ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

Description of policies, objectives, measures and how they have been applied, and results achieved

The Board of Directors at its session of 17 June 2019, and with a favourable report by the Appointments and Remuneration Committee, updated the Director Selection Policy, in order to adapt it to Law 11/2018 of 28 December concerning non-financial information and diversity and to CNMV [Spanish Securities Market Commission] Technical Guide 1/2019 of 20 February, on Appointments and Remuneration Committees. Among the objectives and principles contained in this policy for the selection of candidates, it is considered that the selection of Directors should be based on the analysis of the Company by the Board of Directors under the advisement of the Appointments and Remuneration Committee. Similarly, individuals must be selected whose appointment encourages diversity of knowledge, experience and gender and age within the Board. It will furthermore be ensured that during the selection of candidates an appropriate balance is struck on the Board as a whole, to enrich decision-making and contribute a plurality of perspectives in debating the matters within its purview.

The Appointments and Remunerations Committee, since 2015, has approved the requirements that candidates must meet for the various classifications of Board Members of Corporación Financiera Alba, S.A.:

1. Executive Board Members will be selected bearing in mind their knowledge of the activities of the company, their professional background and experience, which will be suited to performing executive duties in the company.
2. In order to elect proprietary Board Members, who are appointed on the proposal of the significant shareholder, gender diversity must be respected, avoiding gender discrimination and candidates must also have a suitable professional background and experience for the company.
3. In the case of independent Board Members, the professional background and experience of the candidate must be taken into account, ensuring that it is different from the other Board members. It is expressly stipulated that gender and nationality or habitual residence are kept in mind if this is relevant for offering the Board a different point of view.

During 2020 the Appointments and Remuneration Committee has made the corresponding follow-up of the Policy for the selection of candidates as Directors, which has been applied in the re-election the Board Members Mr Carlos March Delgado, Mr Juan March de la Lastra, Ms María Eugenia Girón Dávila and Ms Claudia Pickholz. With these re-elections, the number of Women Directors has been maintained at 33.33% of board Directors. It was also debated that the target for representing the least represented gender should reach 40% of all members of the Board of Directors.

C.1.6 Describe the measures, if any, agreed upon by the nomination committee to ensure that selection procedures do not contain hidden biases which impede the selection of female directors and that the company deliberately seeks and includes women who meet the target professional profile among potential candidates, making it possible to achieve a balance between men and women. Also indicate whether these measures include encouraging the company to have a significant number of female senior executives:

Explanation of measures

- Including female candidates in all Board Member selection processes.
- Including, to the extent possible, a comparable number of candidates of each gender in the selection process.
- When the quality of the candidates is the same, in terms of training and experience, provided the representation target has not been met, the selection of female candidates will be prioritised.

These guidelines have been ratified by the Appointments and Remuneration Committee in its meeting of 21 October 2020. Subsequently, the Appointments and Remuneration Committee, in accordance with the amendments to the Good Governance Code of Listed Companies approved by the CNMV on 26 June 2020 considered that the target for representing the least represented gender comprised reaching 40% of the total number of members of the Board of Directors. In 2020, Female Directors represented 33.33% of the Board.

In relation to senior management, the Company follows the Selection Policy that it has approved, and which respects the principles set out in the question, but are not formalised in a specific document.

If in spite of any measures adopted there are few or no female directors or senior managers, explain the reasons for this:

Explanation of reasons

Female Directors represent 33.33% of the total members of the Board of Directors.

Turning to senior management, the executives have a long history of service in the company, with no new additions. Any new addition will take into account the least represented gender objectives, as established by the Directors.

C.1.7 Explain the conclusions of the nomination committee regarding verification of compliance with the policy aimed at promoting an

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

appropriate composition of the Board of Directors.

The Board of Directors, at its session on 17 June 2019 updated the Director Selection Policy of Corporación Financiera Alba in accordance with that set forth in Law 11/2018 and the provisions of the Technical Guides of the CNMV/1/2019.

In this regard, the findings of the Appointments and Remuneration Committee concerning the compliance with the Director Selection Policy is that the policy has been adequately followed, both in terms of the targets and criteria of the selection process, as well as the procedural aspects and the attributes that the candidates should possess, having had a Skills Matrix approved in 2019, and which has been subject to review and confirmation during the present year.

With regard to the target fixed by the Appointments and Remuneration Committee in 2016, in which 2020 was established as the year by when the number of female Directors should represent at least 30% of the total number of members of the Board, this figure was reached in 2019, with female directors representing 33.33% of the members of the Board. This percentage is maintained in 2020, and it is considered that the target for representing the least represented gender should reach 40% of the total number of members of the Board of Directors.

C.1.16 Specify the procedures for selection, appointment, re-election and removal of directors.

List the competent bodies, steps to follow and criteria applied in each procedure.

Selection and Appointment:

On 17.06.2019 the Board of Directors approved a Director Selection Policy, in which reference is made to the selection targets and principles, the selection process, the qualities the candidates must have and the limits on applying as a candidate. Furthermore, the Regulations of the Board contain the following provisions:

1. Board Members will be appointed by the General Shareholders' Meeting or by the Board on a provisional basis.
2. The proposals for Board Member appointments submitted by the Board to the General Shareholders' Meeting and the appointment agreements adopted by this body in the case of co-opting must respect the provisions of the Regulation with regard to the distribution of Board Members among executives and external Board Members and, among these, between proprietary and independent board members. The Board of Directors will ensure that the selection procedures foster diversity of gender, experience and knowledge, and are not subject to any implicit bias that could entail any form of discrimination.
3. Once there is a vacancy, the Chairman or any Board Member may propose candidates, and these will be deliberated by the Board. The proposals for appointment or re-election of Board Members which are made by the Board to the General Shareholders' Meeting, as well as their temporary appointment by co-opting, will be approved by the Board at the recommendation of the Appointments and Remuneration Committee in the case of Independent Directors, and following a report from the Appointments and Remuneration Committee for the remaining Directors. The proposal must be accompanied by an explanatory report from the Board (for the General Shareholders' Meeting) and from the Appointments and Remuneration Committee.

Re-election:

According to Rules and Regulations of the Board of Directors, the re-election proposals for Board Members to be submitted before the General Shareholders' Meeting must undergo a formal preparation process, including a report by the Appointments and Remuneration Committee and the deliberations of the Board regarding the quality of work and commitment to the post during the preceding term of office.

Evaluation:

The evaluation process of the Board and its Committees is conducted annually by preparing a questionnaire which is sent to the Board Members and which addresses matters related both to the powers of these bodies and to their actions. The answers to the questionnaire serve as the basis for the Board's evaluation, which is prepared by the Appointments and Remuneration Committee and referred to the Board for its approval. Furthermore, based on the recommendations of the CNMV's Good Governance Code of 2015, every three years, the company has the Board evaluated by an external consultant, and Board Members, in addition to completing a questionnaire, are interviewed by the consultant. The last evaluation by an external consultant was in 2019. The areas evaluated in 2020 are detailed in section C.1.17.

