CALCULATION ADJUSTMENT DUE TO A POTENCIAL ADJUSTMENT EVENT

Dear Sirs:

As you know, ArcelorMittal has announced a spin-off of Aperam, with effective date 26th January 2011 (the "Event"). ArcelorMittal's shareholders will receive, according to the package method established, 5 Aperam shares per 100 ArcelorMittal shares owned, given the realization of the terms and conditions underlying the process of distribution of Aperam's shares. This Event has been determined as Potential Adjustment Event by the Calculation Agent.

Such Potential Adjustment Event will affect the notes Notas Estructuradas 67 EUR 1,100,000 Equity Linked Redemption due December 2015 ISIN Code ES0325467639 issued by BBVA Senior Finance, S.A. Unipersonal under the €2,000,000,000 Structured Medium Term Note Programme

The Calculation Agent has determined that such Event has a dilution effect, therefore the Calculation Agent has made the corresponding adjustment.

The adjustment will be executed as follows:

1) New Share₀ of ArcelorMittal:

$$P_1 = P_0 * ((AM1 - (0.05 * AP)) / AM1)$$

P₁= New Share₀ of ArcelorMittal after the spin-off.

P₀= Share₀ of ArcelorMittal before the spin-off.

AM1= Closing price for ArcelorMittal on 25/01/2011, which is: 27.32

AP= Opening price for Aperam on 26/01/2011, which is: 28

Therefore, the Share₀ of ArcelorMittal will be:

$$24.658142 = 25.99 * 0.948755$$

The effective date of this adjustment will be 26/01/11.

Yours faithfully,

Banco Bilbao Vizcaya Argentaria, S.A.
