§ 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with RENTA 4 BANCO, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written or facsimile signatures of two persons authorised by the Issuer.

§ 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**Adjustment Event**" means:

- (a) the adjustment of options or futures contracts relating to the Share at the Futures Exchange or the announcement of such adjustment;
- (b) any of the following actions taken by the issuer of the Share (the "**Company**"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with options or conversion rights related to the Share, distributions of extraordinary dividends, stock splits or any other splits, consolidation or alteration of category;
- (c) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity; or
- (d) any other event relating to the Share having a diluting or concentrative effect on the theoretical value of such Share.

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Exchange**" means the exchange or trading system as set out in the Table of Product Details.

"**Exchange Business Day**" means a day on which the Exchange and the Futures Exchange are open for trading during their respective regular trading sessions, notwithstanding the Exchange or Futures Exchange closing prior to its scheduled weekday closing time. Any trading or trading activities after or before the regular trading sessions on the Exchange or the Futures Exchange will not be taken into account.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the termination of trading in, or early settlement of, options or futures contracts relating to the Share at the Futures Exchange or the announcement of such termination or early settlement;

- (b) the termination of the listing of the Share on the Exchange due to a merger by absorption or by creation or due to any other reason, or the becoming known of the intention of the Company or the announcement of the Exchange that the listing of the Share at the Exchange will terminate immediately or at a later date and that the Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;
- (c) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (d) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or
- (e) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"Futures Exchange" means the exchange or trading system with the highest trading volume of options or futures contracts relating to the Share. If options or futures contracts on the Share are not traded on any exchange, the Futures Exchange shall be the options or futures exchange with the highest amount of options or futures contracts relating to shares of companies having their residence in the country in which the Company has its residence. If there is no options or futures exchange in the country in which the Company has its residence on which options or futures contracts on shares are traded, the Issuer will determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and will make notification thereof in accordance with § 13.

"Issue Currency" or **"EUR"** means Euro.

"Launch Date" means 15 June 2018.

"Market Disruption Event" means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) the Share on the Exchange, or (b) any options or futures contracts relating to the Share on the Futures Exchange (if such options or futures contracts are traded on the Futures Exchange), provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the respective exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event if such limitation still prevails at the time of termination of the trading hours on such date.

"Payment Business Day" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

"Reference Price" means the price of the Share last determined and published by the Exchange on any relevant day (closing price).

"Table of Product Details" means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

"Underlying" or **"Share"** means the share or security similar to shares as set out in the Table of Product Details.

"Valuation Date" means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Exchange Business Day on which there is a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Exchange Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Share in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

§ 3 REDEMPTION

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

§ 4 ORDINARY TERMINATION BY THE ISSUER

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

§ 5 PAYMENTS

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to the provisions contained in § 9.

§ 6 ADJUSTMENTS

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and

Conditions as are necessary to adequately account for the economic effect of the Adjustment Event or Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.

2. An Adjustment may result in:

(a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange,

and/or

(b) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:

(i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;

(ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or

(iii) any cash compensation or other compensation in connection with a Replacement;

and/or

(c) consequential amendments to the share related provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

3. Adjustments should correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").

(a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the Cut-off Date shall be the (replacement) Share for the purpose of the Securities, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Securities. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be the (replacement) Share in accordance with the foregoing sentence. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

(b) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments in cases where:

(i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

(ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§

315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share.
4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
7. Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

§ 7

EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any Shares or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Exchange Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Exchange Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary

Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.

4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

§ 8

FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

§ 9

TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code ("**871(m) Withholding**"). The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

§ 10

STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

§ 11
PAYING AGENT

1. RENTA 4 BANCO, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

§ 12
SUBSTITUTION OF THE ISSUER

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
 - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
 - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
 - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities; and
 - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

§ 13
NOTICES

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer www.commerzbank.com (or any successor website).

§ 14
**LIMITATION OF LIABILITY;
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

§ 15
FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably

acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.

