Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p> |
| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>La regulación y reforma de los “índices de referencia” (“<i>benchmarks</i>”) puede afectar negativamente el valor de los Warrants vinculados a o referidos a dichos “índices de referencia” (“<i>benchmarks</i>”).</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |

| B.19 | Information about the Guarantor as if it were the issuer of the same type of security that is subject of the guarantee | <p>The information about Société Générale as if it were the issuer of the same type of Warrants that is subject of the Guarantee is set out in accordance with Elements B.19 / B.1, B.19 / B.2, B.19 / B.4b, B.19 / B.5, B.19 / B.9, B.19 / B.10, B.19 / B.12, B.19 / B.13, B.19 / B.14, B.19 / B.15 and B.19 / B.16, respectively:</p> |

| B.19 / B.2 | Domicile, legal form, legislation and country of incorporation | <p>Domicile: 29, boulevard Haussmann, 75009 Paris, France. Legal form: Public limited liability company (<i>société anonyme</i>). Legislation under which the Guarantor operates: French law. Country of incorporation: France.</p> |
| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |

ISSUE SPECIFIC SUMMARY

Summaries are made up of disclosure requirements known as **Elements**, the communication of which is required by Annex XXII of the Commission Regulation (EC) No 809/2004 as amended. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not applicable".

| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

|-------------------|---|--|
| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| | | <p>The group may incur losses as a result of unforeseen or catastrophic events, including terrorist attacks or natural disasters.</p> <ul style="list-style-type: none"> • Liquidity and funding risks <p>A number of exceptional measures taken by governments, central banks and regulators could have a material adverse effect on the group's cost of financing and its access to liquidity.</p> <p>A downgrade in the group's external rating or in the sovereign rating of the french state could have an adverse effect on the group's cost of financing and its access to liquidity.</p> <ul style="list-style-type: none"> • Risks related to insurance activities <p>A deterioration in the market condition, and in particular a significant increase or decrease in interest rates, could have a material adverse effect on the life insurance activities of the group's insurance business.</p> <p>Since the Issuer is part of the Group, these risk factors are applicable to the Issuer.</p> |
| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

If the currency in which Exercise Price is expressed is the same as the Settlement Currency, then the applicable Conversion Rate will be equal to 1.

In respect of each issue of Warrants, if the level of the relevant Underlying is at or below the relevant Exercise Price on the relevant Valuation Date(T), then the Warrants will not be exercised and the value of the Warrants at expiration will be zero.

Prior to expiry, the value of each issue of Warrants is essentially affected by changes in the value of the relevant Underlying as well as other factors including, without limitation, its volatility, the time to maturity of the

Warrants, and interest rates. These may have a net positive or negative impact on the value of the Warrants.

| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| D.6 | Advertencia importante para los inversores | <p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |

APPLICABLE FINAL TERMS

Dated 11/06/2020

MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Warrants, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 as well as the determination of the appropriate distribution channel, has been made and is available on the following website: <https://regulatory.sgmarkets.com/#/mifid2/emt> (the "Target Market"). Any person subsequently offering, selling or recommending the Warrants (a "distributor") should take into consideration the Target Market assessment and the suggested distribution strategy for the product; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Warrants (by either adopting or refining the Target Market assessment) and determining appropriate distribution channels.

| B.19 | Information about the Guarantor as if it were the issuer of the same type of security that is subject of the guarantee | The information about Société Générale as if it were the issuer of the same type of Warrants that is subject of the Guarantee is set out in accordance with Elements B.19 / B.1, B.19 / B.2, B.19 / B.4b, B.19 / B.5, B.19 / B.9, B.19 / B.10, B.19 / B.12, B.19 / B.13, B.19 / B.14, B.19 / B.15 and B.19 / B.16, respectively: |
| B.19 / B.1 | Legal and commercial name of the Guarantor | Société Générale (or the Guarantor) |
| B.19 / B.2 | Domicile, legal form, legislation and country of incorporation | <p>Domicile: 29, boulevard Haussmann, 75009 Paris, France.</p> <p>Legal form: Public limited liability company (<i>société anonyme</i>).</p> <p>Legislation under which the Guarantor operates: French law.</p> <p>Country of incorporation: France.</p> |
| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p> |

Los resúmenes están constituidos por requisitos de información conocidos como “**Elementos**”, cuya comunicación viene exigida por el Anexo XXII del Reglamento de la Comisión (CE) No. 809/2004, en su versión vigente. Dichos elementos se relacionan en las Secciones A – E (A.1 – E.7).

