

## EUROPAC INCREASES THE PRICE OF KRAFTLINER PAPER BY €60 PER TONNE

**Madrid, 07<sup>TH</sup> February 2012.-** Europac Group (*Papeles y Cartones de Europa, SA*) has announced a price increase on kraft paper €60 per tonne from 1st March. The measure, that will be implemented in all markets, has been taken in response to rising raw material costs during the last quarter of 2011 and falling European stocks of this product.

As it happened with the recycled paper rise announced in late January, Enrique Isidro, Europac CEO, notes that "the increase of the sales price will recover kraft paper product margin, which had fallen in the last quarter of 2011 due to the degradation of market conditions".
