**OVERVIEW**

- Interest payments have been missed or remain uncured for 31 non-asset-backed tranches across various Spanish SME, ABS, and RMBS deals.
- We lowered to 'D' our ratings on those tranches.

MADRID (Standard & Poor's) July 29, 2009--Standard & Poor's Ratings Services today lowered its credit ratings on 31 non-asset-backed classes of notes in various Spanish securitizations. All the other ratings in these transactions are unaffected by these actions (see list below).

We lowered to 'D' the rating on the most junior classes of notes in these transactions following failure to meet or cure due interest payments in these transactions on their most recent interest payment dates.

These notes were issued at closing to fund the cash reserves in each transaction, and (as evidenced by their low sub-investment-grade ratings) were generally not expected to meet due interest payments over their term.

*Ratings Lowered To 'D' On 31 NonAsset-Backed Tranches In Several Spanish Securitizations Due To Missed Interest Payments*

These classes of notes are not asset-backed. Instead, they are serviced by excess spread generated in each transaction.
