

Explanatory Notes to Financial Statements

1.- Accounting criteria

The financial statements have been prepared in accordance with the International Financial Reporting Standards (EU-IFRS) and the interpretations adopted by the European Union.

The accounting policies applied at consolidated level have been the same as those used in the most recent annual financial statements.

The Standard whose first application was in the Consolidated Financial Statements for the fiscal year ended 31 December 2019 was **IFRS 16 "Leases"**.

In accordance with IFRS 16, the Indra Group has decided to apply the modified retrospective approach, on the basis of which no comparative figures from previous years will be restated.

The following criteria, policies and estimates have been applied

- A review of the contracts and agreements has been carried out to identify whether the contract contains a lease
- For each contract an analysis of the 5 steps indicated by the standard has been carried out for the correct identification of whether the contract contains a lease.
- It has been decided not to apply IFRS 16 to short-term leases (maturity in 12 months or less), nor to leases where the underlying asset has a low value.
- For each contract the standard requires the application of an implicit interest rate for leases. For those cases in which it is not possible to determine it, the standard allows the application of the incremental interest rate of its loans, which has been used by the company, taking into account the term of the lease and the country, for the appropriate initial valuation of the liability. The weighted average interest rate used is 4.5%.
- For each liability, an asset has been created for the corresponding right of use, taking into account possible amounts that the company should add to its asset value under IFRS 16, such as advance payments, decommissioning costs and initial direct cost.

The impacts on the property, plant and equipment, "right of use assets", are as follows:

<u>RIGHT OF USE ASSETS</u>	<u>Thousands of EUR</u>
Cost	
Book value at 1 January 2019 (first application IFRS 16)	151.840
Cost	8.675
Additions	13.127
Perimeter change	1.433
Disposals	(6.873)
Conversion differences	988
Amortization	(31.180)
Amortization	(32.273)
Disposals	969
Conversion differences	124
Total	129.335

In addition, it means an increase in total liabilities of €132,131m, under "Other Non-Current Financial Liabilities" of €102,730m and "Other Current Financial Liabilities" of €29,391m.

2.- Treasury Stock

Making use of the delegation conferred by the General Shareholders Meeting, at 31 December 2019, the Company directly holds a total of 282,006 shares for an amount of €2,788m (at 31 December 2018 a total of 428,489 shares for an amount of €3,663m).

The details of the balances and movements in the treasury stock account during 2019 and 2018 are as follows:

	Thousands of EUR			
	Balance at 31.12.18	Additions	Disposals	Balance at 31.12.19
Intended for:				
-Ordinary and extraordinary transactions	3.663	71.762	(72.637)	2.788

	Thousands of EUR

	0,46	813.376	9.926.994	6,07	(10.311.881)	5,86	428.489	0,24

(*) Includes remaining balance of 11,623 shares in the old treasury stock account for ordinary transactions

The ordinary transactions in the foregoing tables refer to those carried out within the framework of the liquidity agreement that the Company has in force. Until 28 October this contract was with the supplier BEKA FINANCE, S.V., S.A., and on that date a new contract was signed with Banco de Sabadell S.A. (Significant events with registration numbers 282938 and 282939 respectively)..

3.- Capital Stock

At 31 December 2019, the subscribed and paid-up capital was €35,330,880.40, divided into 176,654,402 ordinary shares of €0.20 nominal value each, represented by book entries.

The share capital is fully subscribed and paid up.

4.- Changes in the estimates

Accounting estimates and judgements have been applied consistently with respect to the criteria used in the preparation of the 2018 annual financial statements..

5.- Comparison of information

When comparing the figures for the year, the effects of IFRS 16 must be taken into account.

6.- Dividends paid

No dividends were paid in 2019.

7.- Effect of changes in group composition

The most significant of these are listed below:

Name of the acquiree or incorporated entity	Category	Effective Operation Date	% of acquired voting rights	% of total voting rights after acquisition
Minsait Payments Systems, SLU	Dependent	29/05/2019	100,00%	100,00%
Indra Factoria Tecnología, SLU	Dependent	11/03/2019	100,00%	100,00%
Indra T&D SAC	Dependent	03/06/2019	100,00%	100,00%
Indra Servicios Perú SAC	Dependent	03/06/2019	100,00%	100,00%
Indra Sistemas de transporte y defensa SA de CV	Dependent	06/08/2019	100,00%	100,00%
Morpheus Aiolos, SL	Dependent	20/09/2019	100,00%	100,00%
Sistemas informáticos Abiertos, SA	Dependent	31/12/2019	100,00%	100,00%

Furthermore, the Company has liquidated the company Indra Kazakhstan Engineering LLP and has transferred to available for sale the company Indra Technology South Africa Pty LTD as it is in liquidation period.

Name of the divested or divided entity	Category	Effective Operation Date	Profit or loss generated
Indra Kazakhstan Engineering LLP	Dependent	31/05/2019	
Indra Technology South Africa Pty LTD	Dependent	31/05/2019	

8.- Remuneration received by Directors and Executive Officers

The box 2311 includes the amounts corresponding to the Fixed Remuneration accrued by the executive directors in each of the financial years (3 executive directors in 2019 and 2.9 in 2018).

