this regard, and in accordance with Articles 18 and 20 of the Regulation of the Board of Directors, at the beginning of each year the Board of Directors and its Committees set the calendar of ordinary meetings to be held during the year. The calendar may be amended by resolution of the Board itself, or by decision of the Chairman, in which case the Directors shall be made aware of the amendment as soon as practicable. Likewise, the Regulations of the Audit and Control Committee and the Regulations of the Nominations, Compensation and Good Governance Committee detail the operating regime of these Committees.

Also, the Board and its Committees shall prepare an Action Plan detailing the actions to be carried out and their timing for each year, as per their assigned powers and duties.

Likewise, all the meetings of the Board and the Board Committees have a pre-established agenda, which is communicated at least three days prior to the date scheduled for the meeting together with the call for the session. The Agenda for each meeting will clearly state points on which the Board of Directors, or the Executive Committee, have to adopt a decision or resolution.

For the same purpose, in general, the Directors are sent the documentation related to the agenda of the meetings sufficiently in advance. In accordance with Article 19 of the Regulations of the Board of Directors, the Chairman of the Board of Directors organizes the debates, promoting and encouraging all Directors to play an active role in the deliberations, safeguarding their right to freely adopt their own position on all matters. Moreover, with the assistance of the Secretary, he shall ensure that the Directors are sent sufficient information to discuss the points set out in the agenda sufficiently in advance of the meeting. He also ensures that sufficient time is given over to discussing strategic matters, and shall encourage debate during meetings, safeguarding the Directors' right to adopt their positions freely on all points discussed.

To provide all the information and clarifications necessary in relation to certain points deliberated, the Group's senior executive officers attend nearly all the Board and Committee meetings to explain the matters within their powers.

Furthermore, and as a general rule, the Regulations of the Board of Directors (Article 27) expressly establish that Directors are granted the broadest powers to obtain information about all aspects of the Company, to examine its books, records, documents and other data regarding corporate transactions. Exercising of this right to receive information shall be channeled through the Chairman or Secretary to the Board of Directors, who shall respond to the requests made by the Directors, providing them with the requested information directly or offering them the proper contacts at the appropriate level of the organization.

C.1.39 Identify individually as regards directors, and in aggregate form in other cases, and provide details of any agreements between the company and its directors, executives or employees containing indemnity or golden parachute clauses in the event of resignation or dismissal without due cause or termination of employment as a result of a takeover bid or any other type of transaction.

Annual remuneration on which the indemnity is based is the last fixed remuneration and the arithmetic

Regarding the contracts of members of Senior Management, in general, they are contractually entitled the right to receive the economic compensation indicated below in the event that their employment relationship is ended for reasons attributable to the Company or, in some instances, is due to objective reasons such as a change of control in the Company. However, if the employment relationship is terminated because of a breach attributable to the Executive, he/she will not be entitled to any compensation whatsoever. That notwithstanding, in certain cases the severance benefit to be received by the member of Senior Management according to their contract is not calculated as per these general criteria, but rather is based on other circumstances of a personal or professional nature or on the time when the contract was signed. The agreed economic compensation for the termination of the employment relationship, where applicable, consists of a maximum of three times annual remuneration plus another year based on length of service at the Company. Annual remuneration on which the indemnity is based is the last fixed remuneration and the arithmetic mean of the last two variable remuneration payments received by contract.

Meanwhile, contracts that tie employees to the Company under a common employment relationship do not include indemnity clauses for the termination of their employment. In these cases, the employee is entitled to any indemnity set forth in prevailing labor legislation. However, contracts of some company employees, depending on their level and seniority, as well as their personal or professional circumstances or when they signed their contracts, establish their right to receive compensation in the same cases as in the preceding paragraph, generally consisting of a year and a half salary. The annual salary on which the indemnity is based is the last fixed salary and the average amount of the last two variable payments received by contract.

Indicate whether, beyond the cases established by legislation, these agreements have to be communicated and/or authorised by the governing bodies of the company or its group. If so, specify the procedures, the cases concerned and the nature of the bodies responsible for their approval or communication:

D.3 Give individual details of the operations that are significant due to their amount or relevant due to their subject matter carried out by the company or its subsidiaries with the administrators or managers of the company, including those operations carried out with entities that the administrator or manager controls or controls jointly, indicating the competent body for its approval and if any affected shareholder or director has abstained. In the event that the board of directors has responsibility, indicate if the proposed resolution has been approved by the board without a vote against the majority of the independents:

D.4 Report individually on intragroup transactions that are significant due to their amount or relevant due to their subject matter that have been undertaken by the company with its parent company or with other entities belonging to the parent's group, including subsidiaries of the listed company, except where no other related party of the listed company has interests in these subsidiaries or that they are fully owned, directly or indirectly, by the listed company.

In any case, report any intragroup transaction conducted with entities established in countries or territories considered as tax havens:

D.5 Give individual details of the operations that are significant due to their amount or relevant due to their subject matter carried out by the company or its subsidiaries with other related parties pursuant to the international accounting standards adopted by the EU, which have not been reported in previous sections.

G. Degree of Compliance with Corporate Governance Recommendations

Specify the Company's degree of compliance with recommendations of the Good Governance Code for listed companies.

In the event that a recommendation is not followed or only partially followed, a detailed explanation of the reasons must be included so that shareholders, investors and the market in general have enough information to assess the company's conduct. General explanations are not acceptable.

