

First-half net income 19 percent below last year – Net operating cash flow greatly improved

Business conditions remained difficult in the first half of 2002, with no sustained recovery in customer demand so far. Sales from continuing operations, at €14.3 billion, were down 7 percent, of which 2 percentage points were due to exchange rate fluctuations and 3 points to the withdrawal of Lipobay®/Baycol®.

The absence of this product was one of the main reasons for the 44 percent drop in the operating result before exceptional items to €0.8 billion, another major factor being continuing pressure on polymers and chemicals margins. The operating result after exceptional items fell by 20 percent to €1.0 billion. The exceptional items comprised

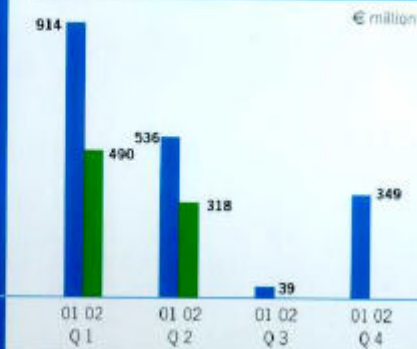

€0.5 billion in income from the sale of housing units and €0.3 billion in charges for restructuring and site consolidation.

Haarmann & Reimer will be reported as a discontinuing operation until the date of its divestment. Including discontinuing operations, Group sales declined by 8 percent to €14.7 billion and the operating result fell 35 percent to €1.1 billion, the previous year's figure having been boosted by exceptional income from the sale of the interest in EC Erdölchemie. Group income after taxes for the first half of 2002 amounted to €0.8 billion, including €0.3 billion from the sale of the 30 percent interest in Agfa-Gevaert N.V.

Performance by Business Area

In the first half of 2002 our four business areas recorded combined external sales of €13.9 billion, an operating result of €0.9 billion before exceptional items, and gross cash flow of €1.5 billion. Polymers accounted for the largest proportions of sales and gross cash flow (39 and 36 percent respectively), while HealthCare contributed the largest share – 47 percent – to the operating result.

Earnings for the second quarter of 2002 were significantly affected by the acquisition of Aventis CropScience as of June 1, which led to €0.1 billion of purchase accounting amortization. The increased level of net debt resulting from the acquisition was already reduced to €12.1 billion by June 30 through tight controls on spending and 60 percent growth in net cash flow.

PERFORMANCE BY BUSINESS AREA (before reconciliation)

Interim Report for the First Half

HEALTHCARE				CROPSCIENCE			
€ million	1st Half		Full Year 2001	€ million	1st Half		Full Year 2001
	2002	2001			2002	2001	
Sales	4,760	5,341	10,821	Sales	1,949	1,680	2,708
Operating result before exceptional items	437	523	943	Operating result before exceptional items	164	375	453
Return on sales before exceptional items	9.2 %	9.8 %	8.7 %	Return on sales before exceptional items	8.4 %	22.3 %	16.7 %
Gross cash flow	511	544	926	Gross cash flow	259	351	550

Sales in the **Health Care** business area decreased by 11 percent in the first half to €4.8 billion, largely because of the withdrawal of the cholesterol-lowering drug Lipobay®/Baycol®. The operating result before exceptionals dropped by 16 percent to €0.4 billion, and gross cash flow was down 6 percent to €0.5 billion. Profitability in this business area is currently very unsatisfactory, and further cost savings have been initiated. Talks are already being held with a view to a possible alliance.

TOP-SELLING BAYER PHARMACEUTICAL AND BIOLOGICAL PRODUCTS IN THE FIRST HALF OF 2002

	€ million	Change
Ciprobay®/Cipro®	775	+ 5 %
Adalat®	444	- 13 %
Kogenate®	176	+ 75 %
Gamimune® N	154	- 1 %
Glucobay®	145	- 6 %
Avalox®/Avelox®	112	+ 6 %
Profastin®	82	+ 46 %
Nimotop®	65	+ 7 %
Trasylol®	64	- 4 %
Human albumin/Plasmubin®	44	- 13 %

Pharmaceutical sales in the first half of 2002 declined by 24 percent to €1.9 billion, mainly due to the absence of Lipobay®/Baycol®. The anti-infectives Ciprobay®/Cipro® and Avalox®/Avelox® posted sales increases. The antihypertensive Adalat® stood up well to increasing competition from generics, with second-quarter sales reaching nearly the previous year's level.

Following receipt of an "approvable" letter from the U.S. Food and Drug Administration, we now expect the U.S. launch of our new erectile dysfunction drug to be delayed until 2003.