The box 2312 includes the amounts corresponding to 70% of the Annual Variable Remuneration, which is received in cash, accrued by the executive directors after the end of the corresponding financial years based on the assessment of their management by the Board.

The box 2313 includes the amounts corresponding to 30% of the Annual Variable Remuneration accrued by the executive directors, which is received in shares.

The box 2315 includes the contributions made in each period to the early retirement and long-term savings plan (PPALP) of which the executive directors are beneficiaries.

The Early Retirement and Long-Term Savings Plan is not a pension plan and **its receipt is contingent**. Thus, the Executive Director will only have the right to receive the amount accumulated in the Early Retirement and Long-Term Savings Plan at the moment he reaches age 62 or earlier in the event he leaves his post for reasons not attributable to the Executive Director, including because of change of control of the Company. In the event that he does not meet his contractual obligations, voluntarily leaves the Company, or dies before the age of 62, the Executive Director will not receive the Early Retirement and Long-Term Savings Plan.

The box 2316 includes in both years: (i) the amount corresponding to the remuneration in kind of the executive directors (€82m in 2019 and €56m in 2018), and (ii) the compensation accrued in the period (€1,605m in 2019 and €1,650 in 2018) by Mr. De Andrés, former COO, corresponding to the non-competition agreement signed with the Company.

The box 2325 includes the amounts determined with identical criteria, corresponding to the above-mentioned compensation items for all senior executives who are not executive directors. The information for 2019 refers to the current 13 senior executives and the information for 2018 refers to the 13 senior executives who were then senior executives.

In 2019, the amount includes €263m for the non-competition agreement signed with the Company by Mr. Suárez, a former senior executive of the Company. In 2018, the amount includes €1,194m for compensation accrued during the period by the former senior executives of the Company, Mr. Martín and Mr. Suárez, corresponding to their non-competition agreements signed with the Company.

9.- Related party transactions

See details in section 14 of chapter IV.

All related-party transactions have been authorized in accordance with the provisions of the Regulations of the Board of Directors and have been carried out in the ordinary course of the Group's operations and under market conditions. They do not represent, either as a whole or individually, a significant amount in relation to the equity, financial situation and turnover of the Group, without prejudice to which it is the policy of the Company to inform in detail about them through this means.

10.- Subsequent events

There is no additional information to that included in the interim management report.

2019 Results

Indra accelerates its growth in 2019, backlog (+11%) reaches another historic high and profitability improves again, increasing the EBIT +11%.

- 2019 Order Intake (+7%) grew again above revenue growth (+3%).
- Backlog up +11%, surpassing the €4.5bn mark at 1.4x revenues, new record for Indra.
- Revenues up +4% in local currency in 2019. Minsait revenues grew +6%. By geographies, America stood out (+12% in local currency). 4Q19 Transport & Defence revenues temporary down due to delays in milestone certification of specific projects.
- EBIT grew +11% in 2019, pushed by Minsait profitability (3.8% EBIT margin), despite the lower contribution of the Election Business.
- Net profit stood at €121m and improved +1.3% due to higher tax rate (29% in 2019 vs 25% in 2018).
- 4Q19 FCF reached €246m (€7.5m in 2019), driving Net Debt / EBITDA LTM ratio down to 1.8x (1.6x excluding SIA acquisition).
- Indra renewed its presence in the major sustainability indexes and generated more than 1,400 jobs in Spain (more than 3,000 in the last two years).

Indra acquired SIA (Sistemas Integrados Abiertos) for €67m on December 31st, 2019. SIA balance sheet and cash flow statement are consolidated in 2019 numbers while the income statement will start to consolidate from January 1st, 2020.

Madrid, February 27, 2019 - Fernando Abril-Martorell, Chairman and Chief Executive Officer of Indra:

“2019 results highlight the positive performance of our commercial activity, reflected by the strong backlog, order intake and revenue growth, as well as by a clear improvement in underlying profitability (EBIT). We met all the metrics of our guidance to the financial community.

Backlog (+11%) and order intake (+7%) continued to progress confidently. Absolute backlog levels and the backlog/revenues ratio reached new historic highs, providing better visibility for future growth in the coming years, and ensuring the development of new technological capabilities associated to new programs, especially in Defence & Security.

For the combined Group revenues are up +4% in local currency, with a significant contribution of Minsait, helped by a strong performance in America (+12%), with Brazil as the main driver of growth.

Indra continues to improve its profitability in the quarter and in the accumulated period, with double-digit EBIT growth and improving stronger EBIT margins.

During 2019, Minsait recorded a very positive performance, achieving strong revenue growth and significant profitability improvements. Minsait sales increased by 6%, with EBIT jumping by almost 80%, reaching an EBIT margin of 3.8% (1.6pp improvement vs. 2018). This improvement is even more remarkable if we consider the lower contribution of the election business in 2019 vs the previous year.

In Transport & Defence it is worth highlighting the strong rebound of the order intake in Defence (+41%), in a positive background of a growing pipeline of Spanish and European programs. We would also like to bring your attention to the solid growth in Air Traffic Management, as well as to the recovery of the profitability of the division during the fourth quarter.

With respect to cash flow generation, the last quarter of the year proved to be a very strong period, with the Group netting a €246m positive cash inflow, driving down our net debt/ EBITDA ratio to 1.8x (or 1.6x excluding the acquisition of SIA closed the last few days of 2019).

