Highlights of the year's results

MAPFRE's diversification strategy drives continued growth and maintains a healthy balance

- Organic growth, driven by the international business
- Non-Life: excellent combined ratio and strong improvement in the underwriting result in the international business
- Life: improvement in recurring results thanks to the strength of the domestic business and the growth of the international business
- Prudence: significant effort to reduce exposures, together with the appropriation of reserves for the impairment of financial and property assets
- Increase in own funds in excess of €750 million, reflecting the results for the year and the recovery in the value of financial assets, partly offset by the appreciation of the Euro

A strong liquidity and solvency position...

In September we said:

“MAPFRE’s Board of Directors deems it appropriate to strengthen the Group’s capitalisation, liquidity and financial flexibility”

As at December 2012 we can report:

3-year €1 billion senior bond issue

Availability of additional credit facilities amounting to €500 million

A €230 million increase in available cash⁽¹⁾

Solvency ratio of 261%

1) Increase in cash in the quarter

... that is valued by our stakeholders

The market recognises MAPFRE's intrinsic strength,
beyond short-term concerns

 The bond issue launched in November was **3.7 times oversubscribed**

 **Trust of our large clients:** the premiums from the reinsurance and global risks businesses remained virtually stable, despite the downgrade of some credit ratings

Final dividend proposed against 2012 results

Interim dividend

- In October, in line with the objectives mentioned before, the Board of Directors resolved to pay an interim dividend of 4 cents per share against the 2012 results...
- ... thus the total dividend paid in the year amounts to 12 cents per share.

Final dividend

- The Board of Directors has agreed to propose to the AGM a final dividend against the 2012 results of 7 cents gross per share; thus the total dividend proposed against the 2012 results amounts to 11 cents per share

**In 2012, the dividends paid in cash
amounted to €370 million**

Key points

- Organic growth driven by the international business
- Consolidation of BB SEGUROS for the whole year

- Results from realisations and impairments of financial assets amounting to -€99.8 million⁽⁴⁾ (capital gains of €109.3 million in 2011)
- Improvement of the recurring financial result

- The reclassification of MAPFRE ART and MAPFRE SALUD (Argentina) as discontinued operations results in a lower growth rate in premiums and a structural improvement in the combined ratio

4) Net of the decrease in the associated earn-out liabilities

Domestic Insurance Division: highlights of the results

Premiums evolution

Premiums decrease as a result of a particularly difficult market environment, characterised by a decline in demand. Worthy of mention are:

- the performance of the Motor line, where MAPFRE maintains its market share
- the increase in the Life Assurance market share to 11.4%, thanks to the good performance of the agents' channel in the Life-Savings segment and the winning of large corporate Life-Savings operations amounting to €354 million, which offset to a large extent the lower issuance in the bank channel

Insurance result

The underwriting result, which remains at excellent levels, reflects:

- lower earned premiums
- reserves for risks and expenses amounting to €57 million, mainly in the Non-Life segment
- the increase in the underwriting result in the Commercial business
- the greater weight of the Life-Protection business

The financial result includes the following impacts:

- Net results from realisations and impairments of financial and property assets amounting to -€216.3 million
- Impairments of intangible assets of €137 million

The non-technical result includes:

- the impact of the decrease in earn-out liabilities amounting to €92 million

Net result

Excluding the impact of realisations, impairments and reserves for risks and expenses, the net result decreases 10.1%

A consolidated company, which nonetheless continues to focus on innovation

USA

- Positive impact of the appreciation of the USD against the Euro⁽¹⁾
- Decrease in production in California and New York as a result of a change in the sales strategy, targeted at improving the underwriting result in these states
- Impact of hurricane Sandy amounting to €50 million, net of reinsurance. Excluding this effect, the loss ratio improves considerably due to milder weather and rate rises
- Lower financial results, as a result of the decrease in interest rates in the USA. Includes realisation gains, net of impairments, amounting to €14 million
- A higher effective tax rate due to the virtual elimination of negative tax bases

Other countries

TURKEY

- Strong premiums growth in the Health and Motor lines, which reflects the implementation of several sales campaigns. Increases in the Fire and Engineering lines as well, due to the growing activity in industrial risks and the cooperation with MAPFRE GLOBAL RISKS
- Improvement in technical results due to a decrease in the loss ratio in the Motor and Health lines, and a net positive effect of €2.9 million as a result from an amendment in the regulations governing the Motor line
- Lower financial results, mainly stemming from negative exchange rate differences of €1.7 million (+€3.9 million in 2011) and the reduction in interest rates

MALTA

- Consolidation of MIDDLESEA INSURANCE during an entire year (5 months in 2011)
- The main trends during the year have been: 1) declining sales of Life products as a result of the financial crisis; 2) improvement in the underwriting result of the Non-Life business and 3) larger financial income, which reflects the recovery in the stock markets

PORTUGAL

- Reduction in premiums, driven by the country's economic situation, as well as by the cancellation of a bancassurance agreement with FINIBANCO VIDA
- The financial result includes non-recurring financial gains, net of impairments, of €1.8 million

Renewal campaign

The trust placed by clients in MAPFRE's solvency, along with a successful renewal campaign in January, have reduced the impact of a downgrade in one of the company's credit ratings, while the business from third parties remained stable

Contract renewal terms have remained, in general, unchanged, despite the high capital levels in the reinsurance market
