Authorization for debt refinancing

The Board of Directors of the Company, at its meeting held today 26 February 2015, has authorised the Senior Management team to negotiate, execute and implement a €1.000 million Single Currency Dual Tranche (each tranche amounting to €500 million) Revolving Loan Facility, to be structured as a “club deal” financing entered into with a limited number of banks.

Amounts borrowed under Facility A will be applied towards working capital requirements and to cancel and replace the €300 million revolving credit facility of its subsidiary Amadeus IT Group, S.A., entered into on 18 November 2013. This facility will have a five year term.

Facility B will be used as a back-stop facility for the refinancing of the €750 million notes issued by its subsidiary Amadeus Capital Market, S.A.U. on 11 July 2011 maturing on 15 July 2016, based on its Programme for the debt issuance of Euro Medium Term Note Programme. This facility will mature on 31 August 2017 (unless the debt under the €750 million notes issued by Amadeus Capital Market, S.A.U. is refinanced prior to such date by means of a new bond financing).

Execution of the relevant documentation is expected to take place during the first half of March.
