## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
- (f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Futures Exchange**" means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on

any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the EURO STOXX 50® Index (ISIN EU0009658145) as determined and published by STOXX Ltd (the **"Index Sponsor"**).

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the **"Option Right"**) to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the **"Redemption Amount"**) which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to EUR 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

#### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

#### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

#### **§ 6 ADJUSTMENTS**

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.
  - (a) An Adjustment may result in:
    - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,

and/or

- (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
  - (aa) the effect of an Extraordinary Event on the level of the Index;
  - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
  - (cc) any cash compensation or other compensation in connection with a Replacement;

and/or

- (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

- (b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where

- (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

- (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

- (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.

- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.

- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.

- (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

- 2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions

shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

**§ 8**  
**FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES**

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

**§ 9**  
**TAXES**

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

**§ 10**  
**STATUS**

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 11**  
**PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions;

the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### **§ 13 NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### **§ 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### **§ 15 FINAL CLAUSES**

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice

to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.

3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

## Annex to the Final Terms

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
--	---

	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>

	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>

	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the</p>

Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of

	<p>other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends</p>

	upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

## Section E - Offer

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>  La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos

	<p>materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>

	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del</p>

	<p>Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (<i>common equity tier 1</i>) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención</p>

de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (Abwicklungsmechanismengesetz; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en

caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con

	<p>independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier</p>

	componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

**"Adjustment Event"** means:

- (a) the adjustment of options or futures contracts relating to the Share at the Futures Exchange or the announcement of such adjustment;
- (b) any of the following actions taken by the issuer of the Share (the "**Company**"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with options or conversion rights related to the Share, distributions of extraordinary dividends, stock splits or any other splits, consolidation or alteration of category;
- (c) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity; or
- (d) any other event relating to the Share having a diluting or concentrative effect on the theoretical value of such Share.

**"BGB"** means the German Civil Code (*Bürgerliches Gesetzbuch*).

**"Exchange"** means the exchange or trading system as set out in the Table of Product Details.

**"Exchange Business Day"** means a day on which the Exchange and the Futures Exchange are open for trading during their respective regular trading sessions, notwithstanding the Exchange or Futures Exchange closing prior to its scheduled weekday closing time. Any trading or trading activities after or before the regular trading sessions on the Exchange or the Futures Exchange will not be taken into account.

**"Exercise Date"** means the date as set out in the Table of Product Details.

**"Extraordinary Event"** means:

- (a) the termination of trading in, or early settlement of, options or futures contracts relating to the Share at the Futures Exchange or the announcement of such termination or early settlement;
- (b) the termination of the listing of the Share on the Exchange due to a merger by absorption or by creation or due to any other reason, or the becoming known of the intention of the Company or the announcement

of the Exchange that the listing of the Share at the Exchange will terminate immediately or at a later date and that the Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;

- (c) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (d) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or
- (e) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

**"Futures Exchange"** means the exchange or trading system with the highest trading volume of options or futures contracts relating to the Share. If options or futures contracts on the Share are not traded on any exchange, the Futures Exchange shall be the options or futures exchange with the highest amount of options or futures contracts relating to shares of companies having their residence in the country in which the Company has its residence. If there is no options or futures exchange in the country in which the Company has its residence on which options or futures contracts on shares are traded, the Issuer will determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and will make notification thereof in accordance with § 13.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) the Share on the Exchange, or (b) any options or futures contracts relating to the Share on the Futures Exchange (if such options or futures contracts are traded on the Futures Exchange), provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the respective exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event if such limitation still prevails at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the price of the Share last determined and published by the Exchange on any relevant day (closing price).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Share"** means the share as set out in the Table of Product Details.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Exchange Business Day on which there is a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Exchange Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on

such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Share in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

### **§ 6 ADJUSTMENTS**

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Adjustment Event or Extraordinary

Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.

2. An Adjustment may result in:

(a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange,

and/or

(b) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:

(i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;

(ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or

(iii) any cash compensation or other compensation in connection with a Replacement;

and/or

(c) consequential amendments to the share related provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

3. Adjustments shall correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").

(a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the Cut-off Date shall be the (replacement) Share for the purpose of the Securities, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Securities. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be the (replacement) Share in accordance with the forgoing sentence. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

(b) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments in cases where:

(i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

(ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share.
4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
  5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
  6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
  7. Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any Shares or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Exchange Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Exchange Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer

under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").

5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10

### STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## § 11

### PAYING AGENT

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

**§ 13**  
**NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

**§ 14**  
**LIMITATION OF LIABILITY;  
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.

2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

## § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.

8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

## Annex to the Final Terms

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p>

	<p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p>

	<p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b> <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p>

	<p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they</p>

may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of

	<p>higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control.</p>

	The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Development of the dividends of the Share</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

### **Apartado A - Introducción y Advertencias**

<b>A.1 Advertencias</b>	<p>El presente resumen deberá ser leído a modo de introducción al Folleto de Base y a las correspondientes Condiciones Finales. Los inversores deberán basar cualquier decisión de inversión en los Valores emitidos al amparo del Folleto de Base a la luz del contenido de este último en su conjunto y del de las correspondientes Condiciones Finales.</p> <p>En los supuestos en los que se presentara cualquier reclamación ante un juzgado o tribunal de un estado miembro del Espacio Económico Europeo por razón de la información contenida en el presente Folleto de Base, el inversor demandante, de conformidad con lo dispuesto en la legislación nacional de dicho estado miembro, podría verse obligado a asumir los costes de la traducción de dicho Folleto de Base y de las correspondientes Condiciones Finales con carácter previo al inicio del procedimiento judicial en cuestión.</p> <p>Podrá exigirse responsabilidad civil por el contenido del resumen a aquellas personas que hubieran sido responsables de su elaboración así como de la preparación de cualquier traducción del mismo y/o de la emisión del Folleto de Base, si bien únicamente en aquellos casos en que su contenido resultara engañoso, inexacto o incoherente en relación con las demás partes del Folleto de Base, o no aportara, considerado conjuntamente con las restantes partes del Folleto de Base, toda la información esencial necesaria.</p>
<b>A.2 Consentimiento a la utilización del Folleto</b>	<p>El Emisor consiente la utilización del Folleto de Base y de las Condiciones Finales para la posterior reventa o colocación final de los Valores por parte de cualesquiera intermediarios financieros.</p> <p>El periodo de oferta durante el cual los intermediarios financieros podrán llevar a cabo la posterior reventa o colocación final de los Valores no podrá extenderse más allá del período de validez previsto para el Folleto de Base y las Condiciones Finales en el artículo 9 de la Directiva sobre Folletos, en la forma en que la misma hubiera sido transpuesta por el correspondiente Estado Miembro.</p> <p>El consentimiento para utilizar el presente Folleto de Base y las Condiciones Finales se otorga únicamente en relación con los siguientes Estados Miembro: Reino de España.</p> <p>Dicho consentimiento para utilizar el Folleto de Base, incluyendo cualquiera de sus suplementos, así como a efectos de la utilización de cualesquiera Condiciones Finales que procedan, está sujeto a la condición de que (i) el presente Folleto de Base junto con las correspondientes Condiciones Finales sean entregados a los posibles inversores exclusivamente junto con cualquier suplemento</p>

o suplementos que hubieran sido publicados en cualquier momento anterior a dicha entrega, y siempre y cuando (ii) con ocasión de la utilización por su parte tanto del presente Folleto de Base como de cualesquiera Condiciones Finales el intermediario financiero en cuestión se asegure de cumplir en todo momento cualquier legislación y normativa aplicable vigente en las jurisdicciones pertinentes.

**Para el caso en que el intermediario financiero en cuestión realizara cualquier oferta a cualquier cliente o posible cliente en relación con el presente Folleto de Base y/o las correspondientes Condiciones Finales, dicho intermediario deberá facilitar cualquier información correspondiente al inversor sobre los términos y condiciones de la oferta en el momento de la presentación de dicha oferta.**

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2</b> <b>Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>  La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.
	<u>Entorno macroeconómico</u>

	<p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos</p>

	<p>en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de</p>

	<p>Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (<i>common equity tier 1</i>) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un</p>

supuesto de **"Bail-in"**. Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (Abwicklungsmechanismusgesetz; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio

también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas

	disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i> .
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores–designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>

	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Evolución de los dividendos de la Acción</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

<p><b>E.3</b>  <b>Descripción de los términos y condiciones de la oferta</b></p>	<p>COMMERZBANK ofrece a partir de 17 de febrero de 2017 diversas series de Valores en un volumen y por el precio de emisión inicial</p>

	por Valor que figura en el cuadro adjunto al resumen específico correspondiente a la Emisión en cuestión.
<b>E.4 Intereses de carácter material a efectos de la emisión/oferta incluyendo conflictos de interés</b>	<p>Pudieran surgir los siguientes conflictos de interés en relación con el ejercicio de los derechos y/o la exigencia de las obligaciones del Emisor de conformidad con los términos y condiciones de los Valores (p.ej., en relación con el cálculo o adaptación de los parámetros de los términos y condiciones), que incidieran sobre los importes a pagar:</p> <ul style="list-style-type: none"> <li>• ejecución de operaciones sobre el Subyacente</li> <li>• emisión de instrumentos derivados adicionales en relación con el Subyacente</li> <li>• relaciones comerciales con el emisor del Subyacente</li> <li>• posesión de información material (incluyendo información no pública) sobre el Subyacente</li> <li>• intervenciones como Creador de Mercado</li> </ul>
<b>E.7 Gastos estimados repercutidos al inversor por parte del emisor o del oferente</b>	<p>Generalmente el inversor podrá adquirir los Valores a un precio de emisión fijo. Dicho precio fijo de emisión incluye cualesquiera costes incurridos por el Emisor en relación con la emisión y venta de los Valores (p.ej., costes de distribución, de estructuración y cobertura, y el margen de beneficio de COMMERZBANK).</p>

<b>Applicable Terms and Conditions:</b>	Terms and Conditions for Plain Warrants

The summary applicable for this issue of Securities is annexed to these Final Terms.

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Commodity Business Day**" means a day on which the Price Source would ordinarily publish the London Gold price.

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) a permanent discontinuance or unavailability of the Price Source,
- (b) if since the Launch Date the basis (e.g. quantity, quality or currency) for the calculation of any price of the Metal and/or the method have been modified substantially;
- (c) the imposition of, change in or removal of a tax on, or measured by reference to, a Metal after the Launch Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Metal; or
- (d) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Issue Currency**" or "**EUR**" means Euro.

"**Launch Date**" means 14 February 2017.

"**Market Disruption Event**" means the occurrence or existence of any suspension of, or limitation imposed on, trading in the Metal on the *international interbank market* for metals, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Price Source"** means the London Bullion Market Association ("**LBMA**").

**"Reference Price"** means the morning London Gold price per fine troy ounce of Gold for delivery in London through a member of the LBMA authorized to effect such delivery, stated in USD, as calculated and administered by independent service provider(s), pursuant to an agreement with the LBMA, and ordinarily published by the LBMA on its website at [www.lbma.org.uk](http://www.lbma.org.uk) that displays prices effective on any relevant day.

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying" or "Metal"** means gold bars or unallocated gold complying with the rules of the LBMA ("**Gold**").

**"Underlying Currency" or "USD"** means United States Dollar.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Commodity Business Day on which there is a Reference Price again and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Commodity Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Metal in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

**"Ratio"** means the decimal figure as set out in the Table of Product Details.

**"Strike"** means the strike as set out in the Table of Product Details.

**"Type"** means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

**§ 4**  
**ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

**§ 5**  
**PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

**§ 6**  
**ADJUSTMENTS**

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Metal or on the price of the Metal, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the price of the Metal.
2. An Adjustment may result in:
  - (a) the definition of the Reference Price being adjusted,  
and/or
  - (b) the replacement of the Metal by another metal, a futures contract, a basket of futures contracts and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Extraordinary Adjustment Event (a "**Replacement**"), and another entity being determined as the Price Source,  
and/or
  - (c) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (i) the effect of an Extraordinary Event on the price of the Metal; or
    - (ii) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Metal; or
    - (iii) any cash compensation or other compensation in connection with an adjustment of the Reference Price or a Replacement;

and/or

- (d) consequential amendments to the metal related provisions of the Terms and Conditions that are required to fully reflect the consequences of the adjustment of the Reference Price or Replacement.
3. Adjustments shall correspond to the adjustments made to the Metal by the Price Source and, if applicable, by other major banks active in the *international interbank market* for metals (a "**Price Source Adjustment**").
- (a) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Price Source Adjustments, in cases where:
    - (i) the Price Source Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (ii) the Price Source Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the price of the Metal; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
    - (iii) in cases where no Price Source Adjustment occurs but where such Price Source Adjustment would be required pursuant to the adjustment rules of the Price Source; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Price Source.
  - (b) In the event of any doubts regarding the application of the Price Source Adjustment, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the price of the Metal.
4. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Price Source) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Price Source.
5. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
6. Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 on the basis of the same event.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position
- (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or
  - (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation

of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of the Metal or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Commodity Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate a Commodity Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10 STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## § 11 PAYING AGENT

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

## § 12 SUBSTITUTION OF THE ISSUER

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### § 13 NOTICES

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### § 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by

evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. ## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the</p>
--	---

	<p>risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p>

	<p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the</p>

	<p>Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments</p>

and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from

	<p>investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S.Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection</p>

	<p>with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

<p><b>E.3</b> Description of the terms and conditions of the offer</p>	<p>COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.</p>
<p><b>E.4</b> Any interest that is material to the issue/offer including conflicting interests</p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b> Estimated expenses charged to the investor by the issuer or the offeror</p>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>

	<p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p>

	<p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes</p>

	<p>emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p>

La Ley de Rescate y Resolución de Entidades y Grupos Financieros (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen* – SAG) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "**Directiva sobre Rescate y Resolución de Entidades**" o "**DRRE**") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviable" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismengesetz*; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de

insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todos los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en el mercado secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

	<p><u>Retenciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i></u></p> <p>El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la <i>U.S. Hiring Incentives to Restore Employment Act</i> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</u></p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p>

	<p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores–designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p>

	El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.

