FITCH PLACES 13 MULTI-ISSUER CEDULAS HIPOTECARIAS ON RWP

Link to Fitch Ratings' Report: Multi-Issuer Cedulas Hipotecarias - Rating Action Report
<https://www.fitchratings.com/site/re/892039>

Fitch Ratings-Madrid/London-15 December 2016: Fitch Ratings has placed 13 series of multi-issuer cedulas hipotecarias (MICH; CDOs of Spanish mortgage-covered bonds; Cedulas Hipotecarias (CH)) on Rating Watch Positive (RWP), following the implementation of the agency's revised Covered Bonds Rating Criteria published on 26 October 2016. A full list of rating actions is available at www.fitchratings.com or by clicking the link above.

KEY RATING DRIVERS

Lower Default Rates

The probability of default assessment of CH portfolios is now lower because of the recognition of CH exemption from bail-in within a resolution scenario of any issuing bank. This lower CH probability of default is captured by the application of a two-notch rating uplift over the issuing bank's Issuer Default Rating (IDR).

Stronger Liquidity Support

Liquidity coverage of MICH transactions has increased given the agency's lower default estimate of CH portfolios. The 13 series are protected by liquidity facilities that cover more than one year of MICH interest due amounts under the corresponding stress scenarios.

Large Overcollateralisation

The new and lower refinancing spreads assumption for Spanish mortgages decreases the overcollateralisation (OC) between mortgage cover pools and CH balances, which is compatible with full recovery of principal and interest in scenarios of CH defaulting.

Stable Participating Bank Ratings

The average Long-Term IDRs of MICH participating banks have remained stable at 'BBB-' since the last MICH sector review in April 2016.

RATING SENSITIVITIES

Fitch expects to resolve the RWP by February 2017, with potential upgrades of up to two notches.

MICH ratings are vulnerable to a downgrade if any of the following occurs: i) the relied-upon OC of banks falls below the supporting OC levels; ii) obligor concentrations increase as a result of further consolidation in the banking system; iii) the IDRs of issuing banks are downgraded; iv) the available liquidity became insufficient to mitigate liquidity risks in the event of CH defaulting.

Supporting OC for a given CH issuer participating in a MICH will be affected, among other things, by the characteristics of the cover pool securing the CH, the agency's refinancing spreads assumptions, and other analytical assumptions determined by Fitch's rating criteria, particularly those related to the credit performance of residential and SME mortgages.

USE OF THIRD-PARTY DUE DILIGENCE PURSUANT TO RULE 17G-10

No third party due diligence was provided or reviewed in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Fitch has not reviewed the results of any third party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

The majority of the underlying assets have ratings or credit opinions from Fitch and/or other Nationally Recognized Statistical Rating Organizations and/or European Securities and Markets Authority registered rating agencies. Fitch has relied on the practices of the relevant groups within Fitch and/or other rating agencies to assess the asset portfolio information.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Reproduction or retransmission in whole or in part is prohibited except by permission. All rights reserved. In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001
