ABENGOA

Fiscal Year 2013 Earnings Presentation

Forward-looking Statement

- This presentation contains forward-looking statements (within the meaning of the U.S. Private Securities Litigation Reform Act of 1995) and information relating to Abengoa that are based on the beliefs of its management as well as assumptions made and information currently available to Abengoa.
- Such statements reflect the current views of Abengoa with respect to future events and are subject to risks, uncertainties and assumptions about Abengoa and its subsidiaries and investments, including, among other things, the development of its business, trends in its operating industry, and future capital expenditures. In light of these risks, uncertainties and assumptions, the events or circumstances referred to in the forward-looking statements may not occur. None of the future projections, expectations, estimates or prospects in this presentation should be taken as forecasts or promises nor should they be taken as implying any indication, assurance or guarantee that the assumptions on which such future projections, expectations, estimates or prospects have been prepared are correct or exhaustive or, in the case of the assumptions, fully stated in the presentation.
- Many factors could cause the actual results, performance or achievements of Abengoa to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others: changes in general economic, political, governmental and business conditions globally and in the countries in which Abengoa does business; changes in interest rates; changes in inflation rates; changes in prices; decreases in government expenditure budgets and reductions in government subsidies; changes to national and international laws and policies that support renewable energy sources; inability to improve competitiveness of Abengoa's renewable energy services and products; decline in public acceptance of renewable energy sources; legal challenges to regulations, subsidies and incentives that support renewable energy sources; extensive governmental regulation in a number of different jurisdictions, including stringent environmental regulation; Abengoa's substantial capital expenditure and research and development requirements; management of exposure to credit, interest rate, exchange rate and commodity price risks; the termination or revocation of Abengoa's operations conducted pursuant to concessions; reliance on third-party contractors and suppliers; acquisitions or investments in joint ventures with third parties; unexpected adjustments and cancellations of Abengoa's backlog of unfilled orders; inability to obtain new sites and expand existing ones; failure to maintain safe work environments; effects of catastrophes, natural disasters, adverse weather conditions, unexpected geological or other physical conditions, or criminal or terrorist acts at one or more of Abengoa's plants; insufficient insurance coverage and increases in insurance cost; loss of senior management and key personnel; unauthorized use of Abengoa's intellectual property and claims of infringement by Abengoa of others intellectual property; Abengoa's substantial indebtedness; Abengoa's ability to generate cash to service its indebtedness; changes in business strategy; and various other factors indicated in the "Risk Factors" section of Abengoa's Registration Statement on Form F-1 (File No. 333-191575). The risk factors and other key factors that Abengoa has indicated in its past and future filings and reports, including those with the U.S. Securities and Exchange Commission, could adversely affect Abengoa's business and financial performance.
- Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or targeted.
- Abengoa does not intend, and does not assume any obligations, to update these forward-looking statements.
- This presentation includes certain non-IFRS financial measures which have not been subject to a financial audit for any period.
- The information and opinions contained in this presentation are provided as at the date of this presentation and are subject to verification, completion and change without notice.

FY 2013 Executive Summary

- **1** Strong Operational Growth
- Solid performance of E&C
- New concessional assets into operation
- **>** Continued recovery in Biofuels

- **2** Delivering on Corporate Targets
- > Earnings guidance achieved
- > Reduced corporate leverage
- > Reduced corporate CAPEX

- **3** Reinforced Capital Structure
- > 517 M€ equity increase & NASDAQ listing
- Successful and proactive debt maturity management
- Reduced corporate banking debt exposure

- **4** Enhanced Future Visibility
- Healthy backlog and solid pipeline
- Uncertainty eliminated on Spanish CSP assets
- Key technology proven at commercial scale

A scrip dividend of 0.111 €/share to be proposed to the AGM

Abengoa's Corporate Structure

Strong corporate business with upside from financial investments in concessional assets portfolio

Corporate Structure

- **E&C core** business & Ind. Prod. market upside
- Corporate Net Fixed Assets of 1.8 B€
- > FY 2013 Corporate **EBITDA** of **978 M€** and Corporate **Net Debt** of **2.1 B€**
- Equity BV of 3.3 B€ and Net Debt of 5.9 B€ (incl. 2.1 B€ of pre-operational debt)
- Long-term concession suitable to higher leverage of projects
- Matched with project cash-flow generation
- > Minimum risk in expected cash-flows