6. If a Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, such Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

	<p>the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral, ships directly owned, directly-owned real estate and real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Risks</u></p> <p>The Group is exposed to a large number of different market risks such as market price risks in relation to the valuation of equities and fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the desired strategic objectives..</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate applicable rules, laws or regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements. The Bank's operational systems are subject to an increasing risk of cyber attacks and other internet crime, which could</p>

	<p>result in losses of customer information, damage the Bank's reputation and lead to regulatory proceedings and financial losses.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, charges such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from deposit-taking business, or stricter disclosure and organizational obligations, may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. The outcome of such proceedings as well as regulatory, supervisory and judicial proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case.</p>
<p>D.6 Key information on the key risks that are specific to the securities</p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>

	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>In the case that the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities, the terms of the Securities may be varied (e.g. the variation of their maturity), and claims for payment of principal, interest or other amounts under the Securities may become subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority ("Regulatory Bail-in").</p> <p>Further, the EU Regulation establishing a Single Resolution Mechanism ("SRM Regulation") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.</p> <p>The proposal for a mandatory separation of certain banking activities adopted by the European Commission on 29 January 2014 prohibits proprietary trading and provides for the mandatory separation of trading and investment banking activities. Should a mandatory separation be imposed, additional costs cannot be ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>Risks regarding U.S. Withholding Tax</u></p> <p>For the Securityholder there is the risk that payments on the Securities may be subject to U.S. withholding tax pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be</p>

	<p>lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> • Changes in the expected intensity of the fluctuation of the Underlying (volatility) • Interest rate development • Remaining term of the Securities • Development of the dividends of the Share

	<p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

D.2 Principales riesgos específicos del Emisor	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización. Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis financiera global y de la deuda soberana</u> La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. Tampoco es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.
	<u>Entorno macroeconómico</u> La fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.
	<u>Riesgo de incumplimiento de las contrapartes</u> El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en

	<p>determinados sectores individuales referidos como “ <i>bulk risk</i>”, así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a un elevado número de diferentes riesgos de mercado tales como riesgo de precio de mercado en relación con la valoración de acciones en sociedades y participaciones en fondos, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos deseados.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la normativa, reglas o regulación aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo. El sistema operativo del Banco está sujeto a un riesgo cada vez mayor de ataques de hackers y otros delitos de internet, que podrían ocasionar la pérdida de la información de los clientes, daños reputacionales al Banco y ocasionar expedientes regulatorios y pérdidas financieras.</p>

	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de cargas obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las operaciones propias del negocio o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. El resultado de tales procedimientos, así como procedimientos, regulatorios, de supervisión y judiciales podrían tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso.</p>
<p>D.6 Información fundamental sobre riesgos clave específicos de los valores</p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va</p>

	<p>a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>Si el Emisor deviniera, o fuera considerado por la autoridad supervisora competente, “no viable” (conforme a la definición al respecto prevista en la legislación aplicable en ese momento) e incapaz de continuar con sus actividades reguladas, los términos y condiciones de los Valores pudieran variar (p. ej., sus plazos de vencimiento), y cualquier solicitud del pago del principal, intereses u otros importes devengados en virtud de los Valores pudiera condicionarse a la conversión en uno o varios instrumentos que constituyeran para el Emisor instrumentos de capital de nivel 1, tales como acciones ordinarias, o sufrir una reducción permanente, incluso a cero, en virtud de intervención de la autoridad de resolución competente (“Supuesto de Bail-in”).</p> <p>Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "Reglamento del MUR") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.</p> <p>La propuesta de separación obligatoria de ciertas actividades bancarias adoptada el 29 de enero de 2014 por la Comisión Europea prohíbe la negociación por cuenta propia, y prevé la separación de las actividades bancarias de negociación e inversión. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.</p>
	<p><u>Retenciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i></u></p> <p>El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como</p>

	<p>obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Riesgos relativos a la necesidad de practicar ciertas retenciones fiscales impuestas por la legislación estadounidense</u></p> <p>Para el Tenedor de los Valores existe el riesgo de que los pagos que procedan por razón de los Valores puedan estar sujetos a las retenciones fiscales previstas en el artículo 871(m) del Código Fiscal (<i>Internal Revenue Code</i>) estadounidense de 1986, con sus modificaciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier</p>

	<p>componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> • Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad) • Evolución de los tipos de interés • Plazo restante de vigencia de los Valores • Evolución de los dividendos de la Acción <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

