B.19 / B.1	Legal and commercial name of the Guarantor	Société Générale (or the Guarantor)
B.19 / B.2	Domicile, legal form, legislation and country of incorporation	<p>Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p>
B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>In 2016, the global economy should suffer from high uncertainty, related in particular to the geopolitical environment (Brexit, European migrant crisis, instability in the Middle East) and to elections in key countries. At the same time, the volatility of commodity and capital markets should remain significant, given the slowdown in emerging economies and strong divergences in monetary policies.</p> <p>In the Eurozone, the quantitative easing and negative interest rate policy implemented by the ECB should keep market interest rates low in 2016, against a backdrop of consistently low inflation. In the United States, the pace of the FED's tightening monetary policy will depend on economic growth momentum. In emerging countries, the moderate growth rate was confirmed in 2015. Although this trend was contained in China, business activity in countries producing commodities saw a more significant decrease.</p> <p>Within this contrasted environment, banks will have to continue to strengthen their capital to meet new regulatory requirements, further to the Basel reforms. In particular, following the various transparency exercises implemented in 2015 and the publication of the minimum Pillar 2 requirements, banks will have to comply with new current liability ratios (MREL and TLAC).</p> <p>Other reforms are still pending, as the banking regulator is reviewing the trading portfolio and risk-weighting models.</p> <p>Global economic growth is likely to remain fragile. Firstly, emerging economies have seen</p>

		<p>their growth stabilise, but at a low level. Secondly, growth in developed countries, which was already sluggish, is likely to be negatively impacted by the uncertainty shock due to Brexit (following the referendum on 23 June 2016, when a majority of British citizens voted for the United Kingdom to leave the European Union).</p> <p>In addition, numerous negative uncertainties continue to adversely affect the outlook: risk of renewed financial tensions in Europe, risk of further turmoil (financial and socio-political) in emerging economies, uncertainty caused by the unconventional monetary policies implemented by the main developed countries, increased terrorist risk and geopolitical tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from increased doubts about the integrity of the region, following Brexit or institutional or political deadlock in some Eurozone countries; - a sudden and marked rise in interest rates and volatility in the markets (bonds, equities and commodities), which could be triggered by poor communication from central banks, in particular the US Federal Reserve (Fed), when changing monetary policy stance; - a sharp slowdown in economic activity in China, triggering capital flight from the country, downward pressure on the Chinese currency and, by contagion, on other emerging country currencies, as well as a fall in commodity prices; - socio-political tensions in some countries dependent on oil and gas revenues and still needing to adapt to the situation of low prices for these commodities; - a downward correction on commercial property and house prices in France; - worsening geopolitical tensions in the Middle East, South China Sea or Ukraine. This could lead to the extension and stepping up of sanctions between Western countries and Russia, even more depressed economic activity in Russia, and a further sharp depreciation in the rouble.
B.19 / B.5	Description of the Guarantor's group and the Guarantor's position within the group	<p>The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. The Group relies on three complementary core businesses:</p> <ul style="list-style-type: none"> • French Retail Banking; • International Retail Banking, Financial Services and Insurance; and • Corporate and Investment Banking, Private Banking, Asset and Wealth Management and Securities Services. <p>The Guarantor is the parent company of the Group.</p>
B.19 / B.9	Figure of profit forecast or estimate of the Guarantor	Not applicable. The Guarantor does not provide any figure of profit forecast or estimate.

Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantheholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warrantheholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging</p>

B.19 / B.2	Domicilio social, forma jurídica, derecho y país de constitución	<p>Domicilio social: 29, boulevard Haussmann, 75009 Paris, Francia.</p> <p>Forma jurídica: sociedad anónima ("<i>société anonyme</i>").</p> <p>Derecho aplicable a las actividades realizadas por el Emisor: derecho francés.</p> <p>País de constitución: Francia.</p>
B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores en los que	En 2016, la economía mundial adolece de un alto grado de incertidumbre, en particular como consecuencia de la situación geopolítica (Brexit, crisis migratoria europea, inestabilidad en Oriente Medio) y por la celebración de elecciones en países clave. Al mismo tiempo, la volatilidad de los mercados de materias primas y de capital seguirá siendo significativa, debido a la desaceleración de las economías emergentes y las fuertes divergencias en las