1. That the Articles of Association of listed companies should not limit the maximum number of votes that may be cast by one shareholder or contain other restrictions that hinder the takeover of control of the company through the acquisition of its shares on the market.

Explain

In accordance with Article 26 of the Corporate Bylaws, no shareholder may cast a number of votes in excess of 10 percent of the total voting capital existing at any time, regardless of the number of shares held by such shareholder and in full compliance with mandatory requirements of law. In determining the maximum number of votes that each shareholder may cast, only the shares held by each such shareholder shall be computed. It does not include additional votes cast on behalf of other shareholders who may have appointed them as proxy, who are themselves likewise restricted by the 10 percent voting ceiling.

The limitation established in the preceding paragraphs shall also apply to the maximum number of votes that may be collectively or individually cast by two or more shareholder companies belonging to the same group of entities, as well as to the maximum number of votes that may be cast by an individual or corporate shareholder and the entity or entities that are shareholders themselves and which are directly or indirectly controlled by such individual or corporate shareholder.

In addition, Article 30 of the Corporate Bylaws stipulates that no person may be appointed as Director unless they have held, for more than three years prior to their appointment, a number of shares of the Company representing a nominal value of at least 3,000 euros, which the Director may not transfer while in office. These requirements shall not apply to those persons who, at the time of their appointment, are related to the Company under an employment or professional relationship, or when the Board of

Directors resolves to waive such requirements with the favorable vote of at least 85 percent of its members.

Article 31 of the Corporate Bylaws establishes that, in order for a Director to be appointed Chairman, Vice-Chairman, Chief Executive Officer or member of the Executive Commission, it shall be necessary for such Director to have served on the Board for at least the three years immediately prior to any such appointment. However, such length of service shall not be required if the appointment is made with the favorable vote of at least 85 percent of the members of the Board of Directors.

The Corporate Bylaws (Article 26) restrict the number of shares that may be cast by a single shareholder or by shareholders belonging to the same group in order to achieve a suitable balance and protect the position of minority shareholders, thus avoiding a potential concentration of votes among a reduced number of shareholders, which could impact on the guiding principle that the General Shareholders' Meeting must act in the social interest and interest of all the shareholders. Telefónica believes that this measure does not constitute a blocking mechanism of takeover bids but rather a guarantee that the acquisition of control required the sufficient support of all shareholders, because, naturally, and as taught by experience, potential offerors may make their offer conditional upon the removal of this requirement.

In relation to the above and in accordance with the provisions of Article 527 of the Spanish Corporations Act, any clauses in the Bylaws of listed corporations that directly or indirectly restrict the number of shares that may be cast by a single shareholder by shareholders belonging to the same group or by any parties acting together with the aforementioned, will be rendered null and void when, subsequent to a takeover bid, the offeror has a stake equal to or over 70% of the share capital which confers voting rights, unless the offeror was not subject to neutralization measures to prevent a takeover bid or had not adapted these measures accordingly.

In addition, the special requirements for appointment as Director (Article 30 of the Corporate Bylaws) or as Chairman, Vice-Chairman, Chief Operating Officer or member of the Executive Commission (Article 31 of the Corporate Bylaws) are justified by the desire that access to the management decision-making body and to the most significant positions thereon is reserved to persons who have demonstrated their commitment to the Company and who, in addition, have adequate experience as members of the Board, such that continuity of the management model adopted by the Telefónica Group may be assured in the interest of all of its shareholders and stakeholders. In any event, these special requirements may be waived by broad consensus among the members of the Board of Directors, namely, with the favorable vote of at least 85

percent of its members, as provided by the aforementioned Articles of the Corporate Bylaws.

2. That when the listed company is controlled by another entity in the meaning of Article 42 of the Commercial Code, whether listed or not, and has, directly or through its subsidiaries, business relations with said entity or any of its subsidiaries (other than the listed company) or carries out activities related to the those of any of them it should make accurate public disclosures on:

a) The respective areas of activity and possible business relationships between the listed company or its subsidiaries and the parent company or its subsidiaries.

b) The mechanisms in place to resolve any conflicts of interest that may arise.

Not applicable

3. That, during the ordinary General Shareholders' Meeting, as a complement to the distribution of the written annual corporate governance report, the chairman of the Board of Directors should inform shareholders orally, in sufficient detail, of the most significant aspects of the company's corporate governance, and in particular:

a) Changes that have occurred since the last General Shareholders' Meeting.

b) Specific reasons why the company has not followed one or more of the recommendations of the Code of Corporate Governance and the alternative rules applied, if any.

Complies

4. That the company should define and promote a policy on communication and contact with shareholders and institutional investors, within the framework of their involvement in the company, and with proxy advisors that complies in all aspects with rules against market abuse and gives equal treatment to similarly situated shareholders. And that the company should publish this policy on its website, including information on how it has been put into practice and identifying the contact persons or those responsible for implementing it.

And that, without prejudice to the legal obligations regarding dissemination of inside information and other types of regulated information, the company should also have a general policy regarding the communication of economic-financial, non-financial and corporate information through such channels as it may

consider appropriate (communication media, social networks or other channels) that helps to maximise the dissemination and quality of information available to the market, investors and other stakeholders.

