The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the relevant Dealer do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Base Prospectus or confirmed the accuracy or determined the adequacy of the information contained in this Base Prospectus. Any representation to the contrary is unlawful.

None of the Issuer, the Guarantor nor the relevant Dealer makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

All references in this document to “U.S. dollars”, “U.S.\$” and “\$” refer to United States dollars. In addition, all references to “Sterling” and “£” refer to pounds sterling and to “euro” and “€” refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

The Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in the Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer, the Guarantor or the Dealer(s) to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, none of the Issuer, the Guarantor or the Dealer(s) have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or the Dealer(s) to publish or supplement a prospectus for such offer.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) ensure it makes a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus, or any other information provided by the Issuer or the Guarantor in connection with the Programme or any applicable supplement and all the information contained in the applicable Final Terms;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest amounts payable in one or more currencies, or where the specified currency for principal or interest payments of the Notes is different from the potential investor’s currency;

- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets;
- (e) in respect of Notes linked to the performance of one or more underlying shares, indices, rates of interest, other rates, foreign exchange rates, funds, commodities, inflation indices, custom indices, and/or any other type of securities or assets or other basis of reference (together, **Reference Items** and each, a **Reference Item**) and/or entities (together **Reference Entities** and each, a **Reference Entity**) (each such Note, a **Reference Item Linked Note**, and together **Reference Item Linked Notes**), understand thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the nature of each such Reference Item Linked Note; and
- (f) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes, particularly Reference Item Linked Notes, are complex financial instruments. Investments in Reference Item Linked Notes entail significant risks not associated with investments in conventional securities such as debt or equity securities including, but not limited to, the risks set out in "*Risk Factors related to the particular issue of Notes*" below and may not be appropriate for investors lacking financial expertise. Prospective investors should consult their own financial, tax and legal advisers as to the risks entailed by an investment in such Notes and the suitability of such Notes in light of their particular circumstances, and ensure that its acquisition is fully consistent with their financial needs and investment policies, is lawful under the laws of the jurisdiction of its incorporation and/or in which it operates, and is a suitable investment for it to make. The Issuer believes that such Notes should only be purchased by investors who are, or who are purchasing under the guidance of, financial institutions or other professional investors that are in a position to evaluate how the Notes will perform under changing conditions and understand the special risks that an investment in these instruments involves, in particular relating to options and derivatives and related transactions, and should be prepared to sustain a total loss of the purchase price of their Notes.

Legal investment considerations may restrict certain investments. The investment activities of certain investors may be subject to law or review or regulation by certain authorities. Each potential investor should determine for itself, on the basis of professional advice where appropriate, whether and to what extent (1) Notes are lawful investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Risk Factors:

The Issuer is a finance vehicle established to issue Notes and to on-lend the proceeds to the Guarantor, which will be used for the Group's general corporate purposes. The Issuer's ability to fulfil its obligations under Notes issued by it under the Programme is therefore dependent upon the Guarantor and other Group companies performing their obligations under the on-loans made to them. The Issuer is further indirectly affected by the other risks faced by the Guarantor and other Group companies, which are described in detail in the "Risk Factors" section of this Base Prospectus.

There are a number of factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee. These are set out under "Risk Factors" below and include the Issuer's exposure to adverse changes in the Spanish economy and real estate market and risks relating to the lack of availability of funding, volatility in interest rates and increased competition. There are also risks faced by the Guarantor in its Southern and North American businesses.

In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme which are described in detail under the "Risk Factors" section below. In the case of Reference Item Linked Notes, risks include structural risks relating to particular Notes, risks relating to unsecured obligations, market disruption, settlement disruption, failure to deliver due to illiquidity, expenses and taxation, no claim against the Reference Item, modification, meetings, hedgings and potential conflicts of interest, physical delivery requirements and settlement risk, illegality and cancellation, partly-paid Notes, optional redemption, minimum denomination possible illiquidity of Notes, exchange rate risks, exchange listing and legal regulation risk.

The "Risk Factors" section of this Base Prospectus is separated into the following primary sub-sections:

1. Risk factors relating to the Issuer's ability to fulfil its obligations under the Notes issued under the Programme.

The risk factor described under this sub-section is the following:

- Dependence on other Group members

2. Risks factors relating to the Guarantor's ability to fulfil its obligations under the Guarantee.

The Guarantor is subject to the following general risks:

- Credit risk: Credit risk arises from the probability that one party to a financial instrument will fail to meet its contractual obligations for reasons of

insolvency or inability to pay and cause a financial loss for the other party. As of 31 December 2011, the BBVA Group's maximum credit exposure was EUR 666,542 million.

- *Market risk*: Market risk is originated by the likelihood of losses in the value of the positions held as a result of changes in the market prices of financial instruments. It includes interest-rate risk, currency risk and price risk. As of 31 December 2011, the Value at Risk (the basic measure to manage and control the BBVA Group's markets risks) amounted to EUR 18 million.
- *Liquidity risk*: Liquidity risk arises from the possibility that a company cannot meet its payment commitments, or to do so must resort to borrowing funds under onerous conditions, or risking its image and the reputation of the entity.
- *Construction and real-estate market risks*: As of 31 December 2011, exposure to the construction sector and real-estate activities in Spain stood at EUR 25,287 million.

- *The Guarantor's business is particularly vulnerable to volatility in interest rates.*

- *The deterioration of economic conditions in Spain*

and the European Union could have a material adverse effect on the financial system as a whole and, therefore, on the Guarantor's business, results of operations and financial condition.

5. Risk Factors relating to the United States

- *The Guarantor's expansion in the United States increases its exposure to the U.S. market.*

6. Risks Factors Relating to Other Countries

- *The Guarantor's strategic growth in Asia exposes it to increased regulatory, economic and geopolitical risk relating to emerging markets in the region, particularly in the People's Republic of China (the PRC).*

- *Since Garanti operates primarily in Turkey, economic and other developments in Turkey may have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Guarantor's investment in Garanti.*

7. Risk Factors related to the particular issue of Notes

- *Notes subject to optional redemption by the Issuer*
- *Partly-paid Notes*
- *Investors will not be able to calculate in advance their rate of return on Floating Rate Notes.*
- *Zero coupon notes are subject to higher price fluctuations than non-discounted notes.*
- *Variable rate Notes with a multiplier or other leverage factor*

- *Fixed/Floating Rate Notes*
- *Notes issued at a substantial discount or premium*
- *Claims of Holders under the Notes are effectively junior to those of certain other creditors*
- *Dual Currency Notes*
- *Physical Delivery Notes*

8. Risk Factors relating to Notes generally.

The risk factors described under this sub-section are the following:

- *Spanish Tax Rules*
- *U.S. Foreign Account Tax Compliance Withholding*
- *Meetings of Noteholders, modification and waiver*

RISK FACTORS

Each of the Issuer and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and neither of the Issuers nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Most of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

The Issuer and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or otherwise perform its obligations in connection with any Notes may occur for other reasons which may not be considered significant risks by either the Issuer or the Guarantor based on information currently available to them or which they may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Prospective purchasers of the Notes should consider carefully, among other things in the light of their financial circumstances and investment objectives, all of the information in this Base Prospectus and, in particular, the risk factors set forth below (which each of the Issuer and the Guarantor, in its reasonable opinion, believes represent or may represent the risk factors known to it which may affect the Issuer's and/or the Guarantor's ability to fulfil its obligations under the Notes) in making an investment decision. Noteholders may lose the value of their entire investment in certain circumstances.

The Risk Factors set out below appear under the following headings:

- 10.** Risk Factors associated with Notes that are linked to one or more specific categories of Reference Items

1. Risk factors relating to the Issuer's ability to fulfil its obligations under the Notes issued under the Programme

Dependence on other Group members

The Issuer is a finance vehicle established by the Guarantor for the purpose of issuing Notes and on-lending the proceeds within the Group. The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should any Group member fail to pay interest on or repay any loan in a timely fashion this could have a material adverse effect on the ability of the Issuer to fulfil its obligations under Notes issued under the Programme.

By virtue of its dependence on other Group members, each of the risks described below that affect the Guarantor will also indirectly affect the Issuer.

2. Risks factors relating to the Guarantor's ability to fulfil its obligations under the Guarantee

The description of the risks inherent in the business of the BBVA Group, its business and operations, as well as quantitative information on the different risks, with data covering the years 2011, 2010 and 2009, are shown in Note 7 and Annex XI of the consolidated financial statements dated 31 December 2011 and are incorporated by reference in this Base Prospectus. Also in this consolidated accounts are indications of the risk principles and policies of the BBVA Group and the corporate governance framework in relation to risk management, internal control model and tools, circuits and procedures.

The Guarantor is subject to an extensive regulatory framework, and regulatory oversight. Changes to this regulatory framework could have a material adverse effect on its business, results of operations and financial condition.

The financial services industry is among the most highly regulated industries in the world. The Guarantor's operations are subject to specific regulation, which is exposed to the various risks that could arise from changes in the regulatory framework of the several jurisdictions where the Group operates or has listed securities, such as in Spain, the European Union, Mexico, the United States and the other markets where it operates (Latin America, Asia, etc.). This is particularly the case in the current market environment, which is witnessing increased governmental regulation in the banking sector which we expect to continue for the foreseeable future. The regulations which most significantly affect the Guarantor include regulations relating to capital requirements.

In addition, the Guarantor is subject to substantial regulation relating to other matters such as liquidity. The Guarantor cannot predict if increased liquidity standards, if implemented, could require it to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, which would negatively affect the Guarantor's net interest margin.

The Guarantor is also subject to other regulations, such as those related to anti-money laundering, data protection and transparency and fairness in customer relations.

Adverse regulatory developments or changes in government policy relating to any of the foregoing or other matters could have a material adverse effect on the Guarantor's business, results of operations and financial condition. Furthermore, regulatory diversity, with some countries implementing new and more stringent standards or regulation, could adversely affect the Guarantor's ability to compete with financial institutions based in other jurisdictions which do not need to comply with such new standards or regulation.

Capital requirements of banks are increasingly one of the regulator's principal concerns

Capital requirements that are increasingly onerous constitute one of the regulator's principal concerns with respect to the banks.

As a Spanish financial institution, the Guarantor is subject to the Bank of Spain Circular 3/2008 of May 22 (**Circular 3/2008**), on the calculation and control of minimum capital requirements, as further amended and as specifically amended by the Bank of Spain Circular 4/2011 of 30 November (**Circular 4/2011**), which implements Directive 2010/76/UE on capital requirements (**CRD III**).

Moreover, financial institutions will be subject to the new Basel III capital standards, which will be phased in from 1st January, 2013 until 1st January, 2019. Despite the Basel III framework setting minimum transnational levels of regulatory capital and a measured phase-in, many national authorities have started a race to the top for capital by gold-plating both requirements and the implementation calendars. In Europe this regulation will be implemented through the Directive relating to access to credit entities activities y prudent supervision of the credit entities by which Directive 2002/87/CE of the European Parliament is amended ("**CRD IV**"), which is expected be approved throughout 2012. Nevertheless, the Spanish Government anticipated part Basel III with the Royal Decree-Law 2/2011, of February 18 (**RD-L 2/2011**), as part of a wider plan of the Spanish Government for the strengthening of the financial sector by imposing stricter capital requirements. The Guarantor believes this lack of European regulation uniformity may lead to an uneven playing field and to competition distortions. Moreover, regulatory diversify, with some countries bringing forward the application of Basel III requirements or increasing such requirements, could adversely affect a bank with global operations such as the Guarantor and could undermine its profitability. As of 31st December, 2011, the Guarantor's "principal capital" ratio, as calculated in accordance with RD-L 2/2011, was 9.7 per cent., compared with the minimum required ratio of 8 per cent.

In addition, following an evaluation of the capital levels of 71 financial institutions throughout Europe (including BBVA) based on data available as of 30th September, 2011, the European Banking Authority (**EBA**) issued a recommendation pursuant to which, on an exceptional and temporary basis, financial institutions based in the EU should reach a new minimum Core Tier 1 ratio (9 per cent.) by 30th June, 2012. This recommendation is temporary in nature and seeks to restore market confidence in the European financial system. Accordingly, the EBA has announced its intention to lift this recommendation once confidence in the European financial markets is restored. On 20th January, 2012, the BBVA Group submitted to the Bank of Spain an action plan setting forth the steps that the group intends to take in order to reach the recommended minimum Core Tier 1 ratio by 30th June, 2012. This plan, examined jointly by the Bank of Spain and the EBA, has been approved on 7 March 2012. On 31 March 2012 BBVA already had a Core Tier I ratio of 9.0% (calculated as per the aforementioned EBA standards), without the need to sell any strategic assets and not having received any public aid. This ratio has been achieved as a result of organic capital generation, the issuance on 30th December, 2011 of €3.4 billion of mandatory convertible subordinated bonds by BBVA, the approval by the Bank of Spain of certain operational internal risk control models and portfolio optimisation jointly with the EBA.

Measures by the Spanish Government in relation to the financial systems reforms (RD-L 2/2012 and RD-L 18/2012)

On 3rd February and 11th May, 2012 the Spanish Government enacted RD-L 2/2012 in relation to the reorganisation of the financial sector and RD-L 18/2012 in relation to the reorganisation and sale of real-estate assets in the financial sector. These established new capital requirements for Spanish credit institutions and further coverage for impaired assets linked to the real-estate market in Spain.

The Guarantor has made an initial estimate of the possible impact of the application of the new requirements under RD-L 2/2012 and RD-L 18/2012 to its asset portfolio, which was publicly disclosed in the announcements made by the Guarantor on 6th February and 14th May 2012. The Guarantor estimates that the additional coverage it will need to provide for would have an overall gross impact of €4,6 billion on its total income statement. The final amount of this coverage will be fully written down against the Group's financial statements for the financial year ending 31 December, 2012 and would reduce the Group's capital ratios by approximately 64 basis points. BBVA nonetheless estimates that even after applying these measures, it will continue to meet all of its regulatory capital requirements.

In addition, on 11th May 2012 the Spanish Government announced a new process by which independent experts are to review the valuations of the balance sheets of Spanish credit institutions. This new process is being implemented as at the date of this Offering Circular such that at this stage the Guarantor is unable to assess any possible impact this may have on the Guarantor.

The above measures, and the ongoing situation in the domestic and international securities markets and economies and the uncertainties regarding events in Europe may have a negative impact, which cannot otherwise currently be quantified, on Group earnings and the Guarantor's business, results of operations and financial condition; and could make it advisable for the Guarantor to adopt additional capital and financial management measures over and above those announced to date.

Current economic conditions may make it more difficult for the Guarantor to continue funding its business on favourable terms or at all.

Historically, one of the Guarantor's principal sources of funds has been savings and demand deposits. Time deposits represented 27 per cent., 30 per cent. and 33 per cent. of its total funding as of 31st December, 2011, 2010 and 2009, respectively. In the current situation of high competition when obtain sources of financing, the large-denomination time deposits based on the offered remuneration, may, under some circumstances, such as during periods of significant interest rate-based competition for these types of deposits, be a less stable source of deposits than savings and demand deposits (more linked to the payroll domiciliation, bills, etc). Moreover, since the Guarantor relies heavily on short-term deposits for its funding, the Guarantor cannot be sure that, in the event of a shortage of funds in the banking systems or money markets in which it operates, it will be able to maintain its current levels of funding without incurring higher funding costs or having to liquidate certain of its assets. In addition, if public sources of liquidity, such as the ECB extraordinary measures adopted in response to the financial crisis since 2008, are removed from the market, the Guarantor can give no assurance that it can continue funding its business without incurring higher funding costs.

The Guarantor's business is particularly vulnerable to volatility in interest rates.

The Guarantor's results of operations are substantially dependent upon the level of its net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Interest rates are highly sensitive to many factors beyond its control, including a lack of regulation of the financial sectors in the markets in which it operates, monetary policies pursued by the EU and national governments, domestic and international economic (macroeconomic data, risk premiums etc) and political conditions and other factors. In Spain, competition distortions in the term deposits market have intensified, and this situation is expected to continue due to the liquidity needs of certain financial institutions, which are offering high interest rates to attract additional deposits, despite the fact that these institutions will have to increase their contribution to the Deposit Guarantee Fund of Credit Institutions (*Fondo de Garantía de Depósitos*) (the **FGD**) for this kind of highly remunerated deposits.

Changes in market interest rates could affect the spread between interest rates charged on interest-earning assets and interest rates paid on interest-bearing liabilities and thereby negatively affect the Guarantor's results of operations. For example, an increase in interest rates could cause its interest expense on deposits to increase more significantly and quickly than our interest income from loans, resulting in a reduction in its net interest income.

3. Risks Factors Relating to Spain and Europe

The deterioration of economic conditions in Spain and the European Union could have a material adverse effect on the financial system as a whole and, therefore, on the Guarantor's business, results of operations and financial condition.

The Guarantor is a Spanish banking company and conducts substantial business activities in Spain (as at 31 December, 2011, Spain represented approximately 52% of the Group's total assets and 45% of the benefit attributed to the Group's parent company). Like other banks operating in Spain and Europe, the Guarantor's performance and liquidity may be affected by economic conditions affecting Spain and other EU member states.

The evolution of the global economy is heavily dependent on the resolution of the European debt crisis, which outlook has worsened over the last few months. Four main factors lie behind this trend:

- First, lower than expected economic growth mainly, but not only, in developed economies. The Euro-zone continues to suffer from the crisis of the peripheral countries. After several months of contention, financial stress has made a comeback. Recent data indicates that the Euro-zone has stopped growing in the first half of 2012 and a slow recuperation during the second half of 2012, which will continue at a moderate level during 2013. The differences between the countries in Central Europe and those peripheral countries will be substantial, mainly due to the constant financial stress and hard tax adjustments in the latter.
- Second, the sovereign debt crisis in Europe has intensified and turned more systemic. The uncertainty stemming from the result of the Greek elections held last 17 June has intensified the stress in the Euro-zone, with speculation of a possible Greek abandonment of the Euro and the contagion effect this may have over other peripheral economies such as Ireland, Portugal, Spain and Italy. . Notwithstanding the victory in the Greek elections of the pro-European parties, stress has not gone away from the markets, waiting for a coalition government that may be unstable, the renegotiation of the Greek rescue program, and the results of the next European summits.
- Third, the connection between EU sovereign concerns and concerns for the health of the European financial system has intensified. Financial stress in Europe has increased certain country's risk premium, with the consequent increase of the cost of financing of governments and financial institutions which, in some cases, have lost access to international funding. In particular, since May 2012, the Spanish risk premium has, on several occasions, risen above 500 basis points, causing the Spanish Treasury, and consequently the Spanish banks (notwithstanding the measures recently announced by the financial aid to be furnished by the Euro group to the Spanish banks) to, in this context, not realise new issuances in the wholesale markets in the recent months.
- Finally, growing risk aversion has increased financial market volatility significantly, spilling over to most risky assets and emerging economies for the first time since 2009 (this could affect the businesses of the Guarantor's Group in Latin America, Asia, Turkey, etc.).

Economic conditions remain uncertain in Spain and the European Union and may deteriorate in the future, which could adversely affect the cost and availability of funding for Spanish and European banks, including the Guarantor, adversely affecting the Guarantor's loan portfolio.

Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition.

The Guarantor has historically developed its lending business in Spain, which continues to be the Guarantor's main place of business. As of 31st December, 2011, business activity in Spain accounted for 55 per cent. of the Guarantor's loan portfolio.

After rapid economic growth until 2007, Spanish gross domestic product (**GDP**) grew by 0.9 per cent. in 2008, contracted by 3.7 per cent. and 0.2 per cent. in 2009 and in 2010, respectively, and grew by 0.7 per cent. in 2011. Our Economic Research Department (**BBVA Research**) estimates that the Spanish economy will show a negative growth rate in 2012. Forecasts point towards a 1.3 per cent. contraction of GDP in 2012 and a slow recovery in 2013. However, the OCDE has estimated an 1.6% GDP contraction for 2012 and an 0.8% GDP contraction for 2013. According with the assessment advanced by the National Research Institute (*Instituto Nacional de Estadística*), the GDP in Spain has registered a quarterly variation of -0.3% for the first quarter of 2012, which means an annual variation of -0.4%.

In addition, GDP forecasts for the Spanish economy could be further revised downwards if measures adopted in response to the economic crisis are not as effective as expected or if public deficit figures force the government to implement additional restrictive measures. In addition to the tightening of fiscal policies in order to correct its economic imbalances, Spain has seen confidence erode, export growth fall, expectations of further fiscal adjustment in 2012 rise higher than initially predicted because of the failure to meet 2011 budget targets, weaker activity and, above all, a deterioration in employment in 2011.

The effects of the financial crisis have been particularly pronounced in Spain given Spain's heightened need for foreign financing as reflected by its high current account and public deficits. Real or perceived difficulties in making the payments associated with these deficits can further damage Spain's economic situation and increase the costs of financing its public deficit. The aforementioned may be exacerbated by the following:

- The Spanish economy is particularly sensitive to economic conditions in the rest of the Euro area, the primary market for Spanish goods and services exports.
- The domestic demand in 2011 was heavily impacted by fiscal policy both directly, through the progressive contraction on public sector demand (as a result, among other reasons, of tighter fiscal targets), and indirectly, through the impact of these reforms on the consumption and investment decisions of private agents.
- Although the new labour market reform is intended to slow the amount of jobs destroyed in 2012, unemployment is expected to remain above 20 per cent. during 2012 and 2013.

The Guarantor's loan portfolio in Spain has been adversely affected by the deterioration of the Spanish economy in 2011, 2010 and 2009. The Guarantor's total substandard loans to customers in Spain amounted to €11,043 million, €10,954 million and €10,973 million as of 31 December, 2011, 2010 and 2009, respectively, principally due to the deterioration in the macroeconomic environment. The Guarantor's total substandard loans to customers in Spain as a percentage of total loans and receivables to customers in Spain were 5.5 per cent., 5.2 per cent. and 5.4 per cent. as of 31st December, 2011, 2010 and 2009, respectively. The Guarantor's loan loss reserves to customers in

Spain are of €11,101 million as of 31 March 2012, compared to the €11,043 million as of 31 December, 2011. The slight increase of 0.5% is mainly due to the worsening Spanish economic situation.

Given the concentration of the Guarantor's loan portfolio in Spain, any adverse changes affecting the Spanish economy are likely to have a significant adverse impact on the Guarantor's loan portfolio and, as a result, on its financial condition, results of operations and cash flows.

Exposure to the Spanish real estate market makes the Guarantor vulnerable to developments in this market.

In the years prior to 2008, economic growth, strong labour markets and low interest rates in Spain caused an increase in the demand for housing, which resulted in an increase in demand for mortgage loans. This increased demand and the widespread availability of mortgage loans affected housing prices, which rose significantly. After this buoyant period, demand began to adjust in mid-2006. Since the last quarter of 2008, the supply of new homes has been adjusting sharply downward in the residential market in Spain, but a significant excess of unsold homes still exists in the market. Residential real estate mortgages to individuals represented 21.9 per cent. and 23.1 per cent. of the Guarantor's domestic loan portfolio as of 31 December, 2011 and 2010, respectively.

The Guarantor expects housing demand to remain weak and housing transactions to continue decreasing in 2012. Economic indicators available during the first months of 2012 continue to reflect the weakness of this sector: the synthetic indicator of inversion in housing will point to a new contraction during the first three months of the year (-1.8% 3 month variation, -6% 12 month variation). Loans by the Guarantor for the development of real estate and housing construction in Spain amounted to €14,158 million as of 31 December, 2011 (of which 26.4% have been classified as "bad" loans) and represented 7 per cent. of the Guarantor's gross domestic lending as of 31 December, 2011, which is below the average in the Spanish financial sector according to the Bank of Spain.

As at 31 December 2011, the net present value of guarantees associated to developer credit amounted to 19,288 million euro, which meant a medium LTV of 73%. As of 31 December 2011, 66% of the promoter credit corresponded to mortgaged credits over buildings (94% of which were houses) and only 26% guaranteed by mortgages over apartments, of which 65% were urban apartments.

Additionally, as of 31 December 2011, the Group maintained a total net value of €5,101 million real estate assets, deriving from adjudication or debt payments by construction and real estate promotion companies with a medium coverage of 34%. The real estate assets deriving from adjudication or debt payments by construction and real estate promotion companies amounted to a net value of €1,509 million, as of 31 December 2011, with a medium coverage of 27%.

As of 31 March 2012 and 31 December 2011, the total amount of real estate assets of the Group in the balance sheet (business in Spain), including the rest of real estate assets received as debt payments, had respectively a net value of €7,013 and €7,096 million, with a medium coverage of 33%.

Highly-indebted households and corporations could endanger the Guarantor's asset quality and future revenues.

Spanish households and businesses have reached, in recent years, a high level of indebtedness, which represents increased risk for the Spanish banking system. In addition, the high proportion of loans referenced to variable interest rates (approximately 69 per cent. of the Guarantor's loan portfolio as of 31st December, 2011) makes debt service on such loans more vulnerable to changes in interest rates than in the past. Highly indebted households and businesses are less likely to be able to service debt obligations as a result of adverse economic events, which could have an adverse effect on the

Guarantor's loan portfolio and, as a result, on its financial condition and results of operations. Moreover, the increase in households' and businesses' indebtedness also limits their ability to incur additional debt, decreasing the number of new products the Guarantor may otherwise be able to sell them and limiting the Guarantor's ability to attract new customers in Spain satisfying its credit standards, which could have an adverse effect on the Guarantor's ability to achieve its growth plans.

4. Risks Factors Relating to Latin America

Events in Mexico could adversely affect the Guarantor's operations.

The Guarantor is substantially dependent on its Mexican operations (which represents 12% of the Group's overall activities), with approximately €1,741 million, €1,707 million and €1,357 million of the net income attributed to the Guarantor in 2011, 2010 and 2009, respectively, being generated in Mexico (58 per cent., 37 per cent. and 32 per cent. of the Guarantor's net income attributed to it in 2011, 2010 and 2009, respectively). The Guarantor faces several types of risks in Mexico which could adversely affect its banking operations in Mexico or the Group as a whole. Given the internationalisation of the financial crisis, the Mexican economy has felt the effects of the global financial crisis and the adjustment process that was underway. This process has intensified since the end of the first quarter of 2011, as a result of the European sovereign crisis. This notwithstanding, in recent months, public debt interest rates have been disassociated from global risk, responding to inflation and monetary policy forecasts. From the last week of March, global uncertainty has gone up as a result of the deterioration of the European financial crisis. Beginning with a short term improvement in Mexican GDP. (3.7 per cent. according to BBVA Research), it is expected that, in the medium term, the effect of low demand from the United States will become dominant, thus causing a negative impact on Mexican GDP. The economy of the United States, Mexico's biggest commercial partner, is exposed to the effect of oil price fluctuations, in a way that an increase in the price of oil causes its GDP to go decrease in the medium and long term.

As of 31st December, 2011, 2010 and 2009, the Guarantor's mortgage loan portfolio delinquency rates in Mexico were 4.1 per cent., 3.3 per cent. and 4.4 per cent., respectively, and its consumer loan portfolio delinquency rates were 2.5 per cent., 2.9 per cent. and 4.0 per cent., respectively. If there is an increase in unemployment rates, which could arise if there is a more pronounced or prolonged slowdown in Europe or the United States, it is likely that such rates will further increase.

In addition, any tightening of the monetary policy, including to address upward inflationary pressures, could make it more difficult for customers of the Guarantor's mortgage and consumer loan products in Mexico to service their debts. Furthermore, price regulation, and competition could squeeze the profitability of its Mexican subsidiary. If this were to occur, the market share of the Guarantor's Mexican subsidiary could decrease given its risk management standards. The depreciation of the Mexican peso could also adversely affect the contribution of the Mexican subsidiary to the BBVA Group.

Finally, political instability or social unrest could weigh on the economic outlook, which could increase economic uncertainty. Additionally, if the approval of certain structural reforms is delayed, this could make it more difficult to reach potential growth rates in the Mexican economy.

Any of these risks or other adverse developments in laws, regulations, public policies or otherwise in Mexico may adversely affect the business, financial condition, operating results and cash flows of the Guarantor's Mexican subsidiary or the Group as a whole.

The Guarantor's Latin American subsidiaries' growth, asset quality and profitability may be affected by volatile macroeconomic conditions, including significant inflation and government default on public debt, in the Latin American countries where they operate.

The Latin American countries in which the Guarantor operates (at 31 December, 2011 representing approximately 11% of the Group's total assets and 34% of the income attributed to the consolidated matrix of the Group) have experienced significant economic volatility in recent decades, characterised by recessions, foreign exchange crises and significant inflation. This volatility has resulted in fluctuations in the levels of deposits and in the relative economic strength of various segments of the economies to which the Guarantor lends. Negative and fluctuating economic conditions, such as a changing interest rate environment, also affect the Guarantor's profitability by causing lending margins to decrease and leading to decreased demand for higher-margin products and services. In addition, significant inflation can negatively affect the Guarantor's results of operations as was the case in the year ended 31st December, 2009, when as a result of the characterisation of Venezuela as a hyperinflationary economy, the Guarantor recorded a €90 million decrease in its net income attributed to parent company.

In addition, as a result of the more challenging global environment and the danger of recession in developed countries, the monetary authorities of certain Latin American countries are holding back the withdrawal of monetary stimuli more than expected. Possible overheating of the economy is leaving economies more vulnerable to a possible adverse external shock because the growing gap between domestic demand and GDP making them more dependent on international terms of trade. Inflation has been higher than expected, particularly in Chile and Peru. This has limited consumer purchasing power despite major increases in employment and wages.

Negative and fluctuating economic conditions in some Latin American countries could result in government defaults on public debt. This could affect the Guarantor in two ways: directly, through portfolio losses, and indirectly, through instabilities that a default in public debt could cause to the banking system as a whole, particularly since commercial banks' exposure to government debt is generally high in several Latin American countries in which the Guarantor operates.

While we seek to mitigate these risks through what we believe to be conservative risk policies, no assurance can be given that our Latin American subsidiaries' growth, asset quality and profitability will not be further affected by volatile macroeconomic conditions in the Latin American countries in which we operate.

Latin American economies can be directly and negatively affected by adverse developments in other countries.

Financial and securities markets in Latin American countries in which the Guarantor operates are, to varying degrees, influenced by economic and market conditions in other countries in Latin America and beyond. Negative developments in the economy or securities markets in one country, particularly in the U.S. or in Europe under current circumstances, may have a negative impact on emerging market economies. These developments may adversely affect the business, financial condition, operating results and cash flows of the Guarantor's subsidiaries in Latin America. These economies are also vulnerable to conditions in global financial markets and especially to commodities price fluctuations and these vulnerabilities usually reflect adversely in financial market conditions through exchange rate fluctuations, interest rate volatility and deposits volatility. For example, at the beginning of the financial crisis these economies were hit by a simultaneous drop in commodity export prices, a collapse in demand for non-commodity exports and a sudden halting of foreign bank loans. Even though most of these countries withstood the triple impact rather well, with limited damage to their financial sectors, the Guarantor has seen non-performing loan ratios rise as well as contraction in bank deposits and loans. As a global economic recovery remains fragile, there are risks of a relapse. If the global financial crisis continues and, in particular, if the effects on the Chinese and U.S. economies intensify, as a result of contagion, the business, financial condition, operating results and cash flows of the Guarantor's subsidiaries in Latin America are likely to be materially adversely affected.

The Guarantor is exposed to foreign exchange and, in some instances, political risks as well as other risks in the Latin American countries in which it operates, which could cause an adverse impact on its business, financial condition, results of operations.

The Guarantor operates commercial banks and insurance and private pension companies in various Latin American countries and its overall success as a global business depends, in part, upon its ability to succeed in differing economic, social and political conditions. The Guarantor is confronted with different legal and regulatory requirements in many of the jurisdictions in which it operates. These include, amongst other things, different tax regimes and laws relating to the repatriation of funds or nationalisation or expropriation of assets.

The Guarantor's presence in Latin American markets also requires it to respond to rapid changes in market conditions in these countries. No assurance can be given that it will continue to succeed in developing and implementing policies and strategies that are effective in each country in which it operates or that any of the foregoing factors will not have a material adverse effect on its business, financial condition and results of operations.

A number of banking regulations designed to maintain the safety and soundness of banks and limit their exposure to risk are applicable in certain Latin American countries in which the Guarantor operates. Local regulations differ in a number of material respects from equivalent regulations in Spain and the United States.

Changes in regulations that are beyond the Guarantor's control may have a material effect on its business and operations, particularly in Venezuela and Argentina. In addition, since some of the banking laws and regulations have been recently adopted. No assurance can be given that laws or regulations will be enforced or interpreted in a manner that will not have a material adverse effect on the Guarantor's business, financial condition, results of operations and cash flows.

International transactions also expose BBVA to risks to which their local competitors are not usually exposed to, such as exchange rate risk, the difficulty of managing abroad a local entity, and the political risk which could potentially affect foreign investors. In addition, there has been an increase of the global risk during the beginning of the last quarter of 2011, as it is shown in the pressure some currencies are suffering and higher levels of uncertainty.

5. Risk Factors relating to the United States

The Guarantor's expansion in the United States increases its exposure to the U.S. market.

The Guarantor's expansion in the United States makes it more vulnerable to developments in this market, particularly the real estate market. The recent economic growth estimates for the U.S., showing that economic recovery is slower than expected, and growing regulatory pressure in the U.S. financial sector resulted in a write down of goodwill related to the Guarantor's acquisition of BBVA Compass in the aggregate amount of €1,444 million as of 31st December, 2011. Similar or worsening economic conditions in the United States could have a material adverse effect on the business, financial condition, results of operations and cash flows of the Guarantor's subsidiary BBVA Compass, or the Group as a whole, and could require the Guarantor to provide BBVA Compass with additional capital.

6. Risks Factors relating to Other Countries

The Guarantor's strategic growth in Asia exposes it to increased regulatory, economic and geopolitical risk relating to emerging markets in the region, particularly in the People's Republic of China (the PRC).

Pursuant to certain transactions completed in the past few years, the Guarantor increased its ownership interest in members of the CITIC Group, a Chinese banking group, by increasing its stake in CITIC International Financial Holdings Ltd (**CIFH**) to 29.7 per cent. and China Citic Bank (**CNCB**) to 10.07 per cent. as of 31st December, 2010. CIFH is a banking entity headquartered in Hong Kong and CNCB is a banking entity headquartered in the PRC. The book-value of the Guarantor's investment in the CITIC Group (consolidated according to the stakeholding method) on 31 December 2011 was €5,387 million.

As a result of the Guarantor's expansion into Asia, it is exposed to increased risks relating to emerging markets in the region, particularly in the PRC. The Chinese government has exercised, and continues to exercise, significant influence over the Chinese economy. Chinese governmental actions, including changes in laws or regulations or in the interpretation of existing laws or regulations, concerning the economy and state-owned enterprises, or otherwise affecting the Guarantor's activity, could have a significant effect on Chinese private sector entities in general, and on CIFH or CNCB in particular. Chinese authorities have implemented a series of monetary tightening and macro prudential policies to slow credit growth and to contain rises in real estate prices. These could undermine profitability in the banking sector generally and CIFH's and CNCB's respective profitability in particular. The Guarantor's business in the PRC may also be affected by the increased credit quality risks resulting from the recent increase in local government debt and financial stresses in smaller companies as their access to various forms of non-bank credit is tightened.

In addition, while the Guarantor believes long term prospects in both the PRC and Hong Kong are positive, particularly for the consumer finance market, near term risks are present from the impact of a slowdown in global growth, which could result in tighter financing conditions and could pose risks to credit quality. The PRC's GDP growth has moderated following efforts to avert overheating and steer the economy towards a soft landing. While domestic demand and production remain strong, there is an increased probability of a hard landing as a result of the uncertainties concerning the global environment, exacerbated by a rise in domestic financial fragilities.

Any of these developments could have a material adverse effect on the Guarantor's investments in the PRC and Hong Kong or the business, financial condition, results of operations and cash flows of the Group.

Since Garanti operates primarily in Turkey, economic and other developments in Turkey may have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Guarantor's investment in Garanti.

In 2011, the Guarantor acquired a 25.01 per cent. interest in TürkiyeGarantiBankası A.Ş. (**Garanti**). Most of Garanti's operations are conducted, and most of its customers are located, in Turkey. Accordingly, Garanti's ability to recover on loans, its liquidity and financial condition and its results of operations are substantially dependent upon the political, economic, financial and geopolitical conditions prevailing in or that otherwise affect Turkey. If the Turkish economy is adversely affected by, among other factors, a reduction in the level of economic activity, continuing inflationary pressures, devaluation or depreciation of the Turkish Lira, a natural disaster or an increase in domestic interest rates, then a greater portion of Garanti's customers may not be able to repay loans when due or meet their other debt service requirements to Garanti, which would increase Garanti's past due loan portfolio and could materially reduce its net income and capital levels. After growing by approximately 8.5 per cent. in 2011, the Turkish economy is expected to grow by 1.9 per cent. in 2012. In addition, inflation is expected to further increase by 9.1 per cent. in 2012. Moreover, the current account deficit has widened during 2011, raising concerns about Turkey's vulnerability to a sudden stop of capital flows.

Furthermore, political uncertainty or instability within Turkey and in some of its neighbouring countries has historically been one of the potential risks associated with investments in Turkish companies. Despite Turkey's increased political and economic stability in recent years and the implementation of institutional reforms to conform to international standards, Turkey is an emerging market and it is subject to greater risks than more developed markets. Financial turmoil in any emerging market could negatively affect other emerging markets, including Turkey, or the global economy in general. Moreover, financial turmoil in emerging markets tends to adversely affect stock prices and debt securities prices of other emerging markets as investors move their money to more stable and developed markets, and may reduce liquidity to companies located in the affected markets. An increase in the perceived risks associated with investing in emerging economies in general, or Turkey in particular, could dampen capital flows to Turkey and adversely affect the Turkish economy. In addition, a further deterioration in the EU accession process may negatively affect Turkey. Any of these risks could have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Guarantor's investment in Garanti.

