## Taxation

### *Withholding tax at source:*

All amounts payable under the Warrants will be paid without deduction or withholding for or on account of any present or future taxes, duties or governmental charges whatsoever imposed or levied by or on behalf of the Federal Republic of Germany or any taxing authority therein. In the case that the Issuer will be compelled by law or other regulation to deduct or withhold such taxes, duties or governmental charges the Issuer will not pay any additional amounts to compensate the Warranholder for such deduction or withholding.

### *Taxes payable in Spain:*

This description does not intend to cover all considerations of a tax nature that may be significant in relation to a decision to invest in the Warrants. Potential investors are advised in this respect to take into consideration the tax description of each specific issue and to consult with their lawyers or tax advisors in order to determine the tax implications for their specific situation (i.e., local regulations). Investors should likewise take into account the changes which may take place in the future in the tax laws and regulations in force at the present time.

### **1. Individuals or legal persons with residence in the Spanish territory**

#### *Personal Income Tax*

In the case that the purchaser of the warrants is considered a taxpayer subject to the personal income tax (hereinafter, "PIT"), the purchase price paid for the Warrants will not be considered as a deductible expense, but as acquisition value which includes the expenses and commissions connected with the purchase of the Warrants paid by the purchaser.

The income obtained by the Warranholder for selling the Warrants prior to the end of the Expiration Period will be considered as capital gain or loss under the terms of article 34 of the Law 35/2006, dated November 28, 2006, on the Personal Income Tax (hereinafter, "PIT Act"). The gain or loss shall be calculated as the difference between (i) the transfer price (after deduction of the expenses and commissions paid by the Warranholder) and (ii) the acquisition value, as defined above.

Upon the exercise of the warrants (including the Automatic Exercise at the Expiration Date), capital gain or loss will be calculated as the difference between (i) the Cash Settlement Amount (after deduction of the expenses and commissions paid by the Warranholder) and (ii) the acquisition value, as defined above.

In accordance with the provisions of the PIT Act, the capital gains will be exempt from withholding tax.

Gains or losses derived from the sale or exercise of the warrants will be taxed following the rules of the PIT Act.

#### *Corporate Income Tax*

In principle, the taxable income will be calculated by correcting, by application of the rules contained in the Corporate Income Tax Law, the accounting result determined in accordance with the applicable accounting legislation. As a consequence, Investors would be taxed depending on the specific accounting of the warrant.

As a general rule, gains or losses realized by taxpayers subject to Corporate Income Tax either through the sale or the exercise of the Warrants will be included in their taxable income under the general provisions included in the Legislative Royal Decree 4/2004 of March 5, 2004, approving the Consolidated Text Act (CIT Act). Nevertheless, taxable income could arise before the sale or the exercise of the Warrants if its accounting implies the registration of losses and/or profits.

As stated before, capital gains will be exempt from withholding tax.

## 2. Individuals or legal persons not resident in the Spanish territory

As a general rule, according to section 13 of the Royal Decree 5/2004, March 5 on the Spanish non-resident income tax (hereinafter, "NRIT"), income obtained by non-Spanish residents holding the Warrants without permanent establishment in Spain will be considered as income obtained within the Spanish territory (and therefore, become taxable in Spain) only if such income derived from securities issued by an entity or person resident in the Spanish territory. Consequently, income from the Warrants should not be considered as obtained in the Spanish territory.

As a general rule, income obtained by a permanent establishment located in Spain of a non-resident would be subject to taxation, similar to that applicable to a Spanish company, without prejudice of the double taxation treaties signed by Spain.

## 3. Other direct Taxes: Net wealth Tax and Inheritance and Gift Tax

As a consequence of the holding of the Warrants or its exercise or sale, other taxes could accrue.
