Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information applicable to each issue of Notes will be set out in a final terms document (the **Final Terms**) which will be filed with the CNMV. For the purpose of article 14 of the Prospectus Directive, the Base Prospectus and any Final Terms issued under the Programme will be published on the websites of the CNMV (www.cnmv.es) and of the Issuer (www.cores.es).

Under the Programme, CORES may from time to time issue Notes denominated in any currency or currencies, subject to compliance with all applicable legal and/or regulatory requirements. No Notes may be issued under the Programme with a denomination of less than €100,000 (or the equivalent amount in another currency). The aggregate principal amount of Notes outstanding under the Programme will not at any time exceed €1,500,000,000 (or the equivalent amount in other currencies) in accordance with the threshold authorised by CORES' Board of Directors' resolutions passed on 21 May 2015 and 23 July 2015 pursuant to article 406 of Royal Decree Legislative 1/2010, of 2 July 2010, approving the consolidated text of the Spanish Companies Act (*Ley de Sociedades de Capital*) (the **Spanish Companies Act**), as amended amongst other, by Act 5/2015, of 27 April 2015, on the enhancement of corporate finance (*Ley de Fomento de la Financiación Empresarial*) ("**Act 5/2015**").

In accordance with the fifth additional provision of Act 5/2015, the aggregate outstanding amount of CORES' debt issues, including those that may be issued under the Programme, may not exceed the value of CORES' assets.

Unipersonal* (**Iberclear**) as managing entity of the central registry of the Spanish clearance and settlement system (the **Spanish Central Registry**). The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available or which the Issuer may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Potential Noteholders (as defined herein) are alerted to the statements under "Taxation" regarding the tax treatment in the Kingdom of Spain of income in respect of Notes. RISK FACTORS RELATING TO THE ISSUER

Risks related to CORES status as a non-profit Public-law Corporation

Risks relating to failure by CORES members to pay its fees

CORES is a non-profit Public-law Corporation under the supervision of the Ministry of Industry, Energy and Tourism. It is a separate legal entity, operating under private law. Its regulatory framework is contained in Act 34/1998, of 7 October, on the Hydrocarbon Sector (**Act 34/1998**) and Royal Decree 1716/2004, of 23 July, which regulates the obligation to maintain minimum security stocks, the diversification of the natural gas supply and CORES (**Royal Decree 1716/2004**). Accordingly, the Corporation does not have share capital and, consequently, no shareholders given that in accordance with Royal Decree 1716/2004, the equity and financing necessary to carry out its legal purpose are obtained from its legally designated members and other legally obliged parties, and, where appropriate, from the financial markets.

CORES' main sources of income derive from the fees it receives from its members and other entities legally obliged to pay fees and, to a lesser extent, due to its extraordinary nature, from the sale of its stocks of petroleum products.

The Ministry of Industry, Energy and Tourism fixes every year, on the basis of an annual budget prepared by the Corporation, the fees to be paid by the members of CORES and those other entities legally obliged, to finance the maintenance of the strategic stocks and other overhead expenses of the Corporation. Additionally, once the annual contributions have been approved, CORES may request the General Directorate of Energy Policy and Mines (*Dirección General de Política Energética y Minas*) their modification upwards or downwards subject to a limit of 5%, submitting the documentation supporting such request.

Exceptionally, when the correct fulfilment of the purposes of CORES recommends it and in order to guarantee at all times its financial creditworthiness, extraordinary fees can be levied. To date, the approved fees have never been increased due to the conservative approach followed by CORES in the preparation of its annual budget.

Since CORES' incorporation on 6 July 1995, defaults in the payment of the fees by its members and other entities obliged have been scarce. Even though it cannot be assured that this trend may continue in the future, the sanctions defaulting parties could face should they breach their obligations to CORES under the relevant regulation should act as a critical deterrent to this potential breach.

Failure by its members to settle CORES' fees constitutes a serious or very serious infringement of the regulations on minimum security stocks which might entail the revocation or suspension of the

administrative authorisation granted to such member to operate in the Spanish market. Accordingly, it is unlikely that members fail to pay the fees to CORES unless they are suspending their operations in Spain. Even in that case, if a member suspends its activity, or its license to operate is withdrawn by the authorities, the rest of members of CORES would absorb the defaulting operator's market share and the payment of the corresponding fees going forward. Notwithstanding the above, some minor operators, in terms of turnover for CORES (approximately Euro 7,000 that account for less than 0.01% of the fees collected up to May 2015) are in default with respect to the fees to be paid to the Corporation. Therefore, the relevant administrative and civil proceedings have been brought by CORES against them in order to collect such amounts due and unpaid.

Therefore, CORES' ability to fulfil its obligations in relation to the Notes issued under the Programme depends, among other factors, on the timely payment by its members of its fees to CORES and, accordingly, failure by its members to pay such fees when due could have a material and adverse effect on the financial position of CORES and on its ability to meet its financial commitments.

Risk related to the eventual lack or scarcity of storage capacity for strategic stocks

CORES is compulsorily obliged to build up, maintain and manage a specific volume of strategic stocks. As at 31 December 2014, CORES had stocks equivalent to 8,110,699 m³ of crude oil and petroleum products (representing a slight decline from its stocks as at 31 December 2013 that amounted to 8,127,109 m³). From the total stocks as at 31 December 2014, 398,159 m³ are kept at the own facilities of CORES, while the remaining stocks are maintained at storage facilities rented from market participants. In the future, CORES could face some difficulties to comply with the requirement to establish, maintain and manage the strategic stocks, if no storage capacity is available at the market, or if an agreement is not reached to rent storage capacity subject to terms and conditions that are satisfactory for CORES. This risk, that has never materialised, is notably reduced as a result of several factors, among them (i) the downwards trend shown by the sales made in the oil market in recent years (which entails a significant increase in the storage capacity, which could be offered to CORES, as long as it is not used by the market participants); (ii) the possibility that, according to Article 14.4 of Royal Decree 1716/2004, CORES may reduce its maintenance needs, in terms of strategic reserves, if no sufficient storage capacity is available; (iii) the possibility that CORES may maintain strategic reserves, either of its own or rented, in countries of the European Union, in case that a bilateral treaty had been signed in that respect (Article 11 of Royal Decree 1716/2004); and (iv) the obligation of CORES' members and other entities obliged to keep security stocks, to provide storage facilities to CORES if needed, as established by article 51 of Act 34/1998.

Regulatory risks

As detailed in section 3 (*Description of the Issuer*) of this Base Prospectus, CORES, as a non-profit Public-law Corporation (*Corporación de derecho público*) is subject to a number of Spanish regulations implemented through various legal instruments (e.g. Acts, Royal Decrees, etc.).

Therefore, notwithstanding the stability of CORES regulatory framework, any regulatory or political developments which result in changes to the legislation, government regulation or policy which CORES is subject to may have a material impact on the Issuer. For example, any change on regulation governing CORES' members obligations to financially support CORES' activity making monthly payments, based on their sales or consumption, could have an adverse effect on the Issuer's financial position.

Entity under State oversight

CORES was incorporated in order to form, maintain and manage strategic reserves and monitor the fulfilment of the obligation to maintain minimum security stocks of oil products and natural gas and to diversify the natural gas supply.

Article 52 of Act 34/1998 defines CORES as a non-profit Public-law Corporation acting with full legal personality under private law and governed by the provisions of such Act and its developing regulations. Consequently, the Corporation is subject to the oversight of the State General Administration (*Administración General del Estado*), exercised through the Ministry of Industry, Energy and Tourism. Accordingly, the Ministry of Industry, Energy and Tourism may, through the

Ministry appointed Chairman of CORES, veto any decision or action taken by the governing bodies of CORES that in the opinion of the Ministry is not consistent with the law or public interest, that, in consequence, may have an adverse effect on the Issuer's activity and financial position.

Financial risks

Interest rate risk

CORES relies on both bank and debt capital markets financing to fund its operations, execute its capital expenditure plans, purchase its stocks and refinance its financial liabilities when due. Accordingly, the Issuer is exposed to the risk of fluctuations in interest rates that may affect cash flows and the market value in respect of items in the statement of financial position and derivatives. CORES analyses its interest rate exposure in a dynamic manner through the simulation of different scenarios that take into account refinancing, renewal of current positions, alternative financing and hedging.

As of 2014 the interest rate on loans and credit facilities range between Euribor + 0.10% and Euribor + 4.00%. The following table shows the loans and credit facilities at the end of 2014 and 2013:

	Thousand euros		% change
	2014	2013	
Long-term bank loans	698,148	790,182	-11.65%
Short-term bank loans	63,460	179,722	-64.69%

Additionally, the following table shows the list of financial instruments being measured at the date of this Base Prospectus:

Underlying ISIN	Underlying asset	Maturity date	Nominal amount (€)	Hedge instrument
ES0224261034	CORES 2.50% Bond (16/10/14)	16/10/2024	250,000,000	Fixed/Floating IRS
ES0224261018	CORES 4.50% Bond (23/04/08)	23/04/2018	500,000,000	Fixed/Floating IRS
ES0224261026	CORES 3.25% Bond (19/04/13)	19/04/2016	350,000,000	Fixed/Floating IRS

The Corporation has entered into interest rate swaps in respect of the bond issues completed in 2008 for a notional amount of €500,000 thousand, in 2013 for €350,000 thousand and in 2014 for €250,000 thousand.

In the context of the bond issue that took place in 2008, the Corporation entered into three interest rate swaps pursuant to which the Corporation pays a variable interest rate of 3-month Euribor plus 0.244%. Additionally, in the context of the bond issue that took place in 2013, the Corporation entered into three interest rate swaps pursuant to which the Corporation pays a variable interest rate of 3-month Euribor plus 2.877%. Finally, the Corporation obtained two interest rate swaps in the context of the 2014 bond issue pursuant to which the Corporation pays a variable interest rate of 3-month Euribor plus 1.540% and 1.550%.

Any increase in prevailing interest rates would therefore result in a corresponding increase of CORES' financial expenses. For this reason, and following a conservative approach, the Issuer has included in its annual budget (See *Budget and fees* on Section 3 of this Base Prospectus) a margin for escalation in the interest rate that covers such eventual increase in expenses, to adjust the income through the fees collected, without prejudice to other mechanisms that could eventually be available to repay or refinance the debt.

It should be noted that Article 25 of Royal Decree 1716/2004 provides that on an exceptional basis, when proper compliance with the Corporation's purpose so requires and in order to guarantee its

financial solvency at all times, extraordinary fees may be levied on CORES’ members. However, thanks to CORES’ conservative approach in the preparation of its annual budget the implementation of such measures has never been necessary.

Counterparty risk

Counterparty or credit risk derives from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as members and other entities legally obliged to pay fees, including outstanding receivables and transaction commitments. The Issuer only operates with top tier banks and financial institutions that are of recognized solvency. As for CORES members, this risk is mitigated by the fact that the fees are invoiced and collected on a monthly basis. As discussed under (*Risks relating to failure by CORES members to pay its fees*), the level of defaults on payment is not relevant and therefore there are no outstanding significant receivables at the end of the year.

Liquidity risk

Exposure to adverse situations in the debt or capital markets or to the Corporation’s economic and financial situation can prevent CORES from obtaining the financing required to properly carry on its activities.

Prudent liquidity risk management implies maintaining sufficient cash and cash-equivalents, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

From time to time, CORES may need to raise further debt to, among other things, finance the acquisition of strategic stocks and enable it to refinance its existing indebtedness. Even though, CORES may exceptionally request the Ministry of Industry, Energy and Tourism to approve extraordinary fees to be paid by CORES’ members or sell its existing stock surplus there can be no complete assurance that CORES will be able to raise future debt on terms that are satisfactory to it, or at all, and this may have an adverse effect on the Issuer’s activity and results of operations.

Credit rating risk

As the Issuer is a non-profit Public-law Corporation, its credit rating is linked to, and closely follows, that of the Kingdom of Spain. The Issuer is, therefore, exposed to the risk of downgrading in Spain’s sovereign credit rating. Accordingly, in line with the practice adopted by rating agencies, a hypothetical downgrade of Spain’s credit rating may have a knock-on effect on the credit rating of the Issuer and, consequently, adversely affect the Issuer’s access to alternative sources of funding and/or may increase the cost of funding.

As of the date of this Base Prospectus the Kingdom of Spain and the Issuer’s rating according to the Rating Agencies shown below is as follows:

Rating Agency	Kingdom of Spain	CORES	
	Long Term	Rating	Outlook
Fitch	BBB+	BBB+	Stable
Standard & Poor’s	BBB	BBB	Stable

A downgrade in the credit ratings of Spain or of CORES may increase the cost of the Issuer’s debt and, accordingly, adversely affect CORES financial condition and results of operations.

RISK FACTORS RELATING TO THE NOTES

Market risks

The credit risk associated with the Notes may be affected by a deterioration in the financial position of the Issuer

Should CORES' financial position deteriorate, the credit risk associated with the Notes would rise as the risk that the Issuer could not fulfill its obligations under the Notes would increase. The Issuer's financial position is affected by different risk factors, some of which have been outlined above. An increased credit risk could result in the market pricing the Notes with a higher risk premium, which could adversely affect the value of the Notes. Another aspect of the credit risk is that deterioration in the financial position of the Issuer could result in a lower credit worthiness, which could affect the Issuer's ability to refinance the Notes and other existing debt, which could in turn adversely affect the Issuer's financial position and results of operations.