<b>E.3</b> <b>Descripción de los términos y condiciones de la oferta</b>	COMMERZBANK ofrece a partir de 17 de febrero de 2017 diversas series de Valores en un volumen y por el precio de emisión inicial por Valor que figura en el cuadro adjunto al resumen específico correspondiente a la Emisión en cuestión.
<b>E.4</b> <b>Intereses de carácter material a efectos de la emisión/oferta incluyendo conflictos de interés</b>	<p>Pudieran surgir los siguientes conflictos de interés en relación con el ejercicio de los derechos y/o la exigencia de las obligaciones del Emisor de conformidad con los términos y condiciones de los Valores (p.ej., en relación con el cálculo o adaptación de los parámetros de los términos y condiciones), que incidieran sobre los importes a pagar:</p> <ul style="list-style-type: none"> <li>• ejecución de operaciones sobre el Subyacente</li> <li>• emisión de instrumentos derivados adicionales en relación con el Subyacente</li> <li>• relaciones comerciales con el emisor del Subyacente</li> <li>• posesión de información material (incluyendo información no pública) sobre el Subyacente</li> <li>• intervenciones como Creador de Mercado</li> </ul>
<b>E.7</b> <b>Gastos estimados repercutidos al inversor por parte del emisor o del oferente</b>	Generalmente el inversor podrá adquirir los Valores a un precio de emisión fijo. Dicho precio fijo de emisión incluye cualesquiera costes incurridos por el Emisor en relación con la emisión y venta de los Valores (p.ej., costes de distribución, de estructuración y cobertura, y el margen de beneficio de COMMERZBANK).

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

**"Futures Exchange"** means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the Dow Jones Industrial Average (ISIN US2605661048) as determined and published by S&P Dow Jones Indices LLC (the **"Index Sponsor"**).

**"Underlying Currency"** or **"USD"** means United States Dollar.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### § 3 REDEMPTION

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to USD 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### § 4 ORDINARY TERMINATION BY THE ISSUER

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### § 5 PAYMENTS

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

### § 6 ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary

to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.

- (a) An Adjustment may result in:
  - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,  
  
and/or
  - (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (aa) the effect of an Extraordinary Event on the level of the Index;
    - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
    - (cc) any cash compensation or other compensation in connection with a Replacement;and/or
  - (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
- (b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").
  - (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where
    - (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
    - (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.
  - (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.
- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.
- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into

consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
  - (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.
2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
  3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its

reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").

5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10

### STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## § 11

### PAYING AGENT

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

**§ 13**  
**NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

**§ 14**  
**LIMITATION OF LIABILITY;  
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.

2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

## § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.

8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

## Annex to the Final Terms

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section B - Issuer

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the</p>
--	---

	<p>risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p>

	<p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the</p>

	<p>Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments</p>

and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from

	<p>investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S.Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection</p>

	<p>with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<p><b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</p>	<p>- not applicable - Profit motivation</p>
<p><b>E.3</b> Description of the terms and conditions of the offer</p>	<p>COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.</p>
<p><b>E.4</b> Any interest that is material to the issue/offer including conflicting interests</p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b> Estimated expenses charged to the investor by the issuer or the offeror</p>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

### **Apartado A - Introducción y Advertencias**

<b>A.1 Advertencias</b>	<p>El presente resumen deberá ser leído a modo de introducción al Folleto de Base y a las correspondientes Condiciones Finales. Los inversores deberán basar cualquier decisión de inversión en los Valores emitidos al amparo del Folleto de Base a la luz del contenido de este último en su conjunto y del de las correspondientes Condiciones Finales.</p> <p>En los supuestos en los que se presentara cualquier reclamación ante un juzgado o tribunal de un estado miembro del Espacio Económico Europeo por razón de la información contenida en el presente Folleto de Base, el inversor demandante, de conformidad con lo dispuesto en la legislación nacional de dicho estado miembro, podría verse obligado a asumir los costes de la traducción de dicho Folleto de Base y de las correspondientes Condiciones Finales con carácter previo al inicio del procedimiento judicial en cuestión.</p> <p>Podrá exigirse responsabilidad civil por el contenido del resumen a aquellas personas que hubieran sido responsables de su elaboración así como de la preparación de cualquier traducción del mismo y/o de la emisión del Folleto de Base, si bien únicamente en aquellos casos en que su contenido resultara engañoso, inexacto o incoherente en relación con las demás partes del Folleto de Base, o no aportara, considerado conjuntamente con las restantes partes del Folleto de Base, toda la información esencial necesaria.</p>
<b>A.2 Consentimiento a la utilización del Folleto</b>	<p>El Emisor consiente la utilización del Folleto de Base y de las Condiciones Finales para la posterior reventa o colocación final de los Valores por parte de cualesquiera intermediarios financieros.</p> <p>El periodo de oferta durante el cual los intermediarios financieros podrán llevar a cabo la posterior reventa o colocación final de los Valores no podrá extenderse más allá del período de validez previsto para el Folleto de Base y las Condiciones Finales en el artículo 9 de la Directiva sobre Folletos, en la forma en que la misma hubiera sido transpuesta por el correspondiente Estado Miembro.</p> <p>El consentimiento para utilizar el presente Folleto de Base y las Condiciones Finales se otorga únicamente en relación con los siguientes Estados Miembro: Reino de España.</p> <p>Dicho consentimiento para utilizar el Folleto de Base, incluyendo cualquiera de sus suplementos, así como a efectos de la utilización de cualesquiera Condiciones Finales que procedan, está sujeto a la condición de que (i) el presente Folleto de Base junto con las correspondientes Condiciones Finales sean entregados a los posibles inversores exclusivamente junto con cualquier suplemento</p>

o suplementos que hubieran sido publicados en cualquier momento anterior a dicha entrega, y siempre y cuando (ii) con ocasión de la utilización por su parte tanto del presente Folleto de Base como de cualesquiera Condiciones Finales el intermediario financiero en cuestión se asegure de cumplir en todo momento cualquier legislación y normativa aplicable vigente en las jurisdicciones pertinentes.

**Para el caso en que el intermediario financiero en cuestión realizara cualquier oferta a cualquier cliente o posible cliente en relación con el presente Folleto de Base y/o las correspondientes Condiciones Finales, dicho intermediario deberá facilitar cualquier información correspondiente al inversor sobre los términos y condiciones de la oferta en el momento de la presentación de dicha oferta.**

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	<p>Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.</p> <p>Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:</p>
	<p><u>Crisis global de los mercados financieros y la deuda soberana</u></p> <p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la</p>

	<p>Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>

	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las</p>

	<p>entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b> <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución</b></p>

**de Entidades**" o **"DRRE"**) podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de **"Bail-in"**. Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismengesetz; "AbwMechG"*) establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor.

Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundarios puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero de 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la

	<p>fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En</p>

	<p>este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados</p>

extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.

<b>Applicable Terms and Conditions:</b>	Terms and Conditions for Plain Warrants

The summary applicable for this issue of Securities is annexed to these Final Terms.

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Commodity Business Day**" means a day on which the Price Source would ordinarily publish the London Silver price.

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) a permanent discontinuance or unavailability of the Price Source,
- (b) if since the Launch Date the basis (e.g. quantity, quality or currency) for the calculation of any price of the Metal and/or the method have been modified substantially;
- (c) the imposition of, change in or removal of a tax on, or measured by reference to, a Metal after the Launch Date, if the direct effect of such imposition, change or removal is to raise or lower the price of the Metal; or
- (d) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Issue Currency**" or "**EUR**" means Euro.

"**Launch Date**" means 14 February 2017.

"**Market Disruption Event**" means the occurrence or existence of any suspension of, or limitation imposed on, trading in the Metal on the *international interbank market* for metals, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Price Source"** means the London Bullion Market Association ("**LBMA**").

**"Reference Price"** means the morning London Silver price per troy ounce of Silver for delivery in London through a member of the LBMA authorized to effect such delivery, stated in USD, as calculated and administered by independent service provider(s), pursuant to an agreement with the LBMA, and ordinarily published by the LBMA on its website at [www.lbma.org.uk](http://www.lbma.org.uk) that displays prices effective on any relevant day.

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying" or "Metal"** means silver bars or unallocated silver complying with the rules of the LBMA ("**Silver**").

**"Underlying Currency" or "USD"** means United States Dollar.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Commodity Business Day on which there is a Reference Price again and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Commodity Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Metal in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

**"Ratio"** means the decimal figure as set out in the Table of Product Details.

**"Strike"** means the strike as set out in the Table of Product Details.

**"Type"** means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

**§ 4**  
**ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

**§ 5**  
**PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

**§ 6**  
**ADJUSTMENTS**

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Metal or on the price of the Metal, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the price of the Metal.
2. An Adjustment may result in:
  - (a) the definition of the Reference Price being adjusted,  
and/or
  - (b) the replacement of the Metal by another metal, a futures contract, a basket of futures contracts and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Extraordinary Adjustment Event (a "**Replacement**"), and another entity being determined as the Price Source,  
and/or
  - (c) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (i) the effect of an Extraordinary Event on the price of the Metal; or
    - (ii) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Metal; or
    - (iii) any cash compensation or other compensation in connection with an adjustment of the Reference Price or a Replacement;

and/or

- (d) consequential amendments to the metal related provisions of the Terms and Conditions that are required to fully reflect the consequences of the adjustment of the Reference Price or Replacement.
3. Adjustments shall correspond to the adjustments made to the Metal by the Price Source and, if applicable, by other major banks active in the *international interbank market* for metals (a "**Price Source Adjustment**").
- (a) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Price Source Adjustments, in cases where:
    - (i) the Price Source Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (ii) the Price Source Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the price of the Metal; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
    - (iii) in cases where no Price Source Adjustment occurs but where such Price Source Adjustment would be required pursuant to the adjustment rules of the Price Source; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Price Source.
  - (b) In the event of any doubts regarding the application of the Price Source Adjustment, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the price of the Metal.
4. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Price Source) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Price Source.
5. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
6. Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 on the basis of the same event.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position
  - (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or
  - (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation

of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of the Metal or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Commodity Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate a Commodity Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## **§ 10 STATUS**

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## **§ 11 PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

## **§ 12 SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### § 13 NOTICES

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### § 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by

evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Commodity Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

The Group is continuing to expand its position as one of the most important German export financiers. Alongside its business in Germany, the Group is also active internationally through its subsidiaries, branches and investments, particularly in Europe. The focus of its international activities lies in Poland and on the goal of providing comprehensive services to German small and medium-sized enterprises in Western Europe, Central and Eastern Europe and Asia.</p> <p>The COMMERZBANK Group is divided into five operating segments – Private Customers, Mittelstandsbank, Central &amp; Eastern Europe, Corporates &amp; Markets and Asset &amp; Capital Recovery (ACR) as well as Others and Consolidation. As part of the "Commerzbank 4.0" strategy the Bank will concentrate on its core businesses which will be focused in the future in two customer segments, "Private and Small Business Customers and "Corporate Clients".</p>
<p><b>B.16 Controlling parties</b></p>	<p>- not applicable -</p> <p>COMMERZBANK has not submitted its management to any other company or person, for example on the basis of a domination agreement, nor is it controlled by any other company or any other person within the meaning of the German Securities Acquisition and Takeover Act (<i>Wertpapiererwerbs- und Übernahmegesetz</i>).</p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the</p>
--	---

	<p>risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p>

	<p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the</p>

	<p>Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments</p>

and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from

	<p>investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S.Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection</p>

	<p>with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<p><b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</p>	<p>- not applicable - Profit motivation</p>
<p><b>E.3</b> Description of the terms and conditions of the offer</p>	<p>COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.</p>
<p><b>E.4</b> Any interest that is material to the issue/offer including conflicting interests</p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b> Estimated expenses charged to the investor by the issuer or the offeror</p>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

<b>A.2 Consentimiento a la utilización del Folleto</b>	<p>El Emisor consiente la utilización del Folleto de Base y de las Condiciones Finales para la posterior reventa o colocación final de los Valores por parte de cualesquiera intermediarios financieros.</p> <p>El periodo de oferta durante el cual los intermediarios financieros podrán llevar a cabo la posterior reventa o colocación final de los Valores no podrá extenderse más allá del período de validez previsto para el Folleto de Base y las Condiciones Finales en el artículo 9 de la Directiva sobre Folletos, en la forma en que la misma hubiera sido transpuesta por el correspondiente Estado Miembro.</p> <p>El consentimiento para utilizar el presente Folleto de Base y las Condiciones Finales se otorga únicamente en relación con los siguientes Estados Miembro: Reino de España.</p> <p>Dicho consentimiento para utilizar el Folleto de Base, incluyendo cualquiera de sus suplementos, así como a efectos de la utilización de cualesquiera Condiciones Finales que procedan, está sujeto a la condición de que (i) el presente Folleto de Base junto con las correspondientes Condiciones Finales sean entregados a los posibles inversores exclusivamente junto con cualquier suplemento</p>

o suplementos que hubieran sido publicados en cualquier momento anterior a dicha entrega, y siempre y cuando (ii) con ocasión de la utilización por su parte tanto del presente Folleto de Base como de cualesquiera Condiciones Finales el intermediario financiero en cuestión se asegure de cumplir en todo momento cualquier legislación y normativa aplicable vigente en las jurisdicciones pertinentes.

