Enerfín signs a 20-year power purchase agreement in Brazil

Enerfín, the wind power subsidiary of the Elecnor Group, has signed a 20-year power purchase agreement for a new wind farm in the north-eastern Brazilian state of Rio Grande do Norte with the CEMIG-GT company, part of one of the largest generation, transmission, distribution and marketing groups in Brazil.

This contract will enable Enerfín to commence construction of its first wind farm in that region, entailing an initial investment of around BRL 350 million.
