€147M	1	13%	87%

- Added value products offer an opportunity to upgrade the existing park of pools
- One of the best examples is the salt chlorinators systems:
 - **Growth potential:** Australia show a 95% penetration of this technology vs. 15% in Europe
 - Provides a better user experience by swimming in a “salt pool”
 - More comfort to pool owner by using less chemicals
 - The cell of the salt chlorinator is a consumable that needs to be replaced every 2 years

Continued leadership in innovation

Multi-center & open R&D model

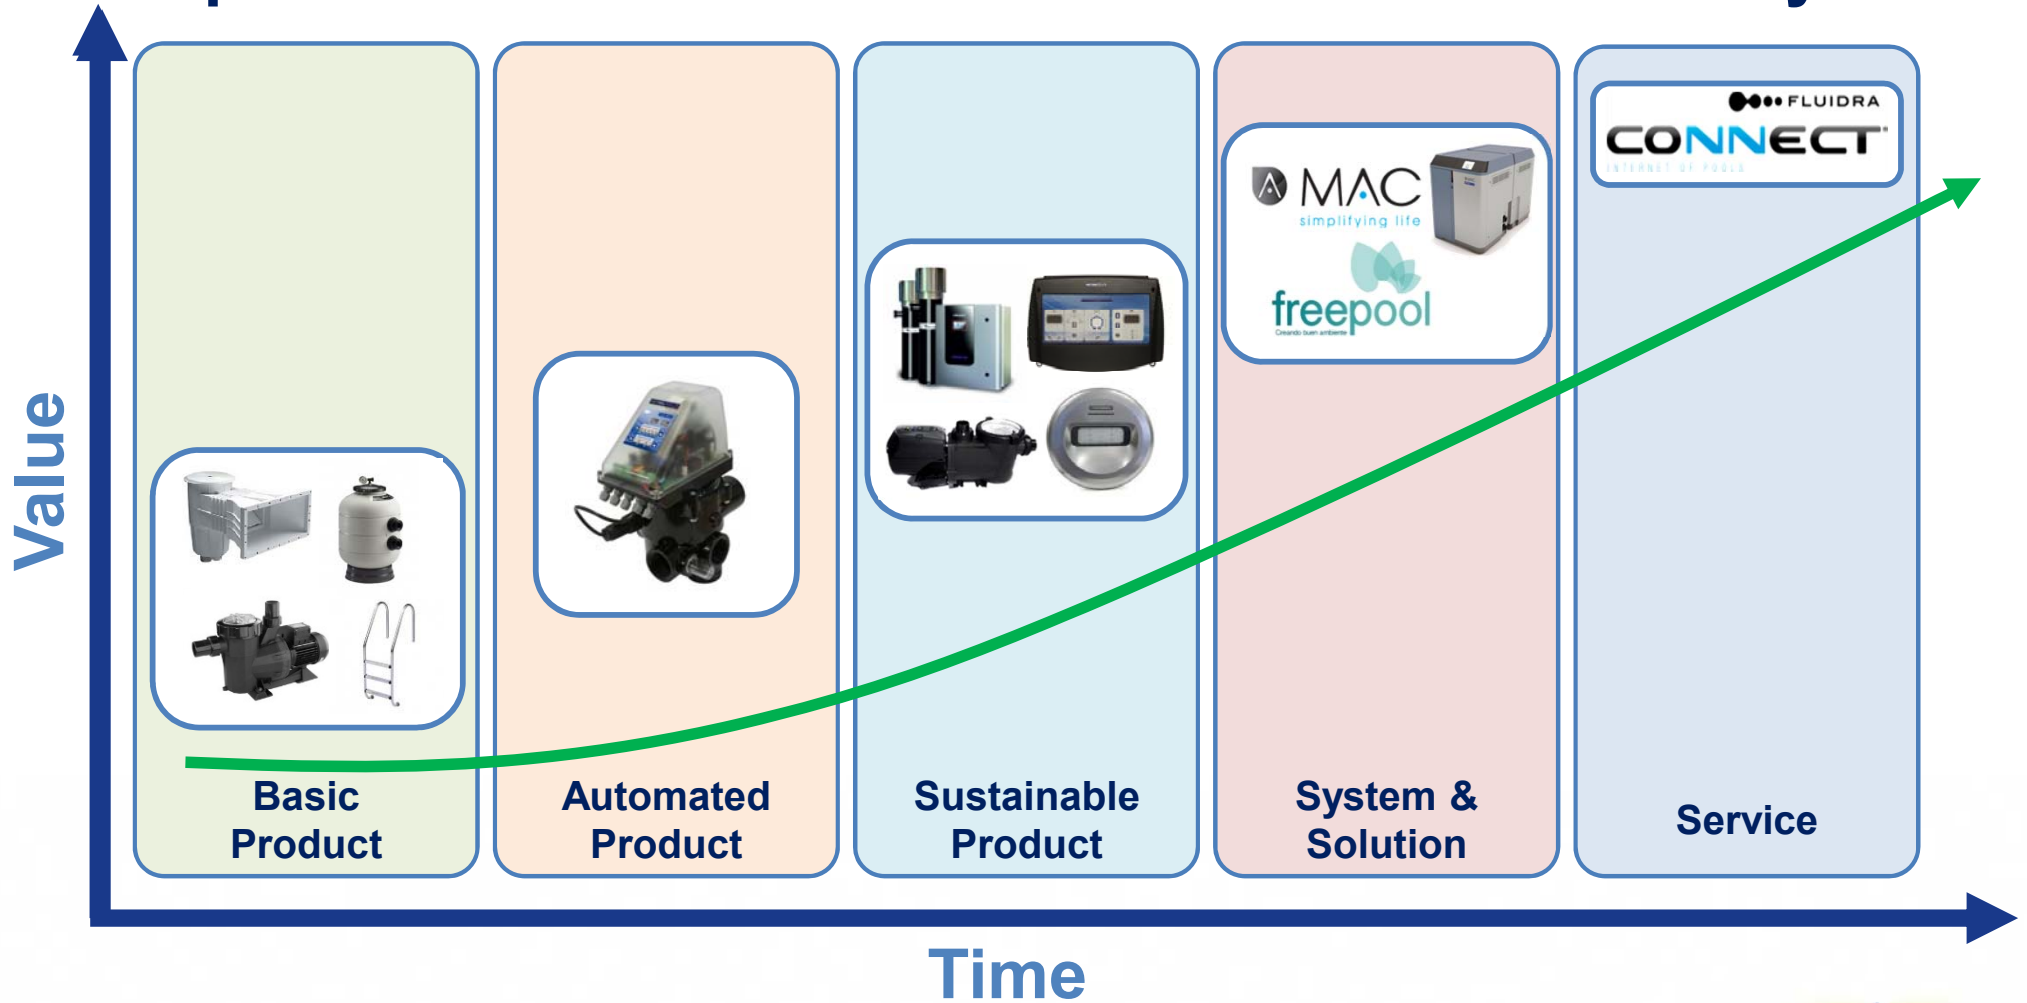

R&D Invested: 1,4% of sales
New Product Sales: 10% - 2015
15% - 2018

Delivering incremental value

A high-angle photograph of a modern villa's outdoor area. In the foreground, a large infinity pool with a dark blue tile pattern is set on a light-colored stone deck. To the left, a white patio umbrella is partially visible. To the right, a white lounge chair sits on the deck. The pool's edge is perfectly aligned with the horizon of the ocean, creating a seamless transition between the pool and the sea. The ocean is a deep blue, with sunlight reflecting off its surface. In the distance, a coastline with green hills and a small bay is visible under a clear blue sky with a few wispy clouds. The overall atmosphere is one of luxury and tranquility.