**Para el caso en que el intermediario financiero en cuestión realizara cualquier oferta a cualquier cliente o posible cliente en relación con el presente Folleto de Base y/o las correspondientes Condiciones Finales, dicho intermediario deberá facilitar cualquier información correspondiente al inversor sobre los términos y condiciones de la oferta en el momento de la presentación de dicha oferta.**

La información sobre el Subyacente se encuentra disponible en <a href="http://www.lbma.org.uk">www.lbma.org.uk</a> .

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>

	<p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p>

	<p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes</p>

	<p>emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p>

La Ley de Rescate y Resolución de Entidades y Grupos Financieros (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen* – SAG) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "**Directiva sobre Rescate y Resolución de Entidades**" o "**DRRE**") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviable" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismengesetz*; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de

insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todos los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en el mercado secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz - KWG*). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

	<p><u>Retenciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i></u></p> <p>El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la <i>U.S. Hiring Incentives to Restore Employment Act</i> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</u></p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p>

	<p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores–designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p>

	El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**Adjustment Event**" means:

- (a) the adjustment of options or futures contracts relating to the Share at the Futures Exchange or the announcement of such adjustment;
- (b) any of the following actions taken by the issuer of the Share (the "**Company**"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with options or conversion rights related to the Share, distributions of extraordinary dividends, stock splits or any other splits, consolidation or alteration of category;
- (c) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity; or
- (d) any other event relating to the Share having a diluting or concentrative effect on the theoretical value of such Share.

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exchange**" means the exchange or trading system as set out in the Table of Product Details.

"**Exchange Business Day**" means a day on which the Exchange and the Futures Exchange are open for trading during their respective regular trading sessions, notwithstanding the Exchange or Futures Exchange closing prior to its scheduled weekday closing time. Any trading or trading activities after or before the regular trading sessions on the Exchange or the Futures Exchange will not be taken into account.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the termination of trading in, or early settlement of, options or futures contracts relating to the Share at the Futures Exchange or the announcement of such termination or early settlement;
- (b) the termination of the listing of the Share on the Exchange due to a merger by absorption or by creation or due to any other reason, or the becoming known of the intention of the Company or the announcement of the Exchange that the listing of the Share at the Exchange will terminate immediately or at a later date and that the Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;
- (c) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (d) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or
- (e) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

**"Futures Exchange"** means the exchange or trading system with the highest trading volume of options or futures contracts relating to the Share. If options or futures contracts on the Share are not traded on any exchange, the Futures Exchange shall be the options or futures exchange with the highest amount of options or futures contracts relating to shares of companies having their residence in the country in which the Company has its residence. If there is no options or futures exchange in the country in which the Company has its residence on which options or futures contracts on shares are traded, the Issuer will determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and will make notification thereof in accordance with § 13.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) the Share on the Exchange, or (b) any options or futures contracts relating to the Share on the Futures Exchange (if such options or futures contracts are traded on the Futures Exchange), provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the respective exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event if such limitation still prevails at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the price of the Share last determined and published by the Exchange on any relevant day (closing price).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Share"** means the share as set out in the Table of Product Details.

**"Underlying Currency"** or **"USD"** means United States Dollar.

"**Valuation Date**" means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Exchange Business Day on which there is a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Exchange Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Share in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.

4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

## § 6 ADJUSTMENTS

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Adjustment Event or Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.
2. An Adjustment may result in:
  - (a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange,  
  
and/or
  - (b) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;
    - (ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or
    - (iii) any cash compensation or other compensation in connection with a Replacement;  
and/or
  - (c) consequential amendments to the share related provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
3. Adjustments shall correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").
  - (a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the Cut-off Date shall be the (replacement) Share for the purpose of the Securities, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Securities. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be the (replacement) Share in accordance with the forgoing sentence. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
  - (b) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments in cases where:
    - (i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic

profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

(c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to compensate for the economic effect thereof on the price of the Share.

4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
7. Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any Shares or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the

"Change in Law"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Exchange Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Exchange Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10

### STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 11**  
**PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

**§ 13**  
**NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer [www.commerzbank.com](http://www.commerzbank.com) (or any successor website).

**§ 14**  
**LIMITATION OF LIABILITY;  
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

**§ 15**  
**FINAL CLAUSES**

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Exchange Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably

acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.

6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

Apart from this, the Issuer may be entitled to extraordinarily terminate the Securities prematurely if a particular event occurs.</p> <p><u>Ranking of the Securities</u></p> <p>The obligations under the Securities constitute direct, unconditional and unsecured (<i>nicht dinglich besichert</i>) obligations of the Issuer and, unless otherwise provided by applicable law, rank at least pari passu with all other unsubordinated and unsecured (<i>nicht dinglich besichert</i>) obligations of the Issuer.</p> <p><u>Limitation of Liability</u></p> <p>The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under the Securities negligently or wilfully or breaches other obligations with gross negligence or wilfully.</p> <p><u>Presentation Periods and Prescription</u></p> <p>The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 German Civil Code (<i>Bürgerliches Gesetzbuch</i>) ("<b>BGB</b>")) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.</p>
<p><b>C.11</b>  <b>Admission to trading on a regulated market or equivalent market</b></p>	<p>The Issuer intends to apply for the trading of each series of Securities on the regulated market(s) of Madrid Stock Exchange and Barcelona Stock Exchange.</p>

<p><b>C.15</b>  <b>Influence of the Underlying on the value of the securities</b></p>	<p>The payment of a Redemption Amount depends on the performance of the Underlying.</p> <p><u>In detail:</u></p> <p>If the Reference Price of the Underlying on the Valuation Date is <b>above</b> (in case of Type CALL) or <b>below</b> (in case of Type PUT) the Strike, the investor will receive the Redemption Amount which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, whereby the result will be converted into the Issue Currency.</p> <p>If the Reference Price of the Underlying on the Valuation Date is <b>equal to or below</b> (in case of Type CALL) or <b>equal to or above</b> (in case of Type PUT) the Strike, the investor will receive no Redemption Amount and the Plain Securities will expire worthless.</p> <p>The Type, the Ratio and the Strike are stated in the table annexed to the summary.</p> <p>"<b>Conversion Rate</b>" means the price of EUR 1.00 in USD, as actually traded on the <i>international interbank spot market</i> on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.</p>
<p><b>C.16</b>  <b>Valuation Date / Exercise Date</b></p>	<p>Exercise Date</p> <p>The Exercise Date as set out in the table annexed to the summary.</p>
<p><b>C.17</b>  <b>Description of the settlement procedure for the securities</b></p>	<p>Each series of the Securities sold will be delivered on the Payment Date in accordance with applicable local market practice via the clearing system.</p>
<p><b>C.18</b>  <b>Delivery procedure</b></p>	<p>All amounts payable under the Securities shall be paid to the Paying Agent for transfer to the clearing system or pursuant to the clearing system's instructions for credit to the relevant accountholders on the dates stated in the applicable terms and conditions. Payment to the clearing system or pursuant to the clearing system's instructions shall release the Issuer from its payment obligations under the Securities in the amount of such payment.</p>
<p><b>C.19</b>  <b>Final Reference Price of the Underlying</b></p>	<p>The price of the Underlying last determined and published by the Exchange on the Valuation Date (closing price).</p>
<p><b>C.20</b>  <b>Type of the underlying and details, where information on the underlying can be obtained</b></p>	<p>The assets underlying each series of the Securities are set out in the table annexed to the summary (each an "<b>Underlying</b>").</p> <p>Information on the Underlying in respect of each series of Securities are available on the website as set out in the table annexed to the Summary.</p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p>
--	---

	<p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized</p>

	by intense competition on price and on transaction terms, which results in considerable pressure on margins.
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<b>D.6 Key information on the key risks that are specific to the securities</b>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p>

	<p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those</p>

under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital

	<p>and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>

	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> <li>• Development of the dividends of the Share</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<b>E.2b</b> <b>Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</b>	- not applicable -  Profit motivation
<b>E.3</b> <b>Description of the terms and conditions of the offer</b>	COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.
<b>E.4</b> <b>Any interest that is material to the issue/offer including conflicting interests</b>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<b>E.7</b> <b>Estimated expenses charged to the investor by the issuer or the offeror</b>	The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).

## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

### **Apartado A - Introducción y Advertencias**

<b>A.1 Advertencias</b>	<p>El presente resumen deberá ser leído a modo de introducción al Folleto de Base y a las correspondientes Condiciones Finales. Los inversores deberán basar cualquier decisión de inversión en los Valores emitidos al amparo del Folleto de Base a la luz del contenido de este último en su conjunto y del de las correspondientes Condiciones Finales.</p> <p>En los supuestos en los que se presentara cualquier reclamación ante un juzgado o tribunal de un estado miembro del Espacio Económico Europeo por razón de la información contenida en el presente Folleto de Base, el inversor demandante, de conformidad con lo dispuesto en la legislación nacional de dicho estado miembro, podría verse obligado a asumir los costes de la traducción de dicho Folleto de Base y de las correspondientes Condiciones Finales con carácter previo al inicio del procedimiento judicial en cuestión.</p> <p>Podrá exigirse responsabilidad civil por el contenido del resumen a aquellas personas que hubieran sido responsables de su elaboración así como de la preparación de cualquier traducción del mismo y/o de la emisión del Folleto de Base, si bien únicamente en aquellos casos en que su contenido resultara engañoso, inexacto o incoherente en relación con las demás partes del Folleto de Base, o no aportara, considerado conjuntamente con las restantes partes del Folleto de Base, toda la información esencial necesaria.</p>
<b>A.2 Consentimiento a la utilización del Folleto</b>	<p>El Emisor consiente la utilización del Folleto de Base y de las Condiciones Finales para la posterior reventa o colocación final de los Valores por parte de cualesquiera intermediarios financieros.</p> <p>El periodo de oferta durante el cual los intermediarios financieros podrán llevar a cabo la posterior reventa o colocación final de los Valores no podrá extenderse más allá del período de validez previsto para el Folleto de Base y las Condiciones Finales en el artículo 9 de la Directiva sobre Folletos, en la forma en que la misma hubiera sido transpuesta por el correspondiente Estado Miembro.</p> <p>El consentimiento para utilizar el presente Folleto de Base y las Condiciones Finales se otorga únicamente en relación con los siguientes Estados Miembro: Reino de España.</p> <p>Dicho consentimiento para utilizar el Folleto de Base, incluyendo cualquiera de sus suplementos, así como a efectos de la utilización de cualesquiera Condiciones Finales que procedan, está sujeto a la condición de que (i) el presente Folleto de Base junto con las correspondientes Condiciones Finales sean entregados a los posibles inversores exclusivamente junto con cualquier suplemento</p>

o suplementos que hubieran sido publicados en cualquier momento anterior a dicha entrega, y siempre y cuando (ii) con ocasión de la utilización por su parte tanto del presente Folleto de Base como de cualesquiera Condiciones Finales el intermediario financiero en cuestión se asegure de cumplir en todo momento cualquier legislación y normativa aplicable vigente en las jurisdicciones pertinentes.

