* Adjusted at constant exchange rates and excluding the impact of the multi-year policy in Mexico and the exit of BANKIA Vida in 2021, as applicable

** Total dividend against 2022 fiscal year includes the interim dividend of €0.06 paid in November and a final dividend of €0.085 proposed by the Board of Directors to be approved at the AGM on March 10th

... despite a challenging market context

MAPFRE has faced many challenges during 2022 ...

- ☀ Covid-19 post-pandemic environment
- 🔗 Inflation and supply chain disruption
- 📈 Rising interest rates and market volatility
- 🌐 Ongoing geopolitical risk
- 🚗 Pressure on margins in Motor markets

... supported by a solid business model and balance sheet strength

- 🌐 Diversification based on three pillars: geography, product and balance sheet
- 🏆 Leading market positions
- ☀ Technical excellence
- 🔗 Streamlined business
- 👑 Financial strength and cash generation
- 🏛 Prudent investment and ALM strategies

2022 highlights

We have met significant milestones in 2022 ...

- **Solid premium growth** – resilient trends in Spain, strong performance in LATAM and rising reinsurance rates
- Strong profit contribution from **IBERIA (>€375 mn)** despite difficult Motor context
- Turnaround in **LATAM with >€300 mn (+€145 mn yoy)** profit contribution
- Solid contribution from **MAPFRE RE (>€140 mn)** despite a costly NatCat year
- **Technical performance in Non-Motor** – helped offset Motor headwinds
- **Higher underlying financial income**, especially in LATAM
- **Transformation** – main restructuring goals have been achieved
- **Solvency II historic high** – well positioned to weather uncertainty and leverage growth opportunities

... while we need to continue focusing on:

- Implementing the initiatives of our 2022-24 Strategic Plan
- Improving Motor profitability
- Applying a cautious approach in businesses where we have limited risk appetite
- Continuing to leverage growth opportunities

- Global Risks **+20.9%**

Net result

€143.4 (-5.4%)

Combined ratio

96.8% (-0.3 p.p.)

Shareholders' equity

€1,892 (+5.2%)

- Strong growth on the back of positive rate momentum for 2022, increased shares on profitable business and continued good performance at Global Risks. Tailwinds from exchange rates.
- Resilient result despite materially exceeding large loss budget, in a year of high frequency of catastrophic events in the reinsurance portfolio, i.e. hailstorms in France, Parana river drought, floods in Australia and South Africa and windstorm Eunice
- Lower net realized gains (€2.4 mn in 2022 vs. €49.3 mn in 2021)
- Shareholders' equity boosted by capital increase of €250 mn at year end, which will strengthen its capital base, allowing to take advantage of hardening market and adding flexibility in structuring retrocession protections

MAPFRE RE > moving forward

Market environment

- Late and complex renewal period
- Substantial hardening after a prolonged period of underperformance in reinsurance industry
- Firm pricing environment, substantial review of reinsurance structures and coverage definitions
- Limited capacity, especially in business exposed to natural perils and certain specialty lines
- Almost inexistent flow of new capital into the reinsurance industry

MAPFRE RE outcome of January renewals

- Reinforced market profile
- Expected margin of the portfolio materially improved, after significant risk-adjusted price increases and structural changes on accepted business
- Price driven growth on non-proportional business offsets non-renewal of significant blocks of high-volume proportional transactions, which presented much lower margins
- Renewed retrocession program benefitting from long term strategic risk management policy

Outlook

- Hard market to remain in place for the upcoming renewal periods
- Capital position, market profile and risk appetite favorable for seizing market momentum
- Financial flexibility to structure efficient coverage for Group reinsurance needs
- Large losses budget increased to a range of €300–400 million adapting to growth in a hardening market