Termination:

In accordance with the Rules and Regulations of the Board:

1. Board Members will stand down from their position once the period for which they were appointed has passed, or when decided by the General Shareholders' Meeting.
2. Directors will stand down from the Board of Directors and tender the necessary resignation if the Board deems this appropriate, in the cases detailed in section C.1.19.
3. In the case of external proprietary and independent Directors, elected by the general Shareholders' Meeting, the Board will not propose their termination before reaching the statutory period for which they were appointed, except for just cause, deemed as such by the Board itself, and subject to a report by the Appointments

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

and Remuneration Committee. Justified grounds will be deemed to exist if the Director has been in breach of any of the duties inherent in the position, or incurred any of the situations referred to in Article 8.1B of the Rules and Regulations of the Board of Directors.

4. Directors must inform the Board when circumstances arise which affect them, whether or not related to their actions in the company itself, and in particular of any criminal proceedings in which they appear as suspects or defendants, as well as of how the legal proceedings subsequently unfold. When the Board is informed or becomes aware of any of the circumstances mentioned above, it must investigate the case as quickly as possible and, depending on the specific circumstances, decide, based on a report from the Appointments and Remuneration Committee, whether or not any measure must be adopted, such as opening an internal investigation, asking the director to resign or proposing that he or she be dismissed. These events must be reported in the ACGR, unless there are any special reasons not to do so, which must also be noted in the minutes

5. When a Director stands down before completing his or her term of office, due to resignation or any other grounds, the Director will provide sufficient reasons for their resignation or, in the case of non-executive directors, their opinion on the reasons for the termination by the General Shareholders' Meeting, in a letter addressed to the members of the Board. This will be detailed in the ACGR, in so far as it is relevant for investors.

C.1.17 Explain to what extent the annual evaluation of the Board has given rise to significant changes in its internal organisation and in the procedures applicable to its activities:

The questionnaire for the Directors covered aspects associated to both the functioning and composition of these bodies as well as their actions. ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

E. RISK MANAGEMENT AND CONTROL SYSTEMS

E.1. Explain the scope of the company's Risk Management and Control System, including tax risk:

Corporación Financiera Alba, S.A. (hereinafter Alba or the Group) has defined an Integrated Risk Management System aimed mainly at:

- Enabling the identification and proactive and efficient assessment of Company risks, as well as monitoring and continually tracking these risks.
- Integrating, coordinating and directing the various efforts which, in terms of risk management, the company is performing.
- Achieving reasonable risk acceptance and reinforcing the responsibility of employees of the Company.
- Ensuring the control systems are aligned with the real risks of the Company.
- Facilitating and streamlining the application of corrective measures.

This Integrated Risk Management System was implemented at a corporate level to mitigate the risks encountered by the Group, given the nature and degree of complexity of its transactions and the environment in which it operates. This System unites three key components:

(i) Continued Risk Management process, understood as those activities performed by all individuals in the Company under the supervision of the Audit and Compliance Committee that are focused on identifying those potential risk events that could affect it, managing the risks identified and ensuring reasonable security in achieving the Company's objectives.

By way of a summary, the continued risk management process involves performing the following activities:

- Identifying and assessing the risks that could affect the Company.
- Determining the level of risk that is can be tolerated, by defining key risk indicators (KRIs) for each critical risk and establishing tolerance levels for these risks.
- Identifying checks.
- Identifying the processes in which these risks and controls occur.
- Assessing the effectiveness of the checks in mitigating the risks identified.
- Design and implementation of action plans, as a response to the risks.

In this regard, Alba has prepared the company's Risk Map, which shows the company's key risks based on their impact and probability. In order for this risk map to be effectively configured as a management tool allowing the company to reach informed decisions, it is periodically reviewed and updated to adapt it to the Company's current situation. Alba's Risk Map was last updated in 2019 with the agreement of the Audit and Compliance Committee as well as the Board of Directors.

The Company has likewise defined the Risk Datasheets for the most critical risks, identifying the key risk indicators (with their corresponding tolerances), the associate controls and, where applicable, the action plans to be implemented.

These Indexes allow the Company to periodically assess and monitor its risks and to determine the most appropriate response to these risks.

(ii) An organisational focus, with clearly defined and communicated roles and responsibilities. Full risk management affects all staff of the Company, as a result, it is vital to establish an organisational focus on risk management that is suited to the organisational structure and the Company's corporate culture.

Though the Integrated Risk Management System affects and involves all Company staff, the main participants, as are described in the next section (E.2), are as follows: risk managers, the Risk Control and Management Department, the Audit and Compliance Committee and the Board of Directors.

(iii) A tracking model, which identifies and provides the crucial information needed so that all those involved in the risk management process can make informed decisions concerning the risks. This tracking model is cross-sectional as it allows the System to behave dynamically and, above all, to anticipate risks, rendering risk management and control, within the limits set by the Company, possible.

These components combine to form a model which allows appropriate management of risks and checks to mitigate risks at a corporate level, which applies to all risks indicated in section E.3, which includes the fiscal risks

In 2020 it was not deemed necessary to update or amend the review of the Risks Map carried out in 2019.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

There was also an assessment of the impact of COVID-19 on Alba's risk management system this year, using the Risks Map and the critical risks that follow as a starting point, as well as an assessment of the organisation's response level to address the challenges generated by COVID-19 on the business model and the corporate risk management systems. The main conclusions drawn are: (i) the adequate level of response by Management to the challenges and additional requirements caused by the impact of COVID-19; (ii) the existence of response measures already implemented that allowed the residual risk to remain within the established risk appetite limits; and (iii) the recommendation to maintain the implemented response measures, in so far as the risk situation does not suffer any changes.

E.2. Identify the bodies within the company responsible for preparing and executing the Risk Management and Control System, including tax risk.

Alba's Integrated Risk Management System involves all the Company's staff, though the main parties responsible for the System are as follows:

a) Board of Directors.

The Board of Directors has reserved the right to determine the risk control and management policy, including for tax risks, and to supervise the internal reporting and control systems.

In this regard, the Board of Directors is the main body responsible for the risk management system, since it develops the mechanisms needed so that all the relevant risks involved in the activities and business dealings are adequately identified, managed and controlled within the limits established.

b) The Audit and Compliance Committee.

The Audit and Compliance Committee, which has been entrusted, among other duties, with supervising the effectiveness of the company's internal checks, internal audits and risk management systems. It assesses whether or not there is sufficient organisation, staff, policies and processes needed to identify and control its main risks.

c) The Risk Control and Management Department.

The Risk Control and Management Department is under the direct supervision of the Audit and Compliance Committee and has been expressly given the following duties, which are included in its Articles of Association, and which have been approved by the Board of Directors:

- Ensuring the smooth running of the risk control and management systems and, specifically, that all the important risks affecting the company are identified, managed and appropriately quantified.
- Actively participating in preparing the risk strategy and important decisions concerning its management.
- Ensuring that the risk control and management systems appropriately mitigate risks, as part of the policy identified by the Board of Directors.

d) Risk Managers.

They are responsible for monitoring the risks assigned to them and for reporting any relevant information in this regard to the Risk Management and Control Unit.

With regard to the risk management processes, it is noteworthy that, in addition to the aforementioned Risk Management and Control Department, Alba has Regulatory Compliance processes which are performed by the various operational and support departments, as well as an Internal Audit Service (SAI), which is defined as an advisory and control body in the service of the Audit and Compliance Committee, that is independent within the organisation as regards its actions, aimed at assessing the various areas and functional activities of the Company, as is stipulated in the Charter of the Internal Auditing Service.

