- To the best of our knowledge, the estimates contained in this presentation on the future growth of the different businesses and the overall business, market share, financial results and other aspects of the company's operations and position are accurate as at the date hereof.
- All the figures set out in this report are calculated according to the International Accounting Standards (IAS).
- O This presentation includes forward-looking statements which represent expectations and beliefs concerning future events that involve risks and uncertainties which could cause actual results to differ materially from those currently anticipated.
- Analysts and investors should not rely exclusively on these estimates, which are valid only at the date of this presentation. Ebro Foods does not undertake any obligation to update or supplement any forward-looking information as a result of new information, future events or circumstances occurring after the date of this presentation, including, though by no means limited to, changes in the Ebro Foods businesses or in its acquisitions strategy, or to reflect unforeseen events. Analysts and investors are advised to consult the company's Annual Report and the documents filed with the authorities, especially the National Securities Market Commission (CMNV).
- The main risks and uncertainties affecting the Group activities are described in Note 28 of the Consolidated Annual Accounts as at 31 December 2013 and the corresponding Directors' Report, which are available on our web site <u>www.ebrofoods.es</u>. In our opinion there have been no material changes during the year. The Group is exposed to a certain extent to the situation on commodity markets and the possibility of passing any price changes on to consumers. It is also exposed to fluctuations in exchange rates, especially of the dollar, and interest rate variations.