An active secondary market in respect of the Notes may never develop

Pursuant to the Terms and Conditions, and unless otherwise stated in the applicable Final Terms, the Issuer shall apply for registration of the Notes with Iberclear as the managing entity of the Spanish Central Registry and for admission to listing and trading on AIAF and/or other European securities markets. However, there can be no assurance that the Notes will be approved for admission to trading. A failure to obtain such listing may have a negative impact on the market value of the Notes. Even if admission to listing on AIAF, and/or other European regulated markets, is obtained, there can be no assurance that an active secondary market on the Notes will develop following such admission.

Secondary market liquidity and price fluctuation

The liquidity and trading price of the Notes may vary substantially as a result of numerous factors, including general market movements, irrespective of the Issuer's operating and financial performance. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

No investor should purchase Notes unless such investor understands and is able to bear the risk that certain Notes may not be readily tradable, that the value of Notes will fluctuate over time and that such fluctuations may be significant.

Additionally, the prices at which Zero Coupon Notes, as well as other instruments issued at a substantial discount or premium from their principal amount payable at maturity, trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do such prices for conventional interest-bearing securities of comparable maturities.

If the Notes are not denominated in the investor's home currency, it will be exposed to movements in exchange rates that could adversely affect the value of his holding

The Issuer will pay principal and interest on the Notes in the specified currency of the issue. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the specified currency of the issue of the related Notes. These include the risk that exchange rates may significantly change (including changes due to devaluation of the specified currency of the issue or revaluation of the Investor's Currency). An appreciation in the value of the Investor's Currency relative to the specified currency of the issue would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Credit ratings assigned to any of the Notes may not reflect all of the risks associated with an investment in those Notes

The ratings assigned to the Notes, if any, reflect only the views of the rating agencies and, in assigning the ratings, the rating agencies take into consideration the credit quality of the Issuer (i.e., their ability to pay their debts when due) and structural features and other aspects of the transaction. These credit ratings may not, however, fully reflect the potential impact of risks relating to structure, market or other factors discussed in this Base Prospectus on the value of the Notes.

There can be no assurance that any such ratings will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by the rating agencies (or any of them) as a result of changes in, or unavailability of, information or if, in the rating agencies' judgment, circumstances so warrant. If any rating assigned to the Notes is lowered or withdrawn, the market value of the Notes may be reduced. Future events, including events affecting the Issuer or circumstances relating to the oil industry generally could have a material adverse impact on the ratings of the Notes.

A rating is not a recommendation to buy, sell or hold securities and will depend, among other things, on certain underlying characteristics of the business and financial position of the Issuer.

General risks applicable to the Notes

Risks related to the structure of a particular Tranche of Notes

(i) Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate comparable to the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(ii) The value of the Fixed Rate Notes may be adversely affected by movements in market interest rates

The value of the Fixed Rate Notes is dependent on several factors, one of the most significant over time being the level of market interest rates. Investment in Fixed Rate Notes involves a risk that the market value of the Fixed Rate Notes could be adversely affected by changes in market interest rates.

Claims of Holders under the Notes are effectively junior to those of certain other creditors

The Notes are unsecured and unsubordinated obligations of the Issuer. Upon the insolvency of the Issuer, subject to statutory preferences and provided they do not qualify as subordinated claims pursuant to article 92 of the Spanish Insolvency act (*Ley Concursal*), the Notes will rank equally with any of the Issuer's other unsecured and unsubordinated indebtedness. However, the Notes will be effectively subordinated to all of the Issuer's secured indebtedness, if any, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under Spanish law.

Syndicate of Noteholders' meetings

A Syndicate of Noteholders may be established for any issue of Notes under the Programme. Accordingly, meetings of the relevant syndicate may be held in order to resolve matters relating to the Noteholders' interests. Spanish law and the regulations governing the corresponding Syndicate of Noteholders allow designated majorities to bind all Noteholders, including those who have not participated in or voted at the actual meeting or who have voted against the relevant resolution, to decisions that have been taken at a duly convened and conducted Noteholders' meeting.

Clearing and settlement

The Notes will be registered in uncertificated, dematerialised book-entry form with Iberclear. Consequently, no global certificates have been or will be issued in respect of the Notes. Clearing and settlement relating to the Notes, as well as payment of interest and redemption of principal amounts, will be performed within Iberclear's book-entry system. The investors are therefore dependent on the functionality of Iberclear's book-entry system.

Title to the Notes will be evidenced by book entries, and each person shown in the Spanish Central Registry managed by Iberclear or in the registries maintained by the respective participating entities in Iberclear (the **Iberclear Members**) as having an interest in the Notes shall be (except as otherwise required by Spanish law) considered the holder of the principal amount of the Notes recorded therein.

The Issuer will discharge its payment obligation under the Notes by making payments through Iberclear. Noteholders must rely on the procedures of Iberclear and its participants to receive payments. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, holders of the Notes according to book entries and registries as described in the previous paragraph.

Legal investment considerations may restrict certain investments

Investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisors to determine whether and to what extent (i) the Notes are legal investments for it, (ii) the Notes can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of the Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital requirements or similar rules.

Risks Relating to the Insolvency Act

The Insolvency Act, which came into force on 1 September 2004, supersedes all pre-existing Spanish provisions which regulated bankruptcy, insolvency (including suspension of payments) and any process affecting creditors' rights generally, including the ranking of credits.

The Insolvency Act provides, among other things, that: (i) any claim may become subordinated if it is not reported to the insolvency administrators (*administradores concursales*) within one month of the last official publication of the court order declaring the insolvency (if the insolvency proceeding is declared as abridged, the period to report may be reduced to fifteen days), (ii) provisions in a contract granting one party the right to terminate by reason only of the other's insolvency may not be enforceable, and (iii) accrual of interest (other than interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security) shall be suspended as from the date of the declaration of insolvency and any amount of interest accrued up to such date and outstanding (other than any interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security) shall become subordinated.

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.

3. DESCRIPTION OF THE ISSUER

History and development of the Issuer

History and legal status

The full legal name of the Issuer is *Corporación de Reservas Estratégicas de Productos Petrolíferos*; in an abbreviated form: **CORES**.

CORES was incorporated on 6 July 1995 by virtue of Royal Decree 2111/1994, of 28 October 1994, it is a non-profit Public-law Corporation subject to the oversight of the State General Administration, exercised through the Ministry of Industry, Energy and Tourism. It is a separate legal entity, operating under private law. Its main purpose is to ensure the security of the hydrocarbon supply in Spain through stockholding of oil products and control of the stocks held by the industry with regard to oil products, liquefied petroleum gases (“LPG”) and natural gas and its management structure includes representatives of the government as well as the oil and natural gas sectors.

The obligation to hold stocks to address possible supply crises was initially applied in Spain in 1927, and was progressively increased as a consequence of the international commitments assumed when Spain joined the International Energy Agency (IEA) in 1974 and the European Union in 1986.

The International Energy Agency was created in 1974 after the oil crisis, as an independent agency within the OECD. Its mandate is to coordinate member country policies in the event the supply of crude oil and petroleum products, whether national or international, is interrupted. While Spain has been a member of the IEA since its inception, the European Union became a member of this agency once it was formed.

During the petroleum monopoly in Spain in force from 1927 to 1992, the responsibility for petroleum product stockholding alternated between the industry, state-owned CAMPSA and, at times, both of them (depending on the historical period).

After the petroleum monopoly in Spain ended in 1992, as part of the oil sector liberalization process, and following Spain’s international obligations regarding stockholding on a national level, CORES was created.

In Europe the creation of stockholding entities such as CORES, devoted to the storage and management of strategic reserves, has been the model most frequently used to fulfil the international obligations regarding stockholding on a national level. In fact, Directive 2009/119/EC promotes the existence of this type of organisation as the most efficient system for maintaining and managing stocks from an operational, financial and security of supply standpoint.

Consequently, in Spain stockholding obligations are currently shared between CORES and the industry. Together with CORES’ aforementioned main activities and purposes, CORES assists in guaranteeing the suitable diversification of natural gas supplies in Spain, controlling to ensure that supply origins do not exceed the legal percentage set for any one country and has also been the leading information resource in the hydrocarbon sector in Spain since its creation.

In the event of an oil supply crisis, whether national or international, and under the supervision of the Ministry of Industry, Energy and Tourism, CORES would contribute by ensuring supply continuity, coordinating the flow of the petroleum product stock necessary to consumers.

CORES’ legal framework mainly derives from the following regulatory provisions:

- (i) Act 34/1998, of 7 October, on the Hydrocarbon Sector, as amended (including by Act 8/2015, of 21 May);
- (ii) Royal Decree 1716/2004, of 23 July, which regulates the obligation to maintain minimum security stocks, the diversification of the natural gas supply and the *Corporación de Reservas Estratégicas de Productos Petrolíferos*;
- (iii) Act 3/2013, of 4 June, on the creation of the National Commission of Markets and Competition;

- (iv) Royal Decree 61/2006, of 31 January, which sets specifications for gasoline, diesel fuel, fuel oil and liquid petroleum gases and regulates the use of certain biofuels;
- (v) Order ITC/3283/2005, of 11 October 2005, approving the regulations related to the information duties of the entities obliged to maintain minimum security stocks of petroleum products including liquid petroleum gases and natural gas, as well as the *Corporación de Reservas Estratégicas de Productos Petrolíferos*' inspection authority
- (vi) Ruling of the General Directorate of Energy Policy and Mines of 29/05/2007, approving the new official forms for submitting information to the General Directorate of Energy Policy and Mines, the National Energy Commission and CORES;
- (vii) Directive 2009/119/EC of the Council, of 14 September 2009, imposing an obligation on member states to maintain minimum stocks of crude oil and/or petroleum products. (Directive 73/238/EEC, Directive 2006/67/EC and Decision 68/416/EEC were repealed as of 31 December 2012); and
- (viii) Agreement on an International Energy Programme, signed in Paris on 18 November 1974.

Where a matter of law is not covered by any specific regulation, the regulations applicable to the private sector will apply in respect of that matter.

On 23 May 2015, Act 8/2015, of 21 May, entered into force amending Act 34/1998. Through these amendments, Act 8/2015 seeks to extend the mixed stockholding system that, as of today, is only established for petroleum products (except LPG) to the strategic stockholding of natural gas. However, even though Act 8/2015 sets the guidelines for the establishment of a new shared regime for natural gas security holdings it does not develop CORES' obligations in this regard. Therefore, until such regulations are developed and enter into force the duty of holding security stocks of natural gas continues to fall entirely on the industry's obliged entities.

Place of registration of the Issuer and registration number

As CORES is a Spanish non-profit Public-law Corporation, it is not registered with any Public Registry. However, the Issuer's Articles of Association, contained in Royal Decree 1716/2004, establish that CORES must hold its registered office in Madrid. The current registered office and contact information of CORES is as follows:

Address: Paseo de la Castellana, 79, Planta 7, 28046 Madrid

Telephone: (+34) 91 360 09 10

Telefax: (+34) 91 420 39 45

CORES' members

All Spanish wholesale oil and liquid petroleum gas product operators as well as natural gas shippers are automatically subject to compulsory CORES membership starting from the date they make the corresponding Statement of Compliance before the Ministry of Industry, Energy and Tourism, in which they indicate their initiation of activity. CORES maintains a regularly updated list of all its members on its webpage (www.cores.es).

Consequently, as of date of this Base Prospectus, CORES' members can be grouped in the following sector categories:

- (i) 170 operators authorised to distribute petroleum products on a wholesale basis.
- (ii) 9 authorised wholesale liquid petroleum gas operators.
- (iii) 127 natural gas marketers.

Members are obliged to hold minimum security stocks and to financially support CORES' activity, making monthly or annual payments based on their sales or consumption as explained below. These payments are made in accordance with the fees applicable to each product, which are calculated on

CORES' anticipated operating costs for the year and approved by means of a Ministerial Order issued by the Ministry of Industry, Energy and Tourism (See *Budget and fees* on this Section 3).

In addition to CORES members, other entities are also obliged to hold minimum stocks and pay fees based on their imported product volume or the amount acquired directly without using a wholesale operator or gas dealer as an intermediary. This is the case for retail oil product and LPG distributors, major consumers of oil products and LPG, and direct consumers in the natural gas market.

Consequently, the entities obliged to maintain minimum security stocks assume the following obligations to CORES as of the activity commencement date that appears on the Statement of Compliance approved by the Ministry of Industry, Energy and Tourism:

- (i) Obligation to maintain minimum stocks.
- (ii) Obligation to pay the corresponding fee.
- (iii) Obligation to send in periodic information.

Additionally, there are other entities (storage facility owners, lessors, biofuel production plants and natural gas distributors and carriers, etc.) that are required to submit information to CORES, for the purpose of verifying the data submitted by the entities obliged to maintain minimum stocks.

Recent events related to the Issuer and considered significant to assess its solvency.

There are no recent events related to CORES that might be significant to assess its solvency

Business overview

Main activities of the Issuer

The activities performed by CORES, according to the current language of Act 34/1998 and defined in article 23 of Royal Decree 1716/2004, are focused on the areas of hydrocarbon supply security and serving as an information resource in the sector.

At the same time, in accordance with the reform of Act 34/1998, on the hydrocarbon industry, enacted pursuant to Royal Decree-Act 15/2013, of 13 December, CORES has been designated as the “Central Stockholding Entity” in Spain, with the features and subject to the legal regulation resulting from such consideration in accordance with article 7 of Council Directive 2009/119/EC of 14 September 2009 imposing an obligation on Member States to maintain minimum stocks of crude oil and/or petroleum products.

(A) Security of national hydrocarbon supply

In the course of its activities, CORES contributes to ensuring security of supply for oil products, LPG and natural gas in Spain.

Spain has a mixed stockholding system in which responsibility for holding hydrocarbon stocks is shared between CORES and the industry where CORES' foremost activity is to build up, maintain and manage strategic stocks of crude oil and oil products. Additionally, as previously mentioned, pursuant to Act 8/2015 such mixed stockholding system is aimed to be extended to the stockholding of natural gas once the necessary regulations are developed and enter into force.