Complies

5. That the Board of Directors should not submit to the General Shareholders' Meeting any proposal for delegation of powers allowing the issue of shares or convertible securities with the exclusion of preemptive rights in an amount exceeding 20% of the capital at the time of delegation.

And that whenever the Board of Directors approves any issue of shares or convertible securities with the exclusion of preemptive rights, the company should immediately publish the reports referred to by company law on its website.

Complies

6. That listed companies that prepare the reports listed below, whether under a legal obligation or voluntarily, should publish them on their website with sufficient time before the General Shareholders' Meeting, even if their publication is not mandatory:

a) Report on the auditor's independence.

b) Reports on the workings of the audit and nomination and remuneration committees.

c) Report by the audit committee on related-party transactions.

Complies

7. That the company should transmit in real time, through its website, the proceedings of the General Shareholders' Meetings.

And that the company should have mechanisms in place allowing the delegation and casting of votes by means of data transmission and even, in the case of large-caps and, to the extent that it is proportionate, attendance and active participation in the General Meeting to be conducted by such remote means.

Complies

8. That the audit committee should ensure that the financial statements submitted to the General Shareholders' Meeting are prepared in accordance with accounting regulations. And that in cases in which the auditor has included a qualification or reservation in its audit report,

the chairman of the audit committee should clearly explain to the general meeting the opinion of the audit committee on its content and scope, making a summary of this opinion available to shareholders at the time when the meeting is called, alongside the other Board proposals and reports.

Complies

9. That the company should permanently publish on its website the requirements and procedures for certification of share ownership, the right of attendance at the General Shareholders' Meetings, and the exercise of the right to vote or to issue a proxy.

And that such requirements and procedures promote attendance and the exercise of shareholder rights in a non-discriminatory fashion.

Complies

10. That when a duly authenticated shareholder has exercised his or her right to complete the agenda or to make new proposals for resolutions in advance of the General Shareholders' Meeting, the company:

a) Should immediately distribute such complementary points and new proposals for resolutions.

b) Should publish the attendance, proxy and remote voting card specimen with the necessary changes such that the new agenda items and alternative proposals can be voted on in the same terms as those proposed by the Board of Directors.

c) Should submit all these points or alternative proposals to a vote and apply the same voting rules to them as to those formulated by the Board of Directors including, in particular, assumptions or default positions regarding votes for or against.

d) That after the General Shareholders' Meeting, a breakdown of the voting on said additions or alternative proposals is communicated.

Not applicable

11. That if the company intends to pay premiums for attending the General Shareholders' Meeting, it should establish in advance a general policy on such premiums and this policy should be stable.

Not applicable

12. That the Board of Directors should perform its functions with a unity of purpose and independence of criterion, treating all similarly situated shareholders equally and being guided by the best interests of the company, which is understood to mean the pursuit of a profitable and sustainable business in the long term, promoting its continuity and maximising the economic value of the business.

And that in pursuit of the company's interest, in addition to complying with applicable law and rules and conducting itself on the basis of good faith, ethics and a respect for commonly accepted best practices, it should seek to reconcile its own company interests, when appropriate, with the interests of its employees, suppliers, clients and other stakeholders that may be affected, as well as the impact of its corporate activities on the communities in which it operates and on the environment.

Complies

13. That the Board of Directors should be of an appropriate size to perform its duties effectively and in a collegial manner, which makes it advisable for it to have between five and fifteen members.

Complies

14. That the Board of Directors should approve a policy aimed at favouring an appropriate composition of the Board that:

a) Is concrete and verifiable;

b) Ensures that proposals for appointment or re-election are based upon a prior analysis of the skills required by the Board of Directors; and

c) Favours diversity of knowledge, experience, age and gender. For these purposes, it is considered that the measures that encourage the company to have a significant number of female senior executives favour gender diversity.

That the result of the prior analysis of the skills required by the Board of Directors be contained in the supporting report from the nomination committee published upon calling the General Shareholders' Meeting to which the ratification, appointment or re-election of each director is submitted.

The nomination committee will annually verify compliance with this policy and explain its

findings in the annual corporate governance report.

Complies

15. That proprietary and independent directors should constitute a substantial majority of the Board of Directors and that the number of executive directors be kept to a minimum, taking into account the complexity of the corporate group and the percentage of equity participation of executive directors.

And that the number of female directors should represent at least 40% of the members of the Board of Directors before the end of 2022 and thereafter, and no less than 30% prior to that date.

Partially complies

The Company complies with the first part of the recommendation. On the other hand, and in relation to the number of female Directors, the Company maintains its commitment to diversity and equal opportunities, and has deliberately sought women who meet the required professional profile. This commitment has materialised in the increase in the number of female Directors, who went from representing 11.11% of the members of the Board of Directors in 2016 to currently representing 33.33%. All measures and processes adopted and agreed upon by the Board of Directors and the Nominating, Compensation and Corporate Governance Committee with the objective of facilitate the inclusion on the Board of Directors of a number of women that will allow a balanced presence of women and men to be achieved, and to prevent the selection procedures from suffering from implicit biases that hinder the appointment of female Directors, have been undertaken and carried out by the Company.

In order to continue making progress in this area, the Nominating, Compensation and Corporate Governance Committee evaluates profiles to fill new vacancies on the Board of Directors in accordance with the provisions of Telefónica's Director Selection Policy and Diversity Policy, favouring diversity of gender, experience and knowledge, without implicit biases that could imply any discrimination.