The Biological Products Business Group performed well, with substantially higher output of the factor VIII product Kogenate® boosting sales by 21 percent to €0.5 billion.

Consumer Care sales were down 10 percent to €0.9 billion, due especially to lower demand for our cold and pain remedies in the United States. Business was also hurt by the economic crisis in Argentina, which is an important market for this business group.

Diagnostics sales rose by 3 percent to €1.0 billion, with the ADVIA® Centaur laboratory analyzer and the Glucometer® Elite blood glucose meter contributing particularly to growth.

Animal Health sales matched the previous year's level of €0.4 billion.

POLYMERS

€ million	1st Half		Full Year
	2002	2001	2001

	2002	2001	2001
Sales	1,700	2,050	3,749
Operating result			
before exceptional items	107	255	271
Return on sales			
before exceptional items	6.3 %	12.4 %	7.2 %
Gross cash flow	186	237	379

CropScience sales rose by 16 percent, or €0.3 billion, to €1.9 billion, due to the first-time inclusion of the business acquired from Aventis CropScience (ACS). Good growth was achieved in Europe by our Stratego® and Folicur® fungicides. Business in Latin America, however, was impaired by the adverse economic situation in some of our major markets.

The operating result and gross cash flow were down by 56 and 26 percent, respectively, to €0.2 billion and €0.3 billion. Since the ACS business was not actually acquired until June 1, 2002, the amounts provisionally reflected in the consolidation as at June 30 are taken from the pro forma financial statements of the Bayer CropScience subgroup and include the €0.1 billion amortization of the difference between the purchase price and the net equity acquired.

Sales in the **Polymers** business area in the first half of 2002 decreased by 6 percent to €5.5 billion. Fierce competition for market share led to further price erosion and substantially lower operating profit and cash flow, which were down by 47 and 30 percent, respectively.

Sales of the **Plastics Business Group** declined by 12 percent to €1.6 billion, and those of the **Rubber Business Group** by 4 percent to €1.1 billion. Polyurethanes sales edged up 1 percent to €1.6 billion, while business in **Coatings and Colorants** slipped 5 percent to €1.0 billion.

The **Chemicals** business area recorded a 17 percent, or €350 million, decline in sales to €1.7 billion. Demand from major customer industries remained unsatisfactory, with prices continuing to decline – a trend that particularly affected H.C. Starck. As a consequence, the operating result fell by 58 percent and gross cash flow receded by 22 percent.

Sales in the **Basic and Fine Chemicals Business Group** dropped by 12 percent due to the divestment of ChemDesign and the sharp drop in the price of caustic soda solution. Business in **Specialty Products** was down 6 percent to €0.7 billion. Sales of **Wolff Walsrode** were 25 percent lower, at €0.2 billion, because of this business group's strategic realignment and the associated divestiture.

PERFORMANCE BY REGION

Performance by Region

Sales of our companies in **Europe** receded by 6 percent, or €0.4 billion, compared with the same period of 2001, to €6.7 billion. The Lipobay®/Baycol® withdrawal and the divestments made accounted for €0.2 billion of the decline. The operating result dropped by 53 percent to €0.6 billion, and gross cash flow was down 21 percent to €1.0 billion. The return on sales, however, at 9 percent, was well above the Group average.

In **North America** business was down by 8 percent, or €0.4 billion, to €4.6 billion, with €0.3 billion of the decrease accounted for by the Lipobay®/Baycol® withdrawal and by divestments. Operating profit and gross cash flow, however, each improved by €0.1 billion.

Business of our companies in the **Asia/Pacific** region improved over last year in local currencies despite the absence of Lipobay®/Baycol®. They recorded sales of €2.0 billion, with the operating result and gross cash flow each amounting to €0.2 billion. Figures for China were particularly encouraging.

In the **Latin America/Africa/Middle East** region, sales were down 10 percent to €1.0 billion, with shifts in exchange rates having an 18 percent negative effect. The economic crisis worsened in recent months, especially in Argentina. Against this background, the operating result and gross cash flow each dropped to €0.1 billion.

EARNINGS

€ million	1st Half		Full Year 2001
	2002	2001	
Operating result	1,088	1,671	1,611

Income before income taxes	979	1,441	1,115
Net income	816	1,006	965

Liquidity and capital resources

The consolidated financial statements for the first half of 2002 have been prepared as for the year 2001 according to the rules issued by the International Accounting Standards Board, London. Reference should be made as appropriate to the notes to the 2001 statements.

Gross cash flow declined by €0.2 billion to €1.6 billion. However, the cash outflow resulting from changes in working capital was only €0.3 billion, compared with €1.0 billion in the first half of 2001. The net operating cash flow therefore rose by 60 percent to €1.3 billion.

