9M 2011 Results (January - September)

In accordance with Regulation 1606/2002 of the European Parliament and of the Council of 19th July 2002, for each financial year starting on or after 1st January 2005, companies governed by the law of a Member State must prepare their consolidated accounts in conformity with the International Financial Reporting Standards (IFRS) adopted by the European Union if their securities are admitted to trading on a regulated market.

The ACCIONA Group's consolidated financial statements are presented in accordance with the International Financial Reporting Standards (IFRS) approved by the European Parliament to date. The financial statements were based on the individual accounts of ACCIONA, S.A. and its Group companies and they include the necessary adjustments and reclassifications to adapt them to IFRS.

1. KEY FINANCIAL FIGURES

- Revenues reached €4,796 million, representing an increase of 5.0% compared with the same period last year.
- EBITDA amounted to €934 million, 14.8% higher than in September 2010.
- EBT reached €392 million, 157.7% increase compared to September 2010. This figure includes capital gains generated due to divestments of two Chilean concessions as well as the parking assets.
- Net attributable profit reached €314 million, 211.7% higher than in 2010.
- The group's gross capital expenditure during 9M 2011 amounted to €872 million.
- ACCIONA increased its Net Financial Debt from €6,587 million as of 31st December 2010 to €6,886 million as of 30th September 2011. As a result, the financial gearing ratio (measured as Net Financial Debt/Equity) increases from 109% as of 31st December 2010 to 118% as of September 2011.

9M 2011 Results (January - September)

The results are presented in accordance with International Financial Reporting Standards (IFRS).

ACCIONA reports in accordance with its corporate structure, which comprises six divisions:

- Energy: includes development, construction, operation and maintenance of renewable energy installations and related manufacturing activities.
- Infrastructures: includes construction, engineering and transport and hospital concessions activities.
- Real Estate: includes property rental, property development and parkings (The latter were sold in July. Therefore, in 2011 they will only contribute to the group's results during the first half of the year).
- Logistic & Transport Services: end-to-end passenger and cargo transport by land, sea and air.
- Water & Environment: water, urban services and environment protection services.
- Other Business and Financial: fund manager and securities brokering business, wine production and other business.

9M 2011 Results (January - September)

EBITDA in 9M 2011 increased 14.8% vs. 9M 2010, mainly due to the positive performance of the Energy division driven by:

- A higher pool price in Spain during 9M 2011 vs. same period last year.
- A higher international wind load factor.
- The contribution in 9M 2011 of the 814MW installed during the last twelve months (716MW net mainly due to the 92MW reduction of cogeneration capacity).

The group's EBITDA margin improved reaching 19.5%, mainly due to the increased weight and higher margin of the Energy division.

Regarding the EBITDA breakdown by division, the main contributor was Energy (72.8%), followed by Infrastructures (15.7%) and Water & Environment (3.3%). The rest of the divisions contributed 8.2%.

% EBITDA	Jan-Sep 10	Jan-Sep 11
Energy	68.9%	72.8%
Infrastructures	14.1%	15.7%
Real Estate	2.0%	1.0%
Logistic & Transport Services	7.5%	2.9%
Water & Environment	3.7%	3.3%
Other Business and Financial	3.8%	4.3%

Note: EBITDA contributions calculated before consolidation adjustments.

Gross capital expenditure during the period amounted to €872 million, including €629 million invested in the organic growth of ACCIONA Energy and €206 million corresponding to the Infrastructures division (concessions mainly). Capital expenditure in the remaining business areas amounted to €37 million in 9M 2011.

The group's balance sheet as of September 2011 shows a slight increase in the financial gearing ratio vs. December 2010, reaching 118%. The slight increase of the Net Financial Debt as of September 2011 (€6,886 million) vs. December 2010 (€6,587 million) was due to 9M 2011 capex (€872 million), which was partially funded with the cash flow generated during the period and the divestments carried out.

*Applying IAS 1 "Presentation of Financial Statements" the concepts included in the item "Results on impairment/reversal of assets and non current assets" and "Other gains or losses" fall within EBIT when, in previous years, the reporting of these items had been made at EBT level. 9M 2010 EBIT has been adjusted to make it comparable with that of 9M 2011.

