Explain the rules
<p>Directors must tender their resignation to the Board and, if the Board of Directors considers it appropriate, formally resign (section 21 of the Board Regulations) in the following cases:</p> <ul style="list-style-type: none"> - When they find themselves in a situation of conflict of interests or a prohibited situation as provided for by law; - When they are prosecuted for an alleged criminal act or are subject to disciplinary proceedings for serious or very serious misconduct instituted by the supervisory authorities;

- When their continued presence on the Board may jeopardize the Company's interests or when the reasons for which they were appointed cease to exist. The above circumstance shall be deemed to occur in the case of proprietary directors when the total shareholding they own or whose interests they represent is disposed of or when the reduction of such shareholding requires a reduction in the number of relevant proprietary directors.

C.1.37 State whether any member of the Board of Directors has notified the company that he or she has been tried or notified that legal proceedings have been filed against him or her, for any offences described in Article 213 of the LSC:

Decision/Action taken	Explanation

C.1.38 Detail any material agreements entered into by the company that come into force, are modified or are terminated in the event of a change in control of the company following a public takeover bid, and their effects.

Debentures and other loans

The terms and conditions of the bonds include a clause on change of control (at the option of the bondholders), which implies an early redemption.

Regarding the bonds issued under the EMTN Programme, the put option can only be activated if a change of control takes place and the credit rating is lowered due to a change of control (as defined in the terms and conditions of the EMTN Programme). Regarding the convertible bonds, the put option can only be activated if a change of control takes place or if an event which triggers the offer takes place (as defined in the terms and conditions of the convertible bonds).

In both clauses, a change of control is defined as the acquisition of over 50% of the voting rights of the parent company or the right to appoint or remove all or most of the Board members of the parent company.

Loans and credit policies

The syndicated financing includes a clause on early termination due to a change of control. Regarding the syndicated financing arranged by Cellnex Telecom, S.A., the triggering event is at the parent company level and, for the syndicated

financing formalised through Cellnex Switzerland, the triggering event is at the level of that company and its subsidiary, Swiss Towers. In both cases, the change of control event is activated when a third party, on its own or with others, acquires 50% of the shares with voting rights or obtains the right to appoint or remove most of the Board members of the relevant company.

Acquisition of infrastructure

Regarding the Group's infrastructure acquired by the mobile telecommunications operators, the agreements signed with the sellers include the change of control events which establish that, if the seller's competitor becomes a controlling shareholder at the relevant company (where the control is defined as (i) more than 50% of the shares with voting rights or (ii) the right to appoint or remove most of the Board members), the seller is entitled to repurchase that infrastructure. Moreover, that repurchase right can also be granted if the seller's competitor acquires a significant part of the shares or obtains voting or governing rights which can be exercised in a way that can negatively affect the seller's interests. The change of control events can be activated by both Cellnex Telecom and at Group company level.

C.1.39 Identify individually for director, and generally in other cases, and provide detail of any agreements made between the company and its directors, executives or employees containing indemnity or golden parachute clauses in the event of resignation or dismissal or termination of employment without cause following a takeover bid or any other type of transaction.

Number of beneficiaries 2

The executives have signed agreements with the company that contain compensation clauses.

In general terms, the contracts' compensation clause provides for the payment of compensation to the executive in the event of unfair dismissal. The compensation is the greatest of the following amounts:

- a) compensation equivalent to one year's salary, taking into consideration the annual gross fixed remuneration in cash received at the time the employment relationship is terminated, as well as the annual gross variable remuneration received by the executive in the 12 months immediately before the effective cessation of the provision of their services; or b) the compensation established by current employment legislation.

In the case of the Chief Executive Officer and other members of senior management, the compensation clause in the contracts provides for the payment of compensation in favour of the executive in the event of (i) unfair dismissal or (ii) unilateral termination of the contract by the manager due to serious breach by the company of the obligations set out in the contract, substantial modification of their duties without consent, change in control of the company in the sense provided for in Section 42 of the Commercial Code and similar circumstances.

For the Chief Executive Officer the compensation would consist of two years' fixed and variable remuneration.

D RELATED-PARTY AND INTRAGROUP TRANSACTIONS

D.1 Describe, if applicable, the procedure for approval of related-party and intragroup transactions.

Pursuant to Section 4 of the Board of Directors' Regulations, the board will have the authority to approve operations which the company conducts with directors, significant shareholders, shareholders with board representation or other persons related thereto, except when these fulfil the three following conditions:

- 1) They are carried out by virtue of contracts, the conditions of which are standardized and apply in masse to most customers.
- 2) They go through at market prices, generally set by the person supplying the goods or services.
- 3) Their amount is no more than 1% of the group's annual revenues.

Furthermore, section 33 of the mentioned regulations establishes that:

The Board of Directors formally reserves the right to know about any important transaction by the company with a significant shareholder.

With regard to ordinary transactions, the general authorization for the line of operations and their conditions of execution will suffice.

D.2 Describe any transactions which are significant, either because of the amount involved or subject matter, entered into between the company or entities within its group and the company's significant shareholders:

Name of significant shareholder	Name of company within the group	Nature of the relationship	Type of transaction	Amount (thousand euros)

Moreover, no transactions of a large amount were made with associates in 2018 and 2017.

D.5 State the amount of any transactions conducted with other related parties that have not been reported in the previous sections.

Remarks
In addition to the contracts stated above, no transactions of a large amount were made with related parties in the year ending 31 December 2018 and 2017.

D.6 Describe the mechanisms in place to detect, determine and resolve potential conflicts of interest between the company and/or its group and its directors, senior management or significant shareholders.

In accordance with the Board of Directors' Regulations, directors and executives must report any conflicts of interest and abstain from participating or influencing the decision-making process on matters affected by the conflict. Directors (section 27 c) of the Board Regulations) must abstain from participating in discussions and votes regarding resolutions or decisions in which they or a related person has a direct or indirect conflict of interest. Resolutions or decisions that affect their status as directors, such as their appointment to or removal from positions in the governing body or other similar decisions, shall be excluded from the aforementioned obligation to abstain.

Additionally, Directors (section 27 (e) of the same Regulations) must adopt the necessary measures to avoid situations in which their interests, whether for their own account or for others, may conflict with the company's interests and their duties towards the company. The foregoing excludes the cases in which the company has provided its consent, pursuant to the terms set forth in section 230 of the Spanish Limited Liability Companies Law.

Directors (section 28 of the same Regulations) must advise the Board of Directors of any direct or indirect conflict that they or people related to them might have with the Company's interests. The director concerned will refrain from taking part in resolutions or decisions related to the operation to which the conflict refers. The votes of the directors affected by the conflict and who must abstain, will be deducted for the purposes of calculating the majority of votes needed. In particular, the duty to avoid conflicts of interest obliges directors to refrain from:

- a) Carrying out transactions with the company, except when these are ordinary operations, carried out under standard conditions for customers, and are of little importance, understood as those operations whose information is not required to convey a faithful image of the entity's assets, financial situation and results.
- b) Using the company's name or their status of director to unduly influence the conduct of private operations.
- c) Using the company's assets, including its confidential information, for private purposes.
- d) Taking advantage of the company's business opportunities.
- e) Obtaining benefits or payments associated with the performance of their position from third parties other than the company or its Group, unless they are acts of mere courtesy.
- f) Carrying out activities, for their own account or for others, that cause them to be in effective competition, whether real or potential, with the company or which, in any other way, cause a permanent conflict with the company's interests.

In July 2016 Cellnex's Board of Directors approved a new Internal Code of Conduct (ICC) adapted to the requirements of the European Regulation on market abuse. With regard to conflicts of interest, the ICC establishes:

Principles of action

In any situation involving a "Conflict of Interest" (being a clash between the interests of the Company and the personal interests of the Affected Person), Affected Persons shall act in accordance with the following principles:

(i) Independence.
They must act at all times with loyalty to the Company, irrespective of their own interests or those of third parties.

(ii) Abstention.
They must refrain from intervening or influencing in the taking of decisions concerning matters affected by the conflict.

(iii) Confidentiality.
They shall refrain from accessing confidential information which may have a bearing on the aforesaid conflict.

Notification of Conflicts of Interest
Affected Persons shall notify the General Secretary's Office of any possible Conflicts of Interest to which they are subject by their family relationships, their personal holdings, their activities outside the Company, or on any other grounds.
It shall be considered that there is no Conflict of Interests owing to family relationships when said relationship is beyond the fourth degree of consanguinity or the second degree of affinity.

It shall be considered that there is a possible Conflict of Interests derived from personal holdings when said holdings arise in relation to a company in which the Affected Person holds a management post or has a significant stake (which is understood to mean a total stake, direct or indirect, in excess of twenty per cent of its total issued share capital).

Affected Persons must ensure that the information is kept up to date, reporting any modification to or termination of previously communicated situations, as well as the emergence of any new possible Conflicts of Interest.

Communications must be issued without delay once the current or possible situation of Conflict of Interest is recognised, prior to taking any decision which may be affected by the possible Conflict of Interest.

Members of the Board of Directors
Members of the Board of Directors In addition to the foregoing, the members of the Company's Board of Directors shall be subject to the provisions of the applicable corporate regulations and internal Company's rules.

E RISK MANAGEMENT AND CONTROL SYSTEMS

E.1 Explain the scope of the company's Risk Management and Control System, including tax compliance risk.

The Risk Management System works in a comprehensive and continuous way, consolidating by subsidiary / geographical area and by support area at corporate level.

The risk management model implemented has been approved and is monitored by the Audit and Control Committee, and is applicable to all business and corporate units in countries where the Cellnex Group operates.

To identify the risks, defined guidelines approved by the Audit and Control Committee are in place. Each corporate area is responsible for identifying, assessing and monitoring the inherent and residual risks, and supervising and implementing control measures to mitigate such risks.