The analysis and proposal of recommendations for improving the risk management processes, as well as performing independent assessments concerning the effectiveness and efficiency of internal checks are included among the duties entrusted to the Internal Audit Service, which works in partnership with the Risk Control and Management Department in order to avoid duplicating tasks and/or areas without sufficient coverage.

In relation to crime prevention, Alba has an Organisation and Management Model for preventing the commission of crimes, alongside the Crime Prevention Manual, which was updated in 2020. The Risk and Control Matrixes were updated in 2019.

E.3. Indicate the main risks, including tax risks, and those deriving from corruption (with the scope of these risks as set out in Royal Decree Law 18/2017), to the extent that these are significant, which may affect the achievement of business objectives:

The Group is subject to various risks inherent to the different sectors and markets in which it or its associated companies or companies in which it has holdings operate, and which could prevent it from achieving its targets and successfully executing its strategies.

As indicated above, Alba has a Risk Map, which is a tool that makes it possible to put the risks that could affect corporate targets into context, in addition to identifying and prioritising the most relevant and critical risks, making it possible to make decisions concerning steps to take to mitigate these risks.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

Alba has a risk tracking and updating system which makes it possible to identify and incorporate any new risk identified during the financial year in the company's map. Likewise, the system ensures that all key risks are reviewed at least twice per year. As a result of this review and analysis process, the current Risks Map, reviewed in 2019, has a total of nine risks.

As a result, in the process of identifying and assessing risks affecting the Group, the following risk factors were considered to inherently be the most relevant (in other words, before applying the checks established):

- Macro-economic and socio-political factors
- Investment management
- Measurement and monitoring of investments
- Requirements regarding financial and non-financial information
- Tax management
- CNMV requirements
- Technological security
- Corporate reputation

The Crime Prevention Manual, by identifying the criminal risks likely to affect the Company, highlights the crimes of corruption in business dealings, among other offences. Based on the risk tracking reports, there do not appear to be any significant corruption risks that affect the Company. The Code of Ethics and Conduct formally expresses the Company's condemnation of any form of corruption.

E.4. Indicate whether the entity has risk tolerance levels, including for tax risk:

Alba's risk assessment and management model categorises risks, including tax, into four classifications, based on the impact of the risk and the probability of occurrence, as well as the perceived degree of internal control mitigating these risks.

Based on these parameters, the risks are classified as:

- **Minor risks:** Risks whose inherent criticality is medium-low and whose perceived degree of internal control is medium-high. These risks are managed with a view to rationalising the efforts made to mitigate these risks, without this causing appreciable damage to the perceived degree of internal control.
- **Average risks:** Risks whose inherent criticality is medium-low and whose perceived degree of internal control is medium-low. These risks are tracked with a view to confirming that they maintain a medium-low level of inherent criticality, otherwise, the corresponding corrective measures will be taken.
- **High risks:** Risks whose inherent criticality is medium-high and whose perceived degree of internal control is medium-high. For this type of risk, the associated checks are assessed in order to confirm the effectiveness of their design and method, and to confirm that the checks adequately mitigate the risks.
- **Critical risks:** Risks whose inherent criticality is medium-high and whose perceived degree of internal control is medium-low. These risks are continually monitored by the of Alba's Management and action plans will be established to increase their degree of internal control, where necessary.

Alba has identified Key Risk Indicators (KRIs) for all risks categorised as high and critical and has established tolerance levels for each of the risks. The results are periodically assessed and reported within Alba's Integrated Risk Management System tracking model (see detailed explanation in section E.6).

E.5. Indicate which risks, including tax risks, have materialised during the year:

During the 2020 financial year, and in spite of the impact of COVID-19, the most relevant risks for the Group did not materialise.

E.6. Explain the response and oversight plans for the company's main risks, including tax risks, as well as the procedures followed by the company in order to ensure that the Board of Directors responds to any new challenges that arise:

As stated in the previous sections, Alba has appointed a Risk Manager for each risk assessed as being critical or high. The Risk Manager is responsible for monitoring each risk assessed and for informing the Risk Control and Management Department of relevant information concerning such risks, basically:

- Changes in the perception of the risk level.
- Effective operation of the checks identified for mitigation of these risks (and, where applicable, the potential effects).
- Values collected using the indicators and comparison with established tolerance levels.
- Status of the actions plans underway (if there is an action plan for this risk) and, where applicable, proposal of new action plans.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

The effective operation of this key process of the Integrated Risk Management System is based on the existence of a Tracking Model (as indicated in section E.1) which is a cross-sectional component that allows the System to have dynamic behaviour and, above all, to anticipate risks, allowing for risk management and control within the limits set by Alba. With this as a basis, the persons in charge of risk management periodically provide relevant information to the Risk Unit, which conducts an independent and informed assessment of the Risk Unit and prepares the relevant risk report for the Audit and Compliance Committee, which is assigned to, among others, the role of monitoring the effectiveness of internal control of the company, internal audit and risk management systems.

The Integrated Risk Management System, alongside of Alba's policies and management and control systems, have made it possible to identify risks and new threats sufficiently in advance, which are the focus of the tracking report that is submitted for inspection to the Board of Directors.

The Regulatory Compliance function coordinates, systematises and monitors the various actions and efforts in this regard with the Board of Directors approving the compliance model established and its tracking. In 2020, tracking reports were drawn up and submitted to the Board of Directors, which has approved them.

The Integrated Risk Management System (described in section E.1), together with the Risk Management Policy, the Risk Management and Control Function Charter, and the remaining elements of that System, such as the ongoing risk management process, the main participants (section E.2) allow the Board of Directors to identify and respond to issues arising in relation to the risks that may affect the Company.

F. INTERNAL RISK MANAGEMENT AND CONTROL SYSTEMS RELATING TO THE PROCESS OF PUBLISHING FINANCIAL INFORMATION (ICFR)

Describe the mechanisms forming your company's Internal Control over Financial Reporting (ICFR) system.

F.1. The entity's control environment.

Report on at least the following, describing their principal features:

F.1.1 The bodies and/or departments that are responsible for: (i) the existence and maintenance of an adequate and effective ICFR system; (ii) its implementation; and (iii) its supervision.

The Internal Financial Information Control System (SCIIF) is part of the risk management and control system of Corporación Financiera Alba, S.A. (hereinafter, "ALBA" or the "Group"), the purpose of which is to ensure reasonable security over the reliability of the financial information that Alba, as a listed company, distributes to the stock markets.

The bodies of Alba responsible for the existence and maintenance of an appropriate and effective SCIIF, as well as its duties, are as follows:

The Board of Directors, which has ultimate responsibility in this regard, according to the provisions of article 5 section 2.2.b) of the Regulation of the Board of Directors.

The Audit and Compliance Committee, for its part, is responsible for supervising the effectiveness of the company's internal checks and audit services, as well as supervising the process of preparing and presenting regulated financial information and the company's internal control systems in this regard. Following Recommendation number 19 of the Technical Guide of the CNMV no. 3/2017, on Audit Committees of Public Interest Entities, in 2017, the Board of Directors approved the Regulations of the Audit and Compliance Committee, which were amended on 26 October 2020 to adapt them to the recommendations introduced by CNMV Resolution of 26 June 2020 on the Good Governance Code of Listed Companies.