	<p>opera</p>	<p>políticas monetarias.</p> <p>En la zona euro, la flexibilización cuantitativa y la política de tipo de interés negativo aplicada por el BCE deberían mantener bajos los tipos de interés de mercado en 2016, en un contexto de baja inflación constante. En los Estados Unidos, el ritmo de endurecimiento de la política monetaria por parte del Sistema de Reserva Federal (FED) dependerá del impulso del crecimiento económico. En los países emergentes, en 2015 se mantuvo una tasa de crecimiento moderada. A pesar de que esta tendencia fue contenida en China, la actividad empresarial de los países productores de materias primas padeció una caída más significativa.</p> <p>En este entorno de contrastes, los bancos deberán seguir reforzando su capital para cumplir con los nuevos requisitos normativos establecidos como consecuencia de las reformas de Basilea. En particular, tras los diversos ejercicios de transparencia implementados en 2015 y la publicación de los requisitos mínimos del Pilar 2, los bancos tendrán que cumplir con los nuevos ratios de pasivos corrientes (MREL y TLAC).</p> <p>Otras reformas aún están pendientes, toda vez que el regulador bancario está revisando los modelos de cartera de negociación y de ponderación por riesgo.]</p> <p>Es probable que el crecimiento económico mundial siga siendo frágil. En primer lugar, las economías emergentes han visto como su crecimiento se ha estabilizado, pero a un nivel bajo. En segundo lugar, es probable que el crecimiento en los países en vías de desarrollo, que ya de por sí es débil, se vea afectado negativamente por la gran incertidumbre que ha generado el Brexit (tras el referéndum el 23 de junio de 2016, cuando la mayoría de los ciudadanos británicos votaron a favor de que el Reino Unido abandonase la Unión Europea).</p> <p>Además, existen numerosas incertidumbres que afectan negativamente a las perspectivas: riesgo de nuevas tensiones financieras en Europa, riesgo de nuevas turbulencias (financieras y sociopolíticas) en economías emergentes, incertidumbre provocada por las políticas monetarias no convencionales aplicadas por los principales países desarrollados, aumento del riesgo de terrorismo así como tensiones geopolíticas. Más concretamente, el Grupo podría verse afectada por:</p> <ul style="list-style-type: none"> - nuevas tensiones financieras en la zona Euro derivadas del incremento de las dudas acerca de la integridad de la región, tras el Brexit o tras el bloqueo institucional o político en algunos países de la zona Euro; - aumento repentino en los tipos de interés y volatilidad en los mercados (bonos, acciones y materias primas), que podría ser desencadenado por la falta de comunicación de los bancos centrales, en concreto por la Reserva Federal de los Estados Unidos (Fed), al cambiar la orientación de la política monetaria; - una fuerte desaceleración de la actividad económica en China, lo que provocó la fuga de capitales del país, la presión a la baja sobre la moneda china y, en consecuencia, en las monedas de otros países emergentes, así como una caída en los precios de las materias primas; - tensiones socio-políticas en algunos países que dependen de los ingresos del petróleo y gas y que todavía necesitan adaptarse a la situación de bajos precios de estas materias primas; - una corrección a la baja en los precios de los inmuebles destinados a actividades comerciales así como las viviendas en Francia; - empeoramiento de las tensiones geopolíticas en el Oriente Medio, Mar del Sur de China o Ucrania. Esto podría conducir al aumento e intensificación de las sanciones entre los países occidentales y Rusia, a una mayor depresión de la actividad económica en Rusia, y a una fuerte depreciación del rublo.

D.6	Advertencia importante para los inversores	<p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los</p>

	<p>Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>Durante toda la vida de los Warrants, el valor de mercado de los mismos podrá ser inferior al capital invertido. Además, la insolvencia del Emisor y/o el Garante podría determinar la pérdida íntegra del capital invertido.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por "murallas chinas" (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p>

B.19 / B.1	Legal and commercial name of the Guarantor	Société Générale (or the Guarantor)
B.19 / B.2	Domicile, legal form, legislation and country of incorporation	<p>Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p>
B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>In 2016, the global economy should suffer from high uncertainty, related in particular to the geopolitical environment (Brexit, European migrant crisis, instability in the Middle East) and to elections in key countries. At the same time, the volatility of commodity and capital markets should remain significant, given the slowdown in emerging economies and strong divergences in monetary policies.</p> <p>In the Eurozone, the quantitative easing and negative interest rate policy implemented by the ECB should keep market interest rates low in 2016, against a backdrop of consistently low inflation. In the United States, the pace of the FED's tightening monetary policy will depend on economic growth momentum. In emerging countries, the moderate growth rate was confirmed in 2015. Although this trend was contained in China, business activity in countries producing commodities saw a more significant decrease.</p> <p>Within this contrasted environment, banks will have to continue to strengthen their capital to meet new regulatory requirements, further to the Basel reforms. In particular, following the various transparency exercises implemented in 2015 and the publication of the minimum Pillar 2 requirements, banks will have to comply with new current liability ratios (MREL and TLAC).</p> <p>Other reforms are still pending, as the banking regulator is reviewing the trading portfolio and risk-weighting models.</p> <p>Global economic growth is likely to remain fragile. Firstly, emerging economies have seen</p>