**Para el caso en que el intermediario financiero en cuestión realizara cualquier oferta a cualquier cliente o posible cliente en relación con el presente Folleto de Base y/o las correspondientes Condiciones Finales, dicho intermediario deberá facilitar cualquier información correspondiente al inversor sobre los términos y condiciones de la oferta en el momento de la presentación de dicha oferta.**

#### Apartado C - Valores

<b>C.1</b> <b>Tipo y clase de valores / número de identificación</b>	<p><u>Tipo / Forma de los Valores</u></p> <p>Los valores tienen la condición de <i>warrants</i> (los "<b>Valores</b>").</p> <p>Cada una de las series de Valores está representada por un título global al portador.</p> <p><u>Número(s) de Identificación de los Valores</u></p> <p>El Número o Números de Identificación de cada una de las series de Valores (i.e., ISIN y Código WKN) figura en el cuadro que se incorpora como anexo al presente Resumen.</p>
<b>C.2</b> <b>Moneda de los valores</b>	<p>Cada una de las series de Valores se emite en EUR (la "<b>Divisa de la Emisión</b>").</p>
<b>C.5</b> <b>Restricciones a la libre transmisibilidad de los valores</b>	<p>Cada una de las series de los Valores es libremente transmisible, con sujeción a cualesquiera restricciones existentes en materia de su oferta y venta, así como cualesquiera otras previstas en cualquier ley aplicable y en la normativa y disposiciones del sistema de compensación.</p>
<b>C.8</b> <b>Derechos inherentes a los valores (incluyendo orden de prelación de los Valores y limitaciones a tales derechos)</b>	<p><u>Ley aplicable a los Valores</u></p> <p>Los Valores están sujetos a y su normativa habrá de ser interpretada de conformidad con la legislación alemana.</p> <p><u>Reembolso</u></p> <p>Los Valores otorgan a su titular el derecho a recibir el pago de un Importe de Amortización denominado en la Divisa de la Emisión.</p> <p><u>Ajustes y Cancelación Extraordinaria</u></p>

	<p>En determinados supuestos en particular el Emisor podrá realizar ciertos ajustes. Asimismo el Emisor podrá, con carácter extraordinario, cancelar los Valores de forma anticipada en determinados supuestos.</p> <p><u>Orden de prelación de los Valores</u></p> <p>Las obligaciones que se derivan de los Valores constituyen obligaciones directas, incondicionales y no garantizadas (<i>nicht dinglich besichert</i>) del Emisor y, salvo disposición en otro sentido prevista en la legislación aplicable, gozan al menos del mismo rango (<i>pari passu</i>) que el resto de obligaciones no garantizadas ni subordinadas (<i>nicht dinglich besichert</i>) del Emisor.</p> <p><u>Limitación de Responsabilidad</u></p> <p>El Emisor responderá por cualquier acción u omisión en relación con los Valores exclusivamente si –y en la medida en que– hubiera incumplido de forma dolosa o negligente cualquier obligación de carácter material prevista en la regulación de dichos Valores o bien –en supuestos de negligencia grave o dolo– cualquier otra obligación.</p> <p><u>Plazos de presentación y Prescripción</u></p> <p>El período para la presentación de los Valores (primera frase del párrafo 1 del § 801 del Código Civil alemán (<i>Bürgerliches Gesetzbuch</i> o "<b>BGB</b>")) es de diez años, y el plazo de prescripción previsto para cualesquiera reclamaciones presentadas al amparo de los Valores durante dicho plazo de presentación es de dos años contados desde la fecha en que finalizara el período de presentación en cuestión.</p>
<p><b>C.11</b>  <b>Admisión a cotización y negociación en un mercado organizado o mercado equivalente</b></p>	<p>El Emisor tiene intención de solicitar la cotización y admisión a negociación de las series de Valores en el Madrid Stock Exchange y Barcelona Stock Exchange.</p>
<p><b>C.15</b>  <b>Influencia del Subyacente en el valor de los títulos</b></p>	<p>El pago de cualquier Importe de Amortización depende de la evolución del Subyacente.</p> <p><u>En particular:</u></p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera <b>superior</b> (en el caso de un Warrant de CALL) o <b>inferior</b> (en el caso de un Warrant de PUT) Precio de Ejercicio, el inversor recibirá un Importe de Amortización igual a (i) la cifra en la que el Precio de Referencia del Subyacente en la Fecha de Valoración fuera superior al Precio de Ejercicio (en el caso de los Warrants de CALL), o la cifra en la que el Precio de Ejercicio fuera superior al Precio de Referencia del Subyacente en la Fecha de Valoración (en el caso de los Warrants de PUT), multiplicada por (ii) el Ratio, y el resultado será convertido en la Divisa de la Emisión.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera <b>igual o inferior</b> (en el caso de los Warrants de CALL) o <b>igual o superior</b> (en el caso de los Warrants de PUT) al Precio de Ejercicio, los Valores Simples vencerán sin valor alguno y el inversor no recibirá ningún Importe de Amortización.</p> <p>La naturaleza del Valor en cuestión, así como el Ratio y el Precio de Ejercicio figuran en el cuadro adjunto al resumen.</p> <p>"<b>Tipo de Conversión</b>" significa el tipo de cambio 1,00 EUR en USD vigente en el mercado internacional interbancario para cambio al contado –<i>international interbank spot market</i>– en la Fecha de Valoración</p>

La información sobre el Subyacente respecto de cada serie de Valores figura en el sitio web cuya dirección se indica en el cuadro que se incorpora como anexo al presente Resumen.

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>  La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera

	<p>un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "bulk risk", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier</p>

	<p>cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<b>D.6</b>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p>

<p><b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en</p>

uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviable" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismengesetz*; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de

liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como

	<p>obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan</p>

	<p>factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> <li>• Evolución de los dividendos de la Acción</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

## Apartado E - Oferta

<b>E.2b</b> <b>Motivo de la oferta y destino de los ingresos, en aquellos casos en los que el motivo no fuera el lucro y/o la cobertura frente a cualquiera riesgos</b>	- no procede - Ánimo de lucro
<b>E.3</b> <b>Descripción de los términos y condiciones de la oferta</b>	COMMERZBANK ofrece a partir de 17 de febrero de 2017 diversas series de Valores en un volumen y por el precio de emisión inicial por Valor que figura en el cuadro adjunto al resumen específico correspondiente a la Emisión en cuestión.
<b>E.4</b> <b>Intereses de carácter material a efectos de la emisión/oferta incluyendo conflictos de interés</b>	<p>Pudieran surgir los siguientes conflictos de interés en relación con el ejercicio de los derechos y/o la exigencia de las obligaciones del Emisor de conformidad con los términos y condiciones de los Valores (p.ej., en relación con el cálculo o adaptación de los parámetros de los términos y condiciones), que incidieran sobre los importes a pagar:</p> <ul style="list-style-type: none"><li>• ejecución de operaciones sobre el Subyacente</li><li>• emisión de instrumentos derivados adicionales en relación con el Subyacente</li><li>• relaciones comerciales con el emisor del Subyacente</li><li>• posesión de información material (incluyendo información no pública) sobre el Subyacente</li><li>• intervenciones como Creador de Mercado</li></ul>
<b>E.7</b> <b>Gastos estimados repercutidos al inversor por parte del emisor o del oferente</b>	Generalmente el inversor podrá adquirir los Valores a un precio de emisión fijo. Dicho precio fijo de emisión incluye cualesquiera costes incurridos por el Emisor en relación con la emisión y venta de los Valores (p.ej., costes de distribución, de estructuración y cobertura, y el margen de beneficio de COMMERZBANK).

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
- (f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Futures Exchange**" means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on

any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the DAX® Index (ISIN DE0008469008) as determined and published by Deutsche Börse AG (the **"Index Sponsor"**).

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the **"Option Right"**) to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the **"Redemption Amount"**) which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to EUR 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

#### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

#### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

#### **§ 6 ADJUSTMENTS**

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.
  - (a) An Adjustment may result in:
    - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,

and/or

- (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
  - (aa) the effect of an Extraordinary Event on the level of the Index;
  - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
  - (cc) any cash compensation or other compensation in connection with a Replacement;

and/or

- (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

(b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where

- (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

- (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

- (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.

(c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.

(d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

(e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.

(f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions

shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

**§ 8**  
**FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES**

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

**§ 9**  
**TAXES**

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

**§ 10**  
**STATUS**

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 11**  
**PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions;

the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### **§ 13 NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### **§ 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### **§ 15 FINAL CLAUSES**

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice

to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.

3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p>
--	---

	<p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized</p>

	by intense competition on price and on transaction terms, which results in considerable pressure on margins.
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<b>D.6 Key information on the key risks that are specific to the securities</b>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p>

	<p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those</p>

under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital

	<p>and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>

	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<p><b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</p>	<p>- not applicable - Profit motivation</p>

<b>E.3</b> <b>Description of the terms and conditions of the offer</b>	COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.
<b>E.4</b> <b>Any interest that is material to the issue/offer including conflicting interests</b>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<b>E.7</b> <b>Estimated expenses charged to the investor by the issuer or the offeror</b>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

### **Apartado A - Introducción y Advertencias**

<b>A.1 Advertencias</b>	<p>El presente resumen deberá ser leído a modo de introducción al Folleto de Base y a las correspondientes Condiciones Finales. #### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>  La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos

	<p>materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>

	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del</p>

	<p>Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (<i>common equity tier 1</i>) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención</p>

de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (Abwicklungsmechanismengesetz; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en

caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con

	<p>independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier</p>

	<p>componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**Base Currency**" means EUR.

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Business Day**" means a day on which Bloomberg L.P. generally fixes a EUR/USD exchange rate.

"**Conversion Rate**" means the EUR/USD exchange rate as determined by Bloomberg L.P. on the Valuation Date at 2:00 pm (Frankfurt time) and published thereafter on the Bloomberg Website.

"**Counter Currency**" or "**USD**" means United States Dollar.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the replacement of a currency underlying the Currency Exchange Rate in its function as statutory means of payment in the country or countries, the jurisdiction or jurisdictions, as the case may be, maintained by the authority, institution or other body which issues such currency;
- (b) the merger of a currency underlying the Currency Exchange Rate; or
- (c) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Issue Currency**" or "**EUR**" means Euro.

"**Launch Date**" means 14 February 2017.

"**Payment Business Day**" means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

"**Reference Price**" means the EUR/USD exchange rate in USD as determined by Bloomberg L.P. on any day at 2:00 pm (Frankfurt time) and published thereafter on the website [www.bloomberg.com/markets/currencies/fix-fixings](http://www.bloomberg.com/markets/currencies/fix-fixings) (the "**Bloomberg Website**") (the "**Reference Rate**").

"**Table of Product Details**" means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

"**Underlying**" or "**Currency Exchange Rate**" means the EUR/USD exchange rate.

"**Valuation Date**" means the Exercise Date.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.

4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

## § 6 ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Currency Exchange Rate or the Reference Price, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Currency Exchange Rate or the Reference Price.
- (a) An Adjustment may result in:
- (i) the definition of the Currency Exchange Rate or the Reference Price being adjusted,  
and/or
  - (ii) increases or decreases of specified variables and values or the amounts payable under the Securities to take into account the effect of an Extraordinary Event on the Currency Exchange Rate or the Reference Price;  
and/or
  - (iii) consequential amendments to the exchange rate related provisions of the Terms and Conditions that are required to fully reflect the consequences of the adjustment of the Reference Price.
- (b) The Issuer shall make adjustments in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB).
- (c) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that the Issuer takes into consideration the date at which such adjustments take effect or would take effect at the global currency markets.
- (d) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
- (e) Any Adjustment in accordance with this § 6 does not preclude a subsequent termination in accordance with § 7 on the basis of the same event.
2. If the Reference Rate ceases to be published on the Bloomberg Website and is published on another web site, then the Reference Price shall be the respective Reference Rate as published on such other page (the "**Successor Page**"). The Issuer will give notification of such Successor Page in accordance with § 13.

Should the determination of the Reference Rate be terminated permanently, then the Issuer will determine in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) another exchange rate for EUR in USD as Reference Price and give notification of such other exchange rate in accordance with § 13.

If the Reference Rate is not published on the Valuation Date on the Bloomberg Website or on a Successor Page and if the Issuer has not determined another exchange rate for EUR in USD as Reference Price, then the Reference Price shall be the exchange rate for EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at or about 2:00 pm (Frankfurt time).

## § 7 EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to

preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose one of the currencies underlying the Currency Exchange Rate or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate a Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required

pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## **§ 10 STATUS**

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## **§ 11 PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

## **§ 12 SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### § 13 NOTICES

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### § 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence

in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Business Day preceding the declaration of rescission pursuant to paragraph 2.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p>
--	---

	<p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized</p>

	by intense competition on price and on transaction terms, which results in considerable pressure on margins.
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<b>D.6 Key information on the key risks that are specific to the securities</b>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p>

	<p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those</p>

under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital

	<p>and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>

	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2</b> <b>Principales riesgos específicos</b> <b>del Emisor</b>	<p>Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.</p> <p>Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:</p>
	<p><u>Crisis global de los mercados financieros y la deuda soberana</u></p> <p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera</p>

	<p>un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier</p>

	<p>cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<b>D.6</b>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p>

<p><b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en</p>

uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviable" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de

liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz - KWG*). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como

	<p>obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan</p>

	<p>factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
- (f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

"**Futures Exchange**" means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on

any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the IBEX 35® Index (ISIN ES0SI0000005) as determined and published by Sociedad de Bolsas, S.A. (the **"Index Sponsor"**).

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### **§ 3 REDEMPTION**

1. The Securities grant to the Securityholder the right (the **"Option Right"**) to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the **"Redemption Amount"**) which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to EUR 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

#### **§ 4 ORDINARY TERMINATION BY THE ISSUER**

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

#### **§ 5 PAYMENTS**

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

#### **§ 6 ADJUSTMENTS**

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.
  - (a) An Adjustment may result in:
    - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,

and/or

- (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
  - (aa) the effect of an Extraordinary Event on the level of the Index;
  - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
  - (cc) any cash compensation or other compensation in connection with a Replacement;

and/or

- (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.

- (b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").

- (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where

- (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;

- (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

- (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.

- (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.

- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.

- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.

- (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.

- 2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions

shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

**§ 8**  
**FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES**

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

**§ 9**  
**TAXES**

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

**§ 10**  
**STATUS**

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 11**  
**PAYING AGENT**

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions;

the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

### **§ 13 NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

### **§ 14 LIMITATION OF LIABILITY; PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

### **§ 15 FINAL CLAUSES**

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice

to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.

3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b> <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
---	---

	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p> <p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>

	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the Underlying which is relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>

	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the</p>

Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of

	<p>other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends</p>

	upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

## Section E - Offer

<b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks	- not applicable - Profit motivation
<b>E.3</b> Description of the terms and conditions of the offer	COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.

<p><b>E.4</b>  <b>Any interest that is material to the issue/offer including conflicting interests</b></p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b>  <b>Estimated expenses charged to the investor by the issuer or the offeror</b></p>	<p>The investor can usually purchase the Securities at a fixed issue price. ## Resumen

Los resúmenes están integrados por determinada información que ha de ser revelada al posible inversor, presentada en forma de lo que se conoce como "Elementos". Tales Elementos figuran numerados a continuación en los siguientes apartados A – E (A.1 – E.7).