Summarizing, 2019 results show our commitment to profitable growth and constitute a solid basis to keep this path, as reflected in our demanding guidance for 2020.

I also want to highlight our commitment and constant effort to improve our position in social, environmental and governance issues. During 2019 Indra renewed once again our presence in the Dow Jones Sustainability Index (DJSI) World, as well as in FTSE4Good. During last year, our efforts on these matters were further recognized by our inclusion in the Bloomberg Gender-Equality Index (GEI) 2020 where only 15 Spanish companies are represented. Our commitment is further reinforced by the decision of the Board of Directors to create a Sustainability Commission with responsibility in the oversight of our initiative on these fronts [as well as the preparation of our non-financial information].

Finally, during 2019 Indra has generated more than 1,400 jobs in Spain (more than 3,000 in the last two years), and has been again recognized [by the industry] as Top Employer in 2020”.

Main Highlights

2019 **backlog** grew +11% in reported terms and reached €4,511m, new historic high. T&D backlog amounted to €3.0bn and Minsait backlog totaled €1.5bn, growing both +11%. Backlog/Revenues LTM also reached new historic high and stood at 1.41x vs 1.31x in 2018.

2019 **order intake** up +8% in local currency (+7% in reported figures) showing both divisions very positive performance:

- **2019 order intake in T&D** up +12%, boosted by the Defence & Security contract signed with Lockheed Martin in order to manufacture the digital antenna of the F-110 frigate for the Ministry of Defence and the Spanish Army.
- **2019 order intake in Minsait** grew +5% in local currency and reported terms, mainly pushed by Public Administrations & Healthcare (noting our Italian subsidiary) and Telecom & Media (renewal of relevant contracts in Spain).

2019 **revenues** showed growth +4% in local currency (+3% in reported terms) backed by the Minsait division:

- **2019 revenues in the T&D division** remained stable. The growth registered in Air Traffic Management (+4% in local currency) offset the slight decline in Transport (-2% in local currency) and Defence & Security (-1% in local currency). **4Q19 sales** down -9% explained by the double-digit fall of Transport & Traffic (difficult comparison vs 4Q18, when both segments posted strong growth).
- **2019 revenues in Minsait** up +6% in local currency (+5% in reported terms), with all the verticals registering solid growth except for PPAA & Healthcare due to the difficult comparison vs last year (Elections Business in AMEA). **4Q19 revenues** grew +5% in local currency, continuing with the pace of growth seen across the year and with all the verticals recording mid-single digit revenue growth.
- FX impact amounted to €-12m in 2019 and €-4m in 4Q19.

Organic revenues (excluding the inorganic contribution of ACS and the FX impact) grew by +3% in 2019 and -1% in 4Q19. The Minsait division recorded +5% organic revenue growth in both 2019 and 4Q19.

Digital solutions revenues reached €456m (23% of Minsait sales), which implies an increase of +13% vs 2018.

2019 **EBITDA** (which includes the impact of IFRS 16) increased by +18% and stood at €346m vs €293m in 2018. Excluding the impact of IFRS 16, EBITDA would have reached €311m, which implies +6% growth.

- **2019 EBITDA in the T&D division** (which includes the impact of IFRS 16) reached €184m in 2019 vs €192m in 2018, mainly affected by higher restructuring costs (delta of €8m) and the provisions (€9m) that took place in the first half of the year in Defence & Security (Australia and Kuwait). Excluding the impact of IFRS 16, EBITDA would have amounted to €176m.
- **2019 Operating Margin in Minsait** stood at €97m vs €91m in 2018 (equivalent to 4.8% margin in both periods) showing all the verticals margin improvement except for Public Administrations & Healthcare (due to the strong contribution of the Election Business in profitability in 2018).

Total restructuring costs (T&D and Minsait) amounted to €-19m in 2019 vs €-24m in 2018.

2019 **EBIT** increased by +11% and stood at €221m vs €199m in 2018 (equivalent to 6.9% margin vs 6.4% in 2018), bolstered by the improvement in Minsait's operational profitability. **4Q19 EBIT** reached €94m vs €84m in 4Q18 improving both T&D and Minsait their margin.

- **EBIT Margin in the T&D division** stood at 12.2% in 2019 vs 13.2% in 2018, affected by higher restructuring costs and by the provisions that took place in the first half of the year, above mentioned. **4Q19 EBIT Margin** reached 17.0% vs 14.0% in 4Q18 helped by the improvement in Transport and Defence & Security profitability.

- **EBIT Margin in Minsait** improved to 3.8% vs 2.2% in 2018 despite the lower contribution of Elections. **4Q19 EBIT Margin** improved to 5.6% vs 5.2% in 4Q18.

The **IFRS 16 application** had the following impacts:

- Increment of non-current assets by €129m, in the item “assets for the right of use”.
- Increment of liabilities by €132m, in the items “other non-current liabilities” (€103m) and “other current liabilities” (€29m).
- Increment of the EBITDA by €35m in 2019.
- Impact on EBIT (€3m) and Net Profit (€-2m).

Net profit of the group stood at €121m vs €120m and just improved €+1m due to higher tax rate (29% in 2019 and 25% in 2018).