Net cash of €4.4 billion was used in investing activities. Expenditures for acquisitions came to €5.4 billion, and net additions to property, plant and equipment were €0.2 billion. Cash inflow from investments and dividends amounted to €1.2 billion.

Financing activities provided net cash of €3.2 billion. Net borrowings were €4.3 billion, consisting mainly of a ten-year and a five-year bond issued by Bayer AG and carrying a 6 percent and a 5.375 percent coupon, respectively. Of the €5.0 billion total issue volume, 38 percent has been swapped from fixed into floating interest. Cash disbursements totaling €1.1 billion were made for dividend and interest payments.

Cash and cash equivalents increased compared to June 30, 2001 by €0.2 billion to €0.8 billion. Including marketable securities and other instruments, the Group had liquid assets of €0.9 billion on June 30, 2002.

Earnings performance

The operating result – including discontinuing operations – for the first half of 2002 declined by 35 percent to €1.1 billion. This includes a €0.5 billion one-time gain from the sale of company-owned housing units and net restructuring charges of €0.3 billion.

The non-operating result improved by €121 million to minus €109 million, mainly due to the €0.3 billion gain from the sale of the remaining shares we held in Agfa-Gevaert N.V. Income tax expense amounted to €0.2 billion. The tax-free income from the divestments brought the effective tax rate down to 16 percent.

Net income fell by 19 percent, or €0.2 billion, to €0.8 billion.

Interim Report for the First Half

BALANCE SHEET STRUCTURE

€ million	June 30, 2002	June 30, 2001	Dec. 31, 2001
Noncurrent assets	25,728	22,305	21,702
Current assets	18,969	17,010	15,337
Stockholders' equity	15,648	17,296	16,922
Minority stockholders' interest	149	103	98
Liabilities	28,900	21,916	20,019
Total assets	44,697	39,315	37,039

Asset and capital structure

Total assets increased during the first six months of 2002 by €7.7 billion to €44.7 billion due to the acquisition of Aventis CropScience. Noncurrent assets rose by €4.0 billion to €25.7 billion, now amounting to 58 percent of the total. Current assets grew by €3.7 billion to €19.0 billion, with inventories accounting for €0.9 billion of the increase and trade accounts receivable for €1.6 billion.

Stockholders' equity declined by €1.3 billion to €15.6 billion. While €0.1 billion was allocated out of net income after payment of the dividend for 2001, currency translations and the measurement of financial instruments according to IAS 39 diminished equity by €1.4 billion.

Liabilities, including deferred taxes and deferred income, grew by €8.9 billion to €28.9 billion. The main factor here was a €6.0 billion increase in financial obligations, due primarily to the bonds issued in connection with the acquisition of Aventis CropScience.

Capital expenditures

In the first half of 2002 we spent €1.0 billion for intangible assets, property, plant and equipment. This amount was fully financed out of the €1.3 billion amortization and depreciation charge. Investment focused on Europe and North America, which accounted for €0.5 billion and €0.4 billion, respectively.

Our €2.4 billion capital spending budget for the full year 2002 is not expected to be fully utilized.

Employees

On June 30, 2002 the Bayer Group had 127,800 employees. Of these, 124,200 worked in continuing operations, compared with 113,000 at the start of the year. The first-time inclusion of the Aventis CropScience group increased headcount by 13,200. Personnel expenses rose by €45 million compared with the first half of 2001.

Outlook

The strategic realignment of the Bayer Group, involving the creation of four independent operating units, has reached an advanced stage.

HealthCare covers the broad product portfolio of the Pharmaceuticals, Biological Products, Consumer Care, Diagnostics and Animal Health business groups. We expect this new constellation will contribute to more favorable cost structures, a stronger market focus and much greater flexibility, especially with a view to possible alliances.

CropScience should quickly integrate the business acquired from Aventis. The conditions under which the acquisition was approved by the European Commission and the U.S. Federal Trade Commission mean we will divest or outlicense products with a sales volume totaling €650 million to €700 million. This year's earnings will be impaired by integration charges and purchase accounting amortization.

In **Polymers and Chemicals** we do not anticipate a sustained business improvement in the second half in view of the economic situation, so the only way we can increase efficiency in the short term is through cost containment. We are seeking alliances for our chemicals business in light of the ongoing industry consolidation. We expect the antitrust authorities to consent to our sale of the Haarmann & Reimer group to EQT Northern Europe Equity Funds by the end of this year. A debt-free purchase price of €1.66 billion has been agreed.

Despite the poor economic prospects, we expect net income to exceed last year's level due to the divestments.