7. Risk Factors related to the particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features.

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when their cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of their investment.

Investors will not be able to calculate in advance their rate of return on Floating Rate Notes.

A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Notes may affect the market value and secondary market (if any) of the Floating Rate Notes (and vice versa).

Zero coupon notes are subject to higher price fluctuations than non-discounted notes.

Changes in market interest rates generally have a substantially stronger impact on the prices of zero coupon notes than on the prices of ordinary notes because the discounted issue prices are substantially below par. If market interest rates increase, zero coupon notes can suffer higher price losses than other notes having the same maturity and credit rating.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that may convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Claims of Holders under the Notes are effectively junior to those of certain other creditors

The Notes and the guarantee in respect of them (the **Guarantee**) are unsecured and unsubordinated obligations of the Issuer and the Guarantor, respectively. Subject to statutory preferences, the Notes and the Guarantee will rank equally with any of the Issuer and the Guarantor's other unsecured and unsubordinated indebtedness. However, the Notes and the Guarantee will be effectively subordinated to all of, respectively, the Issuer and the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under Spanish law. The Guarantee is also structurally subordinated to all indebtedness of subsidiaries of BBVA insofar as any

right of BBVA to receive any assets of such companies upon their winding up will be effectively subordinated to the claims of the creditors of those companies in the winding-up.

Dual Currency Notes

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in exchange rates will affect the value of the Notes.

Physical Delivery Notes

Delivery of the Entitlement in respect of any Notes subject to Physical Delivery is contingent upon:

- (i) delivery by the relevant Noteholder or, in the case of Book-Entry Notes, Iberclear participant, of a duly completed Asset Transfer Notice or complete Iberclear Settlement Instructions, as applicable, in each case completed and delivered in accordance with the requirements of the terms and conditions of the Notes; and
- (ii) timely payment by the relevant Noteholder of all Expenses relating to delivery of the Entitlement deliverable comprising the Entitlement, in respect of such Notes. As defined in the terms and conditions of the Notes, Expenses includes all costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes arising from such delivery.

Once delivered, an Asset Transfer Notice or Iberclear Settlement Instruction may not be withdrawn.

Any determination as to whether an Asset Transfer Notice or Iberclear Settlement Instruction is duly completed and in proper form shall be made by the party specified in the terms and conditions of the Notes. Such determination will be conclusive and binding on the relevant Noteholder or Iberclear participant entity and neither the Issuer, the Guarantor nor any party making such determination will, in the absence of negligence or wilful misconduct on its part, be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder. Any Asset Transfer Notice determined not to have been completed or delivered in accordance with the terms and conditions of the Notes and an Iberclear Settlement Instruction determined to be incomplete, will be null and void.

Where an Asset Transfer Notice or Iberclear Settlement Instruction is delivered after the relevant cut-off date and consequently settlement in respect of the relevant Notes is delayed, the Noteholder will not be entitled to any payment, whether of interest or otherwise, in respect of such delay. If valid delivery of a duly completed Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, has not occurred by close of business in each place of receipt on the 90th calendar day following the relevant cut-off date, either:

- (i) if "Assessed Value Payment Amount" is specified as applicable in the applicable Final Terms, the Issuer shall pay the Assessed Value Payment Amount to the relevant Noteholder in lieu of delivery and upon such payment the Issuer's obligations in respect of such Note shall be discharged. The Assessed Value Payment Amount will be an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the relevant Entitlement less the cost to the Issuer and/or its affiliates of unwinding any underlying

hedging arrangements, all as determined by the Issuer. As such, the Assessed Value Payment Amount may be less than the Noteholder's initial investment in the Notes and in certain circumstances may be zero; or

- (ii) if "Assessed Value Payment Amount" is not specified as applicable in the applicable Final Terms, the Issuer's obligations in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer.

All deliveries are made at the risk of the relevant Noteholder. Fractions of units of any asset or assets deliverable will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

The Final Terms may stipulate that the Issuer has the right to vary settlement. Where this is the case, the Issuer may at its sole and absolute discretion elect to make payment to Noteholders on the Maturity Date in lieu of delivery.

In the case of Notes which are redeemable by delivery of assets (other than Credit Linked Notes), if a Settlement Disruption Event (as defined in the terms and conditions of the Notes) occurs or exists on the due date for delivery of the Entitlement in respect of some or all of the assets to be delivered, settlement of the affected assets will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances also has the right to pay the Disruption Cash Redemption Amount in lieu of delivering the Entitlement (as defined in the terms and conditions of the Notes). Noteholders will not be entitled to any payment in respect of any delay in delivery due to the occurrence of a Settlement Disruption Event.

Other than in respect of Credit Linked Notes, if a Failure to Deliver due to Illiquidity is specified as applying in the applicable Final Terms and in the opinion of the Calculation Agent it is impossible or impracticable to deliver some or all of the Relevant Assets comprising the Entitlement when due as a result of illiquidity in the market for the Relevant Assets, the Issuer has the right, in lieu of delivery of the assets affected by such event, to pay the Failure to Deliver Redemption Amount.

The calculation of each of the Disruption Cash Redemption Amount and the Failure to Deliver Redemption Amount may include a deduction (determined by the Issuer) in respect of the cost to the Issuer and/or its affiliates of unwinding any underlying hedging arrangements. As such, such amounts may be less than both the fair market value of the Entitlement and any relevant Noteholder's initial investment in the Notes and in certain circumstances may be zero.

In the case of Physical Delivery Notes which are Credit Linked Notes, if all or some of the Deliverable Obligations included in the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, on or before the 30th Business Day following the Credit Settlement Date, failing which the Issuer shall give notice to the Noteholders and shall pay in respect of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

All references to a "delivery" or "deliveries" in this sub-section, unless specifically stated otherwise, will include Delivery or Deliveries of Deliverable Obligations in respect of Credit Linked Notes.

An investment in a Reference Item Linked Note subject to Physical Delivery may also entail risks relating to delivery which are specific to that particular type of Reference Item Linked Note.

8. Risk Factors relating to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Spanish Tax Rules

Law 4/2008 removed the obligation for Spanish issuers or their parent companies to provide information to the Spanish tax authorities concerning holders of securities who are not Spanish Residents and who do not act through a permanent establishment in Spain in respect of the Notes. However, the implementation of the changes contemplated by Law 4/2008 was subject to the adoption of relevant secondary implementing legislation. Such secondary legislation was approved by Royal Decree 1145/2011, of July 29 (“**RD 1145/2011**”), and came into force on 1st August, 2011.

RD 1145/2011 modified, among other provisions, article 44 of Royal Decree 1065/2007, of July 27 (“**RD 1065/2007**”) which sets out the reporting obligations applicable to preference shares and debt instruments issued under additional provision two of Law 13/1985, of May 25 (“**Law 13/1985**”). The new procedures apply to interest deriving from preference shares and debt instruments to which Law 13/1985 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

Notes originally registered with the entities that manage clearing systems located in Spain

According to the wording of article 44.4 of RD 1065/2007, income derived from securities originally registered with a clearing system located in Spain, will be paid free of Spanish withholding tax in respect to non-Spanish-resident holders (acting or not through a permanent establishment in the Kingdom of Spain) or to legal entities that are resident in the Kingdom of Spain for tax purposes and are subject to Corporate Income Tax, provided that the entities which hold values registered on its third parties accounts or, if applicable, the entities that manage clearing systems located outside Spain which have entered into an agreement with such clearing system located in Spain, submit a statement to the Issuer in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” under “Taxation” section of this Base Prospectus) with the following information:

- (i) identification of the securities;
- (ii) total amount of income;
- (iii) amount of income received by individual with tax residency in Spain which are subject to Personal Income Tax; and
- (iv) amount of income received that will be paid free of Spanish withholding tax.

Notes originally registered with the entities that manage clearing systems located outside Spain

Article 44 of RD 1065/2007 sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 13/1985. The procedures apply to interest deriving from preference shares and debt instruments to which Law 13/1985 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

According to the literal wording of article 44.5 of RD 1065/2007, income derived from securities originally registered with the entities that manage clearing systems located outside Spain, and are recognised by Spanish law or by the law of another OECD country (such as Euroclear or Clearstream), will be paid free of Spanish withholding tax provided that the Paying Agent appointed by the relevant Issuer submits a statement to the issuer, in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” under “Taxation” section of this Base Prospectus)

relevant Issuer, the form of which is included in the Agency Agreement, with the following information:

- (i) identification of the securities; and
- (ii) total amount of the income corresponding to each clearing system located outside Spain.

These obligations refer to the total amount paid to investors through each foreign clearing house. For these purposes, “income means interest and the difference, if any, between the aggregate amount payable on the redemption of the Notes and the issue price of the Notes.

In accordance with Article 44 of RD 1065/2007 as amended by RD 1145/2011, the relevant Paying Agent should provide the relevant Issuer with the statement on the business day immediately prior to each interest payment date. The statement must reflect the situation at the close of business of that same day. In the event that on such date, the entity(ies) obliged to provide the declaration fail to do so, the relevant Issuer or the Paying Agent on its behalf will make a withholding at the general rate (currently 21 per cent.) on the total amount of the return on the relevant Notes otherwise payable to such entity.

The Issuer and the Guarantor consider that, according to Article 44.5 of RD 1065/2007, they are not obliged to withhold any taxes provided that the simplified information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent. However, the interpretation of RD 1145/2011, and in particular the absence of a withholding tax obligation for the Issuer in respect of Spanish resident individuals is currently subject to debate. The Spanish Tax Authorities may eventually issue a tax ruling to clarify the interpretation of the currently applicable procedures and it cannot be completely discarded that such ruling determines that the Issuer, or, as the case may be, the Guarantor, that is tax resident in Spain, should apply a withholding on payments made to individuals with tax residence in Spain. If this is the case, identification of Noteholders may be required and the procedures, if any, for the collection of relevant information will be applied by the Issuer or the Guarantor (to the extent required) so that it can comply with its obligations under the applicable legislation as clarified by the Spanish Tax Authorities.

As at the date of this Offering Circular, the Guarantor is in discussions with a Tax Certification Agent in order to establish a procedure for the disclosure of information regarding Noteholders who are resident in Spain for tax purposes. Such information will be provided, if necessary, to the Spanish Tax Authorities by the Guarantor. If, following clarification by the Spanish Tax Authorities, procedures for the collection of the *Noteholders* information are to apply, the Noteholders will be informed of such new procedures and their implications.

General

The procedure described in this Offering Circular for the provision of information required by Spanish laws and regulations is a summary only and is subject to further clarification from the Spanish tax authorities regarding such laws and regulations. None of the Issuers, the Guarantor or the Dealers, assumes any responsibility therefore.

U.S. Foreign Account Tax Compliance Withholding

The Issuer, the Guarantor and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after 31st December, 2016 in respect of (i) any Notes treated as debt for U.S. federal tax purposes that are issued after 31 December 2012 or are materially modified from that date and (ii) any Notes treated as equity for U.S. federal tax purposes, whenever issued, pursuant to Sections 1471

through 1474 of the U.S. Internal Revenue Code (**FATCA**) or similar law implementing an intergovernmental approach to FATCA. This withholding tax may be triggered if (i) the relevant Issuer is a foreign financial institution (**FFI**) (as defined in FATCA) that enters into and complies with an agreement with the U.S. Internal Revenue Service (**IRS**) to provide certain information on its account holders (making the Issuer a **Participating FFI**), (ii) the relevant Issuer has a positive "passthru payment percentage" (as determined under FATCA), and (iii)(a) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of such Participating FFI, or (b) any FFI that is an investor, or through which payment on such Notes is made, is not a Participating FFI.

The application of FATCA to interest, principal or other amounts paid with respect to the Notes is not clear. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Notes, neither the relevant Issuer nor any paying agent nor any other person would, pursuant to the Conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal than expected. Holders of Notes should consult their own tax advisers on how these rules may apply to payments they receive under the Notes.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on proposed regulations and official guidance that is subject to change. The application of FATCA to Notes issued after 31 December 2012 (or whenever issued, in the case of Notes treated as equity for U.S. federal tax purposes) may be addressed in the relevant Final Terms or a Supplement to the Offering Circular, as applicable.

Meetings of Noteholders, modification and waiver

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to

maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

Change of law

The Conditions (except for General Condition 3 and General Condition 14) of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Spanish and English law or administrative practice after the date of this Base Prospectus.

No claim against any Reference Item

A Note will not represent a claim against any Reference Item and, in the event of any loss, a Holder will not have recourse under a Note to any Reference Item.

Additional risk factors relating to the Notes generally

Investors may lose the original invested amount

Investors may lose up to the entire value of their investment in the Notes as a result of the occurrence of any one or more of the following events:

- (a) the Issuer and the Guarantor of the Notes are subject to insolvency proceedings or some other event impairing the ability of each to meet its obligations under the Notes;
- (b) the terms of the relevant Notes do not provide for full repayment of the initial purchase price upon final maturity and/or mandatory early redemption of such Notes and, in the case of Reference Item Linked Notes, the relevant Reference Item(s) perform in such a manner that the final redemption amount and/or mandatory early redemption amount is less than the initial purchase price;
- (c) the purchaser seeks to sell the relevant Notes prior to their scheduled maturity, and the sale price of the Notes in the secondary market is less than the purchaser's initial investment; and
- (d) the Notes are subject to certain adjustments in accordance with the terms and conditions of such Notes that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption being reduced to or being valued at an amount less than a purchaser's initial investment.

The Notes may be redeemed prior to their scheduled maturity.

In the event that the Issuer would be required to pay additional amounts in respect of any Notes due to any withholding, as provided in General Condition 6.2 of the Terms and Conditions of the Notes, the Issuer may redeem all of the Notes then outstanding in accordance with the Terms and Conditions of the Notes.

In the event that one or more Events of Default (as defined at General Condition 9) occur, the Notes may become immediately due and repayable at their Early Redemption Amount. Reference Item Linked Notes are subject to further provisions which may result in the early redemption of the Notes on the occurrence of certain specified circumstances or events. Such provisions will stipulate whether such early redemption is automatic or is at the option of the Issuer.

Events in which Notes will be automatically redeemed include, in the case of an Index Linked Note, Equity Linked Note, Commodity Linked Note, Fund Linked Note or a Custom Index Linked Note, if Automatic Early Redemption Event is specified as being applicable in the applicable Final Terms, the occurrence of an Automatic Early Redemption Event. In this case the Notes will be automatically redeemed at their Automatic Early Redemption Amount.

Other circumstances in which the Notes may be early redeemed include:

- in the case of an Index Linked Note, Equity Linked Note or Custom Index Linked Note, and where Delayed Redemption on the Occurrence of Additional Disruption Event is not specified in the applicable Final Terms, the occurrence of an Additional Disruption Event;
- in the case of a Fund Linked Note, unless otherwise specified in the Final Terms, the occurrence of an Extraordinary Fund Event in circumstances where (i) a Substitution Event has occurred and it is impossible or not reasonably practicable to effect a Substitution or (ii) a Termination Event has occurred. In such circumstances, subject as provided in Fund Linked Condition 7, the Calculation Agent will redeem the Notes by payment of the Termination Amount on the relevant Termination Date;
- in the case of an Inflation Linked Note or a Commodity Linked Note, the occurrence of an Additional Disruption Event in circumstances where the Issuer determines that an adjustment to the relevant terms of the Notes to account for such Additional Disruption Event would not be appropriate for any reason;
- in the case of a Credit Linked Note, if Merger Event is specified as being applicable in the applicable Final Terms, the occurrence of a Merger Event;
- in the case of Equity Linked Notes relating to a Basket of Shares, the occurrence of an Extraordinary Event, in which case the relevant Shares may be early redeemed in whole or in part;
- in the case of an Inflation Linked Note, (i) if the Calculation Agent determines that the relevant Index has been or will be rebased at any time, and the Calculation Agent determines that certain further conditions are not met and (ii) on the occurrence of an Index Cancellation;
- in the case of a Commodity Linked Note,
 - where Delayed Redemption on Occurrence of Market Disruption Event is not specified in the applicable Final Terms, if there is in existence either (i) a Disappearance of Commodity Reference Price, (ii) a Material Change in Formula, or (iii) a Material Change in Content; and
 - where the Calculation Agent determines in good faith that a Tax Disruption has occurred or exists in respect of a Pricing Date, that such Tax Disruption has a material effect on the Notes and that no adjustments can be made to the terms and conditions of the Notes in respect of such Tax Disruption; and
- in the case of a Custom Index Linked Note, in certain specified circumstances following the occurrence of a Custom Index Adjustment Event which is determined by the Calculation Agent to have a material effect on the Notes, and where Delayed Redemption on Occurrence of Custom Index Adjustment Event is not specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes early.

The Final Terms for a particular issue of Notes may provide for early redemption at the option of the Issuer. Such right of termination is often provided for notes in periods of high interest rates. If the market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of termination increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, the Noteholder may not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower, and possibly significantly lower, yield than the redeemed Notes. An optional redemption feature of Notes is also likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks which are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes and the Guarantor will make any payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest Rate Risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings is set out in this Base Prospectus and will be disclosed in the Final Terms.

Post-issuance Information

Applicable Final Terms may specify that the Issuer will not provide post-issuance information if not otherwise required by all applicable laws and regulations. In such an event, investors will not be entitled to obtain such information from the Issuer.

9. Risk Factors that are generic to Reference Item Linked Notes

An investment in Reference Item Linked Notes may entail significant risks not associated with investments in a conventional debt security.

Reference Item Linked Notes are securities which do not provide for predetermined redemption amounts and/or interest payments but amounts payable (whether in respect of principal and/or interest) or deliverable will be dependent upon the performance of the Reference Item(s) which themselves may contain substantial credit, interest rate, foreign exchange, correlation, time value, political and/or other risks.

An investment in Reference Item Linked Notes therefore entails significant risks that are not associated with similar investments in a conventional fixed rate or floating rate debt security. These risks include, among other things, the possibility that:

- the Reference Item(s) may be subject to significant changes, whether due to the composition of any such Reference Item(s) itself, or because of fluctuations in the value of the Reference Item;
- the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the Issuer at the same time, or they may receive no interest;
- the holder of a Reference Item Linked Note could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on such Note;

- any Note that is linked to more than one type of Reference Item or to a formula or formulae that encompass the risks associated with more than one type of Reference Item, may carry levels of risk that are greater than those for Notes that are linked to one type of Reference Item only;
- the timing of changes in the value or level of a Reference Item may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Reference Item, the greater the effect on yield;
- it may not be possible for investors to hedge their exposure to these various risks relating to Reference Item Linked Notes;
- the historical performance of a Reference Item should not be viewed as an indication of the future performance of such Reference Item during the term of any Reference Item Linked Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Reference Item Linked Notes and the suitability of such Notes in light of its particular circumstances, and
- a significant market disruption could mean that any Reference Item(s) cease to exist.

The risks reflect the nature of such a Note as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires or is redeemed. The risk of the loss of some or all of the purchase price of a Reference Item Linked Note upon redemption means that, in order to recover and realise a return upon his or her investment, a purchaser of such Note must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Item. Assuming all other factors are held constant, the lower the value of a Reference Item Linked Note and the shorter the remaining term of any such Note to redemption, the greater the risk that holders of such Notes will lose all or part of their investment.

PROSPECTIVE INVESTORS MUST REVIEW THE APPLICABLE FINAL TERMS TO ASCERTAIN WHAT THE RELEVANT REFERENCE ITEM(S) (IF ANY) ARE AND TO SEE HOW THE FINAL REDEMPTION AMOUNT OR THE ENTITLEMENT, AS THE CASE MAY BE, AND ANY PERIODIC INTEREST PAYMENTS ARE DETERMINED AND WHEN SUCH AMOUNTS ARE PAYABLE AND/OR DELIVERABLE, AS THE CASE MAY BE, BEFORE MAKING ANY DECISION TO PURCHASE ANY NOTES.

It may not be possible to use the Notes as a perfect hedge against the market risk associated with investing in a Reference Item

Potential purchasers intending to purchase Notes to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly match the value of the Reference Item. Due to fluctuating supply and demand for the Notes, there is no assurance that their value will match movements in the value of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate Notes in a portfolio at the prices used to calculate the value of any Reference Item.

Risks to market price of Reference Item Linked Notes

In addition, the value of Reference Item Linked Notes on the secondary market is subject to greater levels of risk than is the value of other Notes and the market price of such Notes may be very volatile or there may even be no (or very limited) secondary market at all. The secondary market, if any, for Reference Item Linked Notes will be affected by a number of factors, independent of the

creditworthiness of the Issuer, the creditworthiness of any reference entity, the value of the applicable Reference Item (including the volatility of the Reference Item), the time remaining to the maturity of such Notes, the amount outstanding of such Notes and market interest rates. The value of the applicable Reference Item depends on a number of interrelated factors, including economic, financial and political events, over which the Issuer has no control.

Additionally, if the formula used to determine the amount of principal, premium and/or interest payable with respect to Reference Item Linked Notes contains a Weight or leverage factor, the effect of any change in the Reference Item(s) will be increased.

Regulatory risk for Reference Item Linked Notes

There may be regulatory and other ramifications associated with the ownership by certain investors of certain Reference Item Linked Notes.

The Bank and its affiliates do not provide any advice with respect to any Reference Item(s) nor make any representation as to its quality, credit or otherwise, and investors in the Notes must rely on their own sources of analysis or credit analysis with respect to any Reference Item.

Market Disruption Events or Failure to Open of an Exchange

If an issue of Reference Item Linked Notes includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on a Valuation Date and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such date, any consequential postponement of the Valuation Date or any alternative provisions for valuation provided in any such Notes may have an adverse effect on the value and liquidity of such Notes. The timing of such dates (as scheduled or as so postponed or adjusted) may affect the value of the relevant Notes such that the Noteholder may receive a lower cash redemption amount and/or interest amount or other payment under the relevant Notes than otherwise would have been the case. The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Reference Item(s) comprising a basket may also have such an adverse effect on Notes related to such basket. In addition, any such consequential postponement may result in the postponement of the date of redemption of the Notes.

Potential Conflicts of Interest

BBVA and its affiliates may engage in trading activities (including hedging activities) related to any Reference Item(s) and other instruments or derivative products based on or related to the Reference Item(s) of any such Notes for their proprietary accounts or for other accounts under their management and may pursue actions thereto without regard to the consequences for Noteholders. BBVA and its affiliates may also issue other derivative instruments in respect of the Reference Item(s) of such Notes. BBVA and its affiliates may also act as an underwriter in connection with future offerings of a Reference Item(s) or may act as financial adviser to the issuer, sponsor, manager or other connected person in respect of a Reference Item(s) or a constituent of a Reference Item(s) or in a commercial banking capacity for such entity. BBVA or its affiliates may acquire non-public information in respect of a Reference Item(s) which will not be provided to Noteholders. Such activities could present certain conflicts of interest or, could influence the prices of such Reference Item(s) and could adversely affect the value of such Notes.

Because the Calculation Agent may be an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make, including whether a Market Disruption Event,

or a Settlement Disruption Event has occurred. The Calculation Agent is obliged to carry out its duties and functions as Calculation Agent in good faith and using its reasonable judgment.

Conducting Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of Notes to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the relevant Notes. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of Notes might in particular be affected by the liquidation of all or a portion of the relevant hedging positions (a) at or about the time of the maturity or expiration of such Notes or (b), if such Notes provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the relevant Reference Item approaches the relevant price or level for the knock-out, knock-in or other feature. See further *Knock-in and Knock-out provisions* below.

Risk of Leveraged Exposure

Leverage involves the use of a number of financial techniques to increase the exposure to a Reference Item, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Reference Item moves in the anticipated direction, it will conversely magnify losses when the Reference Item moves against expectations. If the relevant Notes include leverage, potential holders of such Notes should note that these Notes will involve a higher level of risk, and that whenever there are losses such losses will be higher (other things being equal) than those of a similar Note which is not leveraged. Investors should therefore only invest in leveraged Notes if they fully understand the effect of leverage.

Limited Exposure to Reference Items(s)

If the applicable Final Terms provide that the exposure of any Reference Item Linked Notes to one or more Reference Items is limited or capped to a certain level or amount, such Notes will not benefit from any upside in the value of any such Reference Item(s) beyond such limit or cap.

The amount payable on redemption may be significantly less than the value of an investment in the Notes

The amount payable on redemption may be significantly less than the value of the Noteholder's investment in such Notes. In particular, in the case of any such Notes exposed to the performance of a basket of Reference Items, the amount payable on redemption may be calculated by reference to, the worst performing Reference Items or any other formula specified in the applicable Final Terms.

Claims against Reference Item(s)

Reference Item Linked Notes do not represent a claim against or an investment in any Reference Item(s) (or any issuer, sponsor, manager or other connected person in respect of a Reference Item) and Noteholders will not have any right of recourse under the Notes to any such Reference Item(s) (or any issuer, sponsor, manager or other connected person in respect of a Reference Item). For the avoidance of doubt, the relevant Reference Item(s) will not be held by the Issuer for the benefit of the purchasers of such Notes, and as such, purchasers will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Notes. No BBVA affiliate is under any obligation whatsoever to acquire and hold any Reference Item. The Notes are not in any way sponsored, endorsed or promoted by any Reference Item(s) (or any issuer, sponsor, manager or other

connected person in respect of a Reference Item) and such entities have no obligation to take into account the consequences of their actions for any Noteholders.

Knock-in and Knock-out provisions

Notes may include one or more of the following features:

- **Knock-in**

A knock-in event occurs when the price or level of the Reference Item(s) reaches or breaches a pre-defined barrier on the relevant observation date(s) or during the relevant observation period(s), which may trigger a certain payout on maturity and/or interim payment(s).

- **Knock-out**

A knock-out event occurs when the price or level of the Reference Item (s) reaches or breaches a pre-defined barrier, which may mean certain payouts on maturity and/or interim payment(s) are not made.

Prospective investors should note that the attainment of the applicable barriers triggering Knock-in and/or Knock-out provisions cannot be predicted or guaranteed.

Observation Risk

Where the applicable Final Terms contain Observation provisions relating to Knock-in and/or Knock-out provisions there may be continuous observation of one or more underlying prices. Therefore price movements at any time in the relevant period may trigger adverse consequences under the notes.

Risks relating to Automatic Early Redemption provisions

Certain Notes contain Automatic Early Redemption provisions. These provisions require that Notes are automatically early redeemed when particular conditions are fulfilled. Investors should note that the fulfilment of these conditions (and consequently payments or deliveries under the Notes) cannot be predicted or guaranteed.

Substitution Risk

Investors should be aware of the risks attached to the Substitution provisions contained in certain Notes. Such provisions may permit the Calculation Agent to substitute an affected Reference Item in the case of disruption. This allows the Calculation Agent a wide discretion. This wide discretion carries the risk of uncertainty. In particular, investors should note that there is no guarantee that the substituted Reference Item will perform more favourably for investors than the original underlying. Likewise, Investors cannot predict which Reference Item(s) will be substituted.

10. Risk Factors associated with Notes that are linked to one or more specific categories of Reference Items

There are certain factors which are material for the purpose of assessing the risks associated with an investment in Notes issued under the Programme. Such factors will vary depending on the type of Notes issued, in particular in relation to Notes in respect of which the interest and/or redemption amount is linked to the value of one or more index, share, inflation index, commodity, unit, interest or share in a fund, the credit of one or more reference entity, custom index, foreign exchange rate or the combination of any of the foregoing or such other underlying or basis of reference.

Risks relating to Index Linked Notes

The Issuer may issue Notes where the Final Redemption Amount or the amount of principal and/or interest payable is dependent upon the level of an index or indices (**Index Linked Notes**).

Potential investors in any such Notes should be aware that depending on the terms of the Index Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the index/indices does not move in the anticipated direction. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index or result of a formula, the greater the effect on yield.

If the Final Redemption Amount or the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, bonds or other securities, or it may be a property index referencing certain property price data which will be subject to market price fluctuations. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Notes.

Adjustment to indices for Index Linked Notes

If an index adjustment event (as described in the Terms and Conditions of the Notes) occurs the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Notes or redeem the Notes. Such action may have an adverse effect on the value and liquidity of the affected Reference Item Linked Notes. Prospective purchasers should review the relevant terms and conditions of the Notes and the applicable Final Terms to ascertain whether and how such provisions apply to the Notes.

Returns on the Notes do not reflect direct investment in underlying shares or other assets comprising the index

The return payable on Notes that reference indices may not reflect the return a purchaser would realise if the Noteholder actually owned the relevant assets comprising the components of the index. For example, if the components of the indices are shares, Noteholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant index takes such dividends into account for purposes of calculating the relevant level. Similarly, Noteholders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant index. Accordingly, purchasers in Notes that reference indices as Reference Items may receive a lower payment upon redemption of such Notes than such purchaser would have received if the Noteholder had invested in the components of the index directly.

A change in the composition or discontinuance of an index could adversely affect the market value of the Notes

The sponsor of any index can add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the company it replaces, which in turn may affect the payments made by the issuer to the purchasers of the Notes. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. The sponsor of an index may take any actions in respect of such index without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the market value of the Notes.

The Guarantor or an affiliate of the Guarantor may be the sponsor of an Index which is referenced by an Index Linked Note

The Guarantor proprietary index will generally be developed, owned, calculated and maintained by the Guarantor or an affiliate of the Guarantor, which would be responsible for the composition, calculation and maintenance of such index. In such circumstances, the index sponsor would be under no obligation to take into account the interests of the Noteholders of any Notes referenced by such index. In such capacity as index sponsor, the Guarantor will have the authority to make determinations that could materially and adversely affect the value of the Note.

Risks relating to Equity Linked Notes

The Issuer may issue Equity Linked Notes where the Final Redemption Amount or the amount of interest payable are dependent upon the price of or changes in the price of shares or a basket of shares or, depending on the price of or change in the price of shares or the basket of shares, where the Issuer's obligation on redemption is to deliver a specified number of shares (**Equity Linked Notes**). Accordingly an investment in Equity Linked Notes may bear similar market risks to a direct equity investment and potential investors should take advice accordingly. An investment in Equity Linked Notes will entail significant risks not associated with a conventional debt security.

Potential investors in any such Notes should be aware that depending on the terms of the Equity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified shares may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the share(s) does not move in the anticipated direction. In addition, the movements in the price of the share or basket of shares may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share or shares may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the share or shares, the greater the effect on yield.

If the Final Redemption Amount or the amount of interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share or shares, the dividend rate (if any) and the financial results and prospects of the issuer of the relevant share or shares as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such shares may be traded.

A holder of the Equity Linked Notes will not be a beneficial owner of the underlying equity securities and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying equity securities, nor will a Noteholder be entitled to purchase the underlying equity securities by virtue of their ownership of the Notes. Moreover, holders of the Notes will not be entitled to any voting rights or other control rights that holders of the underlying equity securities may have with respect to the issuer of such underlying equity securities. Unless otherwise specified in the applicable Final Terms, the Interest Amount and/or Final Redemption Amount will not reflect the payment of any dividends on the underlying equity securities. Accordingly, the return on the Notes will not reflect the return an investor would realise if it actually owned the underlying equity securities and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final Redemption Amount will not be the same yield as would be produced if the underlying equity securities were purchased directly and held for a similar period.

Determinations made by the Calculation Agent in respect of Potential Adjustment Events, Extraordinary Events and Additional Disruption Events may have an adverse effect on the value of the Notes

Upon determining that a Potential Adjustment Event, Extraordinary Event or Additional Disruption Event has occurred in relation to an underlying share or the issuer of such underlying share, the Calculation Agent has broad discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Notes (including to substitute the affected Share) and/or (ii) (in the case of an Extraordinary Event or an Additional Disruption Event) cause early redemption of the Notes or cancel the Notes, linkage to the relevant equity(ies), any of which determinations may have an adverse effect on the value of the Notes.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the shares, (b) an extraordinary dividend, (c) a call of the shares that are not fully paid, (d) a repurchase by the issuer, or an affiliate thereof, of the shares, (e) a separation of rights from the shares or (f) any event having a dilutive or concentrative effect on the value of the shares. Extraordinary Events include (a) a delisting of the shares on an exchange, (b) an insolvency (where all the shares of the issuer of the underlying shares are transferred to a trustee, liquidator or similar official or may not be legally transferred) or bankruptcy of the issuer of the shares, (c) a merger event entailing the consolidation of the shares with those of another entity, (d) a nationalisation of the issuer of the shares or transfer of the shares to a governmental entity, or (e) a tender offer or takeover offer that results in transfer of the shares to another entity. Additional Disruption Events include (a) a change in applicable law since the Issue Date that makes it illegal to hold, acquire or dispose of the shares or more expensive for the Issuer to hedge its obligations under the relevant Notes or (b) if specified to be applicable in the relevant Final Terms, (i) an insolvency filing by or on behalf of the issuer of the underlying shares or (ii) Hedging Disruption.

Holders may receive physical delivery of Shares in lieu of payment of cash amounts

Where the Notes include the right of the Issuer, subject to the fulfilment of a particular condition, to redeem the Notes at their maturity by delivering Shares to the purchaser of such Notes, the purchasers will receive such Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such Shares and the risks associated with such Shares. The purchaser should not assume that the Noteholder will be able to sell such Shares for a specific price after the redemption of the Notes, and in particular not for the purchase price of the Notes. Under certain circumstances the Shares may only have a very low value or may, in fact, be worthless, in which case Investors may lose the original invested amount above. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Shares.

Risks relating to Inflation Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon the level of an inflation index or indices (**Inflation Linked Notes**).

Potential investors in any such Notes should be aware that depending on the terms of the Inflation Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an inflation index or result of a formula, the greater the effect on yield.

In certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may redeem the Notes. Such action may have an effect on the value of the Notes.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the inflation index or indices. The level of the inflation index or indices may be affected by the economic, financial and political events in one or more jurisdictions or regions.

Risks Relating to Commodity Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon the price of or changes in the price of commodities and/or commodity indices or a basket of commodities and/or commodity indices (**Commodity Linked Notes**). Accordingly an investment in Commodity Linked Notes may bear similar market risks to a direct commodity investment and potential investors should take advice accordingly. An investment in Commodity Linked Notes will entail significant risks not associated with a conventional debt security.

Commodity Linked Redemption Notes may be redeemable by the Issuer by payment of the par value amount and/or by the physical delivery of a specified amount of one or more commodities and/or by payment of an amount determined by reference to the value of one or more commodities and/or

commodity indices. Interest payable on Commodity Linked Interest Notes may be calculated by reference to the value of one or more commodities and/or commodity indices.

Potential investors in any such Notes should be aware that depending on the terms of the Commodity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the price of the commodity and/or commodity index or basket of commodities and/or commodity indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of a commodity and/or commodity index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the commodity or commodity index, the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of a commodity and/or commodity index on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date and the volatility of the price of the commodity and/or commodity index. The price of commodities or level of a commodity index may be affected by economic, financial and political events in one or more jurisdictions or regions, including factors affecting the exchange(s) or quotation system(s) on which the relevant commodities or components of the commodity indices may be traded.

Commodity Linked Notes may be subject to certain disruption provisions or extraordinary event provisions. Relevant events may relate to market disruptions, or other extraordinary events in relation to the relevant commodity or commodities. If the Calculation Agent determines that any such event has occurred this may delay valuations under and/or settlements in respect of the Notes and consequently adversely affect the value of the Notes. In addition certain extraordinary or disruption events may lead to early redemption of the Notes. Prospective investors should review the Commodity Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Note.

Adjustment to indices for Commodity Linked Notes

If an Index Adjustment Event (as described in Annex 4, Additional Terms and Conditions for Commodity Linked Notes) occurs the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Notes or redeem the Notes. Such action may have an adverse effect on the value and liquidity of the affected Reference Item Linked Notes.

Risks relating to Fund Linked Notes

The Issuer may issue Notes where the Final Redemption Amount or the amount of principal and/or interest payable are dependent upon the price or changes in the price of units, shares or interests in a fund or funds (including exchange traded fund(s)) or where, depending on the price or changes in the price of units, shares or interests in such fund or funds, on redemption the Issuer's obligation is to deliver a specified amount of Fund Shares (**Fund Linked Notes**). Accordingly, an investment in Fund Linked Notes may bear similar market risks to a direct fund investment and potential investors should take advice accordingly. An investment in Fund Linked Notes will entail significant risks not associated with a conventional debt security.

Prospective investors in any such Notes should be aware that depending on the terms of the Fund Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified Fund Shares may occur at a different time than expected and (iii)

they may lose all or a substantial portion of their investment if the value of the fund share(s) or unit(s) does not move in the anticipated direction. In addition, the movements in the price of units, shares or interests in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units, shares or interests in the fund or funds, the greater the effect on yield. Prospective investors should also be aware that in the event of the occurrence of one or more Extraordinary Fund Events the Issuer may take the action specified in the applicable Final Terms which may include adjusting or redeeming the Notes or substituting the affected share, unit or interest in the relevant fund.

In the event that redemption proceeds in respect of the underlying Fund Shares are not received by the hedge provider on or prior to the scheduled redemption date or termination date, such date may be postponed for a period of up to two calendar years (or such other period as may be specified in the applicable Final Terms) and no additional amount shall be payable as a result of such delay.

If the Final Redemption Amount or the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date or settlement date (as applicable) and the volatility of the price of unit(s), fund shares or interests in the fund or funds. The price of units, fund shares or interests in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units, shares or interests in the fund or funds may be traded.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant fund before purchasing any Notes. None of the Issuer, any Affiliate of the Issuer or the Calculation Agent make any representation as to the creditworthiness of or advisability of an investment in relation to any relevant fund or any such fund's administrative, custodian, investment manager or adviser.

Where the Issuer issues Fund Linked Notes linked to one or more funds, including hedge funds, the relevant Notes reflect the performance of such fund(s).