E.4 Intereses de carácter material a efectos de la emisión/oferta incluyendo conflictos de interés	<p>Pudieran surgir los siguientes conflictos de interés en relación con el ejercicio de los derechos y/o la exigencia de las obligaciones del Emisor de conformidad con los términos y condiciones de los Valores (p.ej., en relación con el cálculo o adaptación de los parámetros de los términos y condiciones), que incidieran sobre los importes a pagar:</p> <ul style="list-style-type: none"> • ejecución de operaciones sobre el Subyacente • emisión de instrumentos derivados adicionales en relación con el Subyacente • relaciones comerciales con el emisor del Subyacente • posesión de información material (incluyendo información no pública) sobre el Subyacente • intervenciones como Creador de Mercado
E.7 Gastos estimados repercutidos al inversor por parte del emisor o del oferente	<p>Generalmente el inversor podrá adquirir los Valores a un precio de emisión fijo. Dicho precio fijo de emisión incluye cualesquiera costes incurridos por el Emisor en relación con la emisión y venta de los Valores (p.ej., costes de distribución, de estructuración y cobertura, y el margen de beneficio de COMMERZBANK).</p>

§ 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
- (f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Futures Exchange**" means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on

The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

§ 3 REDEMPTION

1. The Securities grant to the Securityholder the right (the **"Option Right"**) to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the **"Redemption Amount"**) which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

For the purposes of calculations made in connection with these Terms and Conditions, one index point shall be equal to EUR 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

§ 4

ORDINARY TERMINATION BY THE ISSUER

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

§ 5

PAYMENTS

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to the provisions contained in § 9.

§ 6

ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.
 - (a) An Adjustment may result in:
 - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,

and/or

- (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
 - (aa) the effect of an Extraordinary Event on the level of the Index;
 - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
 - (cc) any cash compensation or other compensation in connection with a Replacement;

and/or

- (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

- (b) Adjustments should correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (i) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where

- (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

- (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

- (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index.

- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.

- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.

- (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

- 2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions

shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

§ 7

EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

§ 8
FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

§ 9
TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code ("**871(m) Withholding**"). The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

§ 10
STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

§ 11
PAYING AGENT

1. RENTA 4 BANCO, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

§ 12
SUBSTITUTION OF THE ISSUER

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the

Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
 - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
 - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
 - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities; and
 - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

§ 13 NOTICES

If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer www.commerzbank.com (or any successor website).

§ 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION

1. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

§ 15
FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If a Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, such Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general

jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.

Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

D.2 Key risks specific to the Issuer	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the Eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future as well, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European</p>

	<p>Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral, ships directly owned, directly-owned real estate and real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Risks</u></p> <p>The Group is exposed to a large number of different market risks such as market price risks in relation to the valuation of equities and fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the desired strategic objectives..</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate applicable rules, laws or regulations while conducting business activities and thereby cause considerable losses to appear</p>

	<p>suddenly, which may also lead indirectly to an increase in regulatory capital requirements. The Bank's operational systems are subject to an increasing risk of cyber attacks and other internet crime, which could result in losses of customer information, damage the Bank's reputation and lead to regulatory proceedings and financial losses.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, charges such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from deposit-taking business, or stricter disclosure and organizational obligations, may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. The outcome of such proceedings as well as regulatory, supervisory and judicial proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case.</p>
<p>D.6 Key information on the key risks that are specific to the securities</p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently</p>

	<p>uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>In the case that the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities, the terms of the Securities may be varied (e.g. the variation of their maturity), and claims for payment of principal, interest or other amounts under the Securities may become subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority ("Regulatory Bail-in").</p> <p>Further, the EU Regulation establishing a Single Resolution Mechanism ("SRM Regulation") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.</p> <p>The proposal for a mandatory separation of certain banking activities adopted by the European Commission on 29 January 2014 prohibits proprietary trading and provides for the mandatory separation of trading and investment banking activities. Should a mandatory separation be imposed, additional costs cannot be ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>Risks regarding U.S. Withholding Tax</u></p> <p>For the Securityholder there is the risk that payments on the Securities may be subject to U.S. withholding tax pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are</p>