2019 Free Cash Flow was €8m vs €168m in 2018 affected by the negative contribution of the working capital in the first half of the year. It is worth mentioning the Free Cash Flow generation in 4Q19 (€246m vs €213m in 4Q18).

Net Debt amounted to €552m in 2019 (includes the €67m SIA payment, company acquired on December 31st) vs €730m in 9M19 and vs €483m in 2018. Net Debt/EBITDA LTM ratio stood at 1.8x (1.6x excluding SIA acquisition) vs 1.6x in 2018.

Sales by verticals and regions:

Outlook 2020

- **2020 Revenues:** mid-single digit growth in local currency versus 2019 reported revenues (€3,204m).
- **2020 EBIT:** growth of more than 15% in absolute terms (>€255m).
- **2020 Free Cash Flow:** more than €150m.

Human Resources

At the end of 2019, total workforce amounted to 49,607 professionals (742 SIA employees, company acquired on December 31st, not included), implying an increase of +13% vs 2018 (5,900 more employees). 2019 average headcount increased by +14% vs 2018. Most of this workforce increase vs 2018 was related to Minsait (c. 90% of the total workforce increase), due to the beginning of highly labour intensive BPO projects, mainly in America.

In the fourth quarter, the headcount increase moderated its growth (+1%) vs 9M19 (525 more employees).

Final Workforce	FY19	%	FY18	%	Variation (%) vs FY18
Spain	28,023	56	26,622	61	5
America	17,252	35	13,071	30	32
Europe	2,240	4	2,073	5	8
Asia, Middle East & Africa	2,092	4	1,941	4	8
Total	49,607	100	43,707	100	13

Average Workforce	FY19	%	FY18	%	Variation (%) vs FY18
Spain	27,607	58	25,775	62	7
America	15,671	33	11,909	29	32
Europe	2,159	5	2,008	5	8
Asia, Middle East & Africa	1,972	4	1,879	4	5
Total	47,409	100	41,572	100	14

This data do not include 742 employees from SIA (company acquired on December 31st of 2019)

Other events over the period

On November 28th, the Board of Directors, with previous favorable report from the Appointments, Remuneration and Corporate Governance Committee has adopted the creation of a Sustainability Committee that assumes responsibilities in terms of non-financial information, among others. In said statement, Indra also informed the suppression of the Executive Committee.

On December 31st, Indra acquired SIA, a firm specialized in cybersecurity services, thus establishing itself as the leader in the information security market in Spain and Portugal in terms of the turnover of its value-added services. The company foresees a 2019 EBIT margin of 9%, with estimated revenues over €60 million in 2019, and annual cumulative increases in sales that have exceeded 15% over the last two years. EV/EBIT 2019 (E) including synergies for the acquisition is around 7x.

Events following the close of the period

On January 21st, Indra announced the inclusion in the 2020 Bloomberg Gender-Equality Index (GEI), an acknowledgment of the leading companies in terms of transparency related to gender issues and the promotion of equality and diversity, which lists 6,000 companies from 84 countries and regions around the world. Only 15 Spanish companies are listed on this renowned global diversity index.

Analysis by division

Transport & Defence (T&D)

T&D	FY19 (€M)	FY18 (€M)	Variation (%)		4Q19 (€M)	4Q18 (€M)	Variation (%)	
			Reported	Local currency			Reported	Local currency
Net Order Intake	1,476	1,323	11.5	11.5	569	422	35.1	35.4
Revenues	1,189	1,188	0.1	0.2	374	410	(8.8)	(8.8)
- Defence & Security	566	570	(0.9)	(0.9)	177	181	(2.2)	(2.2)
- Transport & Traffic	623	617	1.0	1.2	197	229	(13.9)	(13.9)
Book-to-bill	1.24	1.11	11.4		1.52	1.03	48.0	
Backlog / Revs LTM	2.54	2.29	10.7					

2019 T&D revenues remained stable. The growth registered in Air Traffic Management (+4% in local currency) offset the slight decline in both, Transport (-2% in local currency, mainly due to delays in milestone certification in some relevant projects in AMEA) and Defence & Security (-1% in local currency).

4Q19 sales decreased by -9% mainly due to the double digit fall of Transport & Traffic (-14% in local currency), impacted by the delays in some relevant contracts in Transport, as well as by the difficult comparison in the fourth quarter in Air Traffic Management (+30% in local currency in 4Q18) and Transport (+22% in local currency in 4Q18).

2019 T&D order intake grew +12%, driven by the Defence & Security contract signed with Lockheed Martin in order to manufacture the digital antenna of the F-110 frigate (2020-2027) for the Ministry of Defence and the Spanish Army.

Backlog/Revenues LTM ratio stood at 2.54x in 2019 vs 2.29x in 2018. Book-to-bill ratio stood at 1.24x vs 1.11x in 2018).

Defence & Security

- 2019 Defence & Security sales slightly decreased (-1% in local currency), affected by the lower activity registered in Security and Simulation.
- Region wise, most of the activity of the vertical in 2019 was concentrated in Spain and Europe (c. 40% of the sales in each geography).
- 4Q19 revenues went moderately down impacted by the lower activity in Security and Simulation.
- 2019 order intake grew +41% in local currency and reported figures, boosted by the order intake registered in Spain due to the contract signed with Lockheed Martin in order to manufacture the digital antenna of the F-110 frigate (2020-2027) for the Ministry of Defence and the Spanish Army. Furthermore, AMEA also registered strong order intake in Defence Systems (Vietnam and Oman) and Radars (India).