IFRS 17&9 Update > timeline and proposed disclosure

- With the entry in force of the new IFRS 17&9, as of January 1st MAPFRE Group will be subject to two different levels of regulation and accounting standards, at least for the medium term:
 - Local insurance supervisors: local accounting standards
 - CNMV (Spanish Securities & Exchange Commission): IFRS
- This duality of accounting standards will have no impact for operations regarding: strategy, management and cash generation
- For Group management purposes, business performance analysis will be carried out both under local adjusted accounting and under IFRS, with periodic reconciliation of main KPIs
- MAPFRE will report IFRS figures at a consolidated level twice a year in line with current regulation
- An Activity Report* with KPIs for subsidiaries under local adjusted accounting will be made public on a quarterly basis
- Accounting standards should converge in the medium term

*Including update on main trends, business activity and business unit key financials

** Local accounting standard adjusting for local treatment of certain intangibles and technical reserves (i.e. goodwill and NatCat reserves)

DISCLAIMER: These statements are merely illustrative, not a forecast

IFRS 17&9 Update > potential impacts

Balance sheet	Shareholder's Equity
	CSM
P&L	Net income
	P&C
	Life & Burial
	Solvency
Capital management	Dividends & Cash Generation

- Broadly stable at transition
- Traditional Life Savings products, Burial business, as well as accepted and retroceded reinsurance will be valued under BBA
- Group earning power expected to remain unchanged post transition as around 70% of premiums are subject to simplified approach (PAA)
- Mutual funds will be classified as Fair Value through P&L
- Listed equity investments will be classified as Fair Value through OCI, mitigating P&L sensitivity to market movements and potentially lowering realized gains
- Limited changes (mainly PAA)
- Improved disclosure and visibility on future profit recognition
- Change in accounting approach for Burial will better reflect economic reality of insurance assets and liabilities
- No change as Solvency II and IFRS are now applying a similar approach, both based on a market consistent view
- No expected impact on upstreaming from subsidiaries
- No change to Group dividend policy

DISCLAIMER: These statements are merely illustrative, not a forecast

2022-2024 Strategic Plan > meeting targets in an extremely challenging market

Closing remarks

2022-24 Strategic Plan is being implemented and is on track with robust growth and resilient profitability during 2022

Diversification will continue to be key in a challenging market context

IBERIA will continue to be an important contributor to profitability

In LATAM positive trends are expected to continue

Increasing importance of MAPFRE RE for the Group

Ongoing motor profitability plan already delivering results

Moving forward with transformation, and restructuring process coming to an end

Sustainable dividend path, underpinned by solid financial strength and flexibility

- (6) 2022: non-recurring tax impacts in Spain and Peru; 2021: voluntary retirement scheme in IBERIA, a release of an earnout provision and various asset sales

Annex: IFRS 17 – Valuation approaches

Building Block Approach (BBA)

General Assessment approach /Default approach

Assesses fulfillment cash flows using a dynamic calculation, updating hypotheses with each calculation, and recognizing expected profit from the contract or CSM, through its allocation to P&L as service is provided throughout the coverage period. It comprises:

1. Fulfillment cash flows, which include:
 - Present value of expected future cash inflows and outflows that will arise over the length of the contract
 - An adjustment to reflect the time value of money and other financial risks, like liquidity and exchange rates
 - An explicit adjustment for non-financial risk
2. Contractual Service Margin (CSM), which will represent unearned profit from contracts. If CSM is negative, the contract will be considered onerous and balance sheet CSM will be zero, recording loss in P&L at the time of inception of the contract, as established by the standard.

Variable Fee Approach (VFA)

Variation of the default approach (BBA) which is applicable to contracts with significant direct participation features.

Premium Allocation Approach (PAA)

Simplification of BBA and can be optionally used for contracts with coverage of ≤ 1 year, or in some specific cases where the contract duration is >1 year, the assessment is not expected to vary materially from BBA. This approach is similar to current Unearned Premium Provision approach.

