First results of the integrated company

Last 27th of July Vueling published second quarter results for 2010. These results have been the first ones to account for twelve cumulated months after its merger with Clickair.

Vueling EBIT boosted to €75.8M in the first twelve months after its merger, increasing more than 4 times the EBIT obtained in the twelve months period before the merger (€16.7M). Vueling also reiterated its guidance for an improved net profit in 2010 as a result of its cost reduction program and the capture of merger synergies.

July 2010 was also the first month in which connecting flights were operated. The results are in line with company targets.