In conclusion, the process of renewing the Company's Board of Directors has been designed and is being implemented progressively to ensure continuity in the Telefónica Group's management model. In this sense, in the selection of new candidates to fill the coming vacancies, the Company will continue looking for women who meet the required professional profile in order to increase gender diversity at the Board of Directors.

16. That the number of proprietary directors as a percentage of the total number of non-executive director not be greater than the proportion of the company's share capital represented by those directors and the rest of the capital.

This criterion may be relaxed:

- a) In large-cap companies where very few shareholdings are legally considered significant.
- b) In the case of companies where a plurality of shareholders is represented on the Board of Directors without ties among them.

Complies

17. That the number of independent directors should represent at least half of the total number of directors.

That, however, when the company does not have a high level of market capitalisation or in the event that it is a large-cap company with one shareholder or a group of shareholders acting in a concert who together control more than 30% of the company's share capital, the number of independent directors should represent at least one third of the total number of directors.

Complies

18. That companies should publish the following information on its directors on their website, and keep it up to date:

- a) Professional profile and biography.
- b) Any other Boards to which the directors belong, regardless of whether or not the companies are listed, as well as any other remunerated activities engaged in, regardless of type.
- c) Category of directorship, indicating, in the case of individuals who represent significant shareholders, the shareholder that they represent or to which they are connected.
- d) Date of their first appointment as a director of the company's Board of Directors, and any subsequent re-elections.
- e) Company shares and share options that they own.

Complies

19. That the annual corporate governance report, after verification by the nomination

committee, should explain the reasons for the appointment of any proprietary directors at the proposal of the shareholders whose holding is less than 3%. It should also explain, if applicable, why formal requests from shareholders for presence on the Board were not honoured, when their shareholding was equal to or exceeded that of other shareholders whose proposal for proprietary directors was honoured.

Not applicable

20. That proprietary directors representing significant shareholders should resign from the Board when the shareholder they represent disposes of its entire shareholding. They should also resign, in a proportional fashion, in the event that said shareholder reduces its percentage interest to a level that requires a decrease in the number of proprietary directors.

Not applicable

21. That the Board of Directors should not propose the dismissal of any independent director before the completion of the director's term provided for in the articles of incorporation unless the Board of Directors finds just cause and a prior report has been prepared by the nomination committee. Specifically, just cause is considered to exist if the director takes on new duties or commits to new obligations that would interfere with his or her ability to dedicate the time necessary for attention to the duties inherent to his or her post as a director, fails to complete the tasks inherent to his or her post, or is affected by any of the circumstances which would cause the loss of independent status in accordance with applicable law.

The dismissal of independent directors may also be proposed as a result of a public takeover bid, merger or other similar corporate transaction entailing a change in the shareholder structure of the company, provided that such changes in the structure of the board are the result of the proportionate representation criterion provided in Recommendation 16.

Complies

22. That companies should establish rules requiring that directors inform the Board of Directors and, when circumstances arise which affect them, whether or not related to their actions in the company itself, and which may harm the company's standing and

reputation, and in particular requiring them to inform the Board of any criminal proceedings in which they appear as suspects or defendants, as well as of how the legal proceedings subsequently unfold.

And that, if the Board is informed or becomes aware in any other manner of any of the circumstances mentioned above, it must investigate the case as quickly as possible and, depending on the specific circumstances, decide, based on a report from the nomination and remuneration committee, whether or not any measure may be adopted, such as the opening of an internal investigation, asking the director to resign or proposing that he or she be dismissed. And that these events must be reported in the annual corporate governance report, unless there are any special reasons not to do so, which must also be noted in the minutes. This without prejudice to the information that the company must disseminate, if appropriate, at the time when the corresponding measures are implemented.

Complies

23. That all directors clearly express their opposition when they consider any proposal submitted to the Board of Directors to be against the company's interests. This particularly applies to independent directors and directors who are unaffected by a potential conflict of interest if the decision could be detrimental to any shareholders not represented on the Board of Directors.

Furthermore, when the Board of Directors makes significant or repeated decisions about which the director has serious reservations, the director should draw the appropriate conclusions and, in the event the director decides to resign, explain the reasons for this decision in the letter referred to in the next recommendation.

This recommendation also applies to the secretary of the Board of Directors, even if he or she is not a director.

Not applicable

24. That whenever, due to resignation or resolution of the General Shareholders' Meeting, a director leaves before the completion of his or her term in office, the director should explain the reasons for this decision, or in the case of non-executive directors, their opinion of the reasons for

cessation, in a letter addressed to all members of the Board of Directors.

And that, without prejudice to all this being reported in the annual corporate governance report, insofar as it is relevant for investors, the company must publish the cessation as quickly as possible, adequately referring to the reasons or circumstances adduced by the director.

Not applicable

25. That the nomination committee should make sure that non-executive directors have sufficient time available in order to properly perform their duties.

And that the Board regulations establish the maximum number of company Boards on which directors may sit.

Complies

26. That the Board of Directors meet frequently enough so be able to effectively perform its duties, and at least eight times per year, following a schedule of dates and agenda established at the beginning of the year and allowing each director individually to propose items that do not originally appear on the agenda.

Complies

27. That director absences occur only when absolutely necessary and be quantified in the annual corporate governance report. And when absences do occur, that the director appoint a proxy with instructions.

