**Announcement: Moody's reviews ratings of European structured finance transactions following new operational risks criteria**

---

**Global Credit Research - 02 Mar 2011**

London, 02 March 2011 -- Moody's has placed on review for possible downgrade the ratings of 220 tranches in 134 European transactions following its initial assessment of those transactions under the Moody's "Global Structured Finance Operational Risk Guidelines: Moody's Approach to Analyzing Performance Disruption Risk" methodology published on March 2nd.

The ratings placed on review for possible downgrade include ratings on 131 tranches from 78 Residential Mortgage Backed Securities, 40 tranches from 26 Asset-Backed Securities, 48 tranches from 29 Commercial Mortgage Backed Securities and one tranche from one structured credit transaction. The ratings placed on review are mostly Aaa ratings but include also some Aa and A ratings. For the detailed list of ratings placed on review because of the new methodology, please select the link :

ABS: [http://www.moodys.com/viewresearchdoc.aspx?docid=PBS\\_SF237748](http://www.moodys.com/viewresearchdoc.aspx?docid=PBS_SF237748)

RMBS [http://www.moodys.com/viewresearchdoc.aspx?docid=PBS\\_SF237952](http://www.moodys.com/viewresearchdoc.aspx?docid=PBS_SF237952)

CMBS: [http://www.moodys.com/viewresearchdoc.aspx?docid=PBS\\_SF237749](http://www.moodys.com/viewresearchdoc.aspx?docid=PBS_SF237749)

**Rationale for Placing the EMEA RMBS and ABS Ratings on Review**

The reasons for placing the European RMBS and ABS ratings on review are the insufficiency of back-up servicing/cash management arrangements and liquidity arrangements.

As per the new operational guidelines, Moody's has placed on review ratings from transactions with Baa-rated servicers when there is no party in place to facilitate a servicing transfer or there is no rating trigger to appoint a back-up servicer. Moody's has also placed on review ratings in transactions with lowly rated servicers when there is no back-up servicer in place or when the back-up servicer arrangement would not be rapidly operational in the event of the sudden termination of the original servicer.

The placement of ratings on review also reflects how the new guidelines address the liquidity mechanism that supports payments on the rated tranches in the event of servicer disruption. When there is no dedicated liquidity facility, a reserve fund remains an acceptable mechanism for providing liquidity support unless asset performance deterioration is likely to reduce the reserve funds. However in some ABS or RMBS the current liquidity levels are insufficient under the revised guidelines. Also, in case of lowly rated servicers, Moody's has also considered whether the cash manager or back up cash manager would be able to use available liquidity to make timely payments on the notes in the event the servicer did not produce its report .

**Rationale for European CMBS Placed on Review**

For European CMBS transactions, the typical drivers of Moody's review are the presence of unrated servicers combined with uncertainty about the cash manager's access to the liquidity facility if the servicer defaults. Some CMBS transactions require the cash manager to have a servicer report in order to be able to draw the liquidity facility and make a timely payment on the notes.

**Details on the Structured Credit Transaction Placed on Review**

Moody's has placed the A2 rating of the Class A Funding Floating Rate Notes issued by Tenzing CFO S.A., a CFO exposed to private equity funds of funds, on review because of the inability of the issuer to use the liquidity line upon failure of the manager. In this transaction, the manager is an unrated entity, and failure to replace it would trigger an event of default under the notes, which in turn will prevent the issuer from drawing on the liquidity line. Liquidity lines are key in this long-term buy-and-hold structure where 1) there is no control over the timing of cash inflows from the underlying funds of funds, and 2) the issuer needs the liquidity to fund capital calls by the underlying funds of funds.

For the assessment of the impact of the revised criteria on the existing stock of ratings, Moody's has assumed a two-notch-downgrade for servicers or cash managers whose ratings are currently on review for possible downgrade. If those bank ratings experience more than two-notch downgrade, Moody's will place additional structured finance transactions on review for possible downgrade. Conversely Moody's may confirm some structured finance ratings depending on the outcome of the bank ratings reviews.

Besides the ratings placed on review today, Moody's notes that the operational risk methodology affects some structured finance ratings that were already on review for possible downgrade. When concluding these rating reviews, Moody's will incorporate the revised criteria in its analysis and disclose its findings in the related announcements.

Moody's will complete the review of the ratings watch listed today because of this new methodology by September 2011, as required by European regulations. If transactions sponsors implement structural remedies as described in the guidelines, Moody's will confirm some of the ratings placed on review.

The lead analyst and rating office for each of the transactions affected are generally different from the contact and office listed at the end of this press release. For each transaction, the lead analyst name is available on the issuer page and the rating office is available on the ratings tab of the issuer on [www.moodys.com](http://www.moodys.com).

MIS, a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MIS have, prior to assignment of any rating, agreed to pay to MIS for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at [www.moodys.com](http://www.moodys.com) under the heading "Shareholder Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Notwithstanding the foregoing, credit ratings assigned on and after October 1, 2010 by Moody's Japan K.K. In such a case, "MIS" in the foregoing statements shall be deemed to be replaced with "MJKK". MJKK is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO.