The risk map is approved and reviewed by the Audit and Control Committee, which informs the Board of Directors and is cross-checked and implemented by the Management Committee.

E.2 Identify the bodies within the company responsible for creating and executing the Risk Management and Control System, including tax compliance risk.

The following bodies are responsible for defining, executing and monitoring the risk management system:

- The Board of Directors: the highest body responsible for defining the risk control strategy and policy.
- The Audit and Control Committee: Designated as such by the Board of Directors, its role is to monitor the effectiveness of the risk management model and the information supplied to third parties regarding the system, making sure that the risk management system is able to identify, manage, prioritize, control, monitor and provide complete information on risks.
- Risk Control: is responsible for preparing and updating risk management policies, setting out mechanisms and methodologies to identify and assess risks, updating risk mapping, implementing a system for monitoring and Communications to the highest level of company governance and review the controls that mitigate the identified risks.
- Senior Management Committee: Is responsible for risk management included in the implementation of the defined risk policies, the approval

of risk maps, the assigning of responsibilities, the implementation of control activities and action plans as well as the monitoring of existing risks in its area of responsibility.

- Managers: Each area manager is responsible for identifying their risks and informing the Risk Control in a timely fashion. Likewise, he or she is responsible for identifying and implementing control activities aimed at mitigating risks.

E.3 State the primary risks, including tax compliance risks, and those deriving from corruption (with the scope of these risks as set out in Royal Decree Law 18/2017), to the extent that these are significant, which may affect the achievement of business objectives

The main risks which may prevent the company from achieving its targets are:

- Strategic elements, such as mergers between telecommunications operators, emergence of new competitors, restrictions on growth in regulated markets.
- Compliance following changes in fiscal, legal or environmental law or being subject to litigation or other judicial processes.
- Financial as a result of customers defaulting on payments, access to financing, fluctuations in the stock market price.
- Operatives derived from the integration and optimization of acquisitions, increase in exposure of information systems, emergence of alternative technologies, capacity to attract and retain qualified personnel.

E.4 State whether the entity has a risk tolerance level, including tolerance for tax compliance risk.

The levels of tolerance are defined in the risk assessment matrix.

For the identified risks each person responsible will evaluate the possible impact of such risks should these occur and classify them as low, medium, large or critical depending on their economic impact, implications for the organisation and impact on reputation. Following this the possibility of the risk actually occurring will be evaluated. This possibility is classified as unlikely, possible, probable and almost certain. The combination of impact and probability leads to risk prioritization.

E.5 State which risks, including tax compliance risks, have materialised during the year.

The main risks which materialised during the year were as follows:

- Regulatory changes. The CNMC (Spanish Competition Commission) initiated public consultation to review the wholesale market for the television broadcast carrier service. The proposed obligations to be imposed on Cellnex are similar to those at present, so no relevant changes are expected. The consultation has been answered but no decision has yet been made.
- Some Group clients wished to renegotiate their agreements or amend the current contractual agreements in a negative way. Some clients suggested the possibility of renegotiating their current contracts downwards. We answered that this was not possible since the current prices conform to the regulatory framework and to market prices.

- Advertising revenue performance in the media sector, especially TV, Internet and radio. Conflict with the CNMC due to potential abuse of a dominant position by the large television groups, to the detriment of the other television companies. This has not yet been resolved but it should not have an impact on Cellnex.
- Increase in competition in the acquisition of assets and companies within the context of the Group's business expansion.

E.6 Explain the response and monitoring plans for all major risks, including tax compliance risks, of the company, as well as the procedures followed by the company in order to ensure that the board of directors responds to any new challenges that arise.

The risk management model establishes the response and supervision plans for the main risks based on their assessment.
The risk maps and the risks considered to be a priority are reviewed by the Audit and Control Committee, which, in turn, informs the Board of Directors and notifies it if there are changes to any of the risks not defined as a priority. All the areas also carry out their own risk management.

To reduce exposure to risks such as the risks of sharing infrastructure, regulatory changes, technological advances and the development of alternative technology not used at present, an increase in competition, etc., the Group continues with its selective internationalisation, diversification and growth policy, fostering understanding with the Public Administrations to develop infrastructure and continuing with the efficiency plan to optimise operating expenses and investments.

F INTERNAL RISK MANAGEMENT AND CONTROL SYSTEMS RELATED TO THE PROCESS OF PUBLISHING FINANCIAL INFORMATION (ICFR)

Describe the mechanisms comprising the System of Internal Control over Financial Reporting (ICFR) of your company.

F.1 Control environment

Report on at least the following, describing their principal features:

- F.1.1. The bodies and/or departments that are responsible for (i) the existence and maintenance of an adequate and effective ICFR; (ii) their implementation; and (iii) their supervision.

Internal Control over Financial Reporting (ICFR) at Cellnex forms part of its general internal control system and consists of a set of processes which the Board of Directors, the Audit and Control Committee, management and staff carry out to provide reasonable assurance of the reliability of the financial information reported to the market.

The 'Model for the Organisation and Monitoring of the ICFR' at Cellnex (hereinafter 'ICFR Organisation Model') establishes that the Board of Directors is the highest authority responsible for the supervision of the internal information systems, as well as the Risk Control and Management Policies. In addition, the Sections and the Board Regulations state, amongst other things, the following responsibilities:

- Defining general company policies and strategies, as well as the corporate governance policies of the organisation.
 - The preparation and approval of annual accounts and any other report or information required by law.
 - The financial information that, due to its status as a listed company, the company must periodically publish.
- Definition of the Risk Control and Management Policy, including taxation risks, as well as supervising internal information and control systems.
- The supervision of the correct functioning and actions of the delegated bodies, amongst which there is the Audit and Control Committee and designated directives.

According to the Board of Directors' Regulation (section 15), there are amongst the basic responsibilities of the Audit Control Committee (hereinafter the AAC):

- . The supervision of the preparatory process and presentation of mandatory financial information, as well as its integrity.
- . The supervision of the efficiency and suitability of internal control and risk evaluation in Cellnex as well as the best monitoring and control measures to avoid committing criminal offences and for risk management systems, including fiscal risk and the systems in place to manage compliance with all applicable legislation.
- . Discussion with the account auditor of the significant weaknesses of the internal control system detected during the auditing process.
- . The supervision of internal auditing services, ensuring their independence and making sure that the recommendations and suggested corrective measures be considered by the management.

Cellnex Internal Audit is in turn responsible for supervising ICFR in delegation from the Audit and Control Committee with the Finance and Corporate Development Department responsible for its design, maintenance and implementation.

F.1.2. State whether the following are present, especially if they relate to the creation of financial information:

- Departments and/or mechanisms in charge of: (i) design and review of corporate structure; (ii) clear definition of lines of responsibility and authority with an adequate distribution of tasks and functions; and (iii) assurance that adequate procedures exist for proper communication throughout the entity.

The Cellnex Board of Directors assigns the responsibility of the design and review of the organisational structure related to the preparation of the financial information to Organisation and General Services and to Finance and Corporate Development. From these guidelines the general structures and distribution of responsibilities and the procedure to design, review, update and inform on these are defined; this process being documented in the form of organisational structure charts and process models and its associated regulations which form part of the policy catalogue of Cellnex.

Cellnex has an internal organisational chart which covers all areas and which is basically divided according to department (including those departments involved in preparing, analyzing and supervising financial information). This organisational chart indicates responsibilities up to a certain management level

and is supplemented by other more detailed organisational charts at departmental level.

Regarding to the preparation process of financial information, in addition to the detailed organisational charts and with the aim of assigning responsibilities, there is the ICFR Organisational Model, developed by the Department of Consolidation and Financial Reporting, part of the Finance and Corporate Development department, and which is submitted to the AAC for approval.

- Code of conduct, the body approving this, degree of dissemination and instruction, including principles and values, (state if there is specific mention of transaction recording and creation of financial information), a body charged with analysing breaches and proposing corrective actions and sanctions.

Cellnex has a Code of Conduct (Code of Ethics) approved by Cellnex Telecom, S.A.'s Ethics and Compliance Committee that is made up from Internal Audit, the Legal department, Resources department, the Company Secretarial department, and the Regulation department, and this has been communicated to the employees and is available on the corporate intranet. Specific training for employees is being planned.

The main values and principles set out in the Code of Ethics are: integrity, honesty, transparency and good faith. The Code of Ethics includes among its fundamental principles the commitment to offer financial information that reflects the a fair view of the economic and financial situation in compliance with generally accepted accounting principles and international financial reporting standards applicable, and the responsibility of its employees and management to ensure this is so, both by correctly carrying out their functions and by notifying the management bodies of any circumstance which might affect this commitment.

The body responsible for analyzing breaches and proposing corrective actions and sanctions is the Ethics and Compliance Committee.

- Whistleblower channel, that allows notifications to the audit committee of irregularities of a financial and accounting nature, in addition to potential breaches of the code of conduct and unlawful activities undertaken in the organisation, reporting, as the case may be, if this is of a confidential nature.

Cellnex has and promotes the use of communications channels concerning possible non-conformities with the Ethics Code and other irregular activities in the organisation, especially from a financial and accounting point of view, informing the Ethics and Compliance Committee in all cases.

As stated in the Ethics Channel Policy, which regulates the procedure, scope and application of the reports received, the latter can be communicated via a communications form, either by post or email, maintaining the confidentiality at all times.

Any communications will be received, analysed and followed up by the Ethics and Compliance Committee, and this committee will periodically inform the Nomination and Remuneration Committee and the Audit and Control Committee. From time to time the Ethics and Compliance Committee will inform the Nomination and Remuneration Committee and the Audit and Control Committee about the functioning of the Ethics Channel.

If reports have been received during the year, the Ethics and Compliance Committee will produce an annual report on the communications received, to facilitate the analysis of the functioning of the 'whistle-blowing' channel.