El presente documento incluye todos los Elementos que han de figurar obligativamente en cualquier resumen sobre esta clase de valores y Emisor. Ocasionalmente la numeración podría incluir apartados en blanco en aquellos casos en que el Elemento correspondiente no fuera de aplicación en el caso en particular, o no se exigiera la inclusión de información alguna al respecto.

Incluso aunque un Elemento deba figurar obligatoriamente en el resumen por razón del tipo de valores y la naturaleza del Emisor, es posible que no pueda facilitarse información relevante sobre dicho Elemento. En tal caso, en el resumen se incluye una descripción breve del Elemento acompañada de la mención "no procede".

### **Apartado A - Introducción y Advertencias**

<b>A.1 Advertencias</b>	<p>El presente resumen deberá ser leído a modo de introducción al Folleto de Base y a las correspondientes Condiciones Finales. Los inversores deberán basar cualquier decisión de inversión en los Valores emitidos al amparo del Folleto de Base a la luz del contenido de este último en su conjunto y del de las correspondientes Condiciones Finales.</p> <p>En los supuestos en los que se presentara cualquier reclamación ante un juzgado o tribunal de un estado miembro del Espacio Económico Europeo por razón de la información contenida en el presente Folleto de Base, el inversor demandante, de conformidad con lo dispuesto en la legislación nacional de dicho estado miembro, podría verse obligado a asumir los costes de la traducción de dicho Folleto de Base y de las correspondientes Condiciones Finales con carácter previo al inicio del procedimiento judicial en cuestión.</p> <p>Podrá exigirse responsabilidad civil por el contenido del resumen a aquellas personas que hubieran sido responsables de su elaboración así como de la preparación de cualquier traducción del mismo y/o de la emisión del Folleto de Base, si bien únicamente en aquellos casos en que su contenido resultara engañoso, inexacto o incoherente en relación con las demás partes del Folleto de Base, o no aportara, considerado conjuntamente con las restantes partes del Folleto de Base, toda la información esencial necesaria.</p>
<b>A.2 Consentimiento a la utilización del Folleto</b>	<p>El Emisor consiente la utilización del Folleto de Base y de las Condiciones Finales para la posterior reventa o colocación final de los Valores por parte de cualesquiera intermediarios financieros.</p> <p>El periodo de oferta durante el cual los intermediarios financieros podrán llevar a cabo la posterior reventa o colocación final de los Valores no podrá extenderse más allá del período de validez previsto para el Folleto de Base y las Condiciones Finales en el artículo 9 de la Directiva sobre Folletos, en la forma en que la misma hubiera sido transpuesta por el correspondiente Estado Miembro.</p> <p>El consentimiento para utilizar el presente Folleto de Base y las Condiciones Finales se otorga únicamente en relación con los siguientes Estados Miembro: Reino de España.</p> <p>Dicho consentimiento para utilizar el Folleto de Base, incluyendo cualquiera de sus suplementos, así como a efectos de la utilización de cualesquiera Condiciones Finales que procedan, está sujeto a la condición de que (i) el presente Folleto de Base junto con las correspondientes Condiciones Finales sean entregados a los posibles inversores exclusivamente junto con cualquier suplemento</p>

o suplementos que hubieran sido publicados en cualquier momento anterior a dicha entrega, y siempre y cuando (ii) con ocasión de la utilización por su parte tanto del presente Folleto de Base como de cualesquiera Condiciones Finales el intermediario financiero en cuestión se asegure de cumplir en todo momento cualquier legislación y normativa aplicable vigente en las jurisdicciones pertinentes.

**Para el caso en que el intermediario financiero en cuestión realizara cualquier oferta a cualquier cliente o posible cliente en relación con el presente Folleto de Base y/o las correspondientes Condiciones Finales, dicho intermediario deberá facilitar cualquier información correspondiente al inversor sobre los términos y condiciones de la oferta en el momento de la presentación de dicha oferta.**

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2 Principales riesgos específicos del Emisor</b>	Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.  Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:
	<u>Crisis global de los mercados financieros y la deuda soberana</u>  La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos

	<p>materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>
	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>

	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b>  <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del</p>

	<p>Subyacente, relevante a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución de Entidades</b>" o "<b>DRRE</b>") podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (<i>common equity tier 1</i>) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención</p>

de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de "**Bail-in**". Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (Abwicklungsmechanismengesetz; "**AbwMechG**") establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor. Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en

caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "*foreign passthru payments*" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con

	<p>independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier</p>

	<p>componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.</p>

<b>E.3</b> <b>Descripción de los términos y condiciones de la oferta</b>	COMMERZBANK ofrece a partir de 17 de febrero de 2017 diversas series de Valores en un volumen y por el precio de emisión inicial por Valor que figura en el cuadro adjunto al resumen específico correspondiente a la Emisión en cuestión.
<b>E.4</b> <b>Intereses de carácter material a efectos de la emisión/oferta incluyendo conflictos de interés</b>	<p>Pudieran surgir los siguientes conflictos de interés en relación con el ejercicio de los derechos y/o la exigencia de las obligaciones del Emisor de conformidad con los términos y condiciones de los Valores (p.ej., en relación con el cálculo o adaptación de los parámetros de los términos y condiciones), que incidieran sobre los importes a pagar:</p> <ul style="list-style-type: none"> <li>• ejecución de operaciones sobre el Subyacente</li> <li>• emisión de instrumentos derivados adicionales en relación con el Subyacente</li> <li>• relaciones comerciales con el emisor del Subyacente</li> <li>• posesión de información material (incluyendo información no pública) sobre el Subyacente</li> <li>• intervenciones como Creador de Mercado</li> </ul>
<b>E.7</b> <b>Gastos estimados repercutidos al inversor por parte del emisor o del oferente</b>	<p>Generalmente el inversor podrá adquirir los Valores a un precio de emisión fijo. Dicho precio fijo de emisión incluye cualesquiera costes incurridos por el Emisor en relación con la emisión y venta de los Valores (p.ej., costes de distribución, de estructuración y cobertura, y el margen de beneficio de COMMERZBANK).</p>

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

**"Futures Exchange"** means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the S&P 500® Index (ISIN US78378X1072) as determined and published by S&P Dow Jones Indices LLC (the **"Index Sponsor"**).

**"Underlying Currency"** or **"USD"** means United States Dollar.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### § 3 REDEMPTION

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to USD 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### § 4 ORDINARY TERMINATION BY THE ISSUER

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### § 5 PAYMENTS

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

### § 6 ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary

to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.

- (a) An Adjustment may result in:
  - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,  
  
and/or
  - (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (aa) the effect of an Extraordinary Event on the level of the Index;
    - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
    - (cc) any cash compensation or other compensation in connection with a Replacement;and/or
  - (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
- (b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").
  - (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where
    - (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
    - (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.
  - (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.
- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.
- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into

consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
  - (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.
2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
  3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its

reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").

5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10

### STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## § 11

### PAYING AGENT

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

**§ 13**  
**NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

**§ 14**  
**LIMITATION OF LIABILITY;  
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.

2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

## § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.

8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the</p>
--	---

	<p>risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p>

	<p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the</p>

	<p>Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments</p>

and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from

	<p>investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S. Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection</p>

	<p>with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<p><b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</p>	<p>- not applicable - Profit motivation</p>
<p><b>E.3</b> Description of the terms and conditions of the offer</p>	<p>COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.</p>
<p><b>E.4</b> Any interest that is material to the issue/offer including conflicting interests</p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b> Estimated expenses charged to the investor by the issuer or the offeror</p>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2</b> <b>Principales riesgos específicos</b> <b>del Emisor</b>	<p>Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.</p> <p>Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:</p>
	<p><u>Crisis global de los mercados financieros y la deuda soberana</u></p> <p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la</p>

	<p>Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>

	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las</p>

	<p>entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b> <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución</b></p>

**de Entidades**" o **"DRRE"**) podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de **"Bail-in"**. Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismusgesetz; "AbwMechG"*) establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor.

Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundarios puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero de 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la

	<p>fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En</p>

	<p>este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados</p>

extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.

## TERMS AND CONDITIONS

### § 1 FORM

1. The warrants (the "**Securities**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be represented by a global bearer security (the "**Global Security**"), which shall be deposited with Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, as common depository for Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S. A., Plaza de la Lealtad, 1, 28014 Madrid, Kingdom of Spain (Iberclear) (the "**Clearing System**").
2. Definitive Securities will not be issued. The right of the holders of Securities (the "**Securityholders**") to delivery of definitive Securities is excluded. The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.
3. The Global Security shall bear the hand-written signatures of two authorised officers of the Issuer.

### § 2 DEFINITIONS

For the purposes of these terms and conditions (the "**Terms and Conditions**"), the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"**BGB**" means the German Civil Code (*Bürgerliches Gesetzbuch*).

"**Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point in time at which the Reference Price of the Underlying is determined and published.

"**Exercise Date**" means the date as set out in the Table of Product Details.

"**Extraordinary Event**" means:

- (a) the cancellation or replacement of the Index or the replacement of the Index Sponsor by another person, company or institution not acceptable to the Issuer;
- (b) the adjustment of options or futures contracts relating to the Index on the Futures Exchange or the announcement of such adjustment;
- (c) the termination of trading in, or early settlement of, options or futures contracts relating to the Index on the Futures Exchange, if any, or the termination of trading in index components on any relevant exchange or trading system (the "**Index Component Exchange**") or the announcement of such termination or early settlement;
- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases the calculation of the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase, respectively, are relevant with respect to the Securities. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or

(f) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

**"Futures Exchange"** means the exchange or trading system with the largest trading volume in options or futures contracts in relation to the Index. If no options or futures contracts in relation to the Index are traded on any exchange, the Issuer shall determine the Futures Exchange in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) and shall announce its choice in accordance with § 13.

**"Index Business Day"** means a day on which the level of the Index is usually determined and published by the Index Sponsor.

**"Issue Currency"** or **"EUR"** means Euro.

**"Launch Date"** means 14 February 2017.

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) options or futures contracts on the Index on the Futures Exchange, or (b) one or more index components on any Index Component Exchange, provided that any such suspension or limitation is material. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The occurrence of a Market Disruption Event on the Valuation Date shall be published in accordance with § 13.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Futures Exchange or the Index Component Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) and the Clearing System settle payments in the Issue Currency.

**"Reference Price"** means the level of the Index last determined and published by the Index Sponsor on any relevant day (official closing level).

**"Table of Product Details"** means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Securities.

**"Underlying"** or **"Index"** means the NASDAQ-100® Index (ISIN US6311011026) as determined and published by Nasdaq, Inc. (the **"Index Sponsor"**).

**"Underlying Currency"** or **"USD"** means United States Dollar.

**"Valuation Date"** means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Index Business Day on which there is again a Reference Price and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Index Business Days, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Index in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 13.

### § 3 REDEMPTION

1. The Securities grant to the Securityholder the right (the "**Option Right**") to receive from the Issuer the payment of the Redemption Amount in accordance with the following paragraphs.
2. Each Security is redeemed by payment of an amount in the Issue Currency (the "**Redemption Amount**") which shall be equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds (in case of Type CALL) or is exceeded by (in case of Type PUT) the Strike multiplied by (ii) the Ratio, the result being converted into the Issue Currency.

"**Ratio**" means the decimal figure as set out in the Table of Product Details.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

The conversion shall be made at the Conversion Rate.

For the purposes of calculations made in connection with these Terms and Conditions, each one index point shall be equal to USD 1.00.

3. The Option Right shall be deemed to be automatically exercised on the Exercise Date, provided that the Redemption Amount is a positive amount at that time.
4. The Redemption Amount shall be paid to the Securityholders not later than on the fifth Payment Business Day following the Valuation Date.

### § 4 ORDINARY TERMINATION BY THE ISSUER

Subject to the provision contained in § 7, the Issuer shall not be entitled to terminate the Securities prematurely.

### § 5 PAYMENTS

1. All amounts payable under these Terms and Conditions will be rounded to the nearest EUR 0.01 (EUR 0.005 will be rounded upwards).
2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.
3. If any payment pursuant to these Terms and Conditions is to be made on a day that is not a Payment Business Day, payment shall be made on the next following Payment Business Day. In this case, the Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to § 9.

### § 6 ADJUSTMENTS

1. Upon the occurrence of an Extraordinary Event which has a material effect on the Index or the level of the Index, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary

to account for the economic effect of the Extraordinary Event on the Securities and to preserve, to the extent possible, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Index or the level of the Index.

- (a) An Adjustment may result in:
  - (i) the replacement of the Index by another index (a "**Replacement**"), and/or the replacement of the Index Sponsor by another person, company or institution acceptable to the Issuer as a new index sponsor,  
  
and/or
  - (ii) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
    - (aa) the effect of an Extraordinary Event on the level of the Index;
    - (bb) the diluting or concentrative effect of an Extraordinary Event on the theoretical value of the Index; or
    - (cc) any cash compensation or other compensation in connection with a Replacement;  
and/or
  - (iii) consequential amendments to the provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
- (b) Adjustments shall correspond to the adjustments to options or futures contracts relating to the Index made by the Futures Exchange (a "**Futures Exchange Adjustment**").
  - (i) The Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments, in cases where
    - (aa) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
    - (bb) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
    - (cc) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case and shall make Adjustments in accordance with the adjustment rules of the Futures Exchange.
  - (ii) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to compensate for the economic effect thereof on the level of the Index.
- (c) Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.
- (d) Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into

consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.