Transport & Traffic

- 2019 Transport & Traffic went slightly up +1% in both local currency and reported terms. The growth posted in Air Traffic Management (+4% in local currency; c. 50% of sales) offset the decline in Transport (-2% in local currency; c. 50% of sales).
- 4Q19 revenues fall -14% in local currency and reported terms due to the delays in milestone certification in some relevant Transport contracts as well as by the difficult comparison vs 4Q18. On the one hand, Air Traffic Management grew +30% in local currency in 4Q18 (mostly international programs) and on the other hand, Transport went up +22% in local currency in 4Q18 (mainly relevant contracts in AMEA and Ecuador).

- Region wise, most of the activity of the vertical in 2019 was concentrated in AMEA (c. 40% of sales), Spain (c. 25% of sales) and Europe (c. 20% of sales).
- 2019 order intake decreased by -12% in local currency and reported terms, dragged by the difficult comparison vs 2018 in Air Traffic Management (Algeria and China) and Transport (maintenance phase of the High Speed Train Mecca-Medina). On the positive side, it is worth noting the order intake signed in Transport, especially in tolling (I-66 in USA) and the maintenance of the urban and interurban Ticketing in Ryad.

Minsait

Minsait	FY19 (€M)	FY18 (€M)	Variation (%)		4Q19 (€M)	4Q18 (€M)	Variation (%)	
			Reported	Local currency			Reported	Local currency
Net Order Intake	2,210	2,114	4.5	5.0	484	550	(11.9)	(11.6)
Revenues	2,015	1,916	5.2	5.7	542	520	4.3	5.1
- Energy & Industry	635	580	9.6	10.3	171	163	4.7	5.6
- Financial Services	697	661	5.5	5.4	187	180	4.2	4.4
- Telecom & Media	251	240	4.5	6.1	65	62	4.3	6.4
- PPAA & Healthcare	432	436	(0.8)	0.0	119	115	3.7	4.9
Book-to-bill	1.10	1.10	(0.6)		0.89	1.06	(15.6)	
Backlog / Revs LTM	0.74	0.70	5.8					

2019 Minsait sales went up +6% in local currency (+5% in reported terms), with all the verticals registering solid growth except for PPAA & Healthcare which remained stable due to the difficult comparison vs last year same period (Elections Business in AMEA).

Digital solutions sales amounted to €456m (which represents 23% of Minsait sales), implying an increase of +13% vs 2018. The areas related to innovation, digital customer experience, process robotization, data science, advanced analytics and cybersecurity remained particularly dynamic.

4Q19 revenues grew +5% in local currency (+4% in reported terms), continuing with the pace of growth seen across the year and with all the verticals recording mid-single digit revenue growth.

2019 order intake in Minsait up +5% in local currency and reported figures boosted by Public Administrations & Healthcare (Italy subsidiary stands out) and Telecom & Media (renewal of relevant contracts in Spain).

Backlog/Revenues LTM improved to 0.74x vs 0.70x in 2018. Book-to-bill ratio stood at 1.10x vs 1.10x in 2018.

Energy & Industry

- 2019 Energy & Industry revenues increased by +10% in local currency and reported figures. The Industry segment (c. 40% of sales of the vertical) posted double-digit growth backed by the Services and Retail sectors and showed better relative performance than the Energy segment. Energy (c. 60% of sales) recorded above mid-single digit growth thanks to the positive performance in the Utilities and the Oil & Gas sector as well as by the inorganic contribution of ACS.
- By geography, most of the activity is concentrated in Spain (c. 50% of sales) and America (c. 30% of sales).
- 4Q19 revenues up +5% in local currency (+4% in reported terms), pushed by the positive performance in America.
- 2019 order intake decreased -5% in local currency (-6% in reported figures), affected by the difficult comparison vs 2018 when some relevant Energy contracts related to the implementation of proprietary products in AMEA were signed, as well as by some relevant contracts won in America.

Financial Services

- 2019 Financial Services sales increased by +5% in local currency (+6% in reported terms), backed by the positive performance in America with key clients as well as the mid-sized banking sector.
- Region wise, Spain (c. 70% of the sales) and America (c. 30% of the sales) concentrated most of the activity of the vertical in 2019.
- 4Q19 sales increased by +4% in local currency and reported figures, pushed by the positive performance in America.
- 2019 order intake went slightly up +0.3% in local currency, thanks to the the sign of a relevant contract in America (BPO in Brazil) which has offset the difficult comparison vs 2018 (renewal of a multiannual BPO contract signed with a Spanish banking entity).

Telecom & Media

- 2019 Telecom & Media revenues grew by +6% in local currency (+4% in reported terms), mainly due to the higher activity registered with the main operators in Spain and America.
- By geographies, most of the activity of the vertical in 2019 was concentrated in Spain (c. 50% of sales) and America (c. 40% of sales).
- 4Q19 revenues went up by +6% in local currency (+4% in reported terms), mainly driven by America.
- 2019 order intake went up by +11% in local currency (+10% in reported figures) chiefly thanks to the renewal of relevant contracts in Spain.