- Training and periodic refresher programmes for staff involved in the preparation and revision of financial information, as well as assessment of the ICFR (Internal Control System for Financial Information), that covers at least accounting rules, audits, internal control and risk management.

Regarding training programs and the periodic updating of elements which can affect the preparation and publication of financial information, Cellnex believes the continuous development and training of its staff and management to be key. In this regard, Cellnex also considers that complete and up-to-date training on accounting regulations, the rules for preparing financial information, the regulations on capital markets, taxation and internal control is necessary to ensure that the information reported to the market is reliable and in accordance with regulations.

Regarding the preparation and review of the financial information, during 2018 Cellnex implemented training plans based on the needs identified by the department of Consolidation and Accounting Regulation in relation to:

- New accounting, tax, capital markets and internal control regulations, adopted by the European Union and applicable to Cellnex.
- Changes in reporting methodology and / or information systems.
- Individual initiative from the team members of the department of Consolidation and Accounting Regulation.

Once the needs of these areas have been identified, the appropriate training activities are designed and put into effect to cover annual training objectives on these matters.

Cellnex carried out training activities during 2018 using external experts and internal training sessions, covering personnel involved in preparing and reviewing financial information. The training areas on which most emphasis was placed during 2018 relate to accounting, tax and financial matters which could have the greatest impact on the preparation of Cellnex's consolidated financial information, particularly in changes to the fiscal and accounting changes at both national and international levels and with the year's updates concerning EU-IFRS.

Cellnex has an on-line training platform where both technical training for specific work groups and a more overall training can be accessed on a voluntary and, in some cases, mandatory basis.

In 2018, the following specific training was also provided:

- SAP RE – IFRS 16 Module – Spain, Italy, France and Switzerland
- SAP RE – General – Intensive on-the-job post go-live training - IFRS 16 Module – Spain and Italy
- SAP RE – Owner management – France and Switzerland
- IFRS 16 – Leases

Additionally , the Consolidation and Financial Reporting department has subscriptions to a number of publications and journals on accounting and financial matters and to the website of the International Accounting Standards Board which regularly sends new developments and other communications of interest which are analysed and reported to ensure they are taken into consideration when preparing Cellnex's financial information.

F.2 Assessment of financial information risks

Report on at least the following:

F.2.1. The main characteristics of the risk identification process, including error and fraud risk, as regards:

- Whether the process exists and is documented.
- If the process covers all of the objectives of financial information, (existence and occurrence; completeness; valuation; delivery; breakdown and comparability; and rights and obligations), whether it is updated and with what frequency.
- The existence of a process for identifying the scope of consolidation, taking into account, among other factors, the possible existence of complex company structures, shell companies, or special purpose entities.
- If the process takes into account the effects of other types of risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) to the extent that they affect the financial statements.
- The governing body within the company that supervises the process.

Cellnex has a Risk Control and Management Policy that establishes the basic principles and the general framework for the control and management of all types of risks which are faced. In this manner Cellnex identifies and updates the principle risks organizing adequate information and internal control systems and performing monitoring functions.

The Internal Control and Risk Management Manual of the ICFR (hereafter Risk Management Manual) describes and formalises Cellnex's internal control and risk management model with regards to the ICFR and establishes mechanisms used to determine the risks in this area, the key business processes along with the practical and operative documentation for this internal control model.

During the process of the drawing up and issuing financial information this manual sets out what financial information it refers to as well as the methodology for defining it. Furthermore, guidelines are established to determine whether the process covers all financial reporting objectives, (existence and occurrence; completeness; valuation; presentation, disclosure and comparability; and rights and obligations), is updated and with what frequency.

Cellnex has identified the relevant business processes together with their inherent risks and has designed a Risk and Controls Matrix that aims to identify the main risks, based on which control activities have been designed, such that when adequately complied with, true and reliable financial information can be obtained.

The Department of Consolidation and Accounting Regulation is entrusted with identifying and documenting risks of error in the financial information; the process is supplemented by Internal Audit, which considers identified risks of error in relation to the group's overall Risk Map (which takes into account both financial and non-financial risks). The entire process is ultimately overseen by the Audit and Control Committee.

The Cellnex Audit and Control Committee is responsible for supervising the risk control systems with the support from Internal Audit.

F.3 Control activities

Report on whether the company has at least the following, describing their main characteristics:

F.3.1. Review and authorisation procedures for financial information published by the stock markets and a description of the ICFR, indicating those responsible, as well as documentation describing the flow of activity and controls (including those relating to the risk of fraud) of the various types of transactions which may materially affect the financial statements, including financial closing procedures and the specific review of judgements, estimates, valuations and relevant forecasts.

Cellnex has a Regulated Information Reporting Manual, duly approved by the ACC, where the process for preparing and approving the financial information and the description of the ICFR to be published in the market and to investors is detailed. This manual sets out the criteria to identify relevant public financial information, this being as follows:

- Regular reporting obligations (RRO):
 - o Quarterly financial report.
 - o Half year financial report.
 - o Annual financial report and Annual Corporate Governance Report (ACGR)
- Annual report on remuneration policy for directors (ARR)
- Significant Events

Cellnex's Manual for the Issue of Regulated Information also details the departments involved in preparing, review and authorisation of the financial information and their respective responsibilities from the year end accounting processes to the publication of the relevant facts. In particular, for each set of regulated financial information to be published

for the market there is a procedure for its preparation and review that requires completing questionnaires for the internal control of regulated information to ensure a reasonable security in the reliability of the entities financial statements.

Following the Manual for the Issue of Regulated Information and completing specific questionnaires for internal control is obligatory and subject to review by the internal Cellnex auditor.

On the matter of descriptive documentation regarding flows in activities and controls of the different transactions that can materially affect the financial statements, Cellnex has a ICFR Organisational Model that structures the specific mechanisms set up to maintain an internal control environment that favours the generation of complete financial information that is reliable and timely and anticipates the existence of possible irregularities as well as ways in which to detect and remedy these. Cellnex has developed procedures for those processes that are considered material and relevant as concerns their potential impact on the financial information to be published, as detailed below:

- Revenue recognition and accounts receivable
- Fixed assets and investments
- Purchases and accounts payable
- Staff costs
- Judgements and estimates
- Month end accounting, consolidation and financial reporting

- Cash and borrowings

- Taxes

Individual and consolidated financial statements, six-monthly financial reports and the financial information in the quarterly interim statements of Cellnex are prepared and reviewed by Finance and Corporate Development prior to submission to the Audit and Control Committee. Here the procedures included in the Emission of Regulated Information Manual will be applied as a prior step to a submission of the information to Cellnex Board of Directors for final approval.

Cellnex has descriptions of controls over activities and controls directly related to transactions that might have a material impact on the financial statements, to mitigate the risk of material error in the information reported to the markets. These descriptions are documented in the 'ICFR Risk and Control Matrix' and contain information on what the controls should consist of, the reason these are carried out, who should carry them out, how often, and other information on what information systems or what operations carried out by third parties are important for the effectiveness of the control operation in question. The controls cover areas such as income generation, investment and expenditure on concessions, acquisitions and subsequent valuation of other assets, analysis of the recoverability of investments, recording of taxation of profits or the correct presentation of financial instruments and of the financing operations of Cellnex.

In relation to the relevant judgements and estimations made, Cellnex reports any areas of particular uncertainty that it considers especially pertinent in its consolidated financial statements. The specific review and approval of the relevant judgements, estimates, assessments and projections as well as the key assumptions used for calculating them, with a material impact on the consolidated financial statements, are made by Finance and Corporate Development and, where applicable, by the managing director. The most significant ones, such as the monitoring of asset values and hedging policies will be treated and reviewed by the ACC before submitting them for the Board's approval.

F.3.2. Internal IT control policies and procedures (access security, change controls, their operation, operational continuity, and segregation of duties, among others) which support relevant processes within the company and relate to the creation and publication of financial information.

Cellnex uses information systems to keep adequate records and monitor its operations and, therefore, their proper operation is a key element and one that is particularly emphasized by Cellnex. Specifically, the Consolidation and Reporting SAP BPC system has been implemented in all the Group's companies in Spain. The process of segregation of systems with its parent company Abertis was also completed during 2016.

Regarding the companies outside of Spain the database is fed through loading files which are prepared in the relevant foreign subsidiaries and sent back to the corporate offices in Spain for loading into the system. During 2018, SAP BPC has been installed in such foreign subsidiaries so that the charging to the consolidation system may be executed from each country. This process is expected to be completed during the second half of 2018. In respect of Galata - the Italian subsidiary - in the beginning of the year it was concluded the process for system segregation with their former parent Wind Telecomunicazioni and they have also started to work fully under SAP.

The Systems department, which forms part of the Organisation and Efficiency department, which in turn forms part of the Resources department is responsible for establishing the model of internal control over the information systems in those aspects relating to access security, segregation of duties (in coordination with the business areas and support areas) change control, apart from 47 carrying out monitoring activities for risks and controls derived from the externalisation of the systems.

F.3.3. Internal control policies and procedures intended to guide the management of subcontracted activities and those of third parties, as well as those aspects of assessment, calculation or evaluation entrusted to independent experts, which may materially affect financial statements.

Cellnex does however regularly use reports by independent experts to value its financial instruments and undertakings to employees. In addition, Cellnex maintains certain activities associated with accounting, payroll and the administration and maintenance of its corporate information systems subcontracted to an external supplier.

Cellnex has guidelines drawn up concerning the treatment of activities with third parties both in terms of hiring and the monitoring of results. These guidelines are detailed in the internal purchasing procedures.

The Finance and Corporate Development department carries out controls on the work of these experts to check:

- . The competence, capacity, accreditation and independence of these experts.
- . The validity of the data and methods used.
- . The reasonableness of the assumptions used, if applicable.