Petroleum products (except LPG)

The obligation to maintain minimum security stocks of petroleum products (emergency stocks) in Spain currently means holding stocks equivalent to 92 days of eligible sales or consumption, which must be maintained at all times.

Of these total mandatory 92 days, CORES holds 42 days (strategic stocks) in benefit of every obliged party while the obliged party holds the remaining 50 days (industry reserves). At the same time, CORES must keep 45 days of the total Spanish market obligation. The surplus above the 42-day obligation on an individual basis may be allocated by CORES to the obliged

parties that request an additional volume of coverage, according to Royal Decree 1716/2004, as explained below.

Consequently, CORES has maintained in favour of all the obliged parties, since 1 of January 2010, at least 42 days of sales or consumption in the three groups of petroleum products, namely motor car and aviation gasoline, automotive diesel oils, other diesel oils, aviation kerosene and other kerosene; and fuel oils. This constitutes an increase of 2 days in the liabilities of each one of the obliged parties, changing from the previous minimum of 40 days to 42 days, effective as from 1 January 2010, and has been fully assumed by CORES as part of the strategic stocks, in accordance with the resolution of the Board of Directors dated 17 September 2009. Thus, and although this resolution of the Board of Directors does not modify the compulsory minimum amounts established in Article 14 of Royal Decree 1716/2004, with effect as from 1 January 2010, CORES maintains, for all the obliged parties, a minimum obligation of 42 days, and the rest (a maximum of 50 days) is maintained by the obliged party.

The entities obliged to maintain minimum stocks of petroleum products are wholesale operators, retail distribution companies (for the part not supplied by wholesale operators) and consumers (for the part not supplied by wholesale operators or retail companies).

However, the system established by Royal Decree 1766/2007, for the maintenance of strategic stocks configures the 42 days of stocks that CORES must maintain by law as a minimum threshold. Consequently, CORES may maintain up to 100% of the obligation of all the obliged parties and of the Spanish market, currently defined as 92 days of sales or consumption of each obliged party during the previous 12 months.

Additionally pursuant to article 14.3 of Royal Decree 1716/2004, CORES may maintain:

- Up to 100% of the obligation of the non-operator entities with a market share of less than 0.5%, upon their request.
- Up to 35 additional days initially corresponding to obliged entities that make such request, on the basis of the capacity available for the Corporation, through the application of the distribution criteria established in Royal Decree 1766/2007.

CORES will establish the appropriate deadlines and conditions applicable to the receipt of the obliged entities requests for the holding by CORES of additional stockholdings. All of the reserves held by CORES are owned by CORES.

In 2014 there was a net 16,410 m³ decline in strategic reserves compared with 2013 (consisting of a decrease of 858 m³ in gasolines, 4,608 m³ in medium distillates, 14,068 tons in fuel oils and a 3,124 m³ increase in crude oils). The decline in oil products has arisen as a result of not replacing shrinkage (5,571 m³) and the sale of an amount of fuel oil (13,963 tonnes) both during 2014. The 3,124 m³ net increase experienced in the volume of crude oils is the result of a crude oil swap that increased the amount of this product by 7,329 m³ and the decrease experienced as a result of not replacing its shrinkage (4,205m³).

However, the number of days maintained by the Corporation in 2014 has increased by 0.2 days with respect to the figure for the previous year (this increase is mainly due to the decrease in the sales subject to such liability). Consequently, the total figure represented, as at 31 December 2014, 57 days. In total, as at 31 December 2014, there were 8,110,699 m³ of strategic reserves.

Finally and in accordance with the above, the budget for 2015 does not contemplate the purchase of reserves, since the stocks physically held by the Corporation exceed the minimum compulsory levels (45 days in total for all the obliged parties and 42 days for each obliged party).

Liquid Petroleum Gases (LPG)

The obligation to maintain minimum security stocks (emergency stocks) of liquid petroleum gases (LPG) in Spain currently means holding stock equivalent to 20 days of eligible sales or

consumption, which must be maintained at all times. These stocks are wholly held by the obliged entities. Currently CORES does not store strategic stocks of liquid petroleum gases.

The entities obliged to maintain minimum stocks of LPG are wholesale operators, retail companies (for the part not supplied by wholesale operators) and consumers (for the part not supplied by wholesale operators or retail companies).

Natural gas

In the natural gas sector, CORES is responsible for ensuring compliance with the obligation to maintain minimum security stocks. Moreover, also within the scope of security of supply and as an activity that differentiates it from other similar European entities, CORES contributes to the appropriate diversification of the natural gas supplies in Spain.

If over 50% of the total amount of the annual natural gas supplies used for domestic consumption (with the exception of gas acquired for facilities with alternative combustion) comes from a single country of origin, the shippers that provide over 7% of the annual supply must diversify their portfolios. CORES is responsible for overseeing this obligation.

The entities obliged to maintain minimum stocks of natural gas are natural gas shippers and direct consumers on the market (for the part of their confirmed consumption not supplied by a shipper).

The obligation to maintain minimum security stocks of natural gas in Spain currently means holding 20 days of the previous calendar year's confirmed sales or consumption. This supply must be integrally maintained by the obligated entities and held at all times in underground storage facilities.

Nevertheless, this regime is set to be modified. As previously mentioned, Act 8/2015 seeks to extend the mixed stockholding system that, as of today, is only established for petroleum products (except LPG) to the strategic stockholding of natural gas. However, even though Act 8/2015 establishes the guidelines for the establishment of a new shared regime for natural gas security holdings it does not develop CORES' obligations in this sense. Therefore, until such regulations are developed and enter into force the duty of holding natural gas stocks falls entirely on the industry's obliged entities and CORES, as of today, does not store strategic stocks of natural gas.

The strategic stockholding of natural gas, as a new line of activity for CORES, will represent a major step forward in its role of guaranteeing the security of supply in the Spanish energy sector in the coming years.

International stockholding

Spanish and European Community regulations establish the possibility of maintaining reserves in other member states.

In fact, this possibility is promoted in Directive 2009/119/EC, because it allows reserves to be counted in any member state. In accordance with Spanish law, there must first be a bilateral agreement in place in order to maintain minimum security stocks abroad.

In the case of other countries maintaining reserves in Spain, the legal limitations and requirements correspond to those established under the regulations of those countries

Currently Spain has bilateral agreements in place with France, Ireland, Italy and Portugal and unilateral agreements with New Zealand and Malta. As of today, CORES does not maintain any stocks abroad nor does CORES maintain stocks for the central stockholding entities of other States.

With regard to maintaining other countries' reserves, Spain has a privileged geostrategic location, with access to the main European markets (Atlantic and Mediterranean), making it an option with clear advantages over other countries.

Additionally, Spanish legislation recognises the right of third parties to have access to oil sector logistics facilities through a negotiated procedure, under non-discriminatory technical and economic conditions. These conditions are supervised through the publication of prices and access conditions by the competent authorities

Finally, and without prejudice to CORES' principal activity which basically consists on the acquisition, build-up, holding and management of the aforementioned reserves, the Corporation shall specifically perform the following duties:

- (a) Identification, verification, accounting and control of reserves defined in Act 34/1998 and development regulations hereof, including commercial reserves, with the obligation to inform the Ministry of Industry, Energy and Tourism, at least on a monthly basis, on the level of reserves held by any obliged parties and economic operators.
- (b) Establishing a detailed and permanently updated register of all emergency reserves held, excluding, as the case may be, specific reserves. Such register shall include, in particular, the necessary details to pinpoint the depot, refinery or storage facility in which the relevant reserves are located, and the amount, the owner and the nature thereof, based on the categories defined by mandatory European Union regulations which may be applicable from time to time. Such details must be kept for a five-year period.

The Ministry of Industry, Energy and Tourism may at any time request the Corporation to provide it with such register, which CORES must deliver to the Ministry within 10 days from receipt of such request.

Prior to 31 January of each year, CORES must send to the Ministry of Industry, Energy and Tourism a summary of such register, indicating at least the amounts and the nature of the emergency reserves included in the register on the last date of the preceding calendar year.

- (c) Publishing, on a permanent basis, complete information classified by product categories, concerning the volumes of stocks that the Corporation can guarantee to maintain vis-à-vis the obliged parties, other economic operators or central stockholding entities. Likewise, it shall publish, prior to 31 May of each year, the terms on which it shall offer reserve maintenance services on account of the obliged parties.
- (d) Acquiring or selling, on an exclusive basis, the specific reserves that, as the case may be, may be set pursuant to the mandate of the Ministry of Industry, Energy and Tourism.
- (e) Build-up, maintenance and management of reserves in favour of economic operators or obliged parties in the terms set forth under applicable regulations. Freely available reserves pursuant to lease agreements may not be assigned or leased to third parties in any way.
- (f) Calculation and verification of total petroleum equivalent reserves and product quantities held by the Kingdom of Spain on a permanent basis, calculated both as a number of days of average daily net imports and as a number of days of average daily internal consumption corresponding to the year of reference in accordance with European regulations and the obligations resulting from any International Treaties to which the Kingdom of Spain is a party.

Likewise, it must send to the Ministry of Industry, Energy and Tourism any statistical lists relating to hydrocarbons as may be provided under applicable regulations.

- (g) Proposal to the Ministry of Industry, Energy and Tourism of any actions and measures leading to the implementation and update of obligations concerning security of supply in the hydrocarbon market in accordance with the international commitments assumed by the Kingdom of Spain.
- (h) Cooperating with the different Public Administrations for the purpose of providing information and advice and of performing any other activity regarding aspects included

within the scope of its competence in the hydrocarbon industry, in particular, a review of Spain's degree of preparation and storage of emergency stocks.

- (i) Duties concerning security of supply in the hydrocarbon sector entrusted by the Ministry of Industry, Energy and Tourism. In this regard, another activity that sets CORES apart from other, similar European entities is its contribution to ensure an appropriate diversification of Spain's natural gas supply, controlling the supply to ensure that no one country of origin provides more than 50%, in accordance with the current legal limit.

(B) Leading national information resource for the hydrocarbon sector

In relation to certain specific duties mentioned in the previous paragraph (i) above, CORES is the leading information resource for the hydrocarbon sector in Spain and provides official statistics to different organisations, contributing official data to various chapters of the National Statistics Plan. This activity is different from those performed by other European entities similar to CORES, as its work controlling the diversification of natural gas suppliers (*comercializadores*).

These actions are reflected in the regular updating of its website with different statistics, publications and reports, making CORES a benchmark for sector information.

Moreover, CORES acts as a consultancy, collaborating with various government administrations to provide information and advice.

(C) Benchmark player in the sector

Finally, along its more than 20 years of existence, CORES has positioned itself as an active player in the hydrocarbon sector, providing technical support to the Ministry of Industry, Energy and Tourism, participating regularly in different forums and work groups on a national and international level, and contributing to promote the image of Spain as a model of efficiency and energy security.

To achieve its purpose, CORES exercises its powers in accordance with Act 34/1998 and Royal Decree 1716/2004, as well as the Articles of Association incorporated into such Royal Decree as an annex.

CORES' economic regime

Acquisition and maintenance of strategic stocks

As previously mentioned, CORES' main purpose is to contribute to the security of the hydrocarbon supply in Spain through stockholding of petroleum products and control of the stocks held by the industry with regard to petroleum products, LPG and natural gas.

Accordingly, the Issuer may build up and maintain minimum security stocks qualified as strategic through the following procedures:

- (i) Acquisition through purchase or exchange of the necessary stocks under market conditions.
- (ii) Lease of stocks from operators at market price and under market conditions, up to a maximum of 50% of the total strategic stocks. It must be noted though that CORES has never leased stocks to cover strategic reserves.

In this sense, the members of CORES, if appropriate, must sell, exchange or lease stocks to the Corporation. To that effect, the Issuer may execute contracts for the acquisition, exchange or lease of strategic stocks. In these cases, CORES must ensure that the prevailing market competition conditions remain unaltered.

In practice, CORES makes public calls for tender among its members (the only companies in Spain authorised for the wholesale distribution of petroleum products) to request bids whenever it makes any purchase of strategic reserves (or, generally, any transaction relating to strategic reserves). A certain volume of the product, the location and the delivery date are requested in the offer and the reference price fixed is that of the international markets. Upon reception of the offers, these are analysed and

tabulated by the Corporation's technical departments and the bid deemed most appropriate is proposed to the Board of Directors by CORES' management, without offering any details on the others to avoid possible conflicts. Subsequently, the contracts are executed, the products are delivered and the payment takes place. The payment is made in Euro thus avoiding the exchange rate risk, and is financed through loans and issues of debt.

CORES may also execute purchase or lease contracts to obtain the necessary storage capacity for the maintenance of strategic stocks, which is also performed by means of public calls for tender among its members that own hydrocarbon storage facilities in Spain, and other logistics businesses that are not members of the Corporation. In accordance with the provisions of applicable regulations, the members of the Corporation should, if appropriate, sell or lease storage capacity to the Corporation.

When the Corporation requires storage capacity, it requests offers to warehouse owners established in Spain. Through the Board of Directors' resolution, contracts are executed for a term adjusted to the Corporation's requirements from time to time and, in general terms, the costs related to the maintenance of the quality of the products, the seasonality (Winter-Summer rotation) and the insurance are included in the storage price. Currently, CORES maintains 29 lease contracts of storage capacity for terms that range between 4 and 23 years and maturities between 2016 and 2029. The total sum represented by the rental of storage capacity amounted to €151,619 thousand in 2013 and €143,790 thousand in 2014.