Funds may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

For all the above reasons, investing directly or indirectly in funds is generally considered to be risky. If the underlying fund does not perform sufficiently well, the value of the Notes will fall, and may in certain circumstances be zero.

Further risks associated with Funds in General

The risks below are common to all kinds of funds and are not specific to the underlying Fund. These risks include:

- (a) the risk that the share price of one or more of the assets in the underlying Fund's portfolio will fall, or will fail to rise. Many factors can adversely affect an asset's performance, including both general financial market conditions and factors related to a specific asset or asset class;
- (b) general macro-economic or asset class specific factors, including interest rates, rates of inflation, financial instability, lack of timely or reliable financial information or unfavourable political or legal developments;
- (c) asset allocation policies of the Fund Manager;
- (d) credit quality and the risk of default of one of the hedge funds or of assets generally held in the underlying Fund;
- (e) the risk that the underlying Fund's investment objectives and/or investment restrictions as set out in its constitutive documents are materially changed, or not complied with, or that the method of calculating the Net Asset Value is materially changed;
- (f) the risk that the underlying Fund is liquidated, dissolved or otherwise ceases to exist or it or its Fund Manager is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law; or
- (g) the risk that the underlying Fund is subject to a fraudulent event.

Further risks associated with Fund Managers in General

The price of unit(s) as fund share(s) may be affected by the performance of the fund service providers, and in particular the fund manager.

Prospective investors in the Notes should be aware that the Fund Manager will manage the underlying Fund in accordance with the investment objectives of, and guidelines applicable to, the underlying Fund. Furthermore, the arrangements between the Fund Manager and the underlying Fund have, in most cases, not been negotiated at arm's length and it is unlikely that the Fund Manager will be replaced or that additional fund managers will be retained.

Neither the Issuer nor any of its affiliates have the ability to control or predict the actions of the Fund Manager. The Fund Manager is not involved in the offer of the Notes in any way and has no obligation to consider the interests of the Noteholders in taking any corporate actions that might affect the value of the Notes.

The Issuer has no role in the underlying Fund. The Fund Manager is responsible for making strategic, investment and other trading decisions with respect to the management of the underlying Fund, consistent with its investment objectives and/or investment restrictions as set out in its constitutive documents. The manner in which an underlying Fund is managed and the timing of such decisions will have a significant impact on the performance of the underlying Fund. Hence, the price which is used to calculate the performance of the underlying Fund is also subject to these risks.

Risks relating to Credit Linked Notes

General risks relating to Credit Linked Notes

The Issuer may issue Credit Linked Notes where the amount payable is dependent upon whether certain events (**Credit Events**) have occurred in respect of one or more Reference Entity/Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption the Issuer's obligation is to deliver certain specified assets.

Prospective investors in any such Credit Linked Notes should be aware that depending on the terms of the Credit Linked Notes (i) they may receive no or a limited amount of interest (or other periodic payments), (ii) payments may occur at a different time than expected and (iii) except in the case of Notes which are principally protected at maturity, they may lose all or a substantial portion of their investment.

The market price of Credit Linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date or settlement date, as applicable, prevailing credit spreads and the creditworthiness of the relevant Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions. In the event of early redemption of Credit Linked Notes following the occurrence of a Credit Event, the Credit Linked Notes will either (i) cease to bear interest from the Interest Payment Date immediately preceding the Credit Event Determination Date if "Accrual of Interest upon Credit Event" is specified as Not Applicable in the applicable Final Terms, or (ii) cease to bear interest from the Credit Event Determination Date if "Accrual of Interest upon Credit Event" is specified as being Applicable in the applicable Final Terms.

Where the Credit Linked Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the Issuer and/or any Affiliate and/or agent has not received under the terms of any transaction and/or trading position entered into by the Issuer and/or such Affiliate and/or agent to hedge the Issuer's obligations in respect of the Credit Linked Notes. Any such determination may delay settlement in respect of the Credit Linked Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Credit Linked Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Credit Linked Notes and as a result, the amount payable on redemption. Prospective investors should review the General Conditions, Credit Linked Conditions and the applicable Final Terms to ascertain whether and how such provisions should apply to the Credit Linked Notes.

The Issuer, the Guarantor, the Dealer(s) or any of their respective affiliates may have acquired, or during the term of the Notes may acquire, non-public information with respect to the Reference Entity/Entities that they may not disclose. Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Credit Linked Notes in the knowledge that non-public information which the Issuer, the Guarantor, the Dealer(s) or any of their respective affiliates may have will not be disclosed to investors. None of the Issuer, the Guarantor, the Dealer(s) or any of their respective affiliates is under any obligation (i) to review on the Noteholders' behalf, the business, financial conditions, prospects, creditworthiness, status or affairs of the Reference Entity/Entities or conduct any investigation or due diligence into the Reference Entity/Entities or (ii) other than as may be required by applicable rules and regulations relating to the Notes, to make

available (a) any information relating to the Notes or (b) any non-public information they may possess in respect of the Reference Entity/Entities.

Certain Credit Linked Notes may be highly leveraged instruments, including without limitation (i) Credit Linked Notes linked to a notional amount of Reference Entities or Reference Obligations exceeding the Calculation Amount or Issue Price of the Credit Linked Notes, as applicable, or (ii) Credit Linked Notes linked to the first-to-default reference entity within a reference portfolio (or similar arrangements over a reference portfolio). The use of leverage is a speculative investment technique designed to enhance returns. However, such technique will also magnify the adverse impacts of a Credit Event.

In the case of Physical Delivery, where the Reference Obligation is a loan, in order for the Delivery of the loan (or an interest in the loan) to be effected, the Reference Obligation must be capable of being transferred to the Noteholder in accordance with its terms and the Noteholders must have the capacity to hold such loan (or loan interest).

In the event that the Calculation Agent is unable to identify a Substitute Reference Obligation prior to the Extension Date, and if so specified in the applicable Final Terms:

- (i) the Issuer shall have the right on or after the Extension Date to redeem the Credit Linked Notes, as applicable, at their fair market value by notice to the Noteholders of the relevant Notes; or
- (ii) the obligations of the Issuer under the Notes shall cease as of the end of the day on the Extension Date.

The Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

2003 ISDA Credit Derivatives Definitions

While there are many similarities between the terms used in this Base Prospectus (in particular, in the Additional Terms and Conditions for Credit Linked Notes) and the terms used in the 2003 ISDA Credit Derivative Definitions, as supplemented from time to time (the **Credit Derivatives Definitions**), there are a number of substantial differences. In particular, the Issuer and the Guarantor have determined the certain provisions of the Credit Derivatives Definitions, which are intended for use by market participants in "over the counter" transactions, require amendment when incorporated in the terms of an offering of securities such as the Credit Linked Notes. Therefore, a prospective investor should understand that the complete terms and conditions of the Credit Linked Notes are as set out in this Base Prospectus and the applicable Final Terms and that the Credit Derivative Definitions are not incorporated by reference herein. Consequently, investing in Credit Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published and supplemented the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives, including Credit Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution of

the market, the Credit Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Notes.

There can be no assurances that changes to the terms applicable to credit derivatives generally will be predicable or favourable to the Issuer, the Guarantor or the Noteholders. Future amendment or supplements to the terms applicable to credit derivatives generally will only apply to Credit Linked Notes that have already been issued if the Issuer and the Noteholders agree to amend such Credit Linked Notes to incorporate such amendments or supplements and other conditions to amending the Credit Linked Notes have been met.

Amendment of Credit Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Additional Terms and Conditions for Credit Linked Notes to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions.

Cheapest to deliver

Following a Credit Event Determination Date, subject to Auction Settlement procedures, if applicable, the Issuer is entitled to select an Obligation for delivery (or, if Cash Settlement applies, for valuation) which has the lowest value in the market at the relevant time, provided such obligation satisfies certain specifications and limits for qualification as a Deliverable Obligation or Obligation (as the case may be).

Increase of risk due to the replacement of a Reference Entity or succession

Reference Entities may be replaced due to events beyond the control of the Issuer, such as the merger of a corporate entity with another entity, in which case the Reference Entity may be replaced by its successor. Each such replacement may result in an increase in the risks involved for the Noteholders.

Concentration risks in case of Credit Linked Notes referring to a portfolio of Reference Entities

The probability of the occurrence of Credit Events with respect to the Reference Entities in a portfolio may depend on the degree of diversification among the Reference Entities. The composition of the portfolio of Reference Entities may change after the Issue Date. Such change may result in an increase of concentration among the Reference Entities and therefore also in an increase in the risks associated with such concentration.

Amendment of Credit Linked Conditions in accordance with the terms of the Notes

In addition to any amendments the Calculation Agent may make from time to time to the provisions of the Additional Terms and Conditions for Credit Linked Notes in accordance with market convention (described above), the Additional Terms and Conditions for Credit Linked Notes themselves contain certain provisions which permit the Calculation Agent in certain circumstances to make certain adjustments to such Additional Terms and Conditions for Credit Linked Notes. Such adjustments may affect both payments made to Noteholders under the Credit Linked Notes and the timing of any such payments.

Risks relating to Auction Settlement of Credit Linked Notes

Auction Settlement

Where an Auction Final Price Determination Date occurs, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation. The Issuer, the Guarantor and the Noteholders may have little or no influence in the outcome of any such auction.

Auction Final Price and the Issuer's and/or the Guarantor's ability to influence the Auction Final Price

If the Credit Linked Notes are redeemed following the occurrence of a Credit Event, the amount payable in respect of the Notes may be determined by reference to the Auction Final Price determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms. There is a possibility that the Issuer, the Guarantor or the Calculation Agent (or one of their affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), the Issuer, the Guarantor or the Calculation Agent (or any Affiliate of any of them) shall be under no obligation to consider the interests of any Noteholder.

Role of the Credit Derivatives Determinations Committee

Credit Derivative Determinations Committees were established pursuant to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on 12 March 2009) to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. In respect of a Credit Event relating to a Credit Linked Note, prospective purchasers should note that the Credit Derivatives Determinations Committee has the power to make binding decisions on critical issues such as whether a Credit Event has occurred, which obligations are to be valued and whether an auction should take place in accordance with and as more fully described in the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof. Consequently, payments on the Credit Linked Notes and the timing of any such payments may be affected by any such relevant decisions if Auction Settlement is specified as the applicable Settlement Method for a series of Notes in the relevant Final Terms.

Credit Event and Succession Event Backstop Dates

In respect of a Credit Event relating to a series of Credit Linked Notes, a Credit Event may not be triggered unless a request is submitted to ISDA for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event constitutes a Credit Event within 60 calendar days of the occurrence of such potential Credit Event unless a Credit Event Determination Date has already occurred with respect to such event. For Succession Events the look-back period is 90 calendar days and functions similarly. These provisions mean that there is a time limit on the ability to act on a

Credit Event or Succession Event and that it is possible that the Credit Linked Notes could be affected by a Credit Event or Succession Event that took place prior to the Trade Date.

Settlement Suspension, Adjustments and Interest Provisions

If, following the determination of a Credit Event Determination Date in accordance with subparagraph (a) of the definition of Credit Event Determination Date but prior to the Credit Settlement Date or, to the extent applicable, a Valuation Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to determine the occurrence of a Credit Event have been satisfied, the Calculation Agent may at its option determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Credit Event Redemption Date, Valuation Date, Physical Settlement Period, and any other Credit Linked Condition as determined by the Calculation Agent shall toll and be suspended and remain suspended (such period of suspension, a **Suspension Period**) until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has resolved (a) that a Credit Event has or has not occurred or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has made such resolution, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to these Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (ii) determine the effective date of such adjustment(s) or determination(s).

In the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated in accordance with General Condition 4 provided that:

- (i) if a Suspension Period falls in any one or more Interest Period(s), then no interest shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (ii) if an Interest Payment Date falls in a Suspension Period, such Interest Payment Date will be deferred until after the end of the Suspension Period.

Risks relating to Custom Index Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon the level of a custom index or custom indices (Custom Index Linked Notes). In addition to risks set out under "Risks Relating to Index Linked Notes" above, certain additional risks, including those below apply to Custom Index Linked Notes.

An investment in Custom Index Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Custom Index Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the underlying custom index/custom indices. Such custom index may be an index established and calculated by the Issuer, the Guarantor or its affiliates or another entity which may not be widely published or available. The custom index may reference, inter alia, equities, bonds or other securities, commodities or it may be a property index referencing certain property price data which will be subject to market price fluctuations, or may reference a number of different assets or indices. Custom Index Linked Notes pay interest (if any) calculated by reference to the value of the underlying custom index/custom indices.

Custom Index Linked Notes are linked to a proprietary index which may be sponsored and/or calculated by BBVA or one of its affiliates. Pursuant to the operational rules of the Custom Index, the Custom Index is scheduled to be calculated on each weekday. In the event that one of the levels of a component included in the Custom Index is not available for any reason on any weekday, then the Calculation Agent of the Custom Index may, but is not obliged to, calculate the level of the Custom Index on that day by taking a value for the affected index component from the first preceding day on which a level for such affected index component was available.

For the avoidance of doubt, the Issuer and/or its affiliates may not be able to trade on and hedge its obligations in respect of the Custom Index under the Notes notwithstanding the calculation of the level of the Custom Index. In the event that any Settlement Price Date or Averaging Date is a Disrupted Day for the Custom Index, such Settlement Price Date or Averaging Date shall be the first succeeding day on which the Issuer or relevant affiliate is able to trade on and hedge its obligations in respect of the Custom Index, subject to a specified maximum days of disruption, as more fully set out in the Terms and Conditions of the Notes.

Risks relating to Foreign Exchange (FX) Rate Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated (Foreign Exchange (FX) Rate Notes). Accordingly an investment in Foreign Exchange (FX) Rate Notes may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Foreign Exchange (FX) Rate Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

The foreign exchange rate(s) to which the Notes are linked will affect the nature and value of the investment return on the Notes. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

In the event that any such deduction is made, the relevant Issuer or, as the case may be, the Guarantor will, save in certain limited circumstances provided in Condition 7, be required to pay additional amounts to cover the amounts so deducted.

The Issuer and the Guarantor consider that, with the exception of payments to individuals with tax residency in Spain in respect of the Notes issued falling within the conditions of article 44.4 of RD 1065/2007, they are not obliged to withhold any tax amount provided that the new simplified information procedures established under article 44 of RD 1065/2007 are complied with, as described in “*Taxation – Tax Reporting Obligations of the Issuers and the Guarantor*”. However, the interpretation of article 44.5 RD 1065/2007 is currently subject to debate.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

Noteholder Representative and Meetings: Spanish company law requires that a representative (*Comisario*) of the Noteholders is appointed and that a syndicate of Noteholders is established in relation to the Notes issued under the Programme. By purchasing a Note of any Series, the holder thereof automatically becomes a member of the Syndicate and also will be deemed to have agreed to (i) the appointment of the representative for that Series named in the applicable Final Terms, and (ii) accept the syndicate regulations referred to in the applicable Final Terms. Bearer Notes

Each Tranche of Bearer Notes will be initially issued in the form of a temporary global note (a **Temporary Bearer Global Note**) or a permanent global note (a **Permanent Bearer Global Note**) as indicated in the applicable Final Terms, which, in either case, will (i) if the Global Notes are intended to be issued in new global note (**NGN**) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear and Clearstream, Luxembourg; or (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depositary for Euroclear and Clearstream, Luxembourg. Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification of non-U.S. beneficial ownership or certification to the effect that the holder is a U.S. person who purchased in a transaction that did not require registration under the Securities Act and to the effect that such holder is not a United States person, or is a United States person that purchased by or through certain United States financial institutions or is a financial institution purchasing for resale during the restricted period to persons other than United States persons or persons within the United States or its possessions as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Bearer Global Note of the same Series or (b) for definitive Bearer Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Note if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon either (a) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in

such Permanent Bearer Global Note) to the Principal Paying Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in General Condition 9) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available, (iii) if so specified in the applicable Final Terms, the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form or (iv) the Notes are required to be removed from both Euroclear and Clearstream, Luxembourg and no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with General Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or the Issuer, as the case may be, may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

Registered Notes will initially be represented by a global note in registered form (a **Registered Global Note**). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Registered Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in General Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Registered Global Note will bear a legend describing such restrictions on transfer.

Registered Global Notes will either (a) be deposited with a custodian for the accounts of Euroclear and Clearstream, Luxembourg or (b) be deposited with a common depository or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg, and registered in the name of a common nominee of Euroclear and Clearstream, Luxembourg or in the name of a nominee of the common safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in General Condition 5.5) as the registered holder of the Registered Global Notes. None of the Issuer, the Guarantor, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 5.5) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (a) an Event of Default has occurred and is continuing, (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form, (c) in the case of Notes registered in the name of a nominee for a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, no successor clearing system is available, and (d) the Notes are required to be removed from (in the case of Notes registered in the name of a nominee for a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg) both Euroclear and Clearstream, Luxembourg and, in either case, no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with General Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) or the Issuer, as the case may be, may give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Registrar.

No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

General provisions relating to Certificated Notes

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg or its nominee each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any

certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and their agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes and voting, giving consents or making requests, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Guarantor and their agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

Except in relation to Notes issued in NGN form or Registered Global Notes held under the NSS, any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer and the Principal Paying Agent. A Note may be accelerated by the holder thereof in certain circumstances described in General Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note within a period of 15 days from the giving of a notice by a holder with Euroclear or Clearstream, Luxembourg of such Notes so represented and credited to its securities account that it wishes to accelerate such Notes, then holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and Clearstream, Luxembourg.

One or more certificates evidencing the relevant Noteholder's holding of Book-Entry Notes in the relevant registry will be delivered by Iberclear or the relevant Iberclear Member (as the case may be), in whose records the Book-Entry Notes are registered, or, where the Noteholder is itself an institution participating in Iberclear, by Iberclear (in each case, in accordance with the requirements of Spanish law and the procedures of the relevant Iberclear Member or, as the case may be, Iberclear) to such Noteholder upon such Noteholder's request.

Book-Entry Notes may also be admitted to trading on Spanish regulated markets other than AIAF, in which case references above to AIAF will be deemed to be to such other Spanish regulated market.

Payments to be made in respect of Book Entry Notes which are admitted to trading on non Spanish regulated markets will be made by the Issuer (or on its behalf) to the Book-Entry Depository in accordance with the Book Entry Depository's current procedures and in accordance with applicable Spanish laws.

Other provisions relating to Book-Entry Notes

Title to the Book-Entry Notes will be evidenced by book entries and each person shown in the registries maintained by Iberclear Members (or the members of the relevant Book-Entry Depository) and having an interest in the Book-Entry Notes shall be considered, by the Issuer, the Guarantor and the Agents, as the holder of the principal amount of Book-Entry Notes recorded therein, and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

The creation of limited *in rem* rights or any other encumbrance on a Book-Entry Note must be entered in the corresponding account and effected in accordance with the then current procedures of Iberclear (or the relevant Book-Entry Depository) and or their respective members.

Further tranches of Book-Entry Notes (fungible Book-Entry Notes)

FORM OF THE SYNDICATE OF NOTEHOLDER REGULATIONS

BY LAWS APPLICABLE TO THE SYNDICATE OF NOTEHOLDERS

This is a translation into English of the By-Laws applicable to the Syndicate of Noteholders. The Spanish version of the By-Laws shall prevail in the case of inconsistency which can be found as a schedule to the Agency Agreement.

PART I.

Constitution, Object, Domicile and Duration.

Article I. Constitution – According to Spanish Royal Decree-Law 1/2010, dated 2 July, by virtue of which the Corporate Spanish Law is approved (*Real Decreto Legislativo 1/2010, de 2 de Julio, por el que se aprueba el texto refundido de la Ley de Sociedades de Capital*), once the issue is recorded a Noteholders' syndicate (the **Syndicate**) for Note Issue (name) (the **Notes**) shall be constituted amongst the purchasers of the said Notes, all due annotations having been made.

Article II. Object – The object and aim of this Syndicate is to defend Noteholders' legitimate rights and interests before the Issuer, pursuant to prevailing legislation.

Article III. Domicile – The Syndicate shall be domiciled at Paseo de la Castellana, 81, 28046 – MADRID – Spain.

Article IV. Duration – The Syndicate shall continue to exist throughout the life of the Notes, and once their term expires, until the Issuer has acquitted its obligations towards its Noteholders.

PART II.

Article V. General Noteholders Meeting – The supreme body of representation shall be the General Noteholders' Meeting, empowered to resolve whatever may be necessary to best defend the Noteholders' legitimate interests vis-à-vis the Issuer; to amend guarantees, in agreement with the Issuer; to appoint and dismiss a Noteholders' representative (the **Representative**); to take due legal action, where applicable, and approve the costs occasioned in defence of common interests.

The Representative, once the issue is subscribed, will convene the General Noteholders' Meeting, which must approve or censure his/her management, confirm him/her in the post or appoint his/her substitute and establish the final internal regulations that will govern the Syndicate according to the provisions of the issue contract.

Article VI. Resolutions – All resolutions shall be passed by absolute majority amongst those attending the meeting, as long as they represent two-thirds of the Notes in circulation. The resolutions shall be binding on all Noteholders, including those who do not attend the meeting or voted against the motion. Each Note shall entail the right to one vote. The Chairman shall hold the casting vote in the event of deadlock, should the Chairman be a Noteholder. Should two-thirds of the Notes in circulation not be represented at the meeting, it may be re-convened for one month later, when the resolutions shall be passed by an absolute majority amongst those attending. Said resolutions shall be binding on the Noteholders in the same manner as above.

However, the General Meeting's resolutions may be contested by Noteholders in cases established by Law.

Article VII. Proxies – Noteholders may delegate their representation to a proxy, who may or may not be a Noteholder, by a special letter of proxy for each meeting.

Article VIII. Call to meeting – The General Noteholders’ Meeting shall be convened by the Issuer’s Directors or the Representative whenever deemed useful for the defence of the Noteholders’ interests or the examination of propositions made by the Issuer’s Board of Directors.

The Representative shall convene the meeting when so required by the Board of Directors of the Issuer or requested by Noteholders representing at least one twentieth of the Notes issued and outstanding. The Board of Directors of the Issuer may require the attendance of the Issuer’s Management which shall attend, even if they have not been convened.

The meeting shall be convened by publishing a notice in the national press or media at least 10 days beforehand. When the General Meeting must deal with or resolve on issues related to the amendment of conditions of issue or others the Representative deems of similar importance, it shall be convened within the time limits and according to the requirements established under article 97 of the Spanish Company Act for General Shareholders Meetings.

The above notwithstanding, the General Meeting shall be deemed to have been validly convened and constituted to deal with any issue provided all the Noteholders are present and unanimously accept it should be held.

Article IX. Right of attendance – All Noteholders proving ownership of their Notes five days prior to the date of the General Meeting shall be entitled to attend, speak and vote at the meeting. Ownership must be accredited in the manner and according to the requirements established in the announcement published to convene the General Meeting.

The Directors of the Issuer, the Representative and the secretary (the **Secretary**) may attend with the right to speak but not to vote. Should the Representative and the Secretary be Noteholders, they shall also have the right to vote.

Should there be joint owners of one or various Notes, the joint owners must designate one single person to represent them, establishing whose turn it is by default should no agreement be reached.

Should the Notes be held in usufruct, the usufructuary shall be entitled to the same interests and other rights as the original owner. And should they be held under pledge, the Noteholder shall be entitled to exercise all the rights, the pledgor facilitating their exercise to the pledgee until the pledge be acquitted.

Article X. Minutes – The minutes of the General Meeting shall be signed by the Chairman and the Secretary and any copies and certifications issued of the minutes shall be signed by the Secretary with the approval of the Chairman.

Article XI. Chairmanship – The General Meeting shall be chaired by the Representative or whoever may substitute him/her, who shall appoint a Secretary. The Secretary need not be a Noteholder.

Article XII. Syndicate Representative – The Meeting shall be chaired by the Representative of the Syndicate, with such powers as established by Law, these Regulations, the Note issue contract and the Noteholders’ General Meeting to exercise the actions and rights to which said Meeting is entitled, acting as liaison between the Issuer and the Syndicate.

In the event of absence or illness, the Representative shall be substituted by the Noteholder that he/she names and, should none be named, the Noteholder with the highest number of Notes, until the General Meeting resolves to name another, should it do so.

The above notwithstanding, should a substitute Representative be appointed, he/she shall stand in as substitute in the event of illness or absence.

Article XIII. Proceedings – Proceedings and/or suits affecting the collective or general interest of Noteholders may only be arranged in the Syndicate's name when the Noteholders' General Meeting has authorised them, and shall be binding on all Noteholders without distinction. Nonetheless, statutory legal rights to contest the resolutions taken by the General Meeting are sustained.

Any Noteholder wishing to take such suit must put it to the Representative who, should he/she deem that grounds exist for considering the proposal, shall convene the General Meeting.

Should the General Meeting reject the Noteholder's proposal, no Noteholder may take it as an issue of personal interest to the Courts of Justice, unless there is a clear contradiction with the resolutions and regulations of the Syndicate.

Article XIV. Noteholders' Conformity – Subscription or possession of Notes entails the Noteholder's full ratification of the issue contract, membership of the Syndicate and acceptance of these regulations and conformity with said Syndicate having full legal liability to all effects.

Article XV. Expenses – Expenses incurred in running the Syndicate shall be payable by the Issuer and may never be more than 2 per cent. of the annual interest accruing to the Notes issued.

In these Conditions, **Distribution Compliance Period** means the period that ends 40 days after the completion of the distribution of each Tranche of Notes in reliance upon Regulation S under the United States Securities Act of 1933 as amended (the **Securities Act**), as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue).

2.2 Transfers of Registered Notes in definitive form

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the authorised denominations set out in the applicable Final Terms). In order to effect any such transfer (a) the holder or holders must (i) surrender the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (ii) complete and deposit such other certifications as may be required by, the relevant Transfer Agent and (b) the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer and the Registrar may from time to time prescribe (the initial such regulations being scheduled to the Agency Agreement). Subject as

provided above, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail, to such address as the transferee may request, a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

2.3 Registration of transfer upon partial redemption

In the event of a partial redemption of Notes under General Condition 6, the Issuer shall not be required to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

2.4 Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

3. STATUS OF THE NOTES AND THE GUARANTEE

*Law 22/2003 of July 9, 2003 as amended from time to time (the **Insolvency Law**) came into force in Spain on September 1, 2004. Certain provisions in the Insolvency Law could affect the ranking of certain Notes on an insolvency of the Issuer or the Guarantor.*

In particular, from the entry into force of the Insolvency Law, and in accordance with the insolvency procedures regulated therein, creditors whose rights arise from a Spanish public document, including Noteholders, do not have a preference to enforce their rights and do not rank ahead of other creditors whose rights may be recognised by virtue of a document not so witnessed.

3.1 Status of the Notes

The Notes and any relative Coupons and Receipts will be direct, unconditional and unsecured obligations of the Issuer and will rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

In the event of insolvency (concurso) of the Issuer, under the Insolvency Law (as defined below), claims relating to Notes (which are not related to the Issuer under article 93 of the Insolvency Law) will be ordinary credits (créditos ordinarios) as defined in the Insolvency Law. Ordinary credits rank below credits against the insolvency state (créditos contra la masa) and credits with a privilege (créditos privilegiados). Ordinary credits rank above subordinated credits and the rights of shareholders.

3.2 Status of the Guarantee

The payment of principal and interest in respect of the Notes and any relative Coupons and Receipts and the payment of all amounts due in respect of the Notes and any relative Coupons and Receipts has been unconditionally and irrevocably guaranteed (*solidariamente*) by the Guarantor pursuant to the Guarantee.

The obligations of the Guarantor under the Guarantee constitute direct, unconditional and unsecured obligations of the Guarantor and rank and will rank *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor.

In the event of insolvency (concurso) of the Guarantor, under the Insolvency Law, claims from Senior Noteholders will fall within the category of ordinary credits (créditos ordinarios) as defined in the Insolvency Law. Ordinary credits will rank below credits against the insolvency state (créditos contra la masa) and privileged credits (créditos privilegiados) which shall be paid in full before ordinary credits. The claims of all creditors considered as ordinary credits against the Guarantor will be satisfied pro rata in insolvency. Ordinary credits will rank above subordinated credits.

As set forth in the Guarantee, the Guarantor shall at all times have the right, in its sole and unfettered discretion, to elect not to perform or procure the delivery to a Noteholder when due, any asset other than a cash amount in respect of any Note or Coupon or Receipt or under the Deed of Covenant, as the case may be (**Delivery Obligations**), when the same shall become due and deliverable under the Guarantee, but in lieu thereof to make payment to the Noteholder(s) of an amount determined by the Guarantor in good faith and in a commercially reasonable manner to be equal to the fair market value of the assets to which the Delivery Obligation in respect of the relevant Note(s) relates less such Note(s) *pro rata* share of the costs of unwinding any underlying related hedging and/or funding arrangements of the Issuer and/or the Guarantor (the **Guaranteed Cash Settlement Amount**). Any payment of the Guaranteed Cash Settlement Amount in lieu of performance of the relevant Delivery Obligations shall constitute a complete discharge of the Guarantors obligations under the Guarantee in respect of the relevant Notes, save as to any other cash amount due in respect of such Notes.

4. INTEREST

4.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date if that does not fall on an Interest Payment Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note or which are Book-Entry Notes, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note or Book-Entry Notes (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest, in accordance with this General Condition 4.1:

if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:

- (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (i) the number of days in such Determination Period and (ii) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
- (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In these Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

4.2 Interest on Floating Rate Notes and Reference Item Linked Interest Notes

(a) Interest Payment Dates

Each Floating Rate Note and Reference Item Linked Interest Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with General Condition 4.2(a)(ii), the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (b) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or

- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, **Business Day** means a day which is both: (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Madrid and any Additional Business Centre specified in the applicable Final Terms; and (b) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the Trans-European Automated Real Time Gross Settlement Express Transfer (TARGET2) System (the **TARGET2 System**) is open.

(b) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Reference Item Linked Interest Notes will be determined in the manner specified in the applicable Final Terms.

(i) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (A), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the **ISDA Definitions**) and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (I) if the applicable Floating Rate Option is based on the London inter-bank offered rate (**LIBOR**) or on the Euro-zone inter-bank offered rate (**EURIBOR**), the first day of that Interest Period or (II) in any other case, as specified in the applicable Final Terms.

For the purposes of this subparagraph (A), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

(ii) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) (the **Specified Time**) on the Interest Determination Date in question, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of (A) (above), no offered quotation appears or, in the case of (B) (above), fewer than three offered quotations appear, in each case as at the Specified Time, the Principal Paying Agent shall request each of the Reference Banks to provide the Principal Paying Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Principal Paying Agent with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Principal Paying Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Principal Paying Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Principal Paying Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Principal Paying Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London inter-bank market (if the Reference Rate is LIBOR) or the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Principal Paying Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the

relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Principal Paying Agent it is quoting to leading banks in the London inter-bank market (if the Reference Rate is LIBOR) or the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

In these Conditions, **Reference Banks** means the banks so specified in the applicable Final Terms or, if not so specified, means in the case of a determination of LIBOR, the principal London office of four major banks in the London inter-bank market and, in the case of a determination of EURIBOR, the principal Euro zone office of four major banks in the Euro-zone inter bank market, in each case selected by the Principal Paying Agent.

(c) *Minimum Rate of Interest and/or Maximum Rate of Interest*

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) *Determination of Rate of Interest and calculation of Interest Amounts*

The Principal Paying Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Reference Item Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Reference Item Linked Interest Notes, the Calculation Agent will notify the Principal Paying Agent and the Issuer of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Principal Paying Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Reference Item Linked Interest Notes will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes or Reference Item Linked Interest Notes (as the case may be) for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes or Reference Item Linked Interest Notes which are represented by a Global Note or which are Book-Entry Notes, the aggregate outstanding nominal amount of the Notes represented by such Global Note or Book-Entry Notes (or, if they are Partly Paid Notes, the aggregate amount paid up); or

- (ii) in the case of Floating Rate Notes or Reference Item Linked Interest Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note or Reference Item Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this General Condition 4.2:

- (a) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (b) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (c) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (d) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (e) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

Y^1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y^2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M^1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M^2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D¹ is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case **D¹** will be 30; and

D² is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and **D¹** is greater than 29, in which case **D²** will be 30;

- (f) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

Y¹ is the year, expressed as a number, in which the first day of the Interest Period falls;

Y² is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M¹ is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M² is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D¹ is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case **D¹** will be 30; and

D² is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case **D²** will be 30; and

- (g) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

Y¹ is the year, expressed as a number, in which the first day of the Interest Period falls;

Y² is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M¹ is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M² is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D¹ is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case **D**¹ will be 30; and

D² is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case **D**² will be 30.

(e) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent or, if applicable the Calculation Agent, will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange or other relevant authority on which the relevant Floating Rate Notes or Reference Item Linked Interest Notes are for the time being listed or by which they have been admitted to listing and notice thereof to be published in accordance with General Condition 13 as soon as possible after their determination but in no event later than the fourth Madrid Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange or other relevant authority on which the relevant Floating Rate Notes or Reference Item Linked Interest Notes are for the time being listed or by which they have been admitted to listing and to the Noteholders in accordance with General Condition 13. For the purposes of this paragraph, the expression **Madrid Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Madrid.

(f) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this General Condition 4.2, whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Principal Paying Agent, the Calculation Agent (if applicable), the other Agents and all Noteholders, Receiptholders and Couponholders and (in the absence) no liability to the Issuer, the Guarantor, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

4.3 Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

4.4 Accrual of interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due

presentation thereof, payment of principal (and/or delivery of the Physical Delivery amount (if applicable) is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Notes has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Noteholders in accordance with General Condition 13.

Provided that if Annex 6 (Additional Terms and Conditions for Credit Linked Notes) applies in respect of the Notes and

- (i) "Accrual of Interest upon Credit Event" is specified as Not Applicable in the applicable Final Terms, each Note shall cease to bear interest from the Interest Payment Date immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Payment Date such Interest Payment Date or, if the Credit Event Determination Date falls prior to the first Interest Payment Date, no interest shall accrue on the Notes; or
- (ii) "Accrual of Interest upon Credit Event" is specified as being Applicable in the applicable Final Terms, each Note shall cease to bear interest from the Credit Event Determination Date; and

Provided Further That, if

- (1) Credit Linked Condition 5, Credit Linked Condition 6 or Credit Linked Condition 7 applies in respect of the Notes and, in the case of Credit Linked Condition 5, a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 6, a Failure to Pay has not occurred on or prior to the Grace Period Extension Date or, in the case of Credit Linked Condition 7, a Credit Event has not occurred on or prior to the DC Cut-off Date, as the case may be; and/or
- (2) Credit Linked Condition 8 applies in respect of the Notes and Conditions to Settlement or the Repudiation/Moratorium Extension Condition, as applicable, are not satisfied on or prior to the Postponed Maturity Date,

then interest will accrue as provided in Credit Linked Condition 5, Credit Linked Condition 6, Credit Linked Condition 7 or Credit Linked Condition 8, as the case may be.

5. PAYMENTS, PHYSICAL DELIVERY AND EXCHANGE OF TALONS

5.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the

Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and

- (b) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in any jurisdiction, but without prejudice to the provisions of General Condition 7, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto.

5.2 Physical Delivery

- (a) Physical Delivery

- (i) Asset Transfer Notices

In relation to Notes to be redeemed by delivery or, in the case of Credit Linked Notes, Delivery (as such term is defined in the Credit Linked Conditions) of the Entitlement(s) as set out in the applicable Final Terms (the **Entitlement** or the **Entitlements**), in order to obtain delivery or Delivery of the Entitlement in respect of any Note, the following procedures apply:

- (A) If such note is a Book-Entry Note:

- I. where the Entitlement is also a security (or securities) included in Iberclear's book-entry register, then the Delivery Agent as specified in the applicable Final Terms (the **Delivery Agent**) must receive instructions from each Iberclear participant entity holding Book-Entry Notes on the Cut-off Date. Such instructions shall include complete settlement instructions, incorporating relevant information in respect of the Noteholders holding Book-Entry Notes through each Iberclear participant entity and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership. Each Iberclear participant holding Book-Entry Notes must block such Book-Entry Notes from and including the Cut-off Date; and
 - II. where the Entitlement comprises an instrument (or instruments) that is not included in Iberclear's book-entry register, each Iberclear participant holding Book-Entry Notes on the Cut-Off Date must send timely and full settlement instructions to the Delivery Agent sufficient to allow the Issuer, or, where applicable, the Delivery Agent acting on the Issuer's behalf, to make delivery or Delivery of the Entitlement in the relevant clearing system (where relevant) or otherwise on the Delivery Date or the Credit Settlement Date (as applicable) in accordance with the provisions of this

General Condition 5.2 and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership.

For the avoidance of doubt, where the settlement instructions contemplated by this sub-paragraph (A) apply, this replaces the requirement to deliver an Asset Transfer Notice in accordance with the provisions below. All instructions for settlement to be delivered in accordance with this sub-paragraph (A) will be referred to as the **Iberclear Settlement Instruction**.

- (B) if such Note is represented by a Global Note, the relevant Noteholder must deliver to Euroclear or Clearstream, Luxembourg (as applicable) in a form acceptable thereto, with a copy to the Principal Paying Agent and the Delivery Agent not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice substantially in the form set out and/or containing the information specified in the Agency Agreement (the **Asset Transfer Notice**); and
- (C) if such Note is in definitive form, the relevant Noteholder must deliver (i) if this Note is a Bearer Note, to any Paying Agent or (ii) if this Note is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Principal Paying Agent and the Delivery Agent not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice.

For the purposes hereof, **Cut-off Date** means the date specified as such in the applicable Final Terms or if not so specified (a) in respect of a Note that is not a Credit Linked Note, the third Business Day immediately preceding the Delivery Date or (b) in respect of a Credit Linked Note, the third Business Day immediately preceding the Credit Settlement Date.

