Adolf Rousaud
Secretary of the Board of Directors
Laboratorio Reig Jofre SA

FORTÉ PHARMA STRENGTHENS ITS LEADERSHIP IN WEIGHT CONTROL IN FRANCE

- Forté Pharma consolidated as one of the leading laboratories in weight control thanks to the excellent development of its existing range and new launches

Barcelona (Spain), June 27, 2018. Forté Pharma, Reig Jofre's nutritional supplements line, strengthens its position as a weight control leader in France, the brand's main market, thanks to the excellent sales development of its existing ranges and the new releases in the families of slimming drinks and fat burners.

Forté Pharma launched XtraSlim 700, Turbodraine Pineapple and Turbodraine Citrus in France, Belgium, Spain, Portugal and Austria.

XtraSlim 700 is especially recommended as a quick slimming solution to lose weight with ease and as an initial solution for overweight people, as it increases caloric expenditure, burns fat and moderates appetite.

Its advanced formula helps to achieve an average loss of 700 calories a day thanks to the combination of 4 plant extracts with slimming action and draining function and 4 complementary ingredients that favor the metabolism of lipids, carbohydrates and proteins.

Turbodraine Pineapple and **Turbodraine Citrus** are the two new slimming drinks that come to strengthen the existing leadership position of Turbodraine peach and Turbodraine raspberry. Slimming drinks besides a diuretic and detoxifying action have a re-mineralizing action and are indispensable in any weight loss or weight control program.

Reig Jofre supported these launches with an extensive multi-channel press and television campaign in the main European markets where Forté Pharma has a large commercial network specialized in pharmacies.

To enhance the weight loss program in Spain, Forté Pharma makes available to the client the self-care platform **yoelijocuidarme.es**, with information and practical advice to lead a healthy lifestyle. In addition, it offers totally free an **online nutrition service**.

Forté Pharma organizes its product portfolio into four segments: energy (32% of sales), weight control (30%), health (23%) and beauty (15%) at year-end 2017. The company planned to continue the development of the weight control segment during the first half of the year and boost the rest of the categories in the second half.

In France, the weight control segment represents 10% of the nutritional supplements market and reaches sales of more than 100 million euros.