⁽¹⁾ Includes 459 M€ of Industrial Production Non-recourse Net Debt from 5 Biofuels plants

⁽²⁾ Concessions Net Debt Ratio not including pre-operational net debt , that is, net debt from concessions that are not contributing in EBITDA yet

Financial Investment in Concessions

3.3 B€

Equity BV in concessional assets

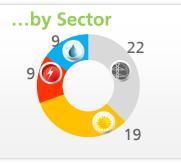

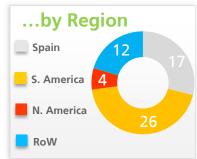

Strong group of low risk contracted assets

- > 59 concessional assets focused on power (generation & transmission) and water
- > Average remaining life of ~25 years with +38 B€ of contracted revenues
- **O&M**, project finance and service agreements with successful track record in all assets
- > High quality off-takers

Highly Diversified portfolio

High Returns from Disposals & Dividends 35 assets already in operation and +20 expected to start operation within 2 years

- Experience gain in recent years & proven technology enable to win of new opportunities with limited CAPEX requirements
- · Young portfolio with strong upside from dividends and asset disposals
- Shareholder oriented strategy with strong cash flow generation

Asset Rotation Strategy

Engineering &
Construction

- Continued delivery of double-digit growth with attractive margins
- Significant new bookings in 2013; trend continues in Q1 2014
- Strong pipeline and backlog provides visibility on future business

FY 2013 KPI's

4,882 M€ 1+36% YoY 6.8 B€ 1+2% YoY Pipeline 139 B€ 1+58% YoY

FY 2013 Operating Segment Analysis

Concessions Highlights

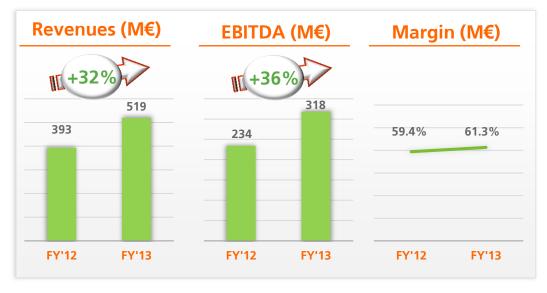

Concessionstype Infrastructures

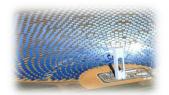

- Delivering significant growth and high EBITDA margins
- 10 new assets brought into operation, including Solana, the largest CSP trough plant worldwide, achieving up to 110% production rates in tests
- Advanced negotiations with 6 equity partners for 2x equity required for the new Brazilian T&D lines; expected to close at the end of H1 2014

FY 2013 KPI's

445 M€ **Equity** Invest. in concessions Revenue Breakdown 13% **7** 18% _ 3,315 M€ **Total Equity BV** as of Dec. 2013 35 in operation Total # of **Assets** constr./develop

FY'13 Operating Segment Analysis

Industrial Production Highlights

3

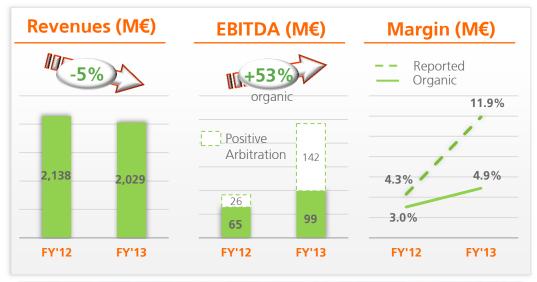

Industrial Production

- +53% organic EBITDA growth y-o-y; lower revenues due to several plant being closed during Q1'13
- Hugoton completes phase one start up; complete ramp up of production expected for March 2014
- 142 M€ from positive arbitration resolution in Brazil in 2013 (26 M€ in 2012)

FY 2013 KPI's

2,252 ML **Ethanol Produced** vs 2,294 ML FY 2012 ~0.78 \$ Crush **Spread** Vs 0.41 \$ avg. 2012 +97% Hugoton of completion

