

February 2012 traffic

Vueling increases the number of passengers carried in February by 26.6%

The company increases its load factor by 9.4 points year-on-year, reaching a 77.8% load factor

Barcelona, 13th March 2012. – Vueling, the new generation airline, has carried 797,482 passengers in February 2012. This represents a 26.6% increase compared to February 2011. The company has reached a load factor of 77.8%, 9.4 points higher than last year.

The main traffic figures are the following:

	February		
	2012	2011	Var.
Number of flights	5,708	5,165	10.5%
ASK('000)	872,371	792,995	10.0%
RPK ('000)	679,079	543,107	25.0%
Load factor (RPK/ASK)	77.8%	68.5%	9.4pp
Passengers ('000)	797	630	26.6%

ASK (available seat-kilometre): number of seats flown multiplied by the number of kilometres flown

RPK (revenue passenger kilometre): number of passengers carried multiplied by the number of kilometres flown

Increased capacity for summer 2012

Vueling continues consolidating its leadership position in Barcelona El Prat airport. Moreover, Vueling plans to continue strengthening its leadership position during the 2012 summer season. As previously communicated, Vueling will open 51 new routes for this summer season, including the recently announced Bilbao-Venice.
