

TO THE NATIONAL SECURITIES MARKET COMMISSION (CNMV)

SOLARIA ENERGÍA Y MEDIO AMBIENTE, S.A.

Madrid, December 13th, 2018

Pursuant to the provisions set forth in the Consolidated Text of the Spanish Capital Markets Act, the following RELEVANT FACT is hereby reported:

Solaria Energía y Medio Ambiente, S.A. (“Solaria” or the “Company”) reports he has begun the construction of 400MW in various locations within the Spanish territory.

The Company has closed, among others, the supply of electric equipment crucial to guarantee the compliance of the construction timeline. The inverters and medium voltage equipment will be supplied by SUNGROW while the supply of the high voltage transformers to connect to the grid will be done by SIEMENS.

This equipment will be used for the construction of Solaria’s photovoltaic plants located in Cáceres, Valladolid, Salamanca, Toledo, Cuenca and Huesca for a total power of 400MW that would equal the annual electricity supply for a city of 150,000 people. For its execution, more than 1,100,000 photovoltaic solar modules will be used.