Complies

28. That when directors or the secretary express concern regarding a proposal or, in the case of directors, regarding the direction in which the company is headed and said concerns are not resolved by the Board of Directors, such concerns should be included in the minutes at the request of the director expressing them.

Not applicable

29. That the company should establish adequate means for directors to obtain appropriate advice in order to properly fulfill their duties including, should circumstances warrant, external advice at the company's expense.

Complies

30. That, without regard to the knowledge necessary for directors to complete their

duties, companies make refresher courses available to them when circumstances make this advisable.

Complies

31. That the agenda for meetings should clearly indicate those matters on which the Board of Directors is to make a decision or adopt a resolution so that the directors may study or gather all relevant information ahead of time.

When, in exceptional circumstances, the chairman wishes to bring urgent matters for decision or resolution before the Board of Directors which do not appear on the agenda, prior express agreement of a majority of the directors shall be necessary, and said consent shall be duly recorded in the minutes.

Complies

32. That directors be periodically informed of changes in shareholding and of the opinions of significant shareholders, investors and rating agencies of the company and its group.

Complies

33. That the chairman, as the person responsible for the efficient workings of the Board of Directors, in addition to carrying out the duties assigned by law and the articles of incorporation, should prepare and submit to the Board of Directors a schedule of dates and matters to be considered; organise and coordinate the periodic evaluation of the Board as well as, if applicable, the chief executive of the company, should be responsible for leading the Board and the effectiveness of its work; ensuring that sufficient time is devoted to considering strategic issues, and approve and supervise refresher courses for each director when circumstances make this advisable.

Complies

34. That when there is a coordinating director, the articles of incorporation or Board regulations should confer upon him the following powers in addition to those conferred by law: to chair the Board of Directors in the absence of the chairman and deputy chairmen, should there be any; to reflect the concerns of non-executive directors; to liaise with investors and shareholders in order to understand their points of view and respond to their concerns, in particular as those concerns relate to corporate governance of the company; and to

coordinate a succession plan for the chairman.

Complies

35. That the secretary of the Board of Directors should pay special attention to ensure that the activities and decisions of the Board of Directors take into account such recommendations regarding good governance contained in this Good Governance Code as may be applicable to the company.

Complies

36. That the Board of Directors meet in plenary session once a year and adopt, where appropriate, an action plan to correct any deficiencies detected in the following:

- a) The quality and efficiency of the Board of Directors' work.**
- b) The workings and composition of its committees.**
- c) Diversity in the composition and skills of the Board of Directors.**
- d) Performance of the chairman of the Board of Directors and the chief executive officer of the company.**
- e) Performance and input of each director, paying special attention to those in charge of the various Board committees.**

In order to perform its evaluation of the various committees, the Board of Directors will take a report from the committees themselves as a starting point and for the evaluation of the Board, a report from the nomination committee.

Every three years, the Board of Directors will rely for its evaluation upon the assistance of an external advisor, whose independence shall be verified by the nomination committee.

Business relationships between the external adviser or any member of the adviser's group and the company or any company within its group must be specified in the annual corporate governance report.

The process and the areas evaluated must be described in the annual corporate governance report.

Complies

37. That if there is an executive committee, there should be at least two non-executive

directors, at least one of whom should be independent, and its secretary should be the secretary of the Board.

Complies

38. That the Board of Directors must always be aware of the matters discussed and decisions taken by the executive committee and that all members of the Board of Directors receive a copy of the minutes of meetings of the executive committee.

Complies

39. That all members of the audit committee, in particular its chairman, be appointed in consideration of their knowledge and experience in accounting, audit and risk management issues, both financial and non-financial.

Complies

40. That under the supervision of the audit committee, there should be a unit in charge of the internal audit function, which ensures that information and internal control systems operate correctly, and which reports to the non-executive chairman of the Board or of the audit committee.

Complies

41. That the person in charge of the unit performing the internal audit function should present an annual work plan to the audit committee, for approval by that committee or by the Board, reporting directly on its execution, including any incidents or limitations of scope, the results and monitoring of its recommendations, and present an activity report at the end of each year.

Complies

42. That in addition to the provisions of applicable law, the audit committee should be responsible for the following:

1. With regard to information systems and internal control:

- a) Supervising and evaluating the process of preparation and the completeness of the financial and non-financial information, as well as the control and management systems for financial and non-financial risks related to the company and, if applicable, to the group – including operating, technological, legal, social, environmental, political and**

reputational risk, or risk related to corruption – reviewing compliance with regulatory requirements, the appropriate delimitation of the scope of consolidation and the correct application of accounting criteria.

b) Ensuring the independence of the unit charged with the internal audit function; proposing the selection, appointment and dismissal of the head of internal audit; proposing the budget for this service; approving or proposing its orientation or annual work plans for approval by the Board, making sure that its activity is focused primarily on material risks (including reputational risk); receiving periodic information on its activities; and verifying that senior management takes into account the conclusions and recommendations of its reports.

c) Establishing and supervising a mechanism that allows employees and other persons related to the company, such as directors, shareholders, suppliers, contractors or subcontractors, to report any potentially serious irregularities, especially those of a financial or accounting nature, that they observe in the company or its group. This mechanism must guarantee confidentiality and in any case provide for cases in which the communications can be made anonymously, respecting the rights of both the whistleblower and the person reported.

d) Generally ensuring that internal control policies and systems are effectively applied in practice.

