2. Earnings performance

Revenue for the first nine months of 2016 was €1,445.3 million, a change of -0.8% year-on-year. This figure includes the Spain Transmission tariff for 2016, which was published on 17 June, and the commissioning of 2015 transmission assets. It also includes revenue from telecommunications services amounting to €64.7 million for the period, the regulated revenue from system operation in the amount of €42.0 million and revenues related to international activity.

EBITDA amounted to €1,113.1, an increase of 2.3% year-on-year.

Operating costs were as follows:

- **Supply costs and other operating expenses** posted a drop of 9.8% during the first nine months of the year and continue to reflect the efficiency improvement efforts being made by the company.
- **Personnel expenses** rose by 3.6% year-on-year as a consequence of the increase in headcount, the application of the collective bargaining agreement entered into force in 2014 and the increases in Social Security expenditure and other less significant expenses.
- The **final headcount** was 1,767 employees at 30 September 2016, while the average headcount stood at 1,762 employees, an increase of 0.6% on the first nine months of 2015.

Operating expenses

(in thousands of euros)	January-September			July - September		
	2016	2015	Δ %	2016	2015	Δ %
Supplies and other operating expenses	262,058	290,560	(9.8)	101,191	106,581	(5.1)

Operating expenses	368,174	393,038	(6.3)	135,942	140,328	(3.1)

Net operating profit (EBIT) reached €751.6 million, a 1.8% rise year-on-year, influenced by a 3.4% rise in the provision for amortisation and depreciation of non-current assets as a result of the new assets commissioned in 2015.

Financial profit (loss) was €-114.8 million compared with €-119.1 million in the same period of last year, mainly because of lower average interest rates.

Lastly, **Profit for the period** amounted to €471.3 million, a rise of 5.0% year-on-year. The effective tax rate stood at 25.6% as a result of application of the Corporate Income Tax Act (Law 27/2014).

1) This table is a simplification of the Consolidated Cash Flow Statement. It includes Group investments for the period, while the difference with investment payments is essentially recorded in Changes to other assets and liabilities.

(2) The difference between this figure and the change in Net Financial Debt shown on page 2 is due to items not involving cash movements.

Operating cash flow after taxes was €948.0 million, an increase of 1.9% on the amount generated in the same period of last year, mainly from higher pre-tax income and amortisations.

Changes to working capital were negative in the amount of €160.6 million, compared with the positive contribution of €95.3 million in the previous year. This performance is explained by the absence during the current year of the extraordinary items present in 2015, such as the recovery of VAT from the purchase of long-term fibre optic network rights and certain items pending settlement in the system.

Changes in other assets and liabilities show a negative variation of €141.6 million, compared with €11.5 million in the third quarter of 2015, mainly from the temporary financing granted to TEN until the definitive financing will be obtained.

Group **Investments** in the first three quarters of 2016 reached €458.1 million, 39.5% more than in the same period of 2015, with €236.9 million earmarked for the development of the national transmission network.

Dividends paid against results for the previous year were €432.8 million, equivalent to €3.21 per share, or €0.8025 per share if the share split carried out on 11 July last is taken into account.

The **net financial debt** of the Red Eléctrica Group at 30 September 2016 was €5,176.3 million, compared with €4,905.9 at the end of 2015.