Public Administrations & Healthcare

- 2019 Public Administrations & Healthcare sales remained stable (+0% in local currency), which is a very positive performance taking into consideration the difficult comparison vs last year due to the Elections business in AMEA. Excluding the Elections business, sales would have increased by +6% in reported terms. It is worth mentioning the positive performance in Public Administrations in Spain, (Social Security Administration, Correos, and Regional Administration) and Europe (Italy).
- Region wise, most of the activity was concentrated in Spain (c. 60% of the sales) and America (c. 20% of the sales).
- 4Q19 sales up +5% in local currency mainly pushed by the Italian subsidiary chiefly in the Digital space.
- 2019 order intake went up by +25% in local currency and reported figures, pushed by Europe (Digital space in the Italian subsidiary), Spain (Election Business, Social Security Administration and relevant Outsourcing contracts with Regional Administration) and America (Public Administration in Peru).

Analysis by Region

Revenues by Region	FY19		FY18		Variation (%)		4Q19 (€M)	4Q18 (€M)	Variation (%)	
	(€M)	(%)	(€M)	(%)	Reported	Local currency			Reported	Local currency
Spain	1,591	50	1,556	50	2.2	2.2	443	444	(0.3)	(0.3)
America	665	21	609	20	9.2	11.6	181	179	1.3	4.2
Europe	549	17	504	16	8.9	9.0	159	140	13.3	13.5
Asia, Middle East & Africa	399	12	434	14	(8.1)	(8.8)	133	167	(20.1)	(20.8)
Total	3,204	100	3,104	100	3.2	3.6	916	930	(1.5)	(1.0)

By geographies, it is worth mentioning the growth registered in America (+12% in local currency; 21% of total sales), Europe (+9% in local currency; 17% of total sales) and Spain (+2%; 50% of total sales). However, sales in AMEA decreased by -9% (12% of total sales) due to the Election business.

4Q19 revenues slightly decreased (-1% in local currency), as a consequence of the decline in AMEA (-21% in local currency) affected by the delays in milestone certification in some relevant Transport projects. On the positive side, it is worth highlighting the double-digit growth registered in Europe (+14% in local currency), boosted by the Defence & Security division.

All geographies recorded order intake growth in 2019: Spain (+9% in local currency), America (+7% in local currency), Europe (+6% in local currency) and AMEA (+5% in local currency).

Spain

- 2019 revenues increased by +2%, pushed by Minsait, which registered close to mid-single digit growth.
- All Minsait verticals (c. 75% of total sales in the region) posted revenue growth in 2019. It is worth noting the double-digit growth achieved in Public Administrations & Healthcare (Social Security Administration, Correos and Regional Administration).
- On the contrary, T&D revenues (c. 25% of total sales in the region) decreased due to the lower activity registered in Simulation and in Defence & Security vertical.
- 4Q19 revenues slightly decreased (-0.3%) as a consequence of the decline in both Minsait and T&D.
- 2019 order intake increased by +9%, boosted by Defence & Security due to the contract signed with Lockheed Martin in order to manufacture the digital antenna of the F-110 frigate.

America

- 2019 revenues increased by +12% in local currency (+9% reported figures), pushed by the strong growth of Minsait.
- By countries, Brazil, the most relevant country in America (c. 30% of total revenues in the region), posted +18% revenue growth thanks to the significant improvement of Energy & Industry and the positive performance of Financial Services and Telecom & Media. Furthermore, it is worth highlighting the growth achieved in Colombia and Peru.
- The activity in America is mostly concentrated in Minsait (c. 85% of total sales in the region). All the Minsait verticals posted double-digit growth except for Public Administrations & Healthcare (repositioning towards private vs public clients).
- T&D revenues (c. 15% of total sales in the region) registered double-digit decrease in both, Defence & Security (difficult comparison vs 2018 due to a relevant project in Electronic Defence

& Security in Mexico) and Transport & Traffic (implementation of Air Traffic Management relevant projects in Central America).

- 4Q19 revenues increased by +4% in local currency, bolstered by the double-digit growth in each of the Minsait verticals.
- 2019 order intake grew by +7% in local currency (+6% in reported terms), driven by Financial Services (relevant contracts in Payment Systems in Chile and Peru, and BPO in Brazil) and Transport (tolling systems I-66 in USA).

Europe

- 2019 revenues up +9% in local currency and reported terms, both T&D and Minsait showed double-digit growth.
- T&D sales (c. 65% of revenues in the region) improved in both Defence & Security and Transport & Traffic.
- Minsait revenues (c. 35% of total revenues in the region) were boosted by the the positive activity registered by the Italian subsidiary, chiefly in Energy & Industry and Public Administrations & Healthcare.
- 4Q19 revenues up +13% in local currency and reported terms, posting both Minsait and T&D growth. It is worth noting the positive performance of Defence & Security and Public Administrations & Healthcare (Italy).
- 2019 order Intake went up by +6% both in local currency and in reported terms. It is worth highlighting Public Administrations & Healthcare and Air Traffic Management (European programs)

Asia, Middle East & Africa (AMEA)

- 2019 revenues in AMEA decreased by -9% in local currency (-8% in reported terms), very positive performance considering the difficult comparison vs the previous year (Elections business). Excluding the Elections business, sales would have slightly increased.
- 4Q19 T&D sales (c. 80% of total revenues in the region) posted slight growth, mainly fueled by Air Traffic Management (projects in Algeria, Morocco and China).
- 2019 Minsait revenues (c. 20% of total sales in the region) posted strong declines, affected by the lower activity registered in the Elections business.
- 4Q19 revenues decreased by -21% in local currency (-20% reported terms), due to the delays in milestone certification in some relevant Transport contracts.
- 2019 order Intake went up by +5% in both local currency and reported terms, boosted by Defence & Security (Defence Systems in Vietnam and Oman).