2. With regard to the external auditor:

a) In the event that the external auditor resigns, examining the circumstances leading to such resignation.

b) Ensuring that the remuneration paid to the external auditor for its work does not compromise the quality of the work or the auditor's independence.

c) Making sure that the company informs the CNMV of the change of auditor, along with a statement on any differences that arose with the outgoing auditor and, if applicable, the contents thereof.

d) Ensuring that the external auditor holds an annual meeting with the Board of Directors in plenary session in order to make a report regarding the tasks performed and

the development of the company's accounting situation and risks.

e) Ensuring that the company and the external auditor comply with applicable rules regarding the provision of services other than auditing, limits on the concentration of the auditor's business and, in general, all other rules regarding auditors' independence.

Complies

43. That the audit committee be able to require the presence of any employee or manager of the company, even stipulating that he or she appear without the presence of any other member of management.

Complies

44. That the audit committee be kept abreast of any corporate and structural changes planned by the company in order to perform an analysis and draw up a prior report to the Board of Directors on the economic conditions and accounting implications and, in particular, any exchange ratio involved.

Complies

45. That the risk management and control policy should identify or determine, as a minimum:

a) The various types of financial and non-financial risk (including operational, technological, financial, legal, social, environmental, political and reputational risks and risks relating to corruption) which the company faces, including among the financial or economic risks contingent liabilities and other off-balance sheet risks.

b) A risk control and management model based on different levels, which will include a specialised risk committee when sector regulations so require or the company considers it to be appropriate.

c) The level of risk that the company considers to be acceptable.

d) Measures in place to mitigate the impact of the risks identified in the event that they should materialise.

e) Internal control and information systems to be used in order to control and manage the aforementioned risks, including contingent liabilities or off-balance sheet risks.

Complies

46. That under the direct supervision of the audit committee or, if applicable, of a specialised committee of the Board of Directors, an internal risk control and management function should exist, performed by an internal unit or department of the company which is expressly charged with the following responsibilities:

a) Ensuring the proper functioning of risk management and control systems and, in particular, that they adequately identify, manage and quantify all material risks affecting the company.

b) Actively participating in drawing up the risk strategy and in important decisions regarding risk management.

c) Ensuring that the risk management and control systems adequately mitigate risks as defined by the policy laid down by the Board of Directors.

Complies

47. That in designating the members of the nomination and remuneration committee - or of the nomination committee and the remuneration committee if they are separate - care be taken to ensure that they have the knowledge, aptitudes and experience appropriate to the functions that they are called upon to perform and that the majority of said members are independent directors.

Complies

48. That large-cap companies have separate nomination and remuneration committees.

Explain

Article 40 of the Bylaws and Article 23 of the Regulation of the Board of Directors expressly state on regulating the Nominating, Compensation and Corporate Governance Committees, that the Board of Directors shall be entitled to set up two Committees, separately giving each of them powers for appointments, and the other the powers for remuneration, while the corporate governance powers may be included in either one of them.

The Board of Directors of Telefónica, S.A. has not considered appropriate, so far, separating the functions of the Nominating, Compensation and Corporate Governance Committee because it believes that by putting the powers to assess Directors and determine their remuneration in the same Committee, is helpful to coordinate and to produce a results-driven remuneration system (pay for performance). The Board also considers that the workload of the Nominating,

Compensation and Corporate Governance Committee and, therefore, its members, is reasonable and does not make it advisable, for the time being, to divide it into two separate committees.

Furthermore, it is noted that the Board of Directors currently has five Consultative Committees (Audit and Control Committee, the Nominating, Compensation and Corporate Governance Committee, Regulation and Institutional Affairs Committee, Sustainability and Quality Committee and the Strategy and Innovation Committee), in addition to the Executive Commission.

In this context, the separation of the Nominating, Compensation and Corporate Governance Committee would not have been appropriate with the facilitating objective of the reorganization of the Consultative or Committees of the Company, approved by the Board of Directors on April 27, 2016, generating unnecessary inefficiencies and needs for additional allocations.

49. That the nomination committee consult with the chairman of the Board of Directors and the chief executive of the company, especially in relation to matters concerning executive directors.

And that any director be able to ask the nomination committee to consider potential candidates that he or she considers suitable to fill a vacancy on the Board of Directors.

Complies

50. That the remuneration committee exercise its functions independently and that, in addition to the functions assigned to it by law, it should be responsible for the following:

a) Proposing the basic conditions of employment for senior management to the Board of Directors.

b) Verifying compliance with company's remuneration policy.

c) Periodically reviewing the remuneration policy applied to directors and senior managers, including share-based remuneration systems and their application, as well as ensuring that their individual remuneration is proportional to that received by the company's other directors and senior managers.

d) Making sure that potential conflicts of interest do not undermine the independence of external advice given to the board.

e) Verifying the information on remuneration of directors and senior managers contained in

the various corporate documents, including the annual report on director remuneration.

Complies

51. That the remuneration committee should consult with the chairman and the chief executive of the company, especially in matters relating to executive directors and senior management.