The purchase, sale and lease operations of strategic reserves as well as those related to their storage will be governed by master agreements the form of which will be approved by the Ministry of Industry, Energy and Tourism.

The Board of Directors of CORES may agree to increase the quantities stored in certain geographical areas, considering the general situation as to the obligation to maintain minimum security stocks.

The Issuer guarantees at all times the quality of the products stored as strategic stocks, their suitability for their intended consumption as well as the compliance with the regulations in force on official specifications of the products.

CORES must maintain at all times an insurance covering all the strategic stocks for which the Corporation is responsible.

Sale or exchange of stocks

The Issuer may sell or exchange the surplus of stocks that exceeds the compulsory level, if appropriate, subject to the prior agreement of the Board of Directors, provided that such transfer is made at a price or value equivalent to the average weighed acquisition cost or at market price, if this latter is higher.

The authorization of the Ministry of Industry, Energy and Tourism will be compulsorily required if (i) the sale price or the value of the exchanged products is lower than its acquisition cost or (ii) if the stock sold or exchanged does not have the consideration of surplus.

The sale or exchange of strategic stocks by CORES may never alter the competition conditions or the normal operation of the petroleum products market.

It must be noted that according to Article 29 of Royal Decree 1716/2004; any profits deriving from the sale or swap of strategic stocks must be applied to the repayment of the Corporation's liabilities.

In case of shortage in the supply of petroleum products and through a resolution published in the State's Official Gazette (*Boletín Oficial del Estado*), the Council of Ministers may submit the minimum security stocks, including strategic stocks, to an intervention system under the direct control of the Corporation in order to achieve the best use of the energy resources available.

Similarly, the Government may establish the use or final purpose of the minimum security stocks, including strategic stocks, available for consumption or transformation provided that this is necessary to guarantee the supply to priority consumption centres.

Strategic stocks to be disposed of will be offered at market price to the members of CORES for consumption purposes.

Furthermore, in the case of an evident risk that a shortage or scarcity in connection with gas supplies, as well as when the security of individuals, devices or facilities or the integrity of the gas network can be threatened, the parties involved in the gas system must prepare an emergency plan to alleviate the shortage situation, including the use of own stocks. The technical manager of the system will propose a plan that must be approved by the Ministry of Industry, Energy and Tourism.

Financing

To finance CORES' activity, mainly the acquisition and maintenance of strategic stocks, as well as other overhead expenses the Corporation has the following financial resources:

- The regular or extraordinary fees that must be paid by its members and the other entities obliged to maintain minimum security stocks.
- The liquidity resulting from its debt or loan capital.
- Any other ordinary or extraordinary income that may be generated in the course of exercising its functions.

In addition to these resources, and as previously mentioned, CORES can sell or trade any stock in excess of its obligatory stockholding if the Board of Directors approves, as long as this sale or trade takes place at a price or value equal to the average weighted acquisition cost, or at the market price, if higher.

It must be noted that according to Article 29 of Royal Decree 1716/2004; any profits deriving from the sale or swap of strategic stocks carried out in accordance with the provisions of Article 36 cannot be distributed and will be first applied to the repayment of the Corporation's liabilities.

In any case, if the sales price or value of the trade is lower than the average weighted acquisition cost, the transaction must be authorised by the Ministry of Industry, Energy and Tourism.

Consequently, CORES' financial objectives are as follows: (i) obtaining funds to acquire strategic reserves at a cost within the range of comparable entities; (ii) financing with medium and long-term debt; and (iii) use of diversified financing sources that permit flexibility based on needs.

(i) Financing of operations:

CORES has a stable, predictable income structure, with a financing system based on the payment of fees established by law. Accordingly, CORES' income is made up mainly of the fees paid by its members and the other entities obliged to maintain minimum security stocks, which pay monthly or annual contributions based on their sales or consumption.

Such fees are calculated annually by CORES, based on its income and expenses budget, which includes the estimate of the financial resources necessary to fulfil its objectives. Once the budget has been approved by the Board of Directors, it is presented to the members of CORES at the General Assembly. Then the fee proposal is forwarded to the Ministry of Industry, Energy and Tourism for its subsequent ratification by means of a Ministerial Order (see *Budget and fees* below).

These payments are made in accordance with the unit fees applicable to each group of products.

Accordingly, the provisions of Royal Decree 1716/2004 establish that the holding of strategic stocks and minimum LPG's stocks must be financed by the obliged parties defined in Article 7 and 8 (operators, distributors and consumers of liquid hydrocarbons and LPG's) of the aforementioned Royal Decree, through monthly payments based on their sales or consumption.

Additionally, to finance the Issuer's expenses for activities relating to liquid petroleum gases (excluding minimum stock holdings) and natural gas, an annual fee is established for the

obliged parties defined in Article 8 (operators, distributors and consumers of LPG's) and Article 15 (marketers and consumers of natural gas) of Royal Decree 1716/2004, based on their share of the market.

Additionally, not only all CORES' members are obliged to hold minimum security stocks and to financially support the Corporation's activity but additionally, other entities that are not members of CORES may be also obliged to hold minimum stocks and pay fees based on their imported product volume or the amount acquired directly without using a wholesale operator or gas dealer as an intermediary. This is the case for retail oil product and LPG distributors, major consumers of oil products and LPG, and direct consumers in the natural gas market.

Finally, in order to ensure CORES' financial solvency at all times, the possibility of imposing extraordinary fees on members and other entities legally obliged when needed also exists. These extraordinary fees are established by Order of the Ministry of Industry, Energy and Tourism upon proposal by CORES.

(ii) Asset financing

CORES' obligation to maintain strategic reserves creates the need for financing a high level of stocks.

As of the date of this Base Prospectus, the acquisition of strategic stocks is financed through the issuance of medium term notes, bank loans and credit facilities established with different national and international financial institutions.

In order to meet its financial obligations, by operation of the law CORES' income from the sale of strategic reserves must be first applied to the amortisation of the Issuer's indebtedness and, in the case of losses as a result of the activities of the Corporation, the Board of Directors may resort to the fees of the members and other obliged parties to repay such liabilities, provided that there are no reserves available for such purpose, in which case such reserves will be applied to that purpose.

Additionally, the legal framework reinforces CORES' financial solvency since it is mandatory for stocks to be registered at the average acquisition price. In this way, for accounting purposes, CORES is not affected by the variations in market prices. No write-off, depreciation amortization or mark-to-market can be made to the stocks' historical cost.

As of December 2014, the market value of CORES' stock was 1.4 times its average purchase price (See *Comparison between the acquisition cost and the market value of strategic reserves* in this Section 3).

On 16 October 2014, in order to refinance CORES' short-term bank loans and credit facilities, the Issuer issued a new 10-year bond issue in the amount of €250 million. Additionally, CORES has other bond issues in the amount of 500 million euro (due April 2018) and 350 million euro (due April 2016).

As of December 2014, CORES bank loans amounted to 761,608 thousand euro (698,148 thousand euro corresponding to long-term bank loans and 63,460 thousand euro corresponding to short-term bank loans).

These loan agreements entered into by CORES include market standard covenants and CORES is conducting its activity in compliance with such undertakings as established in the terms and conditions of these financial agreements.

Finally, and in line with the increase in the flexibility of the financial policy that commenced in 2012, the bank pool has been expanded together with the commitments available under CORES' credit facilities.

Budget and fees

The Corporation prepares an annual budget that incorporates the appropriate forecast of expenses for the acquisition of new strategic stocks in case of an increase in the respective obligation. To that

effect, the Corporation must use all the information it has available in order to update the volume of strategic stocks to be maintained at all times and the costs in which it might incur in order to achieve its corporate purpose.

Once the income and expense budget has been prepared, a proposal for the unit fees applicable to each group of products taking into consideration the volume of cubic meters or metric tonnes of each product to be sold or consumed, forecasted on the basis of the market information available will be forwarded to the Ministry of Industry, Energy and Tourism by the Corporation. These fees determine the payment to which members of CORES are obliged to comply with.

Consequently, once the proposal from the Corporation is forwarded, the unit fees per cubic meter or metric tonne sold or consumed for each group of products, and in the case of those groups where CORES maintains strategic stocks (all except liquefied petroleum gas and natural gas), per day of stocks maintained by CORES on behalf of each obliged party are determined on an annual basis through an Order of the Ministry of Industry, Energy and Tourism, except when the need to maintain the Corporation's financial solvency recommends establishing extraordinary fees for a different term, following an equivalent approval procedure.

Once the annual contributions have been approved, CORES may request the General Directorate of Energy Policy and Mines (*Dirección General de Política Energética y Minas*) their modification upwards or downwards subject to a limit of 5%, submitting the documentation supporting such request.

In accordance with the provisions of the Ministerial Order IET/2470/2014, of December 29, approving the Corporation's fees for year 2015, the obliged parties will pay the following fees to the Corporation:

- (i) Motor vehicle and aviation gasoline: Euro 0.0971 per cubic meter sold or consumed and per day of stocks held by the Corporation for the account of the obliged party.
- (ii) Automotive diesel oils, other diesel oils, aviation kerosene and other kerosene: Euro 0.0949 per cubic meter sold or consumed and per day of stocks maintained by the Corporation for the account of the obliged party.
- (iii) Fuel oils: Euro 0.0974 per metric tonne sold or consumed and per day of stocks maintained by the Corporation for the account of the obliged party
- (iv) Liquefied petrol gases: Euro 0.09 per metric tonne sold or consumed.
- (v) Natural gas: Euro 4.15/GWh of firm sales or consumptions.

In this respect, fees for liquefied petrol gases and natural gas approved for each calendar year are collected during the following year.

The Corporation will forward a formal notice to each obliged party that fails to effect the payment of the relevant fee. In case of delay in the payment on the part of the debtor, interests will be charged at a rate equivalent to 3 percentage points above the legal interest rate on the delayed fee.

The non-payment of the contributions or fees to the Corporation will be considered a serious or very serious infringement of the regulations on minimum security stocks, without prejudice to the possibility of revoking or suspending the administrative authorisation granted to the obliged party. In addition, it should be taken into account that if the obliged party ceases its operation, or its license is revoked due to the default, its market share would presumably be absorbed by another operator which would pay the corresponding fees to CORES.

Apart from these ordinary fees and exceptionally when so recommended for the correct fulfilment of the purposes of the Corporation and at the proposal of CORES, extraordinary fees will be fixed by the Ministry of Industry, Energy and Tourism.

In this sense, in 2014 there were significant changes in some assumptions taken into account in CORES' Budget (the basis for the approval of the 2014 fees). Specifically, positive behaviour of oil sales, as well as the containment of the financial expenses due to interest rate decrease and the reduction of the expenses corresponding to the lease of storage capacity (due to the award of a tender in 2013 for the relocation and storage of strategic reserves, enabling the adjustment of storage costs to

current market conditions), generated a surplus. Accordingly, CORES proposed a decrease in the fees applicable to sales or consumption starting September 2014, inclusive, with the exception of those relating to liquid petroleum gases and natural gas, which remained unchanged. The Ministry of Industry, Energy and Tourism approved Order IET/1790/2014 (1 October), which amended CORES' fees for 2014.

Finally, in line with previous financial years, the level of defaults in the payment of fees was not relevant due to their mandatory nature and the sanctions CORES' members could face, should they breach their obligations to CORES, since failure by its members to settle CORES' fees constitutes a serious or very serious infringement of the regulations on minimum security stocks which might entail the revocation or suspension of the administrative authorisation granted to such member to operate in the Spanish market

Inspection powers and information liabilities

To monitor the fulfilment of the obligation to maintain minimum security stocks and to diversify the supply of natural gas, as well as the fulfilment of the lease or storage agreements executed in connection with strategic stocks, the agents appointed to that effect by the Corporation may access the premises or warehouses of the obliged parties or contracting parties and examine the conditions and other terms that might affect the minimum security stocks and the strategic stocks contracted or stored, as well as the diversification of natural gas supplies.

All the information, as well as the information received by the Corporation that might include any significant event with respect to the commercial position of the obliged party, will be considered strictly confidential as to the individual data provided by the company.

Most significant factors of the main activities and businesses

As already mentioned in the previous paragraphs, CORES has two basic and specific purposes in connection with petroleum products and natural gas:

- (i) To build up and manage strategic reserves owned by it; and
- (ii) To monitor the compliance with the obligation to maintain minimum security stocks directly required from the obliged parties.

The following tables show the change in minimum security stocks and in income and expenses of the Corporation during the last two years:

Minimum security stocks

- (1) At December 31, 2014, the Corporation held 57.0 days in Strategic Reserves, a 0.2 day increase compared to 2013 (56.8 days). Accordingly, at 31 December 2014 CORES maintained 6,883,884 tonnes of Strategic Reserves (8,110,699 m³) as compared to 31 December 2013 where the amount totalled to 6,895,308 tonnes (8,127,109 m³). Movements in the various accounts representing Strategic Reserves in 2014 gave rise to a €3,699 thousand decrease in their value compared to 2013, due to the overall decline in strategic reserves totalling 11,424 tonnes (16,410 m³) (645 tonnes in gasoline (858 m³), 3,859 tonnes in medium distillates (4,608 m³), 14,068 tonnes of fuel oils (14,068 m³) and an increase of 7,149 tonnes in crude oil (3,124 m³). No indicative table representing such movements for 2014 is included in the corresponding annual accounts.

The following table shows a comparison between the acquisition cost and the market value of the strategic reserves maintained by CORES during the last two years:

	2014 (€thousand)	2013 (€thousand)	Change (%)

Market value (31 December)	2,708,948	4,515,649	-40.01%

Source: CORES, Annual Accounts 2014

As at 31 December 2014, the market value of strategic reserves of CORES was 36% higher than the acquisition cost.