- (e) Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 13.
  - (f) Any adjustment in accordance with this § 6 paragraph 1 does not preclude a subsequent termination in accordance with § 7 paragraph 1 on the basis of the same event.
2. If the Index is no longer calculated and published by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "**Successor Index Sponsor**"), all amounts payable under the Securities will be determined on the basis of the Index being calculated and published by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Index Sponsor. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.
  3. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "**Index Modification**", then the Issuer is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Index Modification has occurred.

## § 7

### EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "**Hedging Disruption**"), the Issuer may freely elect to terminate the Securities prematurely. The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any index components or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether a Change in Law has occurred.

3. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 13 within fourteen Index Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Index Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
4. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Issuer shall calculate the Extraordinary Termination Amount in its

reasonable discretion (*billiges Ermessen*) (§ 315 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 290 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").

5. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

## § 8

### FURTHER ISSUES OF SECURITIES, REPURCHASE OF SECURITIES

1. The Issuer reserves the right to issue from time to time without the consent of the Securityholders additional tranches of Securities with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Securities. The term "Securities" shall, in the event of such consolidation, also comprise such additionally issued securities.
2. The Issuer may at any time purchase Securities in the market or otherwise. Securities repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

## § 9

### TAXES

Payments in respect of the Securities shall only be made after (i) deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (the "**Taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, to the extent that such deduction or withholding is required by law and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Issuer shall report on the deducted or withheld Taxes to the competent government agencies.

## § 10

### STATUS

The obligations under the Securities constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## § 11

### PAYING AGENT

1. Renta 4 Sociedad de Valores y Bolsa, S.A., Paseo de la Habana 74, 28036 Madrid, Spain, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 13.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 BGB and any similar restrictions of the applicable laws of any other country.

**§ 12**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Securities, subject to paragraph 2, without the Securityholders' consent all the obligations of the Issuer under and in connection with the Securities. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 13.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Securities with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 12, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Securities.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Securities;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Securityholder against any tax, duty, assessment or governmental charge imposed on such Securityholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Securityholders compliance by the New Issuer with all obligations under the Securities;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 12 shall apply again.

**§ 13**  
**NOTICES**

Where these Terms and Conditions provide for a notice pursuant to this section, such notice shall be published on the website *www.warrants.commerzbank.com* (or on another website notified at least six weeks in advance by the Issuer in accordance with this section) and become effective vis-à-vis the Securityholder through such publication unless the notice provides for a later effective date. If and to the extent applicable law or regulations provide for other forms of publication, such publications shall be made merely in addition to the aforesaid publication.

Other publications with regard to the Securities are published on the website of the Issuer *www.commerzbank.com* (or any successor website).

**§ 14**  
**LIMITATION OF LIABILITY;  
PRESENTATION PERIOD, PRESCRIPTION**

1. The Issuer shall be held responsible for acting or failing to act in connection with Securities only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.

2. The period for presentation of the Securities (§ 801 paragraph 1, sentence 1 BGB) shall be ten years and the period of limitation for claims under the Securities presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

## § 15 FINAL CLAUSES

1. The Securities and the rights and duties of the Securityholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Securityholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 13. Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 13. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 13 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Securityholder (as declared and proved by evidence in the request for repayment by the relevant Securityholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) of the traded prices of the Securities on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Index Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Index Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Securityholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Securityholders. Notice of any such correction or amendment shall be given to the Securityholders in accordance with § 13.
6. If the Securityholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Securities, then, notwithstanding paragraphs 2 - 5, the Securityholder can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.

8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Securities for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

### Issue-Specific Summary

Summaries are made up of disclosure requirements known as 'Elements'. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. There may be gaps in the numbering sequence of the Elements in cases where Elements are not required to be addressed.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of '- not applicable -'.

#### **Section A – Introduction and Warnings**

<b>A.1 Warnings</b>	<p>This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms. Investors should base any decision to invest in the Securities in consideration of the Base Prospectus as a whole and the relevant Final Terms.</p> <p>Where a claim relating to information contained in the Base Prospectus is brought before a court in a member state of the European Economic Area, the plaintiff investor may, under the national legislation of such member state, be required to bear the costs for the translation of the Base Prospectus and the Final Terms before the legal proceedings are initiated.</p> <p>Civil liability attaches to those persons who are responsible for the drawing up of the summary, including any translation thereof, or for the issuing of the Base Prospectus, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, all necessary key information.</p>
<b>A.2 Consent to the use of the Prospectus</b>	<p>The Issuer hereby grants consent to use the Base Prospectus and the Final Terms for the subsequent resale or final placement of the Securities by any financial intermediary.</p> <p>The offer period within which subsequent resale or final placement of Securities by financial intermediaries can be made is valid only as long as the Base Prospectus and the Final Terms are valid in accordance with Article 9 of the Prospectus Directive as implemented in the relevant Member State.</p> <p>The consent to use the Base Prospectus and the Final Terms is granted only in relation to the following Member State(s): Kingdom of Spain.</p> <p>The consent to use the Base Prospectus including any supplements as well as any corresponding Final Terms is subject to the condition that (i) the Base Prospectus and the respective Final Terms are delivered to potential investors only together with any supplements published before such delivery and (ii) when using the Base Prospectus and the respective Final Terms, each financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions.</p> <p><b>In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time of that offer.</b></p>

## Section D - Risks

The purchase of Securities is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

<p><b>D.2</b>  <b>Key risks specific to the Issuer</b></p>	<p>Each Tranche of Securities entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the</p>
--	---

	<p>risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>
	<p><u>Global Financial Market Crisis and Sovereign Debt Crisis</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p>
	<p><u>Macroeconomic Environment</u></p> <p>The macroeconomic environment prevailing over the past few years has negatively affected the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of any renewed economic downturn.</p>
	<p><u>Counterparty Default Risk</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "bulk" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.</p>
	<p><u>Market Price Risks</u></p> <p>The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.</p>
	<p><u>Strategic Risks</u></p> <p>There is a risk that the Group may not benefit from its strategy, or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.</p>
	<p><u>Risks from the Competitive Environment</u></p>

	<p>The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.</p>
	<p><u>Liquidity Risks</u></p> <p>The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations.</p>
	<p><u>Operational Risks</u></p> <p>The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or will violate compliance-relevant regulations while conducting business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.</p>
	<p><u>Risks from Goodwill Write-Downs</u></p> <p>It is possible that the goodwill reported in the Group's consolidated financial statements and brand names will have to be fully or partly written down as a result of impairment tests.</p>
	<p><u>Risks from Bank-Specific Regulation</u></p> <p>Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, reduce the Group's profitability, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of the deposit-taking business from proprietary trading, proprietary transactions and credit and guarantee transactions with certain leveraged funds, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.</p>
	<p><u>Legal Risks</u></p> <p>Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.</p>
<p><b>D.6</b>  <b>Key information on the key risks that are specific to the securities</b></p>	<p><u>No secondary market immediately prior to termination</u></p> <p>The market maker and/or the exchange will cease trading in the Securities no later than shortly before their termination date. However, between the last trading day and the Valuation Date the price of the</p>

	<p>Underlying and/or the currency exchange rate both of which are relevant for the Securities may still change. This may be to the investor's disadvantage.</p> <p>In addition, there is a risk that a barrier, which is stipulated in the terms and conditions, is reached, exceeded or breached in another way for the first time prior to termination after secondary trading has already ended.</p>
	<p><u>Securities are unsecured obligations (Status)</u></p> <p>The Securities constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) nor by the German Deposit Guarantee and Investor Compensation Act (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Securities. Under these circumstances, a total loss of the investor's capital might be possible.</p>
	<p><u>The proposed Financial Transactions Tax (FTT)</u></p> <p>The European Commission has proposed a common financial transactions tax (FTT) to be implemented in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia. However, Estonia has since stated that it will not participate. The proposed financial transactions tax could apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. However, the financial transactions tax is still subject to negotiation between the participating EU Member States. Additional EU Member States may decide to participate. Furthermore, it is currently uncertain when the financial transactions tax will be enacted and when the tax will enter into force with regard to dealings with the Securities.</p>
	<p><u>Risks in connection with the Act on the Recovery and Resolution of Institutions and Financial Groups, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities</u></p> <p>The Act on the Recovery and Resolution of Institutions and Financial Groups (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – which is the transposition into German law of the EU framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU, the "<b>Bank Recovery and Resolution Directive</b>" or "<b>BRRD</b>") may result, inter alia, in the terms of the Securities (e.g. their maturity or the abolition of existing termination rights) being varied, and claims for payment of principal, interest or other amounts under the Securities being subject to a conversion into one or more instruments that constitute common equity tier 1 capital for the Issuer, such as ordinary shares, or a permanent reduction, including to zero, by intervention of the competent resolution authority. Each of these measures is hereinafter referred to as a "<b>Regulatory Bail-in</b>". The holders of Securities would have no claim against the Issuer in such a case and there would be no obligation of Issuer to make payments under the Securities. This would occur if the Issuer becomes, or is deemed by the competent supervisory authority to have become, "non-viable" (as defined under the then applicable law) and unable to continue its regulated activities without such conversion or write-down or without a public sector injection of capital. The resolution authority will have to exercise its power in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments</p>

and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities – as those under the Securities – being converted into common equity tier 1 capital instruments or written down on a permanent basis in accordance with a set order of priority. The extent to which the Securities may be subject to a Regulatory Bail-in will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, a Regulatory Bail-in will occur. Potential investors should consider the risk that they may lose all of their investment, including the principal amount plus any accrued interest if a Regulatory Bail-in occurs. Financial public support will normally only be available as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the Regulatory Bail-in. The Resolution Mechanism Act (*Abwicklungsmechanismusgesetz*; "**AbwMechG**") provides, inter alia, that, in the event of an insolvency proceeding, certain senior unsecured debt instruments (as the Securities) (excluding debt instruments whose payoff (i) is contingent on the occurrence or non-occurrence of a future uncertain event other than the evolution of a reference interest rate, or (ii) is settled other than by way of a money payment) shall by operation of law only be satisfied after any and all other non-subordinated obligations of the Issuer have been fully satisfied. As a consequence, a larger loss share will be allocated to these instruments in an insolvency or bail-in scenario. Such change of the insolvency waterfalls and sequence of bail-in shall only become applicable from 1 January 2017 but is intended to have retrospective effect and would thus affect any Securities then outstanding. Liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings. This assessment must be based on an independent valuation of the Issuer. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of insolvency). Potential investors should also consider that the liquidity of the secondary market in any unsecured debt instruments may be sensitive to changes in financial markets and existing liquidity arrangements (for example, re-purchase agreements by the Issuer) might not protect investors from having to sell these instruments at substantial discount below their principal amount, in case of financial distress of the Issuer. In the event of resolution, a transfer of assets to a bridge bank or in a sale of business may also limit the capacity of the Issuer to meet repayment obligations.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments. This framework will ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Single Resolution Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new mandatory separation of certain banking activities that is in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from

	<p>investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.</p>
	<p><u>U.S. Foreign Account Tax Compliance Act Withholding</u></p> <p>The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made in respect of (i) Securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register, (ii) Securities issued or materially modified after the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or (iii) Securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to certain provisions commonly referred to as the "Foreign Account Tax Compliance Act".</p>
	<p><u>U.S.Hiring Incentives to Restore Employment Act Withholding</u></p> <p>The Issuer or any withholding agent may be required to withhold tax at a rate of up to 30% on U.S. "dividend equivalent amounts" that are paid or "deemed paid" under certain financial instruments issued after 31 December 2016, if certain conditions are met.</p>
	<p><u>Impact of a downgrading of the credit rating</u></p> <p>The value of the Securities could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Securities.</p>
	<p><u>Adjustments and Extraordinary Termination</u></p> <p>The Issuer shall be entitled to perform adjustments or to terminate and redeem the Securities prematurely if certain conditions are met. This may have a negative effect on the value of the Securities. If the Securities are terminated, the Redemption Amount paid to the holders of the Securities in the event of the extraordinary termination of the Securities may be lower than the amount the holders of the Securities would have received without such extraordinary termination.</p>
	<p><u>Disruption Events</u></p> <p>The Issuer is entitled to determine disruption events (e.g. market disruption events) that might result in a postponement of a calculation and/or of any attainments under the Securities and that might affect the value of the Securities. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of thresholds. These estimates may deviate from their actual value.</p>
	<p><u>Substitution of the Issuer</u></p> <p>If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Securities, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection</p>

	<p>with the Securities in its place. In that case, the holder of the Securities will generally also assume the insolvency risk with regard to the new Issuer.</p>
	<p><u>Risk factors relating to the Underlying</u></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities.</p>
	<p><u>Risk upon exercise</u></p> <p>The investor bears the risk that the Redemption Amount is below the purchase price of the Security. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.</p> <p>If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Redemption Amount will be zero. <b>The Securityholder will incur a loss that will correspond to the full purchase price paid for the Security (total loss).</b></p> <p>In addition, the investor bears a currency exchange risk as the amounts that are not expressed in the Issue Currency will be converted at the currency exchange rate on the Valuation Date.</p>
	<p><u>Risks if the investor intends to sell or must sell the Securities:</u></p> <p><i>Market value risk:</i></p> <p>The achievable sale price could be significantly lower than the purchase price paid by the investor.</p> <p>The market value of the Securities mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Securities:</p> <ul style="list-style-type: none"> <li>• Changes in the expected intensity of the fluctuation of the Underlying (volatility)</li> <li>• Interest rate development</li> <li>• Remaining term of the Securities</li> <li>• Adverse changes of the currency exchange rates</li> <li>• Development of the dividends of the shares comprising the Index</li> </ul> <p>Each of these factors could have an effect on its own or reinforce or cancel each other.</p> <p><i>Trading risk:</i></p> <p>The Issuer is neither obliged to provide purchase and sale prices for the Securities on a continuous basis on (i) the exchanges on which the Securities may be listed or (ii) an over the counter (OTC) basis nor to buy back any Securities. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Securities could be temporarily limited or impossible.</p>