A form of Asset Transfer Notice may be obtained during normal business hours from the specified office of the Registrar or any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Note is represented by a Global Note, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be, or (ii) if such Note is in definitive form, in writing.

If this Note is in definitive form, this Note must be delivered together with the duly completed Asset Transfer Notice.

The Asset Transfer Notice shall:

- (A) specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer or Delivery Agent may obtain details for the delivery or Delivery of the Entitlement;
- (B) specify the series number of the Notes and the number of Notes which are the subject of such notice;

- (C) in the case of Notes represented by a Global Note, specify the nominal amount of Notes which are the subject of such notice and the number of the Noteholder's account at the relevant Clearing System to be debited with such Notes and irrevocably instruct and authorise the relevant Clearing System to debit the relevant Noteholder's account with such Notes on or before the Delivery Date or (in the case of Credit Linked Notes) the Credit Settlement Date;
- (D) include an undertaking to pay all Expenses and, in the case of Notes represented by a Global Note, an authority to the relevant Clearing System to debit a specified account of the Noteholder with the relevant Clearing System in respect thereof and to pay such Expenses;
- (E) include such details as are required for delivery or Delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered or Delivered and specify the name and number of the Noteholder's account to be credited with any cash payable by the Issuer, including pursuant to Credit Linked Condition 9, in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event or a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Disruption Cash Redemption Amount or Failure to Deliver Redemption Amount, as applicable, or as a result of the Issuer electing to pay the Alternate Cash Redemption Amount;
- (F) certify that the beneficial owner of each Note is not a U.S. person (as defined in the Asset Transfer Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof;
- (G) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Agency Agreement.

If General Condition 5.2(b) applies, the form of Asset Transfer Notice required to be delivered will be different from that set out above. Copies of such Asset Transfer Notice may be obtained from the Registrar or any Paying Agent.

(ii) Verification of the Noteholder

In the case of Notes represented by a Global Note, upon receipt of an Asset Transfer Notice, the relevant Clearing System shall verify that the person delivering the Asset Transfer Notice is the holder of the Notes described therein according to its records. Subject thereto, the relevant Clearing System will confirm to the Principal Paying Agent the series number and number of Notes the subject of such notice, the relevant account details and the details for the delivery of the Entitlement of each Note. Upon

receipt of such confirmation, the Principal Paying Agent will inform the Issuer and any Delivery Agent thereof. The relevant Clearing System will on or before the Delivery Date or Credit Settlement Date, as the case may be, debit the securities account of the relevant Noteholder with the relevant Notes.

(iii) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made, in the case of Notes represented by a Global Note, by the relevant Clearing System or, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be. Any determination as to the completeness of an Iberclear Settlement Instruction shall be made by the Delivery Agent. All such determinations shall be made in consultation with the Principal Paying Agent, and shall be conclusive and binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent(s), any Delivery Agent, the relevant Noteholder and the Iberclear participant entity (as applicable). Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent and any Delivery Agent immediately after being delivered or sent as provided in paragraph (1) above or any Iberclear Settlement Instruction deemed incomplete, shall be null and void.

If such Asset Transfer Notice or Iberclear Settlement Instruction is subsequently corrected to the satisfaction of, in the case of Notes represented by a Global Note, the relevant Clearing System, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, or, in the case of Book-Entry Notes by the Delivery Agent, in each case in consultation with the Principal Paying Agent, it shall be deemed to be a new Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) submitted at the time such correction was delivered as provided above.

The relevant Clearing System, Delivery Agent, Registrar or Paying Agent, as applicable, shall use its reasonable efforts as soon as reasonably practicable to notify the Noteholder submitting an Asset Transfer Notice or, in respect of Book-Entry Notes, the Iberclear participant entity submitting the Iberclear Settlement Instruction, if, in consultation with the Principal Paying Agent, it has determined that such Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor, the Paying Agents or the relevant Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder.

No Asset Transfer Notice or Iberclear Settlement Instruction may be withdrawn after receipt thereof by the relevant Clearing System, the Registrar, the Delivery Agent or a Paying Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice or Iberclear Settlement Instruction, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

The Entitlement will be delivered at the risk of the relevant Noteholder, in the manner provided below on the date fixed for redemption (such date, subject to adjustment in accordance with this General Condition 5.2, the **Delivery Date**) or, in the case of Credit Linked Notes, Delivered at the risk of the relevant Noteholder, in the manner provided below on the Credit Settlement Date, provided that the Asset Transfer Notice, or, in the case of Book-Entry Notes, Iberclear Settlement Instruction, is duly

delivered to the relevant Clearing System and/or each other relevant party, as provided above, not later than the close of business in each place of receipt on the Cut-Off Date.

If a Noteholder fails to give an Asset Transfer Notice or, in the case of Book-Entry Notes, Iberclear Settlement Instruction, as provided herein with a copy to each relevant party, prior to the close of business in each place of receipt on the Cut-Off Date, then the Entitlement will be delivered or, as the case may be, Delivered at the risk of such Noteholder in the manner provided below as soon as practicable after the date fixed for redemption (in which case, such date of delivery shall be the Delivery Date or, in the case of Credit Linked Notes, the Credit Settlement Date) Provided That if, in respect of a Note, a duly completed Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is not delivered in accordance with the requirements of this General Condition 5.2, with a copy to each party specified for such purpose herein, prior to the close of business in each place of receipt on the 90th calendar day following the Cut-off Date then:

- (x) if "Assessed Value Payment Amount" is specified as applicable in the applicable Final Terms, the Issuer shall as soon as reasonably practicable following such date determine the Assessed Value Payment Amount and in respect of such Note shall pay the Assessed Value Payment Amount to the relevant Noteholder in lieu of delivery of the Entitlement as soon as reasonably practicable following determination of the Assessed Value Payment Amount; or
- (y) if "Assessed Value Payment Amount" is not specified as applicable in the applicable Final Terms, the Issuer's obligations in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer.

For the avoidance of doubt, in the circumstances described in (a) above, such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date or Credit Settlement Date, as applicable, falling after the scheduled Delivery Date or the originally designated Credit Settlement Date and no liability in respect thereof shall attach to the Issuer or the Guarantor (if applicable). Upon payment of the Assessed Value Payment Amount the Issuer's obligations in respect of such Note shall be discharged and the Guarantor's obligations in respect of such Note pursuant to the Guarantee shall be discharged.

The Issuer (or any Delivery Agent on its behalf) shall at the risk of the relevant Noteholder, deliver or procure the delivery of the Entitlement for each Note or (in the case of Credit Linked Notes) Deliver the Deliverable Obligations comprising the Entitlement, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated in the relevant Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) or in such manner as is specified in the applicable Final Terms. All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes (**Expenses**) arising from the delivery of the Entitlement or the Delivery of the Deliverable Obligations comprising the Entitlement, as the case may be, in respect of such Notes shall be for the account of the relevant Noteholder and no delivery of the Entitlement or the Delivery of the Deliverable Obligations comprising the Entitlement, as the case may be, shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Noteholder.

For the purposes hereof:

Assessed Value Payment Amount means, in respect of a Note, an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the Entitlement in respect of such Note less the cost to the Issuer and/or its affiliates of unwinding any underlying relating hedging arrangements, all as determined by the Issuer.

(iv) General

Except in the case of Credit Linked Notes, Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes, provided that, the aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

Following the Delivery Date of a Share all dividends on the relevant Shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares executed on the Delivery Date and to be delivered in the same manner as such relevant Shares. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in paragraph (a)(i) of this General Condition 5.2.

For such period of time after delivery or Delivery of the Entitlement as the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the securities or Deliverable Obligations comprising the Entitlement (the **Intervening Period**), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities, obligations or Deliverable Obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities, obligations or Deliverable Obligations.

(v) Settlement Disruption

The provisions of this General Condition 5.2(a)(v) apply to Notes other than Credit Linked Notes.

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such

Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with General Condition 13. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

Disruption Cash Redemption Amount, in respect of any relevant Note, shall be the fair market value of such Note (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

Settlement Business Day has the meaning specified in the applicable Final Terms; and

Settlement Disruption Event means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Relevant Asset(s) using the method specified in the Conditions and/or the applicable Final Terms.

(vi) Failure to Deliver due to Illiquidity

The provisions of this General Condition 5.2(a)(vi) apply to the Notes other than the Credit Linked Notes.

If Failure to Deliver due to Illiquidity is specified as applying in the applicable Final Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **Affected Relevant Assets**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **Failure to Deliver due to Illiquidity**), then:

- (x) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this General Condition 5.2; and
- (y) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with General Condition 13. Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 that the provisions of this General Condition 5.2(a)(vi) apply.

For the purposes hereof, **Failure to Deliver Redemption Amount** in respect of any relevant Note shall be the fair market value of such Note (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(vii) Additional Provisions for Credit Linked Notes

In the case of Credit Linked Notes, the provisions contained in Annex 6 - Additional Terms and Conditions for Credit Linked Notes shall apply.

(b) Variation of Settlement

- (i) If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with General Condition 13.
- (ii) If specified in the applicable Final Terms, the Issuer shall, in respect of each Note, in lieu of delivering or procuring the delivery of the Entitlement to the relevant Noteholders, make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders.

(c) Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount

Notwithstanding any provision of these Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of the Notes, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises assets which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an

equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other assets which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the **Substitute Asset** or the **Substitute Assets**, as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholder on the Delivery Date of an amount equal to the fair market value of the Entitlement on or about the time of so electing as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the **Alternate Cash Redemption Amount**). Notification of any such election will be given to Noteholders in accordance with General Condition 13 and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a freely tradable share shall mean (i) with respect to the United States, a share which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share and not purchased from an affiliate of the issuer of such share or which otherwise meets the requirements of a freely tradable share for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a share not subject to any legal restrictions on transfer in such jurisdiction.

(d) Rights of Noteholders and Calculations

None of the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes, except where such errors or omissions arise as a result of its own negligence, default or bad faith, including that of its officers and employees.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(e) Additional Provisions for Credit Linked Notes

In relation to each Deliverable Obligation constituting the Entitlement in respect of any Credit Linked Note, the Issuer will Deliver or procure the Delivery of the relevant Deliverable Obligation as provided in paragraph (a) of this General Condition 5.2 on the Credit Settlement Date, Provided That if all or some of the Deliverable Obligations included in the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, on or before the 30th Business Day following the Credit Settlement Date (the **Final Delivery Date**), Provided Further That if all or a portion of such Undeliverable Options or Hedge Disruption Obligations, as the case may be, are not Delivered by the Final Delivery Date the provisions of Credit Linked Condition 9 shall apply

(f) For the purposes of the Conditions:

Affiliate means, in relation to any entity (the **First Entity**), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or

indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes **control** means ownership of a majority of the voting power of an entity.

5.3 Presentation of definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in General Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent. Payments of instalments of principal (if any) in respect of definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in General Condition 5.1 above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in General Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes, Index Linked Redemption Notes, Equity Linked Redemption Notes, Fund Linked Redemption Notes, Commodity Linked Redemption Notes Inflation Linked Redemption Notes, Credit Linked Notes, Foreign Exchange (FX) Linked Redemption Notes, Custom Index Linked Redemption Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which, the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in General Condition 7) in respect of such principal (whether or not such Coupon would otherwise have become void under General Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Index Linked Redemption Note, Equity Linked Redemption Note, Fund Linked Redemption Note, Commodity Linked Redemption Note, Inflation Linked Redemption Note, Credit Linked Note, Foreign Exchange (FX) Linked Redemption Note, Custom Index Linked Redemption Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect

thereof. A **Long Maturity Note** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon, provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

5.4 Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent. A record of each payment made against presentation or surrender of any Global Note in bearer form, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

5.5 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant payment date. Notwithstanding the previous sentence, if (a) a holder does not have a Designated Account or (b) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately

preceding the relevant payment date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant payment date (the **Record Date**) at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the payment date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the payment date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the payment date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

None of the Issuer, the Guarantor or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

5.6 Payments in respect of Book-Entry Notes

Payments in respect of the Book-Entry Notes (in terms of both principal and interest) will be made by transfer to the registered account of the relevant Noteholder maintained by or on behalf of it with a bank that processes payments in the currency in which the payment is due, details of which appear in the records of Iberclear, the relevant Iberclear Member or the Book-Entry Depositary, as the case may be, at the close of business on the Business Day on which the payment of principal and/or interest, as the case may be, falls due. Noteholders must rely on the procedures of Iberclear, the relevant Iberclear member or the Book Entry Depositary, as the case may be, to receive payments under the relevant Book-Entry Notes. None of the Issuer, the Guarantor, any Agent or any of the Dealers will have any responsibility or liability for the records relating to payments made in respect of the Book-Entry Notes.

All payment in respect of the Book-Entry Notes are subject in all case to any applicable fiscal or other laws and regulations in the place of payment, without prejudice to the provisions of General Condition 7 (*Taxation*). No commissions or expenses shall be charged to the Noteholders in respect of such payments.

5.7 General provisions applicable to payments on Certificated Notes

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer or, as the case may be, the Guarantor

will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid.

Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note. No person other than the holder of the relevant Global Note shall have any claim against the Issuer or the Guarantor in respect of any payments due in respect of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the Guarantor, adverse tax consequences to the Issuer or the Guarantor.

5.8 Payment Day

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, **Payment Day** means any day which (subject to General Condition 5) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) the relevant place of presentation;
 - (ii) each Additional Financial Centre specified in the applicable Final Terms;
- (b) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, any Additional Financial Centre and which, if the Specified Currency is Australian dollars or New Zealand

dollars, shall be Sydney and Auckland, respectively) or (ii) in relation to any sum payable in euro, a day on which the TARGET2 System is open;

5.9 Interpretation of principal and interest

Any reference in the Conditions to interest means any amounts payable under General Condition 4 and any additional amounts which may be payable with respect to interest under General Condition 7.

Any reference in the Conditions to principal means all other amounts due in respect of the Notes.

5.10 Interpretation of payment or repayment

For the purposes of this Condition 5, references to payment or repayment (as the case may be) of principal and/or interest and other similar expressions shall, where the context so admits, be deemed also to refer to delivery of any Entitlement(s).

6. REDEMPTION AND PURCHASE

6.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Index Linked Redemption Note, Equity Linked Redemption Note, Inflation Linked Redemption Note, Commodity Linked Redemption Note, Fund Linked Redemption Note, Credit Linked Note, Custom Index Linked Redemption Note and Foreign Exchange (FX) Rate Linked Redemption Note and Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency or, if Physical Settlement is specified as applicable in the applicable Final Terms (each such Note a **Physical Delivery Note**) by delivery of the Entitlement specified in the applicable Final Terms (as provided in General Condition 5.2 above). This Note may not be redeemed other than in accordance with the Conditions.

6.2 Redemption for tax reasons

This Condition applies if so specified in the applicable Final Terms. The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than 30 nor more than 60 days' notice to the Principal Paying Agent and, in accordance with General Condition 13, the Noteholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in General Condition 7 or the Guarantor would be unable for reasons outside its control to procure payment by the Issuer and in making payment itself would be required to pay such additional amounts, in each case as a result of any change in, or amendment to, the laws or regulations of Spain (as defined in General Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and

- (b) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the Guarantor would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer or, as the case may be, the Guarantor shall deliver to the Principal Paying Agent a certificate signed by two Directors of the Issuer (or if at the time that such certification is to be given the Issuer has only one Director, such certificate may be signed by such Director) or, as the case may be, the Guarantor stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, an opinion of independent legal advisers of recognised standing to the effect that the Issuer or, as the case may be, the Guarantor has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this General Condition 6.2 will be redeemed at their Early Redemption Amount referred to in General Condition 6.5 below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

6.3 Redemption at the option of the Issuer (Issuer Call)

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given (unless otherwise specified in the applicable Final Terms):

- (a) not less than five nor more than 30 days' notice to the Noteholders in accordance with General Condition 13 or such lesser period specified in the applicable Final Terms; and
- (b) not less than seven days before the giving of the notice referred to in (a), notice to the relevant Principal Paying Agent appointed in each issue and, in the case of a redemption of Registered Notes, the Registrar or such lesser period specified in the applicable Final Terms,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms (the **Optional Redemption Date** and **Optional Redemption Amount** respectively) together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. In the event of a redemption of some only of the Notes such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot in accordance with applicable Spanish law requirements, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) in the case of Redeemed Notes represented by a Global Note, or in the case of Redeemed Notes that are represented by Book-Entry Notes, the rules of Iberclear or the Book-Entry Depository (as the case may be), not more than 30 days prior to the date fixed for redemption (or such lesser period specified in the applicable Final Terms) (such date of selection being hereinafter called the **Selection Date**). In the case of

Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with General Condition 13 not less than 15 days prior to the date fixed for redemption (or such lesser period specified in the applicable Final Terms). No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this General Condition 6.3 and notice to that effect shall be given by the Issuer to the Noteholders in accordance with General Condition 13 at least five days prior to the Selection Date. The aggregate nominal amount of Redeemed Notes represented by Definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of Definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a Global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this General Condition 6.3 and notice to that effect shall be given by the Issuer to the Noteholders in accordance with General Condition 13 at least five days prior to the Selection Date.

In the case of Redeemed Notes represented by Book-Entry Notes, a list of the ISIN codes of such Redeemed Notes will be published in accordance with General Condition 13 not less than 15 day's prior to the date fixed for redemption (or such lesser period as may be specified in the applicable Final Terms).

6.4 Redemption at the option of the Noteholders (Investor Put)

If Investor Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with General Condition 13 not less than 15 nor more than 30 days' notice (or such lesser period specified in the applicable Final Terms) (which notice shall be irrevocable) the Issuer will, upon the expiry of such notice, redeem in whole but not in part, subject to, and in accordance with, the terms specified in the applicable Final Terms, such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. It may be that before an Investor Put can be exercised, certain conditions and/or circumstances will need to be satisfied. Where relevant, the provisions will be set out in the applicable Final Terms. To exercise the right to require redemption of this Note the holder of this Note must if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg deliver at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed. If the Note is in definitive bearer form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being

given on his instruction by Euroclear or Clearstream, Luxembourg or any common depository for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time, and, if this Note is a Bearer Note represented by a global Note, at the same time present or procure the presentation of the relevant global Note to the Principal Paying Agent for notation accordingly. If the Note is represented by a Book-Entry Note held through Iberclear, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Iberclear (which may include notice being given on his instruction by Iberclear, or any Iberclear member to the Principal Paying Agent by electronic means) in a form acceptable to Iberclear from time to time. In the case of a Book-Entry Note held through a Book-Entry Depository, to exercise the right to require redemption of the Note, the holder of the Note must within the notice period, give notice to the Principal Paying Agent and the Spanish Paying Agent in accordance with the procedures agreed with such Book-Entry Depository.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear, and/or Clearstream Luxembourg and/or Iberclear given by a holder of any Note pursuant to this General Condition 6.4 shall be irrevocable except where prior to the due date of redemption an Event of Default has occurred and is continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this General Condition 6.4 and instead to declare such Note forthwith due and payable pursuant to General Condition 9.

6.5 Early Redemption Amounts

For the purpose of General Condition 6.2 above and General Condition 9, each Note will be redeemed at its Early Redemption Amount which will be calculated as follows:

- (a) for any Note which is not a Reference Item Linked Note:
 - (i) in the case of a Note with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
 - (ii) in the case of a Note (other than a Zero Coupon Note but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount; or
 - (iii) in the case of a Zero Coupon Note, at an amount (the **Amortised Face Amount**) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price;

AY means the Accrual Yield expressed as a decimal; and

y is a fraction the numerator of which is equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360,

or on such other calculation basis as may be specified in the applicable Final Terms.

- (b) for any Reference Item Linked Note, the Early Redemption Amount in respect of each nominal amount of Notes equal to the Calculation Amount which in the determination of the Calculation Agent represents the fair market value of such Notes (taking into account all factors which the Calculation Agent determines relevant) less Associated Costs (as defined below), and provided that, in the case of an early redemption following the occurrence of an Event of Default, no account shall be taken of the financial condition of the Issuer or the Guarantor, which shall each be presumed to be able to perform fully its obligations in respect of the Notes,

or, in either case, on such other calculation basis as may be specified in the applicable Final Terms.

As used in this General Condition 6.5:

Associated Costs means an amount per nominal amount of the Notes equal to the Calculation Amount equal to such Notes' pro rata share of the total amount of any and all costs associated or incurred by the Issuer, any Affiliate and/or Hedging Party in connection with such early redemption, including, without limitation, any costs associated with unwinding any funding relating to the Notes and any costs associated with unwinding any hedge positions relating to the Notes, all as determined by the Calculation Agent.

Hedging Party means the Issuer and/or any Affiliate and/or any other party which conducts hedging arrangements in respect of the Issuer's obligations under the Notes from time to time. Such hedging arrangements may be carried out on a portfolio basis (i.e. where the hedging party maintains arrangements for hedging the Notes together with other obligations of the Issuer or its Affiliates).

6.6 Instalments

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to General Condition 6.5 above.

6.7 Partly Paid Notes

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Final Terms.

6.8 Purchases

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Senior Notes (provided that, in the case of definitive Bearer Notes, all unmaturing Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open

market or otherwise. Senior Notes purchased as aforesaid may, at the option of the Guarantor, be held, reissued, resold or surrendered to any Paying Agent and/or the Registrar for cancellation except that all Senior Notes purchased by the Issuer must be surrendered for cancellation.

6.9 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to General Condition 6.8 above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

6.10 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to General Conditions 6.1, 6.2, 6.3 or 6.4 above or upon its becoming due and repayable as provided in General Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in General Condition 6.5(a)(iii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Principal Paying Agent or the Registrar and notice to that effect has been given to the Noteholders in accordance with General Condition 13.

7. TAXATION

All payments of principal and interest in respect of the Notes, Receipts and Coupons by the Issuer or the Guarantor will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the Kingdom of Spain or any political subdivision or authority thereof or therein having the power to tax (Spain) unless such withholding or deduction is required by law. In such event the Issuer or, as the case may be, the Guarantor will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with Spain other than the mere holding of such Note, Receipt or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional

amount on presenting the same for payment on such 30th day assuming that day to have been a Payment Day (as defined in General Condition 5.8); or

- (c) presented for payment by or on behalf of a holder who would not be liable or subject to the withholding or deduction by making a declaration concerning the nationality, residence or identity of the holder (or providing information, documentation or other evidence of the same) or other similar claim for exemption to the relevant tax authority or to (or on behalf of) the Issuer; or
- (d) in case of Notes where such withholding tax is imposed on payments made to individuals with tax residence in Spain following the criteria held by the Spanish Tax Authorities in relation to article 44.5 Royal Decree 1065/2007 of July 27, as amended by Royal Decree 1145/2011 of July 29; or
- (e) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (f) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

In these Conditions, the **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with General Condition 13.

See “Taxation – Disclosure of Noteholder Information in connection with Interest Payments” for a fuller description of certain tax considerations (particularly in relation to holders which are resident in Spain) relating to the Notes, the formalities which holders must follow in order to claim exemption from withholding tax and for a description of certain disclosure requirements imposed on the Guarantor relating to the identity and tax residence of holders of Notes. Holders should note that if certain required information is not supplied in a timely fashion, they will not receive the full amount of interest due but may be entitled to obtain a refund of amounts withheld. See “Taxation”.

8. PRESCRIPTION

Claims for payment in respect of Notes (whether in bearer, registered or book-entry form), Receipts and Coupons will become void unless made within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in General Condition 7) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or General Condition 5.3 or any Talon which would be void pursuant to General Condition 5.3.

9. EVENTS OF DEFAULT

- (f) the Issuer or the Guarantor is adjudicated or found bankrupt or insolvent, or any order of any competent court or administrative agency is made for, or any resolution is passed by the Issuer or the Guarantor to apply for, judicial composition proceedings with its creditors or for the appointment of a receiver or trustee or other similar official in insolvency proceedings in relation to the Issuer or the Guarantor or of a substantial part of the assets of either of them (unless, in the case of an order for a temporary appointment, such appointment is discharged within 30 days); or

- (j) the Guarantee ceases to be, or is claimed by the Guarantor not to be, in full force and effect,

then (i) the holder of any Note may declare such Note or (ii) the Representative, acting on the instructions of the Syndicate of Noteholders, may (if then permitted by applicable Spanish law) declare all the Notes, in each case by written notice to the Issuer at the specified office of the Principal Paying Agent or the Registrar, as the case may be, effective upon the date of receipt thereof by the Principal Paying Agent or the Registrar, as the case may be, (in the case of paragraph (d) and, in relation to the Issuer only, (f) and (g) above, only if then permitted by applicable Spanish Law) to be forthwith due and payable, whereupon the same shall become immediately due and payable at its Early Redemption Amount (as described in General Condition 6.7), together with accrued interest (if any) to the date of repayment.

In these Conditions:

Capital Markets Indebtedness means any loan or other indebtedness of any person (other than Project Finance Indebtedness) which is in the form of or represented by any bonds, notes, depositary receipts or other securities for the time being quoted or listed, with the agreement of the Issuer and/or the Guarantor, on any stock exchange.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of any Agent (including in circumstances where any Paying Agent or Registrar fails to become, or ceases to be, a Participating FFI) and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:

- (a) there will at all times be a Principal Paying Agent, a Spanish Paying Agent and a Registrar;

In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Noteholders, Receiptholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which an Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become a successor agent.

17. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders, the Receiptholders or the Couponholders create and issue further Notes having the same terms and conditions as the Notes (or in all respects save for the amount and date of the first payment of interest thereon) so as to form a single Series with the outstanding Notes.

18. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

19. GOVERNING LAW AND SUBMISSION TO JURISDICTION

19.2 Submission to jurisdiction

The Issuer agrees, for the benefit of the Noteholders, the Receiptholders and the Couponholders, that the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Notes, the Receipts and/or the Coupons (including a dispute relating to any non-contractual obligations arising out of or in connection with the Notes, the Receipts and/or the Coupons) and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of, or in connection with, the Notes, the Receipts and the Coupons (including any Proceedings relating to any non-contractual obligations arising out of or in connection with the Notes, the Receipts and the Coupons) may be brought in such courts.

The Issuer hereby irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any such Proceedings in any such court and any claim that any such Proceedings have been brought in an inconvenient forum and hereby further irrevocably agrees that a judgment in any such Proceedings brought in the English courts shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

ANNEX 1

ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED NOTES

*If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Index Linked Notes shall comprise the Terms and Conditions of the Notes set out on page 128 (the **General Conditions**) and the Additional Terms and Conditions for Index Linked Notes set out below (the **Index Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Index Linked Conditions, the Index Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means:-

- (a) in respect of a Composite Index either:
 - (i) (a) the occurrence or existence, in respect of any Component Security, of:
 - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event begins or ends at the time when the level of such Index would trigger respectively the Knock-in Event or the Knock-out Event or (b) in all other circumstances ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
 - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event begins or ends at the time when the level of such Index would trigger respectively the Knock-in Event or the Knock-out Event or (b) in all other circumstances ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
 - (3) an Early Closure in respect of such Component Security; and
 - (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of such Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to such Index, of: (1) a Trading Disruption; (2) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a

Knock-in Event or a Knock-out Event begins or ends at the time when the level of such Index would trigger respectively the Knock-in Event or the Knock-out Event or (b) in all other circumstances ends at the Valuation Time in respect of the Related Exchange; or (3) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market opening data; and

- (b) in the case of Indices other than Composite Indices, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event begins or ends at the time when the level of such Index triggers respectively the Knock-in Level or the Knock-out Level or (b) in all other circumstances ends at the relevant Valuation Time, or (iii) an Early Closure.

For the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs in respect of a security included in such Index at any time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been the Strike Date, an Averaging Date, an Observation Date, an Automatic Early Redemption Valuation Date or a Valuation Day, as the case may be, or on any Knock-in Determination Day or Knock-out Determination Day, as the case may be.

2. Adjustments to an Index

- (a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the **Successor Index Sponsor**) acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the Index.

- (b) Modification and Cessation of Calculation of an Index

If (i) on or prior to the last Averaging Date, last Observation Date, last Valuation Date, the last Knock-in Determination Day, the last Knock-out Determination Day, the last Strike Date, or the last Automatic Early Redemption Valuation Date, the

relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an **Index Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**), or (ii) on an Averaging Date, an Observation Date, a Valuation Date, a Strike Date, an Automatic Early Redemption Date, a Valuation Date, a Knock-in Determination Day or Knock-out Determination Day, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an **Index Disruption** and, together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**), then:

- (i) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Settlement Price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date, Observation Date, Averaging Date, a Strike Date, Automatic Early Redemption Date, a Valuation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (ii) unless Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, on giving notice to Noteholders in accordance with General Condition 13, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of a Note taking into account the Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
- (iii) if Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Index Adjustment Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Index Adjustment Amount**) as soon as practicable following the occurrence of the Adjustment Event (the **Calculated Index Adjustment Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Index Adjustment Amount plus interest accrued on the Calculated Index Adjustment Amount on a daily basis from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, at its nominal amount.

(c) Notice

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (b) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Noteholders copies of any such determinations.

3. Correction of Index

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Notes calculated by reference to the level of an Index, if the relevant level of the Index published on a given day which is used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor, (i) in respect of a Composite Index, no later than five Exchange Business Days following the date of the original publication or, (ii) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Notes calculated by reference to the level of the Index will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

4. Additional Disruption Events

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i), (ii) or (if applicable) (iii) below:
- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, redeem the Notes by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
 - (iii) if Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Additional Disruption Amount**) as soon as practicable following the occurrence of the Additional Disruption Event (the **Calculated Additional Disruption Amount Determination Date**) and on the Maturity Date shall

redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Additional Disruption Amount plus interest accrued on the Calculated Additional Disruption Amount on a daily basis from and including the Calculated Additional Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, at its nominal amount.

- (b) Upon the occurrence of an Additional Disruption Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

5. **Knock-in Event and Knock-out Event**

- (a) If **Knock-in Event** is specified as applicable in the applicable Final Terms, then, unless otherwise specified in such Final Terms, payment under the relevant Notes subject to a Knock-in Event shall be subject to the condition precedent that a Knock-in Event has occurred.
- (b) If **Knock-out Event** is specified as applicable in the applicable Final Terms, then, unless otherwise specified in such Final Terms, payment under the relevant Notes subject to a Knock-out Event shall be subject to the condition precedent that a Knock-out Event has not occurred.

- (b) in the case of a Composite Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to any Component Security on the Exchange in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

Valuation Date means the Coupon Valuation Date and/or the Redemption Valuation Date, as the case may be, specified in the applicable Final Terms or, if such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If such day is a Disrupted Day, then:

- (a) in the case of Index Linked Notes relating to a single Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date is a Disrupted Day. In that case, (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the Settlement Price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the Settlement Price by determining the level of the Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has

occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day); or

- (b) in the case of Index Linked Notes relating to a Basket of Indices, the Valuation Date for each Index, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of any Index forming part of the Basket of Indices unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the Scheduled Valuation Date is a Disrupted Day in respect of Index of the Basket of Indices. In that case, (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Valuation Date for each Index of the Basket of Indices, notwithstanding the fact that such day is a Disrupted Day with respect to any Index, and (ii) the Calculation Agent shall determine the Settlement Price using, in relation to the relevant affected Index, the level or value as applicable, determined in the manner set out in the applicable Final Terms, or, if not set out or if not practicable, using the level of that Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day) and otherwise in accordance with the above provisions; and

Valuation Time means:

- (a) the Coupon Valuation Time or the Valuation Time, as the case may be, specified in the applicable Final Terms; or
- (b) if not specified in the applicable Final Terms
 - (i) in the case of a Composite Index, means in respect of such Index: (A) for the purposes of determining whether a Market Disruption Event has occurred: (x) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (y) in respect of any options contracts or futures contracts on the Index, the close of trading on the Related Exchange; and (B) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor; or
 - (ii) in the case of any Index which is not a Composite Index, means the Scheduled Closing Time on the Exchange on the relevant date. If the Exchange closes prior to its Scheduled Closing Time and the specified Coupon Valuation Time or Valuation Time, as the case may be, is after the actual closing time for its regular trading session, then the Coupon Valuation Time or Valuation Time, as the case may be, shall be such actual closing time.

Weighting means the weighting to be applied to each item comprising the Basket of Indices as specified in the applicable Final Terms.

ANNEX 2

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

*If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Equity Linked Notes shall comprise the Terms and Conditions of the Notes set out on page 128 (the **General Conditions**) and the Additional Terms and Conditions for Equity Linked Notes set out below (the **Equity Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Equity Linked Conditions, the Equity Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Equity Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Market Disruption

Market Disruption Event means, in relation to Equity Linked Notes relating to a single Share or a Basket of Shares, in respect of a Share, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent in its sole and absolute discretion, determines is material, at any time during the one hour period that (a) for the purposes of the occurrence of a Knock-in Event or a Knock-out Event, begins or ends at the time when the level of the relevant Share triggers respectively the occurrence of the Knock-in Event or the Knock-out Event or (b) in all other circumstances that ends at the relevant Valuation Time, or (iii) an Early Closure.

The Calculation Agent shall give notice as soon as practicable to the Issuer, the Guarantor, the Principal Paying Agent and the Noteholders in accordance with General Condition 13 of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been the Strike Date, an Averaging Date, an Observation Date, an Automatic Early Redemption Valuation Date or a Valuation Date, as the case may be, or on a Knock-in Determination Day or a Knock-out Determination Day, as the case may be.

2. Potential Adjustment Events and Extraordinary Events

(a) Potential Adjustment Events

Potential Adjustment Event means any of the following:

- (i) a subdivision, consolidation or reclassification of relevant Shares (unless resulting in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Shares of (a) such Shares or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Basket Company or Share Company, as the case may be, equally or proportionately with such payments to holders of such Shares or (c) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Basket Company or Share Company, as the case may be, as a result of a spin-off or other similar transaction or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;

- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a call by a Basket Company or Share Company, as the case may be, in respect of relevant Shares that are not fully paid;
- (v) a repurchase by the Basket Company or its subsidiaries or Share Company or its subsidiaries, as the case may be, of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of a Basket Company or Share Company, as the case may be, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Basket Company or Share Company, as the case may be, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, certificates, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
- (vii) any adjustment effected as a result of any shareholder rights plan or arrangement as described in (vi) above; or
- (viii) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

Potential Adjustment Event Effective Date means, in respect of a Potential Adjustment Event, the date on which such Potential Adjustment Event is announced by the relevant Basket Company or Share Company, as the case may be, as determined by the Calculation Agent in its sole and absolute discretion.

Following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will (i) make the corresponding adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13, stating the adjustment to any Relevant Asset and/or the Entitlement (where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms and giving brief details of the Potential Adjustment Event and the Potential Adjustment Event Effective Date.

(b) Extraordinary Events

- (A) The occurrence of any of De-Listing, Insolvency, Merger Event, Nationalisation, Tender Offer (unless Tender Offer is specified as not applicable in the applicable Final Terms), or, if specified as applicable in the applicable Final Terms, Illiquidity, Listing Change or Listing Suspension, as the case may be, shall be deemed to be an **Extraordinary Event**, the consequences of which are set forth in Equity Linked Condition 2(b)(B) below:

De-Listing means, in respect of any relevant Shares, that the Exchange announces pursuant to the rules of such Exchange, that such Shares cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on (i) where the Exchange is located in the United States, any of the New York Stock Exchange, the American Stock Exchange or the NASDAQ National Market System (or their respective successors) or (ii) a comparable exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in a member state of the European Union).

Illiquidity means, in respect of Equity Linked Notes that, in the determination of the Calculation Agent, during any period of five consecutive Scheduled Trading Days falling after the Issue Date (the **Relevant Period**), (a) the difference between the bid prices and the ask prices in respect of any relevant Share during the Relevant Period is greater than 1% (on average), and/or (b) the average purchase price or the average selling price, (each of (a) and (b) determined by the Calculation Agent from the order book of the relevant Share on the relevant Exchange during the Relevant Period), in relation to the purchase or sale of Shares with a value equal to or greater than EUR 10,000.00, is greater than MID plus 1% of MID (in relation to a purchase of Shares) or lower than the MID minus 1% of MID (in relation to a sale of Shares). For these purposes, **MID** means an amount equal to (a) the sum of the bid price and the ask price, in each case for the relevant Share at the relevant time, (b) divided by two.

Insolvency means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Basket Company or Share Company, as the case may be, (i) all the Shares of that Basket Company or Share Company, as the case may be, are required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Shares of that Basket Company or Share Company, as the case may be, become legally prohibited from transferring them.

Listing Change means, in respect of any relevant Shares, that such Shares cease (or will cease) to be listed, traded or publicly quoted on the listing compartment or the relevant market of the Exchange on which such Shares were listed, traded or publicly quoted on the Issue Date, for any reason (other than a Merger Event or Tender Event or where this is a De-Listing).

Listing Suspension means, in respect of any relevant Shares, that the listing of such Shares on the Exchange has been suspended (other than where this is a De-Listing).

Merger Event means, in respect of any relevant Shares, any (i) reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person, (ii) consolidation,

amalgamation, merger or binding share exchange of a Basket Company or Share Company, as the case may be, with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Basket Company or Share Company, as the case may be, is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Basket Company or Share Company, as the case may be, that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Basket Company or its subsidiaries or the Share Company or its subsidiaries, as the case may be, with or into another entity in which the Basket Company or Share Company, as the case may be, is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event, in each case if the relevant Extraordinary Event Effective Date is on or before (a) in the case of Cash Settled Notes, the latest of the last occurring Valuation Date, Strike Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day or, where Averaging is specified in the applicable Final Terms, the final Averaging Date or (b) in the case of Physical Delivery Notes, the relevant Maturity Date.

Nationalisation means that all the Shares or all or substantially all the assets of the Basket Company or Share Company, as the case may be, are nationalised, expropriated or are otherwise transferred to any governmental agency, authority, entity or instrumentality thereof.