El presente resumen contiene todos los Elementos que es necesario incluir en un resumen para este tipo de valores y Emisor. Dado que algunos Elementos no deben contemplarse necesariamente, pueden darse lagunas en la secuencia numérica de los Elementos.

Aun cuando pueda resultar preceptivo incluir un Elemento en el resumen por razón del tipo de valores y del Emisor, es posible que no haya información relevante que consignar acerca de ese Elemento. En tal caso se incluye en el resumen una breve descripción del Elemento con la mención “No Aplicable”.

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| D.6 | Advertencia importante para los inversores | <p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |

APPLICABLE FINAL TERMS

Dated 11/06/2020

MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Warrants, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 as well as the determination of the appropriate distribution channel, has been made and is available on the following website: <https://regulatory.sgmarkets.com/#/mifid2/emt> (the "Target Market"). Any person subsequently offering, selling or recommending the Warrants (a "distributor") should take into consideration the Target Market assessment and the suggested distribution strategy for the product; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Warrants (by either adopting or refining the Target Market assessment) and determining appropriate distribution channels.

Developments in the Covid-19 situation remain an important source of uncertainty. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| | | <p>The group may incur losses as a result of unforeseen or catastrophic events, including terrorist attacks or natural disasters.</p> <ul style="list-style-type: none"> • Liquidity and funding risks <p>A number of exceptional measures taken by governments, central banks and regulators could have a material adverse effect on the group's cost of financing and its access to liquidity.</p> <p>A downgrade in the group's external rating or in the sovereign rating of the french state could have an adverse effect on the group's cost of financing and its access to liquidity.</p> <ul style="list-style-type: none"> • Risks related to insurance activities <p>A deterioration in the market condition, and in particular a significant increase or decrease in interest rates, could have a material adverse effect on the life insurance activities of the group's insurance business.</p> <p>Since the Issuer is part of the Group, these risk factors are applicable to the Issuer.</p> |
| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The regulation and reform of “benchmarks” may adversely affect the value of Warrants linked to or referencing such “benchmarks”.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>La regulación y reforma de los “índices de referencia” (“<i>benchmarks</i>”) puede afectar negativamente el valor de los Warrants vinculados a o referidos a dichos “índices de referencia” (“<i>benchmarks</i>”).</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |

| B.19 / B.4b | Known trends affecting the Guarantor and the industries in which it operates | <p>The slowdown in the global economy, which has been going on for several quarters due to weakening demand, was accelerated by the shock of the Covid-19 coronavirus, which caused a marked slowdown in production. Developments in the Covid-19 situation remain an important source of uncertainty. It has already resulted in a sharp drop in activity in the most affected areas and should have repercussions on world demand via the disruption of value and the halt on demand linked to the various containment measures but also to trust. This crisis affects both supply and demand, making it difficult to respond to the right economic policy. Authorities in the most affected countries could take measures to support businesses in difficulty. The financial markets can be an accelerator of the economic crisis in the event of a marked and lasting fall in asset prices.</p> <p>The impact of this epidemic on the Group's results remains difficult to quantify.</p> <p>In the longer term, the outlook will be strongly influenced by government responses to several major policy challenges. These include defining an appropriate policy mix to tackle weak structural growth and high indebtedness. A new approach to global governance is also necessary with respect to other major structural challenges such as trade tensions, climate change and digital transformation.</p> <p>Central banks will continue to provide stimulus, but monetary policy accommodation risks being less effective, especially given that the financial leverage cycle is stretched and that macroprudential authorities, not least in Europe, are likely to respond with tightening. The situation has triggered calls for a more aggressive use of fiscal policy.</p> <p>The withdrawal of the United Kingdom from the European Union at the end of January 2020 is also a negative factor. Negotiations are currently seeking to cement the future economic relationship between the UK and the 27-member European Union (EU27) that will enter into effect when the transition period ends on 31 December 2020. During the transition, the relationship between the UK and the EU27 will continue to function as before, but a risk subsists of a hard Brexit at the end of the transition period despite the introduction of an Irish</p> |

