### MOODY'S INVESTORS SERVICE

## Rating Action: Moody's takes rating actions on Spanish ABS and RMBS transactions

Global Credit Research - 17 Mar 2014

#### Actions follow the raising of the Spanish country ceiling

Madrid, March 17, 2014 -- Moody's Investors Service has today taken the following rating actions on 252 Spanish asset-backed securities (ABS) and residential mortgage-backed securities (RMBS) transactions.

The rating agency has upgraded to A1(sf) from A3(sf) 116 senior notes in 39 Spanish ABS and 43 Spanish RMBS transactions. At the same time, Moody's placed on review for upgrade 142 notes in 71 Spanish ABS and 361 notes in 152 Spanish RMBS transactions.

Today's rating upgrades and review for upgrade actions follow the upgrade of the Spanish sovereign rating to Baa2 from Baa3 and the resulting increase of the local-currency country ceiling to A1 from A3 (https://www.moodys.com/research/Moodys-upgrades-Spains-government-bond-rating-to-Baa2-assigns-positive--PR\_292078) which reflect improvements in institutional strength and reduced susceptibility to event risk associated with lower government liquidity and banking sector risks.

Swap counterparty exposure or performance issues which the reduced country risk cannot mitigate prompted today's rating review actions direction uncertain or for downgrade. Moody's placed on review, direction uncertain 30 notes in 1 Spanish ABS and 14 Spanish RMBS transactions. The rating agency has also placed on review for downgrade 4 notes in 3 Spanish RMBS transactions.

#### RATINGS RATIONALE

Today's upgrades of the 116 notes in 39 Spanish ABS and 43 Spanish RMBS transactions have been prompted by (1) the reduced country risk as reflected by the increase in the maximum achievable rating in Spain (the localcurrency country ceiling) to A1 from A3; (2) sufficiency of credit enhancement in the affected transactions; and (3) well mitigated counterparty risks including those relating to servicers, account banks and swap providers.

The review for upgrade of 503 notes in 71 Spanish ABS and 152 Spanish RMBS transactions reflects the reduced country risk leading to the review of (1) the transactions' loss distribution, an integral part in determining the affected notes ratings and (2) the current credit enhancement level. During the review process, Moody's will also factor in its analysis any potential linkage of transactions to relevant counterparties, such as servicers, account banks or swap providers.

The review for downgrade of 4 notes in 3 Spanish RMBS transactions and the review, direction uncertain of 20 notes in 11 Spanish RMBS transaction follow the deterioration of asset pool performance or acceleration in default recognition resulting in reserve fund draws or an increased PDL. Moody's has placed on review direction uncertain the transactions for which deteriorating performance has had only a marginal effect, taking into account the reduced country risk; those showing greater negative performance have been put on review for downgrade.

Finally, the review, direction uncertain of 10 other notes in 1 Spanish ABS and 4 Spanish RMBS transactions relate to tranches already on review for downgrade because of swap counterparty risk. In these cases, the

reduced country risk in Spain may not completely compensate for the swap counterparty risk.

#### FACTORS THAT WOULD LEAD TO AN UPGRADE OR DOWNGRADE OF THE RATINGS:

Factors or circumstances that could lead to an upgrade of the ratings include (1) further reduction in country risk, performance of the underlying collateral that is better than Moody's expected, (2) deleveraging of the capital structure and (3) improvements in the credit quality of the transaction counterparties.

Factors or circumstances that could lead to a downgrade of the ratings include (1) an increase in country risk, performance of the underlying collateral that is worse than Moody's expects, (2) deterioration in the notes' available credit enhancement and (3) deterioration in the credit quality of the transaction counterparties.

#### **REGULATORY DISCLOSURES**

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions of the disclosure form.

Moody's did not receive or take into account a third party assessment on the due diligence performed regarding the underlying assets or financial instruments related to the monitoring of these transactions in the past six months.

The analysis relies on an assessment of collateral characteristics to determine the collateral loss distribution, that is, the function that correlates to an assumption about the likelihood of occurrence to each level of possible losses in the collateral. As a second step, Moody's evaluates each possible collateral loss scenario using a model that replicates the relevant structural features to derive payments and therefore the ultimate potential losses for each rated instrument. The loss a rated instrument incurs in each collateral loss scenario, weighted by assumptions about the likelihood of events in that scenario occurring, results in the expected loss of the rated instrument.

As the section on loss and cash flow analysis describes, Moody's quantitative analysis entails an evaluation of scenarios that stress factors contributing to sensitivity of ratings and take into account the likelihood of severe collateral losses or impaired cash flows. Moody's weights the impact on the rated instruments based on its assumptions of the likelihood of the events in such scenarios occurring.

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this rating action, and whose ratings may change as a result of this rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.