Tender Offer means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 30 per cent. and less than 100 per cent. (the **Percentage Range**) of the outstanding voting shares of the Basket Company or Share Company, as the case may be, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

(B) Consequences of the occurrence of an Extraordinary Event:

If an Extraordinary Event occurs in relation to a Share, the Issuer in its sole and absolute discretion may take the action described in (i), (ii), (iii), (iv) (if applicable), (v) or, in the case of Notes relating to a Basket of Shares only, (vi) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the relevant Extraordinary Event, and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to

account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event made by any options exchange to options on the Shares traded on that options exchange. In addition, in relation to a Basket of Shares, the Calculation Agent may adjust the Basket of Shares in accordance with the provisions of sub-paragraph (vi) below;

- (ii) in the case of Equity Linked Notes relating to a Basket of Shares, redeem the Notes in part by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed in part the portion (the **Redeemed Amount**) of each Note representing the affected Share(s) shall be redeemed and the Issuer will:
 - (A) pay to each Noteholder in respect of each Note held by him an amount equal to the fair market value of the Redeemed Amount, taking into account the relevant Extraordinary Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion; and
 - (B) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for such redemption in part. For the avoidance of doubt the remaining part of each Note after such cancellation and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13;
- (iii) unless Delayed Redemption on the Occurrence of an Extraordinary Event is specified as being applicable in the applicable Final Terms, on giving notice to Noteholders in accordance with General Condition 13, redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of a Note taking into account the relevant Extraordinary Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13;
- (iv) if Delayed Redemption on the Occurrence of an Extraordinary Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the relevant Extraordinary Event, less the cost to

the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Extraordinary Event Amount**) as soon as practicable following the occurrence of the relevant Extraordinary Event (the **Calculated Extraordinary Event Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Extraordinary Event Amount plus interest accrued on the Calculated Extraordinary Event Amount on a daily basis from and including the Calculated Extraordinary Event Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its nominal amount;

- (v) following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as the Issuer in its sole discretion shall select (the **Options Exchange**), require the Calculation Agent to make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (vi) on or after the relevant Extraordinary Event Effective Date, the Calculation Agent may adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each, a **Substitute Share**) for each Share (each, an **Affected Share**) of each Basket Company (each, an **Affected Basket Company**) which is affected by such Extraordinary Event and the Substitute Share will be deemed to be a **Share** and the issuer of such shares, a **Basket Company** for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to an initial price (the **Initial Price**) of the Affected Share,

the relevant Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where

A is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

B is the Initial Price of the relevant Affected Share; and

C is the fair market value of the relevant Affected Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant Extraordinary Event Effective Date.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must satisfy the following criteria, in the sole and absolute discretion of the Calculation Agent:

- (a) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and the relevant share is not already included in the Basket of Shares, the relevant share shall be an ordinary share of the entity or person (other than the Affected Basket Company) involved in the Merger Event or the making of the Tender Offer, that is, or that as of the relevant Extraordinary Event Effective Date (i) is promptly scheduled to be, publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (ii) is not subject to any currency exchange controls, trading restrictions or other trading limitations; or
- (b) where (a) above does not apply, including in the case of an Extraordinary Event other than a Merger Event or a Tender Offer:
 - 1. the issuer of the share shall, to the extent possible, belong to the same economic sector as the Affected Basket Company and shall not already be included in the Basket of Shares; and

2. the issuer of the share shall, to the extent possible, have a comparable market capitalisation, international standing and exposure as the Affected Basket Company in respect of the Affected Share.

Upon the occurrence of an Extraordinary Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto, including, in the case of a Share Substitution, the identity of the Substitute Shares and the Substitution Date, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Extraordinary Event.

3. Correction of Share Price

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Notes calculated by reference to the price of a Share, if the relevant price of the relevant Share published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Exchange within the number of days equal to the Share Correction Period of the original publication, the price to be used shall be the price of the relevant Share as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Notes calculated by reference to the price of a Share will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

4. Additional Disruption Events

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i), (ii) or if applicable (iii) or, in the case of Notes linked to a Basket of Shares only, (iv) below:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case with respect to Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, redeem the Notes by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole

and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or

- (iii) if Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Additional Disruption Amount**) as soon as practicable following the occurrence of the Additional Disruption Event (the **Calculated Additional Disruption Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Additional Disruption Amount plus interest accrued on the Calculated Additional Disruption Amount on a daily basis from and including the Calculated Additional Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater its nominal amount; or
- (iv) in the case of Notes linked to a Basket of Shares, the Calculation Agent may adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each a **Substitute Share**) for each Share (each an **Affected Share**) which is affected by the Additional Disruption Event and the Substitute Share will be deemed to be a **Share** and the issuer of such shares a **Basket Company** for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to an initial price (the **Initial Price**) of the Affected Share, the Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

A is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

B is the Initial Price of the relevant Affected Share; and

C is the fair market value of the relevant Affected Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant date of the Additional Disruption Event.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:

1. is not already included in the Basket of Shares;
 2. the Issuer of such share belongs to the same economic sector as the Basket Company in respect of the Affected Share; and
 3. the Issuer of such share has a comparable market capitalisation, international standing and exposure as the Basket Company in respect of the Affected Share.
- (b) Upon the occurrence of an Additional Disruption Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer as soon as practicable and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto.

5. **Knock-in Event and Knock-out Event**

- (a) If **Knock-in Event** is specified as applicable in the applicable Final Terms, then, unless otherwise specified in such Final Terms, payment and/or delivery, as applicable, under the relevant Notes subject to a Knock-in Event shall be subject to a condition precedent that the Knock-in Event has occurred.
- (b) If **Knock-out Event** is specified as applicable in the applicable Final Terms, then unless otherwise specified in such Final Terms payment and/or delivery, as applicable, under the relevant Notes subject to a Knock-out Event shall be subject to a condition precedent that the Knock-out Event has not occurred.
- (c) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Final Terms is the Valuation Time and if on any Knock-in Determination Day or Knock-out Determination Day at any time during the one hour period that begins or ends at the Valuation Time a Knock-in Event or a Knock-out Event would otherwise have occurred and a Trading Disruption, Exchange Disruption or Early Closure occurs or exists, then the Knock-in Event or the Knock-out Event shall be deemed not to have occurred; provided that if, by operation of this provision, no Knock-in Determination Day or Knock-out Determination Day would occur in the Knock-in Determination Period or Knock-out Determination Period, the Knock-in Period Ending Date or Knock-out Period Ending Date shall be treated as a Valuation Date and the Calculation Agent shall determine the price of each affected Share as at the Knock-in Valuation Time or Knock-out Valuation Time in accordance with the provisions contained in the definition of Valuation Date.
- (d) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Final Terms is any time or period of time other than the Valuation Time during the regular trading hours on the relevant Exchange and if on any Knock-in Determination Day or Knock-out Determination Day and at any time during the one hour period that begins or ends at the time at which the price of the Share triggers the Knock-in Event or the Knock-out Event would otherwise have occurred, a Trading

Disruption, Exchange Disruption or Early Closure occurs or exists, then the Knock-in Event or the Knock-out Event shall be deemed not to have occurred, provided that if, by operation of this provision no Knock-in Determination Day or Knock-out Determination Day would occur in the Knock-in Determination Period or Knock-out Determination period, the Knock-in Period Ending Date or Knock-out Period Ending Date shall be treated as a Valuation Date and the Calculation Agent shall determine the price of each affected Share as at the Knock-in Valuation Time or Knock-out Valuation Time in accordance with the provisions contained in the definition of Valuation Date.

In the event of any inconsistency between (i) the General Conditions and/or the Inflation Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail. In the event of any inconsistency in the provisions of Inflation Linked Condition 3 and the other provisions of these Inflation Linked Conditions, the provisions of Inflation Linked Condition 3 shall prevail.*

1. DELAY IN PUBLICATION

If the Calculation Agent determines that a Delayed Index Level Event in respect of an Index has occurred, then the Relevant Level with respect to any Reference Month which is to be utilised in any calculation of any payment under the Notes and/or any other determination to be made in respect of the Notes (the **Substitute Inflation Index Level**) shall be determined by the Calculation Agent (subject to Inflation Linked Condition 3(ii) below), as follows:

- (a) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond; or
- (b) if (i) Related Bond is not specified as applicable in the relevant Final Terms, or (ii) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (a) above for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

Substitute Inflation Index Level = Base Level × (Latest Level/Reference Level); or

- (c) otherwise in accordance with any formula or method specified in the relevant Final Terms,

where:

Base Level means the level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

Latest Level means the latest level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

Reference Level means the level of the Index (excluding any “flash” estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in “Latest Level” above.

The Issuer shall promptly give notice to Noteholders in accordance with General Condition 13 of any Substitute Inflation Index Level calculated pursuant to this Inflation Linked Condition 1.

If the Relevant Level is published or announced at any time on or after the relevant Cut-Off Date specified in the applicable Final Terms, then, subject as provided in Inflation Linked Condition 3 such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Condition 1 will be the definitive level for that Reference Month.

2. SUCCESSOR INDEX

If the Calculation Agent determines that the level of an Index has not been published by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Index and/or the Index Sponsor cancels the Index then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Index) for the purposes of the Notes as follows:

- (a) if Related Bond is specified as applicable in the applicable Final Terms, the Calculation Agent shall determine a Successor Index by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (b) if (x) Related Bond is not specified as applicable in the applicable Final Terms or (y) a Related Bond Redemption Event is specified as applying in the applicable Final Terms and has occurred and Fallback Bond is not specified as applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Index but that it will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be deemed the Successor Index for the purposes of the Notes from the date that such replacement Index comes into effect;
- (c) if no Successor Index has been determined under paragraphs (a) or (b) above the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the Successor Index. If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the Successor Index. If fewer than three responses are received by the Cut-Off Date or no Successor Index is determined pursuant to this provision, the Calculation Agent will apply the provisions of paragraph (d) below;
- (d) if no Successor Index has been determined pursuant to paragraphs (a), (b) or (c) above, by the next occurring Cut-Off Date, subject as provided below, the Calculation Agent will determine an appropriate alternative index as of such Cut-Off Date for such affected Determination Date, and such index will be deemed a Successor Index for the purposes of the Notes; or
- (e) if the Calculation Agent cannot determine an appropriate alternative index pursuant to sub-paragraphs (a) to (d) above, there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Index for the purposes of the Notes. Notice of the determination of a Successor Index, the effective date of the Successor Index or the occurrence of an Index Cancellation will be given to Noteholders by the Issuer in accordance with General Condition 13.

3. ADJUSTMENTS

(a) Successor Index

If a Successor Index is determined in accordance with Inflation Linked Condition 2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary to account for this. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with General Condition 13.

(b) Substitute Inflation Index Level

If the Calculation Agent determines a Substitute Inflation Index Level in accordance with Inflation Linked Condition 1, the Issuer may make any adjustment or adjustments (without limitation) to (x) the Substitute Inflation Index Level determined in accordance with Index Linked Condition 1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with General Condition 13.

(c) Index Level Adjustment Correction

- (i) The first publication or announcement of the Relevant Level (excluding any “flash” or other estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Inflation Linked Condition 3(b) and (c) below, later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National- Revised Consumer Price Index (CPI) and the ESP-Harmonised-Revised Consumer Price Index HCPI, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Determination Date will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive Relevant Level for such Reference Month. The Issuer shall give notice to the Noteholders of any valid revision in accordance with General Condition 13.
- (ii) If, within 30 days of publication or at any time prior to a Determination Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Determination Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. The Issuer shall give notice to the Noteholders of any such adjustment and/or amount in accordance with General Condition 13.

- (iii) If a Relevant Level is published or announced at any time after the Cut-Off Date in respect of a Determination Date in respect of which a Substitute Inflation Index Level was determined, the Calculation Agent may either (A) determine that such Relevant Level shall not be used in any calculation or determination under the Notes and that the Substitute Inflation Index Level shall be deemed to be the definitive Relevant Level for the relevant Reference Month, or (B) request the Issuer to make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. The Issuer shall give notice to the Noteholders of any determination in respect of (A) or (B), together with any adjustment or amount in respect thereof, in accordance with General Condition 13.

(d) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency (whether relating to its convertibility; into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to any amount payable under the Notes, and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer), the Issuer may make such adjustment or adjustments to such amount and/or any other relevant term of the Notes as the Calculation Agent deems necessary. The Calculation Agent shall give notice to the Noteholders of any such adjustment in accordance with General Condition 13.

(e) Rebasing

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the **Rebased Index**) will be used for purposes of determining the Relevant Level from the date of such rebasing; provided, however, that the Calculation Agent may make (A) if Related Bond is specified as applicable in the relevant Final Terms, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as before the rebasing, and/or (B) if Related Bond is not specified as applicable in the relevant Final Terms or a Related Bond Redemption Event has occurred, the Calculation Agent may make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased and in each case the Issuer may make any adjustment(s) to any amount payable under the Notes and/or any other term of the Notes as the Calculation Agent may deem necessary. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Calculation Agent may redeem each Note on a date notified by the Issuer to Noteholders in accordance with General Condition 13 at its fair market value as determined by the Calculation Agent as at the date of redemption taking into account the rebasing, less the cost to the Issuer and/or its Affiliates of unwinding or amending any related underlying hedging arrangements. Notice of any adjustment, redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with General Condition 13.

(f) Index Modification

- (i) If on or prior to the Cut-Off Date in respect of any Determination Date, the Calculation Agent determines that an Index Modification has occurred the Calculation Agent may (A) if Related Bond is specified as applicable in the

applicable Final Terms, make any adjustments to any Relevant Level and/or any other relevant term of the Notes (including, without limitation, any amount payable under the Notes), consistent with any adjustments made to the Related Bond as the Calculation Agent deems necessary, or (B) if Related Bond is not specified as applicable in the Final Terms or a Related Bond Redemption Event has occurred make only those adjustments to the Index, any Relevant Level and/or any other term of the Notes (including, without limitation, any amount payable under the Notes), as the Calculation Agent deems necessary for the modified Index to continue as the Index and to account for the economic effect of the Index Modification.

- (ii) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-Off Date in respect of any Determination Date, the Calculation Agent may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Determination Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Determination Date such that the provisions of subparagraph (i) above will apply, or, notwithstanding that the Index Modification has occurred following the Cut-Off Date, to make any adjustments as the Calculation Agent deems fit in accordance with subparagraph (i) above.

(g) Consequences of an Additional Disruption Event

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may make any adjustments to any Relevant Level and/or any other relevant term of the Notes (including, without limitation, any amount payable under the Notes to account therefor or may redeem each Note on the date notified by the Issuer to Noteholders in accordance with General Condition 13 at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the relevant Additional Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding or amending any related underlying hedging arrangements. Notice of any redemption of the Notes shall be given to Noteholders in accordance with General Condition 13.

(h) Index Cancellation

If the Calculation Agent determines that an Index Cancellation has occurred, the Issuer may make any adjustments to any Relevant Level and/or any other relevant term of the Notes (including, without limitation, any amount payable under the Notes to account therefore) or may redeem each Note on the date notified by the Issuer to Noteholders in accordance with General Condition 13 at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Index Cancellation, less the cost to the Issuer and/or any Affiliates of unwinding or amending any related underlying hedging arrangements. Notice of any redemption of the Notes pursuant to this paragraph shall be given to Noteholders in accordance with General Condition 13.

4. DEFINITIONS

Determination Date means each originally scheduled date for payment or any other relevant determination in relation to the Notes in each case by reference to an Index and/or Index Level(s) or value(s).

Fallback Bond means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Index relates and which pays a coupon or redemption amount which is calculated by reference to the Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds in its discretion. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Hedging Disruption means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk of the Issuer issuing and performing its obligations with respect to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

Index means the index or indices specified in the relevant Final Terms or any Successor Index as determined by the Calculation Agent pursuant to Inflation Linked Condition 2 and related expressions shall be construed accordingly.

Index Cancellation means a level for the Index has not been published or announced for two consecutive months and/or the Index Sponsor cancels the Index and/or the Index Sponsor announces that it will no longer continue to publish or announce the Index and no Successor Index exists.

Related Bond means the bond (if any) specified as such in the relevant Final Terms. If the Related Bond specified in the applicable Final Terms is Fallback Bond, then for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and “Fallback Bond Not applicable” is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the relevant Determination Date, unless “Fallback Bond Not applicable” is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

Related Bond Redemption Event means, if specified as applicable in the relevant Final Terms, at any time prior to the Maturity Date, (a) the Related Bond is redeemed, repurchased or cancelled, (b) the Related Bond becomes repayable prior to its stated date of maturity for whatever reason, or (c) the issuer of the Related Bond announces that the Related Bond will be redeemed, repurchased or cancelled prior to its stated date of maturity.

Relevant Level has the meaning given to it in the definition of Delayed Index Level Event.

Successor Index has the meaning given to it in under Inflation Linked Condition 2 above.

ANNEX 4

ADDITIONAL TERMS AND CONDITIONS FOR COMMODITY LINKED NOTES

*If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Commodity Linked Notes shall comprise the Terms and Conditions of the Notes set out on page 128 (the **General Conditions**) and the Additional Terms and Conditions for Commodity Linked Notes set out below (the **Commodity Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Commodity Linked Conditions, the Commodity Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Commodity Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. MARKET DISRUPTION

Market Disruption Event means, in respect of a relevant Commodity or Commodity Index and as determined by the Calculation Agent, the occurrence or existence of:

- (a) in the case of each Commodity Index and all Commodities, a Price Source Disruption, Trading Disruption, Disappearance of Commodity Reference Price; and in addition
- (b) in the case of each Commodity Index and all Commodities other than Gold, Silver, Platinum or Palladium, a Material Change in Formula, Material Change in Content, Tax Disruption and/or any additional Market Disruption Events as specified in the applicable Final Terms; and in addition
- (c) in the case of a Commodity Index, an Index Component Disruption Event.

The Calculation Agent shall give notice as soon as practicable to the Issuer, the Guarantor, the Principal Paying Agent and the Noteholders in accordance with General Condition 13 of the occurrence of a Market Disruption Event specifying the action proposed to be taken in relation thereto. In addition, the Calculation Agent shall make available for inspection by Noteholders copies of any such determinations.

2. CONSEQUENCES OF A MARKET DISRUPTION EVENT AND DISRUPTION FALLBACKS

Upon a Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent shall apply one or more applicable Disruption Fallbacks in respect of the relevant Market Disruption Event(s) in determining the consequences of the Market Disruption Event.

Disruption Fallback means a source or method that may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price or the redemption of the Notes when a Market Disruption Event occurs or exists on a day that is a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source) in respect of a relevant Commodity or Commodity Index. A Disruption Fallback is applicable if it is specified in the applicable Final Terms or, if no Disruption Fallback is specified, the Calculation Agent shall take the relevant actions specified below.

2.1 Consequences of a Disappearance of Commodity Reference Price, a Material Change in Formula, or a Material Change in Content

If, with respect to the relevant Pricing Date, the Calculation Agent considers that there is in existence (i) a Disappearance of Commodity Reference Price, or (ii) a Material Change in Formula, or (iii) a Material Change in Content, then:

- (a) the Calculation Agent shall determine if such event has a material effect on the Notes and, if so, may calculate each relevant amount payable or deliverable on the Notes using, in lieu of a published price for that Commodity or Component or Futures Contract, as the case may be, the price for that Commodity or Component or Futures Contract, as at the time specified on that Pricing Date, as determined by the Calculation Agent taking into consideration the latest available quotation for such Commodity or Component or Futures Contract, as the case may be, and any other information that in good faith it deems relevant; or
- (b) unless Delayed Redemption on Occurrence of Market Disruption Event is specified as being not applicable in the applicable Final Terms, on giving notice to Noteholders in accordance with General Condition 13, the Issuer may redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
- (c) if Delayed Redemption on Occurrence of Market Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent may calculate the fair market value of each Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Commodity Disruption Amount**) as soon as practicable following the occurrence of the Market Disruption Event (the **Calculated Commodity Disruption Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Commodity Disruption Amount plus interest accrued on the Calculated Commodity Disruption Amount from and including the Calculated Commodity Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its nominal amount.

2.2 Consequences of a Tax Disruption

If the Calculation Agent determines in good faith that a Tax Disruption has occurred or exists in respect of a Pricing Date, the Calculation Agent shall determine if such Tax Disruption has a material effect on the Notes and if so (i) shall effect any adjustments that it deems in good faith necessary to the terms and conditions of the Notes or, if it determines that such adjustments cannot be made, (ii) on giving notice to Noteholders in accordance with General Condition 13, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13.

2.3 Consequences of a Price Source Disruption and Trading Disruption

If, with respect to the relevant Pricing Date, a Price Source Disruption or Trading Disruption is in existence the Calculation Agent shall delay the determination of the affected Commodity Reference Price until the next Commodity Business Day on which such Price Source Disruption or Trading Disruption no longer exists provided that if such Price Source Disruption or Trading Disruption continues to exist on the Specified Maximum Days of Disruption following the originally Scheduled Pricing Date then the Calculation Agent shall apply the Commodity Fallback Value in order to determine the Relevant Price for that Pricing Date and each subsequent Pricing Date (if any).

2.4 Consequences of an Index Component Disruption Event

If the Calculation Agent determines that, on a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source) an Index Component Disruption Event has occurred or exists then the Calculation Agent shall determine the Relevant Price (or a method for determining the Relevant Price) for that Pricing Date and each subsequent Pricing Date (if any) as the price or level that it determines would have prevailed but for the relevant Index Component Disruption Event and may adjust such price or level to reflect any hedging costs or expenses incurred by the Issuer and/or its Affiliates in hedging exposure to such Relevant Price in connection with the relevant Index Component Disruption Event.

The relevant Final Terms may specify additional Disruption Fallback(s) that will apply.

3. CORRECTION OF COMMODITY REFERENCE PRICE

With the exception of any corrections published after the day which is three Commodity Business Days prior to the due date for any payment under the Notes calculated by reference to a Commodity Reference Price, if the Commodity Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the Commodity Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant Commodity as so corrected. Corrections published after the day which is three Commodity Business Days prior to a due date for payment under the Notes calculated by reference to a Commodity Reference Price will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

4. KNOCK-IN-EVENT AND KNOCK-OUT EVENT:

- (a) If Knock-in Event is specified as applicable in the Final Terms, then, unless otherwise specified in such Final Terms, any payment under the relevant Notes which is expressed in the applicable Final Terms to be subject to a Knock-in Event, shall be subject to the condition precedent that a Knock-in Event has occurred.
- (b) If Knock-out Event is specified as applicable in the Final Terms, then, unless otherwise specified in such Final Terms, any payment under the relevant Notes which is expressed in the applicable Final Terms to be subject to a Knock-out Event, shall be subject to the condition precedent that a Knock-out Event has not occurred.
- (c) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Final Terms is the Valuation Time and if a Market Disruption Event has

occurred on any Knock-in Determination Day or Knock-out Determination Day, then, unless otherwise specified in the applicable Final Terms, such Knock-in Determination Day or Knock-out Determination Day will be deemed not to be a Knock-in Determination Day or Knock-out Determination Day for the purposes of determining the occurrence of a Knock-in Event or a Knock-out Event.

- (d) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Final Terms is any time or period of time other than the Valuation Time during the regular trading hours on the relevant Exchange and if on any Knock-in Determination Day or Knock-out Determination Day and at any time during the one-hour period that begins or ends at the time on which the Commodity Reference Price triggers the Knock-in Level or the Knock-out Level, a Market Disruption Event occurs or exists, then, unless otherwise specified in the applicable Final Terms, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred.

A **Substitution Event** shall be deemed to have occurred if the Calculation Agent determines that any of the Extraordinary Fund Events set out in sub-paragraphs (a) to (p) (inclusive) of Fund Linked Condition 5 or any Additional Extraordinary Fund Event specified in the applicable Final Terms as being a Substitution Event occurs. Following the occurrence of a Substitution Event in respect of any Fund Share, the Calculation Agent shall:

- (i) determine the weighted average price at which an investor can redeem the affected Fund Shares in the relevant Fund in such number as determined by the Calculation Agent in its sole and absolute discretion as soon as it is reasonably practicable after its determination of the Substitution Event;
- (ii) for a period of not longer than 14 calendar days after the date of its determination of the Substitution Event, use reasonable efforts to substitute the relevant Fund Shares with shares, units or other similar interests in an alternative fund which, in the determination of the Calculation Agent, has similar characteristics to the relevant Fund, including but not limited to, comparable investment objectives, investment restrictions and investment processes and has service providers acceptable to the Calculation Agent;

- (iii) if no alternative fund can be determined pursuant to the preceding subparagraph (ii) above, use reasonable efforts to substitute the relevant Fund with an index (or a fund tracking an index) selected by the Calculation Agent in its sole and absolute discretion; and
- (iv) following any substitution in accordance with subparagraph (ii) or (iii) above (a **Substitution**), in its sole and absolute discretion amend such of the terms of the Terms and Conditions and/or the applicable Final Terms as it determines to be appropriate to take account of such Substitution, including to ensure the weighted average price referred to in (i) above (and any consequent rise or fall in value of the affected Fund Shares since the Issue Date) is reflected in the terms of the Substitution.

(b) Termination

A **Termination Event** shall be deemed to have occurred in respect to any Fund or Fund Share if any of the Extraordinary Fund Events set out in subparagraphs (q) to (u) (inclusive) of Fund Linked Condition 5 or any Additional Extraordinary Fund Event specified in the applicable Final Terms and specified as being a Termination Event occurs. Upon the occurrence of a Termination Event the Issuer shall redeem all but not some only of the Notes on the Termination Date by payment to each Noteholder of the Termination Amount.

Upon determining the occurrence of an Extraordinary Fund Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13, giving details of the Extraordinary Fund Event and the action to be taken in respect thereof.

7. **Redemption of Termination Date Extension**

In the case of Cash Settled Notes, if on the Scheduled Redemption Date, Automatic Early Redemption Date or Termination Date, as the case may be, the Hedge Provider has not, (or is deemed to have not), after having placed one or more redemption orders in respect of its holding of Fund Shares in accordance with the terms of the relevant Fund Documents, received redemption proceeds in full in respect of all Fund Shares (the **Redemption Proceeds**), the Calculation Agent may notify the Holders in accordance with General Condition 13 that the Redemption Date, the Automatic Early Redemption Date or the Termination Date, as the case may be, has been postponed. As soon as practicable following receipt (or deemed receipt) by the Hedge Provider of the Redemption Proceeds the Calculation Agent shall give notice to Holders in accordance with General Condition 13 (such notice the **Delayed Payment Notice**) and redeem the Notes on the date falling not more than five Business Days following the receipt of the Delayed Payment Notice (such date, the **Postponed Redemption Date**) by payment to each Holder of the Redemption Amount, the Automatic Early Redemption Amount or the Termination Amount, as the case may be, provided that, if the Hedge Provider does not receive the Redemption Proceeds within the period ending on the date (the **Delayed Payment Cut-off Date**) specified in the applicable Final Terms or, if not so specified, the second anniversary of the Scheduled Redemption Date, the Automatic Early Redemption Date or the Termination Date, as the case may be, the Postponed Redemption Date shall be the Delayed Cut-off Date.

In the case of interest bearing Notes, the Issuer shall be obliged to pay interest calculated as provided in General Condition 3 accruing from (and including) the Interest Period End Date immediately preceding the Scheduled Redemption Date, the Automatic Early Redemption

Date or the Termination Date, as the case may be, (or, if none, the Interest Commencement Date) to (but excluding) the Scheduled Redemption Date, the Automatic Early Redemption Date or the Termination Date, as the case may be, but shall only be obliged to make such payment of interest on the Postponed Redemption Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay.

ANNEX 6

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

*If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Credit Linked Notes shall comprise the Terms and Conditions of the Notes set out on page 128 (the **General Conditions**) and the Additional Terms and Conditions for Credit Linked Notes set out below (the **Credit Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Credit Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail.*

Unless otherwise stated in these Credit Linked Conditions or in the applicable Final Terms, in the event that any day specified in the section “*Credit Linked Notes*” in the applicable Final Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

1. **Redemption of Credit Linked Notes**

Unless previously redeemed or purchased and cancelled and subject as provided in Credit Linked Condition 2 and Credit Linked Condition 3 and Credit Linked Condition 4, as applicable each nominal amount of Credit Linked Notes equal to the Calculation Amount set out in the applicable Final Terms will be redeemed by the Issuer at its relevant Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

2. **Auction Settlement**

If Conditions to Settlement are satisfied, then where Auction Settlement is specified as the applicable Settlement Method in the applicable Final Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an **Auction Settlement Notice**) to the Noteholders in accordance with General Condition 13, and, subject to any adjustment in accordance with Credit Linked Condition 13, redeem all but not some only of the Credit Linked Notes, each nominal amount of Credit Linked Notes equal to the Calculation Amount set out in the applicable Final Terms being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

Unless settlement has occurred in accordance with the paragraph above, if:

- (a) an Auction Cancellation Date occurs;
- (b) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraph (b) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (c) ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved, following a Credit Event Resolution Request Date, not to determine the matters described in paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date;

- (d) a Credit Event Determination Date was determined pursuant to paragraph (a) of the definition of Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
- (e) a Credit Event Determination Date was determined pursuant to paragraph (b)(ii)(A) or (b)(ii)(B) of the definition of Credit Event Determination Date,
- (i) then:
 - (ii) if Fallback Settlement Method – Cash Settlement is specified as applicable in the applicable Final Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 3 below; or
 - (iii) if Fallback Settlement Method – Physical Delivery is specified as applicable in the applicable Final Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 4 below.

If Conditions to Settlement are satisfied and the Notes become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

3. Cash Settlement

If Conditions to Settlement are satisfied, then where Cash Settlement is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(i) above applies, the Issuer shall give notice (such notice a **Cash Settlement Notice**) to the Noteholders in accordance with General Condition 13, and redeem all but not some only of the Credit Linked Notes, each nominal amount of Credit Linked Notes equal to the Calculation Amount set out in the applicable Final Terms, being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

If Conditions to Settlement are satisfied and the Notes become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Calculation Amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

4. Physical Settlement

If Conditions to Settlement are satisfied, then where Physical Delivery is specified as the applicable Settlement Method in the applicable Final Terms or if Credit Linked Condition 2(ii) above applies, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a **Notice of Physical Settlement**) to the Noteholders in accordance with General Condition 13, and redeem all but not some only of the Credit Linked Notes, each nominal amount of Credit Linked Notes equal to the

Calculation Amount being redeemed by the Issuer by the Delivery of the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the General Conditions and these Credit Linked Conditions.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with General Condition 13, (each such notification, a **Physical Settlement Amendment Notice**) that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a **Replacement Deliverable Obligation**) and shall also specify the Outstanding Principal Balance or Due and Payable Amount (determined on the same basis as in the definition of Entitlement) of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced or the equivalent Currency Amount of any such amount (with respect to each such Deliverable Obligation, the **Replaced Deliverable Obligation Outstanding Amount**). The Replacement Deliverable Obligation(s), taken together, shall have an aggregate Replaced Deliverable Obligation Outstanding Amount at least equal to the Outstanding Principal Balance(s) and/or Due and Payable Amount(s) (or the equivalent Currency Amount(s) of any such amount(s)) of the Deliverable Obligations being replaced. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders in accordance with General Condition 13, prior to the relevant Delivery Date; it being understood that such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date.

If “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

If Conditions to Settlement are satisfied and the Notes become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or

the Partial Cash Settlement Amount, as the case may be, may be less than the Calculation Amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

5. Repudiation/Moratorium Extension

If “Repudiation/Moratorium” is specified as a Credit Event in the applicable Final Terms, the provisions of this Credit Linked Condition 5 shall apply.

Where Conditions to Settlement have not been satisfied on or prior to the Scheduled Maturity Date (determined by reference to the Relevant Time) but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Maturity Date or, if Credit Linked Condition 8(y) applies, the Postponed Maturity Date (as defined in Credit Linked Condition 8) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium will, in the sole determination of the Calculation Agent, fall after the Scheduled Maturity Date, then the Calculation Agent shall notify the Noteholders in accordance with General Condition 13 that a Potential Repudiation/Moratorium has occurred and:

- (a) where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date:
 - (i) each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Repudiation/Moratorium Evaluation Date; and
 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Repudiation/Moratorium Evaluation Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and Conditions to Settlement are satisfied, the provisions of Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes.

6. Grace Period Extension

If “Grace Period Extension” is specified as applicable in the applicable Final Terms, the provisions of this Credit Linked Condition 6 shall apply.

Where Conditions to Settlement have not been satisfied on or prior to the Scheduled Maturity Date (determined by reference to the Relevant Time) but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Maturity Date (determined by reference to the Relevant Time) (and such Grace Period(s) is/are continuing as at the Scheduled Maturity Date), then the Calculation Agent shall notify

the Noteholders in accordance with General Condition 13 that a Potential Failure to Pay has occurred and:

- (a) where a Failure to Pay has not occurred on or prior to the Grace Period Extension Date:
 - (i) each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Grace Period Extension Date; and
 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Grace Period Extension Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and Conditions to Settlement are satisfied, the provisions of Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes.

7. Credit Derivatives Determinations Committee Extension

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred and the Credit Derivatives Determinations Committee has not made its determination on or prior to the Scheduled Maturity Date (determined by reference to the Relevant Time) then the Calculation Agent shall notify Noteholders in accordance with General Condition 13 that the Maturity Date has been postponed to a date (the **DC Cut-off Date**) being the earliest of: (i) fifteen (15) Business Days following the date on which the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred, (ii) the second Business Day following the date on which the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred and (iii) fifteen (15) Business Days following the date on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine whether a Credit Event has occurred, and:

- (a) where a Credit Event has not occurred on or prior to the DC Cut-off Date:
 - (i) each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the DC Cut-off Date; and
 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or if none the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the DC Cut-off Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or

- (b) where a Credit Event has occurred on or prior to the DC Cut-off Date and Conditions to Settlement are satisfied, the provisions of Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes.

8. Maturity Date Extension in the case of Credit Linked Notes

The following provisions of this Credit Linked Condition 8 apply to Credit Linked Notes:

Without prejudice to Credit Linked Condition 10, if:

- (x) on (A) the Scheduled Maturity Date, (B), if applicable, the Repudiation/Moratorium Evaluation Date, (C) if Grace Period Extension is specified as applying in the applicable Final Terms, the Grace Period Extension Date or (D) the last day of the Notice Delivery Period, as the case may be, Conditions to Settlement have not been satisfied but, in the determination of the Calculation Agent, a Credit Event may have occurred; or
- (y) on the Scheduled Maturity Date, in the determination of the Calculation Agent, a Potential Repudiation/Moratorium may have occurred,

the Calculation Agent may at its option notify the Noteholders in accordance with General Condition 13 that the Maturity Date, the Repudiation/Moratorium Evaluation Date, the Grace Period Extension Date or the last day of the Notice Delivery Period, as the case may be, has been postponed to a date (such date the **Postponed Maturity Date**) specified in such notice falling fifteen (15) Business Days after the Scheduled Maturity Date, the previous Repudiation/Moratorium Evaluation Date or Grace Period Extension Date, or the last day of the Notice Delivery Period, as the case may be, or if such day is not a Business Day the immediately succeeding Business Day, and:

where:

- (a) in the case of Credit Linked Condition 8(x), Conditions to Settlement are not satisfied on or prior to the Postponed Maturity Date or, in the case of Credit Linked Condition 8(y), the Repudiation/Moratorium Extension Condition is not satisfied on or prior to the Postponed Maturity Date:
 - (i) subject as provided below, each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Postponed Maturity Date; and
 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Postponed Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or

- (b) where:
- (i) in the case of Credit Linked Condition 8(x), Conditions to Settlement are satisfied on or prior to the Postponed Maturity Date, the provisions of Credit Linked Condition 2, Credit Linked Condition 4 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes; or
 - (ii) in the case of Credit Linked Condition 8(y), the Repudiation/Moratorium Extension Condition is satisfied on or prior to the Postponed Maturity Date, the provisions of Credit Linked Condition 5 shall apply to the Credit Linked Notes.

9. Partial Cash Settlement

If all or a portion of the Obligations comprising the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a **Partial Cash Settlement Notice**) to the Noteholders in accordance with General Condition 13 and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

Unless otherwise specified in the applicable Final Terms, for the purposes of this Credit Linked Condition 9 only the following terms shall be defined as follows:

Indicative Quotation means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

Market Value means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the applicable Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b)

of the definition of “Quotation” below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if the Quotations are deemed to be zero, the Market Value shall be zero.

Partial Cash Settlement Amount is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price or the Auction Final Price, if applicable, with respect to such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, less if applicable (C) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero.

Partial Cash Settlement Date is deemed to be the date falling three Business Days after (i) the calculation of the Final Price or (ii) the Auction Final Price Determination Date, if applicable.

Quotation means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the applicable Final Terms, each Indicative Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the applicable Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Final Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day of, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations,

as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.

- (d) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for purposes of determining the Final Price.

Quotation Amount is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

Quotation Method is deemed to be Bid.

Reference Obligation is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

Valuation Method is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case “Valuation Method” is deemed to be Market.

Valuation Time is the time specified as such in the applicable Final Terms, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

Weighted Average Quotation means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

10. Settlement Suspension

(a) Suspension

Without prejudice to Credit Linked Condition 8, if, following the determination of a Credit Event Determination Date in accordance with sub-paragraph (a) of the definition of Credit Event Determination Date but prior to the Credit Settlement Date or, to the extent applicable, a Valuation Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date are satisfied in accordance with the Rules, the Calculation Agent may, at its option, determine that the applicable timing requirements of this Credit Linked Condition 10 and the definitions of Credit Event Redemption Date, Valuation Date, Physical Settlement Period, and any other Credit Linked Condition as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a **Suspension Period**) until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations

Committee has Resolved (a) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved (A) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (B) not to determine such matters, the relevant timing requirements of this Credit Linked Condition 10 that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.

In the event of any such Suspension Period, the Calculation Agent may make (x) such consequential or other adjustment(s) or determination(s) to or in relation to the General Conditions and these Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (y) determine the effective date of such adjustment(s) or determination(s).