Certain control and risk management mechanisms have been established with the supplier to ensure that financial information derived from such activities is complete and correct, these include: a Management and Monitoring Committee for the contract, agreements in levels of service, risk indicators, service reports, measures

for technology security, external audits as well as contingency and continuity plans, amongst others.

F.4 Information and communication

State whether the company has at least the following, describing their main characteristics:

F.4.1. A specifically assigned function for defining and updating accounting policies (accounting policy area or department) and resolving doubts or conflicts arising from their interpretation, maintaining a free flow of information to those responsible for operations in the organisation, as well as an up-to-date accounting policy manual distributed to the business units through which the company operates.

The responsibility to define, maintain and update accounting policies within Cellnex falls upon the management of Consolidation and Financial Reporting.

The duties of the Consolidation and Financial Reporting department also include responding to accounting queries made by the various business units or other corporate areas of Cellnex.

Cellnex has an accounting policies manual, the Group Reporting and Accounting Principles Handbook (GRAPH) for the purposes of preparing financial statements under EU-IFRS which is drawn up by Corporate Management Control and regularly updated by it to include the rules applicable to the year. The auditing instructions sent by the external auditor to the auditors of the various group companies for the limited review or audit in each six-monthly and annual close respectively indicate that accounting principles on which they must carry out their work are those contained in the Cellnex GRAPH.

Any alterations that may take place are notified to the subsidiaries by e-mail. In any event, checks are performed to verify whether any new significant modifications have been made in the preceding quarter that might affect the preparation of consolidated annual financial information.

F.4.2. Measures for capturing and preparing financial information with consistent formats for application and use by all of the units of the entity or the group, and which contain the main financial statements and notes, as well as detailed information regarding ICFR.

Cellnex has various integrated platforms of financial information for recording transactions and preparing financial information for all of its subsidiaries (SAP BCP consolidation and reporting). The completeness and reliability of such information systems are validated using the general controls stated in section F.3.2.

The preparation of regulated financial information as well as the individual financial states Cellnex's national companies is centralised Finance and Corporate Development, so to guarantee homogeneous procedures in their preparation.

Every half year and yearend the 'Half year forms /Annual forms' are received, these bring together all the information necessary for the preparation of the group's consolidated financial information (summarised intermediary financial statements and annual accounts).

These 'six-monthly and annual forms' ensure uniformity of information:

- . It is standard and uniform for all countries and businesses.
- . It is prepared on the basis of Cellnex's accounting manual which is standard for all of the group companies.
- . It includes applicable legal, tax, commercial and regulatory requirements.

The information in the monthly reports and FORMS 2018 is loaded directly by the controllers.

F.5 Supervision of system performance

Describe at least the following:

- F.5.1. The activities of the audit committee in overseeing ICFR as well as whether there is an internal audit function that has among its mandates support of the committee and the task of supervising the internal control system, including ICFR. Additionally, describe the scope of ICFR assessment made during the year and the procedure through which the person responsible prepares the assessment reports on its results, whether the company has an action plan describing possible corrective measures, and whether its impact on financial reporting is considered.

Cellnex already had a model for internal control over financial reporting, which was supervised in part by Abertis' corporate functions, to see through its commitment to complete and reliable financial information, and to comply with the fact that its previous main shareholder was also a listed company. The adaptation of this model to the specific needs of Cellnex as a listed entity have occupied the majority of the Audit and Control Committee's activities during this year. To this effect, the AAC has carried out the following ICFR-related activities in 2018:

- Monitoring of the degree of implementation and potential changes to Cellnex's ICFR model.
- Review of ICFR-related information in the Annual Corporate Governance Report.
- Review of the financial information reported by Cellnex to the market.
- Supervision and periodic analysis of the performance of the ICFR implementation, taking note of its degree of implementation and efficacy.
- Monitoring of the work performed by the Company's external auditors to find out the internal control weaknesses detected when executing their work and the relevant factors or incidents related to them.

The Audit and Control Committee has already approved the Internal Audit Plan for 2019, which includes the necessary actions to guarantee adequate supervision and evaluation of the plans throughout the year by regularly reporting the incidents detected and the necessary actions for improvement once checked with audited areas.

Cellnex has an Internal Audit function that reports to the CAC and, as indicated by the Cellnex Board of Directors Regulations and specifically the section that corresponds to the powers assigned to the Audit and Control Committee, has the

main function of supervising the effectiveness of the company's internal controls and the internal auditing services, by verifying their suitability and integrity, and reviewing the appointment and replacement of the managers, as well as supervising the monitoring and control measures necessary for preventing criminal offences, the risk management systems, including tax-related ones, and the compliance management systems for any applicable legislation, and to discuss with the auditors any significant weaknesses in the internal control system detected while carrying out the audit.

During 2018 Internal Auditing developed various activities in key business process reviews and, as reported timely to the ACC, no significant weaknesses that could have a material impact on Cellnex's 2018 financial information have been identified; furthermore, necessary corrective actions to solve other future possible weaknesses have been carried out.

Likewise, as stated in section F.7.1, the external auditor has issued a report on the procedures agreed regarding the ICFR description made by Cellnex and which has not highlighted any material issues.

- F.5.2. If there is a procedure by which the account auditor (in accordance with the contents of the *Normas Técnicas de Auditoría* (NTA) - "Auditing Standards"), internal auditor and other experts may communicate with senior management and the audit committee or senior managers of the company regarding significant weakness in internal control identified during the review of the annual accounts or any others they have been assigned. Additionally, state whether an action plan is available for correcting or mitigating any weaknesses found.

The discussion procedure for significant weaknesses identified in relation to internal control is based, in general terms, on regular meetings maintained by the various parties involved. In this regard, the Internal Audit function communicates, on a regular basis, its conclusions regarding internal control during the reviews of the SCIIF to the Finance and Corporate Development department and to the ACC. It also reports on its conclusions relating to the internal audit processes carried out during the year, along with the implementation state of the corrective action plans established.

In relation to the relationship with external auditors, as described in section 39 of the Cellnex Board of Directors Regulations, these are channelled through the Audit and Control Committee. To this effect and to comply with its responsibility in supervising the auditor's actions as well as receiving communications regarding potential weaknesses in internal controls identified during professional actions, should there be any, the Audit and Control Committee will periodically meet with the external auditor. These communications are recorded in the Audit and Control Committee's minutes and are monitored through Internal Audit functions.

In addition, Cellnex's external auditors have direct contact with the Chief Financial Officer and maintain periodic meetings both to obtain information necessary to carry out their work and to communicate any weaknesses detected.

F.6 Other relevant information

No additional aspects to describe have been identified.

F.7 External auditor's report

Report from:

F.7.1. If the ICFR information submitted to the markets has been subject to review by the external auditor, in which case the entity shall include its report as an attachment. If not, reasons why should be given.

Cellnex has submitted to the external auditor for review the ICFR information submitted to the markets for 2018. The scope of the review procedures of the auditor are performed in accordance with Circular E14/2013 of 19 July 2013, of the Spanish Institute of Certified Auditors, which sets out the guidelines for the audit report model in relation to the Internal Control over the Financial Reporting (ICFR) of quoted companies.

G EXTENT OF COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Specify the company's level of compliance with recommendations from the Unified Code of Good Governance.

In the event that a recommendation is not followed or only partially followed, a detailed explanation should be included explaining the reasons in such a manner that shareholders, investors and the market in general have enough information to judge the company's actions. General explanations are not acceptable.

- 1. That the Articles of Association of listed companies do not limit the maximum number of votes that may be cast by one shareholder or contain other restrictions that hinder the takeover of control of the company through the acquisition of shares on the market.**

Complies Explanation

- 2. That when the parent company and a subsidiary are listed on the stock market, both should publicly and specifically define:**
 - a) The respective areas of activity and possible business relationships between them, as well as those of the listed subsidiary with other group companies.**
 - b) The mechanisms in place to resolve any conflicts of interest that may arise.**

Complies Complies Partially Explanation Not Applicable

- 3. That, during the course of the ordinary General Shareholders' Meeting, complementary to the distribution of a written Annual Corporate Governance Report, the chairman of the Board of Directors makes a detailed oral report to the shareholders regarding the most material aspects of corporate governance of the company, and in particular:**

- a) Changes that have occurred since the last General Shareholders' Meeting.**
- b) Specific reasons why the company did not follow one or more of the recommendations of the Code of Corporate Governance and, if so, the alternative rules that were followed instead.**

Complies Complies partially Explanation

4. That the company has defined and promoted a policy of communication and contact with shareholders, institutional investors and proxy advisors that complies in all aspects with rules preventing market abuse and gives equal treatment to similarly situated shareholders.

And that the company has made such a policy public through its web page, including information related to the manner in which said policy has been implemented and the identity of contact persons or those responsible for implementing it.

Complies Complies partially Explanation

5. That the Board of Directors should not propose to the General Shareholders' Meeting any proposal for delegation of powers allowing the issuance of shares or convertible securities without pre-emptive rights in an amount exceeding 20% of equity at the time of delegation.

And that whenever the Board of Directors approves any issuance of shares or convertible securities without pre-emptive rights the company immediately publishes reports on its web page regarding said exclusions as referenced in applicable company law.

Complies Complies partially Explanation

6. That listed companies which draft reports listed below, whether under a legal obligation or voluntarily, publish them on their web page with sufficient time before the General Shareholders' Meeting, even when their publication is not mandatory:

- a) Report regarding the auditor's independence.
- b) Reports regarding the workings of the audit committee and the appointments and remuneration committee.
- c) Report by the audit committee regarding related-party transactions
- d) Report on the corporate social responsibility policy.

