SUMMARY DESCRIPTION OF THE MAIN TERMS AND CONDITIONS OF THE HEDGING AGREEMENTS AND HEDGING TRANSACTIONS

Not Applicable

WEIGHTED AVERAGE LIFE OF THE NOTES, INTERNAL RATE OF RETURN AND ASSUMPTIONS

General

The yields to maturity on the Class A2019-02 Notes will be sensitive to and affected by the amount and timing of delinquencies, prepayment and payment pattern, revolving and credit card usage, dilution and default on the Purchased Receivables, the level of the relevant interest reference rate, the occurrence of any Revolving Termination Events or Accelerated Amortisation Events or any Fund Liquidation Events, the issuance of a new Note Series, the occurrence of an Optional Early Redemption Event or any Optional Repurchase Event and any other repurchases of the Purchased Receivables by the Seller. Each of such events may impact the weighted average lives, the internal rates of return, and the Duration of the Class A2019-02 Notes.

Weighted Average Lives and Internal Rates of Return of the Class A2019-02 Notes.

The “Weighted Average Life” (WAL) of the Class A2019-02 Notes, refers to the average amount of time that will elapse from the date of issuance of the Class A2019-02 Notes to the date of distribution to the investor of each Euro distributed in reduction of the principal of such security. The Weighted Average Life of the Class A2019-02 Notes shall be affected by the available funds allocated to redeem the Class A2019-02 Notes.

The “Internal Rate of Return” (IRR) of the Class A2019-02 Notes refers to the rate of return that makes the net present value of all cash flows (both positive and negative) from the investment in the Class A2019-02 Notes equal to zero. The Internal Rate of Return of the Class A2019-02 Notes shall be affected by the available funds allocated to pay interests due on the Class A2019-02 Notes.

The information included in the tables below assume, among other things:

- (a) the Disbursement Date of the Note Series 2019-02 is 24th July 2019;
- (b) the Scheduled Amortisation Starting Date is 26th May 2022;
- (c) the cut-off date is 12th June 2019 corresponding to the Selection date of last Initial Transfers incorporated to the portfolio ;
- (d) that on the Disbursement Date of the Note Series 2019-02, the Outstanding Principal Balances of the Purchased Receivables is equal to the Minimum Portfolio Amount which amounts to EUR 1.388.600,000,000 as of such date. New Receivables are purchased (if required) in order to maintain such Minimum Portfolio Amount;
- (e) that the composition and the amortisation profile of the portfolio of the Purchased Receivables (and the new Receivables purchased during the Note Series Non-Amortisation Period of the outstanding Note Series) is similar to the composition and amortisation profile of the performing portfolio;

- (f) no new issuance of further Note Series occurs apart from 2019-03 issuance (however for calculation purposes, previously issued and outstanding Notes Series are considered);
- (g) the Seller does not repurchase any Receivables purchased by the Fund;
- (h) the rate of defaults on the Receivables is assumed constant at 6.50%, which is consistent with the one observed by the Seller;
- (i) interest payments on the Receivables will be received, if any at the applicable interest rate offered by WIZINK which as of the cut-off date stand at 23.61 No adjustment of the applicable interest rate under the Credit Card Agreements is offered by WIZINK;
- (j) the Fund excess margin is sufficient to cover the assumed rate of defaults on the Receivables;
- (k) In respect of Class A and C Notes, the assumed monthly constant principal payment ratio is: (i) 8% in respect of scenario 1; (ii) 12% in respect of scenario 2; and (iii) 15 % in respect of scenario 3, according to the following tables. These scenarios have been defined based on the observed performance of the Purchased Receivables as 12/06/2019 which is the Fund cut-off Date corresponding to the to the Selection date of last Initial Transfers incorporated to the portfolio prior to the issuance of such Notes “;
- (l) the calculation of the weighted average life (in years) is calculated on an Actual/Actual basis;
- (m) the Note Series 2019-02 Clean-Up Call Conditions will not be considered applicable;
- (n) none of the Fund Liquidation Events are considered applicable;
- (o) payment of principal and interest due and payable under the Notes will be received on the 26th day of each month. The corresponding Payment Date;
- (p) zero per cent investment return is earned on the Issuer Accounts;
- (q) no Revolving Termination Event has occurred;
- (r) no Accelerated Amortisation Event has occurred; and
- (s) it is not necessary to use the Commingling Reserve or the General Reserve.

The actual characteristics and performance of the Purchased Receivables will differ from the assumptions used in constructing the tables set forth below, which are hypothetical in nature and provided only to give a general sense of how the principal cash flows might behave under varying monthly rate of principal payment scenarios. For example, it is unlikely that the receivables will pay at a constant monthly rate of principal payment until maturity. Any difference between such assumptions and the actual characteristics and performance of the Purchased Receivables, or actual monthly rate of principal payment of loss experiences, will affect the percentage of principal amount

outstanding as well as interest payment over time and the Weighted Average Life and Internal Rate of Return of the Class A2019-02 Notes.

Subject to the foregoing discussion and assumptions, the following tables indicate the Weighted Average Life, Duration and the Internal Rate of Return of the Class A2019-02 Notes under the monthly constant principal payment ratio shown and depending on the exercise of the optional redemption of the Note Series 2019-02 on the Note Series 2019-02 Call Date.

Cumulative Default Ratio is the ratio of (a) the cumulative receivables arising from Defaulted Credit Cards in the Fund during the life of the Fund and (b) the sum of the Receivables transferred to the Fund during the life of the fund minus the reimbursement of withdraws.