(b) Interest

In the case of interest bearing Credit Linked Notes:

- (i) if a Suspension Period falls in any one or more Interest Period(s), then no interest (or any interest on any delayed payment of interest) shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (ii) if an Interest Payment Date falls in a Suspension Period, such Interest Payment Date will be deferred until such date as determined by the Calculation Agent falling no earlier than the first Interest Payment Date and no later than the fifth Interest Payment Date following the end of the Suspension Period, all subject to the provisions of General Condition 4 and Credit Linked Conditions 5, 6 and 7.

11. Redemption following a Merger Event

If “Merger Event” is specified as applying in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Noteholders in accordance with General Condition 13, and redeem all but not some only of the Credit Linked Notes and pay in respect of each nominal amount of the Credit Linked Notes equal to the Calculation Amount, the Merger Event Redemption Amount on the Merger Event Redemption Date in each case as specified in the applicable Final Terms.

12. Definitions applicable to Credit Linked Notes

2.5-year Limitation Date has the meaning given to that term in the definition of “Limitation Date”.

5-year Limitation Date has the meaning given to that term in the definition of “Limitation Date”.

20-year Limitation Date has the meaning given to that term in the definition of “Limitation Date”.

2005 Matrix Supplement means the 2005 Matrix Supplement to the 2003 ISDA Credit Derivatives Definitions as published by ISDA on 7th March, 2005.

Accreted Amount means, with respect to an Accreting Obligation, an amount equal to (a) the sum of (i) the original issue price of such obligation and (ii) the portion of the amount payable at maturity that has accreted in accordance with the terms of the obligation (or as otherwise described below), less (b) any cash payments made by the obligor thereunder that, under the terms of such obligation, reduce the amount payable at maturity (unless such cash payments have been accounted for in (a)(ii) above), in each case calculated as of the earlier of (A) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (B) the Delivery Date or applicable Valuation Date, as the case may be. Such Accreted Amount shall include any accrued and unpaid periodic cash interest payments (as determined by the Calculation Agent) only if “Include Accrued Interest” is specified as being applicable in the applicable Final Terms. If an Accreting Obligation is expressed to accrete pursuant to a straight-line method or if such Obligation's yield to maturity is not specified in, nor implied from, the terms of such Obligation, then, for the purposes of (a)(ii) above, the Accreted Amount shall be calculated using a rate equal to the yield to maturity of such Obligation. Such yield shall be determined on a semi-annual bond equivalent basis using the original issue price of such obligation and the amount payable at the scheduled maturity of such obligation, and shall be determined as of the earlier of (A) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (B) the Delivery Date or applicable Valuation Date, as the case may be. The Accreted Amount shall exclude, in the case of an Exchangeable Obligation, any amount that may be payable under the terms of such obligation in respect of the value of the Equity Securities for which such obligation is exchangeable.

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any, determined as set forth below:
 - (i) if one entity directly or indirectly succeeds to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor;
 - (ii) if only one entity directly or indirectly succeeds to more than twenty-five per cent. (but less than seventy-five per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (iv) if one or more entity each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
 - (v) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of the Succession Event; and
 - (vi) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the

greatest percentage of obligations of the Reference Entity) will be the sole Successor; and

- (b) in relation to a Sovereign Reference Entity, each entity which becomes a direct or indirect successor to such Reference Entity by way of a Succession Event irrespective of whether any such successor assume(s) any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen (14) calendar days after the legally effective date of the occurrence of the relevant Succession Event), and with effect from the legally effective date of the occurrence of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable provided that the Calculation Agent will not make any such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in (a) above and paragraphs (a) and (b)(A) of the definition of Succession Event Resolution Request Date (in the case of a Reference Entity that is not a Sovereign) or (b) above and paragraphs (a) and (b)(B) of the definition of Succession Event Resolution Request Date (in the case of a Sovereign Reference Entity) are satisfied in accordance with the Rules (until such time (if any) that ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi), as applicable, the Calculation Agent shall use, in respect of each applicable Relevant Obligation included in such calculation, the amount of the liability in respect of such Relevant Obligation listed in the Best Available Information and shall, as soon as practicable after such calculation, make such calculation available for inspection by Noteholder(s) at the specified office of the Principal Paying Agent.

Where pursuant to paragraph (a)(iii) or (a)(vi), more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the applicable Final Terms as it shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Notes under the provisions of the 2003 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 13 stating the adjustment to these Terms and Conditions and/or the applicable Final Terms and giving brief details of the relevant Succession Event.

For the purposes of this definition of “Successor”, “succeed” means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (i) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (ii) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or

guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to paragraph (a) of this definition of “Successor” shall be made, in the case of an exchange offer, on the basis of the Outstanding Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

Where:

- (A) a Reference Obligation is specified in the applicable Final Terms;
- (B) one or more Successors to the Reference Entity have been identified; and
- (C) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of “Substitute Reference Obligation” above.

Transaction Auction Settlement Terms means, with respect to a Credit Event, the Credit Derivatives Auction Settlement Terms selected by the Calculation Agent in accordance with this provision. In relation to a Credit Event (and as set out in the definition of Credit Derivatives Auction Settlement Terms), ISDA may publish one or more form(s) of Credit Derivatives Auction Settlement Terms on its website at www.isda.org (or any successor website thereto) and may amend such forms from time to time. Each such form of Credit Derivatives Auction Settlement Terms shall set out, *inter alia*, definitions of “Auction”, “Auction Cancellation Date”, “Auction Covered Transaction” and “Auction Final Price Determination Date” in relation to the relevant Credit Event. The Transaction Auction Settlement Terms for purposes of the Credit Linked Notes shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms). The Reference Transaction (as set out in the definition thereof) is a hypothetical credit derivative transaction included in these Credit Linked Conditions principally for the purpose of selecting the Credit Derivatives Auction Settlement Terms appropriate to the Credit Linked Notes.

Undeliverable Obligation means a Deliverable Obligation included in the Entitlement which, on the Credit Settlement Date for such Deliverable Obligation, the Calculation Agent determines for any reason (including without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the Delivery of Loans) it is impossible or illegal to Deliver on the Credit Settlement Date.

Unwind Costs means the amount specified in the applicable Final Terms or if “Standard Unwind Costs” are specified in the applicable Final Terms, an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs (including loss of

funding), fees, charges, expenses, tax and duties incurred by the Issuer and/or any of its Affiliates in connection with the redemption of the Credit Linked Notes and the related termination, settlement or re-establishment of any hedge or related trading position, such amount to be apportioned *pro rata* amongst each nominal amount of the Credit Linked Notes equal to the Calculation Amount.

- (a) subject to Credit Linked Condition 10, the date that is the number of Business Days specified in the applicable Final Terms (or, if the number of Business Days is not specified, five Business Days) following the satisfaction of all Conditions to Settlement (or if Cash Settlement is the applicable Fallback Settlement Method, the date that is the number of Business Days specified in the applicable Final Terms (or, if the number of Business Days is not specified, five Business Days) following the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable); and
- (b) each successive date that is the number of Business Days specified in the applicable Final Terms or, if the number of Business Days is not so specified, five Business Days after the date on which the Calculation Agent obtains a Market Value with respect to the immediately preceding Valuation Date.

When “Multiple Valuation Dates” is specified in the applicable Final Terms, the total number of Valuation Dates shall be equal to the number of Valuation Dates specified in the applicable Final Terms (or, if the number of Valuation Dates is not so specified, five Valuation Dates).

If neither Single Valuation Date nor Multiple Valuation Dates is specified in the applicable Final Terms, Single Valuation Date shall apply.

Valuation Method:

- (a) The following Valuation Methods may be specified in the applicable Final Terms with only one Reference Obligation and only one Valuation Date:
 - (i) **Market** means the Market Value determined by the Calculation Agent with respect to the Valuation Date; or
 - (ii) **Highest** means the highest Quotation obtained by the Calculation Agent with respect to the Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Highest.

- (b) The following Valuation Methods may be specified in the applicable Final Terms with only one Reference Obligation and more than one Valuation Date:
- (i) **Average Market** means the unweighted arithmetic mean of the Market Values determined by the Calculation Agent with respect to each Valuation Date; or
 - (ii) **Highest** means the highest Quotation obtained by the Calculation Agent with respect to any Valuation Date; or
 - (iii) **Average Highest** means the unweighted arithmetic mean of the highest Quotations obtained by the Calculation Agent with respect to each Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Average Highest.

- (c) The following Valuation Methods may be specified in the applicable Final Terms with more than one Reference Obligation and only one Valuation Date:
- (i) **Blended Market** means the unweighted arithmetic mean of the Market Value for each Reference Obligation determined by the Calculation Agent with respect to the Valuation Date; or
 - (ii) **Blended Highest** means the unweighted arithmetic mean of the highest Quotations obtained by the Calculation Agent for each Reference Obligation with respect to the Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Blended Highest.

- (d) The following Valuation Methods may be specified in the applicable Final Terms with more than one Reference Obligation and more than one Valuation Date:

 - (ii) **Average Blended Highest** means, using values with respect to each Valuation Date determined by the Calculation Agent in accordance with the Blended Highest Valuation Method, the unweighted arithmetic mean of the values so determined with respect to each Valuation Date.

If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Average Blended Highest.

- (e) Notwithstanding paragraphs (a) to (d) above, if Quotations include Weighted Average Quotations or fewer than two Full Quotations, the Valuation Method shall be Market, Average Market, Blended Market or Average Blended Market, as the case may be.
- (f) Where applicable, the applicable Final Terms may specify an alternative Valuation Method which shall be applicable in respect of the relevant Credit Linked Notes.

Valuation Time means the time specified as such in the applicable Final Terms or, if no time is so specified, 11.00 a.m. in the principal trading market for the Reference Obligation.

Voting Shares shall have the meaning given to it in the definition of Downstream Affiliate above.

Weighted Average Quotation means in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount (but, if a Minimum Quotation Amount is specified in the applicable Final Terms, of a size equal to the Minimum Quotation Amount or, if quotations of a size equal to the Minimum Quotation Amount are not available, quotations as near in size as practicable to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

13. **Credit Event Notice after Restructuring Credit Event**

If this Credit Linked Condition 13 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in these Terms and Conditions, upon the occurrence of a Restructuring with respect to a Series for which either “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” or “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified as applicable in the applicable Final Terms:

- (a) the Calculation Agent may deliver multiple Credit Event Notices in respect of such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that may be less than the aggregate Nominal Amount of those Credit Linked Notes outstanding immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such Credit Linked Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount).
- (b) For the avoidance of doubt (A) the nominal amount of each Credit Linked Note not so redeemed in part shall remain outstanding and interest shall accrue on the nominal amount outstanding of such Credit Linked Note as provided in General Condition 4 (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such nominal amount outstanding of such Credit Linked Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Noteholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to these Terms and Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 13 and (y) the effective date of such adjustment(s).
- (c) If the provisions of this Credit Linked Condition 13(b) apply in respect of the Credit Linked Notes, on redemption of part of each such Credit Linked Note the relevant

Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption.

14. Provisions relating to Multiple Holder Obligation

If this Credit Linked Condition 14 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (i) to (v) of the definition of **Restructuring** shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

Multiple Holder Obligation means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event.

15. Provisions taken from the ISDA supplement titled “Additional Provisions for Physically Settled Default Swaps– Monoline Insurer as Reference Entity (January 2005)”

If this Credit Linked Condition 15 is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) *Obligation and Deliverable Obligation.* Paragraph (a) of the definition of **Obligation** in Credit Linked Condition 12 and paragraph (a) of the definition of **Deliverable Obligation** in Credit Linked Condition 12 are hereby amended by adding “or Qualifying Policy” after “as provider of a Qualifying Affiliate Guarantee”.
- (b) *Interpretation of Provisions.* In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, paragraph (ii) of the definition of **Deliverable Obligation** in Credit Linked Condition 12 will apply, with references to the Qualifying Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:
 - (i) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms “obligation” and “obligor” as used in these Credit Linked Conditions in respect of such an Insured Instrument shall be construed accordingly;
 - (ii) references in the definitions of Assignable Loan and Consent Required Loan to the **guarantor** and **guaranteeing** shall be deemed to include the **insurer** and **insuring**, respectively;
 - (iii) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;

- (iv) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument; and
 - (v) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term “Outstanding Principal Balance” shall mean the outstanding Certificate Balance and “maturity”, as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (c) *Not Contingent.* An Insured Instrument will not be regarded as failing to satisfy the Not Contingent Deliverable Obligation Characteristic solely because such Insured Instrument is subject to provisions limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument, provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction. By specifying that this Credit Linked Condition 15 is applicable, no inference should be made as to the interpretation of the “Not Contingent” Deliverable Obligation Characteristic in the context of limited recourse or similar terms applicable to Deliverable Obligations other than Qualifying Policies.
- (d) *Deliver.* For the purposes of the definition of **Deliver** in Credit Linked Condition 12, “Deliver” with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and “Delivery” and “Delivered” will be construed accordingly.
- (e) *Provisions for Determining a Successor.* The paragraph commencing “For the purposes of this definition of **Successor...**” in the definition of **Successor** in Credit Linked Condition 12 is hereby amended by adding “or insurer” after “or guarantor”.
- (f) *Substitute Reference Obligation.* The first paragraph of the definition of **Substitute Reference Obligation** and paragraph (b) thereof in Credit Linked Condition 12 is hereby amended by adding “or Qualifying Policy” after “or as provider of a Qualifying Affiliate Guarantee”. For purposes of sub-paragraph (a)(ii)(B) the definition of **Substitute Reference Obligation** references to the **Qualifying Guarantee** and the **Underlying Obligation** shall be deemed to include the **Qualifying Policy** and the **Insured Instrument**, respectively.
- (g) *Restructuring*
- (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, paragraphs (i) to (v) inclusive of the definition of

“Restructuring” in Credit Linked Condition 12 are hereby amended to read as follows:

- (i) a reduction in the rate or amount of the Instrument Payments in paragraph (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (ii) a reduction in the amount of the Instrument Payments described in paragraph (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (iii) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in paragraph (A)(x) of the definition thereof or (y) the payment of the Instrument Payments described in paragraph (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
 - (iv) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
 - (v) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency which is not a Permitted Currency.”
- (ii) Paragraph (c) of the definition of “Restructuring” in Credit Linked Condition 12 is hereby amended by adding “or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy” after “Reference Entity”.
 - (iii) The definition of “Restructuring” in Credit Linked Condition 12 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

“For purposes of this definition of “Restructuring” in and if Credit Linked Condition 14 is specified as applying in the applicable Final Terms, for the purposes of the Credit Linked Conditions the term “Obligation” shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in this definition of “Restructuring” shall be deemed to refer to the Insured Obligor

and the references to the Reference Entity in paragraphs (a) to (c) inclusive in this definition of “Restructuring” shall continue to refer to the Reference Entity.”

- (h) *Fully Transferable Obligation and Conditionally Transferable Obligation.* In the event that “Restructuring Maturity Limitation and Fully Transferable Obligation” and/or “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation” is specified as applicable in the applicable Final Terms and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of “Conditionally Transferable Obligation” to the “guarantor” and “guaranteeing” shall be deemed to include “the “insurer” and “insuring” respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term “final maturity date”, as such term is used in Credit Linked Condition 4 and the definition of “Restructuring Maturity Limitation Date”, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (i) *Other Provisions.* For purposes of paragraph (a)(ii) of the definition of **Deliverable Obligation** and the definitions of **Credit Event** and **Deliver** in Credit Linked Condition 12 references to the **Underlying Obligation** and the **Underlying Obligor** shall be deemed to include “Insured Instruments” and the “Insured Obligor”, respectively.
- (j) Additional Definitions.

Qualifying Policy means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this Credit Linked Condition 15) (the **Insured Instrument**) for which another party (including a special purpose entity or trust) is the obligor (the **Insured Obligor**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).

Instrument Payments means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in Credit Linked Condition 15(c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

Certificate Balance means, in the case of an Insured Instrument that is in the form of a pass through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

First Ranking Interest means a charge, security interest (or other type of interest having similar effect) (an **Interest**), which is expressed as being “first ranking”, “first priority”, or similar (**First Ranking**) in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

LPN Reference Obligation means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

19. Amendment of Credit Linked Conditions in accordance with Market Convention

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the Credit Derivatives Determinations Committees which the Calculation Agent determines in a commercially reasonable manner are necessary or desirable to reflect or govern market practice for credit derivative transactions. Any amendment made in accordance with this Credit Linked Condition 19 shall be notified to the Noteholders in accordance with General Condition 13.

ANNEX 7

ADDITIONAL TERMS AND CONDITIONS FOR CUSTOM INDEX LINKED NOTES

*The terms and conditions applicable to Custom Index Linked Notes shall comprise the Terms and Conditions of the Notes set out on page 128 (the **General Conditions**) and the Additional Terms and Conditions for Custom Index Linked Notes set out below (the **Custom Index Linked Conditions**), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Custom Index Linked Conditions, the Custom Index Linked Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Custom Index Linked Conditions and (ii) the Final Terms, the Final Terms shall prevail.*

1. Adjustments to a Custom Index and Custom Index Disruption

(a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Custom Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the **Successor Index Sponsor**) acceptable to the Calculation Agent, or (ii) replaced by a successor custom index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Custom Index, then in each case that custom index (the **Successor Custom Index**) will be deemed to be the Custom Index.

(b) Modification and Cessation of Calculation of a Custom Index and Custom Index Disruption

If (i) on or prior to the last Valuation Date, the last Observation Date or the last Averaging Date, the last Automatic Early Redemption Valuation Date, the last Knock-in Determination Day, the last Knock-out Determination Day or the last Strike Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Custom Index or in any other way materially modifies that Custom Index (a **Custom Index Modification**), or permanently cancels a relevant Custom Index and no Successor Custom Index exists (a **Custom Index Cancellation**), or (ii) on a Valuation Date, an Observation Date, an Averaging Date, an Automatic Early Redemption Valuation Date, a Knock-in Determination Day, a Knock-out Determination Day or a Strike Date, the Index Sponsor or (if applicable) the Successor Custom Index Sponsor fails to calculate and announce the relevant level(s) for a relevant Custom Index or it is not a Custom Index Trading Day (a **Custom Index Disruption** and, together with a Custom Index Modification and a Custom Index Cancellation, each a **Custom Index Adjustment Event**), then:

- (i) in the case of Custom Index Linked Notes relating to a single Custom Index:
 - (A) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring on the last Valuation Date, the last Averaging Date, the last Observation Date, the last Automatic Early Redemption Valuation Date, the last Knock-in Determination Day, the last Knock-out Determination Day or the last Strike Date, then such Valuation Date, Averaging Date, Observation Date, Automatic

Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Strike Date, as the case may be, shall be the first succeeding Scheduled Custom Index Business Day on which a Custom Index Disruption is not occurring, unless there is a Custom Index Disruption on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day or Strike Date, as the case may be, in which case the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Strike Date, as the case may be, notwithstanding the Custom Index Disruption and the Calculation Agent shall determine the Settlement Price by using commercially reasonable efforts to determine the level of the Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the Custom Index last in effect prior to the occurrence of the Custom Index Disruption and using its good faith estimate of the value for the components of the Custom Index;

- (B) following a Custom Index Modification or Custom Index Cancellation at any time or a Custom Index Disruption (which in the latter case occurs or is occurring on the Strike Date, an Averaging Date (other than the last Averaging Date), an Observation Date (other than the last Observation Date) a Valuation Date (other than the last Valuation Date), an Automatic Early Redemption Valuation Date (other than the last Automatic Early Redemption Valuation Date), a Knock-in Determination Day (other than the last Knock-in Determination Day) or a Knock-out Determination Day (other than the last Knock-out Determination Day), the Calculation Agent shall determine if such Custom Index Adjustment Event has a material effect on the Notes and, if so:
 - (1) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring on the Strike Date, an Averaging Date, an Observation Date, an Automatic Early Redemption Valuation Date, a Knock-in Determination Day or a Knock-out Determination Day or a Valuation Date, the Calculation Agent may determine that the Strike Date, relevant Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, shall be the first succeeding Scheduled Custom Index Business Day (in the case of the Strike Date, the Automatic Early Redemption Valuation Date, the Knock-in Determination Day, the Knock-out Determination Day or the Valuation Date) or Valid Date (in the case of an Averaging Date or Observation Date, as the case may be) unless there is a Custom Index Adjustment Event on each of the number of

consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, in which case the Calculation Agent may determine that the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be (irrespective, in the case of an Averaging Date, or an Observation Date, of whether that last consecutive Scheduled Custom Index Business Day is already an Averaging Date or an Observation Date, as the case may be) and may determine the Settlement Price by using commercially reasonable efforts to determine a level of the Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the Custom Index last in effect prior to the occurrence of the Custom Index Adjustment Event and using its good faith estimate of the value for the components of the Custom Index; or

- (2) the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar strategy as the original Custom Index and, upon selection of such index, the Calculation Agent shall promptly notify the Noteholders and such index shall become the Custom Index and shall be deemed to be the Custom Index for the purpose of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Notes as the Calculation Agent in its sole and absolute discretion determines appropriate; or
- (3) the Calculation Agent may determine in its sole and absolute discretion such other appropriate adjustments, if any, to be made to the terms of the Notes to account for the Custom Index Adjustment Event and determine the effective date of those adjustments; or
- (4) unless Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes in which case it will so notify the Issuer and the Issuer will give notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each redeemed Note being redeemed at an amount equal to the fair market value of each Note, taking into account the Custom Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined

by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or

- (5) if Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Custom Index Adjustment Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Custom Index Adjustment Event Amount**) as soon as practicable following the occurrence of the Custom Index Adjustment Event (the **Calculated Custom Index Adjustment Event Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Custom Index Adjustment Event Amount plus interest accrued on the Calculated Custom Index Adjustment Event Amount on a daily basis from and including the Calculated Custom Index Adjustment Event Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate specified in the applicable Final Terms, or (y) if greater, its nominal amount; or
 - (6) in the case of a Custom Index Modification which occurs on the last Valuation Date, last Averaging Date, the last Observation Date, the last Knock-in Determination Day, the last Knock-out Determination Day, the last Automatic Early Redemption Valuation Date or the last Strike Date only, the Calculation Agent may elect to calculate the level of the Custom Index, using in lieu of the published level for the Custom Index as of the Valuation Date, Averaging Date, Observation Date, Knock-in Determination Day, Knock-out Determination Day, Automatic Early Redemption Valuation Date or Strike Date, as the case may be, the level of the Custom Index as of that date determined by the Calculation Agent in accordance with the formula for and method of calculating the Custom Index last in effect prior to the Custom Index Modification but using only those components that comprised the Custom Index prior to the Custom Index Modification.
- (ii) in the case of Custom Index Linked Notes relating to a Basket of Custom Indices where Scheduled Custom Index Business Days (All Custom Indices Basis) is specified as applicable in the applicable Final Terms, then:
- (A) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring in respect of any Custom Index (each an **Affected Custom Index**) on the last Valuation Date, the last Averaging Date, the last Observation Date, the last Knock-in Determination Day, the last Knock-out Determination Day, the last Automatic Early Redemption Valuation Date or the last Strike Date, then such Valuation Date, Averaging Date, Observation Date,

Knock-in Determination Day, Knock-out Determination Day, Automatic Early Redemption Valuation Date, or Strike Date as the case may be, for all Custom Indices in the Basket shall be the first succeeding Scheduled Custom Index Business Day on which a Custom Index Disruption is not occurring in respect of any of the Custom Indices in the Basket, unless there is a Custom Index Disruption in respect of any one of the Custom Indices in the Basket on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Valuation Date, Averaging Date, Observation Date, Knock-in Determination Day, Knock-out Determination Day, Automatic Early Redemption Valuation Date or Strike Date as the case may be, in which case the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Valuation Date, Averaging Date, Observation Date, Knock-in Determination Day, Knock-out Determination Day, Automatic Early Redemption Valuation Date or Strike Date as the case may be, for all Custom Indices in the Basket, notwithstanding the Custom Index Disruption in respect of an Affected Custom Index and the Calculation Agent shall determine the Settlement Price by using (X) in respect of any Custom Index which is not an Affected Custom Index, the method provided for in part (i) of the definition of Settlement Price contained in Custom Index Linked Condition 6 and (Y) in respect of any Custom Index in the Basket which is an Affected Custom Index, commercially reasonable efforts to determine the level of the relevant Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the relevant Custom Index last in effect prior to the occurrence of the Custom Index Disruption and using its good faith estimate of the value for the components of the Custom Index;

- (B) following a Custom Index Modification or Custom Index Cancellation at any time or a Custom Index Disruption (which in the latter case occurs or is occurring on the Strike Date, an Averaging Date (other than the last Averaging Date), an Observation Date (other than the last Observation Date), a Valuation Date (other than the last Valuation Date), an Automatic Early Redemption Valuation Date (other than the last Automatic Early Redemption Valuation Date), a Knock-in Determination Day (other than the last Knock-in Determination Day) or a Knock-out Determination Day (other than the last Knock-out Determination Day)), the Calculation Agent shall determine if such Custom Index Adjustment Event has a material effect on the Notes and, if so:
 - (1) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring on the Strike Date, an Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, or Knock-out Determination Day or Valuation Date, the Calculation Agent may determine that the Strike Date, relevant Averaging Date, Observation Date, Automatic Early

Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date as the case may be, for all Custom Indices in the Basket shall be the first succeeding Scheduled Custom Index Business Day (in the case of the Strike Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date) or Valid Date (in the case of an Averaging Date, or Observation Date, as the case may be) on which a Custom Index Disruption is not occurring in respect of any Custom Index (each an **Affected Custom Index**) comprised in the Basket unless there is a Custom Index Disruption on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date as the case may be, in which case the Calculation Agent may determine that the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date as the case may be (irrespective, in the case of an Averaging Date or Observation Date, of whether that last consecutive Scheduled Custom Index Business Day is already an Averaging Date or Observation Date, as the case may be) for all Custom Indices in the Basket and may determine the Settlement Price by using (X) in respect of any Custom Index in the Basket which is not an Affected Custom Index, the method provided for in part (i) of the definition of Settlement Price contained in Custom Index Linked Condition 6 (Definitions) below and (Y) in respect of any Custom Index in the Basket which is an Affected Custom Index, commercially reasonable efforts to determine a level of the relevant Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the relevant Custom Index last in effect prior to the occurrence of the Custom Index Disruption and using its good faith estimate of the value for the components of the Custom Index; or

- (2) the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar strategy as the original Custom Index and, upon selection of such index, the Calculation Agent shall promptly notify the Noteholders and such index shall become the Custom Index and shall be deemed to be a Custom Index for the purpose of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Notes as the Calculation Agent in its sole and absolute discretion determines appropriate; or

- (3) the Calculation Agent may determine in its sole and absolute discretion such other appropriate adjustments, if any, to be made to the terms of the Notes to account for the Custom Index Adjustment Event and determine the effective date of those adjustments; or
- (4) unless Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes in which case it will so notify the Issuer and the Issuer will give notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each redeemed Note being redeemed at an amount equal to the fair market value of each Note, taking into account the Custom Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
- (5) if Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Custom Index Adjustment Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Custom Index Adjustment Event Amount**) as soon as practicable following the occurrence of the Custom Index Adjustment Event (the **Calculated Custom Index Adjustment Event Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Custom Index Adjustment Event Amount plus interest accrued on the Calculated Custom Index Adjustment Event Amount on a daily basis from and including the Calculated Custom Index Adjustment Event Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate specified in the applicable Final Terms or (y) if greater, its nominal amount; or
- (6) in the case of a Custom Index Modification which occurs in respect of a Custom Index in the Basket which occurs on the last Valuation Date, last Averaging Date, last Observation Date, last Strike Date, last Automatic Early Redemption Valuation Date, last Knock-in Determination Day or last Knock-out Determination Day only, the Calculation Agent may elect to calculate the level of such Custom Index, using in lieu of the published level for the Custom Index as of the Valuation Date, Averaging Date, Observation Date, Strike Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination

Day, as the case may be, the level of the Custom Index as of that date determined by the Calculation Agent in accordance with the formula for and method of calculating the Custom Index last in effect prior to the Custom Index Modification but using only those components that comprised the Custom Index prior to the Custom Index Modification.

- (iii) in the case of Custom Index Linked Notes relating to a Basket of Custom Indices where Scheduled Custom Index Business Day (Per Custom Index Basis) is specified as applicable in the applicable Final Terms, then:
 - (A) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring on the last Valuation Date, the last Averaging Date, the last Observation Date, the last Automatic Early Redemption Valuation Date, the last Knock-in Determination Day, the last Knock-out Determination Day or the last Strike Date, then the Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, for each Custom Index not affected by the occurrence of the Custom Index Disruption shall be the scheduled last Valuation Date, the last Averaging Date, the last Observation Date, the last Automatic Early Redemption Valuation Date, the last Knock-in Determination Day, the last Knock-out Determination Day or the last Strike Date, as the case may be, and the Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, for each Custom Index in the Basket affected by the Custom Index Disruption (each an **Affected Custom Index**) shall be the first succeeding Scheduled Custom Index Business Day on which a Custom Index Disruption is not occurring in respect of such Affected Custom Index, unless there is a Custom Index Disruption on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Strike Date, as the case may be, in which case the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Strike Date, as the case may be, for the relevant Affected Custom Index and the Calculation Agent shall determine the Settlement Price by using commercially reasonable efforts to determine the level of the relevant Affected Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the relevant Affected Custom Index last in effect prior to the occurrence of the Custom Index Disruption and using its good faith estimate of the value for the components of the Affected Custom Index;

- (B) following a Custom Index Modification or Custom Index Cancellation at any time or a Custom Index Disruption (which in the latter case occurs or is occurring on the Strike Date, an Averaging Date (other than the last Averaging Date), an Observation Date (other than the last Observation Date), a Valuation Date (other than the last Valuation Date), an Automatic Early Redemption Valuation Date (other than the last Automatic Early Redemption Valuation Date), a Knock-in Determination Day (other than the last Knock-in Determination Day), a Knock-out Determination Day (other than the last Knock-out Determination Day), the Calculation Agent shall determine if such Custom Index Adjustment Event has a material effect on the Notes and, if so:
- (1) if the Custom Index Adjustment Event is a Custom Index Disruption which occurs or is occurring on the Strike Date, an Averaging Date, an Observation Date, an Automatic Early Redemption Valuation Date, a Knock-in Determination Day, a Knock-out Determination Day or a Valuation Date, the Calculation Agent may determine that the Strike Date, relevant Averaging Date or Observation Date, as the case may be, for each Custom Index in the Basket not affected by the occurrence of the Custom Index Disruption shall be the scheduled Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, and the Strike Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date, as the case may be, for each Custom Index in the Basket affected by the Custom Index Disruption (each an **Affected Custom Index**) shall be the first succeeding Scheduled Custom Index Business Day (in the case of the Strike Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-out Determination Day or Valuation Date) or Valid Date (in the case of an Averaging Date or Observation Date, as the case may be) on which a Custom Index Disruption is not occurring in respect of such Affected Custom Index unless there is a Custom Index Disruption on each of the number of consecutive Scheduled Custom Index Business Days equal to the Specified Maximum Days of Disruption immediately following the scheduled Strike Date, Averaging Date, Observation Date, Valuation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, in which case the Calculation Agent may determine that the last such consecutive Scheduled Custom Index Business Day shall be deemed to be the Strike Date, Averaging Date, Observation Date, Valuation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day, Knock-in Determination or Knock-out Determination Day, as the case may be (irrespective, in the case of an Averaging Date or Observation Date, of whether

that last consecutive Scheduled Custom Index Business Day is already an Averaging Date or Observation Date, as the case may be) for the relevant Affected Custom Index and may determine the Settlement Price by using commercially reasonable efforts to determine a level of the relevant Affected Custom Index as of the Valuation Time on the last such consecutive Scheduled Custom Index Business Day in accordance with the formulae for and method of calculating the relevant Affected Custom Index last in effect prior to the occurrence of the Custom Index Disruption and using its good faith estimate of the value for the components of the Custom Index; or

- (2) the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar strategy as the original Custom Index and, upon selection of such index, the Calculation Agent shall promptly notify the Holders and such index shall become the Custom Index and shall be deemed to be a Custom Index for the purpose of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Notes as the Calculation Agent in its sole and absolute discretion determines appropriate; or

- (4) unless Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent may require the Issuer to redeem the Notes in which case it will so notify the Issuer and the Issuer will give notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each redeemed Note being redeemed at an amount equal to the fair market value of a Note, taking into account the Custom Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
- (5) if Delayed Redemption on Occurrence of Custom Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Custom Index Adjustment Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Custom Index Adjustment Event Amount**) as soon as practicable

following the occurrence of the Custom Index Adjustment Event (the **Calculated Custom Index Adjustment Event Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Custom Index Adjustment Event Amount plus interest accrued on the Calculated Custom Index Adjustment Event Amount on a daily basis from and including the Calculated Custom Index Adjustment Event Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate specified in the applicable Final Terms or (y) if greater, its nominal amount; or

- (6) in the case of a Custom Index Modification which occurs in respect of a Custom Index in the Basket on the last Valuation Date, last Averaging Date, last Observation Date, last Automatic Early Redemption Valuation Date, last Knock-in Determination Day, last Knock-out Determination Day or last Strike Date, only, the Calculation Agent may elect to calculate the level of such Custom Index, using in lieu of the published level for the Custom Index as of the Valuation Date, Averaging Date, Observation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day or Strike Date, as the case may be, the level of the Custom Index as of that date determined by the Calculation Agent in accordance with the formula for and method of calculating the Custom Index last in effect prior to the Custom Index Modification but using only those components that comprised the Custom Index prior to the Custom Index Modification.

(c) Notice

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to paragraph (b) above and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Noteholders copies of any such determinations.

2. **Correction of Custom Index**

With the exception of any corrections published after the day which is three Scheduled Custom Index Business Days prior to the due date for any payment under the Notes calculated by reference to the level of a Custom Index, if the level of the Custom Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction published by the relevant Index Sponsor within the number of days equal to the Custom Index Correction Period of the original publication, the level to be used shall be the level of the Custom Index as so corrected. Corrections published (x) after the day which is three Scheduled Index Business Days prior to a due date for payment under the Notes calculated by reference to the level of the Custom Index or (y) after the relevant Custom Index Correction Period will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

3. Consequences of an Additional Disruption Events

- (a) If an Additional Disruption Event occurs, the Calculation Agent in its sole and absolute discretion may take the action described in (i), (ii), (iii) or (if applicable) (iv):
- (i) determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar strategy as the original Custom Index within twenty (20) Scheduled Custom Index Business Days (or such other number of Scheduled Custom Index Business Days specified in the applicable Final Terms) of the relevant Additional Disruption Event and, upon selection of such index, the Calculation Agent shall promptly notify the Issuer and the Issuer will give notice to the Noteholders in accordance with General Condition 13 and such index shall become the Successor Index and be deemed to be a Custom Index for the purposes of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Notes as the Calculation Agent in its sole and absolute discretion determines appropriate. Such substitution and the relevant adjustment to the terms of the Notes will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its absolute discretion and specified in the notice referred to below which may, but need not be the date on which the Additional Disruption Event occurred; or
 - (iii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, require the Issuer to redeem the Notes in which case it shall so notify the Issuer and the Issuer will give notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of each Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
 - (iv) if Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Additional Disruption Amount**) as soon as practicable following the occurrence of the Additional Disruption Event (the **Calculated Additional Disruption Amount Determination Date**) and on the Maturity Date shall notify the Issuer and the Issuer shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Additional Disruption Amount plus interest accrued from and including the Calculated Additional Disruption Amount Determination Date to but excluding the

Maturity Date at the rate specified in the applicable Final Terms or (y) if greater, at its nominal amount.

- (b) Upon the occurrence of an Additional Disruption Event, if the Calculation Agent determines to take any action in respect thereof it shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

4. Knock-in Event and Knock-out Event

- (a) If Knock-in Event is specified as applicable in the Final Terms, then, unless otherwise specified in such Final Terms, payment under the relevant Notes subject to a Knock-in Event shall be subject to a condition precedent that a Knock-in Event has occurred.
- (b) If Knock-out Event is specified as applicable in the Final Terms, then, unless otherwise specified in such Final Terms, payment under the relevant Notes subject to a Knock-out Event shall be subject to a condition precedent that a Knock-out Event has not occurred.
- (c) If on any Knock-in Determination Day or Knock-out Determination Day a Custom Index Disruption Event exists or is occurring in the one hour period prior to or following the relevant Knock-in Valuation Time or a Knock-out Valuation Time, then the Knock-in Event or the Knock-out Event shall be deemed not to have occurred; provided that if, by operation of this provision, no Knock-in Determination Day or Knock-out Determination Day would occur in the Knock-in Determination Period or Knock-out Determination Period, the Knock-in Period Ending Date or Knock-out Period Ending Date shall be treated as a Valuation Date and the Calculation Agent shall determine the level of the Custom Index as at the Knock-in Valuation Time or Knock-out Valuation Time in accordance with the provisions contained in the definition of Valuation Date.
- (d) Definitions relating to Knock-in Event/Knock-out Event:

Payment shall be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
- (iii) if an Averaging Date or any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **Calculated Foreign Exchange (FX) Disruption Amount**) as soon as practicable following the occurrence of the Disruption Event (the **Calculated Foreign Exchange (FX) Disruption Amount Determination Date**) and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Foreign Exchange (FX) Disruption Amount plus interest accrued on the Calculated Foreign Exchange (FX) Disruption Amount on a daily basis from and including the Calculated Foreign Exchange (FX) Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its nominal amount.