**Section E - Offer**

<p><b>E.2b</b> Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</p>	<p>- not applicable - Profit motivation</p>
<p><b>E.3</b> Description of the terms and conditions of the offer</p>	<p>COMMERZBANK offers from 17 February 2017 series of Securities with an issue size and initial issue price per Security as set out in the table annexed to the issue-specific summary.</p>
<p><b>E.4</b> Any interest that is material to the issue/offer including conflicting interests</p>	<p>The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the terms and conditions of the Securities (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable:</p> <ul style="list-style-type: none"> <li>• execution of transactions in the Underlying</li> <li>• issuance of additional derivative instruments with regard to the Underlying</li> <li>• business relationship with the issuer of the Underlying</li> <li>• possession of material (including non-public) information about the Underlying</li> <li>• acting as Market Maker</li> </ul>
<p><b>E.7</b> Estimated expenses charged to the investor by the issuer or the offeror</p>	<p>The investor can usually purchase the Securities at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Securities (e.g. cost of distribution, structuring and hedging as well as the profit margin of COMMERZBANK).</p>

#### Apartado D – Riesgos

La adquisición de Valores está asociada con determinados riesgos. **El Emisor expresamente hace constar que la descripción de los riesgos asociados a la inversión en Valores únicamente recoge los principales riesgos conocidos por el Emisor a la fecha del Folleto de Base.**

<b>D.2</b> <b>Principales riesgos específicos</b> <b>del Emisor</b>	<p>Cada uno de los Tramos de los Valores conlleva un riesgo de emisor, denominado igualmente riesgo deudor o riesgo de crédito para los posibles inversores. El riesgo de emisor es el riesgo de que COMMERZBANK no pueda, con carácter temporal o permanente, hacer frente a sus obligaciones de pago de intereses y/o del importe de amortización.</p> <p>Asimismo, COMMERZBANK está sujeto a diversos riesgos en el contexto de sus operaciones de negocio. Entre estos últimos se incluyen en particular los siguientes:</p>
	<p><u>Crisis global de los mercados financieros y la deuda soberana</u></p> <p>La crisis global de los mercados financieros y de la deuda soberana, particularmente en la Eurozona, ha tenido un marcado efecto adverso significativo sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo. No es posible garantizar que el Grupo no vaya a sufrir nuevos efectos adversos de carácter material en el futuro, especialmente en el supuesto en que tuviera lugar una nueva escalada de dicha crisis. Cualquier nueva escalada de la crisis en la</p>

	<p>Unión Monetaria Europea podría tener importantes efectos negativos sobre el Grupo, pudiendo incluso, en determinadas circunstancias, poner en peligro la existencia del mismo. El Grupo mantiene en cartera un volumen sustancial de deuda soberana. El deterioro y las sucesivas valoraciones de dicha deuda soberana a valores razonables inferiores ha derivado en el pasado y podría derivar en el futuro en distintos efectos materiales adversos sobre el patrimonio neto, la situación financiera y los resultados de las operaciones del Grupo.</p>
	<p><u>Entorno macroeconómico</u></p> <p>El entorno macroeconómico imperante en los últimos años ha incidido negativamente sobre los resultados del Grupo, y la fuerte dependencia del Grupo del entorno económico, sobre todo en Alemania, podría derivar en nuevos efectos negativos de carácter sustancial en el caso de una nueva recesión económica.</p>
	<p><u>Riesgo de incumplimiento de las contrapartes</u></p> <p>El Grupo está expuesto al riesgo de incumplimiento (riesgo de crédito) de sus contrapartes, incluso en el caso de grandes compromisos individuales, grandes préstamos y compromisos centrados en determinados sectores individuales referidos como "<i>bulk risk</i>", así como en el caso de financiaciones otorgadas a diversos deudores que podrían verse especialmente afectados por la crisis de la deuda soberana. La financiación de inmuebles y buques se encuentra expuesta a significativos riesgos a la luz de las presentes dificultades en el entorno de mercado así como de la volatilidad de los precios de tales activos, incluyendo el riesgo de incumplimiento (riesgo de crédito) derivado de dicha situación así como el riesgo de variaciones sustanciales en los precios de la vivienda, locales comerciales y buques utilizados como garantía. El Grupo mantiene en cartera un importante número de préstamos en riesgo de incumplimiento. Los incumplimientos podrían no estar suficientemente cubiertos por las correspondientes garantías o por las provisiones constituidas y las oportunas reducciones de valor (<i>write-downs</i>) llevadas a cabo.</p>
	<p><u>Riesgos de Precio de Mercado</u></p> <p>El Grupo está expuesto a riesgos de precio de mercado con respecto a la valoración de acciones en sociedades y participaciones en fondos de inversión, así como en forma de riesgos de tipos de interés, riesgos de diversificación del crédito, riesgos de tipos de cambio, riesgos de volatilidad y correlación, o riesgos asociados al precio de las materias primas.</p>
	<p><u>Riesgos estratégicos</u></p> <p>Existe el riesgo de que el Grupo no pueda beneficiarse de su estrategia, o de que no pueda desarrollarla en su integridad, o pueda hacerlo si bien a un coste superior al previsto, y de que la aplicación de las medidas previstas pudiera no derivar en la consecución de los objetivos estratégicos pretendidos.</p>
	<p><u>Riesgos derivados del Entorno Competitivo</u></p> <p>Los mercados en los que el Grupo está activamente presente –en particular el mercado alemán (y, en concreto, las actividades en dicho mercado de banca privada y de inversión, así como las dirigidas a clientes empresariales) y el mercado polaco– se caracterizan por una fuerte competencia en precios y condiciones, lo que deriva en una considerable presión sobre los márgenes.</p>

	<p><u>Riesgos de liquidez</u></p> <p>De forma recurrente el Grupo necesita liquidez, y cualquier falta de liquidez en el mercado en general o específica de cualquier cliente empresarial podría tener efectos materiales adversos sobre el patrimonio, la situación financiera y los resultados de operaciones del Grupo.</p>
	<p><u>Riesgos operativos</u></p> <p>El Grupo está expuesto a un gran número de riesgos operativos incluyendo el riesgo de que los empleados acepten riesgos excesivos en nombre del Grupo o puedan infringir la correspondiente normativa aplicable mientras ejerzan la actividad bancaria y, en consecuencia, se generen pérdidas considerables de inmediata aparición, lo que pudiera igualmente y de forma indirecta dar lugar a la necesidad de aumentar los requisitos de capital a los que se encuentra sujeto el Grupo.</p>
	<p><u>Riesgos derivados de reducciones (<i>write-downs</i>) en el fondo de comercio (<i>goodwill</i>)</u></p> <p>Es posible que, como consecuencia de la realización de diversos test o pruebas de deterioro, deban practicarse reducciones (<i>write-downs</i>), en las marcas comerciales y en el fondo de comercio que figuran en los estados financieros consolidados del Grupo.</p>
	<p><u>Riesgos ligados al marco regulatorio bancario</u></p> <p>La aplicación de una regulación cada vez más estricta en materia de exigencias de capital y liquidez y obligaciones de información podría poner en peligro el modelo de negocio actual de algunas de las actividades del Grupo, perjudicar la situación competitiva del Grupo, reducir la rentabilidad del Grupo o exigir la obtención de nuevos fondos en forma de capital. Otras reformas normativas propuestas a raíz de la crisis financiera –por ejemplo, la aplicación de comisiones obligatorias tales como la denominada “tasa bancaria”, en última instancia un posible impuesto sobre operaciones financieras, o la obligación de separar la captación de depósitos de las las operaciones propias del negocio, transacciones, y operaciones de crédito y garantía con determinados fondos apalancados , o la imposición de nuevas obligaciones de comunicación o presentación de información y otras de carácter estructural– podrían afectar significativamente al modelo de negocio y a la situación competitiva del Grupo.</p>
	<p><u>Riesgos de naturaleza jurídica</u></p> <p>Las operaciones de negocio de COMMERZBANK pueden dar lugar a reclamaciones judiciales, cuyos resultados son siempre inciertos y pueden conllevar riesgos para el Grupo. Por ejemplo, diversas reclamaciones de daños y perjuicios por deficiencias en el asesoramiento prestado en materia de inversión han derivado en el pago de importes sustanciales para el Grupo, y aún podrían en un futuro derivar en la obligación de abonar mayores importes a cargo del Grupo. COMMERZBANK y sus filiales han sido objeto de reclamaciones, en algunos casos de índole judicial, en las que se les exige el pago y restitución de diversos importes en relación con los certificados de participación en beneficios y participaciones fiduciarias preferentes emitidas por el Grupo. El resultado de tales procedimientos podría tener importantes efectos negativos para el Grupo, más allá de las reclamaciones individuales existentes en cada caso. Las actuaciones de tipo regulatorio, supervisor o judicial pueden tener un efecto material adverso sobre el Grupo. Cualquier procedimiento instado por las</p>

	<p>entidades de regulación, autoridades supervisoras o judiciales puede tener efectos adversos significativos sobre el Grupo.</p>
<p><b>D.6</b> <b>Información fundamental sobre riesgos clave específicos de los valores</b></p>	<p><u>Inexistencia de un mercado secundario en el momento inmediatamente anterior al de vencimiento</u></p> <p>El creador de mercado y/o el mercado de valores cesarán en sus actividades de negociación de Valores a más tardar poco antes de la correspondiente fecha de vencimiento. Sin embargo, el precio del Subyacente y/o el tipo de cambio, factores ambos relevantes a efecto de determinar el precio de los Valores, aún podría variar entre la última fecha de negociación y la Fecha de Valoración. Dicha variación podría ser contraria a los intereses del inversor.</p> <p>De forma adicional, existe el riesgo de que pudiera llegarse a tocar o superarse o de cualquier otra forma incumplirse cualquier compromiso respecto de cualquier barrera previsto en los términos y condiciones, en cada caso por primera vez antes del vencimiento y una vez que hubiera finalizado cualquier actividad de negociación secundaria.</p>
	<p><u>Los Valores tienen la condición de obligaciones no garantizadas</u></p> <p>Los Valores constituyen obligaciones incondicionales del Emisor. Dichas obligaciones no se encuentran garantizadas ni por el Fondo de Protección de Depósitos de la Asociación de Bancos Alemanes (<i>Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.</i>) ni por la Ley Alemana de Garantías de Depósitos y de Compensación de Inversores (<i>Einlagensicherungs- und Anlegerentschädigungsgesetz</i>). Esto significa que el inversor asume el riesgo de que el Emisor no pueda atender, total o parcialmente, a cualesquiera pagos que pudieran proceder en virtud de los Valores. En estas circunstancias, el inversor podría perder la totalidad del capital invertido en estos instrumentos.</p>
	<p><u>El impuesto propuesto sobre las transacciones financieras (ITF)</u></p> <p>La Comisión Europea ha propuesto un impuesto común sobre las transacciones financieras (ITF) que se aplicaría en Bélgica, Alemania, Estonia, Grecia, España, Francia, Italia, Austria, Portugal, Eslovenia y Eslovaquia. Sin perjuicio de ello, Estonia ha manifestado que no va a participar. Dicho impuesto podría resultar de aplicación a algunas operaciones sobre los Valores (incluyendo operaciones en el mercado secundario) en determinados supuestos. No obstante, dicho impuesto aún está siendo objeto de negociación entre los distintos Estados Miembros participantes de la UE. Cabe la posibilidad de que otros Estados Miembros de la UE pudieran unirse a la propuesta. De forma adicional, en la actualidad resulta incierta la fecha en la que dicho impuesto será, en su caso, aprobado, así como la fecha en la que, en su caso, pudiera entrar en vigor a efectos de su aplicación a las operaciones sobre los Valores.</p>
	<p><u>Riesgos en relación con la Ley de Rescate y Resolución de Entidades y Grupos Financieros; con el Reglamento Europeo que establece un Mecanismo Único de Resolución; y con la propuesta de nuevo reglamento europeo sobre separación obligatoria de ciertas actividades bancarias</u></p> <p>La Ley de Rescate y Resolución de Entidades y Grupos Financieros (<i>Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen – SAG</i>) – que incorpora a la legislación alemana el marco regulatorio dispuesto por la Unión Europea para el rescate y resolución de entidades de crédito y empresas de inversión (Directiva 2014/59/UE, conocida como la "<b>Directiva sobre Rescate y Resolución</b></p>