According to this Regulation, the Audit and Compliance Committee is responsible for:

- "Periodically reviewing the internal control and risk management systems, so that the main risks are identified, managed and suitably reported."
- "Reviewing the process for preparing the Company's financial information, in order to establish its integrity, technological quality and internal check quality, compliance with regulatory requirements, proper delimitation of the consolidation perimeter, proper application of generally accepted accounting principles and standards, which are duly documented in an Accounts Plan, and compliance with remaining legal requirements concerning this information."
- "Ensuring the independence of the department assuming internal audit duties."
- "Reviewing updates to financial information on the Company's website".

The Audit and Compliance Committee is supported by the Internal Audit Service which is responsible for, among other matters, the preparation and execution of an annual action plan; ensuring compliance with established standards and instructions; assessing the sufficiency and application of internal checks; informing the Audit and Compliance Committee of irregularities detected and tracking accepted recommendations. These responsibilities are formalised in the Charter of the Internal Audit Service, which were updated by the Board of Directors in 2017.

In relation to the audit plans on the review of the SCIIF, in 2020, the Audit and Compliance Committee examined the internal audit on the review of the SCIIF carried out in 2019, which indicated that the Company complied with the standards defined within the regulatory framework in the principles proposed by the CNMV and making some proposals for improvement. Furthermore, the review of the SCIIF was included in the Internal Audit Plan of Activities for 2020, without any irregularities being detected. The review of the SCIIF was included among the audits of the Plan of Activities for 2021.

On the other hand, Financial Management is responsible for designing, establishing and operating the SCIIF, as well as identifying and assessing risks and determining the checks to be established.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

- Departments and/or mechanisms in charge of: (i) the design and review of the organisational structure; (ii) clear definition of lines of responsibility and authority with an appropriate distribution of tasks and functions; and (iii) ensuring that adequate procedures exist for their proper dissemination throughout the entity:

The Board of Directors, as established in its Regulation:

- Is responsible for approving the definition of the structure of the Group of companies, as well as the corporate governance policy. Additionally, at the suggestion of the company's first executives, the Board decides to appoint and potentially to dismiss the Group's senior executives.
- Likewise, the Board reserves, as part of its duties, the right to approve the company's general Policies and strategies and, in particular, the strategic or business Plan, as well as management targets, the Group's investment and financing Policy, determination of the Risk and Management Policy and the determination of the company's tax strategy. The Board also reserves the power to supervise and check that Management has met the targets set and is respecting the Company's purpose and corporate interests.

Financial Management is principally responsible for preparing the financial information. This Management department establishes the structure of those responsible for financial information and the status of the internal control system for financial information, in addition to coordinating and supervising its actions.

The Board of Directors, via the corresponding areas and departments, distributes relevant information concerning the Company including, but not limited to, information concerning the summons of the general shareholders' assembly, its agenda, relevant events, internal corporate governance regulation and the Annual Report, among other information.

The means of dissemination used guarantee communication without restrictions, and in due time and manner, including their potential publication on the web page and/or intranet. At its session of 10 June 2015, the Board of Directors approved the initial Communication Policy of the Company, which has been replaced by a new version, approved during the session of 12 November 2020 to include the recommendations introduced in the Good Governance Code of Listed Companies via CNMV Resolution of 26 June 2020, in particular, those relating to the communication of financial information.

- Code of conduct, the body approving this, degree of dissemination and instruction, principles and values covered (stating whether there is specific mention of record keeping and preparation of financial information), body charged with analysing breaches and proposing corrective actions and sanctions:

The ALBA Group has had a Code of Ethics and Conduct since December 2011.

Following the favourable report from the Audit and Compliance Committee, the Board of Directors approved in 2018 a new Code of Ethics and Conduct, to address, in particular, the evolution of the legal regulation of criminal liability of legal persons, which was amended, subject to a favourable report by the Audit and Compliance Committee, by the Board of Directors on 26 October 2020 to include the recommendations introduced by CNMV Resolution of 26 June 2020 in the Good Governance Code of Listed Companies

The Code of Ethics and Conduct of Corporación Financiera Alba, S.A. and the companies in its Group is a formal expression of the values and principles which must govern the conduct of the entities in the ALBA group and the individuals accountable to the Group in the performance of its activities and duties, its labour, commercial and professional relations, with a view to achieving a universally accepted corporate ethic.

The Board of Directors is responsible for reviewing and updating the Code of Conduct and for enhanced supervision of effective compliance with the Code of Conduct, in addition to the adoption of measures which may be required to make the Code consistent with other corporate governance regulations and procedures.

The Code of Ethics and Conduct has been sent individually to all persons to whom the Code applies, by sending the Code to its recipients. The Code was accepted in writing and is available on the Company's intranet and on the corporate web page.

Training concerning the Code is mainly provided with the training on criminal prevention and using reminders

or digital communications concerning its most relevant aspects. In 2020, a training session on crime prevention for employees was carried out and a reminder of the main points of the Code was sent to recipients of the Code. Likewise, a copy of the Code is given to new hires for their written adherence.

The Group's Code of Conduct is based on the following values:

- Supporting and respecting internationally recognised human rights.

The economic and financial information will faithfully reflect the economic, financial and equity circumstances of ALBA, according to generally accepted accounting principles and international financial information standards that apply. To this end, no Affected Person will conceal or distort the information on ALBA’s accounting registers or reports, which will be complete, accurate and true.”

For its part, sections 6.17 and 6.19 provide that:

“The information sent to shareholders will be true and complete and will provide an adequate reflection of the Company’s circumstances.”

“Correspondence concerning financial information or other matters sent on behalf of ALBA will, under no circumstances, contain misleading or fictitious data or data which has not been thoroughly checked.”

The body responsible for ensuring compliance with the Code and proposing corrective measures, where applicable, is the Monitoring Committee of the Code of Ethics and Conduct.

- Whistleblower channel allowing notifications to the audit committee of irregularities of a financial and accounting nature, in addition to potential breaches of the code of conduct and unlawful activities undertaken in the organisation, indicating whether this channel is confidential and whether anonymous notifications can be made, protecting the rights of the whistleblower and the person reported:

The 2011 Code of Ethics and Conduct contemplated a “confidential complaints channel,” which was effectively implemented.

Given the importance of internal reporting channels, an annex to the Code of Ethics and Conduct approved in 2018 is now included, which outlines a more detailed procedure for handling complaints that allows one to confidentially report any acts or conduct committed that may be contrary to applicable regulations or the Code of Ethics and Conduct within the company, in the performance of third parties that are in contract with the company or to its detriment.

Following the recommendations introduced by CNMV Resolution of 26 June 2020 in the Good Governance Code of Listed Companies, the cases in which anonymous reports are admissible has been included in the Whistleblowing Channel Appendix.

The description of the operations of the channel includes the identity of the individuals to whom these complaints can be sent (these are the Chairman of the Audit and Compliance Committee or the Code of Ethics and Conduct Tracking Committee) and the options for sending this complaint

(email or ordinary post sent to the address of the managers indicated).

Preliminary examination for the admission or filing of the complaint is commissioned to the Chairman of the Audit and Compliance Committee.