Complies

52. That the rules regarding the composition and workings of the supervision and control committees should appear in the regulations of the Board of Directors and that they should be consistent with those applying to legally mandatory committees in accordance with the foregoing recommendations, including:

a) That they be composed exclusively of non-executive directors, with a majority of independent directors.

b) That their chairpersons be independent directors.

c) That the Board of Directors select members of these committees taking into account their knowledge, skills and experience and the duties of each committee; discuss their proposals and reports; and require them to render account of their activities and of the work performed in the first plenary session of the Board of Directors held after each committee meeting.

d) That the committees be allowed to avail themselves of outside advice when they consider it necessary to perform their duties.

e) That their meetings be recorded and the minutes be made available to all directors.

Explain

1. The supervision and control committees which are attributed the powers referred to in recommendation 52 are the Audit and Control Committee and the Nominating, Compensation and Corporate Governance Committee. The composition and operation rules of the two Committees are set out in the Regulation of the Board of Directors and in the specific Regulations of each one of them. Likewise, both Committees are not only consistent with legally dispositions applicable but are also an improvement upon them, in certain areas. For example, according to the Regulation of the Board of Directors, the Nominating, Compensation and Corporate Governance Committee must have a majority of independent members, as opposed to the minimum of

two according to prevailing laws. In fact, in practice, the Committee is composed of three independent Directors, and two with the category of "Other external".

2. The Board of Directors has other Consulting Committees which are allocated other functions (Regulation and Institutional Affairs Committee, Sustainability and Quality Committee, and Strategy and Innovation Committee), which are strongly linked with the businesses developed by the Company and with management aspects, and, in particular, the Sustainability and Quality Committee has some of the functions set out in Recommendations 53 and 54 below.

These Committees are expressly regulated in the Regulation of the Board of Directors, although with fewer details with respect to those that are legally mandatory. However, all these non-mandatory committees are, in practice, subject to the operating rules set out in Recommendation 52 c), d) and e).

It has been considered that Committees with powers in matters linked to the Company's businesses and management aspects do not necessarily have to be chaired by independent Directors but rather it is preferable to take into account the technical knowledge and specific expertise of their members when appointing the Director to chair them who should sit on these committees. It should also be noted that all Board Committees are composed of a majority of independent Directors.

53. That verification of compliance with the company's policies and rules on environmental, social and corporate governance matters, and with the internal codes of conduct be assigned to one or divided among more than one committee of the Board of Directors, in the exercise of its power of self-organisation, may have decided to create. And that such committee be composed exclusively of non-executive directors, with a majority of these being independent directors, and that the minimum functions indicated in the next recommendation be specifically assigned to it.

Complies

54. The minimum functions referred to in the foregoing recommendation are the following:

a) Monitoring of compliance with the company's internal codes of conduct and corporate governance rules, and ensuring that the corporate culture is aligned with its purpose and values.

b) Monitoring the implementation of the general policy on communication of economic and financial information, non-financial and corporate information and communication with shareholders and investors, proxy advisors and other stakeholders. The manner in which the entity communicates and handles relations with small and medium-sized shareholders must also be monitored.

c) The periodic evaluation and review of the company's corporate governance system, and environmental and social policy, with a view to ensuring that they fulfil their purposes of promoting the interests of society and take account, as appropriate, of the legitimate interests of other stakeholders.

d) Supervision of the company's environmental and social practices to ensure they are in alignment with the established strategy and policy.

e) Supervision and evaluation of the way in which relations with the various stakeholders are handled.

Complies

55. That environmental and social sustainability policies identify and include at least the following:

a) The principles, commitments, objectives and strategy relating to shareholders, employees, clients, suppliers, social issues, the environment, diversity, tax responsibility, respect for human rights, and the prevention of corruption and other unlawful conducts.

b) Means or systems for monitoring compliance with these policies, their associated risks, and management.

c) Mechanisms for supervising non-financial risk, including that related to ethical aspects and aspects of business conduct.

d) Channels of communication, participation and dialogue with stakeholders.

e) Responsible communication practices that impede the manipulation of data and protect integrity and honour.

Complies

56. That director remuneration be sufficient in order to attract and retain directors who meet the desired professional profile and to adequately compensate them for the dedication, qualifications and responsibility

demanded of their posts, while not being so excessive as to compromise the independent judgment of non-executive directors.

Complies

57. That only executive directors should receive remuneration linked to corporate results and personal performance, as well as remuneration in the form of shares, options or rights to shares or instruments referenced to the share price and long-term savings plans such as pension plans, retirement schemes or other provident schemes.

Consideration may be given to delivering shares to non-executive directors as remuneration providing this is conditional upon their holding them until they cease to be directors. The forgoing shall not apply to shares that the director may need to sell in order to meet the costs related to their acquisition.

Complies

58. That as regards variable remuneration, remuneration policies should incorporate the necessary limits and technical safeguards to ensure that such remuneration is in line with the professional performance of its beneficiaries and not based solely on general developments in the markets or in the sector in which the company operates, or other similar circumstances.

And, in particular, that variable remuneration components:

a) Are linked to pre-determined and measurable performance criteria and that such criteria take into account the risk undertaken to achieve a given result.

b) Promote sustainability of the company and include non-financial criteria that are geared towards creating long term value, such as compliance with the company's rules and internal operating procedures and with its risk management and control policies.

c) Are based on balancing the attainment of short-, medium- and long-term objectives, so as to allow remuneration of continuous performance over a period of time long enough to be able to assess its contribution to the sustainable creation of value, such that the elements used to measure performance are not associated only with one-off, occasional or extraordinary events.

