Dear Shareholder,

ABERDEEN GLOBAL

Your Board of Directors has decided to make the following changes to the Aberdeen Global – World Bond Fund.

Change of Investment Objective and Policy of Aberdeen Global – World Bond Fund

With effect from 31 March 2011 the investment objective and policy of Aberdeen Global – World Bond Fund will be amended to read as follows:

ABERDEEN GLOBAL – WORLD BOND FUND

Investment Objective and Policy

The Fund's investment objective is long-term total return to be achieved by investing at least two-thirds of the Fund's assets in Debt and Debt-Related Securities issued by corporations or multilateral development banks or governments or government-related bodies.

The Fund may also invest in other Transferable Securities issued by corporations or government-related bodies. Such securities may include convertibles, up to an absolute maximum of 25% of the Fund, and also include floating rate securities, asset-backed securities, perpetual securities, preferred stocks and warrants.

The Fund may invest up to 50% in Sub-Investment Grade Debt and Debt Related Securities. Any asset which is downgraded after purchase to Sub-Investment Grade will not be sold unless, in the opinion of the Investment Adviser, it is in the best interests of Shareholders to do so.

The Fund may utilise techniques and instruments for hedging and/or investment purposes, efficient portfolio management and/or to manage foreign exchange risks, subject to the conditions and within the limits laid down by the Luxembourg laws and regulations. In general, these techniques and instruments include, but are not limited to, securities lending and reverse repurchase transactions (as described in Appendix A) and forward foreign currency contracts.

Without limiting the generality of the foregoing, the Investment Adviser may alter the currency exposure of the Fund, solely through the use of derivative contracts (without buying or selling underlying Transferable Securities or currencies). Performance may be strongly influenced by movements in currency rates because the Fund may have exposure to a particular currency that is different to the value of the securities denominated in that currency held by the Fund. Furthermore, the Fund's portfolio may be fully or partially hedged back to the Base Currency if, in the opinion of the Investment Adviser, this is believed to be appropriate.

Regulations in the markets in which the Fund invests may require or limit hedging or other use of financial derivative instruments, either explicitly or as a result of the Investment Adviser managing resultant risk.

Change of Fund Specific risk profile of Aberdeen Global – World Bond Fund

With effect from 31 March 2011 the Fund Specific risk profile of Aberdeen Global – World Bond Fund will be as follows:

"Fund Specific: Suitable for investors seeking more income with higher volatility in overall return."

Change of Risk warnings specific to Aberdeen Global – World Bond Fund

With effect from 31 March 2011 the section headed Risk Warnings Specific to Aberdeen Global – World Bond Fund will be amended to read as follows:

- The Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long-term interest rates rise, the capital value of bonds is likely to fall and vice versa. Credit rate risk reflects the ability of a bond issuer to meet its obligations.
- The Fund's portfolio may have a significant position in Sub-Investment Grade bonds, which means that there may be more risk to investor's capital and income than from a fund investing in government or Investment Grade bonds.

Redemptions or switching free of charge

Shareholders of the Aberdeen Global – World Bond Fund who feel that the aforementioned changes no longer meet their investment requirements may request redemption or switching of their shares, free of charge, until 13:00 hours Luxembourg time on 31 March 2011.