The complaints will be processed by the Tracking Committee of the Code of Ethics and Conduct, unless the complaints are against one of its members, in which case the Chairman of the Audit and Compliance Committee will carry out the preliminary inspection and handle the complaint. This Tracking Committee is comprised of the Secretary of the Board, the Chief Financial Officer, the Director of Investments and a member of the Legal Consultancy Board.

In addition, the Crime Prevention Model, updated in 2020, can also be referenced and which aims to:

- Raise awareness among and training Board Members, Directors and employees of the Group concerning the importance of regulatory compliance, especially the prevention of criminal proceedings.
- Inform employees of the consequences of violating the provisions of the Code of Ethics and Conduct and the Crime Prevention Manual.
- Expressly record the clear condemnation of Corporación Financiera Alba of any illegal conduct which, in addition to contravening legal provisions, is contrary to the Group’s values.

The Audit and Compliance Committee has considered the monitoring of the Crime Prevention Model appropriate.

- Training and periodic refresher programmes for personnel involved in the preparation and revision of financial information, as well as in the assessment of the ICFR system, covering at least accounting standards, auditing, internal control and risk management:

Staff involved in preparing and reviewing financial information, as well managing and supervising the SCIIF, receives, based on their various responsibilities, periodical training concerning accounting, auditing, internal control and risk management regulation.

In this manner, Financial Management periodically makes training efforts for staff involved in preparing the Financial Statements and managing the Group’s SCIIF. These training actions are primarily focused on deepening knowledge and update to International Financial Reporting Standards (IFRS) and legislation and other regulations concerning Internal Control of Financial Information.

Likewise, the staff of the Internal Audit Service is updated on a continued basis concerning changes to Internal Controls, especially Financial Information and Risk Management.

Additionally, Financial Management and other areas involved in the preparation, review and reporting of financial information have received various publications updating accounting, financial, internal control and tax regulation.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

F.2. Assessment of risks in financial reporting.

Report on at least the following:

F.2.1 The main characteristics of the risk identification process, including risks of error and fraud, as regards:

- Whether the process exists and is documented:

In fiscal year 2011, the Group undertook an examination process for identifying business risks of all kinds (operational, technological, financial, legal, reputational, environmental etc.) that could affect the achievement of its targets. The result of this was an initial version of the Risk Map for this which was duly documented, examined by the Audit Committee and approved by the Board of Directors in 2015.

The Risks Map is subject to regular review to assess whether it needs to be updated, the last review was carried out in 2019, which was reported on during the Board Meeting of January 2020.

After the review in 2020, it was not deemed necessary to update or amend the Risks Map.

Likewise, Alba has a process for identifying and assessing specific risks concerning financial information, both in terms of its consolidated accounts, the entity and business processes, which is updated at least once a year.

The process is updated annually at the very least. The process is based on the consolidated financial information and uses this information to categorise accounting headings and notes, as well as identifying those which are the most relevant, according to quantitative (material aspects) and qualitative criteria.

The categorised headings and notes are associated with the Group's processes or business areas, in order to classify these processes or business areas in terms of their relevance in generating financial information.

The most important processes or areas are analysed and documented. These documents identify and analyse transaction flows, possible risks of error or fraud in the financial information, associated checks which mitigate these risks and features such as Integrity, Existence & Occurrence, Rights & Obligations, Measurement & Valuation and Presentation.

The process and criteria used for assessing these risks are documented in the "ALBA Group's Internal Control System on Financial Information (SCIIF) Manual", the latest revision carried out was in 2019.

- Whether the process covers all the objectives of financial reporting, (existence and occurrence; completeness; valuation; presentation; disclosure and comparability; and rights and obligations), whether it is updated and if so how often.

As discussed above, the significant processes or areas generating financial information are analysed on at least an annual basis, in order to identify possible risks of error or fraud involving the financial information, and as regards its objectives of Integrity, Existence & Occurrence, Rights & Obligations, Measurement & Valuation and Presentation, which cover all the objectives of the financial information.

- The existence of a process for identifying the scope of consolidation, taking into account, among other factors, the possible existence of complex corporate structures or **special purpose vehicles**:

Financial Management is responsible for analysing the companies that are included and those that are no longer part of this perimeter, as well as any change to the percentage ownership interest in these companies. Both the establishment and acquisition of ownership interests in companies and the sale of these interests or the liquidation of these interests are subject to internal authorisation processes that make it possible to clearly identify incoming items, outgoing items and changes to the consolidation perimeter.

The Group's scope of consolidation is submitted to the Audit and Compliance Committee every six months.

The main duties of the Audit and Compliance Committee are to review the "process for preparing the Company's financial information, with a view to confirming its integrity, technological quality and for internal control, as well as compliance with regulatory requirements, proper delimitation of the consolidation perimeter, proper application of generally accepted accounting principles and standards, and compliance with remaining legal requirements concerning this information."

- Whether the process takes into account the effects of other types of risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) to the extent that they affect the financial statements:

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

The process for identifying risks of error or fraud in the financial information takes into account the effects of other types of risks (operational, technological, financial, legal, reputational, environmental etc.), to the extent that these affect the financial statements. These risks are assessed and managed by the Company (according to the description in Section E of this Report).

The governing body within the company that supervises the process:

The Financial Management is responsible of the process for identifying and assessing specific risks concerning financial information, both in terms of its consolidated accounts, the entity and business processes, which is updated at least once a year. Likewise, the Audit and Compliance Committee is responsible for its supervision.

F.3. Control activities.

Report on whether the company has at least the following, describing their main characteristics:

F3.1.1 Review and authorisation procedures for financial information and a description of the ICFR, to be disclosed to the securities markets, indicating those responsible, as well as documentation describing the flow of activity and controls (including those relating to the risk of fraud) of the various types of transactions which may materially affect the financial statements, including accounting closing procedures and the specific review of significant judgements, estimates, valuations and projections.

According to the provisions of the Regulation of the Board of Directors:

- The approval of financial information to be made periodically is the responsibility of the Board of Directors (including the description of the Group SCIIF).
- Likewise, when the financial statements are submitted for deliberation by the Board of Directors, they must first be certified with regard to their accuracy and integrity, by the Managing Director and the Chief Financial Officer.

Likewise, according to the provisions of the Regulation of the Audit and Compliance Committee:

- The main duties of the Audit and Compliance Committee are to review the process for preparing the Company's financial information, with a view to confirming its integrity, technological quality and for internal control, as well as compliance with regulatory requirements, proper delimitation of the scope of consolidation, proper application of generally accepted accounting principles and standards, and compliance with remaining legal requirements concerning this information.

The information review process takes the following flow:

The Group has a procedure for closing the accounts and performs a specific review of opinions, estimates, valuations and relevant forecasts. The respective units make the estimates, ratings or projections of those aspects that they are competent and the reasonableness of them is valued by the Financial Management; they are subsequently submitted to the Audit and Compliance Committee and

the Board of Directors, as part of the exposure of the financial statements.

The Group publishes financial information on a quarterly basis. This information is prepared by Financial Management which performs, as part of the account closure process, the control activities identified in the process, as well as analysing and reviewing the information prepared. The information prepared is then sent to the Audit and Compliance Committee for its supervision.

The six-monthly financial reports and the individual and consolidated annual accounts of Alba, the Report and the Annual Corporate Governance Report (which includes, by way of additional information, a description of the SCIIF) are reviewed by the Audit and Compliance Committee before being reviewed by the Board of Directors. Likewise, the Audit and Compliance Committee reviews the remaining financial information and any other relevant information before submitting this information to the markets or to the supervisory bodies.