		<p>their growth stabilise, but at a low level. Secondly, growth in developed countries, which was already sluggish, is likely to be negatively impacted by the uncertainty shock due to Brexit (following the referendum on 23 June 2016, when a majority of British citizens voted for the United Kingdom to leave the European Union).</p> <p>In addition, numerous negative uncertainties continue to adversely affect the outlook: risk of renewed financial tensions in Europe, risk of further turmoil (financial and socio-political) in emerging economies, uncertainty caused by the unconventional monetary policies implemented by the main developed countries, increased terrorist risk and geopolitical tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from increased doubts about the integrity of the region, following Brexit or institutional or political deadlock in some Eurozone countries; - a sudden and marked rise in interest rates and volatility in the markets (bonds, equities and commodities), which could be triggered by poor communication from central banks, in particular the US Federal Reserve (Fed), when changing monetary policy stance; - a sharp slowdown in economic activity in China, triggering capital flight from the country, downward pressure on the Chinese currency and, by contagion, on other emerging country currencies, as well as a fall in commodity prices; - socio-political tensions in some countries dependent on oil and gas revenues and still needing to adapt to the situation of low prices for these commodities; - a downward correction on commercial property and house prices in France; - worsening geopolitical tensions in the Middle East, South China Sea or Ukraine. This could lead to the extension and stepping up of sanctions between Western countries and Russia, even more depressed economic activity in Russia, and a further sharp depreciation in the rouble.
B.19 / B.5	Description of the Guarantor's group and the Guarantor's position within the group	<p>The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. The Group relies on three complementary core businesses:</p> <ul style="list-style-type: none"> • French Retail Banking; • International Retail Banking, Financial Services and Insurance; and • Corporate and Investment Banking, Private Banking, Asset and Wealth Management and Securities Services. <p>The Guarantor is the parent company of the Group.</p>

D.6	Important warning to the investor	<p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantheholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warrantheholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging</p>

	<p>instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p>

B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores en los que	En 2016, la economía mundial adolece de un alto grado de incertidumbre, en particular como consecuencia de la situación geopolítica (Brexit, crisis migratoria europea, inestabilidad en Oriente Medio) y por la celebración de elecciones en países clave. Al mismo tiempo, la volatilidad de los mercados de materias primas y de capital seguirá siendo significativa, debido a la desaceleración de las economías emergentes y las fuertes divergencias en las