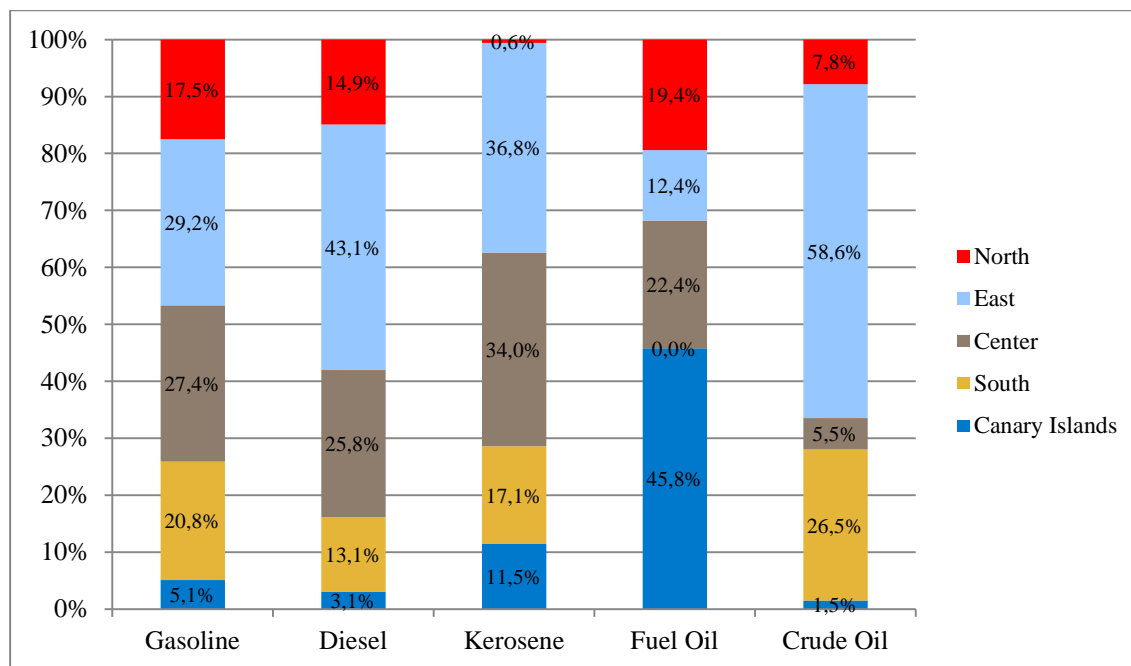

CORES is not affected by the changes in the market prices. The Corporation is obliged by the law to account for its stocks at the average weighed acquisition price and cannot make any write-off, depreciation or amortization on their historical cost as a result of the fluctuation of market prices on the strategic stocks held by CORES.

In all situations of crises in the supplies (a situation in which CORES would have to sell its stocks, if so decided by the Government), the market value would very likely be much higher than the acquisition cost of strategic reserves.

Geographic distribution of the strategic reserves

The strategic stocks are distributed throughout Spain in five different areas, based on the consumption needs of each of them: (i) the North area comprises the Autonomous Communities of Galicia, Asturias, Cantabria, Basque Country, Navarra, La Rioja and Castilla Leon (with the exception of its

provinces of Segovia and Avila); (ii) the East area comprises the Autonomous Communities of Cataluña, Aragon, Valencia, Murcia and Balearic Islands; (iii) the Center area comprises the Autonomous Communities of Madrid, Castilla La Mancha, Extremadura and the provinces of Segovia and Avila; (iv) the South area comprises the Autonomous Community of Andalusia and the cities of Ceuta and Melilla; and finally (v) the Canary Islands Area comprises the Autonomous Community of the Canary Islands. CORES does not hold any stocks outside Spain. The following table shows a geographic distribution of the strategic reserves as of 31 May 2015:

Income from fees

The evolution of the income obtained by CORES from the fees is indicated in the table below:

	2014 (€thousand)	2013 (€thousand)	Change (%)
Actual income (before refunds)	187,498	189,047	-0.8%
Estimated budget income ^(*)	184,456	185,562	-0.6%

Refund	9,623	2,064	366.2%
Income after excess calculation	177,875	186,983	-4.9%

(*) 2014 data taken from budget as reviewed on September 2014 due to a significant changes in some of the assumptions taken into account in the Corporation's Budget (basis for the approval of the fees for 2014). Specifically, due to the decrease of interest rates and the good behaviour of sales of oil products, a surplus was generated. Accordingly, a proposal was made in order to decrease fees applicable to sales or consumption starting September 2014, that was approved by the Ministry of Industry, Energy and Tourism through Order IET/1790/2014 (1 October), which amends CORES' fees for the last three months of 2014.

Source: CORES

The annual calculation of CORES' members refund is based on:

- The annual deviation between income and actual expenses; and
- The excess on the amount of CORES statutory reserve maintained in accordance with its Articles of Association, which according to article 13 of its Articles of Association must be an amount equivalent to one quarter of the ordinary expenses of the year.

The breakdown of fee income per CORES member in 2014 was as follows:

Member	% of CORES fee income	
	2014	2013
Repsol group	34%	32%
CEPSA group	22%	22%
BP Group	9%	10%
GALP Group	9%	9%
DISA Group	8%	7%
SARAS Energía	3%	5%
Others	15%	15%

Maintenance expenses

Maintenance expenses are those which are necessary for the storage, maintenance of quantities and quality and to guarantee strategic reserves. The most significant item corresponds to the lease of storage capacity. The cost is updated, in most cases, on the basis of the evolution of 80% of the Consumer Price Index (CPI). Expenses related to insurance of strategic reserves, the cost of the rotation of products due to seasonality (Summer – Winter) and to the maintenance of the quality are also included as well as any other expenses necessary to maintain the quantity and quality of strategic reserves. The following table shows a breakdown on the Corporation's maintenance expenses:

	2014 ⁽¹⁾ (€thousand)	2013 ⁽¹⁾ (€thousand)	Change (%)
<i>Storage, seasonal change, quality maintenance, placement ("external services") ⁽²⁾</i>	144,427	156,445	-7,7%
<i>Depreciation of storage facilities owned by the Corporation</i>	2,707	2,707	0,0%
<i>Storage shortages</i>	2,285	2,346	-2,6%
Maintenance expenses	149,419	161,498	-7,5%

(1) Information from the analytical accounts of CORES. All data used to develop these figures derives from CORES' corresponding audited financial statements. Accordingly, the information on the significant maintenance expenses of the Corporation derives from the following items of CORES' corresponding audited financial statements: "Other operating expenses", "Fixed asset depreciation" and "Changes in inventories of finished goods and work in progress".

(2) From the figure of Euro 144,427 thousands at the closing of year 2014, Euro 143,790 thousand (equivalent to 99.56%) correspond to the cost of 'the rental of the storage facilities' item. From the figure of Euro 156,445 thousands at the closing of year 2013, Euro 151,619 thousand (equivalent to 96.92%) correspond to the cost of 'the rental of the storage facilities' item.

Financial expenses

As of the date of this Base Prospectus, all the Financial Indebtedness of CORES is referenced to variable interest rates. As indicated in Note 5.15 (“Debts and Items payable”) of the 2014 Annual Accounts of CORES, at 31 December 2014, debt consists of loans and credit facilities with banking institutions, at a variable interest rate, and three issues of debt securities at an interest rate of 4.50%, 3.25% and 2.50% respectively, and due on April 2018, April 2016, and October 2024. The exposure to the principal amount of such notes was the subject of interest rate swaps allowing CORES to pay a variable interest rate (respectively: 3M Euribor + 0.244% ; 3M Euribor + 2.877%, and for the last issue 3M Euribor + 1.54% and 3M Euribor + 1.55%).

Thus, an increase in the reference interest rates would have a direct impact on the amount of the annual financial expenses of the Corporation, without prejudice to the conservative approach employed by CORES for the preparation of the yearly Budget, where a reasonable margin has been estimated for increases in the interest rates.

These expenses are Euro 2,907 thousand higher than those accrued during the year 2013, as a result of, amongst other, the higher average interest rate applicable to debt during the 2014 financial year, amounting to 1.115%, compared to 0.954% on the previous year.

The table below shows the financial expenses for the years 2014 and 2013:

	2014 (€thousand)	2013 (€thousand)	Change (%)
Financial expenses	22,372	19,465	14,9%

Structural expenses and Other Expenses

Structural expenses and other expenses include staff expenses, taxes, depreciation, and external services different from the storage of strategic reserves:

	2014 ⁽¹⁾ (€thousand)	2013 ⁽¹⁾ (€thousand)	Change (%)
Structural expenses	5,971	5,902	1,2%
Other expenses	0	662	-100,0%
Structural and other expenses	5,971	6,564	-9,0%

(1) Information from the analytical accounts of CORES. All data used to develop these figures derives from CORES’ corresponding audited financial statements. Accordingly, the information on the significant structural expenses of the Corporation derives from the following items of CORES’ corresponding audited financial statements: “Personnel expenses”, “Other operating expenses”; “Fixed Asset Depreciation” and “Other results”. The amount corresponding to Other expenses of the table is included in the item “Profit/(loss) obtained on the disposal of fixed assets”.

Percentage breakdown of ordinary expenses

Finally, the table below shows the percentage breakdown of ordinary expenses shown above (i.e., maintenance, financial, structural and other expenses). The item maintenance expenses related to the strategic reserves stands out due to its relative weight. The stability of such a significant item facilitates the preparation of the annual budget that serves as the basis to fix the fees.

	2014 (%)	2013 (%)
Maintenance expenses of strategic reserves	84.06%	86.12%
Financial expenses	12.59%	10.38%
Structural and other expenses	3.35%	3.50%

Acquisitions of strategic reserves

Acquisitions of strategic reserves are made depending on the evolution of the consumption of petroleum products.

As of the date of this Base Prospectus, the acquisition of strategic stocks is mainly financed through the issuance of bonds in the financial markets, loans and credit facilities established with different national and international financial institutions (93%) and through non distributed profits (7%).

Additionally, the following table shows the list of outstanding bond issues at the date of this Base Prospectus:

Members of administrative, management and supervisory bodies

General Assembly

The General Assembly is made up of the duly accredited representatives of all of CORES' members.

According to article 6 of CORES' Articles of Association incorporated as an Annex to Royal Decree 1716/2004, all Spanish wholesale oil and liquid petroleum gas product operators as well as natural gas shippers are automatically subject to compulsory CORES membership starting from the date they make the corresponding Statement of Compliance before the Ministry of Industry, Energy and Tourism, in which they indicate their initiation of activity. CORES maintains a regularly updated list of all its members on its webpage (www.cores.es).

The members of CORES will be summoned to the Assembly, in one single call, subject at least to a prior fifteen days' notice through the publication of the announcement of the call stating the date of the Assembly and the agenda of the Assembly published, at least, in two mayor newspapers with national coverage. Such term can be reduced in case of an emergency situation, provided that prior notice to the Ministry of Industry, Energy and Tourism is made.

The Chairman must summon the General Assembly once a year to inform on the evolution of the Corporation's activities during the previous year, to approve the accounts and to decide on the management of the administration bodies. The Assembly will also be summoned when so requested in writing, with an indication of its purpose, by the members of the Corporation who represent, at least 15% of the total voting rights of the members. The Chairman may also summon the Assembly when it is deemed appropriate in accordance with the interests of the Corporation.

The General Assembly will be quorate, irrespective of the number of attendants. The General Assembly will be chaired by the Chairman of the Corporation, who will appoint the Secretary in charge of preparing the minutes of the meetings, and who will have a right to speak but not to vote.

Resolutions are passed by a three-quarters majority of those present with a right to vote and will be notified to the Ministry of Industry, Energy and Tourism which, if appropriate, may veto those resolutions that might infringe the provisions of the Act on the Hydrocarbons Sector and its developing regulations.

The members of CORES will hold the voting rights they are entitled to on a pro rata basis to the volume of their effective annual financial contribution to the Corporation. The Board of Directors will verify the number of voting rights that correspond to each member on a pro rata basis to their financial contribution before the holding of the Assembly.

Board of Directors

The Board of Directors of the Corporation must consist of eleven members, apart from the Chairman, who will chair the meetings.

According to article 11 of CORES' Articles of Association incorporated as an Annex to Royal Decree 1716/2004, the Chairman of the Corporation and four Members of the Board will be appointed by the Ministry of Industry, Energy and Tourism, for a term of office of five years, and they can be re-elected for similar periods. Such appointments, and their corresponding dismissals, depend solely on a decision of the Ministry of Industry, Energy and Tourism and CORES', through its General Assembly, has no partaking in such election or dismissal.

The remaining seven members of the Board will be elected by the General Assembly for a term of five years, and they can be re-elected for similar periods, as follows:

- (i) Authorised wholesale distributors of oil products, with refining capacity in the Spanish territory will elect three representatives.
- (ii) Authorised wholesale distributors of oil products, without refining capacity will elect two representatives.
- (iii) Authorised wholesale distributors of Liquefied Petroleum Gas will elect one member of the Board.
- (iv) Natural gas suppliers (*comercializadores*) who are also members of CORES will elect one member of the Board.

Accordingly, the General Assembly held on 18 December 2014, voted and elected the new members of the Board for a new five-year term, with the exception of the two representatives corresponding to the wholesale distributors of oil products without refining capacity, that were elected pursuant to the General Assembly held on 18 June 2015.

The Board of Directors will elect by majority of votes a deputy chairman among its members, and the deputy chairman will perform the organic functions derived from the substitution of the Chairman.

If one of the elected members resigns before the expiry of the term of his/her office, the Board of Directors may appoint a new member for the time pending until the next General Assembly is held.