Complies Complies partially Explanation

7. That the company reports in real time, through its web page, the proceedings of the General Shareholders' Meetings.

Complies Explanation

8. That the audit committee ensures that the Board of Directors presents financial statements in the audit report for the General Shareholders' Meetings which do not have qualifications or reservations and that, in the exceptional circumstances in which qualifications may appear, that the chairman of the audit committee and the auditors clearly explain to the shareholders the content and scope of said qualifications or reservations.

Complies Complies partially Explanation

9. That the company permanently maintains on its web page the requirements and procedures for certification of share ownership, the right of attendance at the General Shareholders' Meetings, and the exercise of the right to vote or to issue a proxy.

And that such requirements and procedures promote attendance and the exercise of shareholder rights in a non-discriminatory fashion.

Complies Complies partially Explanation

10. That when a verified shareholder has exercised his right to make additions to the agenda or to make new proposals to it with sufficient time in advance of the General Shareholders' Meeting, the company:

- a) Immediately distributes the additions and new proposals.
- b) Publishes the attendance card credential or proxy form or form for distance voting with the changes such that the new agenda items and alternative proposals may be voted upon under the same terms and conditions as those proposals made by the Board of Directors.
- c) Submits all of these items on the agenda or alternative proposals to a vote and applies the same voting rules to them as are applied to those drafted by the Board of Directors including, particularly, assumptions or default positions regarding votes for or against.
- d) That after the General Shareholders' Meeting, a breakdown of the results of said additions or alternative proposals is communicated.

Complies Complies Partially Explanation Not Applicable

11. That, in the event the company intends to pay for attendance at the General Shareholders' Meeting, it establish in advance a general policy of long-term effect regarding such payments.

Complies Complies Partially Explanation Not Applicable

12. That the Board of Directors completes its duties with a unity of purpose and independence, treating all similarly situated shareholders equally and that it is guided by the best interests of the company, which is understood to mean the pursuit of a profitable and sustainable business in the long term, and the promotion of continuity and maximisation of the economic value of the business.

And that in pursuit of the company's interest, in addition to complying with applicable law and rules and in engaging in conduct based on good faith, ethics and a respect for commonly accepted best practices, it seeks to reconcile its own company interests, when appropriate, with the interests of its employees, suppliers, clients and other stakeholders, as well as the impact of its corporate activities on the communities in which it operates and the environment.

Complies Complies partially Explanation

13. That the Board of Directors is of an adequate size to perform its duties effectively and collegially, and that its optimum size is between five and fifteen members.

Complies Explanation

14. That the Board of Directors approves a selection policy for directors that:

- a) Is concrete and verifiable.
- b) Ensures that proposals for appointment or re-election are based upon a prior analysis of the needs of the Board of Directors.
- c) Favours diversity in knowledge, experience and gender.

That the resulting prior analysis of the needs of the Board of Directors is contained in the supporting report from the appointments committee published upon a call from the General Shareholders' Meeting submitted for ratification, appointment or re-election of each director.

And that the selection policy for directors promotes the objective that by the year 2020 the number of female directors accounts for at least 30% of the total number of members of the Board of Directors.

The appointments committee will annually verify compliance with the selection policy of directors and explain its findings in the Annual Corporate Governance Report.

Complies Complies partially Explanation

15. That proprietary and independent directors constitute a substantial majority of the Board of Directors and that the number of executive directors is kept at a minimum, taking into account the complexity of the corporate group and the percentage of equity participation of executive directors.

Complies Complies partially Explanation

16. That the percentage of proprietary directors divided by the number of non-executive directors is no greater than the proportion of the equity interest in the company represented by said proprietary directors and the remaining share capital.

This criterion may be relaxed:

- a) In companies with a high market capitalisation in which interests that are legally considered significant are minimal.
- b) In companies where a diversity of shareholders is represented on the Board of Directors without ties among them.

Complies Explanation

This recommendation states that there must be a proportion between the capital represented by the proprietary directors and their percentage out of the total non-executive directors. At present, Cellnex's proprietary directors represent 36% of the non-executives, while the shareholder that they represent, Connect S.p.A., owns 29.9% of its share capital. Without prejudice to this, we must remember that this recommendation states that this criterion can be mitigated in companies where there are few significant shareholdings. Apart from Connect S.p.A., there are only 4 significant shareholders (over 3%) at Cellnex and none of them has stated an interest in participating on the Board.

17. That the number of independent directors represents at least half of the total number of directors.

Nonetheless, when the company does not have a high level of market capitalisation or in the event that it is a high cap company with one shareholder or a group acting in a coordinated fashion who together control more than 30% of the company's equity, the number of independent directors represents at least one third of the total number of directors.

Complies Explanation

18. That companies publish and update the following information regarding directors on the company website:

- a) Professional profile and biography.

- b) Any other Boards to which the director belongs, regardless of whether the companies are listed, as well as any other remunerated activities engaged in, regardless of type.
- c) Category of directorship, indicating, in the case of individuals who represent significant shareholders, the shareholder that they represent or to which they are connected.
- d) The date of their first appointment as a director of the company's Board of Directors, and any subsequent re-election.
- e) The shares and options they own.

Complies Complies partially Explanation

19. That the Annual Corporate Governance Report, after verification by the appointments committee, explains the reasons for the appointment of proprietary directors at the proposal of the shareholders whose equity interest is less than 3%. It should also explain, where applicable, why formal requests from shareholders for membership on the Board meeting were not honoured, when their equity interest is equal to or exceeds that of other shareholders whose proposal for proprietary directors was honoured.

Complies Complies Partially Explanation Not Applicable

20. That proprietary directors representing significant shareholders must resign from the Board if the shareholder they represent disposes of its entire equity interest. They should also resign, in a proportional fashion, in the event that said shareholder reduces its percentage interest to a level that requires a decrease in the number of proprietary directors representing this shareholder.

Complies Complies Partially Explanation Not Applicable

21. That the Board of Directors may not propose the dismissal of any independent director before the completion of the director's term provided for in the Articles of Association unless the Board of Directors finds just cause and a prior report has been prepared by the appointments committee. Specifically, just cause is considered to exist if the director takes on new duties or commits to new obligations that would interfere with his or her ability to dedicate the time necessary for attention to the duties attendant to his post as a director, fails to complete the tasks inherent to his or her post, or enters into any of the circumstances which would cause the loss of independent status in accordance with applicable law.

The dismissal of independent directors may also be proposed as a result of a public share offer, joint venture or similar transaction entailing a change in the shareholder structure of the company, provided that such changes in the structure of the Board are the result of the proportionate representation criteria provided for in Recommendation 16.

Complies Explanation

22. That companies establish rules requiring that directors inform the Board of Directors and, where appropriate, resign from their posts, when circumstances arise which may damage the company's standing and reputation. Specifically, directors must be required to report any criminal acts with which they are charged, as well as the consequent legal proceedings.

And that should a director be indicted or tried for any of the offences set out in company law legislation, the Board of Directors must investigate the case as

soon as possible and, based on the particular situation, decide whether the director should continue in his or her post. And that the Board of Directors must provide a reasoned written account of all these events in its Annual Corporate Governance Report.

Complies Complies partially Explanation

- 23. That all directors clearly express their opposition when they consider any proposal submitted to the Board of Directors to be against the company's interests. This particularly applies to independent directors and directors who are unaffected by a potential conflict of interest if the decision could be detrimental to any shareholders not represented on the Board of Directors.**

Furthermore, when the Board of Directors makes significant or repeated decisions about which the director has serious reservations, the director should draw the appropriate conclusions and, in the event the director decides to resign, explain the reasons for this decision in the letter referred to in the next recommendation.

This recommendation also applies in the case of the secretary of the Board of Directors, despite not being a director.

Complies Complies Partially Explanation Not Applicable

- 24. That whenever, due to resignation or any other reason, a director leaves before the completion of his or her term, the director should explain the reasons for this decision in a letter addressed to all the directors of the Board of Directors. Irrespective of whether the resignation has been reported as a relevant fact, it must be included in the Annual Corporate Governance Report.**

Complies Complies Partially Explanation Not Applicable

- 25. That the appointments committee ensures that non-executive directors have sufficient time in order to properly perform their duties.**

And that the Board rules establish the maximum number of company Boards on which directors may sit.

Complies Complies partially Explanation

- 26. That the Board of Directors meet frequently enough so that it may effectively perform its duties, at least eight times per year, following a schedule of dates and agenda established at the beginning of the year and allowing each director individually to propose items do not originally appear on the agenda.**

Complies Complies partially Explanation

- 27. That director absences only occur when absolutely necessary and are quantified in the Annual Corporate Governance Report. And when absences occur, that the director appoints a proxy with instructions.**

Complies Complies partially Explanation

Section 26 of the Board of Directors' Regulations states that directors must carry out and comply with obligations set out in the company statutes and with due business diligence, keeping in mind the nature of the roles and the functions assigned to each of these. It is also established that directors must have an adequate dedication and must adopt the necessary measures to ensure good management and control of the company when carrying out their role functions. Therefore absences should be kept to the bare

minimum and quantified in the Annual Corporate Governance Report. However, the Board of Directors' Regulation does not set out a Board of Directors' obligation to assign representation with instructions as such requirement cannot always be possible due to no previous participation in the debates and deliberations of the matters put forward to the Board of Directors.

- 28. That when directors or the secretary express concern regarding a proposal or, in the case of directors, regarding the direction in which the company is headed and said concerns are not resolved by the Board of Directors, such concerns should be included in the minutes, upon a request from the protesting party.**

Complies Complies Partially Explanation Not Applicable

- 29. That the company establishes adequate means for directors to obtain appropriate advice in order to properly fulfil their duties including, should circumstances warrant, external advice at the company's expense.**

Complies Complies partially Explanation

- 30. That, without regard to the knowledge necessary for directors to complete their duties, companies make refresher courses available to them when circumstances require**

Complies Explanation Not Applicable

- 31. That the agenda for meetings clearly states those matters about which the Board of Directors are to make a decision or adopt a resolution so that the directors may study or gather all relevant information ahead of time.**

When, under exceptional circumstances, the chairman wishes to bring urgent matters for decision or resolution before the Board of Directors which do not appear on the agenda, prior express agreement of a majority of the directors shall be necessary, and said consent shall be duly recorded in the minutes.