	<p>opera</p>	<p>políticas monetarias.</p> <p>En la zona euro, la flexibilización cuantitativa y la política de tipo de interés negativo aplicada por el BCE deberían mantener bajos los tipos de interés de mercado en 2016, en un contexto de baja inflación constante. En los Estados Unidos, el ritmo de endurecimiento de la política monetaria por parte del Sistema de Reserva Federal (FED) dependerá del impulso del crecimiento económico. En los países emergentes, en 2015 se mantuvo una tasa de crecimiento moderada. A pesar de que esta tendencia fue contenida en China, la actividad empresarial de los países productores de materias primas padeció una caída más significativa.</p> <p>En este entorno de contrastes, los bancos deberán seguir reforzando su capital para cumplir con los nuevos requisitos normativos establecidos como consecuencia de las reformas de Basilea. En particular, tras los diversos ejercicios de transparencia implementados en 2015 y la publicación de los requisitos mínimos del Pilar 2, los bancos tendrán que cumplir con los nuevos ratios de pasivos corrientes (MREL y TLAC).</p> <p>Otras reformas aún están pendientes, toda vez que el regulador bancario está revisando los modelos de cartera de negociación y de ponderación por riesgo.]</p> <p>Es probable que el crecimiento económico mundial siga siendo frágil. En primer lugar, las economías emergentes han visto como su crecimiento se ha estabilizado, pero a un nivel bajo. En segundo lugar, es probable que el crecimiento en los países en vías de desarrollo, que ya de por sí es débil, se vea afectado negativamente por la gran incertidumbre que ha generado el Brexit (tras el referéndum el 23 de junio de 2016, cuando la mayoría de los ciudadanos británicos votaron a favor de que el Reino Unido abandonase la Unión Europea).</p> <p>Además, existen numerosas incertidumbres que afectan negativamente a las perspectivas: riesgo de nuevas tensiones financieras en Europa, riesgo de nuevas turbulencias (financieras y sociopolíticas) en economías emergentes, incertidumbre provocada por las políticas monetarias no convencionales aplicadas por los principales países desarrollados, aumento del riesgo de terrorismo así como tensiones geopolíticas. Más concretamente, el Grupo podría verse afectada por:</p> <ul style="list-style-type: none"> - nuevas tensiones financieras en la zona Euro derivadas del incremento de las dudas acerca de la integridad de la región, tras el Brexit o tras el bloqueo institucional o político en algunos países de la zona Euro; - aumento repentino en los tipos de interés y volatilidad en los mercados (bonos, acciones y materias primas), que podría ser desencadenado por la falta de comunicación de los bancos centrales, en concreto por la Reserva Federal de los Estados Unidos (Fed), al cambiar la orientación de la política monetaria; - una fuerte desaceleración de la actividad económica en China, lo que provocó la fuga de capitales del país, la presión a la baja sobre la moneda china y, en consecuencia, en las monedas de otros países emergentes, así como una caída en los precios de las materias primas; - tensiones socio-políticas en algunos países que dependen de los ingresos del petróleo y gas y que todavía necesitan adaptarse a la situación de bajos precios de estas materias primas; - una corrección a la baja en los precios de los inmuebles destinados a actividades comerciales así como las viviendas en Francia; - empeoramiento de las tensiones geopolíticas en el Oriente Medio, Mar del Sur de China o Ucrania. Esto podría conducir al aumento e intensificación de las sanciones entre los países occidentales y Rusia, a una mayor depresión de la actividad económica en Rusia, y a una fuerte depreciación del rublo.

D.6	Advertencia importante para los inversores	<p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los</p>

	<p>Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>Durante toda la vida de los Warrants, el valor de mercado de los mismos podrá ser inferior al capital invertido. Además, la insolvencia del Emisor y/o el Garante podría determinar la pérdida íntegra del capital invertido.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por "murallas chinas" (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. B.19 / B.1	Legal and commercial name of the Guarantor	Société Générale (or the Guarantor)
B.19 / B.2	Domicile, legal form, legislation and country of incorporation	<p>Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p>
B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>In 2016, the global economy should suffer from high uncertainty, related in particular to the geopolitical environment (Brexit, European migrant crisis, instability in the Middle East) and to elections in key countries. At the same time, the volatility of commodity and capital markets should remain significant, given the slowdown in emerging economies and strong divergences in monetary policies.</p> <p>In the Eurozone, the quantitative easing and negative interest rate policy implemented by the ECB should keep market interest rates low in 2016, against a backdrop of consistently low inflation. In the United States, the pace of the FED's tightening monetary policy will depend on economic growth momentum. In emerging countries, the moderate growth rate was confirmed in 2015. Although this trend was contained in China, business activity in countries producing commodities saw a more significant decrease.</p> <p>Within this contrasted environment, banks will have to continue to strengthen their capital to meet new regulatory requirements, further to the Basel reforms. In particular, following the various transparency exercises implemented in 2015 and the publication of the minimum Pillar 2 requirements, banks will have to comply with new current liability ratios (MREL and TLAC).</p> <p>Other reforms are still pending, as the banking regulator is reviewing the trading portfolio and risk-weighting models.</p> <p>Global economic growth is likely to remain fragile. Firstly, emerging economies have seen</p>