Revenues

Consolidated revenues increased by 5.0% to €4,796 million, mainly due to:

- The positive performance of ACCIONA Energy (+10.0%), due to an improvement of the pool price in Spain (+47.1%), a higher international wind load factor and the contribution during 9M 2011 of the 814MW installed during the last twelve months.
- The increase within the Infrastructures division (+8.6%), mainly due to the growth of the international construction business.
- However, during 9M 2011, the Real Estate division reduced its revenues by 37.5% due to lower sales in the promotion activity. Furthermore, the parking business has only contributed to the division's results during the first half of the year, whereas in 2010 it contributed during the whole year.
- Likewise, revenues from Logistic & Transport division have decreased by 6.6% due to the lower activity of Trasmediterránea during 9M 2011.

EBITDA

9M 2011 EBITDA amounted to €934 million, meaning an increase of 14.8% mainly due to the good performance of the Energy division (+19.8%), which was responsible for a 73% of the Group's EBITDA; together with the EBITDA growth of the Infrastructures division vs. 9M 2010 (+25,5%).

The EBITDA margin in 9M 2011 increased 170 basic points from 17.8% in September 2010 to 19.5% in September 2011. Such margin improvement is mainly due to the weight increase of the Energy division which has seen its margin rising from 53.1% to 57.9%.

EBIT

EBIT increased by 104.4% to €691 million and EBIT margin increased to 14.4% in September 2011 vs. 7.4% in September 2010. It is worth mentioning that this figure includes €274 million from "Results on impairment / reversal of assets and non current assets", mainly corresponding to capital gains generated from the disposal of two concessions in Chile "Américo Vespucio Sur" and "Red Litoral Central" as well as the disposal of the parking business.

EBT

EBT amounted to €392 million, a 157.7% higher than 9M 2010.

Attributable Net Profit

The attributable net profit amounted to €314 million, 211.7% higher than in 9M 2010.

** The generation figure published includes electric generation revenues from the different technologies and from services provided and others.*

ACCIONA Energy revenues increased 10.0% reaching €1,178 million.

It is to be highlighted the good performance from the generation revenues which have increased by 17.2% due to the recovery of pool prices vs. 9M 2010 average price (+47.1%). Such price improvement compensates the lower hydro and wind load factors in Spain vs. 9M 2010. It is worth mentioning that these load factors were exceptionally high during 1H 2010.

EBITDA margin increased from 53.1% to 57.9%. Accordingly, ACCIONA Energy's EBITDA amounted to €682 million, a 19.8% higher than September 2010.

EBT in 9M 2011 increased by 4.5% vs. 9M 2010, reaching €50 million. Excluding the positive impact of the forex in 9M 2010, EBT would have increased significantly.

During 9M 2011 ACCIONA Energy has increased its total installed capacity by 673MW: 50MW solar thermoelectric in Spain and 623MW wind (31MW in Spain, 306MW in Mexico, 132MW in USA, 53MW in India, 41MW in Canada, 32MW in Australia and 30MW in Poland).

EBITDA from the industrial activity, development and others is shown in the table below:

Revenues increased by 8.6% to €2,514 million due to a higher activity in the international construction business. EBITDA increased by 25.5% to €147 million. The EBITDA margin also improved from 5.0% to 5.8%. The concession business shows a significant improvement at EBITDA level. EBT was €79 million, with a margin of 3.1%.

As of 30th September 2011 the construction backlog amounted to €6,952 million which means a 1% increase vs. 30th September 2010. The reduction in the national backlog has been offset by the growth of the international backlog. The international backlog increases its overall weight to 40% from 35% twelve months ago.

9M 2011 Results (January - September)

As of 30th September ACCIONA held a portfolio of 21 concessions with a book value of €1,414 million (€304 million equity and €1,109 million net debt).

Annex 2 contains the detail on the concessions portfolio as of 30th September 2011.

ACCIONA Real Estate revenues amounted to €84 million, and EBITDA was reduced to €10 million. This is due to the lower number of homes sold in Spain as well as a lower contribution from the international residential development business.

During 9M 2011, ACCIONA Logistic & Transport Services revenues decreased by 6.6% to €559 million.

