SUMMARY DESCRIPTION OF THE MAIN TERMS AND CONDITIONS OF THE HEDGING AGREEMENTS AND HEDGING TRANSACTIONS

Not Applicable

WEIGHTED AVERAGE LIFE OF THE NOTES, INTERNAL RATE OF RETURN AND ASSUMPTIONS

General

The yields to maturity on the Class C2017-02 Notes will be sensitive to and affected by the amount and timing of delinquencies, prepayment and payment pattern, revolving and credit card usage, dilution and default on the Purchased Receivables, the level of the relevant interest reference rate, the occurrence of any Revolving Termination Events or Accelerated Amortisation Events or any Fund Liquidation Events, the issuance of a new Note Series, the occurrence of an Optional Early Redemption Event or any Optional Repurchase Event and any other repurchases of the Purchased Receivables by the Seller. Each of such events may impact the weighted average lives, the internal rates of return, and the Duration of the Class C2017-02 Notes.

Weighted Average Lives and Internal Rates of Return of the Class C2017-02 Notes.

The “Weighted Average Life” (WAL) of the Class C2017-02 Notes, refers to the average amount of time that will elapse from the date of issuance of the Class C2017-02 Notes to the date of distribution to the investor of each Euro distributed in reduction of the principal of such security.

y

The Weighted Average Life of the Class C2017-02 Notes shall be affected by the available funds allocated to redeem the Class C2017-02 Notes.

The "Internal Rate of Return" (IRR) of the Class C2017-02 Notes refers to the rate of return that makes the net present value of all cash flows (both positive and negative) from the investment in the Class C2017-02 Notes equal to zero. The Internal Rate of Return of the Class C2017-02 Notes shall be affected by the available funds allocated to pay interests due on the Class C2017-02 Notes.

The information included in the tables below assume, among other things:

- (a) the Disbursement Date of the Note Series 2017-02 is 24 October 2017;
- (b) the Scheduled Amortisation Starting Date is 26 July 2019;
- (c) the cut-off date is 11th October 2017 corresponding to the Selection date of last Initial Transfers incorporated to the portfolio ;
- (d) that on the Disbursement Date of the Note Series 2017-02, the Outstanding Principal Balances of the Purchased Receivables is equal to the Minimum Portfolio Amount which amounts to EUR 749,102,000 as of such date. New Receivables are purchased (if required) in order to maintain such Minimum Portfolio Amount;
- (e) that the composition and the amortisation profile of the portfolio of the Purchased Receivables (and the new Receivables purchased during the Note Series Non-Amortisation Period of the outstanding Note Series) is similar to the composition and amortisation profile of the performing portfolio;
- (f) no new issuance of further Note Series occurs (however for calculation purposes, previously issued and outstanding Notes Series are considered);
- (g) the Seller does not repurchase any Receivables purchased by the Fund;
- (h) the rate of defaults on the Receivables is assumed constant at 4.80% per annum, which is consistent with the one observed by the Seller;
- (i) interest payments on the Receivables will be received, if any at the applicable interest rate offered by WIZINK which as of the cut-off date stand at 23.74%. No adjustment of the applicable interest rate under the Credit Card Agreements is offered by WIZINK
- (j) the Fund excess margin is sufficient to cover the assumed rate of defaults on the Receivables;
- (k) In respect of Class A and C Notes, the assumed monthly constant principal payment ratio is:
(i) 8% in respect of scenario 1; (ii) 12% in respect of scenario 2; and (iii) 15 % in respect of scenario 3, according to the following tables. These scenarios have been defined based on

P

the observed performance of the Purchased Receivables as 30/09/2017 which is the Fund relevant Cut-Off Date prior to the issuance of such Notes “;

- (l) the calculation of the weighted average life (in years) is calculated on an Actual/Actual basis;
- (m) the Note Series 2017-02 Clean-Up Call Conditions will not be considered applicable;
- (n) none of the Fund Liquidation Events are considered applicable;
- (o) payment of principal and interest due and payable under the Notes will be received on the 26th day of each month. The corresponding Payment Date;
- (p) zero per cent investment return is earned on the Issuer Accounts;
- (q) no Revolving Termination Event has occurred;
- (r) no Accelerated Amortisation Event has occurred; and
- (s) it is not necessary to use the Commingling Reserve or the General Reserve.

The actual characteristics and performance of the Purchased Receivables will differ from the assumptions used in constructing the tables set forth below, which are hypothetical in nature and provided only to give a general sense of how the principal cash flows might behave under varying monthly rate of principal payment scenarios. For example, it is unlikely that the receivables will pay at a constant monthly rate of principal payment until maturity. Any difference between such assumptions and the actual characteristics and performance of the Purchased Receivables, or actual monthly rate of principal payment of loss experiences, will affect the percentage of principal amount outstanding as well as interest payment over time and the Weighted Average Life and Internal Rate of Return of the Class C2017-02 Notes.

Subject to the foregoing discussion and assumptions, the following tables indicate the Weighted Average Life, Duration and the Internal Rate of Return of the Class C2017-02 Notes under the monthly constant principal payment ratio shown and depending on the exercise of the optional redemption of the Note Series 2017-02 on the Note Series 2017-02 Call Date.