	<p>terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> • Changes in the expected intensity of the fluctuation of the Underlying (volatility) • Interest rate development • Remaining term of the Securities

	<ul style="list-style-type: none"> Development of the dividends of the shares comprising the Index <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

D.2 Principales riesgos específicos del Emisor	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización. Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis financiera global y de la deuda soberana</u> La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. Tampoco es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.
	<u>Entorno macroeconómico</u> La fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.
	<u>Riesgo de incumplimiento de las contrapartes</u>

	<p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como “ <i>bulk risk</i>”, así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>writes-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a un elevado número de diferentes riesgos de mercado tales como riesgo de precio de mercado en relación con la valoración de acciones en sociedades y participaciones en fondos, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos deseados.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la normativa, reglas o regulación aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo. El sistema operativo del Banco está sujeto a un riesgo cada vez mayor de ataques de hackers y otros delitos de internet, que podrían ocasionar la</p>

	<p>pérdida de la información de los clientes, daños reputacionales al Banco y ocasionar expedientes regulatorios y pérdidas financieras.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de cargas obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las operaciones propias del negocio o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. El resultado de tales procedimientos, así como procedimientos, regulatorios, de supervisión y judiciales podrían tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso.</p>
<p>D.6 Información fundamental sobre riesgos clave específicos de los valores</p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania,</p>

	<p>Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>Si el Emisor deviniera, o fuera considerado por la autoridad supervisora competente, “no viable” (conforme a la definición al respecto prevista en la legislación aplicable en ese momento) e incapaz de continuar con sus actividades reguladas, los términos y condiciones de los Valores pudieran variar (p. ej., sus plazos de vencimiento), y cualquier solicitud del pago del principal, intereses u otros importes devengados en virtud de los Valores pudiera condicionarse a la conversión en uno o varios instrumentos que constituyeran para el Emisor instrumentos de capital de nivel 1, tales como acciones ordinarias, o sufrir una reducción permanente, incluso a cero, en virtud de intervención de la autoridad de resolución competente (“Supuesto de Bail-in”).</p> <p>Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "Reglamento del MUR") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.</p> <p>La propuesta de separación obligatoria de ciertas actividades bancarias adoptada el 29 de enero de 2014 por la Comisión Europea prohíbe la negociación por cuenta propia, y prevé la separación de las actividades bancarias de negociación e inversión. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.</p>
	<p><u>Retenciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i></u></p> <p>El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después</p>

	<p>de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Riesgos relativos a la necesidad de practicar ciertas retenciones fiscales impuestas por la legislación estadounidense</u></p> <p>Para el Tenedor de los Valores existe el riesgo de que los pagos que procedan por razón de los Valores puedan estar sujetos a las retenciones fiscales previstas en el artículo 871(m) del Código Fiscal (<i>Internal Revenue Code</i>) estadounidense de 1986, con sus modificaciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores–designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control</p>

	del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> • Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad) • Evolución de los tipos de interés • Plazo restante de vigencia de los Valores • Evolución de los dividendos de las acciones que conforman el Índice <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

3. The Global Security shall bear the hand-written or facsimile signatures of two persons authorised by the Issuer.

§ 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;

- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
- (f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Futures Exchange**" means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on

The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

§ 3 REDEMPTION

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

§ 4

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to the provisions contained in § 9.

§ 6

ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.
 - (a) An Adjustment may result in:
 - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,

and/or

- (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
 - (aa) the effect of an Extraordinary Event on the level of the Index;
 - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
 - (cc) any cash compensation or other compensation in connection with a Replacement;

and/or

- (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

- (b) Adjustments should correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (i) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where

- (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

- (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

- (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index.

- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.

- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.