Conflicts of interests of the administration, management, and supervision bodies.

The acquisition, maintenance and management activities related to Strategic Reserves carried out by CORES must be performed under market conditions as set out in articles 30 and 31 of Royal Decree 1716/2004, and in line with the master agreement approved by the General Directorate of Energy Policy and Mines. In practice, CORES makes public calls for tender among its members (the only companies in Spain authorised for the wholesale distribution of petroleum products) to request bids whenever it makes any purchase of strategic reserves (or, generally, any transaction relating to strategic reserves). A certain volume of the product, the location and the delivery date are requested in the offer and the reference price fixed is that of the international markets. Upon receipt of the offers, these are analysed and tabulated by the Issuer technical departments and the bid deemed most convenient is proposed to the Board of Directors by CORES' management, without offering any details on the others to avoid possible conflicts. Subsequently, the contracts are executed, the products are delivered and the payment takes place. The payment is made in Euro thus avoiding the exchange rate risk, and is financed through loans and issues of debt.

CORES' transactions entered into with its members who are also members of its Board of Directors in the ordinary course of its business of building up and storing strategic stocks are authorised on a general basis prior to the relevant call for tender by the Issuer's Board of Directors, which entitles the entity's Management team to set the technical and economic terms, deadlines and other terms of the relevant calls for tender.

Subsequently, as noted above, CORES acquires the strategic stocks and stores the same by making, the relevant call for tender to its members and/or other logistics companies that own hydrocarbon storage facilities and which are not members of the Issuer.

The call for tender, the drafting and approval of the specifications thereof, the receipt and opening of bids, their tabulation and the proposal to award each tender are under the direct responsibility of CORES' Management and technical services, without any intervention on the part of the Board.

Upon expiration of the deadline to submit bids and for the tabulation thereof, the Management of the Corporation forwards the most convenient award proposal, in its opinion, to CORES' Board of Directors, without informing on or giving any details of other bids received, or on the identity of the bidders; as a result, the resolutions to award the relevant tenders are taken "blindly" by the Board of Directors.

As a result, CORES' Board of Directors is not aware of the identity of the bidders or of the economic or other details of the bids submitted to it that may give rise to any conflicts of interest or to competition-related issues between the Corporation and its members.

Main shareholders

Share capital

CORES is a non-profit Public-law Corporation under the supervision of the Ministry of Industry, Energy and Tourism.

Accordingly, the Corporation does not have share capital, does not form part of any group and has no shareholders given that in accordance with its Articles of Association (Appendix to Royal Decree 1716/2004), the financial means that are necessary to carry out legal purpose are contributed by the obliged parties and, if appropriate, obtaining resources from financial markets.

Its members are required by law to join the Corporation from the start of their activity (wholesale distribution of petroleum products or the marketing of natural gas), but they do not have any ownership rights with respect to CORES.

Therefore, CORES' main sources of income derive from the fees paid by its members and the other entities obliged to maintain minimum security stocks (See *Financing* on this Section 3) and the sale of its strategic stocks (See *Sale or Exchange of Stocks* on this Section 3).

The heading “Long Term Financial Investments” shows a change of 9.75% due to the increase in fair value, assessed by an independent auditor, of the interest rate swap agreements executed with several of the Arrangers of the 3 last issues of bonds made up to this date.

The heading “Inventories” includes a change of 0.19%. Compared to the situation in 2013, there has been a global decrease in strategic reserves amounting to 16,410 m³, mainly due to the failure to cover shortages in products and crude oil. At 31 December 2014, the Corporation held 57 days in reserves, a 0.2 day increase compared to 2013, largely due to the decrease in sales subject to such obligation. Consequently, CORES has held stocks exceeding its obligation during the whole year, and it has therefore not been necessary to acquire any products.

The item “Trade and other receivables” includes a change of 99.95% which is mainly due to the change in “Other credits with Public Administrations”, which corresponds to the Corporate Income Tax settlement.

The heading “debt securities” amounts to Euro 19,000 thousand corresponding to the treasury excess generated due to the bond issue that took place on October 2014 applicable to the redemption of a

Bank loan with maturity in 2015. CORES invested such excess in three short-term deposits with maturities in 2015.

The heading “Cash and other cash equivalents” shows a change, as a result of the excess of cash generated due to the bond issue that took place on October 2014 applicable to the redemption of a Bank loan with maturity in 2015.

The heading “Reserves” shows a change of 0.38%, mainly due to the distribution of the profit for the year 2013.

The item “Statutory Reserves” increased by Euro 714 thousand as a result of the application of the profit for the year 2013 arising from the contributions of the obliged parties and financial income.

The item “Profit for the year” shows an important increase amounting to Euro 5,303 thousand, this was mainly due to the sale and disposal of strategic stock (that pursuant to article 52.2 of Act 34/1998 may not be distributed among CORES’ members) that had no equivalent in 2013.

The heading “Hedge transactions” shows a change of 0.96%, as a consequence of the previously described situation affecting the heading “Long term financial investments”, with respect to those treated as a cash-flow hedging, once the relevant tax on deferred profit has been deducted.

The item “Long-term payables” has shown a 9.92% increase, due to a new note issuance that took place in 2014 for a total nominal amount of Euro 250 million and with a maturity of ten years, and as a result of the reduction in the balance of Bank loans, resulting from the transfer of Euro 60 million from long to short-term payables and of the redemption of Bank Loans in the amount of Euro 32 million.

The heading “Deferred tax liabilities” includes a change of 0.96%, similarly to what has been already described in connection with the heading “Hedge Transactions”.

The heading “Short Term Payables” shows a change of -64.69%, mainly due to the redemption of Bank Loans in the amount of Euro 176 million and, on the other hand, of the increase as a result of the aforementioned transfer noted in the item “Long-term payables”.

The heading “Short-term payables to associated companies” includes a change of 81.29%, caused by the change in the balance of the item “Creditors for excess fees” that includes at 31 December 2014, the outstanding balance resulting from the refund of fees corresponding to the year 2014 in the amount of Euro 10 million.

The heading “Trade and other payables” shows a change of -28.91%, which is mainly due to invoices that were paid in 2014 corresponding to product placement expenses as a result of the award of a tender in 2013 for the relocation and storage of strategic reserves, which has allowed CORES to adjust its storage costs to current market conditions.

The heading “Revenue” shows a change of -1.29%, due to the fact that in 2014 there was a sale of stock of Euro 6,694 thousand, while the rendering of maintenance services for strategic stocks decreased by 4.87%

The heading “Changes in inventories of finished goods and work in progress” shows a change of -57.67% compared with 2013, since in that year no sales were made. The balance for 2014, which amounts to Euro 3,699 thousand, includes the reduction in stock in the strategic reserves as a consequence of contractual shortages.

The heading “Other operating expenses” includes a change of -6.94% that is the consequence of the decrease shown in the account “External Services” caused by the reduction in the item corresponding to the lease of storage capacity, caused by a tender in 2013 for the relocation and storage of strategic reserves, allowing CORES to adjust its storage costs to the current market conditions. Within the abovementioned “External Services” account, the most significant item is the one previously mentioned, related to the rental of storage capacity for an amount of Euro 143,790 thousand. The remaining amount, up to Euro 146,756 thousand, corresponds to sundry expenses, such as structural expenses, professional services, insurance premiums, product location expenses and the lease of the premises where the Corporate Office of the Corporation is located.

The heading “Financial Income/(Expense)” shows a change of 20.42%, caused by a rise in the interest rates in 2014, which changed from an average effective rate of 0.95% in 2013 to 1.11% in 2014.

The heading “Profit for the year” includes an increase of 642.72%, which has been mainly due to the sale and disposal of strategic stock (that pursuant to article 52.2 of Act 34/1998 may not be distributed among CORES’ members) that had no equivalent in 2013. The profit figure for 2014 has been Euro 5,303 thousand. Due to the specific nature of CORES, the profit figure lacks the meaning it has for other companies, since the Corporation is a non-profit making organisation and, consequently, any profit obtained is limited and directed to comply with CORES’ mandatory requirements to allocate a determined amount to its reserves and repay its outstanding liabilities and cannot be distributed among its members.

4. INFORMATION CONCERNING THE SECURITIES TO BE ADMITTED TO TRADING. TERMS AND CONDITIONS OF THE NOTES.

The following is the text of the terms and conditions which, as completed by the relevant Final Terms, will be applicable to the Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. Those definitions will be endorsed on the definitive Notes. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

Corporación de Reservas Estratégicas de Productos Petrolíferos (the **Issuer**) has established a programme (the **Programme**) for the issuance of up to €1,500,000,000 in aggregate principal amount of notes (the **Notes**) in accordance with the threshold authorised by CORES’ Board of Directors’ resolutions passed on 21 May 2015 and 23 July 2015 pursuant to article 406 of Royal Decree Legislative 1/2010, of 2 July 2010, approving the consolidated text of the Spanish Companies Act (*Ley de Sociedades de Capital*) (the **Spanish Companies Act**), as amended amongst other, by Act 5/2015, of 27 April 2015, on the enhancement of corporate finance (“**Act 5/2015**”). Notes issued pursuant to the Programme will be in uncertificated, dematerialised, book-entry form (*anotaciones en cuenta*).

Notes issued under the Programme are issued in series (each a **Series**) and each Series may comprise one or more tranches (each a **Tranche**) of Notes. Each Tranche is the subject of Final Terms (the **Final Terms**) which complete these terms and conditions (the **Conditions**). All references to “Notes” are to the Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms will be available for viewing on www.cnmv.es. The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms. According to the legislation in force, the Notes will grant no present and/or future voting and other non-financial rights in CORES. The investor’s economic and financial rights associated to the acquisition and holding of Notes will be those resulting from the interest rate, yield and redemption amount conditions as set out in the respective Final Terms and in Conditions 4 (*Interest*), 5 (*Payments*) and 6 (*Redemption and purchase*) below. In any case, Investors in the securities will not receive negative returns.

1 FORM, SPECIFIED DENOMINATION AND TITLE

1.1 *Form and denomination*

The Notes will be issued in uncertificated, dematerialised book-entry form (*anotaciones en cuenta*) in the aggregate nominal amount (the **Aggregate Nominal Amount**), specified denomination (the **Specified Denomination**) and specified currency (the **Specified Currency**) shown in the relevant Final Terms provided that the minimum Specified Denomination shall be €100,000 (or its equivalent in any other currency as at the date of issue of the relevant Notes).

1.2 *Registration, clearing and settlement*

The Notes will be registered with the Spanish Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A. Unipersonal (**Iberclear**) as managing entity of the central registry of the Spanish clearance and settlement system (the **Spanish Central Registry**) with its registered office at Plaza de la Lealtad, 1, 28014, Madrid, Spain. Holders of the Notes who do not have, directly or indirectly through their custodians, a participating account with Iberclear may hold the Notes through bridge accounts maintained by each of Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, société anonyme, Luxembourg (**Clearstream Luxembourg**) with direct participants in Iberclear.

Iberclear will manage the settlement and clearing of the Notes, notwithstanding the Issuer’s commitment to assist, when appropriate, on the clearing and settlement of the Notes through Euroclear and Clearstream Luxembourg.

The information concerning the International Securities Identification Number Code of the Notes (the **ISIN Code**) which will be provided by the Spanish National Numbering Agency (*Agencia Nacional de Codificación de Valores Mobiliarios*) will be stated in the Final Terms.

1.3 Title and transfer

Title to the Notes will be evidenced by book entries and each person shown in the Spanish Central Registry managed by Iberclear and in the registries maintained by the respective participating entities (*entidades participantes*) in Iberclear (the **Iberclear Members**) as being the holders of the Notes shall be considered the holder of the principal amount of the Notes recorded therein. In these Conditions, the **Holder** of a Note means the person in whose name such Note is for the time being registered in the Spanish Central Registry managed by Iberclear or, as the case may be, the relevant Iberclear Member accounting book (or, in the case of a joint holding, the first named thereof) and **Noteholder** shall be construed accordingly.

One or more certificates (each, a **Certificate**) attesting to the relevant Noteholder's holding of the Notes in the relevant registry will be delivered by the relevant Iberclear Member or, where the Holder is itself an Iberclear Member, by Iberclear (in each case, in accordance with the requirements of Spanish law and the relevant Iberclear Member's or, as the case may be, Iberclear's procedures) to such Holder upon such Holder's request.

The Notes are issued without any restrictions on their free transferability. Consequently, the Notes may be transferred and title to the Notes may pass (subject to Spanish law and to compliance with all applicable rules, restrictions and requirements of Iberclear or, as the case may be, the relevant Iberclear Member) upon registration in the relevant registry of each Iberclear Member and / or Iberclear itself, as applicable. Each Holder will be treated as the legitimate owner (*titular legítimo*) of the relevant Notes for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any interest or any writing on, or the theft or loss of, any certificate issued in respect thereof) and no person will be liable for so treating the Holder.

2 ISSUE AND MATURITY DATE

The Notes will be issued and will mature on the respective date set forth in the relevant Final Terms (the **Issue Date** and the **Maturity Date**, respectively). In any case, the maturity period for the Notes shall not exceed 30 years from the Issue Date.

3 LISTING AND ADMISSION TO TRADING AND STATUS OF THE NOTES

Unless another European securities markets is stated in the applicable Final Terms, the Issuer undertakes to make or cause to be made an application on its behalf for the Notes to be admitted to listing and admitted to trading on AIAF within 30 days after the Issue Date

The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves except for any applicable legal and statutory exceptions. Upon the insolvency of the Issuer, the obligations of the Issuer under the Notes shall (except for any applicable legal and statutory exceptions) at all times rank at least equally with all other unsecured and unsubordinated obligations of the Issuer (unless they qualify as subordinated claims pursuant to article 92 of Act 22/2003 (*Ley Concursal*) dated 9 July 2003 (the **Insolvency Act**) or equivalent legal provisions which replace it in the future).