| | | |
|-------------------|---|--|
| | | <p>backstop.</p> <p>The global economy also faces challenges stemming from the need to address climate change and industry transformation to adapt to new digital technologies and automation, at the risk of further widening the gap between high- and low-skilled workers.</p> <p>In emerging economies, headwinds coming from slower trade also dampened growth in Asia, albeit still the fastest-growing region in the world. Expansion is poised to moderate in emerging Europe. While financial conditions remain benign, especially since US monetary easing, emerging markets face large corporate debt repayments over 2019-2021 and are still vulnerable to changing markets. In China, the authorities are facing different challenges including structural economic slowdown, trade tensions with the US and the repercussions of the coronavirus outbreak. That said, given burgeoning debt levels, the Chinese authorities are taking a cautious approach to policy easing to support activity and avoid a hard landing, while keeping an eye on future stability.</p> <p>As far as the regulatory landscape is concerned, 2019 was chiefly dominated by:</p> <ul style="list-style-type: none"> - the ratification of the Risk Reduction Package by the European triologue - the European Parliament, the European Commission and the European Council - that notably comprises the new CRR2, CRD5 and BRRD2 regulations and directives; - progress by European authorities in rolling out European action plans aimed at consolidating the balance sheets of European banks with respect to their non-performing loans (NPLs), in addition to many other initiatives such as the broad stabilisation of measures related to minimum loss coverage with prudential provisions (the NPL backstop); - increased interest in cyber risk on the part of international authorities, paired with greater and shared awareness by European authorities of the need for banks to reinforce their cyber-resilience; - the ongoing European legislative process for the legislative package on sustainable finance, one of the highlights being a political agreement by the Council of the European Union on the taxonomy of activities with sustainable objectives; - follow-up of preparations for Brexit and its regulatory implications; - the strengthening of the normative framework for the fight against money laundering and the financing of terrorism ("LCB-FT") by the publication of an order and two implementing decrees, which transpose into French law the fourth directive drawn up in the framework of the 2016 European action plan <p>For 2020, certain aspects mentioned above will be subject to further regulatory and even supervisory scrutiny.</p> |

| | | <p>The group may incur losses as a result of unforeseen or catastrophic events, including terrorist attacks or natural disasters.</p> <ul style="list-style-type: none"> • Liquidity and funding risks <p>A number of exceptional measures taken by governments, central banks and regulators could have a material adverse effect on the group's cost of financing and its access to liquidity.</p> <p>A downgrade in the group's external rating or in the sovereign rating of the french state could have an adverse effect on the group's cost of financing and its access to liquidity.</p> <ul style="list-style-type: none"> • Risks related to insurance activities <p>A deterioration in the market condition, and in particular a significant increase or decrease in interest rates, could have a material adverse effect on the life insurance activities of the group's insurance business.</p> <p>Since the Issuer is part of the Group, these risk factors are applicable to the Issuer.</p> |
| D.6 | Important warning to the investor | <p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by</p> |

Such activities and information may cause consequences adverse to Warrantholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The regulation and reform of “benchmarks” may adversely affect the value of Warrants linked to or referencing such “benchmarks”.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p> |

