These platforms act very aggressively. Scammers even try to persuade the victims to allow them to take control of their computer remotely in order to make certain money transfers. The fraudsters also try to convince the victims to invest increasingly higher amounts of money. They also make promises of repayment in exchange for one last money transfer. This is a technique to collect even more money from their victims.

Victims who agree to do so complain in particular about:

- **finding themselves unable to recover their money, or**
- **simply not hearing any more from the platform** with which they have invested their money.

These are most likely cases of **investment fraud**.

The FSMA **strongly advises against responding to any offers of financial services** made by the following new trading platforms:

- **Agartha Asset Management** (www.agarthaassetmanagement.com)
- **Antarimarkets** (www.antarimarkets.com)
- **Apex500** (www.apex-500.com)

Always check the identity (company name, home country, registered office, etc.) **of the company**. If the company cannot be clearly identified, it should not be trusted.

Always verify if the company in question has the requisite authorization. To this end, an easy [search](#) on the financial supervisory authority’s website will do. Important! Always beware of ‘**cloned firms**’: companies that pass themselves off as different, lawful companies even though they have no connection with them. A close look at the email addresses or contact details for the companies in question may prove useful in order to detect this type of fraud and prevent it.

More than ever, prudence is necessary. In case of any doubt, and before making any (more) payments, do not hesitate to contact the FSMA using the [consumer contact form](#). As well, please feel free to notify it of any contact with a suspicious company that has not yet been the subject of a warning by the FSMA.

Should fraudsters moreover manage to take control of your computer, the FSMA recommends that you contact your bank and, if necessary, that you change your passwords.

For more recommendations aimed at avoiding investment fraud, the FSMA invites investors to consult the '[How to recognize and avoid fraud?](#)' page on its website. Also watch the new awareness campaign videos (available in [French](#) or [Dutch](#) only).