Treasury stock in the end of the period	282,006	428,489

Figures not audited

Basic EPS is calculated by dividing net profit by the average number of outstanding shares during the period less the average treasury shares of the period.

Diluted EPS is calculated by dividing net profit (adjusted by the impact of the €250m convertible bond issued in October 2013 with a conversion price of €14.29 and with a conversion price of €13.79 since 28/04/2017, first trading day of the new shares after the Capital Increase associated with the Tecnom's acquisition and also the €250m convertible bond issued in October 2016 with a conversion price of €14.629, and taking into account the repayment of €95m of the convertible bond issued in 2013. Likewise, this calculation takes into consideration the redemption of the bond issued in 2013, which took place in 17/10/2018), by the average number of outstanding shares during the period less the average treasury shares of the period and adding the theoretical new shares to be issued once assuming full conversion of the bonds.

The average number of shares used in the calculation of the EPS and dilutive EPS for treasury shares, total number of shares and theoretical shares to be issued related to the convertible bonds, are calculated using daily balances.

- 2019 revenues increased +3% in reported figures.
- 2019 Other Income went up by €6m mainly due to the higher works for own non-current assets (€70m in 2019 vs €61m in 2018).
- Personnel expenses increased by +9% in 2019, as a consequence of the increase in the average workforce (+14%), mainly in Minsait, due to the start of highly labour intensive BPO projects in America.
- 2019 EBITDA (which includes IFRS 16) increased by +18% and stood at €346m vs €293m in 2018. Excluding the impact of IFRS 16, EBITDA would have reached €311m, which implies +6% growth.
- 2019 D&A up €32m related to the application of IFRS 16.
- 2019 EBIT stood at €221m vs €199m in 2018, which implies +11% increase.
- Financial results worsened by €10m vs 2018 due to the impact of IFRS 16 (€6m), as well as by higher hedging costs (€2m) on projects (changes in milestones and scopes). 2019 gross debt borrowing costs down to 1.8% vs 2.0% in 2018.
- Tax expenses was equivalent to a tax rate of 29% vs 25% in 2018. The higher tax expense is due to the impossibility to obtain tax benefits for a nine-month period (since May 2019) because of the May 2019 ruling (€4.6m). Furthermore, the loss generated in some subsidiaries abroad which have not generated lower tax expenses (as in Kuwait, Algeria or Abu Dhabi) and also impacted by the positive results in higher tax rate countries than in Spain (as Colombia, Belgium, Nigeria, Malesia and Dominican Republic).
- Net profit of the group improved +1.3% vs 2018.

⁽⁴⁾ The IFRS 16 effect is included in "Other Financial Liabilities Variation"

Figures not audited

- Operating Cash Flow before net working capital reached €317m vs €253m in 2018.
- Cash Flow from operating activities (working capital) stood at €-131m in 2019 vs €28m in 2018 thanks to the strong contribution of the net working capital in the fourth quarter, in line with the seasonality of the business.
- Net Working Capital (Operating Current Assets – Operating Current Liabilities) went up +€48m, equivalent to 6 DoS vs -10 DoS in 2018 and vs 24 Dos in September 2019.
- Non-recourse factoring lines remain stable at €187m, same figure as in 2018.
- CAPEX (net of subsidies) stood at €76m vs €79m in 2018.
- Financial Results payment was €31m, higher level than in 2018 mainly explained by the annual interest payment of the €300m bond issued in April 2018 (€9m).
- Tax payment was €36m vs €17m in 2018, when some tax refunds from the Spanish tax authorities related to 2016 fiscal year took place.
- 2019 Free Cash Flow stood at €8m vs €168m in 2018 affected by the negative contribution of the working capital in the first half of the year. Free Cash Flow before working capital reached €139m in 2019 vs €140m in 2018.
- It is worth mentioning the Free Cash Flow generation in 4Q19 (€246m vs €213m in 4Q18)
- Net Debt amounted to €552m in 2019 (includes the €67m SIA payment, company acquired on December 31st) vs €730m in 9M19 and vs €483m in 2018. Net Debt/EBITDA LTM ratio stood at 1.8x (1.6x excluding SIA acquisition) vs 1.6x in 2018.

Alternative Performance Measures (APMS)

Due to the application of the Alternative Performance Measures (APM) published by the European Securities and Markets Authority (EMSA), Management of the Group considers that certain APMs provides useful financial information that should be considered to evaluate the performance of the Group by users. Additionally, Management uses these APMs for making financial, operating and strategic decisions, as well as to evaluate the Group performance. It should be noted that the amounts of the APMs have not been subject to any type of audit or review by the auditors of the Company.