The lower volume of passengers and vehicles mainly in the South-Strait market, the declining cargo levels in the Canary Islands and a higher unitary cost of fuel affected Trasmediterránea's results, and caused a reduction in the EBITDA of the division despite the good performance of the handling business.

The number of passengers and the cargo handled (lane metres) decreased by 15.5% and 8.0% respectively. The number of vehicles was of 449,336, a 16.3% lower than the same period last year.

Revenues of the division slightly decreased to €502 million whereas the EBITDA remained flat in €31 million.

The Water and Environment EBITDA increased by 10.0% partially due to the operation and maintenance activity.

Water backlog as of September 2011 reached €5,071 million, a 17% higher than twelve months ago.

Attributable Equity

ACCIONA's attributable equity as of 30th of September 2011 amounted to €5,527 million, which means a decrease of 3.6% vs. December 2010 mostly due to the effect of the dividend distribution, the acquisition of treasury shares and the negative evolution of coverage derivatives on interest rates.

Net Financial Debt

The Net Financial Debt has increased from €6,587 million as of 31st December 2010 to €6,886 million as of 30th September 2011. This slight increase was due to 9M 2011 capex (€872 million), which was partially funded with the cash flow generated during the period and the divestments carried out.

7. ANNEX 3: SUSTAINABILITY

7.1. Sustainability indexes

The results of the 2011 annual review confirm that ACCIONA is a component of the Dow Jones Sustainability Indexes (DJSI World and DJSI Europe) for the fifth consecutive year. These indexes are composed of those companies deemed most advanced in terms of economic, social and environmental sustainability.

Following a new half-year assessment, ACCIONA continues to rank on the FTSE4Good Index Series. Companies in the FTSE4Good Index Series have met stringent social and environmental criteria, and are positioned to capitalise on the benefits of responsible business practice.

ACCIONA is part of the MSCI World ESG¹ Index and the MSCI Europe ESG Index which include companies with high environmental, social and governance ratings relative to their peers in the sector.

ACCIONA is a component of the STOXX® Sustainability Indices which cover the European and Eurozone top leaders in terms of sustainability. The analysis is based on general as well as industry-specific criteria covering environmental, social and governance issues.

7.2. Sustainability events during the period:

- Since January 2011 ACCIONA takes part in the **UN Global Compact Lead** initiative which aims at achieving long-term sustainability.
- During the first half of 2011, ACCIONA participated in a number of meetings with representatives of the European Commission, including the President Durão Barroso and the Director-General of the DG Climate Action, Mr. Delbeke, organized by the Prince of Wales's EU Corporate Leaders Group on Climate Change (EUCLG), with the aim of discussing further initiatives and policy measures to make progress in **the fight against climate change**.
- ACCIONA has become the first company to present a Sustainability Report according to the **demanding new standard of the Global Reporting Initiative G3.1 guidelines**.
- In June 2011 ACCIONA appointed a female independent director of the board, bringing the total number of women on the Board to four (i.e. women account for 30.77% of the board). This puts ACCIONA at the forefront of Ibex35 companies with **most gender diversity** in their board of directors.

¹ ESG stands for Environmental, Social, and Governance.

9M 2011 Results (January - September)

- In July 2011, ACCIONA supported the **Declaration** led jointly by The Climate Group, The Cambridge Programme for Sustainability Leadership and the World Wildlife Fund (WWF), and supported by a group of 72-strong leading European companies, **calling on the European Union to set its GHG reduction target at 30%** with the aim of encouraging investment in a low carbon economy.
- In September 2011, ACCIONA participated in the roundtable discussion on Renewable Energies at the **United Nations Private Sector Forum 2011**, a forum that defined the role of the private sector in support of the "**Sustainable Energy for All**" strategy promoted by UN Secretary General Ban Ki-moon.

After the 30th of September 2011, ACCIONA has released the following information:

- In October 2011, ACCIONA endorsed The **2°C Challenge Communiqué** led by the EUCLG (EU Corporate Leaders Group on Climate Change). This organization, along with a group of more than 185 leading corporations from 29 countries, call on governments to take strong action on climate change. According to the Communiqué, climate change "risks seriously undermining future global prosperity and inflicting significant social, economic and environmental costs on the world".