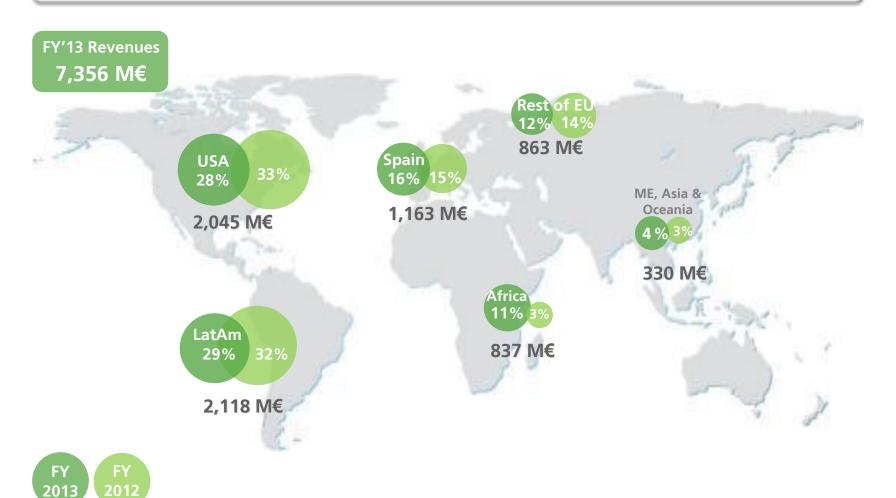

FY'13 Operating Segment Analysis

Geographic Diversification

Diversifying our business mix to capture global growth opportunities

Technology Update

Continued technological program development, investing 107 M€ in R&D programs and 319 M€ in R&D related to projects

Cutting Edge Technologies

Milestones of the year

Solar Technologies

- initestories of the year
- > Khi Solar One first of its kind superheated CSP tower being built in SAF
- Solana's molten salt storage system running efficiently, providing up to 6h of extra generation
- ➤ Molten Salt tower a proprietary technology commercialized in Chile. Start construction Q2 2014

Biotech Enzymes

- Our proprietary enzymes achieved a 60% reduction in dose and 84% cost reduction since 2009, with a <0.5\$/gal cost contribution</p>
- > Ready for commercial scale production in Q1 2014

- **Bio-refineries**
- > Start-up of the cogeneration system of Hugoton plant, the first Abengoa 2G biorefinery commercial-scale in Kansas. Full operation in Q2 2014
- > Butanol specifications have been confirmed by potential customers

Waste to biofuel (W2B)

Demonstration plant start-up, already treated, 826.3 tons of municipal solid waste producing 7,241 l ethanol 100% purity

Water Desalination

Final stage of laboratory scale pilot test of Canon-Anammox process prior to installation of industrial pilot unit on a municipal sewage secondary effluent line

Applied & Awarded Patents

- 61 new patents applications with more than 106 patents granted out of 261 patents applied (previously 200 patents)
- An increase of 30% YoY on patents applications

E&C Results Visibility - Pipeline

Our growing pipeline of opportunities spans great visibility on future results

Growing
Pipeline in All
Global Regions
and Sectors

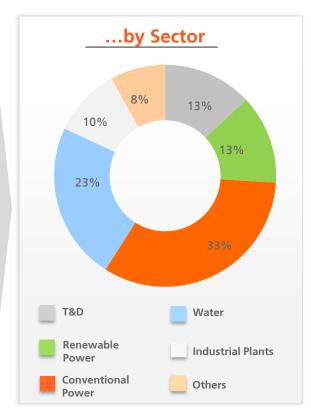

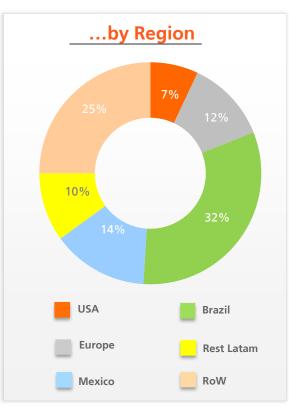

- > Strong business development efforts
- Increased pipeline all sectors with good prospects to materialize in 2014
- Healthy breakdown between turnkey and concessions

- > Increasing pipeline all regions
- Very well diversified worldwide
- Higher weight from developing economies

Healthy backlog at the end of 2013 while continuing with a strong bookings performance in Q1 2013

- > Approx. 54% of total backlog expected to convert into revenues in 2014E
- > Representing more than 17 months of E&C revenues
- > New significant awards in Q1 2014: CSP Chile, UK Railway, ...

Net Debt Position

Liquidity protection & management of corporate leverage: key priorities
