

SAVE THE DATE

**CROP SCIENCE
SUMMER
TECHNOLOGY
SHOWCASE**

AUGUST 1 - 2, 2019 // ST. LOUIS, MISSOURI

Please plan to join us in the St. Louis, Missouri metro area, this August for Bayer's inaugural **Crop Science Summer Technology Showcase**. This event offers the opportunity to experience Crop Science's near-term product offerings and research-and-development pipeline, guided by our top technical experts.

// **WHO:** Investors and analysts are invited to join Bayer's leaders.

// **WHEN:** Thursday and Friday, August 1 and 2, 2019

// **WHERE:** A uniquely-customized investor tour at the company's recently expanded Chesterfield research campus, as well as an in-field experience at its Jerseyville, Ill., Research Farm.

// **WHY:** Bayer will share its recently combined Crop Science portfolio and pipeline and showcase cutting edge technology in crop protection chemistry, breeding, biotechnology, biologics and digital agriculture. Join us to see how our industry-leading research is uniquely aligning to offer new, sustainable, tailored solutions to farmers.

Official registration and event details will be forthcoming. In the meantime, please contact us with any questions you may have.

We're looking forward to seeing you in August.

Best regards,