- (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

- 2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions

shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

§ 7

EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. 3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. 5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If a Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, such Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

D.2 Key risks specific to the Issuer	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the Eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future as well, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which,</p>

	<p>under certain circumstances, may even threaten the Group's existence. The Group holds sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral, ships directly owned, directly-owned real estate and real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Risks</u></p> <p>The Group is exposed to a large number of different market risks such as market price risks in relation to the valuation of equities and fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the desired strategic objectives..</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate applicable rules, laws or regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory</p>

	<p>capital requirements. The Bank's operational systems are subject to an increasing risk of cyber attacks and other internet crime, which could result in losses of customer information, damage the Bank's reputation and lead to regulatory proceedings and financial losses.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, charges such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from deposit-taking business, or stricter disclosure and organizational obligations, may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. The outcome of such proceedings as well as regulatory, supervisory and judicial proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case.</p>
<p>D.6 Key information on the key risks that are specific to the securities</p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>

	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>In the case that the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities, the terms of the Securities may be varied (e.g. the variation of their maturity), and claims for payment of principal, interest or other amounts under the Securities may become subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority ("Regulatory Bail-in").</p> <p>Further, the EU Regulation establishing a Single Resolution Mechanism ("SRM Regulation") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.</p> <p>The proposal for a mandatory separation of certain banking activities adopted by the European Commission on 29 January 2014 prohibits proprietary trading and provides for the mandatory separation of trading and investment banking activities. Should a mandatory separation be imposed, additional costs cannot be ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>Risks regarding U.S. Withholding Tax</u></p> <p>For the Securityholder there is the risk that payments on the Securities may be subject to U.S. withholding tax pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, as amended.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be</p>

	<p>lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> • Changes in the expected intensity of the fluctuation of the Underlying (volatility) • Interest rate development • Remaining term of the Securities • Development of the dividends of the shares comprising the Index

	<p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

D.2 Principales riesgos específicos del Emisor	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización. Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis financiera global y de la deuda soberana</u> La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. Tampoco es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.
	<u>Entorno macroeconómico</u> La fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.
	<u>Riesgo de incumplimiento de las contrapartes</u>

	<p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como “ <i>bulk risk</i>”, así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>writes-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a un elevado número de diferentes riesgos de mercado tales como riesgo de precio de mercado en relación con la valoración de acciones en sociedades y participaciones en fondos, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos deseados.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la normativa, reglas o regulación aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo. El sistema operativo del Banco está sujeto a un riesgo cada vez mayor de ataques de hackers y otros delitos de internet, que podrían ocasionar la</p>

	<p>pérdida de la información de los clientes, daños reputacionales al Banco y ocasionar expedientes regulatorios y pérdidas financieras.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de cargas obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las operaciones propias del negocio o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. El resultado de tales procedimientos, así como procedimientos, regulatorios, de supervisión y judiciales podrían tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso.</p>
<p>D.6 Información fundamental sobre riesgos clave específicos de los valores</p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania,</p>

	<p>Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>Si el Emisor deviniera, o fuera considerado por la autoridad supervisora competente, “no viable” (conforme a la definición al respecto prevista en la legislación aplicable en ese momento) e incapaz de continuar con sus actividades reguladas, los términos y condiciones de los Valores pudieran variar (p. ej., sus plazos de vencimiento), y cualquier solicitud del pago del principal, intereses u otros importes devengados en virtud de los Valores pudiera condicionarse a la conversión en uno o varios instrumentos que constituyeran para el Emisor instrumentos de capital de nivel 1, tales como acciones ordinarias, o sufrir una reducción permanente, incluso a cero, en virtud de intervención de la autoridad de resolución competente (“Supuesto de Bail-in”).</p> <p>Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "Reglamento del MUR") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.</p> <p>La propuesta de separación obligatoria de ciertas actividades bancarias adoptada el 29 de enero de 2014 por la Comisión Europea prohíbe la negociación por cuenta propia, y prevé la separación de las actividades bancarias de negociación e inversión. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.</p>
	<p><u>Retenciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i></u></p> <p>El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después</p>

	<p>de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Riesgos relativos a la necesidad de practicar ciertas retenciones fiscales impuestas por la legislación estadounidense</u></p> <p>Para el Tenedor de los Valores existe el riesgo de que los pagos que procedan por razón de los Valores puedan estar sujetos a las retenciones fiscales previstas en el artículo 871(m) del Código Fiscal (<i>Internal Revenue Code</i>) estadounidense de 1986, con sus modificaciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control</p>

	del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> • Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad) • Evolución de los tipos de interés • Plazo restante de vigencia de los Valores • Evolución de los dividendos de las acciones que conforman el Índice <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>
