MADRID (Standard & Poor's) Dec. 15, 2008—Standard & Poor's Ratings Services today took various rating actions on the notes issued by FTPYME Bancaja 3, Fondo de Titulizacion de Activos (FTPYME Bancaja 3) and FTPYME Bancaja 6, Fondo de Titulizacion de Activos (FTPYME Bancaja 6) following a full credit and cash flow analysis (see list below).

Specifically, we:

- Downgraded and removed from CreditWatch negative FTPYME Bancaja 3's class D notes;
- Placed FTPYME Bancaja 3's class C notes on CreditWatch negative;
- Kept FTPYME Bancaja 3's class A3(G) and B notes on CreditWatch negative;
- Downgraded and removed from CreditWatch negative FTPYME Bancaja 6's class C notes;
- Downgraded and kept on CreditWatch negative FTPYME Bancaja 6's class B notes; and
- Affirmed all the other classes of notes in these transactions.

Today's rating actions follow a full credit and cash flow analysis of the most recent transaction information and loan-level data that we have received for these Spanish securitizations of loans to small and midsize enterprises (SMEs).

Our analysis focused on risks related to obligor concentrations—in particular real estate and construction sector exposures and the concentration of loans

Various Rating Actions On FTPYME Bancaja 3 And 6 Spanish SME Deals

is allowing excess spread to leak out of the transaction, even though, in our view, the current high level of severe delinquencies could lead to high defaults in the near future.

Loans in arrears for more than 90 days account for 3.66% of FTPYME Bancaja 3's current pool and 5.46% of FTPYME Bancaja 6's pool (as of the end of October 2008). For this latter pool, loans more than three months in arrears have doubled over the past six months. This is in line with the rapid growth in delinquencies observed by us elsewhere across the Spanish SME securitization market. However, we believe that this pool's characteristics are likely to have more severe effects on this transaction. We expect that a significant portion of the current long-term arrears could roll into default in the near to medium term. This could put further pressure on the ratings on the junior notes.
