The Authority made use of the powers deriving from the "*Decreto crescita*" ("Growth Decree", converted by Law No. 58 of 28 June 2019) regarding the black-out of *websites* of abusive financial intermediaries, as well as of the powers introduced by the MiCAR (Regulation (EU) 2023/1114 and Legislative Decree No. 129 of 5 September 2024) regarding the black out of *websites* through which crypto currency services are provided to Italian savers in the absence of the prescribed authorizations.

The black-out of these websites by Internet service providers operating on Italian territory is ongoing. For technical reasons, it can take several days for the black-out to come into effect.

Consob draws investors' attention to the importance of adopting the greatest diligence to make informed investment choices, adopting common sense behaviors, essential to safeguard their savings: these include, for websites that offer financial services, checking in advance that the operator with whom they are investing is authorized, and, for offers of financial products, that a prospectus has been published.

To this end, Consob would remind you that on the website [www.consob.it](http://www.consob.it) there is a section on the *homepage*, "*Watch for Scams!*", providing useful information to warn investors against financially unauthorized initiatives.