Organic Revenues

Definition/Conciliation: Revenues adjusted by foreign exchange impact and perimeter changes of consolidation (acquisitions and divestments). Foreign exchange impact is adjusted by calculating the revenues with the average forex of the previous period. Perimeter changes are adjusted taken into account the acquisitions as if they had been consolidated in the previous period.

Explanation: Metric that reflects the revenue growth excluding the impacts coming from the perimeter changes (acquisitions and divestments) and the foreign exchange.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Operating Result (EBIT):

Definition/Conciliation: It is defined in the consolidated income statement.

Explanation: Metric that the Group uses to define its operating profitability and widely used by investors when evaluating businesses.

Likewise, the Group uses it as an indicator of the performance of the EBIT margin, which is the result of the ratio between EBIT and the amount of sales for the same period. This indicator is explained as the operating profit of the Group for each euro of sales.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Operating Margin

Definition/Conciliation: Represents the Operating Result (EBIT) plus staff reorganization costs, integration and acquisition costs, amortization of intangible assets from acquisitions, equity based compensation and possible fines.

Explanation: Metric that the Group uses to define its operating profitability before certain extraordinary costs and widely used by investors when evaluating Information Technology businesses.

Likewise, the Group uses it as an indicator of the performance of the Operating Margin (%) that is the result of the ratio between Operating Margin and the amount of sales for the same period.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Gross Operating Result (EBITDA):

Definition/Conciliation: It is calculated by adding the Depreciations and Amortizations to the "Operating Result (EBIT)" as indicated in the consolidated income statement

Explanation: Metric that the Group uses to define its operating profitability, and widely used by investors when evaluating businesses.

Likewise, the Group uses it as an indicator of the performance of the EBITDA margin, which is the result of the ratio between EBITDA and the amount of sales for the same period. This indicator is explained as the operating profit of the Group plus Depreciations and Amortizations for each euro of sales.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Net Financial Debt:

Definition/Conciliation: Represents Non-current Loans and Borrowings and Current Loans and Borrowings less Cash and Cash equivalents. Net Financial Debt is obtained by subtracting the balances corresponding to the headings of the Consolidated Balance Sheet, "Long and Current borrowings with Credit Institutions" and "Financial Liabilities for Issuance of Non-current and Other Marketable Securities", the amount of the heading "Cash and cash equivalents".

Explanation: Financial proxy that the Group uses to measure its leverage.

Likewise, the Group uses the ratio Net Financial Debt over EBITDA as an indicator of its leverage and repayment capacity of its financial debt. For that reason, the figure used to calculate the ratio for intermediate periods is made by taking into consideration the equivalent last twelve months EBITDA immediately preceding the calculation date of the ratio.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Free Cash Flow:

Definition/Conciliation: These are the funds generated by the Company excluding dividend payments, net financial investments/divestments and others, and the investment in treasury stock. It is calculated starting from "Profit Before Tax" as indicated in the consolidated statement of cash flows; adding depreciation and amortization, deducting provisions, capital grants and others, adding result of companies accounted for using the equity method, adding financial losses, adding dividend received, adding cash flow from operating activities, deducting capex, deducting interest paid and received and deducting income tax paid.

Explanation: It is the treasury made by the operations of the Group that is available to providers (shareholders and financial creditors) once the investment needs of the Group are already satisfied. It is an indicator used by investors when evaluating businesses.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Contribution Margin:

Definition/Conciliation: It is the difference between revenues and direct and indirect costs of the segments or businesses of the Group. Direct costs are those directly attributable to the sales recognized in a specific period of time and include the cost of the headcount or subcontractors used in the projects as well as any incurred costs related to the development and completion of the project; such as material costs, travel expenses of the project, among others. Indirect costs are those which, although are linked to a segment or businesses of the Group, are not directly attributable to billable projects or to revenues accounted for a specific period of time; such as, commercial costs, cost of making offers, the cost of management of a specific segment, among others. Contribution margin does not include overheads as these costs are not directly attributable to a particular segment or business.

Explanation: contribution margin measures the operating profitability of a segment or business of the Group excluding overheads, as these costs are not directly attributable to a particular segment or business.

Likewise, in order to ease the comparison between segments with different relative weight over the total revenues of the Group, it is used the contribution margin ratio over revenues of a segment or business. This indicator is explained as the contribution margin for each euro of sales of a specific segment.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Order Intake:

Definition/Conciliation: It is the amount of contracts won over a period of time. Order intake cannot be confused with revenues or the net amount of sales because the amount of a contract won in a specific period of time (and that computes as Order Intake in that period of time) can be executed over several years.

Explanation: Order intake is an indicator of the future performance of the Group because it is the amount of the contracts won over a period of time.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.

Backlog:

Definition/Conciliation: It is the amount of accumulated order intake less revenues executed, plus/minus forex adjustments and the renegotiation of the contracts, among others. It is the pending revenues figure until the completion of the project to complete the order intake figure.

Explanation: Backlog is an indicator of the future performance of the Group because it is the amount of the contracts won still to be executed.

Coherence in the criteria applied: There is no change in the criteria applied compared to last year.
