

SOLARPACK CORPORACIÓN TECNOLÓGICA, S.A.

COMMUNICATION OF SIGNIFICANT EVENT

Pursuant to article 17 of Regulation (EU) 596/2014 of the European Parliament and the Council of 16 April 2014 on market abuse (the market abuse regulation) ("**MAR**") and article 227 of the consolidated text of the Securities Market Act, approved by Royal Legislative Decree 4/2015, of 23 October, Solarpack informs of the following:

SIGNIFICANT EVENT

Solarpack announces it has signed a turnkey EPC agreement, as contractor, for the construction of two 50 MW solar photovoltaic ("PV") power plants with **aventron AG**, EPC client under said agreement. The solar PV plants, which will be located in Toledo and Murcia (Spain), will start construction once **aventron AG** reaches the financial close for both projects, a milestone that the company plans to achieve during the second quarter of 2019. **aventron AG** is an independent renewable energy producer headquartered in Switzerland and listed on the Berne Stock Exchange under the ticker AVEN (ISIN CH0023777235).

This agreement is aligned with Solarpack's strategy of executing EPC contracts with third parties in an opportunistic manner, provided that the contracts bring synergies to the development and construction of Solarpack's own projects and that they are signed with strategic clients.