Complies Complies partially Explanation

- 32. That directors shall be periodically informed of changes in equity ownership and of the opinions of significant shareholders, investors and rating agencies of the company and its group.**

Complies Complies partially Explanation

- 33. That the chairman, as the person responsible for the efficient workings of the Board of Directors, in addition to carrying out his duties required by law and the Articles of Association, should prepare and submit to the Board of Directors a schedule of dates and matters to be considered; organise and coordinate the periodic evaluation of the Board as well as, if applicable, the chief executive of the company, should be responsible for leading the Board and the effectiveness of its work; ensuring that sufficient time is devoted to considering strategic issues, and approve and supervise refresher courses for each director when circumstances so dictate.**

Complies Complies partially Explanation

- 34. That when there is a coordinating director, the Articles of Association or the Board rules should confer upon him the following competencies in addition to those conferred by law: chairman of the Board of Directors in the absence of the chairman and deputy chairmen, should there be any; reflect the concerns of non-executive directors; liaise with investors and shareholders in order to understand their points of view and respond to their concerns, in particular as**

those concerns relate to corporate governance of the company; and coordinate a succession plan for the chairman.

Complies Complies Partially Explanation Not Applicable

35. That the secretary of the Board of Directors should pay special attention to ensure that the activities and decisions of the Board of Directors take into account the recommendations regarding good governance contained in this Code of Good Governance and which are applicable to the company.

Complies Explanation

36. That the Board of Directors meet in plenary session once a year and adopt, where appropriate, an action plan to correct any deficiencies detected in the following:

- a) The quality and efficiency of the Board of Directors' work.
- b) The workings and composition of its committees.
- c) Diversity of membership and competence of the Board of Directors.
- d) Performance of the chairman of the Board of Directors and the chief executive officer of the company.
- e) Performance and input of each director, paying special attention to those in charge of the various Board committees.

In order to perform its evaluation of the various committees, the Board of Directors will take a report from the committees themselves as a starting point and for the evaluation of the Board, a report from the appointments committee.

Every three years, the Board of Directors will rely upon the assistance of an external advisor for its evaluation, whose independence shall be verified by the appointments committee.

Business relationships between the external adviser or any member of the adviser's group and the company or any company within its group shall be specified in the Annual Corporate Governance Report.

The process and the areas evaluated shall be described in the Annual Corporate Governance Report.

Complies Complies partially Explanation

37. That if there is an executive committee, the proportion of each different director category must be similar to that of the Board itself, and its secretary must be the secretary of the Board.

Complies Complies Partially Explanation Not Applicable

38. That the Board of Directors must always be aware of the matters discussed and decisions taken by the executive committee and that all members of the Board of Directors receive a copy of the minutes of meetings of the executive committee.

Complies Complies Partially Explanation Not Applicable

39. That the members of the audit committee, in particular its chairman, are appointed in consideration of their knowledge and experience in accountancy,

audit and risk management issues, and that the majority of its members be independent directors.

Complies Complies partially Explanation

40. That under the supervision of the audit committee, there must be a unit in charge of the internal audit function, which ensures that information and internal control systems operate correctly, and which reports to the non-executive chairman of the Board or of the audit committee.

Complies Complies partially Explanation

41. That the person in charge of the group performing the internal audit function should present an annual work plan to the audit committee, reporting directly on any issues that may arise during the implementation of this plan, and present an activity report at the end of each year.

Complies Complies Partially Explanation Not Applicable

42. That in addition to the provisions of applicable law, the audit committee should be responsible for the following:

1. With regard to information systems and internal control:

- a) Supervise the preparation and integrity of financial information relative to the company and, if applicable, the group, monitoring compliance with governing rules and the appropriate application of consolidation and accounting criteria.
- b) Ensure the independence and effectiveness of the group charged with the internal audit function; propose the selection, appointment, re-election and dismissal of the head of internal audit; draft a budget for this department; approve its goals and work plans, making sure that its activity is focused primarily on material risks to the company; receive periodic information on its activities; and verify that senior management takes into account the conclusions and recommendations of its reports.

Complies Complies Partially Explanation Not Applicable

- 45. That the risk management and control policy identify, as a minimum:**

- a) **The various types of financial and non-financial risks (among those operational, technological, legal, social, environmental, political and reputational) which the company faces, including financial or economic risks, contingent liabilities and other off balance sheet risks.**
- b) **Fixing of the level of risk the company considers acceptable.**
- c) **Means identified in order to minimise identified risks in the event they transpire.**
- d) **Internal control and information systems to be used in order to control and manage identified risks, including contingent liabilities and other off balance sheet risks.**

Complies Complies partially Explanation

- 46. That under the direct supervision of the audit committee or, if applicable, of a specialised committee of the Board of Directors, an internal control and management function should exist delegated to an internal unit or department of the company which is expressly charged with the following responsibilities:**

- a) **Ensure the proper functioning of risk management and control systems and, in particular, that they adequately identify, manage and quantify all material risks that may affect the company.**
- b) **Actively participate in the creation of the risk strategy and in important decisions regarding risk management.**
- c) **Ensure that the risk management and control systems adequately mitigate risks as defined by policy issued by the Board of Directors.**

Complies Complies partially Explanation

- 47. That members of the appointment and remuneration committee -- or of the appointments committee and the remuneration committee if they are separate -- are chosen taking into account the knowledge, ability and experience necessary to perform the duties they are called upon to carry out and that the majority of said members are independent directors.**

Complies Complies partially Explanation

- 48. That high market capitalisation companies have formed separate appointments and remuneration committees.**

Complies Explanation Not Applicable

A separate Nominations Committee and Remuneration Committee have not been considered necessary so far since the current Nominations and Remuneration Committee has the ability to analyse both areas in a unified way. Dividing the Committee into two separate ones will be analysed depending on how the company performs.

49. That the appointments committee consult with the chairman of the Board of Directors and the chief executive of the company, especially in relation to matters concerning executive directors.

And that any director may ask the appointments committee to consider potential candidates he or she considers appropriate to fill a vacancy on the Board of Directors.

Complies Complies partially Explanation

50. That the remuneration committee exercises its functions independently and that, in addition to the functions assigned to it by law, it should be responsible for the following:

- a) **Propose basic conditions of employment for senior management.**

- c) **Periodically review the remuneration policy applied to directors and senior managers, including remuneration involving the delivery of shares, and guarantee that individual remuneration be proportional to that received by other directors and senior managers.**

- e) **Verify information regarding remuneration paid to directors and senior managers contained in the various corporate documents, including the Annual Report on Director Remuneration.**

Complies Complies partially Explanation

Complies Complies partially Explanation

52. That the rules regarding composition and workings of supervision and control committees appear in the rules governing the Board of Directors and that they are consistent with those that apply to mandatory committees in accordance with the recommendations above, including:

- a) **That they are comprised exclusively of non-executive directors, with a majority of them independent.**
- b) **That their chairmen be independent directors.**

- d) That the committees be allowed to avail themselves of outside advice when they consider it necessary to perform their duties.
- e) That their meetings be recorded and the minutes be made available to all directors.

Complies Complies Partially Explanation Not Applicable

53. That verification of compliance with corporate governance rules, internal codes of conduct and social corporate responsibility policy be assigned to one or split among more than one committee of the Board of Directors, which may be the audit committee, the appointments committee, the corporate social responsibility committee in the event that one exists, or a special committee created by the Board of Directors pursuant to its powers of self-organisation, which at least the following responsibilities shall be specifically assigned thereto:

- e) Means of supervising non-financial risk, ethics, and business conduct.
- f) Communication channels, participation and dialogue with stakeholders.
- g) Responsible communication practices that impede the manipulation of data and protect integrity and honour.

Complies Complies partially Explanation

55. That the company reports, in a separate document or within the management report, on matters related to corporate social responsibility, following internationally recognised methodologies.

Complies Complies partially Explanation

56. That director remuneration be sufficient in order to attract and retain directors who meet the desired professional profile and to adequately compensate them for the dedication, qualifications and responsibility demanded of their posts, while not being so excessive as to compromise the independent judgment of non-executive directors.

Complies Explanation

57. That only executive directors receive remuneration linked to corporate results or personal performance, as well as remuneration in the form of shares, options or rights to shares or instruments whose value is indexed to share value, or long-term savings plans such as pension plans, retirement accounts or any other retirement plan.

Shares may be given to non-executive directors under the condition that they maintain ownership of the shares until they leave their posts as directors. The forgoing shall not apply to shares that the director may be obliged sell in order to meet the costs related to their acquisition.

Complies Complies partially Explanation

58. That as regards variable remuneration, the policies incorporate limits and administrative safeguards in order to ensure that said remuneration is in line with the work performance of the beneficiaries and are not based solely upon general developments in the markets or in the sector in which the company operates, or other similar circumstances.

And, in particular, that variable remuneration components:

- a) Are linked to pre-determined and measurable performance criteria and that such criteria take into account the risk undertaken to achieve a given result.
- b) Promote sustainability of the company and include non-financial criteria that are geared towards creating long term value, such as compliance with rules and internal operating procedures and risk management and control policies.
- c) Are based upon balancing short-, medium- and long-term objectives, permitting the reward of continuous achievement over a period of time long enough to judge creation of sustainable value such that the benchmarks used for evaluation are not comprised of one-off, seldom occurring or extraordinary events.

Complies Complies Partially Explanation Not Applicable

59. That a material portion of variable remuneration components be deferred for a minimum period of time sufficient to verify that previously established performance criteria have been met.