It conducts its business under the commercial name “BBVA”. BBVA is registered with the Commercial Registry of Vizcaya (Spain). Capital Expenditures

BBVA’s principal investments are financial subsidiaries and affiliates. The main capital expenditures in 2012, 2011 and 2010 were the following:

2012

Acquisition of Unnim

On 7th March, 2012, the Management Commission of the Fund for Orderly Bank Restructuring (*Fondo de Reestructuración Ordenada Bancaria* or, the **FROB**) accepted BBVA’s offer to acquire UnnimBanc, S.A. (**Unnim**). The FROB, the Deposit Guarantee Fund of Credit Institutions (*Fondo de*

Garantía de Depósitos, the **FGD**) and BBVA have entered into a purchase agreement, by virtue of which BBVA will acquire 100 per cent. of the shares of Unnim for a purchase price of €1.

In addition, BBVA, the FDG, the FROB and Unnim have signed a “Protocol of Financial Measures” for the restructuring of Unnim, which regulates the Asset Protection Scheme through which the FGD will be responsible for 80 per cent. of the losses undergone by a predetermined asset portfolio of Unnim, calculated once the existing provisions on the related assets are applied, for a period of 10 years following the transaction.

The closing of the purchase agreement and the “Protocol of Financial Measures” is subject to obtaining the relevant administrative authorizations and approvals, including the approval of the Bank of Spain, the Finance Secretary of State, the European Commission and the relevant competition authorities. Unnim’s assets as of 31st December, 2011 were €29 billion and it reported losses of €469 million for the year ended 31st December, 2011.

2011

Acquisition of a capital holding in the Turkish bank Garanti

On 22nd March, 2011, through the execution of the agreements signed in November 2010 with the Dogus group and having obtained the corresponding authorizations, BBVA completed the acquisition of a 24.89 per cent. holding of the share capital of Garanti. Subsequently, an additional 0.12 per cent. holding was acquired through the stock exchanges, increasing the BBVA Group’s total holding in the share capital of Garanti to 25.01 per cent. as of 31st December, 2011. The total amount spent on these acquisitions totalled USD 5,876 million (approximately €4,408 million).

The agreements with the Dogus group include an arrangement for the joint management of the bank and the appointment of some of the members of its Board of Directors by the BBVA Group. BBVA also has a perpetual option to purchase an additional 1 per cent. of Garanti, which will become exercisable on 22nd March, 2016. Considering its current shareholding structure, if the BBVA Group were to exercise this option, it would have effective control of Garanti.

As of 31st December, 2011, the goodwill recorded in connection with these acquisitions amounted to €1,262 million, although this amount is provisional since IFRS 3 grants a period of one year to make a definitive determination. BBVA financed part of this acquisition with funds from the capital increase carried out on 29th November, 2010.

Taking into account the aforementioned joint management agreements, this 25.01 per cent. holding in Garanti is consolidated in the BBVA Group using the proportionate consolidation method, and its contribution to the BBVA Group as of 31st December, 2011, after applying the corresponding standardization and consolidation adjustments, represented 3.06 per cent. of the Group’s total assets (€18,309 million) and 2.66 per cent. of its total liabilities (€14,850 million) at that date.

The contribution from Garanti to the main items on the consolidated balance sheet as of 31st December, 2011, after applying the corresponding standardization and consolidation adjustments, was €4,937 million to various portfolios of financial assets, €11,160 million to “Loans and receivables” and €14,187 million to “Financial liabilities at amortized cost”.

The contribution of Garanti to the BBVA Group’s consolidated income statement from the date of its acquisition to 31st December, 2011, after making the corresponding standardization and consolidation adjustments, was €428 million to “Net interest income”, €580 million to “Gross income”, and €193 million to “Net income”. This represents a total of 6.43 per cent. of the Group’s consolidated net income in 2011.

If this business combination had been performed at the start of 2011, it is estimated that after the corresponding standardization and consolidation adjustments, Garanti would have contributed €266 million to Group's consolidated net income for 2011.

Purchase of Credit Uruguay Banco

On 18th January, 2011, after obtaining the corresponding authorizations, the purchase of Credit Uruguay Banco was completed for approximately €78 million, generating goodwill for an insignificant amount.

Capital increase in CNCB

BBVA participated in the capital increase carried out by CNCB in 2011, in order to maintain its stake in CNCB (15 per cent.), with a payment of €425 million.

2010

On 1st April, 2010, after obtaining the corresponding authorizations, the purchase of an additional 4.93 per cent. of CNCB's capital was finalised for €1,197 million. As of 31st December, 2010, BBVA had a 29.68 per cent. holding in CIFH and a 15 per cent. holding in CNCB.

Capital Divestitures

BBVA's principal divestitures are financial, in subsidiaries and in affiliates.

During 2011, BBVA sold its participation in certain non-strategic associates and also concluded the liquidation and merger of several issuers, financial services and real estate affiliates.

Business Overview

BBVA is a highly diversified international financial group, with strengths in the traditional banking businesses of retail banking, asset management, private banking and wholesale banking. It also has investments in some of Spain's leading companies.

Business Areas

For fiscal year 2011, BBVA changed the management of its business areas mainly due to the integration of Garanti into the BBVA Group and a new management focus on geographical business areas, instead of a mix of geographical and business activities areas. BBVA believes that, since the beginning of the financial crisis, the importance of the geographical location of businesses in order to make a proper assessment of risks and a better estimate of future growth possibilities has become more evident.

BBVA currently manages its business areas to focus on five geographical areas: Spain, Mexico, South America, the United States and Eurasia. The changes made in 2011 with respect to the criteria followed in 2010 to reflect the current composition of BBVA's business areas are summarised below:

- In 2011, the integration of Garanti into BBVA resulted in the creation of a new geographical business area, Eurasia, which includes BBVA's investment in Garanti, BBVA's Asian operations, including its stake in CNCB, and BBVA's European business outside of Spain.
- The operations of Spain and Portugal were disaggregated. The new Spain business segment excludes the Portuguese business (which is now included in Eurasia) mainly to separate

activities in Spain and outside Spain, and includes the global activities related to wholesale banking and asset management, which in 2010 BBVA reported under its former Wholesale Banking and Asset Management (**WB&AM**) business area.

The business areas of Mexico, the U.S. and South America did not change in 2011.

As a result of the above, in 2011 the Group's businesses have been restructured into the following business areas, which are further broken down into business units, as described below:

- Spain;
- Eurasia;
- Mexico;
- United States; and
- South America.

In addition to these business areas, BBVA continues to have a separate "Corporate Activities" area. This area handles BBVA's general management functions, which mainly consist of structural positions for interest rates associated with the euro balance sheet and exchange rates, together with liquidity management and shareholders' funds.

This area also books the costs from central units that have a strictly corporate function and makes allocations to corporate and miscellaneous provisions, such as early retirement and others of a corporate nature. It also includes the Industrial and Financial Holdings Unit and the Group's Spanish real estate business.

The financial information for BBVA's business areas for 2010 and 2009 presented in this Offering Circular has been prepared on a uniform basis, consistent with BBVA's organisational structure in 2011.

The breakdown of the BBVA Group's total assets by business segments as of 31st December, 2011, 2010 and 2009 is as follows:

As of 31st December, 2011, the balance of **loans and advances to customers** was €214,156 million, a 1.8 per cent. decrease from the €218,127 million recorded as of 31st December, 2010, as a result of the deleveraging process and weak consumption. The general trend has been a weak turnover, with the most notable decreases recorded in the segment of higher-risk businesses and corporations, and in consumer loans.

As of 31st December, 2011, outstanding **payment protection insurance policies** amounted to €41 billion and insured approximately 20 per cent. of BBVA's total loans and advances to customers in Spain as of such date. Substantially all of BBVA's payment protection insurance products provide consumer or mortgage payment protection in the case of loss of life or disability (while approximately 5 per cent. of these products provide protection in the case of unemployment or a work-related illness). These insurance products are granted by BBVA's insurance subsidiary to borrowers within its own consumer and mortgage portfolio. Upon the occurrence of the insured event, BBVA's insurance subsidiary pays the entire outstanding principal amount, together with any accrued interest, of the related loan. Since the risk remains within the Group, BBVA does not consider its payment protection insurance products when determining the appropriate amount of allowance for loan losses on the related loans. BBVA accounts for these products as insurance contracts.

As of 31st December, 2011, total on-balance and off-balance sheet **customer deposits** including mutual funds, pension funds and customer portfolios, were €168,330 million, a 1.1 per cent. increase from €166,450 million posted as of 31st December, 2010. There were changes in the mix of total customer deposits as a result of turmoil in the markets, which reduced the value of assets under management and led to a change in customer preference from mutual funds to other liability products, particularly promissory notes carrying high fixed levels of interest. Time deposits remained stable due to the high percentage of renewals during the third quarter of 2011.

Customer deposits were €117,174 million as of 31st December, 2011 compared to €112,852 as of 31st December, 2010, an increase of 3.8 per cent., mainly due to the high percentage of renewals of time deposits during the period.

Mutual fund assets under management were €20,366 million as of 31st December, 2011, a 13.1 per cent. decrease from the €23,445 million recorded as of 31st December, 2010.

As of 31st December, 2011, BBVA's outstanding **guaranteed mutual fund products** amounted to €12 billion (approximately 58 per cent. of its outstanding mutual fund products in Spain as of such date). BBVA's guaranteed fund products relate mainly to mutual funds in respect of which the return of principal (rather than the yield) is guaranteed by means of a deposit and a derivative contract entered into by it, both of which are recognized on BBVA's balance sheet. BBVA account for these products as deposits or derivative contracts.

Pension fund assets under management were €17,212 million as of 31st December, 2011, a 2.5 per cent. increase from the €16,799 million recorded as of 31st December, 2010.

Eurasia

This business area covers the Group's activity in Europe (excluding Spain) and Asia. Accordingly, it includes BBVA Portugal, Consumer Finance Italy and Portugal, the retail business of branches in Paris, London and Brussels (which in 2010 had been reported under the "Spain and Portugal" business area), and WB&AM activity (comprised of Corporate and Investment Banking, Global Markets and CNCB) within this geographical area. It also covers the Group's holding in Garanti.

The importance of this area is increasing both in terms of earnings and the balance sheet and, as is the case with the rest of the franchises, it has evolved positively and increased the Group's diversification and growth capacity. The positive contribution of Garanti starting in March 2011 and the increase in earnings from CNCB are important developments in this regard.

The following table sets forth information relating to the business activity of this business area for the years ended 31st December, 2011, 2010 and 2009:

As of 31st December, 2011, the **loans and advances to customers** was €34,740 million, a 43.1 per cent. increase from the €24,281 million recorded as of 31st December, 2010 mainly due to the incorporation of Garanti. Excluding the amounts from the Turkish bank, the loan book increased by 3.2 per cent.

As of 31st December, 2011, **customer deposits** were €20,987 million, a 4.5 per cent. increase from the €20,078 million as of 31st December, 2010, mainly due to the contribution of Garanti, principally of retail deposits (current and saving accounts and time deposits), which was partially offset by the decrease in wholesale funds, which affected mainly the European branches (in London, Frankfurt and Brussels).

As of 31st December, 2011, the balance of **loans and advances to customers** was €36,205 million, a 0.9 per cent. decrease from the €36,526 million as of 31st December, 2010 mainly due to the decrease in wholesale lending as a result, among others, of the early payment by the Federal Government of a credit line underwritten by several banks (including BBVA) in the country, and the switch made by large corporations from bank lending to financing in wholesale markets due to the low interest rates.

As of 31st December, 2011, **customer deposits** were €37,704 million, a 0.9 per cent. decrease from the €38,051 million recorded as of 31st December, 2010, due to the exchange rate effect. Excluding this effect, there was an increase of 8.1 per cent.

Mutual fund assets under management were €15,612 million as of 31st December, 2011, a 1.8 per cent. increase from the €15,341 million recorded as of 31st December, 2010.

Pension fund assets under management were €13,132 million as of 31st December, 2011, a 2.8 per cent. increase from the €12,781 million recorded as of 31st December, 2010, due to the positive performance of Afore Bancomer, which continued to perform well as result of the stability of the Mexican labour market.

Lower-cost transactional deposits such as current and savings accounts increased by 35.3 per cent., which explains a portion of the improvement in net interest income.

Off-balance sheet funds, however, fell by 2.3 per cent. as a result of turmoil in the markets.

United States

This business area encompasses the Group's business in the United States and Puerto Rico. BBVA Compass accounted for approximately 82 per cent. of the area's balance sheet as of 31st December, 2011. Given its weight, most of the comments below refer to BBVA Compass. This business area also covers the assets and liabilities of the BBVA office in New York, which specializes in transactions with large corporations.

The business units included in the United States business area are:

- BBVA Compass Banking Group, and
- Other units: BBVA Puerto Rico and Bancomer Transfers Services (**BTS**).

As of 31st December, 2011, **customer deposits** were €36,664 million, an 11.3 per cent. decrease from €41,354 million as of 31st December, 2010. In 2011, there was an improvement in the structure of the balance sheet as a result of the decrease in high-interest deposits and an increase in non-interest accounts.

Trend Information

The European financial services sector is likely to remain competitive. Further consolidation in the sector (through mergers, acquisitions or alliances) is likely as the other major banks look to increase their market share or combine with complementary businesses or via acquisitions of distressed entities. It is foreseeable that regulatory changes will take place in the future that will diminish barriers to such consolidation transactions. However, some of the hurdles that should be dealt with are the result of local preferences, such as consumer protection rules. If there are clear local consumer preferences, leading to specific local consumer protection rules, the same products cannot be sold across all the jurisdictions in which the Group operates, which reduces potential synergies. Certain challenges, such as the Value Added Tax regime for banks do not however, relate to the interest or preferences of consumers.

The new Value Added Tax regime for banks is consistent with a more general trend of increasing pressure on financial systems. Within the Euro area, several countries are imposing new taxes on the financial industry, such as bank levies, financial activity taxes or financial transactions taxes. Differing tax regimes could set incentives for banks to operate, or transactions to take place, in those geographies where the tax pressure is lower. The implementation of new regulations in countries where BBVA operates which results in increased tax pressure, or BBVA's inability to operate in geographies where the tax pressure is lower, could have a material impact on BBVA's profitability.

Regarding consumer protection rules, initiatives such as the review of the Markets in Financial Instruments Directive (**MIFID**) or the EU Commission consultation on the legislative steps for the Packaged Retail Investment Products (**PRIPs**) proposal could entail significant costs for BBVA's operations. In addition, it is unclear whether these initiatives will be applied equally across European countries, and differences in the implementation of these initiatives could affect the level-playing-field in the industry.

Regarding MIFID, on October 20, 2011, the European Commission presented a legislative proposal to review the MIFID in order to set clearer and more comprehensive rules across all financial instruments, in line with G-20 recommendations and specific U.S. Dodd-Frank Act provisions. The current proposal includes enhanced transparency requirements concerning trading activities in equity markets, tougher rules for algorithmic and high frequency trading activities and stricter requirements for portfolio management, investment advice and the offer of complex financial products such as structured products. These stricter rules on investment advice include, among others, telephone recordings, stricter categorization of clients, limits to “execution only” services for retail clients and stricter information duties for complex products. According to estimates published by the European Commission, the MIFID review is estimated to impose initial compliance costs of between €512 and €732 million and ongoing costs of between €312 and €586 million per year in the aggregate for participants in the EU banking sector. This represents an impact for initial and ongoing costs of 0.10 per cent. to 0.15 per cent. and 0.06 per cent. to 0.12 per cent., respectively, of total operating spending in the EU banking sector. However, banking industry estimates are higher since the European Commission’s estimates do not account for all costs associated with the implementation of the MIFID review, including IT costs to be incurred in order to comply with the new transparency requirements. In addition, the MIFID review represents an overhaul of BBVA’s business model, mainly regarding its investment advice services.

Regarding PRIIPs, the measures planned by the European Commission aim to achieve higher transparency in the packaged retail investment products sector by requiring that certain mandatory information is made available to investors prior to making an investment decision and imposing stricter commercial practices. The MIFID provisions are considered to be a benchmark on conduct of business and the management of conflicts of interest. The preparation and provision to investors of the proposed mandatory information, as well as the revision of BBVA’s commercial practices and the monitoring of the implementation of the new rules, are expected to entail costs for BBVA.

The following are the most important trends, uncertainties and events that are reasonably likely to have a material effect on BBVA or that would cause the financial information disclosed herein not to be indicative of its future operating results or financial condition:

- the prolonged downturn in the Spanish economy and sustained unemployment above historical averages;
- the restructuring and consolidation of the Spanish banking sector;
- doubts about European economies (both peripheral and core Eurozone economies) may continue in 2012 affecting financial markets;
- uncertainties relating to the sustainability of any recovery in economic growth and interest rate cycles, especially in the United States, where the high current account deficit of the U.S. economy may translate into an upward adjustment of risk premium and higher global interest rates;
- the fragility of the recovery from the financial crisis triggered by defaults on subprime mortgages and related asset-backed securities in the United States which has significantly disrupted the liquidity of financial institutions and markets;
- the fragility of the Greek, Italian, Portuguese and Irish economies, which could affect the funding costs of Spanish financial institutions and the Spanish Government;
- the effects of the withdrawal of significant monetary and fiscal stimulus programs and uncertainty over government responses to growing public deficits;

- uncertainty over regulation of the financial industry, including the potential limitation on the size or scope of the activities of certain financial institutions, the regulation on systemic financial institutions or additional capital requirements, coming both from the Bank of Spain or globally;
- uncertainty over the minimum solvency levels to be required in the future to the financial institutions by the Spanish government or the European authorities;
- the continued downward adjustment in the housing sector in Spain, which could further negatively affect credit demand and household wealth, disposable income and consumer confidence. The existence of a significant over supply in the housing market in Spain and the pessimistic expectations about house price increases may postpone investment decisions, therefore negatively affecting mortgage growth rates;
- continued volatility in capital markets or a downturn in investor confidence, linked to factors such as geopolitical risk, particularly in the Middle East. Continued or new crises in the region, such as the recent Iran-US tensions, could cause an increase in oil prices, generating inflationary pressures that could have a negative effect on interest rates and economic growth;
- the effect that an economic slowdown may have over Latin American markets and fluctuations in local interest and exchange rates; and
- although it is foreseeable that entry barriers to domestic markets in Europe will be lowered, BBVA's plans for expansion into other European markets could be affected by entry barriers in such countries by protectionist policies of national governments, which are generally higher in times of crisis. In addition, the new capital requirements could prevent financial entities from expanding their activities beyond their core business.

DIRECTORS AND SENIOR MANAGEMENT

BBVA is managed by a Board of Directors which, in accordance with its current by-laws (*Estatutos*), must consist of no less than nine and no more than 16 members. All members of the board of directors are elected to serve three-year terms.

BBVA's corporate governance system is based on the distribution of functions between the Board, the Executive Committee and the other Board Committees, namely: the Audit and Compliance Committee; the Appointments Committee; the Compensation Committee; and the Risk Committee. BBVA's Board of Directors is assisted in fulfilling its responsibilities by the Executive Committee (*Comisión Delegada Permanente*) of the Board of Directors. BBVA's Regulations of the Board of Directors states that the Board of Directors must try to ensure that the Board of Directors is comprised of a majority of external directors. The Board of Directors delegates all management functions, except those that it must retain due to legal or statutory requirements, to the Executive Committee.

Board of Directors

The Board of Directors of BBVA is currently comprised of 14 members. The business address of the Directors of BBVA is Paseo de la Castellana 81, 28046 Madrid.

The following table sets forth the names of the members of the Board of Directors as of the date of this Base Prospectus, their date of appointment and re-election, if applicable, their current positions and their present principal outside occupation and five-year employment history.

BBVA may, from time to time, enter into transactions in the ordinary course of its business, and on an arm's-length basis, with the Directors.

BBVA's Regulations for the Board of Directors include rules which are designed to prevent situations where a potential conflict of interest may arise. These Regulations provide, among other matters, that Directors with a potential conflict of interest may not participate in meetings at which those situations are being considered. Accordingly, there are no potential conflicts of interest between the private interests or other duties of the Directors and their duties to BBVA.

TAXATION

The following summary refers solely to certain Spanish tax consequences of the acquisition, ownership and disposition of the Notes. It does not purport to be a complete analysis of all tax consequences relating to the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which might be subject to special rules. Prospective investors should consult their own tax advisors as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of Spain of acquiring, holding and disposing of Notes and receiving any payments under the Notes. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date. References in this section to Noteholders include the beneficial owners of the Notes.

ACQUISITION OF THE NOTES

The issue of, subscription for, transfer and acquisition of the Notes is exempt from Transfer and Stamp Tax (*Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados*) and Value Added Tax (*Impuesto sobre el Valor Añadido*).

TAXATION ON THE INCOME AND TRANSFER OF THE NOTES

The tax treatment of the acquisition, holding and subsequent transfer of the Notes is summarised below and is based on the tax regime applicable to the Notes pursuant to Royal Legislative Decree 5/2004 of March 5 approving the consolidated text of the Non-Resident Income Tax Law (*Impuesto sobre la Renta de los no Residentes*), Royal Legislative Decree 4/2004 of March 5, 2004 approving the consolidated text of the Corporate Income Tax Law (*Impuesto sobre Sociedades*) and Law 35/2006 of November 28, 2006 on Personal Tax Law (*Impuesto sobre la Renta de las Personas Físicas*) Law 19/1991 of June 6, 1991 approving the Wealth Tax Law (*Impuesto sobre el Patrimonio*), and Law 29/1987 of December 18, 1987 approving the Inheritance and Gift Tax Law. Consideration has also been given to the rules for the implementation of such regulations (Royal Decree 1776/2004 of 30 July approving the Non-Resident Income Tax Regulations, Royal Decree 439/2007 of 30 March, approving the Individuals Income Tax Regulations and Royal Decree 1777/2004 of July 30, 2004 approving the Corporate Income Tax Regulations).

Consideration has also been given to Spanish legislation on the issuance of preferred securities and debt securities issued by Spanish financial and non-financial listed entities, either directly or through a subsidiary (Law 13/1985, as amended, and RD 1065/2007(as amended by RD 1145/2011), approving the General Regulations relating to tax inspection and management procedures and developing the common rules of the procedures to apply taxes).

Income obtained by Noteholders who are Non-Resident Income Tax payers in Spain in respect of the Notes

Income obtained by Noteholders who are Non-Resident Income Tax payers, both in respect of interest and in connection with the transfer, repayment or redemption of the Notes, whether or not through a permanent establishment, shall be considered Spanish source income and therefore subject to taxation in Spain under Legislative Royal Decree 5/2004 of 5 March approving the Consolidated Non-Resident Income Tax Law, without prejudice to the provisions contained in any applicable tax treaty for the avoidance of double taxation (“**DTT**”).

Income not obtained through a permanent establishment in Spain in respect of the Notes

Income obtained by Noteholders who are not tax resident in Spain acting for these purposes without a permanent establishment within Spain is exempt from Non-Resident Income Tax in the terms described under “*Tax reporting obligations of the Issuer and the Guarantor*” below.

Income obtained through a permanent establishment in Spain in respect of the Notes / Corporate Income Tax taxpayers.

The holding of Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

Income obtained by non-Spanish resident holders acting through a permanent establishment in Spain in respect of the Notes will be taxed under the rules provided by Chapter III of the Non-Resident Income Tax Law. These Noteholders will be subject to taxation substantially in the same manner as Spanish Corporate Income Tax taxpayers and, therefore, it shall be computed as taxable income in accordance with the general rules set out in the Corporate Income Tax Law and will therefore be taxed at the current rate of 30 per cent.

Income derived from the transfer of the Notes shall not be subject to withholding tax as provided by Section 59(s) of the Corporate Income Tax Regulations, to the extent that the Notes satisfy the requirements laid down by the reply to the Directorate General for Taxation's (*Dirección General de Tributos*) consultation, on 27th July, 2004, indicating that in the case of issuances made by entities with tax residency in Spain, (as in the case of the Issuer), application of the exemption requires that the Notes be placed outside Spain in another OECD country and traded on organised markets in OECD countries. Notes issued under the Programme and traded in an OECD country different from Spain are expected to satisfy these requirements.

For withholding on income derived from payment of interest, redemption or repayment of the Notes see “Taxation - Tax Reporting Obligations of the Issuer and the Guarantor”.

In accordance with Section 59 (q) of the Corporate Income Tax Regulations, there is no obligation to withhold on the income derived from the transfer of the Notes obtained by Spanish Corporate Income Tax taxpayers from financial assets represented in book entries form and traded in a Spanish official secondary market.

Individuals with tax residency in Spain

Income obtained by Noteholders who are Personal Income Tax payers, both as interest and in connection with the transfer, redemption or repayment of the Notes, shall be considered income on investments obtained from the assignment of an individual's capital to third parties, as defined in Section 25.2 of Individuals Income Tax Law and therefore will be taxed as savings income at the applicable rate (currently varying from 21 per cent to 27 per cent).

The above mentioned income will be subject to the corresponding personal income tax withholding tax at the applicable tax rate (currently 21 per cent.).

The above mentioned income will be subject to the corresponding personal income tax withholding at the applicable tax rate (currently 21 per cent.). Article 44 of the RD 1065/2007 has established new information procedures for debt instruments issued under the Law 13/1985 (which do not require identification of the Noteholders) and has provided that the interest will be paid by the relevant Issuer to the Paying Agent for the whole amount, provided that such information procedures are complied with.

Nevertheless, withholding tax at the applicable rate (currently 21 per cent.) may have to be deducted by other entities (such as depositaries or financial entities), provided that such entities are resident for tax purposes in Spain or have a permanent establishment in Spanish territory.

The Issuers and the Guarantor consider that, according to RD 1145/2011, they are not obliged to withhold any tax amount provided that the new simplified information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent as it is described in section “*Tax Reporting Obligations of the Issuer and the Guarantor*”.

However, regarding the interpretation of the “Tax Reporting Obligations of the Issuer and the Guarantor” please refer to “Risk Factors – Spanish Tax Rules”.

Notes registered in Spain in book entry form and traded in a Spanish secondary market

There is no obligation to withhold tax on the income derived from the transfer or reimbursement of the Notes as provided by Section 75 (e) of the Personal Income Tax Regulations, to the extent that the Notes are represented by book entries and are traded on a Spanish regulated market, except for the part of the price which is equivalent to the accrued interest on any transfers which are made within the thirty days immediately prior to the maturity of the coupon, when the acquirer is an individual or entity not resident in Spain or is a taxable person for Corporate Income Tax purposes and this express income is exempt from the obligation to withhold in relation to the acquirer.

Wealth Tax

Individuals with tax residency in Spain are subject to Wealth Tax on tax year 2012 to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Notes which they hold as at 31 December 2012.

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory, exceed €700,000 would be subject to Wealth Tax at the applicable rates, ranging between 0.2% per cent. and 2.5% per cent., without prejudice of any exemption that should be applicable and the laws and regulations in force in each Autonomous Region.

Legal entities are not subject to Wealth Tax.

Inheritance and Gift Tax

The transfer of the Notes to individuals by inheritance, legacy or donation shall be subject to the general rules of Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*) in accordance with the applicable Spanish and State rules even if title passes outside Spain and neither the heir nor the beneficiary, as the case may be, is resident in Spain for tax purposes, without prejudice to the provisions of any DTT signed by Spain.

The effective tax rates, after applying all relevant factors, range between 0 per cent and 81.6 per cent.

In the event that the beneficiary is an entity other than a natural person, the income obtained shall be subject to Corporate Income Tax or Non-Resident Income Tax, as the case may be, and without prejudice, in the latter event, to the provisions of any DTT that may apply.

Tax rules for payments made by the Guarantor

Payments which may be made by the Guarantor to Noteholders, if the Guarantee is enforced, will be subject to the same tax rules previously set out for payments made by the Issuer.

Tax Reporting Obligations of the Issuer and the Guarantor

Law 4/2008 removed the obligation for Spanish issuers or their parent companies to provide information to the Spanish tax authorities concerning holders of securities who are not Spanish Residents and who do not act through a permanent establishment in Spain in respect of the Notes. However, the implementation of the changes contemplated by Law 4/2008 was subject to the adoption of relevant secondary implementing legislation. Such secondary legislation was approved by RD 1145/2011 and came into force on 1st August, 2011.

RD 1145/2011 modified, among other provisions, article 44 of RD 1065/2007, which sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 13/1985. The new procedures apply to interest deriving from preference shares and debt instruments to which Law 13/1985 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

Notes originally registered with the entities that manage clearing systems located in Spain

According to the wording of article 44.4 of RD 1065/2007, income derived from securities originally registered with a clearing system located in Spain, will be paid free of Spanish withholding tax in respect to non-Spanish-resident holders (acting or not through a permanent establishment in the Kingdom of Spain) or to legal entities that are resident in the Kingdom of Spain for tax purposes and are subject to Corporate Income Tax, provided that the entities which hold values registered on its third parties accounts or, if applicable, the entities that manage clearing systems located outside Spain which have entered into an agreement with such clearing system located in Spain, submit a statement to the Issuer in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” below) with the following information:

- (i) identification of the securities; and

Common References

For these purposes, “income” means interest and the difference, if any, between the aggregate redemption price paid upon the redemption of the Notes and the issue price of the Notes.

In accordance with Section 44 of RD 1065/2007, the statements mentioned above must be provided to the relevant Issuer on the business day immediately prior to each interest payment date. In the event that on the date, the entities obliged to provide the declaration fail to do so, the relevant Issuer or the Paying Agent on its behalf will make a withholding at the general rate (currently 21 per cent.) on the total amount of the return on the relevant Notes otherwise payable to such entity.

Regarding the interpretation of RD 1065/2007, as amended by RD 1145/2011 and the new simplified information procedures please refer to “*Risk Factors – Spanish Tax Laws*”.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

In order to facilitate the offering of any Tranche of the Notes, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Notes during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilise or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Notes at a level above that which might otherwise prevail for a limited period after the Issue Date. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Selling Restrictions

United States

Neither the Notes nor the Guarantee have been or will be registered under the Securities Act and the Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

Each relevant Dealer has further agreed that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Public Offer Selling Restriction under the Prospectus Directive

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstance falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an **offer of Notes to the public** in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression **Prospectus Directive** means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression **2010 PD Amending Directive** means Directive 2010/73/EU.

Recent Developments

On 3rd February and 11th May, 2012 the Spanish Government enacted RD-L 2/2012 in relation to the reorganisation of the financial sector and RD-L 18/2012 in relation to the reorganisation and sale of real-estate assets in the financial sector. These established new capital requirements for Spanish credit institutions and further coverage for impaired assets linked to the real-estate market in Spain.

The Guarantor has made an initial estimate of the possible impact of the application of the new requirements under RD-L 2/2012 and RD-L 18/2012 to its asset portfolio, which was publicly disclosed in the announcements made by the Guarantor on 6th February and 14th May 2012. The Guarantor estimates that the additional coverage it will need to provide for would have an overall gross impact of €4,6 billion on its total income statement. The final amount of this coverage will be fully written down against the Group's financial statements for the financial year ending 31 December, 2012 and would reduce the Group's capital ratios by approximately 64 basis points. BBVA nonetheless estimates that even after applying these measures, it will continue to meet all of its regulatory capital requirements.

In addition, on 11th May 2012 the Spanish Government announced a new process by which independent experts are to review the valuations of the balance sheets of Spanish credit institutions. This new process is being implemented as at the date of this Offering Circular such that at this stage the Guarantor is unable to assess any possible impact this may have on the Guarantor.

The directors are responsible for the preparation of the Company's financial statements in accordance with the regulatory financial reporting framework applicable to the Company (identified in Note 2 to the accompanying financial statements) and, in particular, with the accounting principles and rules contained therein. Our responsibility is to express an opinion on the financial statements taken as a whole based on our audit work performed in accordance with the audit regulations in force in Spain, which require examination, by means of selective tests, of the evidence supporting the financial statements and evaluation of whether their presentation, the accounting principles and policies applied and the estimates made comply with the applicable regulatory financial reporting framework.

Without qualifying our opinion, as indicated in Note 1 to the accompanying financial statements, the Company carries on its business activity as an issuer of preferred securities and other financial instruments as part of the Banco Bilbao Vizcaya Argentaria Group, from which it receives the guarantees required for its operations on an ongoing basis, and it is managed by Group personnel. 4. The accompanying directors' report for 2011 contains the explanations which the directors consider appropriate about the Company's situation, the evolution of its business and other matters, but is not an integral part of the financial statements. We have checked that the accounting information in the directors' report is consistent with that contained in the financial statements for 2011. BBVA Senior Finance, S.A. (Sole-Shareholder Company)

Notes to the financial statements
for the year ended December 31, 2011

1. Company description

BBVA Senior Finance, S.A. (Sole-Shareholder Company) ("the Company") was incorporated on November 3, 2004, for an indefinite period and has its registered office in Bilbao, Gran Vía, 1.

The Company's exclusive corporate purpose is to issue preferred securities and/or other financial instruments, including debt instruments of any kind, for their placement in the Spanish and international markets in accordance with Additional Provision 2 of Law 13/1985 as stipulated in Additional Provision 3 of Law 19/2003 of July 4, 2003 on Capital Movements and Foreign Economic Transactions and on Certain Anti-Money Laundering Measures. The cash obtained from the issues of financial instruments is deposited by the Company at Banco Bilbao Vizcaya Argentaria, S.A.

For a proper interpretation of these financial statements it must be taken into account that the Company carries on its business activity as a company of the Banco Bilbao Vizcaya Argentaria Group (the Group or Group BBVA, see Note 9), whose parent company is Banco Bilbao Vizcaya Argentaria, S.A. (which has its registered office in Plaza San Nicolás 4, Bilbao), obtaining permanently from the same one the guarantees necessary for its activity and being managed by personnel from Group. Consequently, the financial statements must be interpreted in the context of the Group as part of which the Company performs its operations, not as an independent company. The BBVA Group's consolidated financial statements for 2010 were prepared by Banco Bilbao Vizcaya Argentaria S.A.'s Directors at the Board Meeting on February 1, 2011, approved at the Annual General Meeting of March 16, 2011 for subsequently filed at the Mercantile Registry in Bilbao.

Given the business activity to which the Company devotes herself, it does not have any responsibilities, expenses, assets, provisions or contingencies of environmental nature that could be significant in relation with the shareholder's equity, the financial position and the income of the Company. Therefore, no specific disclosures relating to environmental issues are included in these notes to financial statements.

Regulation of Sole-Shareholder companies

As discussed in Note 9, as of December 31, 2011, all the Company's capital stock was owned by Banco Bilbao Vizcaya Argentaria, S.A. and, accordingly, the Company was a Sole-Shareholder company as of that date. Pursuant to current legislation on Sole-Shareholder companies (article 13. Of the Royal Decree 1/2010 of July 2, 2010 that approves the Capital Companies Law) it is hereby stated that at the date of preparation of these financial statements, the Company had formalized the appropriate register book of contracts with its Sole-Shareholder.

The nature and main characteristics of the most significant contracts with the Sole-Shareholder Company are detailed in Note 6 in regard to contracts of deposits, in Note 8 in regard to checking that the Company has paid to Bank Bilbao Vizcaya Argentaria, S.A. and in Note 11 regard the credit facility maintained.

2. Basis of presentation of the financial statements

a) Regulatory financial reporting framework applicable to the Company

The financial statements have been prepared by the Company's Directors according to the regulatory financial reporting framework that applies to the Company, which is the one established in:

- The Spanish Trade Code and the other commercial regulation,
- The Spanish National Chart of Accounts approved by the Royal Decree 1514/2007 and its adjustments included with Royal Decree 1159/2010, September 27th, for the different economic sectors
- The mandatory laws approved by the Institute of Accounting and Auditing of Accounts in accordance to the Spanish National Chart of Accounts and its complementary regulation, and
- The other Spanish accounting regulation that applies to the Company.

b) True and fair view

The accompanying financial statements, which were obtained from the Company's accounting records, are presented in accordance with the regulatory financial reporting framework applicable to the Company and, in particular, with the accounting principles and rules contained therein, and they give a true and fair view of the Company's net worth and financial position as of December 31, 2011 and the results of operations as well as the cash flows generated during 2011. These financial statements, which were formally prepared by the Company's Directors, will be submitted for approval to the Annual General Shareholder's Meeting, and it is considered that they will be approved without any changes. The financial statements for 2010 were approved by the Company's Sole-Shareholder at the Annual General Meeting held on April 14, 2011.

c) Accounting policies

For the preparation of annual accounts have been followed generally accepted accounting principles described in Note 3. There is no mandatory accounting principles and / or valuation rule mandatory that having a significant effect has been applied.

Pursuant to Article 525 of Royal Decree 1/2010 of July 2, that approves the Capital Companies Law, no material effects on shareholder's equity or on the income statement would have arisen if "International Financial Reporting Standards" approved by the European Commission were applied.

Given the characteristics and the matching of the financial assets and financial liabilities measured at amortized cost (see Notes 6, 7 and 10), a detail of their fair value is not disclosed.

d) Key issues in relation to the measurement and estimation of uncertainty

In preparing the accompanying financial statements estimates were made by the Company's Directors in order to measure certain of the assets, liabilities, income, expenses and obligations reported herein. These estimates relate basically to the following:

- The assessment of possible impairment losses on certain assets (see Note 3.a).
- The fair value of certain financial instruments (see Notes 6, 7 and 10)

Although these estimates were made on the basis of the best information available at 2011 year-end, events that take place in the future might make it necessary to change these estimates (upwards or downwards) in coming years. Changes in accounting estimates would be applied prospectively.

e) Grouping of items

Certain items in the balance sheets, income statement accounts, statements of changes in total equity and cash flow statements are grouped together in order to enhance their understanding. However, whenever the amounts involved are material, the information is broken down in the related notes to these financial statements.

f) Comparative information and matters arising from the transition to the new accounting rules

For comparison purposes the Company's directors present, in addition to the figures for 2011 for each item in the balance sheet, income statement, statement of changes in equity, statement of cash flows and notes to the financial statements, the figures for 2010, obtained by applying the Spanish National Chart of Accounts. Consequently, the figures for 2010 included in these notes to the financial statements are presented for comparison purposes only and do not constitute the Company's statutory financial statements for that year.

g) Changes in accounting policies

In 2011 there were no significant changes in accounting policies with respect to those applied in 2010.

h) Error correction

During the preparation of these financial statements there has not been detected any significant error that would suppose the re-expression of the amounts included in the financial statements of 2010.

