Highlights of the results

**In a challenging environment profits grew again,
thanks to:**

The benefits of geographical diversification, which offset the impact on premiums and results of the depreciation of the Brazilian Real and the decline in demand in Spain

The improvement of the Non-Life underwriting result, underpinned by a combined ratio which decreased significantly in the international business and remained at excellent levels in Spain

The recovery in growth in Life Assurance, thanks to the International Insurance business and an excellent performance of the agents' channel in Spain

Lower financial income as a result of the decrease in interest rates and a negative mark-to-market of the trading portfolio in Brazil

Expense ratio ⁽²⁾	28.2%	27.9%	
Combined ratio⁽²⁾	95.6%	95.1%	

Key points

- The good development of premiums reflects the growth of the international business, offset by the lower business volume in Spain and the depreciation of the Brazilian Real
- Positive trend in the combined ratio thanks to an improvement in the expense ratio in Direct Insurance and the decrease in the loss experience, whose improvement in Latin America and the Global Businesses offset the increases in Spain, the USA and Turkey
- Realisations gains of €95 million (losses of €139.5 million in 6M 2012)
- Non-recurring exchange rate differences of €20.2 million
- General decrease in interest rates

Result of Life business	320.5	284.3	-11.3%

Key points

- Spain: excellent performance of the agents' network
- Organic growth in the international business, offset by:
 - a contraction in Reinsurance
 - the reclassification of business lines in Brazil carried out at the end of 2012
 - the depreciation of the Brazilian Real

- The decline in the underwriting and financial result reflects mainly the reclassification of some lines of business into the Non-Life segment in Brazil⁽²⁾, as well as negative mark-to-market adjustments to the trading portfolio in Brazil

Million Euros

1) This has a neutral impact on results, since it is compensated by a variation of equal amount and opposing sign in technical reserves

Spain & Portugal Insurance Division: highlights of the results in Spain

Premiums evolution

The variation in premiums is the result of:

- the deterioration of the market environment, characterised by a decline in the demand for Non-Life insurance, which affected in particular the Motor and Commercial lines
- the excellent performance of the agents' channel in Life Assurance, thanks to the success of the sales campaigns rolled out in the second quarter
- a better performance than the market in the Home and Life-Protection businesses

Insurance result

The underwriting result reflects mainly:

- a lower volume of net premiums earned, which reflects both the decline in gross written and accepted premiums, as well as the formalisation of a reinsurance contract between MAPFRE FAMILIAR and MAPFRE RE
- an increase in severe weather-related events during the second quarter, which affected the Home and Condominium lines
- the excellent combined ratio of the Commercial business
- the containment of overheads and distribution costs, which offset the impact of the increase in VAT, maintaining the business's profitability

The development of the financial result reflects:

- the lower volume of technical reserves in Non-Life insurance
- the decrease in interest rates
- realisation gains amounting to €21 million (-€97.7 million in 6M 2012, €51.5 million of which corresponded to realisation gains and -€149.2 million to the exchange of Greek sovereign bonds and the impairment of the investment in Bankia)

Highlights of the Unit

- Significant decrease in the combined ratio, as a result of:
 - continued improvements both in the loss ratio and in the expense ratio, especially in Brazil
 - the sale of the MAPFRE ART and MAPFRE SALUD businesses (Argentina), which contributed premiums of €110 million in 6M 2012
- Negative impact of the depreciation of the Brazilian Real and the Argentine Peso⁽¹⁾, as well as the devaluation of the Venezuelan Bolivar
- Negative mark-to-market of the trading portfolio in Brazil due to the increases in interest rates, partly mitigated by positive exchange rate differences amounting to €22.3 million (+€2.5 million in 6M 2012)
- The transfer of the management of the business operations in PUERTO RICO to MAPFRE INTERNACIONAL

Highlights of the Unit

- Transfer of the Portuguese businesses to the Spain & Portugal Insurance Division and integration of the operations of PUERTO RICO, which were previously included in MAPFRE AMÉRICA

Highlights by countries

USA

- The growth in premiums continues to reflect mainly rate rises in all states
- Increase in the combined ratio mainly due to the impact of large losses amounting to €17.5 million, net of reinsurance, among which of noteworthy mention are the snowstorms in February and the rains in the second quarter

TURKEY

- Strong growth in premiums in the Motor and Health lines, which reflect the company's product range and the expansion of the distribution network. Premium increases in the Industrial lines as well, due to the growing activity in this business line and the cooperation with MAPFRE GLOBAL RISKS
- Increase in the loss experience, due to a temporary appropriation of technical reserves
- Realised capital gains of €22.2 million before taxes, as a result of the sale of the former headquarters in Istanbul
- Lower recurring financial results stemming from the decrease in interest rates

PUERTO RICO

- The development of premiums and results reflects the state of the Island's economy, as well as the initiatives undertaken to improve the profitability of Health Insurance

MALTA

- Especially positive performance of the Life-Savings segment, partly offset by the loss of business from an agency, which affects the Non-Life lines
