Applus+ Energy & Industry (I)

Q3 Revenue (€m)

YTD Q3 Revenue (€m)

- The market environment for Oil & Gas remains challenging with price pressure and reduced volumes
- Construction, Power, Telecom, Aerospace and other end markets accounting for third of division, continue performing well growing at mid single digits

Applus+ Energy & Industry (II)

- North America (26% of division revenue), remains the toughest market environment with limited sign of an upturn although revenue decline in Q3 lower than H1
- LatAm (9%), continued growth although at a lower pace in the short term due to some large Oil & Gas projects ending. Other end markets continue to perform well
- Northern Europe (18%), mostly stable except for the capex exposed North Sea environment. Good performance of the aerospace acquisition made in 2015
- Southern Europe, Africa, Middle East, Asia & Pacific (47%):
 - Africa and Asia & Pacific decreasing. The reduction in scope on a major African opex oil contract continues to impact. This contract is in a tender process which is up for renewal mid 2017
