eDreams ODIGEO renews partnership with Rentalcars Connect as part of strategy to improve non-flight offering

02 March, 2016 – The leading online travel company eDreams ODIGEO has agreed to renew its long term partnership with Rentalcars Connect, the business-to-business division of Rentalcars.com, the world's largest online car rental service and part of the Priceline Group.

The partnership will enable eDreams ODIGEO to continue to offer its customers the chance to easily and conveniently hire vehicles through its leading online travel brands eDreams, Opodo, Go Voyages and Travellink. Through the relationship with Rentalcars Connect, customers will have access to local vehicle hire in over 46,000 locations in 167 countries worldwide and will be able to access over two million verified customer ratings and reviews of local car rental services around the world.

The renewed partnership with Rentalcars Connect builds upon a trajectory of continuous growth in conversion, revenue and customer loyalty.

The decision to renew the partnership comes as a result of eDreams ODIGEO's commitment to constantly improve its non-flight offering. Last year, the company announced a number of new strategic objectives, one of which was to diversify its revenue by delivering value-add products and services that increase its customers' basket size whilst enhancing their overall experience.

Dana Dunne, Chief Executive Officer of eDreams ODIGEO, said:

"I am pleased to announce the renewal of our long term partnership with Rentalcars Connect. Rentalcars.com offers us a unique platform that is an unbeatable solution which complements our own offering and enables our customers to have the best travel experience possible."

Ian Brown, Chief Executive Officer of Rentalcars.com, commented:

"We are delighted to be renewing our long term partnership with eDreams ODIGEO. Rentalcars Connect offers the world's largest online car rental platform with the best conversion, revenue, and customer loyalty for our strategic partners. As one of the leading distributors of online flights in the world, eDreams ODIGEO and its customers are well placed to benefit greatly from the non-stop innovation that we bring to the car hire experience."