Complies Complies Partially Explanation Not Applicable

60. That remuneration related to company results takes into account any reservations which may appear in the external auditor's report which would diminish said results.

Complies Complies Partially Explanation Not Applicable

61. That a material portion of variable remuneration for executive directors depends upon the delivery of shares or instruments indexed to share value.

Complies Complies Partially Explanation Not Applicable

62. That once shares or options or rights to shares arising from remuneration schemes have been delivered, directors are prohibited from transferring ownership of a number of shares equivalent to two times their annual fixed remuneration, and the director may not exercise options or rights until a term of at least three years has elapsed since they received said shares.

The forgoing shall not apply to shares which the director may need to sell in order to meet the costs related to their acquisition.

Complies Complies Partially Explanation Not Applicable

The Company does not meet this recommendation since it establishes certain limits, though not exactly those envisaged in the recommendation. Specifically, the CEO is obliged to keep all shares attributed as a result of his long-term variable remuneration (LTIP 2017-2019, LTIP 2018-2020) for a period of at least two years from receipt thereof. The Company considers that two years is a sufficient deferral period as to keep the loyalty of key personnel, and also prevent merely speculative conduct through the immediate sale of the shares received. The latest LTIP that was approved (LTIP 2019-2021) changed the criterion and, instead of establishing a period for not transferring the ownership of the shares received, the obligation was established for the CEO to have at all times a certain percentage of shares, specifically an amount equivalent to one year of his base salary.

63. That contractual arrangements include a clause which permits the company to seek reimbursement of variable remuneration components in the event that payment does not coincide with performance criteria or when delivery was made based upon data later deemed to be inaccurate.

Complies Complies Partially Explanation Not Applicable

64. That payments made for contract termination shall not exceed an amount equivalent to two years of total annual remuneration and that it shall not be paid until the company has verified that the director has fulfilled all previously established criteria for payment.

Complies Complies Partially Explanation Not Applicable

The Company does not exactly meet the recommendation since, although the payments to which the CEO is entitled as compensation consist of the equivalent to two years of

his annual remuneration, the CEO is subject to a post-contractual non-compete covenant for a period of one year. This type of agreement must have a financial consideration, which consists of compensatory financial consideration for this restriction of one year's fixed remuneration. In the event that the CEO were not to fulfil his duty not to compete, he must return the amount received and pay an additional amount equivalent to another year of his fixed remuneration.

Carbon Disclosure Project (CDP)

Once again Cellnex took part in the Carbon Disclosure Project (CDP), one of the most highly recognised organisations for its work on climate change, which seeks to assess the quality of – and systems for reporting – the information provided by private companies or by the public sector in the sustainability and environment area. In this sense, Cellnex was rated a letter B, maintaining the same score as in previous years.

Furthermore, this year Cellnex joined the CDP Supply Chain programme, which aims to better understand how suppliers are addressing climate change and working to reduce their greenhouse gas emissions. The response rate of the suppliers who were invited to answer the questionnaire in this first CDP Supply Chain campaign was 35%.

United Nations Global Compact

In November 2015 Cellnex Telecom joined the United Nations Global Compact as an expression of its commitment to including the corporate social responsibility concept into its operational strategy and organisational culture. United Nations Global Compact is an international voluntary initiative that includes more than 8,000 companies and institutions across 135 countries. Under this agreement, Cellnex Telecom undertakes to promote and spread corporate sustainability policies and practices based on the 10 key principles promoted by the United Nations, focusing on the areas of human rights, labour standards, environment and combating corruption in business activities. Cellnex's commitment to the United Nations Global Compact is part of its Corporate Responsibility (CR) programme.

FTSE4Good

Cellnex was added to the FTSE4Good sustainability index, which recognises the good practices of listed companies in the environmental, social and corporate governance fields. This year, the

company obtained a score of 4.5 out of 5 in corporate governance practices and 3.8 out of 5 in social factors, two of the three main areas of analysis that led the company to be included in that international index. In environmental practices it scored 3.3.

Standard Ethics

Cellnex has taken part in the Standard Ethics sustainability index since 2017, obtaining this year an “EE-“, the same rate as last year, which is equivalent to an adequate level for good compliance in governance, sustainability and social responsibility.

Sustainalytics

For the second year running, Cellnex was evaluated by Sustainalytics, an environmental, social and corporate governance (ESG) research and rating company for investors worldwide. This year its average score was 67 points, up from 64 in 2017 and taking the company to 29th position (out of 105) from 38th the previous year. Cellnex scores average for the sector on social and environmental matters but holds a leading position when it comes to governance.

Cellnex's better rating on this index contributed to the company being able to renew a € 500 million 'green' loan that matures in 2023.

Dow Jones Sustainability Index¹

In 2017, Cellnex participated in the DJSI index for the first time and achieved good results, ranking above the industry average in the three dimensions evaluated: economic, environmental and social.

This year Cellnex was again invited to participate in the Dow Jones Sustainability Index, as one of the few telecommunications operators worldwide. In 2018, the average score of the telecommunications industry leader dropped by 3%, whereas Cellnex improved its total score by 10%, taking it to 57 points. More specifically, in the economic dimension its score was improved by improvements made in Risk Management, Innovation and Network Reliability. With slightly lower social and environmental scores than in 2017, Cellnex will strive to continue working on all areas.

Social contribution

Cellnex works with non-governmental organisations through corporate volunteering actions, donations and joint development of projects. In 2018, Cellnex finalised and approved a Sponsorship Policy that sets out the company's priorities and guidelines on donations and sponsorships.

Contribution to initiatives

For years Cellnex has shown its commitment to society by joining and organising numerous Corporate Responsibility initiatives. Below are the most important initiatives of 2018.

Seres Foundation

The company worked with the Seres Foundation, whose aim is to "Build a healthier, stronger society with competitive businesses that can stand the test of time". The foundation aims to foster and promote strategic business actions that contribute to an overall improvement of social reality. Cellnex has signed an agreement pledging to work with the Seres Foundation, disseminate their joint work, share knowledge on good practices in social matters, and attend meetings with partners and other social entities.

Fair Logistics Foundation

In 2018 Cellnex collaborated with Fair Logistics Foundation, an organisation that works towards equal opportunities for groups at risk of exclusion from society and the labour market. Through this collaboration, Cellnex takes on the foundation's commitment to responsible consumption and the development of social logistics by importing fair trade and social economy products.

AMPANS

Cellnex contributes to the AMPANS foundation by buying the company's Christmas gift hampers from them. The AMPANS Foundation promotes education, quality of life and employment for people with an intellectual disability, mental illness and other groups at risk of exclusion, by creating and managing centres, services, programmes, support and business activities that pursue excellence.

WWF Earth Hour 2018

For the third year running, Cellnex joined the WWF 2018 Earth Hour campaign and turned the lights off in its Madrid and Barcelona headquarters (and this year also the Esplandiú and Barcelona offices) from 8.30pm to 9.30pm on 24 March. In doing so Cellnex hopes to show its concern about the effects that climate change is having on the planet's people, nature and economy, in addition to its public commitment to reduce CO2 emissions.

Installation of forest water connections

Since 2008, Cellnex has been investing in forest water connections at its centres for firefighters to use in the event of an emergency. To date Cellnex has installed water connections in 23 of its centres in Spain, with a total investment of € 153,425 (€ 6,973.86 per connection).

Citizen Sustainability Board

In 2018, Cellnex participated in a workshop to design the work plan of the 'Barcelona Network + Sustainable' which aims to pinpoint the joint short- and medium-term measures required to overcome the challenges that this initiative focuses on.

Barcelona Climate Plan

Participation in co-producing the Barcelona Climate Plan with Barcelona City Council, which sets down all ongoing and planned actions related to climate change in the city. Cellnex draws up proposals within the company and takes part in the debate on the proposals submitted by all participants.

TV3 Telethon

Cellnex has been taking part in the TV3 Telethon for more than 10 years. The Telethon Foundation aims to foster and promote biomedical research into and social awareness of diseases for which no cure has been found. In 2018, Cellnex donated € 9,000. The money raised is used to research new methods of prevention, diagnosis and treatment for people with cancer.

Collaboration with the BEST Foundation

Cellnex made a commitment to the Barcelona Engineering and Economic Studies project this year as a sponsor company of the BEST Foundation. This new inter-university degree offered by the Polytechnic University of Catalonia (UPC), Pompeu Fabra University (UPF), Barcelona Global, and FemCat aims to train highly skilled engineers to address the challenges of a continuously changing society and equip professionals who are interested in business leadership. Cellnex will sponsor two students in a four-year commitment with an annual contribution of € 10,000 each.

IESE

Cellnex has been an IESE sponsor company since 2017 and is involved in various projects run by the Public Sector-Private Sector Centre of the Business School. In 2018, Cellnex contributed to the scholarship fund and young teacher training.

In addition, Cellnex worked with IESE on the I-WiL Index (Women in Leadership) research study, which examines female leadership and equal opportunities in 34 OECD countries, comparing the current situation (2018) to 2006. By supporting projects such as this, Cellnex hopes to highlight the importance of diversity and gender equality at work and to raise awareness among society at large.

Third Social Sector Board

As part of the m4Social Project, Cellnex Telecom signed a collaboration agreement in December 2017 with the Third Social Sector Board to carry out a social housing project involving the use of sensorisation and connectivity technologies linked to the Internet of Things (IoT). In 2018, following various definition and planning meetings and a design thinking day, Cellnex sensorised the six social houses under the project. Over the course of the year we collected and monitored data, primarily regarding consumption, energy efficiency, temperature and other indicators used to upkeep these 'connected' households. This data is stored on an IoT platform that Cellnex provides which allows the housing authorities to anticipate abnormal situations or risks, optimise resource use, and make decisions on possible actions according to the parameters obtained. It also enables them to learn a new management methodology, which in addition optimises and renders their operations more efficient.