The Group has an internal financial information control system based on the COSO [Committee of Sponsoring Organisations of the Treadway Commission] model, which provides reasonable certainty with regards to achieving the targets of this system, in other words: effectiveness and efficiency of the operations, safeguard of the assets, reliability of the financial reports and compliance with the applicable laws and regulations, the latest version being 2019.

The principles and criteria for defining and managing the SCIIF are documented in the Group's SCIIF Manual. The Group has documents describing the flows of activities and checks (including those associated with the risk of fraud) of the various kinds of transactions that can have a real impact on the financial statements. These documents include the significant and matrix processes for risks and checks.

According to the SCIIF Manual, Financial Management is responsible for identifying and documenting these significant processes in addition to being responsible for managing the internal SCIIF certification process for evaluating its efficiency.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

F.3.2 Internal IT control policies and procedures (access security, control of changes, system operation, operational continuity and segregation of duties, among others) which support significant processes within the company relating to the preparation and publication of financial information.

Among the checks considered for mitigating or managing risks of error in the financial information, there are some related to more relevant IT applications, such as checks of user access permits or those related to the integrity of the transfer of information between applications.

Additionally, the Group has guidelines or regulations and internal control procedures on information systems regarding software acquisition and development, system infrastructure acquisition, software installation and testing, change management, service level management, third-party service management, system security and access, incident management, operations management, operations continuity and segregation of duties.

These guidelines and procedures are applied to all the information systems, including those that support the relevant financial information generation processes, and on the infrastructure needed for its operation.

This entire internal network of IT infrastructure is controlled by a Department of internal professionals responsible for defining and executing the Group's IT strategy, as well as supporting users, operating the system and IT security. Likewise, the Group has systems security and contingency programmes.

The Group's SCIIF Manual provides that, on an annual basis, the systems manager of the group certifies the effectiveness of the internal checks established for the IT systems.

F.3.3 Internal control policies and procedures for overseeing the management of activities subcontracted to third parties, as well as of those aspects of assessment, calculation or valuation entrusted to independent experts, which may materially affect financial statements.

Generally speaking, the ALBA Group does not subcontract important duties to third parties that have a direct impact on the financial information, evaluations, calculations or valuations that could have a material impact on the financial statements, with the exception of the valuation of its investments in property, the actuarial valuation of pensions and the valuation of investments in non-listed companies.

There are internal checks for selecting the property valuation provider, which include the following supervisory criteria: Type and frequency of the reports; competence and independence of the provider; methodology and validation of the information

and database used for the analysis; reasonableness of the hypotheses and criteria applied; methodology for reviewing the findings and Reports prepared.

With regard to the actuarial valuation of pensions, the existence of the policies used as well as the coherence and consistency of the databases used is checked.

F.4. Information and communication

Report on whether the company has at least the following, describing their main characteristics::

F.4.1 A specifically assigned function for defining and updating accounting policies (accounting policy area or department) and resolving doubts or conflicts arising from their interpretation, maintaining a free flow of information to those responsible for operations in the organisation, as well as an up-to-date accounting policy manual distributed to the business units through which the company operates.

Financial Management is responsible for defining and keeping accounting policies up-to-date as well as resolving doubts or conflicts associated with their interpretation and maintaining smooth communication with those responsible for operations in the organisation. To this end, accounting changes are periodically identified and communicated to the various Management supervisors. Likewise, in the event that application queries arise, these are referred to and resolved by the Head of Administration and the Chief Financial Officer.

Alba considers that accounting standards are directly applicable, given the low level of complexity of its transactions. Accounting standards are kept up-to-date and are at the disposal of Financial Management staff.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

F.4.2 Mechanisms for capturing and preparing financial information in standardised formats for application and use by all units of the entity or group, and support its main financial statements and notes, as well as disclosures concerning ICFR.

The Group has mechanisms for capturing and preparing financial information, with suitable formats and applications, which is used by all the departments. Centralised and uniform IT systems are used for the Group. Likewise, there are checks that are needed for the IT systems and a supervisory and review process is performed by Financial Management.

F.5. Supervision of the functioning of the system.

Report on at least the following, describing their principal features:

F.5.1 The activities of the audit committee in overseeing ICFR as well as whether there is an internal audit function one of the responsibilities of which is to provide support to the committee in its task of supervising the internal control system, including ICFRF. Additionally, describe the scope of ICFR assessment made during the year and the procedure through which the person responsible for performing the assessment communicates its results, whether the company has an action plan detailing possible corrective measures, and whether their impact on financial reporting has been considered.

The Regulations of the Board of Directors and the Regulations of the Audit and Compliance Committee entrust the following duties to the Audit and Compliance Committee:

- Supervise the efficiency of the internal control of the company, the internal audit and the risk management systems, including tax risks, discussing significant weaknesses in the internal control system that are detected as part of the audit with the accounts auditor.
- Supervise the process for preparing and presenting the mandatory financial information.

The SCIIF supervisory activities performed by the Audit and Compliance Committee essentially include:

- Monitoring the process of evaluating the SCIIF by Financial Management.
- Reviewing the process for preparing the Company's financial information, with a focus in confirming its integrity, technological quality and for internal control, as well as compliance with regulatory requirements, proper delimitation of the consolidation perimeter, proper application of generally accepted accounting principles and standards, and compliance with remaining legal requirements concerning this information.

- Evaluating and approving the proposals suggested by Management concerning changes to the accounting principles and standards.
- Supervising Management's decisions of adjustments proposed by the external auditor, as well as familiarising itself with and, where applicable, mediating in disagreements between them.
- Reviewing, with the support of the Internal Audit Service, the design and operation of the internal control system, in order to evaluate its effectiveness and,
- Holding periodical meetings with external auditors, internal auditors and senior management in order to review, analyse and discuss the financial information, the perimeter of companies they cover and the accounting criteria applied, as well as, where applicable, significant internal control weaknesses identified.

Additionally, the Audit and Compliance Committee is responsible for overseeing the definition of the Annual and Strategic Internal Audit Plan as well as its development in the SCIIF.

Likewise, since 2011, the Group has had an Internal Audit Service, whose Articles of Association provide that it is its responsibility to ensure that this process happens and that the checks established work effectively. Its role is targeted towards assisting the Group in maintaining effective checks, by evaluating the efficiency and effectiveness of them and driving efforts of continuous improvement. The Regulations of the Internal Audit Service were updated by the Board of Directors in 2017.

According to the Group's SCIIF Manual, the Audit and Compliance Committee has entrusted performing this duty to the Internal Audit Service. The SCIIF supervision process, via the Internal Audit Service, includes the following tasks:

- Validate the SCIIF model with regard to the definition of the SCIIF scope or the documents concerning the significant processes (Narrative and Risk and Control Matrixes).
- Review and evaluating the process and the findings concerning the effectiveness resulting from the annual review performed by Financial Management.
- Include, as part of the Internal Audit Strategic Plan and the Internal Audit Annual Plan, where applicable, the SCIIF processes to be reviewed.
- Assess and communicate the results obtained from the SCIIF supervision process and the checks on the processes involving the affected department and the Financial Management.
- Inform the Audit and Compliance Committee of the degree of progress of the supervision, the results obtained and the weaknesses detected, where applicable, when presenting the degree of progress and results of the internal audit works for the financial year. Finally, the Group's SCIIF Manual sets criteria for categorising issues based on their potential impact on financial information and probability of occurrence after detection and subsequent communication and monitoring process.