		<p>their growth stabilise, but at a low level. Secondly, growth in developed countries, which was already sluggish, is likely to be negatively impacted by the uncertainty shock due to Brexit (following the referendum on 23 June 2016, when a majority of British citizens voted for the United Kingdom to leave the European Union).</p> <p>In addition, numerous negative uncertainties continue to adversely affect the outlook: risk of renewed financial tensions in Europe, risk of further turmoil (financial and socio-political) in emerging economies, uncertainty caused by the unconventional monetary policies implemented by the main developed countries, increased terrorist risk and geopolitical tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from increased doubts about the integrity of the region, following Brexit or institutional or political deadlock in some Eurozone countries; - a sudden and marked rise in interest rates and volatility in the markets (bonds, equities and commodities), which could be triggered by poor communication from central banks, in particular the US Federal Reserve (Fed), when changing monetary policy stance; - a sharp slowdown in economic activity in China, triggering capital flight from the country, downward pressure on the Chinese currency and, by contagion, on other emerging country currencies, as well as a fall in commodity prices; - socio-political tensions in some countries dependent on oil and gas revenues and still needing to adapt to the situation of low prices for these commodities; - a downward correction on commercial property and house prices in France; - worsening geopolitical tensions in the Middle East, South China Sea or Ukraine. This could lead to the extension and stepping up of sanctions between Western countries and Russia, even more depressed economic activity in Russia, and a further sharp depreciation in the rouble.

B.19 / B.1	Razón social y nombre comercial del Garante	Société Générale (o el Garante)
B.19 / B.2	Domicilio social, forma jurídica, derecho y país de constitución	<p>Domicilio social: 29, boulevard Haussmann, 75009 Paris, Francia.</p> <p>Forma jurídica: sociedad anónima ("<i>société anonyme</i>").</p> <p>Derecho aplicable a las actividades realizadas por el Emisor: derecho francés.</p> <p>País de constitución: Francia.</p>
B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores en los que	En 2016, la economía mundial adolece de un alto grado de incertidumbre, en particular como consecuencia de la situación geopolítica (Brexit, crisis migratoria europea, inestabilidad en Oriente Medio) y por la celebración de elecciones en países clave. Al mismo tiempo, la volatilidad de los mercados de materias primas y de capital seguirá siendo significativa, debido a la desaceleración de las economías emergentes y las fuertes divergencias en las

	<p>opera</p>	<p>políticas monetarias.</p> <p>En la zona euro, la flexibilización cuantitativa y la política de tipo de interés negativo aplicada por el BCE deberían mantener bajos los tipos de interés de mercado en 2016, en un contexto de baja inflación constante. En los Estados Unidos, el ritmo de endurecimiento de la política monetaria por parte del Sistema de Reserva Federal (FED) dependerá del impulso del crecimiento económico. En los países emergentes, en 2015 se mantuvo una tasa de crecimiento moderada. A pesar de que esta tendencia fue contenida en China, la actividad empresarial de los países productores de materias primas padeció una caída más significativa.</p> <p>En este entorno de contrastes, los bancos deberán seguir reforzando su capital para cumplir con los nuevos requisitos normativos establecidos como consecuencia de las reformas de Basilea. En particular, tras los diversos ejercicios de transparencia implementados en 2015 y la publicación de los requisitos mínimos del Pilar 2, los bancos tendrán que cumplir con los nuevos ratios de pasivos corrientes (MREL y TLAC).</p> <p>Otras reformas aún están pendientes, toda vez que el regulador bancario está revisando los modelos de cartera de negociación y de ponderación por riesgo.]</p> <p>Es probable que el crecimiento económico mundial siga siendo frágil. En primer lugar, las economías emergentes han visto como su crecimiento se ha estabilizado, pero a un nivel bajo. En segundo lugar, es probable que el crecimiento en los países en vías de desarrollo, que ya de por sí es débil, se vea afectado negativamente por la gran incertidumbre que ha generado el Brexit (tras el referéndum el 23 de junio de 2016, cuando la mayoría de los ciudadanos británicos votaron a favor de que el Reino Unido abandonase la Unión Europea).</p> <p>Además, existen numerosas incertidumbres que afectan negativamente a las perspectivas: riesgo de nuevas tensiones financieras en Europa, riesgo de nuevas turbulencias (financieras y sociopolíticas) en economías emergentes, incertidumbre provocada por las políticas monetarias no convencionales aplicadas por los principales países desarrollados, aumento del riesgo de terrorismo así como tensiones geopolíticas. Más concretamente, el Grupo podría verse afectada por:</p> <ul style="list-style-type: none"> - nuevas tensiones financieras en la zona Euro derivadas del incremento de las dudas acerca de la integridad de la región, tras el Brexit o tras el bloqueo institucional o político en algunos países de la zona Euro; - aumento repentino en los tipos de interés y volatilidad en los mercados (bonos, acciones y materias primas), que podría ser desencadenado por la falta de comunicación de los bancos centrales, en concreto por la Reserva Federal de los Estados Unidos (Fed), al cambiar la orientación de la política monetaria; - una fuerte desaceleración de la actividad económica en China, lo que provocó la fuga de capitales del país, la presión a la baja sobre la moneda china y, en consecuencia, en las monedas de otros países emergentes, así como una caída en los precios de las materias primas; - tensiones socio-políticas en algunos países que dependen de los ingresos del petróleo y gas y que todavía necesitan adaptarse a la situación de bajos precios de estas materias primas; - una corrección a la baja en los precios de los inmuebles destinados a actividades comerciales así como las viviendas en Francia; - empeoramiento de las tensiones geopolíticas en el Oriente Medio, Mar del Sur de China o Ucrania. Esto podría conducir al aumento e intensificación de las sanciones entre los países occidentales y Rusia, a una mayor depresión de la actividad económica en Rusia, y a una fuerte depreciación del rublo.

Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>Durante toda la vida de los Warrants, el valor de mercado de los mismos podrá ser inferior al capital invertido. Además, la insolvencia del Emisor y/o el Garante podría determinar la pérdida íntegra del capital invertido.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por "murallas chinas" (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p>

B.19 / B.1	Legal and commercial name of the Guarantor	Société Générale (or the Guarantor)
B.19 / B.2	Domicile, legal form, legislation and country of incorporation	<p>Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p>
B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>In 2016, the global economy should suffer from high uncertainty, related in particular to the geopolitical environment (Brexit, European migrant crisis, instability in the Middle East) and to elections in key countries. At the same time, the volatility of commodity and capital markets should remain significant, given the slowdown in emerging economies and strong divergences in monetary policies.</p> <p>In the Eurozone, the quantitative easing and negative interest rate policy implemented by the ECB should keep market interest rates low in 2016, against a backdrop of consistently low inflation. In the United States, the pace of the FED's tightening monetary policy will depend on economic growth momentum. In emerging countries, the moderate growth rate was confirmed in 2015. Although this trend was contained in China, business activity in countries producing commodities saw a more significant decrease.</p> <p>Within this contrasted environment, banks will have to continue to strengthen their capital to meet new regulatory requirements, further to the Basel reforms. In particular, following the various transparency exercises implemented in 2015 and the publication of the minimum Pillar 2 requirements, banks will have to comply with new current liability ratios (MREL and TLAC).</p> <p>Other reforms are still pending, as the banking regulator is reviewing the trading portfolio and risk-weighting models.</p> <p>Global economic growth is likely to remain fragile. Firstly, emerging economies have seen</p>

		<p>their growth stabilise, but at a low level. Secondly, growth in developed countries, which was already sluggish, is likely to be negatively impacted by the uncertainty shock due to Brexit (following the referendum on 23 June 2016, when a majority of British citizens voted for the United Kingdom to leave the European Union).</p> <p>In addition, numerous negative uncertainties continue to adversely affect the outlook: risk of renewed financial tensions in Europe, risk of further turmoil (financial and socio-political) in emerging economies, uncertainty caused by the unconventional monetary policies implemented by the main developed countries, increased terrorist risk and geopolitical tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from increased doubts about the integrity of the region, following Brexit or institutional or political deadlock in some Eurozone countries; - a sudden and marked rise in interest rates and volatility in the markets (bonds, equities and commodities), which could be triggered by poor communication from central banks, in particular the US Federal Reserve (Fed), when changing monetary policy stance; - a sharp slowdown in economic activity in China, triggering capital flight from the country, downward pressure on the Chinese currency and, by contagion, on other emerging country currencies, as well as a fall in commodity prices; - socio-political tensions in some countries dependent on oil and gas revenues and still needing to adapt to the situation of low prices for these commodities; - a downward correction on commercial property and house prices in France; - worsening geopolitical tensions in the Middle East, South China Sea or Ukraine. This could lead to the extension and stepping up of sanctions between Western countries and Russia, even more depressed economic activity in Russia, and a further sharp depreciation in the rouble.

Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantheholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging</p>

	<p>instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. B.19 / B.1	Razón social y nombre comercial del Garante	Société Générale (o el Garante)
B.19 / B.2	Domicilio social, forma jurídica, derecho y país de constitución	<p>Domicilio social: 29, boulevard Haussmann, 75009 Paris, Francia.</p> <p>Forma jurídica: sociedad anónima ("<i>société anonyme</i>").</p> <p>Derecho aplicable a las actividades realizadas por el Emisor: derecho francés.</p> <p>País de constitución: Francia.</p>
B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores en los que	En 2016, la economía mundial adolece de un alto grado de incertidumbre, en particular como consecuencia de la situación geopolítica (Brexit, crisis migratoria europea, inestabilidad en Oriente Medio) y por la celebración de elecciones en países clave. Al mismo tiempo, la volatilidad de los mercados de materias primas y de capital seguirá siendo significativa, debido a la desaceleración de las economías emergentes y las fuertes divergencias en las

	<p>opera</p>	<p>políticas monetarias.</p> <p>En la zona euro, la flexibilización cuantitativa y la política de tipo de interés negativo aplicada por el BCE deberían mantener bajos los tipos de interés de mercado en 2016, en un contexto de baja inflación constante. En los Estados Unidos, el ritmo de endurecimiento de la política monetaria por parte del Sistema de Reserva Federal (FED) dependerá del impulso del crecimiento económico. En los países emergentes, en 2015 se mantuvo una tasa de crecimiento moderada. A pesar de que esta tendencia fue contenida en China, la actividad empresarial de los países productores de materias primas padeció una caída más significativa.</p> <p>En este entorno de contrastes, los bancos deberán seguir reforzando su capital para cumplir con los nuevos requisitos normativos establecidos como consecuencia de las reformas de Basilea. En particular, tras los diversos ejercicios de transparencia implementados en 2015 y la publicación de los requisitos mínimos del Pilar 2, los bancos tendrán que cumplir con los nuevos ratios de pasivos corrientes (MREL y TLAC).</p> <p>Otras reformas aún están pendientes, toda vez que el regulador bancario está revisando los modelos de cartera de negociación y de ponderación por riesgo.]</p> <p>Es probable que el crecimiento económico mundial siga siendo frágil. En primer lugar, las economías emergentes han visto como su crecimiento se ha estabilizado, pero a un nivel bajo. En segundo lugar, es probable que el crecimiento en los países en vías de desarrollo, que ya de por sí es débil, se vea afectado negativamente por la gran incertidumbre que ha generado el Brexit (tras el referéndum el 23 de junio de 2016, cuando la mayoría de los ciudadanos británicos votaron a favor de que el Reino Unido abandonase la Unión Europea).</p> <p>Además, existen numerosas incertidumbres que afectan negativamente a las perspectivas: riesgo de nuevas tensiones financieras en Europa, riesgo de nuevas turbulencias (financieras y sociopolíticas) en economías emergentes, incertidumbre provocada por las políticas monetarias no convencionales aplicadas por los principales países desarrollados, aumento del riesgo de terrorismo así como tensiones geopolíticas. Más concretamente, el Grupo podría verse afectada por:</p> <ul style="list-style-type: none"> - nuevas tensiones financieras en la zona Euro derivadas del incremento de las dudas acerca de la integridad de la región, tras el Brexit o tras el bloqueo institucional o político en algunos países de la zona Euro; - aumento repentino en los tipos de interés y volatilidad en los mercados (bonos, acciones y materias primas), que podría ser desencadenado por la falta de comunicación de los bancos centrales, en concreto por la Reserva Federal de los Estados Unidos (Fed), al cambiar la orientación de la política monetaria; - una fuerte desaceleración de la actividad económica en China, lo que provocó la fuga de capitales del país, la presión a la baja sobre la moneda china y, en consecuencia, en las monedas de otros países emergentes, así como una caída en los precios de las materias primas; - tensiones socio-políticas en algunos países que dependen de los ingresos del petróleo y gas y que todavía necesitan adaptarse a la situación de bajos precios de estas materias primas; - una corrección a la baja en los precios de los inmuebles destinados a actividades comerciales así como las viviendas en Francia; - empeoramiento de las tensiones geopolíticas en el Oriente Medio, Mar del Sur de China o Ucrania. Esto podría conducir al aumento e intensificación de las sanciones entre los países occidentales y Rusia, a una mayor depresión de la actividad económica en Rusia, y a una fuerte depreciación del rublo.

D.6	Advertencia importante para los inversores	Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los

	<p>Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>Durante toda la vida de los Warrants, el valor de mercado de los mismos podrá ser inferior al capital invertido. Además, la insolvencia del Emisor y/o el Garante podría determinar la pérdida íntegra del capital invertido.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por "murallas chinas" (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p>