**de Entidades**" o **"DRRE"**) podría permitir, entre otros extremos, una modificación de los términos y condiciones que rigen los Valores (por ejemplo, los relativos a su vencimiento o la abolición de derechos de terminación existentes), o dar pie a la presentación de reclamaciones exigiendo el pago del principal, intereses u otros importes debidos en virtud de aquellos Valores que pudieran ser objeto de conversión en uno o varios instrumentos representativos del capital social ordinario (*common equity tier 1*) del Emisor, tales como sus acciones ordinarias, o a una reducción permanente, incluso a cero, en virtud de la intervención de la correspondiente autoridad. Cada uno de estos supuestos de conversión o reducción obligatoria será referido a continuación como un supuesto de **"Bail-in"**. Los tenedores de los Valores carecerían de acción alguna frente al Emisor en tales supuestos, sin que en tales casos el Emisor viniera obligado en forma alguna a efectuar ningún pago en virtud de los Valores. Esto ocurriría si el Emisor deviniera o fuera considerado por la autoridad competente "inviabile" (tal y como se define dicho término en la correspondiente legislación) e incapaz de continuar sus actividades reguladas sin dicha conversión o reducción o sin una inyección de capital procedente del sector público. En tal caso la autoridad correspondiente deberá ejercitar sus facultades a efectos de obtener (i) la amortización de los instrumentos de capital pertenecientes al denominado "*common equity tier 1*" (tales como las acciones ordinarias del Emisor) en primer lugar, en proporción a las correspondientes pérdidas, (ii) a continuación, la amortización del principal de otros instrumentos de capital (los denominados "*additional tier 1 capital instruments*" y "*tier 2 capital instruments*") con carácter permanente, o bien su conversión en instrumentos de capital pertenecientes al "*common equity tier 1*" de conformidad con su correspondiente orden de prelación, y (iii) posteriormente, la conversión de determinados pasivos –tales como aquellos derivados de los Valores– en instrumentos de capital pertenecientes al "*common equity tier 1*" o bien su amortización con carácter permanente y de conformidad con un determinado orden de prelación. La medida en la que los Valores pudieran ser objeto de un supuesto de Bail-in dependerá de diversos factores ajenos al control del Emisor, siendo difícil predecir si y, en su caso, cuándo, pudiera tener lugar dicho supuesto. Los posibles inversores deberán valorar el riesgo de que pudieran verse abocados a la pérdida de la totalidad de la inversión, incluyendo tanto la del principal como la de cualesquiera intereses devengados, si tuviera lugar un supuesto de Bail-in. Generalmente cualquier intervención con fondos públicos destinada a rescatar la entidad únicamente tendría lugar como último recurso, una vez agotados, con la máxima extensión posible, los instrumentos de resolución previstos, incluyendo el Bail-in. La ley de mecanismo de resolución (*Abwicklungsmechanismengesetz; "AbwMechG"*) establece, entre otras, que, en caso de un procedimiento de concurso, ciertos instrumentos de deuda no asegurada senior (como valores) (excluyendo los instrumentos cuya rentabilidad (i) es contingente a la ocurrencia o no ocurrencia de un evento futuro incierto que no sea la evolución de una tasa de interés de referencia, o (ii) se liquida de forma diferente a un pago de dinero) deberán por imperativo legal sólo liquidarse una vez se hayan satisfecho completamente cualesquiera otras obligaciones no subordinados del Emisor. Como consecuencia, una mayor proporción de pérdida se destinará a estos instrumentos en caso de concurso o escenario de fianza. Dichos cambios de las cascadas en caso de insolvencia y fianza sólo serán de aplicación a partir del 01 de enero de 2017, pero pretende tener efecto retroactivo y así afectaría a todas los Valores en vigor. Los titulares tienen derecho a una compensación si el tratamiento que reciben es menos favorable que el tratamiento que habrían recibido bajo un procedimiento de concurso normal. Esta evaluación debe basarse en una valoración independiente del Emisor.

Los pagos de compensación, de existir, podrían efectuarse más tarde que las fechas de pago contractuales (de la misma manera que puede haber un retraso en la recuperación de valor en caso de concurso). Los inversores potenciales deben considerar también que la liquidez de los instrumentos de deuda en los mercados secundario puede ser sensible a los cambios en los mercados financieros y a los acuerdos de liquidez existentes (por ejemplo, recompra de contratos por el Emisor) no pueden proteger a los inversores de tener que vender estos instrumentos con un considerable descuento por debajo de su importe principal, en caso de dificultades financieras del Emisor. En caso de resolución, una transferencia de activos a un banco puente o una venta del negocio también pueden limitar la capacidad del Emisor para cumplir con las obligaciones de pago.

Asimismo, el Reglamento de la UE por el que se establece un Mecanismo Único de Resolución (el "**Reglamento del MUR**") incluye ciertas disposiciones en materia de planificación de la resolución, intervención temprana, actuaciones de resolución e instrumentos al efecto. Este marco garantiza que, en lugar de las autoridades nacionales de resolución, existirá una única autoridad –a saber, la Junta Única de Resolución– responsable de la adopción de cualesquiera decisiones relevantes que afecten a los bancos que formen parte de la Unión Bancaria.

El 29 de enero de 2014 la Comisión Europea ha aprobado una propuesta de una nueva separación obligatoria de ciertas actividades bancarias que es, en muchos aspectos, más restrictiva que los requisitos previstos en la ley de separación bancaria alemana (apartados 3(2)-(4), 25f 64s de la Ley de Banca alemana (*Kreditwesengesetz* - KWG). Así, los bancos europeos que sobrepasen los siguientes umbrales durante tres años consecutivos, a saber: a) total de activos del banco igual o superior a 30.000 millones de euros, (b) total de pasivos y activos destinados a negociación superior a 70.000 millones de euros o al 10% del total de activos, tendrán prohibida la negociación por cuenta propia, entendiéndose por tal aquellas actividades que no guarden relación con actividades de clientes o la cobertura de riesgo de la propia entidad. De forma adicional, dichos bancos tendrán prohibido también invertir o poseer acciones o participaciones en fondos de inversión libre (*hedge funds*) o en entidades que negocien por cuenta propia o patrocinen fondos de inversión libre. Otras actividades bancarias de inversión y negociación –tales como actividades de creación de mercado, concesión de préstamos a fondos de capital riesgo y de capital inversión, inversión en titulizaciones arriesgadas y su patrocinio, venta y negociación de derivados, etc.– no están sujetas a esta prohibición, pudiendo no obstante ser objeto de separación. La prohibición de operaciones por cuenta propia se aplicaría a partir del 1 de enero 2017, y la obligación de separación efectiva de otras actividades de negociación entraría en vigor el 1 de julio de 2018. En caso de imponerse cualquier separación con carácter imperativo, no es posible descartar la existencia de costes adicionales, en términos de mayores costes de financiación, requisitos adicionales de capital, costes operativos atribuibles a dicha separación, y ausencia de beneficios derivados de la diversificación de actividades.

Retenciones previstas en la legislación estadounidense conocida como *Foreign Account Tax Compliance Act*

El Emisor podría estar obligado a practicar una retención del 30% sobre la totalidad o sobre cualquier parte de cualesquiera pagos realizados en relación con (i) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la

	<p>fecha que resulte posterior en seis meses a aquélla en la que se presentara la normativa final sobre los denominados "<i>foreign passthru payments</i>" en el Registro Federal, (ii) cualesquiera valores emitidos o bien que hubieran sido modificados con carácter material después de la fecha que resulte posterior en seis meses a aquélla en la que obligaciones del mismo tipo fueran por primera vez consideradas como obligaciones que dieran lugar al pago de importes equivalentes a un dividendo, o (iii) cualesquiera Valores que tuvieran la consideración de "equity" a efectos de la normativa fiscal federal estadounidense con independencia del momento de su emisión, de conformidad con ciertas disposiciones previstas en la legislación estadounidense conocida como <i>Foreign Account Tax Compliance Act</i>.</p>
	<p><u>Retenciones previstas en la U.S. Hiring Incentives to Restore Employment Act</u> (o Ley sobre Ciertos Incentivos en Apoyo del Empleo)</p> <p>Tanto el Emisor como cualquier agente de retenciones pudieran venir obligados a practicar una retención de hasta el 30% sobre cualesquiera "importes asimilados a dividendos" (<i>dividend equivalent amounts</i>) que fueran satisfechos o "hubieran de entenderse satisfechos" (<i>deemed paid</i>) en virtud de ciertos instrumentos financieros emitidos en cualquier fecha posterior al 31 de diciembre de 2016, siempre que se cumplieran determinadas condiciones.</p>
	<p><u>Repercusión de una rebaja de la calificación crediticia</u></p> <p>El valor de los Valores podría verse afectado por las calificaciones otorgadas al Emisor por las agencias de calificación. Cualquier rebaja de la calificación del Emisor, incluso por parte de únicamente alguna de dichas agencias de calificación, podría derivar en una reducción en el precio de los Valores.</p>
	<p><u>Ajustes y Cancelación Extraordinaria</u></p> <p>El Emisor podrá realizar ciertos ajustes o cancelar y amortizar anticipadamente los Valores si su cumplieran determinadas condiciones. Ello pudiera tener un efecto negativo sobre el precio de los Valores. En el supuesto de cancelación de los Valores, el Importe de Amortización a percibir por el inversor para el caso de cancelación extraordinaria de los mismos podría ser inferior a aquél que el inversor habría recibido si no hubiera tenido lugar dicha cancelación extraordinaria.</p>
	<p><u>Supuestos de interrupción</u></p> <p>El Emisor podrá alegar la existencia de ciertos supuestos de interrupción (esto es, un supuestos de interrupción del mercado) que pudieran tener como consecuencia un aplazamiento del cálculo de cualesquiera magnitudes y/o de cualesquiera barreras que hubieran de proceder en virtud o a efectos de los Valores, lo que pudiera afectar al valor de estos últimos. De forma adicional, en ciertos supuestos estipulados, el Emisor podrá calcular determinados importes relevantes a efectos de la realización de determinados pagos o de entender alcanzadas o no las barreras establecidas. Dichos cálculos podrían desviarse del valor real de los instrumentos.</p>
	<p><u>Sustitución del Emisor</u></p> <p>Si se cumplieran las condiciones previstas a tal efecto, el Emisor podrá en cualquier momento –sin necesidad de recabar ni obtener el consentimiento de los tenedores de los Valores– designar a cualquier otra sociedad como nuevo Emisor en sustitución de este último a efectos de cualesquiera obligaciones derivadas de o relativas a los Valores. En</p>

	<p>este caso, el tenedor de los Valores asumirá asimismo y con carácter general el riesgo de insolvencia del nuevo Emisor.</p>
	<p><u>Factores de riesgo relativos al Subyacente</u></p> <p>Los Valores dependen del valor del Subyacente y del riesgo asociado a dicho Subyacente. El valor del Subyacente depende de diversos factores que pueden estar vinculados entre sí, Entre tales factores se cuentan factores económicos, financieros y políticos que escapan al control del Emisor. La rentabilidad histórica de un Subyacente o de cualquier componente del mismo no debiera ser considerada como indicador de su evolución futura durante la vida de los Valores.</p>
	<p><u>Riesgos en el momento del ejercicio</u></p> <p>El inversor asume el riesgo de que el Importe de Amortización resulte ser inferior al precio de compra del Valor. Cuanto menor (en el caso de los Valores de tipo CALL) o mayor (en el caso de los Valores de tipo PUT) sea el Precio de Referencia del Subyacente en la Fecha de Valoración, mayor será la pérdida.</p> <p>Si el Precio de Referencia del Subyacente en la Fecha de Valoración fuera igual o inferior (en el caso de los Valores de CALL) o igual o superior (en el caso de los Valores de PUT) al Precio de Ejercicio, el Importe de Amortización será cero. <b>El tenedor del Valor sufrirá una pérdida que se corresponderá con el precio íntegro de adquisición abonado por dicho Valor (pérdida total).</b></p> <p>De forma adicional, el inversor asume un riesgo de cambio en la medida en que aquellos importes que no estuvieran denominados en la Divisa de la Emisión deberán ser convertidos al tipo de cambio vigente en la Fecha de Valoración.</p>
	<p><u>Riesgos en aquellos casos en los que el inversor pretendiera vender o se viera obligado a vender los Valores:</u></p> <p><i>Riesgo ligado al valor de mercado:</i></p> <p>El precio de venta que pudiera obtenerse pudiera ser significativamente inferior al precio de adquisición abonado en su día por el inversor.</p> <p>El valor de mercado de los Valores depende principalmente de la evolución del Subyacente, sin reproducir no obstante su evolución con exactitud. En particular, los siguientes factores pudieran afectar negativamente al precio de mercado de los Valores:</p> <ul style="list-style-type: none"> <li>• Cambios en la intensidad esperada de las fluctuaciones del Subyacente (volatilidad)</li> <li>• Evolución de los tipos de interés</li> <li>• Plazo restante de vigencia de los Valores</li> <li>• Cambios adversos en los tipos de cambio</li> <li>• Evolución de los dividendos de las acciones que conforman el Índice</li> </ul> <p>Cada uno de estos factores podría tener un efecto por sí solo o reforzar o compensar el efecto de los demás.</p> <p><i>Riesgo de negociación:</i></p> <p>El Emisor no está obligado a ofrecer precios de compraventa para los Valores de forma continua en (i) cualesquiera mercados en los que pudieran negociarse los Valores ni (ii) en cualesquiera mercados</p>

extrabursátiles (OTC), no viniendo tampoco obligado a recomprar cualesquiera Valores. Incluso aunque el Emisor pudiera con carácter general ofrecer cualesquiera precios de compraventa, en caso de condiciones de mercado extraordinarias o problemas técnicos la compraventa de Valores podría limitarse temporalmente o devenir imposible.