In the event of insolvency (*concurso*) of the Issuer, under the Insolvency Act, claims relating to the Notes (which are not subordinated pursuant to article 92 of the Insolvency Act) will be ordinary credits (*créditos ordinarios*) as defined in the Insolvency Act. Ordinary credits rank junior to credits against the insolvency state (*créditos contra la masa*) and credits with a privilege (*créditos privilegiados*). Ordinary credits rank senior to subordinated credits and the rights of shareholders.

Pursuant to article 59 of the Insolvency Act, interest on the Notes shall cease to accrue as from the date of declaration of the insolvency of the Issuer. Interest on the Notes accrued but unpaid as of the commencement of any insolvency procedure of the Issuer shall constitute subordinated claims against the Issuer ranking in accordance with the provisions of article 92 of the Insolvency Act.

4 INTEREST

4.1 Interest on Fixed Rate Notes

This Condition 4.1 is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable (the **Fixed Rate Notes**).

Each Fixed Rate Note bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 4.6.

If a Fixed Coupon Amount or a Broken Amount is specified hereon, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and, in the case of the Broken Amount, will be payable on the particular Interest Payment Date(s).

4.2 Interest on Floating Rate Notes

This Condition 4.2 is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable (the **Floating Rate Notes**).

(i) Interest Payment Dates

Each Floating Rate Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 4.6. Such Interest Payment Date(s) is/are either shown in the relevant Final Terms as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown thereon, Interest Payment Date shall mean each date which falls the number of months or other period specified as the Interest Period in the relevant Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(ii) Business Day Convention

If any date referred to in these Conditions which is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is (i) the Floating Rate Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (a) such date shall be brought forward to the immediately preceding Business Day and (b) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (ii) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day, (iii) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (iv) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) Rate of Interest for Floating Rate Notes

The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified hereon and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Final Terms as being applicable. In any case, the Rate of Interest determined for any Interest Accrual Period according to either ISDA Determination or Screen Rate Determination shall be subject to a floor of zero to ensure

that the Rate of Interest on any Interest Accrual Period for Floating Rate Notes is not negative.

(a) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (a), ISDA Rate for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Final Terms;
- (y) the Designated Maturity is a period specified in the relevant Final Terms; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Final Terms;

For the purposes of this sub-paragraph (a), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity, Reset Date** and **Swap Transaction** have the meanings given to those terms in the ISDA Definitions.

(b) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

- (x) if the Relevant Screen Page is not available or, if sub paragraph (b)(1) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (b)(2) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), or if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of

Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

- (y) if paragraph (x) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

4.3 Interest on Zero Coupon Notes

This Condition 4.3 is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable (the **Zero Coupon Notes**).

Where a Note the interest basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (calculated in accordance with Condition 6.4)).

4.4 Accrual of Interest

Interest shall cease to accrue on each Note on the due date for redemption unless payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgment) at the Rate of Interest in the manner provided in this Condition 4 to the Relevant Date (as defined in this Condition 4 (*Interest*)).

4.5 Margin, Maximum/Minimum Interest Rates and Redemption Amounts, and Rounding

- (i) If any Margin is specified hereon (either (a) generally, or (b) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (a), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (b), calculated in accordance with Condition 4.2 above by adding (if a positive number) or subtracting (if a negative number) the absolute value of such Margin subject always to the next paragraph.
- (ii) If any Maximum or Minimum Interest Rate or Redemption Amount is specified hereon, then any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (b) all figures will be rounded to seven significant figures (with halves being rounded up) and (c) all currency amounts which fall due and payable will be rounded to the nearest unit of such currency (with halves being rounded up). For these purposes unit means, with respect to any currency other than Euro, the lowest amount of such currency which is available as legal tender in the country of such currency and, with respect to Euro, means 0.01 Euro.

4.6 Calculations

The amount of interest payable per Calculation Amount in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest applied to the Calculation Amount specified in the relevant Final Terms, multiplied by the relevant Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.

4.7 Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts and Optional Redemption Amounts

The Calculation Agent shall, as soon as practicable on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quote or make any determination or calculation, determine the Rate of Interest and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount or the Optional Redemption Amount, obtain such quote or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount to be notified to the Issuer, each of the Paying Agents, the Holders, any other Calculation Agent appointed in respect of the Notes which is to make a further calculation upon receipt of such information and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of a Rate of Interest, the Interest Amount, the Interest Payment Date, the Final Redemption Amount, Early Redemption Amount and Optional Redemption Amount, or (ii) in all other cases, as soon as practicable but in no event later than the fourth Business Day after such determination. The Interest Amounts

and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 9 (*Events of default*), the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amounts so calculated need be made. The determination of each Rate of Interest, Interest Amount, Final Redemption Amount, the Early Redemption Amount and the Optional Redemption Amount, the obtaining of each quote and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

In addition, the following section does not cover those tax laws in force in the Spanish Basque provinces and Navarra as well as the particularities in force in the Spanish autonomous regions (*comunidades autónomas*), or the special rules applicable to transactions among related persons for Spanish tax purposes.

The information provided below has been prepared in accordance with the following Spanish tax legislation in force at the date of this Base Prospectus:

- (i) for individuals with tax residency in Spain who are individual income tax (**IIT**) taxpayers, Law 35/2006, of 28 November 2006, on IIT and on the partial amendment of the Corporate Income Tax Law, Non Residents Income Tax Law and Wealth Tax Law as amended, as well as Royal Decree 439/2007, of 30 March 2007, promulgating the IIT Regulations as amended, along with Law 19/1991, of 6 June 1991, on the Net Wealth Tax and Law 29/1987, of 18 December 1987, on the Inheritance and Gift Tax (**IGT**);
- (ii) for legal entities resident for tax purposes in Spain which are subject to the Spanish Corporate Income Tax (**CIT**), Law 27/2014, of 27 November 2014, on the CIT Law, as amended, and Royal Decree 1777/2004, of 30 July 2004, promulgating the CIT Regulations;
- (iii) for individuals and entities who are not resident for tax purposes in Spain which are subject to the Spanish Non-Resident Income Tax (**NRIT**), Royal Legislative Decree 5/2004, of 5 March 2004, promulgating the Consolidated Text of the NRIT Law, as amended, and Royal Decree 1776/2004, of 30 July 2004, promulgating the NRIT Regulations as amended, along with Law 19/1991, of 6 June 1991, on the Net Wealth Tax and Law 29/1987, of 18 December 1987, on IGT.

Whatever the nature and residence of the beneficial owners of the Notes, the acquisition and transfer of Notes will be exempt from indirect taxes in Spain, i.e., exempt from transfer tax and stamp duty, in accordance with the Consolidated Text of such taxes promulgated by Royal Legislative Decree

1/1993, of 24 September 1993, and exempt from VAT, in accordance with Law 37/1992, of 28 December 1992, regulating such tax.

Individuals with Tax Residency in Spain

Individual Income Tax (*Impuesto sobre la Renta de las Personas Físicas*)

Both interest periodically received and income derived from the transfer, redemption or repayment of the Notes by IIT taxpayers is deemed as income obtained from the transfer of a person's own capital to third parties in accordance with the provisions of Section 25.2 of the IIT Law, and must be included in the investor's IIT savings taxable base, which is taxed in 2015 at a flat rate of 20% on the first €6,000, 22% for taxable income between €6,001 and €50,000 and 24% for any amount in excess of €50,000.

As from 1 January 2016, the savings taxable base will be taxed at the rate of 19% on the first €6,000, 21% for taxable income between €6,001 and €50,000, and 23% for taxable income exceeding €50,000.

A (current) 20% withholding on account of IIT (19% in 2016 and onwards) will be imposed by the Issuer on interest payments as well as on income derived from the redemption or repayment of the Notes, by individual investors subject to IIT.

Similarly, income derived from the transfer of the Notes may be subject to withholding on account of IIT. However, with certain exceptions, income derived from the transfer of the Notes which qualify as financial assets with an explicit yield for Spanish tax purposes should not be generally subject to withholding on account of IIT provided that the Notes are:

- (i) registered by way of book entries (*anotaciones en cuenta*); and
- (ii) negotiated in a Spanish official secondary market (*mercado secundario oficial*), such as AIAF.

According to Section 26 of the IIT Law, administration and custody fees are deductible expenses in IIT. On the other hand, fees charged for discretionary and individualised management of investment portfolios will not be deductible.

In any event, the individual holder may credit the withholding tax applied on account of IIT against his or her final IIT liability for the relevant tax year.

Net Wealth Tax (*Impuesto sobre el Patrimonio*)

For tax year 2015, Spanish resident tax individuals are subject to Spanish Net Wealth Tax, which imposes a tax on property and rights in excess of €700,000 held on the last day of any year.

Spanish tax resident individuals whose net worth is above €700,000 and who hold Notes on the last day of any year would therefore be subject to Spanish Net Wealth Tax for such year at marginal rates varying between 0.2% and 2.5% of the average market value of the Notes during the last quarter of such year, as published by the Spanish Ministry of Revenues on an annual basis. This taxation may be affected by the applicable Spanish regional rules.

From 2016 onwards, a general 100% tax relief applies (set forth by article 61 of Law 36/2014 of December 26 approving the General State Budget for 2015).

Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals who are resident in Spain for tax purposes who acquire ownership or other rights over any Notes by inheritance, gift or legacy will be subject to the Spanish IGT in accordance with the applicable Spanish regional and state rules. The applicable tax rates range between 7.65% and 81.6% for 2015, depending on relevant factors.

Legal Entities with Tax Residency in Spain

Corporate Income Tax (*Impuesto sobre Sociedades*)

Both interest periodically received and income derived from the transfer, redemption or repayment of the Notes by CIT taxpayers are subject to CIT (at the current general flat tax rate of 28% for 2015) in accordance with the rules for such tax.

With regard to income derived from the Notes, in accordance with article 59.q of the CIT regulations, there is no obligation to withhold on income obtained by Spanish CIT taxpayers (which include Spanish tax resident investment funds and Spanish tax resident pension funds) provided that the Notes are:

- (i) registered by way of book entries (*anotaciones en cuenta*); and
- (ii) negotiated in a Spanish official secondary market (*mercado secundario oficial*), such as AIAF.

If the Notes do not meet these conditions, income derived from the Notes may be subject to a (current) 20% withholding on account of CIT (19% in 2016 and onwards). Certain Spanish withholding tax exemptions may apply in specific cases.

In any event, the CIT holder may credit the withholding tax on account of CIT applied against its final CIT liability for the relevant tax year.

Net Wealth Tax (*Impuesto sobre el Patrimonio*)

Legal entities resident in Spain for tax purposes that acquire ownership or other rights over the Notes are not subject to Spanish Wealth Tax.

Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Legal entities resident in Spain for tax purposes that acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to the IGT but generally must include the market value of the Notes in their taxable income for CIT purposes.

Individuals and Legal Entities that Are Not Tax Resident in Spain

- 1) *Investors that Are Not Resident in Spain for Tax Purposes, Acting in Respect of the Notes Through a Permanent Establishment in Spain*

Non-resident Income Tax (*Impuesto sobre la Renta de no Residentes*)

If the Notes form part of the assets affected to a permanent establishment in Spain of a person or legal entity that is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes are, generally, the same as those set forth above for Spanish CIT taxpayers. See “—Legal Entities with Tax Residency in Spain—Corporate Income Tax (*Impuesto sobre Sociedades*).”

Ownership of the Notes by investors who are not resident in Spain for tax purposes will not in itself create the existence of a permanent establishment in Spain.

- 2) *Investors that Are Not Resident in Spain for Tax Purposes, Not Acting in Respect of the Notes Through a Permanent Establishment in Spain*

(A) *Non-resident Income Tax (*Impuesto sobre la Renta de no Residentes*).*

Both interest payments periodically received under the Notes and income derived from the transfer, redemption or repayment of the Notes, obtained by individuals or entities who are not resident in Spain for tax purposes and who do not act, with respect to the Notes, through a permanent establishment in Spain, will be subject to Spanish NRIT, at a 20% rate (19% in 2016 and onwards), which will be generally withheld by the corresponding Spanish withholding tax agent.

However, payments of interest from the Notes made by the Issuer to these investors will be exempt from Spanish NRIT if such individuals or entities are:

- (i) resident for tax purposes in a Member State of the European Union, other than Spain, or a permanent establishment of such resident situated in another Member State of the European Union not resident in, or acting through, a territory considered as a tax haven pursuant to Spanish law (as currently set out in Royal Decree 1080/1991 of July 5), and that do not act through a permanent establishment in Spain or in a country or jurisdiction outside the European Union in respect of the Notes; or

(ii) resident of a country or jurisdiction with which Spain has ratified a convention to avoid double taxation on income taxes which provides with a full exemption from tax imposed in Spain on such payment.

provided in both cases that such individual or entity submits to the Issuer prior to the corresponding payment of interest a valid certificate of tax residence for any of the aforementioned purposes, duly issued by the tax authorities of the country of tax residence, each certificate generally being valid for a period of one year beginning on the date of its issuance.

Investors are advised to consult their own tax advisers regarding their eligibility to claim a refund from the Spanish tax authorities and the procedures to be followed in such circumstances.

(B) Net Wealth Tax (*Impuesto sobre el Patrimonio*)

For tax year 2015, Spanish non-resident tax individuals are subject to Spanish Net Wealth Tax, which imposes a tax on property and rights in excess of €700,000 that are located in Spain, or can be exercised within the Spanish territory, as the case may be, on the last day of any year.

