

Barcelona, 3 de octubre de 2012

HECHO RELEVANTE

Muy señores nuestros:

En relación con el Hecho Relevante de 8 de diciembre de 2011 (nº 154507) mediante el cual se comunicaba la estimación de las necesidades adicionales de capital a cubrir por el Grupo "la Caixa" antes de 30 de junio de 2012, Caja de Ahorros y Pensiones de Barcelona ("la Caixa") informa que tiene conocimiento de las declaraciones realizadas hoy por la European Banking Authority (EBA) y el Banco de España en relación a la evaluación final del ejercicio de capitalización de la banca europea y al cumplimiento de la Recomendación de la EBA de diciembre 2011.

La evaluación final del ejercicio de capitalización pone de manifiesto que la Caja de Ahorros y Pensiones de Barcelona ("la Caixa") con un ratio Core Tier 1 del 11,1%, cumple el mínimo del 9%, pudiendo absorber asimismo el colchón de 358 millones de euros correspondiente al riesgo soberano, de acuerdo con la metodología establecida por la EBA.

El ejercicio de capitalización propuesto por la EBA fue aprobado por la Junta de Supervisores el 8 de diciembre de 2011 con la intención de enderezar la difícil situación del sistema bancario de la Unión Europea, especialmente en lo que respecta a las exposiciones soberanas, mediante la restauración de la estabilidad y la confianza en los mercados.

Se adjuntan los resultados del ejercicio de capitalización para el Grupo "la Caixa".

Atentamente,

CAJA DE AHORROS Y PENSIONES DE BARCELONA ("la Caixa")

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and/or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Exposures to sovereigns (central, regional and local governments) in EEA, as of 30 June 2012

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and/or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).
