FITCH UPGRADES BBVA-6 FTPYME, FTA

Fitch Ratings-London-14 September 2012: Fitch Ratings has upgraded BBVA-6 FTPYME FTA's notes as follows:

EUR84.5m Class A1 (ISIN ES0370460000): upgraded to 'BBB+sf' from 'BBB-sf'; Outlook Stable EUR93.8m Class A2(G) (ISIN ES0370460018): upgraded to 'BBB+sf' from 'BBBsf'; Outlook Stable

EUR50.3m Class B (ISIN ES0370460026): upgraded to 'CCCsf' from 'CCsf'; assigned Recovery Estimate RE80%

EUR32.3m Class C (ISIN ES0370460034): affirmed at 'Csf'; assigned Recovery Estimate RE0%

The upgrade of the senior class A notes reflects the increased credit enhancement (CE) due to structural deleveraging and the portfolio's improved performance since the last surveillance review in October 2011. As of the 31 August 2012 investor report, current defaults had decreased to EUR54.2m compared with EUR59.2m at the last surveillance review. Loans more than 90 days in arrears accounted for 1.6% of outstanding balance, significantly below the peak of 5.1% in March 2010.

As of the last note payment date of June 2012, the reserve fund was fully depleted and the principal deficiency ledger stood at EUR29.8m.

The upgrade of the class B notes reflects the increase in their CE, which stands at 0.94% coupled with the transaction's improved performance. However, the class B notes' CE is insufficient to withstand the agency's base case 'Bsf' rating stress scenario. The RE 80% of the class B notes reflects the transaction's increasing recoveries. Despite the relatively low weighted average recovery rate of 31.4%, recoveries have been building up since the last surveillance review.

The affirmation of the class C notes reflects Fitch's view that default is imminent due to the notes' junior position in the structure combined with the sequential amortisation of the notes and the significant PDL amount.

The transaction is a cash flow securitisation of a static pool of secured and unsecured loans to Spanish small and medium enterprises granted by Banco Bilbao Vizcaya Argentaria (BBVA; 'BBB+'/Negative/'F2').