It is worth noting that in 2018, the m4Social Project was selected and included in the Special Dossier on the SDGs of the Global Compact Network Spain as a good practice.

Highlights: Cellnex plans to adhere to the Code of Good Tax Practices but this had not yet been done at 2018 year-end.

NOTE OF CLARIFICATION ap. C1.16

Article 18. Appointment of directors

1. Directors will be appointed by the General Meeting or by the Board of Directors, in accordance with the provisions of Royal Decree 1/2010, of 2 July, by way of which the revised text of the Law on Capital Companies is approved, or the legal text which may supersede the same.
2. The proposals for the appointment of directors submitted to the Board of Directors for deliberation at the General Meeting and the appointment decisions that the Board adopts by virtue of the powers of co-optation legally vested in it must be preceded by the corresponding proposal by the Appointments and Remuneration Committee when in relation to independent directors, and by a report in the case of all other directors.

Article 19. Appointment of external directors

The Board of Directors and the Appointments and Remuneration Committee, within the scope of their remits, will ensure that the election of candidates relates to persons of known solvency, competence and experience, being particularly rigorous in relation to those called on to fulfil the positions of independent director provided for in Article 5 of these Regulations and in the terms of the applicable good governance standards.

Article 20. Term of office

1. Directors will hold their positions for the term provided for in the corporate bylaws, and can be re-elected one or more times for said term.
2. Directors appointed by co-option hold their positions until the date of the first General Meeting. Should the vacancy arise once the General Meeting has been convened, and prior to the holding thereof, the Board of Directors may appoint a director until the following General Meeting is held. Moreover, directors appointed by the Board through co-optation need not necessarily be shareholders of the Company.

When, further to the Appointments and Remuneration Committee report, the Board of Directors learns that the interests of the Company are in jeopardy, the director ending his/her mandate or ceasing to hold his/her position for any other reason cannot provide his/her services to another entity with a similar corporate purpose to the Company and that is a competitor thereof according to the assessment of the Board of Directors, for the period established by it, which will in no case be greater than two (2) years.

Article 21. Resignation of directors

1. Directors will resign their positions when they have completed the period for which they were appointed and when decided on by the General Meeting under the powers legally or statutorily vested therein.
2. Directors will have to make their positions available to the Board of Directors and, if considered appropriate, formalise the corresponding resignation in the following cases:
 - a) When they cease to hold the executive posts linked to their appointment as a director. As regards independent directors, when they complete twelve (12) years in the position.
 - b) When they find themselves in a situation of conflict of interests or a prohibited situation as provided for by law.
 - c) When they have been prosecuted for an allegedly criminal act or are subject to a disciplinary measure due to (gross) misconduct brought by the supervisory authorities.
 - d) When their continued membership of the Board could put the Company's interests in jeopardy and when the reasons for their appointment no longer exist. This last circumstance will be understood as occurring with regard to a director representing substantial shareholders when the full shareholding of which s/he is the owner or whose interests s/he represents have been disposed of and also when the reduction of their shareholding requires the consequent reduction of the directors representing substantial shareholders.
3. Executive directors must make their positions available to the Board once they have reached seventy years of age and the latter must decide whether they will continue exercising their executive or managerial functions or remain simply as a director.
4. In the event that, due to resignation or for any other reason, a director were to cease in his or her office prior to the end of his or her mandate, the reasons therefor shall be explained in a letter sent to all the members of the Board. Without prejudice to the timely communication of the cessation as a relevant event, the Board will give account of the cessation in the Annual Corporate Governance Report.
5. The Board of Directors may only propose the cessation of an independent director before the end of the statutory period when there is just cause, as appreciated by the Board following a report by the Appointments and Remuneration Committee. In particular, just cause will be deemed to exist when the director goes on to hold new offices or undertakes new duties that prevent him or her from devoting the necessary time to the tasks inherent in the role of director, fails to perform the duties inherent to his or her office or is involved in any of the circumstances that might cause him or her to lose his or her status of independent director, in accordance with the provisions of the applicable legislation. Such removal may also be proposed as a result of public offerings of acquisition, mergers or other similar corporate transactions that entail a change in the structure of the share capital of the Company, when such changes in the structure of the Board are brought about by the criterion of proportionality.

Furthermore, in addition, it was approved in 2016 a Director Selection Policy stating that, in accordance with the provisions of the Limited Liability Company Law, the Nomination and Remuneration Committee is responsible for proposing the nomination or re-election of members of the Board of Directors in the case of independent directors, with the Board itself being responsible for proposing nomination or re-election in all other cases. This proposal for nomination or re-election must be accompanied by an explanatory report from the Board that assesses the competence, experience and merits of the proposed candidate. Additionally, the proposal for nomination or reelection of any non-independent director must also be preceded by a report from the Nomination and Remuneration Committee.

Selection of the candidates for director shall be based on a preliminary analysis of the necessities of the company, which must be carried out by the Board of Directors with advice and a report from the Nomination and Remuneration Committee. The objective is to incorporate different professional and management experiences and competences, as well as to promote the diversity of knowledge, experiences and gender, considering the weight of the various activities carried out by Cellnex and taking into account any areas or sectors that should be specifically promoted. Any board member may request that the Nomination and Remuneration Committee takes into consideration a potential candidates to cover directorship vacancies, in the event that the Committee finds them suitable in its opinion. Additionally, the Selection Policy regulates the process and conditions that candidates must meet.

AUDITOR'S REPORT ON THE INFORMATION RELATING TO THE SYSTEM OF INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) OF THE CELLNEX GROUP FOR 2018

To the Directors of Cellnex Telecom, S.A.:

As requested by the Board of Directors of Cellnex Telecom, S.A. and Subsidiaries ("the Cellnex Group") and in accordance with our proposal-letter of November 5, 2018, we have applied certain procedures to the information relating to the ICFR system included in section F of the Annual Corporate Governance Report ("ACGR") of the Cellnex Group for 2018, which summarises the internal control procedures of the Entity in relation to its annual financial reporting.

The Directors are responsible for adopting the appropriate measures in order to reasonably guarantee the implementation, maintenance and supervision of an adequate internal control system and for making improvements to that system and for preparing and establishing the content of the information relating to the ICFR system.

It should be noted in this regard, irrespective of the quality of the design and operating effectiveness of the internal control system adopted by the Cellnex Group in relation to its annual financial reporting, that the system can only permit reasonable, but not absolute, assurance in connection with the objectives pursued, due to the limitations inherent to any internal control system.

In the course of our audit work on the financial statements and pursuant to Technical Auditing Standards, the sole purpose of our assessment of the internal control of the Cellnex Group was to enable us to establish the scope, nature and timing of the audit procedures to be applied to the Cellnex Group's financial statements. Therefore, our assessment of internal control performed for the purposes of the aforementioned audit of financial statements was not sufficiently extensive to enable us to express a specific opinion on the effectiveness of the internal control over the regulated annual financial reporting.

For the purpose of issuing this report, we applied exclusively the specific procedures described below and indicated in the Guidelines on the Auditors' Report on the Information relating to the System of Internal Control over Financial Reporting of Listed Companies, published by the Spanish National Securities Market Commission (CNMV) on its website, which establishes the work to be performed, the minimum scope thereof and the content of this report. Since the work resulting from such procedures has, in any case, a reduced scope that is significantly less extensive than that of an audit or a review of the internal control system, we do not express an opinion on the effectiveness thereof, or on its design or operating effectiveness, in relation to the Cellnex Group's annual financial reporting for 2018 described in the information relating to the ICFR system. Therefore, had we applied procedures additional to those described below or performed an audit or a review of the internal control over the regulated annual financial reporting, other matters or aspects might have been disclosed which would have been reported to you.

Also, since this special engagement does not constitute an audit of financial statements and is not subject to the Consolidated Spanish Audit Law, we do not express an audit opinion in the terms provided for in that Law.

The procedures applied were as follows:

1. Perusal and understanding of the information prepared by the Cellnex Group in relation to the ICFR system - disclosure information included in the directors' report- and assessment of whether this information addresses all the information required in accordance with the minimum content described in section F, relating to the description of the ICFR system, of the model ACGR established in CNMV Circular no. 5/2013, of 12 June 2013, modified by the CNMV Circular no. 7/2015, of 22 December 2015 and CNMV Circular no. 2/2018, of 12 June 2018.
2. Questioning of personnel responsible for the drawing up of the information detailed in point 1 above: (i) to obtain an understanding of the process that goes into drawing up the information; (ii) to obtain information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) to obtain information on whether the control procedures described are in place and functioning at the Cellnex Group.
3. Review of the explanatory supporting documentation for the information detailed in point 1 above, including the documentation furnished directly to the personnel in charge of preparing the ICFR system descriptive information. In this regard, the aforementioned documents include reports prepared for the Audit and Control Committee by internal audit, senior management and other internal or external specialists.
4. Comparison of the information detailed in point 1 above with the knowledge on the Cellnex Group's ICFR system obtained through the procedures applied during the financial statement audit work.
5. Reading of the minutes taken at meetings of the Board of Directors, Audit and Control Committee and other committees of the Cellnex Group to evaluate the consistency between the ICFR business transacted and the information detailed in point 1 above.
6. Obtainment of the representation letter in connection with the work performed, signed by those responsible for preparing and formulating the information detailed in point 1 above.

The procedures applied to the information relating to the ICFR system did not disclose any inconsistencies or incidents that might affect the information.

This report has been prepared exclusively in the context of the requirements established by article 540 of the consolidated text of the corporate enterprises act Corporate Enterprises Act, and by the aforementioned CNMV Circulars, for the purposes of the description of the ICFR system in Annual Corporate Governance Reports.