F.5.2 Whether there is a discussion procedure whereby the auditor (as defined in the Spanish Technical Audit Standards), the internal auditor and other experts can report to senior management and the audit committee or directors of the company any significant weaknesses in internal control identified during the review of the annual financial statements or any others they have been assigned. Additionally, state whether an action plan is available for correcting or mitigating any weaknesses detected.

Generally speaking, the discussion procedure concerning significant internal control weaknesses identified is based on periodical meetings which the various agents hold. To this end, the Audit and Compliance Committee holds meetings with Internal Auditing and Financial Management for the bi-annual and for the annual closure and, also, with the External Auditor, for the annual closure, in order to discuss any relevant aspect of the process of preparing the resulting financial information.

Specifically, the Regulations of the Board of Directors and the Regulations of the Audit and Compliance Committee provide that the Audit and Compliance Committee must:

- Discuss the significant weaknesses in the internal control system detected when performing the audit with the accounts auditors or audit firms.
- Establish appropriate relations with the accounts auditors or audit firms in order to receive information concerning matters that could threaten their independence, for examination by the Committee, and any other matter related to the process of performing the accounts audit, as well as other announcements provided in accounts auditing legislation and in auditing standards.

For its part, the Articles of Association of the Internal Audit Service provide that the Audit and Compliance Committee must maintain free and open communication with the Director of the Internal Audit Service. Specifically, the Director of the Internal Audit Service has direct access to the Audit and Compliance Committee, with which it will address the following matters, among others:

- The significant events observed when performing the internal audits.
- The degree of compliance with the most relevant recommendations.
- The most significant risks and the level of Internal Control in the Group, bearing in mind the results of the audits performed and the evaluation of the Internal Control performed by the Internal Audit Service.
- Coordination with external auditors and the remaining individuals responsible for supervising the Internal Control.

Likewise, Financial Management also holds meetings with the Internal Audit Service, both for the bi-annual closure and for the annual closure, and with External Auditors for the annual closure, with a view to addressing significant questions concerning the financial information.

F.6. Other relevant information.

The Audit and Compliance Committee examined and approved in 2019 the new SCIIF manual, with the aim of updating and simplifying the Manual of 2013, in order to adapt it to the reality of the Group and to take into account the activities it carries out.

In addition to the SCIIF supervision process (entrusted to the Internal Audit Service), according to the ALBA's SCIIF Manual, in 2020 the corresponding process for the annual evaluation of the effectiveness and validity of the process was performed by Financial Management.

In the development of the Risk Management function, entrusted to the Risk Management and Control Unit, Alba has had since 2015 a Charter for the Risk Management and Control Function which allows this Unit to supervise the smooth running of the risk control and management systems and, specifically, that all the important risks affecting the company are identified, managed and appropriately quantified; actively participate in preparing the risk strategy and important decisions concerning its management; and ensure that the risk control and management systems appropriately mitigate risks, as part of the policy identified by the Board of Directors.

Likewise, the purpose of the Regulatory Compliance service is to provide reasonable security that Alba is complying with key legal and normative requirements, identifying the main legislative and normative obligations of the company, designing a compliance model and a Monitoring and tracking model for the Compliance activities. In 2020, the Crime Prevention Model was updated with this in mind. In 2018, the Board of Directors approved a Charter for the Regulatory Compliance Function so that the Compliance Unit can establish adequate control and an efficient and prudent management of regulatory obligations.

And that, if the Board is informed or becomes aware in any other manner of any of the circumstances mentioned above, it must investigate the case as quickly as possible and, depending on the specific circumstances, decide, based on a report from the nomination and remuneration committee, whether or not any measure must be adopted, such as the opening of an internal investigation, asking the director to resign or proposing that he or she be dismissed. And that these events must be reported in the annual corporate governance report, unless there are any special reasons not to do so, which must also be noted in the minutes. This without prejudice to the information that the company must disseminate, if appropriate, at the time when the corresponding measures are implemented.

Complies [X] Complies partially [] Explain []

This particularly applies to independent directors and directors who are unaffected by a potential conflict of interest if the decision could be detrimental to any shareholders not represented on the Board of Directors.

Furthermore, when the Board of Directors makes significant or repeated decisions about which the director has serious reservations, the director should draw the appropriate conclusions and, in the event the director decides to resign, explain the reasons for this decision in the letter referred to in the next recommendation.

This recommendation also applies to the secretary of the Board of Directors, even if he or she is not a director.

57. That only executive directors should receive variable remuneration linked to corporate results and personal performance, as well as remuneration in the form of shares, options or rights to shares or instruments referenced to the share price and long-term savings plans such as pension plans, retirement schemes or other provident schemes.

Consideration may be given to delivering shares to non-executive directors as remuneration providing this is conditional upon their holding them until they cease to be directors. The foregoing shall not apply to shares that the director may need to sell in order to meet the costs related to their acquisition.

Complies [] Complies partially [X] Explain []

The annual variable remuneration is only received by the executive Directors and the multi-year variable remuneration can be established in favour of the executive Directors and those other Directors of the Company that represent the governing bodies of investee companies, subsidiaries or related companies (only in the case of proprietary directors).

58. That as regards variable remuneration, remuneration policies should incorporate the necessary limits and technical safeguards to ensure that such remuneration is in line with the professional performance of its beneficiaries and not based solely on general developments in the markets or in the sector in which the company operates, or other similar circumstances.

And, in particular, that variable remuneration components:

- a) Are linked to pre-determined and measurable performance criteria and that such criteria take into account the risk incurred to achieve a given result.
- b) Promote the sustainability of the company and include non-financial criteria that are geared towards creating long term value, such as compliance with the company's rules and internal operating procedures and with its risk management and control policies.
- c) Are based on balancing the attainment of short-, medium- and long-term objectives, so as to allow remuneration of continuous performance over a period long enough to be able to assess its contribution to the sustainable creation of value, such that the elements used to measure performance are not associated only with one-off, occasional or extraordinary events.

59. That the payment of variable remuneration components be subject to sufficient verification that previously established performance or other conditions have effectively been met. Entities must include in their annual report on director remuneration the criteria for the time required and methods used for this verification depending on the nature and characteristics of each variable component.

That, additionally, companies consider the inclusion of a reduction ('malus') clause for the deferral of the payment of a portion of variable remuneration components that would imply their total or partial loss if an event were to occur prior to the payment date that would make this advisable.

An exception is made in cases where the director has, at the time of the transfer or exercise of options or rights, a net economic exposure to changes in the share price for a market value equivalent to at least twice the amount of his or her fixed annual remuneration through the ownership of shares, options or other financial instruments.

The forgoing shall not apply to shares that the director may need to sell in order to meet the costs related to their acquisition or, following a favourable assessment by the nomination and remuneration committee, to deal with such extraordinary situations as may arise and so require.

64. That payments for contract termination should not exceed an amount equivalent to two years of total annual remuneration and should not be paid until the company has been able to verify that the director has fulfilled all previously established criteria or conditions for payment.

