

HECHO RELEVANTE

Muy señores nuestros:

Caja de Ahorros y Pensiones de Barcelona ("la Caixa") tiene conocimiento de las declaraciones realizadas hoy por la European Banking Authority (EBA) y el Banco de España en relación al ejercicio de capitalización de la banca europea y reconoce plenamente los resultados del mismo.

El ejercicio de capitalización propuesto por la EBA, y acordado por la Comisión Europea el 26 de octubre de 2011, está orientado a fortalecer la posición de capitalización de las entidades mediante el establecimiento de un colchón transitorio de capital que cubra las valoraciones a precios de mercado de las carteras de deuda soberana. Adicionalmente, se determina que las entidades mantengan un nivel de capital suficiente para alcanzar como mínimo un 9% de ratio Core Tier 1 (de acuerdo con la metodología definida por la EBA) antes del 30 de junio de 2012. Los posibles déficits de capital detectados han sido calculados a partir de la información de cierre de septiembre de 2011 y el colchón correspondiente al riesgo soberano no será revisado con posterioridad.

La metodología de este ejercicio ha sido establecida por la EBA para intentar asegurar la consistencia del mismo entre todas las entidades del sector bancario europeo evaluadas. Los niveles de capital a cubrir y las diferentes estrategias de capitalización que lleven a cabo las entidades están orientados a restaurar la confianza del mercado y facilitar el acceso a la financiación por parte del sector bancario para que este último pueda continuar proveyendo del soporte financiero necesario a la economía productiva.

A este ejercicio han sido sometidas 71 entidades financieras europeas con el objetivo de establecer un nivel de capital transitorio y excepcional que contrarreste las dudas relativas a la magnitud del riesgo soberano y otros riesgos latentes en el entorno actual de dificultades en el mercado. Este colchón fijado no debe ser entendido necesariamente como el necesario para cubrir pérdidas relacionadas con las carteras de riesgo soberano, sino de una manera más amplia como un elemento que permita a las entidades absorber una amplia gama de escenarios adversos y mantener tras ello niveles de capitalización adecuados.

Una vez completado el ejercicio llevado a cabo por la EBA, en coordinación directa con el Banco de España, se ha determinado un déficit de capital del Grupo "la Caixa", de acuerdo a la metodología y los supuestos establecidos por la EBA, de 630 millones de euros.

Grupo "la Caixa" estima que cumplirá con estos requisitos de capital adicional holgadamente dentro del plazo establecido que finaliza el 30 de junio de 2012, mediante su capacidad de generación orgánica de capital. Adicionalmente, Grupo "la Caixa" dispone de otros elementos - no incluidos en la metodología establecida por la EBA- que refuerzan su solvencia entre los que destacan, principalmente, las provisiones genéricas no dispuestas (1.835 millones de euros), las obligaciones necesariamente convertibles en acciones de CaixaBank (1.500 millones de

euros) y las plusvalías latentes en su cartera de participaciones disponibles para la venta (1.377 millones de euros 30 de septiembre de 2011).

De cualquier manera, “la Caixa”, en línea con los requisitos del presente ejercicio, someterá antes del 20 de enero de 2012 al Banco de España un plan de cómo prevé completar con estos nuevos requisitos de manera anticipada.

Se adjuntan los resultados del ejercicio de capitalización para el Grupo “la Caixa”.

Atentamente,

CAJA DE AHORROS Y PENSIONES DE BARCELONA (“la Caixa”).

Composition of capital as of 30 September 2011 (CRD3 rules)

Name of the bank:

Of which: RWA add-on for CRD III as of end September 2011 ⁽²⁾	1,266		
Sovereign Capital buffer			
G) Prudential filter (AFS sovereign assets in EEA as of 30th September 2011) (-+)	43		Please report the prudential filter as a positive number if the AFS revaluation reserve for sovereign assets is negative. Please report the prudential filter as a negative number if the AFS revaluation reserve is positive. If the bank does not apply a prudential filter on AFS sovereign assets, please fill in zero.
H) Difference between the book value and the fair value of sovereign assets (Bonds and Loans and advances) in the HTM and Loans & Receivables portfolios (3).	315		Difference between the book value and the fair value at the reference date. Please provide a positive number if the book value is larger than the fair value of sovereign assets. Please provide a negative number if the book value is smaller than the fair value of the sovereign assets.
Sovereign capital buffer for exposures in EEA (G+H)	358	0.23%	Sum of Prudential filter and valuation. If negative it is set to 0
Overall Shortfall after including sovereign capital buffer	630	0.41%	9%RWA-(Core Tier 1 including existing government support measures-Sovereign capital buffer for exposures in EEA); if >0.

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: i) direct sovereign exposures in derivatives; ii) indirect sovereign exposures in the banking and trading book

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on/off balance sheet). Irrespective of the denomination and/or accounting classification of the positions, **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Composition of RWA as of 30 September 2011

Name of the bank:

ES062

CAJA DE AHORROS Y PENSIONES DE BARCELONA

(in million Euro)

	Rules at the end of September	CRD 3 rules
Total RWA⁽¹⁾	154,139	155,405
RWA for credit risk	143,602	143,602
RWA Securitisation and re-securitisations	-	-
RWA Other credit risk	143,602	143,602
RWA for market risk	850	2,116
RWA operational risk	9,430	9,430
Transitional floors ⁽²⁾	-	-
RWA Other	257	257

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements.

However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

[option 1](#)

CDS and other contract Sovereign exposures (central, regional and local governments) in EEA towards other counterparties, as of 30 September 2011, mln EUR

Name of the bank: ES062 CAJA DE AHORROS Y PENSIONES DE BARCELONA

(1) It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination represent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

(2) The country identifies the reference entity single name of the CDS and other contracts.

(3) Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