Complies

59. That the payment of variable remuneration components be subject to sufficient verification that previously established performance or other conditions have been effectively met. Entities must include in their annual report on director remuneration the criteria for the time required and methods used for this verification depending on the nature and characteristics of each variable component.

That, additionally, companies consider the inclusion of a reduction ('malus') clause for the deferral of the payment of a portion of variable remuneration components that would imply their total or partial loss if an event were to occur prior to the time of payment date that would make this advisable.

Complies

60. That remuneration related to company results should take into account any reservations that might appear in the external auditor's report and that would diminish said results.

Complies

61. That a material portion of executive directors' variable remuneration be linked to the delivery of shares or financial instruments referenced to the share price.

Complies

62. That once share or options or financial instruments have been allocated under remuneration schemes, executive directors be prohibited from transferring ownership or exercising options or rights until a term of at least three years has elapsed.

An exception is made in cases where the director has, at the time of the transfer or exercise of options or rights, a net economic exposure to changes in the share price for a market value equivalent to at least twice the amount of his or her fixed annual remuneration through the ownership of shares, options or other financial instruments.

The foregoing shall not apply to the shares that the director may need to sell in order to meet the costs related to their acquisition or, following a favourable assessment by the nomination and remuneration committee, to deal with such extraordinary situations as may arise and so require.

Complies

63. That contractual arrangements should include a clause allowing the company to demand reimbursement of the variable remuneration components in the event that payment was not in accordance with the performance conditions or when payment was made based on data subsequently shown to have been inaccurate.

Partially complies

The Nominating, Compensation and Corporate Governance Committee is empowered to propose that the Board of Directors cancels a variable remuneration payment in the event of circumstances such as those described in this recommendation. The Nominating, Compensation and Corporate Governance Committee will also assess if exceptional circumstances of this kind may even entail the termination of the relationship with the person responsible, proposing measures which are deemed pertinent to the Board of Directors.

64. That payments for contract termination should not exceed an amount equivalent to two years of total annual remuneration and should not be paid until the company has been able to verify that the director has fulfilled all previously established criteria or conditions for payment.

For the purposes of this recommendation, payments for contractual termination will be considered to include any payments the accrual of which arises as a consequence of or on the occasion of the termination of the contractual relationship between the director and the company, including amounts not previously vested of long-term savings schemes and amounts paid by virtue of post-contractual non-competition agreements.

Explain

With regards to the conditions applicable to termination of contracts, the Executive Chairman, Mr. José María Álvarez-Pallete López, and the Chief Operating Officer (C.O.O.), Mr. Ángel Vilá Boix, maintain the conditions of their previous contract which provided for agreed economic compensation for the termination of the employment relationship, where applicable, that can amount to four years' of remuneration at the most. Every annual payment includes the last fixed remuneration and the arithmetic average of the last two variable annual remuneration received according to contract.

Indicate whether any director voted against or abstained from approving this report.

No.

I declare that the details included in this statistical annex coincide and are consistent with the descriptions and details included in the annual corporate governance report published by the company.

- Note 12: Detail any material agreements entered into by the company that come into force, are modified or are terminated in the event of a change in control of the company following a public takeover bid, and their effects.

Financing agreements:

On March 15, 2018, Telefónica, S.A., as borrower, and a group of credit entities, as lenders, with National Westminster Bank plc as the agent bank, entered into a syndicated loan amounting up to EUR 5,500 million.

On January 13, 2022, Telefónica, S.A. executed an amendment to the referred syndicated facility agreement with several domestic and international financial entities for a maximum aggregate amount of five thousand and five hundred (5,500) million euros, linked to sustainability objectives: greenhouse gas emissions reduction and increase of women in executive positions.

Likewise, on December 11, 2015, Telefónica, S.A., as borrower, and Banco Bilbao Vizcaya Argentaria, S.A. Niederlassung Deutschland, the Bank of Tokyo-Mitsubishi UFJ, Ltd., sucursal in Spain, Mizuho Bank Ltd, AB Svensk Exportkredit and Société Générale S.A., as original lenders, and with the support of Exportkreditnämnden, signed a financing agreement amounting up to USD 750 million. Also on that same date, Telefónica, S.A., as borrower, and Banco Santander, S.A. and Crédit Agricole Corporate and Investment Bank as original lenders, with the support of Finnvera Plc, entered into a financing agreement amounting up to EUR 500 million.

As provided for in all of the aforementioned contracts, in the event of a change of control in Telefónica, S.A., lenders may, under certain circumstances, require the early termination of these financing agreements.

The financing contracts consider the usual criteria in these types of agreement to determine if there has effectively been a change of control, such as obtain a majority of the voting rights, have the power to appoint a majority of the members of the management body, or have control over the financial and operating policies of the company.

Finally, it should be said that as of the year 2010, Telefónica, S.A. adheres to the Code of Good Fiscal Practices, as approved by the Large Companies' Forum -a body in which major Spanish companies and the Spanish tax authorities participate-, and complies with the content of the same.

Similarly, Telefónica Group is committed to the application of other international regulations and initiatives in the area of sustainability as well as, among others, the Universal Declaration of Human Rights, the United Nations Global Compact, and other conventions and treaties agreed by international bodies such as the Organization for Economic Cooperation and Development and the International Labor Organization.

This annual corporate governance report was approved by the company's Board of Directors at its meeting held on February 22, 2023.