| B.19 / B.4b | Tendencias conocidas relativas al Emisor y a los sectores en los que opera | <p>La ralentización de la economía global durante varios trimestres a causa de la debilidad de la demanda se aceleró por el impacto del coronavirus Covid-19, que causó una ralentización profunda de la producción. La evolución de la situación del Covid-19 sigue siendo una fuente importante de incertidumbre. Ya ha provocado caídas abruptas en la actividad de la mayoría de las zonas afectadas y debería tener repercusiones en la demanda mundial, tanto a través de la disrupción de valor como de la parada de la demanda, a causa de las medidas de contención y los problemas de confianza. Esta crisis afecta tanto a la oferta como a la demanda, por lo que es difícil dar con las medidas económicas adecuadas. Las autoridades de la mayoría de los países afectados podrían adoptar medidas para apoyar a las empresas con dificultades. Los mercados financieros pueden ser un factor acelerador de la crisis económica en caso de que haya caídas duraderas y pronunciadas en los precios de los activos.</p> <p>El impacto de esta epidemia en los resultados del grupo actualmente es difícil de cuantificar.</p> <p>A largo plazo, las perspectivas estarán influidas fuertemente por la respuesta gubernamental a varios retos políticos, entre los que se encuentra el establecimiento de un conjunto apropiado de medidas para hacer frente al débil crecimiento estructural y al elevado endeudamiento. También es necesario un nuevo enfoque hacia la gobernanza global en relación con otros retos estructurales como las tensiones comerciales, el cambio climático y la transformación digital.</p> <p>Los bancos centrales seguirán ofreciendo estímulos, pero hay riesgo de que la flexibilización monetaria sea menos efectiva, especialmente teniendo en cuenta que el actual ciclo de apalancamiento financiero se ha extendido y las autoridades macroprudenciales, por lo menos en Europa, probablemente responderán con medidas restrictivas. La situación ha hecho aflorar voces que piden una política fiscal más agresiva.</p> <p>La salida de Reino Unido de la Unión Europea a finales de enero de 2020 también es un factor negativo. Las negociaciones actualmente buscan cimentar la relación económica futura entre el Reino Unido y los 27 miembros de la Unión Europea (UE27) que se aplicará cuando acabe el periodo de transición el 31 de diciembre de 2020. Durante la transición, las relaciones entre el Reino Unido y la UE27 seguirán funcionando como hasta ahora, pero persiste el riesgo de que se dé un Brexit duro al final de la transición pese la solución de emergencia para la frontera irlandesa.</p> <p>La economía global también se enfrenta a retos derivados de la necesidad de corregir el cambio climático y la transformación de la industria para adaptarla a las nuevas tecnologías digitales y a la automatización, con el riesgo que esto entraña en el aumento de las diferencias entre trabajadores de alta y baja cualificación.</p> <p>En las economías emergentes, los efectos del menor comercio también afectaron al crecimiento de Asia, aunque sigue siendo la región con mayor crecimiento del mundo. La expansión seguramente se moderará en la Europa emergente. Aunque las condiciones financieras siguen siendo benignas, especialmente tras la flexibilización monetaria en</p> |

| | | <p>Estados Unidos, los mercados emergentes se enfrentan a grandes vencimientos de deuda corporativa en el periodo 2019-2021 y siguen siendo muy vulnerables a la evolución de los mercados. En China, las autoridades se enfrentan a diversos retos, como la ralentización económica estructural, la tensión comercial con EE. UU. y las repercusiones de la pandemia del coronavirus. Dicho esto, dado el aumento del endeudamiento, las autoridades chinas están adoptando un enfoque cauto de flexibilización para favorecer la actividad y evitar un aterrizaje forzoso al mismo tiempo que buscan la estabilidad futura.</p> <p>En lo que respecta al panorama regulatorio, 2019 estuvo dominado principalmente por:</p> <ul style="list-style-type: none"> • La ratificación del Paquete de Reducción de Riesgos por el trílogo europeo, el Parlamento Europeo, la Comisión Europea y el Consejo Europeo, que incluye principalmente las directrices y reglamentos CRR2, CRD5 y BRRD2. • El progreso de las autoridades europeas en el despliegue de acciones que consoliden los balances de los bancos europeos en relación a sus préstamos morosos, así como otras muchas iniciativas, como la estabilización general de las medidas sobre coberturas mínimas de pérdidas con provisiones prudentes (la solución de los préstamos morosos). • El mayor interés en el riesgo cibernético por parte de las autoridades internacionales unido a la mayor conciencia de las autoridades europeas de la necesidad de los bancos de reforzar su ciberseguridad. • El proceso legislativo europeo sobre el paquete legislativo de finanzas sostenibles, donde destaca el acuerdo político del Consejo de la UE sobre la taxonomía de las actividades con objetivos sostenibles. • El seguimiento de la preparación del Brexit y sus implicaciones regulatorias. • El fortalecimiento del marco normativo de la lucha contra el blanqueo de capitales y la financiación del terrorismo ("LCB-FT") con la publicación de una orden y dos decretos de aplicación que transponen a la legislación francesa la cuarta directiva redactada en el marco del Plan de acción europeo de 2016. <p>Para 2020, ciertos aspectos mencionados anteriormente estarán sujetos a un mayor escrutinio regulatorio e incluso supervisor</p> |

| D.6 | Advertencia importante para los inversores | <p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben</p> |

| | <p>tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>La regulación y reforma de los “índices de referencia” (“<i>benchmarks</i>”) puede afectar negativamente el valor de los Warrants vinculados a o referidos a dichos “índices de referencia” (“<i>benchmarks</i>”).</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p> |