However, to the extent that income derived from the Notes is exempt from NRIT, individual beneficial owners not resident in Spain for tax purposes that hold Notes on the last day of any year will be exempt from Spanish Net Wealth Tax. Furthermore, beneficial owners who benefit from a treaty for the avoidance of double taxation with respect to wealth tax that provides for taxation only in the beneficial owner's country of residence will not be subject to Spanish Net Wealth Tax.

If the provisions of the foregoing paragraph do not apply, non-Spanish tax resident individuals whose net worth related to property located, or rights that can be exercised, in Spain is above €700,000 and who hold Notes on the last day of any year would therefore be subject to Spanish Net Wealth Tax for such year at marginal rates varying between 0.2% and 2.5% of the average market value of the Notes during the last quarter of such year, as published by the Spanish Ministry of Revenues on an annual basis. Non-Spanish tax resident individuals who are resident in an EU or European Economic Area member State may apply the rules approved by the autonomous region where the assets and rights with more value are situated. As such, prospective investors should consult their tax advisers.

From 2016 onwards, a general 100% tax relief applies (set forth by article 61 of Law 36/2014 of December 26 approving the General State Budget for 2015).

Non-Spanish tax resident legal entities are not subject to Spanish Net Wealth Tax.

(C) Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals not resident in Spain for tax purposes who acquire ownership or other rights over the Notes by inheritance, gift or legacy, will be subject to IGT in accordance with the applicable Spanish state rules, unless they reside in a country for tax purposes with which Spain has entered into a treaty for the avoidance of double taxation in relation to IGT. In such case, the provisions of the relevant treaty for the avoidance of double taxation will apply.

If no treaty for the avoidance of double taxation in relation to IGT applies, applicable IGT rates would range between 7.65% and 81.6% for 2015, depending on relevant factors. Generally, non-Spanish tax resident individuals are subject to Spanish IGT according to the rules set forth in the state IGT law. However, if the deceased or the donee are resident in an EU or European Economic Area member State, the applicable rules will be those corresponding to the relevant autonomous regions according to the law. As such, prospective investors should consult their tax advisers.

Non-Spanish tax resident legal entities that acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to IGT. Such acquisitions may be subject to NRIT, unless otherwise applicable under the provisions of any applicable treaty for the avoidance of double taxation entered into by Spain. In general, treaties for the avoidance of double taxation provide for the taxation of this type of income in the country of tax residence of the beneficiary owner.

The proposed Financial Transactions Tax (FTT)

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear, although joint statements issued by participating Member States indicate an intention to implement the FTT by 1 January 2016. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

European Union Directive on the Taxation of Savings Income

Under Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments, each Member State of the European Union is required to provide to the tax or other relevant authorities of another Member State details of payments of interest or other similar income made by a person within its jurisdiction to, or collected by such a person for, an individual or certain other types of person resident in that other Member State; however, for a transitional period, Austria has instead opted to apply a withholding system in relation to such payments, deducting tax at the rate of 35%, unless during that period they elect otherwise. The transitional period is to terminate following agreement by certain non-EU countries to the exchange of information relating to such payments

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provisions of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

The Council Directive 2003/48/EC has been amended by the Council Directive 2014/48/EU which was published on 15 April 2014 (the **Amending Savings Directive**). The Amending Savings Directive broadens the scope of the requirements described above. Member States have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Savings Directive. The changes made under the Amending Savings Directive include extending the scope of the Directive to payments made to, or collected for, certain other entities and legal arrangements. They also broaden the definition of "interest payment" to cover income that is equivalent to interest.

However, the European Commission has proposed the repeal of the amending Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Amending Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU).

The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Savings Directive.

Investors who are in any doubt as to their position should consult their professional advisers.

U.S. Foreign Account Tax Compliance Withholding

The U.S. “Foreign Account Tax Compliance Act” (or **FATCA**) imposes a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) “foreign passthru payments” made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. Whilst the Notes are held within the clearing systems, in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding.

FATCA is particularly complex and its application is uncertain at this time. Prospective investors should consult their tax advisers on how these rules may apply to payments they may receive in connection with the Notes.

8. SUMMARY OF CLEARANCE AND SETTLEMENT PROCEDURES APPLICABLE TO BOOK-ENTRY NOTES

Below is a brief summary of the Spanish clearance and settlement procedures applicable to book-entry notes such as the Notes.

Notwithstanding this summary, it should be noted that the Spanish clearing, settlement and registry system of securities transactions is expected to undergo a significant reform to align it with the practices and standards of its European neighbours and prepare it for the implementation of future integration projects.

In this sense, Act 32/2011, of 4 October which amends Act 24/1988, of 28 July on the Securities Market (*Ley 32/2011, de 4 de octubre, por la que se modifica la Ley 24/1988, de 28 julio, del Mercado de Valores*) (“**Act 32/2011**”), anticipates and sets the master plan of the future Spanish clearing, settlement and registry system providing for certain changes that are yet to be implemented and that will modify the system and allow for the integration of the post trading Spanish systems into the TARGET System (TARGET2), that is scheduled to be fully implemented in February 2017.

Even though Act 32/2011 is the starting point of a set of reforms that will change the systems and procedures applied for the last two decades in this area, it should be emphasised that, as of the date of this Base Prospectus, the procedures remain practically unaltered, and there is no clear timeframe in which the reform will be implemented effectively.

Additionally, Regulation (EU) No. 909/2014 of the European Parliament and of the Council of July 23, on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 provides that the maximum settlement period as regards transactions in transferable securities which are executed on trading venues shall be no later than on the second business day after the relevant trade takes place subject to certain exemptions.

On 28 May 2015 the Bank of Spain and the CNMV issued a release on the status of the reform of the Spanish securities settlement system where it stated that it expects that the new T+2 settlement standard will be introduced on October 2015 for the equity platform and on February 2017 for the debt platform.

However, due to the complexity and breadth of the project, on 4 September 2015 the Bank of Spain together with the CNMV issued a joint statement communicating the modification of the initial date of establishment of the new T+2 settlement standard for the equity platform from October 2015 to a date between the 3rd and 8th February 2016 while the expected date of implementation of the T+2 settlement standard for the debt platform remains unaltered.

In this respect, Law 11/2015, on the resolution and recovery of credit entities and investment firms adapts Law 24/1988 to the provisions of Regulation (EU) No. 909/2014 to further the reform of the Spanish clearing, settlement and registry system of securities transactions and adjust Spanish legislation to Regulation (EU) No. 909/2014.

The project to reform Spain's clearing, settlement and registry system and its connection to the TARGET System (the **Reform**) introduces significant new features that affect all classes of securities and all post-trade activities. In any case, the Reform is still an on-going process and it is still subject to changes and modifications both in the expected timetable for its implementation and in the content and scope of the measures to be adopted and implemented in the Spanish clearing, settlement and registry system.

In particular, this Reform would introduce three fundamental changes that, in turn, involve a number of operating modifications. Such changes are as follows:

- (i) A new registry system based on balances.
- (ii) The introduction of a new Central Clearing Counterparty (BME Clearing, the **CCP**)
- (iii) Integration of the current CADE (*Central de Anotaciones de Deuda Pública*) and SLCV (*Servicio de Compensación y Liquidación de Valores*) into a single platform.

The Reform is expected to be implemented in two phases:

- (iv) The first phase that is envisaged to take place in the first quarter of 2016 will involve setting up a new system for equities to include all the changes envisaged in the Reform, including the creation of the CCP, for post-trade operations the design of which must be compatible with the TARGET System (messages, account structure, definition of operations, etc.). Accordingly, the SCLV platform will be discontinued.

That system will continue to settle by the current deadline of T+3, although that should be reduced to T+2 within a period of 2-3 months since that is the settlement period in the proposed regulation on improving securities settlement in the European Union and on central securities depositories (CSDs).

The CADE platform will continue to operate unchanged and cash settlements in the new system will be made in the TARGET2-Bank of Spain cash accounts, as at present.

- (v) The second phase will be implemented to coincide with Iberclear's connection to the TARGET System, scheduled for the first quarter of 2017. At that time, fixed-income securities will be transferred to the new system, and CADE will be discontinued.

Equities will also be settled in accordance with the procedures and time periods of the TARGET System, so that the interim settlement procedure used in the first phase will be discontinued.

The second phase will entail unifying the registry and settlement approach for both equities and fixed-income.

As a result of these changes, various operating modifications are expected to take place. To mention a few:

- (i) Entities (financial institutions) will be able to be members of one, two or even three of the new infrastructures (i.e. the trading platform (SIBE), the CCP (BME Clearing), and the central securities depository (Iberclear).
- (ii) Each Stock Exchange member will need to sign a contract with a General Clearing Member of the CCP (with the exception of the same entity being member of both infrastructures).
- (iii) Each CCP Member will need to sign a contract with, at least, an Iberclear Settlement Participant (with the exception of the same entity being member of both infrastructures).
- (iv) There will be Individual Accounts, in both the CCP and the Central Securities Depository,
- (v) The CCP will make the netting of transactions (trades) possible before generating settlement instructions.
- (vi) Iberclear will implement and manage an optimisation procedure that will enable the maximisation of settled transactions in the exceptional occasions in which a delay of delivery of securities occurs.
- (vii) The current Collective Deposit will be replaced by the CCP guarantee system (Default Fund).
- (viii) Communications between Participants and infrastructure members will be managed by an ancillary system (named "PTI" Post-Trading Interface) that will simplify their requirements and work.
- (ix) The system will be more flexible, for example:
 - It will be possible to settle in the CCP accounts in gross or net value.
 - There will be different classes of Members, with the possibility to become Ordinary Trading Member or Segregated Trading Member.

The market model, in relation to the trading platforms, would not experience any modifications as a consequence of the Reform, though it would imply some changes in the Trading Members systems:

- (i) Change in the trading procedures: modifications in the communication protocols of the trades to the trading platform to add new optional information on the clearing side.
- (ii) Change in the post-trading procedures: the procedures will be adapted to enable the new functionalities and contents that must be incorporated due to the reform.
- (iii) It might be necessary to put controls in place over the activity between Trading and Clearing Members.

Iberclear

Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Sociedad Unipersonal (Iberclear) is the Spanish central securities depository in charge of both the register of securities held in book-entry form, and the clearing and settlement of all trades from the Spanish Stock Exchanges, Latibex (the Latin American stock exchange denominated in Euro), the Book-Entry Public Debt Market (*Mercado de Deuda Pública en Anotaciones*) and the Spanish AIAF Fixed Income Securities Market (*AIAF Mercado de Renta Fija*). To achieve this, Iberclear uses two technical platforms, SCLV (for the Spanish Stock Exchanges and Latibex) and CADE (for the Book-Entry Public Debt Market and AIAF).

Iberclear is owned by *Bolsas y Mercados Españoles, Sociedad Holding de Mercados y Sistemas Financieros, S.A.*, a holding company, which holds a 100% interest in each of the Spanish official secondary markets and settlement systems.

Iberclear Securities Registration System

Iberclear and the Iberclear Members (*entidades participantes*) have the function of keeping the book-entry register of securities traded on AIAF.

The book-entry register structure is divided into: (i) the Spanish Central Registry managed by Iberclear, that reflects the aggregate balance of the securities held by each of the Iberclear Members (segregated into the Iberclear Members' own account and accounts held on behalf of third parties), and (ii) an itemised individual register managed by each of the Iberclear Members, in which securities are listed under the security owner's name.

Spanish law considers the legal owner of the securities to be:

- (i) the Iberclear Member appearing in the records of Iberclear as holding the relevant securities in its own name; or
- (ii) the investor appearing in the records of the Iberclear Member as holding the securities.

Iberclear Settlement of securities traded in AIAF

Securities traded in AIAF are private fixed income securities, including corporate bonds (for example, medium term notes and mortgage bonds), represented either in a dematerialised form or by certificates.

In the AIAF settlement system, transactions may be settled spot, forward (settlement date more than five days after the relevant trade date), with a repurchase agreement on a fixed date and double or simultaneous transactions (two trades in opposite directions with different settlement dates).

The settlement system used for securities admitted for trading in AIAF is the Model 1 delivery versus payment system, as per the classification of the Bank for International Settlements: that is, it is a "transaction-to-transaction" cash and securities settlement system with simultaneity in its finality.

Transactions are settled on the business day agreed by participants at the moment of the trade.

Settlement Cycles: The CADE Platform

The process of settling all reported trades with a value date on a specific day, is to be carried out in three phases:

- (i) First settlement cycle,
- (ii) Real-time settlement, and
- (iii) Session close

The first cycle includes all transactions reported to CADE up to 6 p.m. (Madrid time) of D-1, and these are settled if sufficient funds and an adequate securities balance are available in the pertinent accounts.

The real-time settlement process is carried out between 7 a.m. (Madrid time) and 4 p.m. (Madrid time) of the settlement day, and the system first checks if a sufficient securities balance is available. If it is available, but the buyer of the securities does not have available funds, the order is rejected and returned to CADE, and placed in a queue. The process is periodically activated until enough balance is available in the relevant accounts to settle outstanding orders with finality. If the balance in the seller's securities account is insufficient, the transaction is placed in a queue. When a credit is lodged in a securities account, the system checks whether queued orders can be processed.

At the end of the day, the system tries one last time to settle all transactions not settled in the first cycle or during the process in real time. The settlement cycle at the end of the day takes place at 5 p.m. (Madrid time).

If the seller's securities account has sufficient balance, the system checks - by means of a comparison with the payment side - if there is also sufficient balance in the buyer's cash account. That is, securities and cash are not immediately blocked. Once the transfers of securities and cash have been executed, each of the transactions is considered final.