For the purposes of this recommendation, payments for contractual termination will be considered to include any payments the accrual of which or the obligation to pay which arises as a consequence of or on the occasion of the termination of the contractual relationship between the director and the company, including amounts not previously vested of long-term savings schemes and amounts paid by virtue of post-contractual non-competition agreements.

If an Executive Board Member who has had a previous employment relationship with Alba is dismissed, if the previous employment relationship is resumed and terminated by decision of Alba, the compensation will be in accordance with employment regulations, and the greater of the following amounts will be paid (i) the amount of the fund set up as a pension supplement, or (ii) the amount of one year's Fixed Remuneration, plus one twelfth of that annuity for each year of service with Alba.

In both cases the compensation is not paid until it is verified that the Executive Board Member has met the performance criteria established.

In 2020, there was no situation in which this recommendation was applied.

SECTION G, Recommendation 21

In 2020, there was no situation in which this recommendation was applied.

SECTION G, Recommendation 22

Article 19.4 of the Rules and Regulations of the Board of Directors, amended in 2020, expressly establishes that Directors must inform the Board when circumstances arise which affect them, whether or not related to their actions in the company itself, and in particular of any criminal proceedings in which they appear as suspects or defendants, as well as of how the legal proceedings subsequently unfold.

ANNUAL CORPORATE GOVERNANCE REPORT OF LISTED PUBLIC LIMITED COMPANIES

When the Board is informed or becomes aware of any of the circumstances mentioned in the above paragraph, it must investigate the case as quickly as possible and, depending on the specific circumstances, decide, based on a report from the Appointments and Remuneration Committee, whether or not any measure must be adopted, such as opening an internal investigation, asking the director to resign or proposing that he or she be dismissed. These events must be reported in the annual corporate governance report, unless there are any special reasons not to do so, which must also be noted in the minutes.

In 2020, there was no situation in which this standard was applied.

SECTION G, Recommendation 23

Article 15.5 of the Regulations of the Board specifically provides that “Board Members must clearly express their opposition when they think that any proposed decision brought before the Board of Directors could be contrary to the interests of the company. SECTION G, Recommendation 28

Article 15.6 of the Board Regulation specifies that when the Board members or the Secretary express concern about any proposal or, in the case of Board members, concerning the running of the Company and these concerns are not resolved by the Board, at the request of the person who expressed the concerns, they may request that this be recorded in the minutes of the meeting.

However, since this is considered as a good Corporate Governance practice and in order to facilitate its actions, the Board of Directors of Corporación Financiera Alba, S.A., in 2016, appointed, with the abstention of the executive Board Members, one Coordinating Board Member from the independent Board Members.

SECTION G, Recommendation 36

The Board assessment report includes some findings concerning the smooth running of the Board.

The last assessment of the Board’s activities with the assistance of an external assessor took place in 2020 in relation to its activities for 2019.

SECTION G, Recommendation 62

In 2020, the variable remuneration plan referenced to the share value approved by the Company’s General Shareholders’ Meeting on 19 June 2017 matured. This plan did not result in any remuneration, therefore Recommendation 62 is not applicable.

En este sentido, hay que tener en cuenta que, con independencia de la calidad del diseño y operatividad del sistema de control interno adoptado por la Sociedad en relación a la información financiera anual, éste sólo puede permitir una seguridad razonable, pero no absoluta, en relación con los objetivos que persigue, debido a las limitaciones inherentes a todo sistema de control interno.

En el curso de nuestro trabajo de auditoría de las cuentas anuales y conforme a las Normas Técnicas de Auditoría, nuestra evaluación del control interno de la Sociedad ha tenido como único propósito el permitirnos establecer el alcance, la naturaleza y el momento de realización de los procedimientos de auditoría de las cuentas anuales de la Sociedad. Por consiguiente, nuestra evaluación del control interno, realizada a efectos de dicha auditoría de cuentas, no ha tenido la extensión suficiente para permitirnos emitir una opinión específica sobre la eficacia de dicho control interno sobre la información financiera anual regulada.

Como el trabajo resultante de dichos procedimientos tiene, en cualquier caso, un alcance reducido y sustancialmente menor que el de una auditoría o una revisión sobre el sistema de control interno, no expresamos una opinión sobre la efectividad del mismo, ni sobre su diseño y su eficacia operativa, en relación a la información financiera anual de la Sociedad correspondiente al ejercicio 2020 que se describe en la Información relativa al SCIIF adjunta. En consecuencia, si hubiéramos aplicado procedimientos adicionales a los determinados por la citada Guía o realizado una auditoría o una revisión sobre el sistema de control interno en relación a la información financiera anual regulada, se podrían haber puesto de manifiesto otros hechos o aspectos sobre los que les habríamos informado.

Asimismo, dado que este trabajo especial no constituye una auditoría de cuentas ni se encuentra sometido a la normativa vigente en materia de auditoría de cuentas en España, no expresamos una opinión de auditoría en los términos previstos en la citada normativa.

Se relacionan a continuación los procedimientos aplicados:

1. Lectura y entendimiento de la información preparada por la Sociedad en relación con el SCIIF – información de desglose incluida en el Informe de Gestión - y evaluación de si dicha información aborda la totalidad de la información requerida que seguirá el contenido mínimo descrito en el apartado F, relativo a la descripción del SCIIF, del modelo de IAGC según se establece en la Circular 5/2013 de 12 de junio de la Comisión Nacional del Mercado de Valores (CNMV), posteriormente modificada por la Circular 7/2015 de 22 de diciembre de la CNMV, por la Circular 2/2018, de 12 de junio de la CNMV y por la Circular 1/2020, de 6 de octubre (en adelante, las Circulares de la CNMV).
2. Preguntas al personal encargado de la elaboración de la información detallada en el punto 1 anterior con el fin de: (i) obtener un entendimiento del proceso seguido en su elaboración; (ii) obtener información que permita evaluar si la terminología utilizada se ajusta a las definiciones del marco de referencia; (iii) obtener información sobre si los procedimientos de control descritos están implantados y en funcionamiento en la Sociedad.
3. Revisión de la documentación explicativa soporte de la información detallada en el punto 1 anterior, y que comprenderá, principalmente, aquella directamente puesta a disposición de los responsables de formular la información descriptiva del SCIIF. En este sentido, dicha documentación incluye informes preparados por la función de auditoría interna, alta dirección y otros especialistas internos o externos en sus funciones de soporte a la comisión de auditoría.
4. Comparación de la información detallada en el punto 1 anterior con el conocimiento del SCIIF de la Sociedad obtenido como resultado de la aplicación de los procedimientos realizados en el marco de los trabajos de la auditoría de cuentas anuales.
5. Lectura de actas de reuniones del consejo de administración, comisión de auditoría y otras comisiones de la Sociedad a los efectos de evaluar la consistencia entre los asuntos en ellas abordados en relación al SCIIF y la información detallada en el punto 1 anterior.

6. Obtención de la carta de manifestaciones relativa al trabajo realizado adecuadamente firmada por los responsables de la preparación y formulación de la información detallada en el punto 1 anterior.

Como resultado de los procedimientos aplicados sobre la Información relativa al SCIIF no se han puesto de manifiesto inconsistencias o incidencias que puedan afectar a la misma.