3. Accounting policies and valuation standards

The main accounting principles and valuation methods applied by the Company in preparing its financial statements, in accordance with the Spanish National Chart of Accounts, were as follows:

a) Financial instruments

Financial assets

Classification -

The financial assets held by the Company are classified in the following categories:

- Loans and receivables: financial assets arising from the sale of goods or the rendering of services in the ordinary course of the Company's business, or financial assets which, not having commercial substance, are not equity instruments or derivatives, have fixed or determinable payments and are not traded in an active market.
- Financial assets held for trading: financial derivatives arising from certain deposits constituted with the funds of certain issues of structured notes (see Notes 6, 7 and 10). These types of structures are called hybrid financial instruments.

Hybrid financial instruments simultaneously include a non-derivative host contract and a financial derivative, known as an embedded derivative, that cannot be transferred separately and some of the cash flows of the hybrid contract vary in a way similar to a stand-alone derivative (e.g. bonds tied to the price of certain shares or changes in a stock market index).

The Company recognises measures and presents separately the host contract (either the deposit or the issue) and the embedded derivative, when the following circumstances concur:

- a) The economic characteristics and risks inherent to the embedded derivative are not closely related to those of the host contract.
- b) A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative.

c) The hybrid contract is not measured at fair value with changes in fair value recognised in profit or loss.

In these situations, the embedded derivative is treated for accounting purposes as a derivative financial instrument and the host contract is recognised according to its nature (either the deposit or the issue). This valuation is only made at the initial recognition unless there is a change in the terms of the contract that significantly alters the future cash flows, in which case the derivative must be valued again.

Initial recognition -

Financial assets are initially recognised at the fair value of the consideration given, plus any directly attributable transaction costs.

When the deposits were first made at Banco Bilbao Vizcaya Argentaria, S.A. in connection with ordinary bond and structured note issues (see Note 10), the balance of "Non-current investments in Group companies and associates - Loans to companies" reflected the face value of the deposits that have an expiration date superior to 12 months, net of:

- The amount of the premiums collected ("Up-front" premiums, see Note 6) at the time the deposits were made at Banco Bilbao Vizcaya Argentaria, S.A., which is equal to the placement expenses of each issue.
- The amount of the premiums corresponding to the initial valuation of the embedded options ("Option Premiums", see Note 6) in certain deposits made at Banco Bilbao Vizcaya Argentaria, S.A.

At the contract date the balance of "Derivatives" includes the value of the embedded option at the initial moment when the deposits were made.

Subsequent measurement -

Loans and receivables are measured at amortised cost.

The balance of "Non-current investments in Group companies and associates – Loans to companies" in the accompanying balance sheets reflects the face value of the deposits held by the Company at Banco Bilbao Vizcaya Argentaria, S.A. in connection with the issues (see Note 10), which mature at more than one year, net of:

- The amount of the unearned "Up-front" premiums which are taken to the caption by the straight-line method over the term of the long-term deposits.
- The amount of the unearned "Option premiums" of the embedded options on the long-term deposits, which are taken to income by the straight-line method over the life of the option.

"Current investments in Group companies and associates - Loans to companies" in the accompanying balance sheets includes the accrued uncollected interest which mature at less than 12 months generated by the aforementioned long and/or short-term deposits at the date thereof, and the face value of the subordinated deposits relating to the issues that mature at less than one year (net of the "Up-front" premiums and "Option premiums", if any).

This line item also includes the placement expenses of the deposits (maturing at less than 12 months), net of the expenses taken to income by the straight-line method over the deposits term to maturity.

Embedded derivatives, which are initially recognised by the value of the "Option premiums" from the deposits, are recognized at fair value (see Note 7) and the gains or losses arising from changes in fair value are taken to the accompanying income statements under the caption "Change in fair value of financial instruments – Held-for-trading financial assets and other".

Mainly, the methodology applied to the valuation of those embedded derivatives is based on valuation techniques that use variables obtained from observable market data.

At least at each reporting date the Company makes an impairment test to its financial assets. Objective evidence of impairment is considered to exist when the recoverable amount of the financial asset is lower than its carrying amount. When this occurs, the impairment loss is recognised in the income statement. However, the counterparty of these financial assets is Banco Bilbao Vizcaya Argentaria, S.A., and, accordingly, no impairment losses were disclosed in the year.

The Company derecognises a financial asset when it expires or when the rights to the cash flows, the risks and rewards of ownership related to the financial asset have been substantially transferred.

Financial liabilities

Financial liabilities include accounts payable by the Company that have arisen from the purchase of goods or services in the normal course of the Company's business and those which, not having commercial substance cannot be classified as derivative financial instruments.

The financial liabilities held by the Company are classified into the following categories:

- Accounts payable: financial liabilities arising from the purchase of operating goods or services or those which have no commercial purpose and cannot be classified as derivative instruments.
- Held-for-trading financial liabilities: financial derivatives tied to issues of certain structured notes (see Notes 7 and 10). This type of structure is called hybrid financial instruments.

Accounts payable are initially recognised at the fair value of the consideration received, adjusted by the directly attributable transaction costs. These liabilities are subsequently measured at amortised cost.

As of December 31, 2011 and 2010, the Company has recognised the amount of the outstanding ordinary bond and structural note issues which mature at more than one year under "Long-term payables – Debentures and other marketable securities" on the liability side of the accompanying balance sheets, net of:

- The expenses incurred on the issues of ordinary bonds and structured notes, minus the expenses taken to income by the straight-line method over the term to maturity of the issues.
- The amount of the placement expenses of the ordinary bond and structured note issues and, for those issued below par, the difference between the issue price and the nominal value or repayment value, net of the expenses charged to income by the straight-line method over the term to maturity of the above-mentioned issues.
- For those issued at par, the difference between the issue price and the nominal value or repayment value.
- The amount of the "Option premiums" on the embedded options in certain long-term issues launched by the Company that are pending on accrual, which are taken to income by the straight-line method over the life of the option.

The accrual of the above mentioned concepts is recorded under the caption "Financial expenses – On debts to third parties" of the accompanying income statements.

The caption "Short-term payables – Debentures and other marketable securities" in the accompanying balance sheets includes the accrued unpaid interest generated by the Company's long and short-term deposits, as well as the issues maturing at less than one year (the unearned premiums on the embedded options tied to certain issues maturing at less than 12 months are also recognised under this line item).

The embedded derivatives, whose fair value at the initial moment is identical to the one that has been recorded as "Premium options" of the issues, will be recorded at their fair value (see Note 7). The changes in the mentioned fair value will be recorded under "Changes in fair value of financial instruments - Held for trading financial assets/liabilities and other" in the accompanying income statements.

Mainly, the methodology applied to the valuation of those embedded derivatives is based on valuation techniques that use variables obtained from observable market data.

The Company derecognises financial liabilities when the obligations giving rise to them cease to exist.

b) Foreign currency transactions

The Company's functional currency is the euro. Therefore, transactions in currencies other than the euro are deemed to be "foreign currency transactions" and are recognised by applying the exchange rates prevailing at the date of the transaction.

At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are translated to Euros at the rates then prevailing. Any resulting income or loss is recognised directly in the income statement of the year in which they arise.

At December 31, 2011, the Company had fifteen outstanding ordinary bond and structured note issues in foreign currency: one in sterling pounds, seven in US dollars, five in Hong Kong dollars and two in Japanese yen (see Appendix III, IV and V), constituting, at the same time, fifteen deposits with the full amounts of the funds obtained and in the same currency (see Appendix I and II). The interest rates related to the deposits are identical to those related to the issues. That is why the exchange differences in this connection are irrelevant.

c) Corporate income tax

The Company files consolidated corporate income tax returns as part of the consolidated tax group headed by Banco Bilbao Vizcaya Argentaria, S.A. (see Notes 9 and 12).

The expense for corporate income tax is calculated on the basis of book income before taxes, increased or decreased, as appropriate, by the permanent differences from taxable income.

The income or expense from deferred taxes arises from the recognition and cancellation of the deferred tax assets or liabilities. They include the temporary differences between the book income and the taxable income, the negative basis of book income that has not been compensated and the tax deduction credits that have not been applied. Those amounts are registered by applying the temporary difference or correspondent credit the tax rate at which the Company expects their recovery or settlement.

The tax benefit relating to double taxation tax credits is treated as a reduction of the amount of corporate income tax for the year in which the tax credits are used. Entitlement to these tax credits is conditional upon compliance with the legally stipulated requirements.

d) Recognition of other income and expenses

The criteria used by the Company to recognise its most significant income and expenses are described in section a) of this Note. Other income and expenses are recognised on an accrual basis.

e) Related party transactions

The Company performs all its transactions with related parties on arm's length basis (see Note 15). Also, the transfer prices are adequately supported and, therefore, the Company's Directors consider that there are no material risks in this connection that might give rise to significant liabilities in the future.

4. Distribution of income

The Board of Directors will submit for approval by the General Shareholders' Meeting the full distribution of the profit for the year ended 2011, amounting EUR 414 thousand, to "Other Reserves".

5. Risk exposure

The Company carries on its business activity as a debt issuer as part of the BBVA Group, obtains from it the financing facilities required for its operations on an ongoing basis and is managed by employees of the Group.

The main financial risks affecting the Company are as follows:

- **Interest rate risk.** Changes in interest rates affect the interest received from deposits and the interest paid on issues. Therefore, the changes in interest rates offset each other.
- **Liquidity risk.** The Company obtains the liquidity required to meet interest payments, redemptions of issues and the needs of its business activities from subordinated deposits on the issues arranged with Banco Bilbao Vizcaya Argentaria, S.A. or the credit facility maintained by its sole shareholder.
- **Credit risk.** Since the counterparty of the deposits is Banco Bilbao Vizcaya Argentaria, S.A., the Company considers that its exposure to credit risk is not relevant.
- **Other market risks:** Since the funds obtained by the Company from the issues launched in foreign currencies are invested in deposits in the same currency, the exposure to exchange rate risk is irrelevant.

The fair value of the issues launched does not differ significantly from the amount of the deposits made because their features (amount, term and interest rate) are the same. In the case of issues that include embedded financial derivatives, the Company has made a "mirror" deposit with Banco Bilbao Vizcaya Argentaria S.A. and, accordingly, the Company is not exposed to changes in the fair value of these financial instruments.

6. Investments in Group companies and associates

As of December 31, 2011 and 2010 the fair value of the embedded options, either the ones linked to deposits held at Banco Bilbao Vizcaya Argentaria S.A. or the issues launched, amounted to EUR 18,569 thousand (creditor sign in the deposit options) and EUR 1,923 thousand (debtor sign in the deposit options) respectively, which were recognised under the following captions of the accompanying balance sheets:

The Company also files consolidated tax returns as part of the 2/82 Group, whose parent company is Banco Bilbao Vizcaya Argentaria, S.A.

At the date of preparation of these financial statements, the Company had the last four years open for review by the tax inspection authorities for the main taxes applicable to it.

Risk Exposure

The Company carries on its business activity as a debt issuer as part of the BBVA Group, obtains the financing facilities required for its operations from the Group on an ongoing basis and is managed by employees of the Group.

The main financial risks affecting the Company are as follows:

- Interest rate risk. Changes in interest rates affect the interest received from deposits and the interest paid on issues. Therefore, the changes in interest rates offset each other.
- Liquidity risk. The Company obtains the liquidity required to meet interest payments, redemptions of issues and the needs of its business activities from subordinated deposits on the issues arranged with Banco Bilbao Vizcaya Argentaria, S.A.
- Credit risk. Since the counterparty of the deposits is Banco Bilbao Vizcaya Argentaria, S.A., the Company considers that its exposure to credit risk is not relevant.
- Other market risks: Since the funds obtained by the Company from the issues launched in foreign currencies are invested in deposits in the same currency, the exposure to currency risk is irrelevant.

The fair value of the issues launched does not differ significantly from the amount of the deposits made because their features (amount, term and interest rate) are the same. In the case of issues that include embedded financial derivatives, the Company has made a "mirror" deposit with Banco Bilbao Vizcaya Argentaria S.A. and, accordingly, the Company is not exposed to changes in the fair value of these financial instruments.

Use of financial instruments

Hybrid financial instruments are those that combine a non-derivative principal contract and a financial derivative (embedded derivative) that cannot be transferred independently.

The embedded derivative is treated for accounting purposes as a financial derivative instrument and the main contract will be accounted according to its nature (deposits / issues).

- In the initial recognition, both financial assets and liabilities are accounted for the fair value of the delivered / received consideration, plus directly attributable transaction costs. Recognition is subsequently measured at amortised cost.
- Embedded derivatives are recognized at fair value, recorded in the income statement the result of the variations.

The characteristics of the options that the Company held as of December 31, 2011, arising out of the issues of simple bonds and structured notes and the correspondent subordinated deposits are:

	Thousand Euros			
	Notional	Assets Fair Value	Liabilities Fair Value	Net Fair Value
Embedded options in deposits	658,065	31,569	(13,000)	18,569
Embedded options in issues	(658,065)	(31,569)	13,000	(18,569)

The accompanying directors' report for 2010 contains the explanations which the directors consider appropriate about the Company's situation, the evolution of its business and other matters, but is not an integral part of the financial statements. We have checked that the accounting information in the directors' report is consistent with that contained in the financial statements for 2010. Our work as auditors was confined to checking the directors' report with the aforementioned scope, and did not include a review of any information other than that drawn from the Company's accounting records.

BBVA Senior Finance, S.A. (Sole-Shareholder Company)

Notes to the financial statements as of December 31, 2010

1. Company description

BBVA Senior Finance, S.A. (Sole-Shareholder Company) ("the Company") was incorporated on November 3, 2004, and has its registered office in Bilbao, Gran Vía, 1.

The Company's exclusive corporate purpose is to issue preferred securities and/or other financial instruments, including debt instruments of any kind, for their placement in the Spanish and international markets in accordance with Additional Provision 2 of Law 13/1985 as stipulated in Additional Provision 3 of Law 19/2003 of July 4, 2003 on Capital Movements and Foreign Economic Transactions and on Certain Anti-Money Laundering Measures. The cash obtained from the issues of financial instruments is deposited by the Company at Banco Bilbao Vizcaya Argentaria, S.A.

For a proper interpretation of these financial statements it must be taken into account that the Company carries on its business activity as a company of the Banco Bilbao Vizcaya Argentaria Group (the Group or Group BBVA, see Note 9), whose parent company is Banco Bilbao Vizcaya Argentaria, S.A. (which has its registered office in Plaza San Nicolás 4, Bilbao), obtaining permanently from the same one the guarantees necessary for its activity and being managed by personnel from Group. Consequently, the financial statements must be interpreted in the context of the Group as part of which the Company performs its operations, not as an independent company. The BBVA Group's consolidated financial statements for 2010 were prepared by Banco Bilbao Vizcaya Argentaria S.A.'s Directors at the Board Meeting on February 1, 2011, and were subsequently filed at the Mercantile Registry in Bilbao.

Given the business activity to which the Company devotes herself, it does not have any responsibilities, expenses, assets, provisions or contingencies of environmental nature that could be significant in relation with the shareholder's equity, the financial position and the income of the Company. Therefore, no specific disclosures relating to environmental issues are included in these notes to financial statements.

Regulation of Sole-Shareholder companies

As discussed in Note 9, as of December 31, 2010, all the Company's capital stock was owned by Banco Bilbao Vizcaya Argentaria, S.A. and, accordingly, the Company was a Sole-Shareholder company as of that date. Pursuant to current legislation on Sole-Shareholder companies (article 13. Of the Royal Decree 1/2010 of July 2, 2010 that approves the Capital Companies Law) it is hereby stated that at the date of preparation of these financial statements, the Company had formalized the appropriate register book of contracts with its Sole-Shareholder.

2. Basis of presentation of the financial statements

a) Regulatory financial reporting framework applicable to the Company

The financial statements have been prepared by the Company's Directors according to the regulatory financial reporting framework that applies to the Company, which is the one established in:

- The Spanish Trade Code and the other commercial regulation,
- The Spanish National Chart of Accounts approved by the Royal Decree 1514/2007 and its adjustments for the different economic sectors,

- The mandatory laws approved by the Institute of Accounting and Auditing of Accounts in accordance to the Spanish National Chart of Accounts and its complementary regulation, and
- The other Spanish accounting regulation that applies to the Company.

b) True and fair view

The accompanying financial statements, which were obtained from the Company's accounting records, are presented in accordance with the regulatory financial reporting framework applicable to the Company and, in particular, with the accounting principles and rules contained therein, and they give a true and fair view of the Company's net worth and financial position as of December 31, 2010 and the results of operations as well as the cash flows generated during 2010. These financial statements, which were formally prepared by the Company's Directors, will be submitted for approval to the Annual General Shareholder's Meeting, and it is considered that they will be approved without any changes. The financial statements for 2009 were approved by the Company's Sole-Shareholder at the Annual General Meeting held on April 28, 2010.

c) Accounting policies

The Directors have prepared these financial statements taking into account all the compulsory accounting principles and/or valuation standards with a material effect on the financial statements. There is not any mandatory accounting principle or valuation standard that has not been applied.

Pursuant to Article 525 of Royal Decree 1/2010 of July 2, that approves the Capital Companies Law, no material effects on shareholder's equity or on the income statement would have arisen if "International Financial Reporting Standards" approved by the European Commission were applied.

d) Key issues in relation to the measurement and estimation of uncertainty

In preparing the accompanying financial statements estimates were made by the Company's Directors in order to measure certain of the assets, liabilities, income, expenses and obligations reported herein. These estimates relate basically to the following:

- The assessment of possible impairment losses on certain assets (see Note 3-a)
- The fair value of certain financial instruments (see Notes 6 and 7)

Although these estimates were made on the basis of the best information available at 2010 year-end, events that take place in the future might make it necessary to change these estimates (upwards or downwards) in coming years. Changes in accounting estimates would be applied prospectively.

e) Grouping of items

Certain items in the balance sheets, income statement accounts, statements of changes in total equity and cash flow statements are grouped together in order to enhance their understanding. However, whenever the amounts involved are material, the information is broken down in the related notes to these financial statements.

f) Comparative information and matters arising from the transition to the new accounting rules

The Royal Decree 1159/2010 of September 17, 2010 has introduced some modifications to the Spanish National Chart of Accounts approved by the Royal Decree 1514/2007.

According to the established transition regulation, the modifications have been applied prospectively beginning on January 1, 2010, and have not impacted significantly the financial statements. Therefore, the comparative amounts presented for the year 2009 have not been adapted to the above mentioned regulation.

According to the regulation, Company's Directors present for each of the balance sheet accounts, income statement accounts, changes in total equity accounts, cash flow statements and the notes to the financial statements, the figures for years 2010 and 2009. Consequently, the figures for year 2009 contained in this report are presented solely for comparison purposes.

g) Changes in accounting policies

In 2010 there were no significant changes in accounting policies with respect to those applied in 2009.

h) Error correction

During the preparation of these financial statements there has not been detected any significant error that would suppose the re-expression of the amounts included in the financial statements of 2009.

3. Accounting policies and valuation standards

The main accounting principles and valuation methods applied by the Company in preparing its financial statements, in accordance with the Spanish National Chart of Accounts, were as follows:

a) Financial instruments

Financial assets

Classification -

The financial assets held by the Company are classified in the following categories:

- Loans and receivables: financial assets arising from the sale of goods or the rendering of services in the ordinary course of the Company's business, or financial assets which, not having commercial substance, are not equity instruments or derivatives, have fixed or determinable payments and are not traded in an active market. It mainly includes deposits with Banco Bilbao Vizcaya Argentaria, S.A., constituted with the funds of the issues made (see Notes 6, 7 and 10).
- Financial assets held for trading: financial derivatives arising from certain deposits constituted with the funds of certain issues of structured notes (see Notes 6, 7 and 10). These types of structures are called hybrid financial instruments.

Hybrid financial instruments simultaneously include a non-derivative host contract and a financial derivative, known as an embedded derivative, that cannot be transferred separately and some of the cash flows of the hybrid contract vary in a way similar to a stand-alone derivative (e.g. bonds tied to the price of certain shares or changes in a stock market index).

The Company recognises measures and presents separately the host contract (either the deposit or the issue) and the embedded derivative, when the following circumstances concur:

- a) The economic characteristics and risks inherent to the embedded derivative are not closely related to those of the host contract.
- b) A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative.
- c) The hybrid contract is not measured at fair value with changes in fair value recognised in profit or loss.

In these situations, the embedded derivative is treated for accounting purposes as a derivative financial instrument and the host contract is recognised according to its nature (either the deposit or the issue). This valuation is only made at the initial recognition unless there is a change in the terms of the contract that significantly alters the future cash flows, in which case the derivative must be valued again.

Initial recognition -

Financial assets are initially recognised at the fair value of the consideration given, plus any directly attributable transaction costs.

When the deposits were first made at Banco Bilbao Vizcaya Argentaria, S.A. in connection with ordinary bond and structured note issues (see Note 10), the balance of "Non-current investments in Group companies and associates - Loans to companies" reflected the face value of the deposits that have an expiration date superior to 12 months, net of:

- The amount of the premiums collected ("Up-front" premiums, see Note 6) at the time the deposits were made at Banco Bilbao Vizcaya Argentaria, S.A., which is equal to the placement expenses of each issue.
- The amount of the premiums corresponding to the initial valuation of the embedded options ("Option Premiums", see Note 6) in certain deposits made at Banco Bilbao Vizcaya Argentaria, S.A.

At the contract date the balance of "Derivatives" includes the value of the embedded option at the initial moment when the deposits were made.

Subsequent measurement -

Loans and receivables are measured at amortised cost.

The balance of "Non-current investments in Group companies and associates - Loans to companies" in the accompanying balance sheets reflects the face value of the deposits held by the Company at Banco Bilbao Vizcaya Argentaria, S.A. in connection with the issues (see Note 10), which mature at more than one year, net of:

- The amount of the unearned "Up-front" premiums which are taken to the caption "Finance income- From marketable securities and other financial instruments- Group companies and associates" by the straight-line method over the term of the long-term deposits.
- The amount of the unearned "Option premiums" of the embedded options on the long-term deposits, which are taken to income by the straight-line method over the life of the option.

"Current investments in Group companies and associates - Loans to companies" in the accompanying balance sheets includes the accrued uncollected interest which mature at less than 12 months generated by the aforementioned long and/or short-term deposits at the date thereof, and the face value of the subordinated deposits relating to the issues that mature at less than one year (net of the "Up-front" premiums and "Option premiums", if any).

This line item also includes the placement expenses of the deposits (maturing at less than 12 months), net of the expenses taken to income by the straight-line method over the deposits term to maturity.

Embedded derivatives, which are initially recognised by the value of the "Option premiums" from the deposits, are recognized at fair value (see Note 7) and the gains or losses arising from changes in fair value are taken to the accompanying income statements under the caption "Change in fair value of financial instruments - Held-for-trading financial assets and other".

Mainly, the methodology applied to the valuation of those embedded derivatives is based on valuation techniques that use variables obtained from observable market data.

At least at each reporting date the Company makes an impairment test to its financial assets. Objective evidence of impairment is considered to exist when the recoverable amount of the financial asset is lower than its carrying amount. When this occurs, the impairment loss is recognised in the income statement. However, the counterparty of these financial assets is Banco Bilbao Vizcaya Argentaria, S.A., and, accordingly, no impairment losses were disclosed in the year.

The Company derecognises a financial asset when it expires or when the rights to the cash flows, the risks and rewards of ownership related to the financial asset have been substantially transferred.

Financial liabilities

Financial liabilities include accounts payable by the Company that have arisen from the purchase of goods or services in the normal course of the Company's business and those which, not having commercial substance cannot be classified as derivative financial instruments.

The financial liabilities held by the Company are classified into the following categories:

- Accounts payable: financial liabilities arising from the purchase of operating goods or services or those which have no commercial purpose and cannot be classified as derivative instruments. Basically, it contains the notes issued by the Company.
- Held-for-trading financial liabilities: financial derivatives tied to issues of certain structured notes (see Notes 7 and 10). This type of structure is called hybrid financial instruments.

Accounts payable are initially recognised at the fair value of the consideration received, adjusted by the directly attributable transaction costs. These liabilities are subsequently measured at amortised cost.

As of December 31, 2010 and 2009, the Company has recognised the amount of the outstanding ordinary bond and structural note issues which mature at more than one year under "Long-term payables – Debentures and other marketable securities" on the liability side of the accompanying balance sheets, net of:

- The expenses incurred on the issues of ordinary bonds and structured notes, minus the expenses taken to income by the straight-line method over the term to maturity of the issues.
- The amount of the placement expenses of the ordinary bond and structured note issues and, for those issued below par, the difference between the issue price and the nominal value or repayment value, net of the expenses charged to income by the straight-line method over the term to maturity of the above-mentioned issues.
- The amount of the "Option premiums" on the embedded options in certain long-term issues launched by the Company that are pending on accrual, which are taken to income by the straight-line method over the life of the option.

The accrual of the above mentioned concepts is recorded under the caption "Financial expenses – On debts to third parties" of the accompanying income statements.

The caption "Short-term payables – Debentures and other marketable securities" in the accompanying balance sheets includes the accrued unpaid interest generated by the Company's long and short-term deposits, as well as the issues maturing at less than one year (the unearned premiums on the embedded options tied to certain issues maturing at less than 12 months are also recognised under this line item).

The embedded derivatives, whose fair value at the initial moment is identical to the one that has been recorded as "Premium options" of the issues, will be recorded at their fair value (see Note 7). The changes in the mentioned fair value will be recorded under "Changes in fair value of financial instruments - Held for trading financial assets/liabilities and other" in the accompanying income statements.

Mainly, the methodology applied to the valuation of those embedded derivatives is based on valuation techniques that use variables obtained from observable market data.

The Company derecognises financial liabilities when the obligations giving rise to them cease to exist.

b) Foreign currency transactions

The Company's functional currency is the euro. Therefore, transactions in currencies other than the euro are deemed to be "foreign currency transactions" and are recognised by applying the exchange rates prevailing at the date of the transaction.

At the end of each reporting period, monetary assets and liabilities denominated in foreign currencies are translated to Euros at the rates then prevailing. Any resulting income or loss is recognised directly in the income statement of the year in which they arise.

At December 31, 2010, the Company had 23 outstanding ordinary bond and structured note issues in foreign currency: six in sterling pounds, eight in US dollars, five in Hong Kong dollars, three in Japanese yen and one in Australian dollars (see Appendix III, IV and V), constituting, at the same time, 23 deposits with the full amounts of the funds obtained and in the same currency (see Appendix I and II). The interest rates related to the deposits are identical to those related to the issues. That is why the exchange differences in this connection are irrelevant.

c) Corporate income tax

The Company files consolidated corporate income tax returns as part of the consolidated tax group headed by Banco Bilbao Vizcaya Argentaria, S.A. (see Notes 9 and 12).

The expense for corporate income tax is calculated on the basis of book income before taxes, increased or decreased, as appropriate, by the permanent differences from taxable income.

The income or expense from deferred taxes arises from the recognition and cancellation of the deferred tax assets or liabilities. They include the temporary differences between the book income and the taxable income, the negative basis of book income that has not been compensated and the tax deduction credits that have not been applied. Those amounts are registered by applying the temporary difference or correspondent credit the tax rate at which the Company expects their recovery or settlement.

The tax benefit relating to double taxation tax credits is treated as a reduction of the amount of corporate income tax for the year in which the tax credits are used. Entitlement to these tax credits is conditional upon compliance with the legally stipulated requirements.

d) Recognition of other income and expenses

The criteria used by the Company to recognise its most significant income and expenses are described in section a) of this Note. Other income and expenses are recognised on an accrual basis.

e) Related party transactions

The Company performs all its transactions with related parties on arm's length basis (see Note 15). Also, the transfer prices are adequately supported and, therefore, the Company's Directors consider that there are no material risks in this connection that might give rise to significant liabilities in the future.

4. Distribution of income

The Board of Directors will submit for approval by the General Shareholders' Meeting the full distribution of the profit for the year ended 2010, amounting EUR 382 thousand, to "Other Reserves".

5. Risk exposure

The Company carries on its business activity as a debt issuer as part of the BBVA Group, obtains from it the financing facilities required for its operations on an ongoing basis and is managed by employees of the Group.

The main financial risks affecting the Company are as follows:

- Interest rate risk. Changes in interest rates affect the interest received from deposits and the interest paid on issues. Therefore, the changes in interest rates offset each other.
- Liquidity risk. The Company obtains the liquidity required to meet interest payments, redemptions of issues and the needs of its business activities from subordinated deposits on the issues arranged with Banco Bilbao Vizcaya Argentaria, S.A.
- Credit risk. Since the counterparty of the deposits is Banco Bilbao Vizcaya Argentaria, S.A., the Company considers that its exposure to credit risk is not relevant.
- Other market risks: Since the funds obtained by the Company from the issues launched in foreign currencies are invested in deposits in the same currency, the exposure to exchange rate risk is irrelevant.

The fair value of the issues launched does not differ significantly from the amount of the deposits made because their features (amount, term and interest rate) are the same. In the case of issues that include embedded financial derivatives, the Company has made a "mirror" deposit with Banco Bilbao Vizcaya Argentaria S.A. and, accordingly, the Company is not exposed to changes in the fair value of these financial instruments.

The column "Exchange differences" shown in the first table (Non-current investments in Group companies – Loans to companies), reflects the exchange differences arising from those outstanding foreign currency deposits as of December 31, 2010 and 2009.

The balance of "Current investments in Group companies and associates - Loans to companies" in the balance sheets as of December 31, 2010 and 2009, basically includes the short-term deposits held by the Company at that date with Banco Bilbao Vizcaya Argentaria, S.A. in relation to ordinary bond and structured note issues (see Note 10) plus the accrued uncollected interest on all the deposits held by the Company as of December 31, 2010. The detail of the short-term deposits held by the Company as of that date is presented in Appendix II.

The placement expenses of the deposits (maturing at less than 12 months) are also included under the above mentioned caption, net of the expenses charged to income by the straight-line method over the term to maturity of the deposits. In years 2010 and 2009 no expenditure was recognised in this connection and the charge to income for 2010 and 2009, which amounted to EUR 0 thousand and EUR 6 thousand respectively, was registered by the Company under "Financial expenses - On debts to Group companies" in the income statements for 2010 and 2009.

7. Derivatives

Certain issues launched by the Company include embedded derivatives, usually options, which are segregated and recognised separately from the issue to which they are linked initially (see Note 2.a). The Company uses the funds obtained from these issues to make a deposit with Banco Bilbao Vizcaya Argentaria S.A. linked to a financial derivative with the same terms, but the opposite sign to the related issue.

As of December 31, 2010 and 2009 the fair value of the embedded options, either the ones linked to deposits held at Banco Bilbao Vizcaya Argentaria S.A. or the issues launched, amounted to EUR 1,923 thousand

(creditor sign in the deposit options) and EUR 9,990 thousand (debtor sign in the deposit options) respectively, which were recognised under the following captions of the accompanying balance sheets:

	Thousand Euros

The variation of the valuation on the embedded options on deposits has led to a loss of EUR 71,885 thousand and EUR 146,099 thousand in 2010 and 2009, respectively, and has been recorder under the caption "Change in fair value of financial instruments - Held-for-trading financial assets/liabilities and other". Similarly, the variation of the valuation on the embedded options on issues has led to a gain of EUR 71,885 thousand and EUR 146,099 thousand in 2010 and 2009, respectively. These changes in valuation have been recorded under the caption "Change in fair value of financial instruments - Held-for-trading financial assets/liabilities and other" of the accompanying income statements. Therefore, the final balance is zero.

In the following table, a detail of the main features of the options held at December 31, 2010 and 2009 by the Company arising from ordinary bond and structured note issues (see Note 10), and the related subordinated deposits (see Note 6) is presented:

Legal reserves

Under the revised Capital Companies Law, the companies who obtain profits in the economic exercise will have to allocate 10% of the same ones as legal reserve until this one reaches, at least, 20% of the share capital. The legal reserve could be used for increasing the share capital in the part of the balance that exceeds 10% of the already increased capital. Apart from this purpose, and while it does not overcome the 20% of the share capital, this reserve will only be able to be used to compensate for losses, providing that there do not exist other available sufficient reserves for this purpose. As of December 31, 2010 and 2009 the legal reserve was equal to 20% of the company's share capital.

11. Short-term payable to Group and associated companies

The balance of this caption of the balance sheets as of December 31, 2010 and 2009, relates to a credit facility that the Company maintained with Banco Bilbao Vizcaya Argentaria, S.A. It was renewed on March 22, 2010 with its maturity date at March 23, 2010, date at which it was renewed again. This credit facility bears interest at a rate equal to 3-month Euribor plus a 0.15% spread.

12. Tax matters

Pursuant to the provisions of Legislative Royal Decree 4/2004 of March 5, 2004, implementing the Revised Corporate Income Tax Law, the Company is subject to corporate income tax. The Company also files consolidated tax returns as part of the 2/82 Group, whose parent company is Banco Bilbao Vizcaya Argentaria, S.A.

Accounting profit before taxes for 2010 was the same as taxable profit. The detail of the corporate income tax expense for year 2010 is as follows:

	Thousand Euros
Previous Taxable Income	531
Compensation of negative taxable incomes	(33)
Taxable Income	498
Corporate income tax rate (30%)	149
Corporate Income Tax Expense	149

The negative taxable incomes that have been compensated refer exclusively to those taxable incomes generated in 2008. As of December 31, 2010, there is not any amount of negative taxable income still pending for compensation in future periods.

The balance of "Trade and other payables – Current tax liabilities" of the balance sheet as of December 31, 2010 includes the amount of EUR 100 thousand of corporate income tax outstanding, diminished by withholdings and prepayments made by the Company during 2010.

The Company had, at the time of the preparation of these financial statements, 2004 and subsequent years open for review by the tax authorities for the main taxes that apply to the Company.

Regarding the diversity of interpretations that can be made of the applicable tax legislation, the outcome of the tax audits of the open years that could be conducted by the tax authorities in the future might originate contingent tax liabilities which cannot be objectively quantified at the present time. However, the Company's Board of Directors and its tax advisers consider that the possibility of these contingent liabilities becoming actual liabilities is remote and, in any case, the tax charge which might arise therefore would not materially affect the Company's financial statements.

13. Other operating expenses

The balance of "Other operating expenses – Exterior services" for 2010 includes the fees paid to the external auditors for the audit of the Company's financial statements. During the year 2010, the fees paid for auditing the

Company's financial statements and other services given by the external auditors, Deloitte, S.L., or any other company related to the auditor by control are the following:

	Thousand Euros
Auditing Services	14
Other Advising or Consulting Services	3
Total fees from Auditing and related services	17
Tax Advising Services	-
Other services	1
Total fees from Professional services	18

The services provided by our accountants meet the independence requirements established in Law 44/2002, of November 22, on Measures Reforming the Financial System and in the Sarbanes-Oxley Act of 2002 adopted by the Securities and Exchange Commission (SEC), and accordingly they did not include the performance of any work that is incompatible with the auditing function.

As of December 31, 2010, the Company did not have any amount of outstanding debt with their providers that accumulated a superior time to the legal term deferred payment.

14. Directors' remuneration and other benefits

The Company does not pay any salaries or attendance fees to the members of its Board of Directors nor has it granted any loans to them. All of the members of the Board of Directors perform their professional activity at Banco Bilbao Vizcaya Argentaria, S.A., the Company's Sole-Shareholder.

Risk Exposure

The Company carries on its business activity as a debt issuer as part of the BBVA Group, obtains the financing facilities required for its operations from the Group on an ongoing basis and is managed by employees of the Group.

The main financial risks affecting the Company are as follows:

- Interest rate risk. Changes in interest rates affect the interest received from deposits and the interest paid on issues. Therefore, the changes in interest rates offset each other.
- Liquidity risk. The Company obtains the liquidity required to meet interest payments, redemptions of issues and the needs of its business activities from subordinated deposits on the issues arranged with Banco Bilbao Vizcaya Argentaria, S.A.
- Credit risk. Since the counterparty of the deposits is Banco Bilbao Vizcaya Argentaria, S.A., the Company considers that its exposure to credit risk is not relevant.
- Other market risks: Since the funds obtained by the Company from the issues launched in foreign currencies are invested in deposits in the same currency, the exposure to currency risk is irrelevant.

The fair value of the issues launched does not differ significantly from the amount of the deposits made because their features (amount, term and interest rate) are the same. In the case of issues that include embedded financial derivatives, the Company has made a "mirror" deposit with Banco Bilbao Vizcaya Argentaria S.A. and, accordingly, the Company is not exposed to changes in the fair value of these financial instruments.

Use of financial instruments

Hybrid financial instruments are those that combine a non-derivative principal contract and a financial derivative (embedded derivative) that cannot be transferred independently

The embedded derivative is treated for accounting purposes as a financial derivative instrument and the main contract will be accounted according to its nature (deposits / issues).

- In the initial recognition, both financial assets and liabilities are accounted for the fair value of the delivered / received consideration, plus directly attributable transaction costs. Recognition is subsequently measured at amortised cost.
- Embedded derivatives are recognized at fair value, recorded in the income statement the result of the variations.

The characteristics of the options that the Company held as of December 31, 2010, arising out of the issues of simple bonds and structured notes and the correspondent subordinated deposits are:

	Thousand Euros			
	Notional	Assets Fair Value	Liabilities Fair Value	Net Fair Value
Embedded options in deposits	757,855	12,749	(14,672)	(1,923)
Embedded options in issues	(757,855)	(12,749)	14,672	1,923

Due to the Company's activity, it does not have any research and development expenses.