Based on technically defined directives, MAPFRE believes that, in general, it will assess insurance and reinsurance contracts as follows:

Insurance contracts	Approach
Life and Non-Life lines with duration of <1 year(*)	PAA
Burial line	BBA
Life contracts with duration >1 year	BBA
Contracts with direct participation (Unit Linked and certain life products with profit-sharing)	VFA
Reinsurance contracts	
Ceded	PAA
Accepted	PAA/ BBA
Retroceded	BBA

*Non-Life contracts with duration greater than one year but with no material difference from BBA expected will also be measured using PAA

Annex: IFRS 17&9 – Valuation approaches and options taken

Valuation approach	Type of product	Liability	Asset	Remarks
Building Block Approach (BBA)	Burial	Variations in yield curve (risk-free curve + spread) reflected in OCI	≈100% Fixed Income portfolios measured at FVOCI with recycling in P&L	If durations and yields are matched, there will be no asymmetries or impact in OCI
	Life matched			
	Life Savings w/o PS > 1 year			
Variable Fee Approach (VFA FVTPL)	Unit Linked	Liability measured at FVTPL linked to the performance of underlying assets	Assets measured at FVTPL	No asymmetries or impact in OCI
Variable Fee Approach (VFA disaggregating in OCI)	Life with PS	Variations in yield curve (risk-free curve+spread) are reflected in OCI	Fixed income measured at FVOCI with recycling in P&L	If durations and yields are matched, there will be no asymmetries or impact in OCI
		Variations in Equity and Funds are adjusted by estimating the future PS in P&L	Equity measured at FVTPL	No asymmetries or impact in OCI
			Funds measured at FVTPL	
Premium Allocation Approach (PAA)	Own funds portfolios, Life and Non-Life < 1 year	Risk-free curve discount	Fixed income measured at FVOCI with recycling in P&L	Both the variation in the risk-free curve and the credit spread will be reflected in OCI
			Equity measured at FVOCI without recycling in P&L	No possibility to manage the impact in P&L
			Funds measured at FVTPL	Higher volatility in P&L

PS: Profit sharing

OCI: Other Comprehensive Income

FVTPL: Fair Value through P&L

FVOCI: Fair Value through Other Comprehensive Income

Main upcoming events*:

20-21 February	Roadshow – London/Paris
10 March	AGM
16 March	Morgan Stanley European Financials (London)
7-27 April	Black-out period
28 April	3M 2023 Results presentation
12 June	J.P. Morgan European Insurance (London)
13 June	GS European Financials (Paris)
7-27 July	Black-out period
28 July	6M 2023 Results presentation
19-21 September	BoAML Financials CEO (London)
Q4	Investor/Capital Markets Day (TBC)
6-26 October	Black-out period
27 October	9M 2023 Results presentation

* Dates are subject to change

Follow us at:

Terminology

Combined ratio – Non-Life	Expense ratio + Loss ratio
Expense ratio – Non-Life	(Operating expenses, net of reinsurance – other technical revenue + other technical expenses) / Net premiums earned
Loss ratio – Non-Life	(Net claims incurred + variation in other technical reserves + profit sharing and returned premiums) / Net premiums earned
Corporate Areas and Consolidation Adjustments	Includes expenses from Corporate Areas, consolidation adjustments, as well as the result attributable to MAPFRE RE and MAPFRE INTERNACIONAL’s non-controlling interests and other concepts
Solvency II ratio	Eligible Own Funds (EOF) / Solvency Capital Requirement (SCR)
ROE (Return on Equity)	(Attributable result for the last twelve months) / (Arithmetic mean of equity attributable to the controlling company at the beginning and closing of the period (twelve months))
Other investments	Includes interest rate swaps, investments in associates, accepted reinsurance deposits and others

Alternative Performance Measures (APM) used in this report correspond to those financial measures that are not defined or detailed within the framework of the applicable financial information. Their definition and calculation can be consulted at the following link:

This document is purely informative. Its content does not constitute, nor can it be interpreted as, an offer or an invitation to sell, exchange or buy, and it is not binding on the issuer in any way. The information about the plans of the Company, its development, its results and its dividends represents a simple forecast whose formulation does not represent a guarantee with respect to the future performance of the Company or the achievement of its targets or estimated results. The recipients of this information must be aware that the preparation of these forecasts is based on assumptions and estimates, which are subject to a high degree of uncertainty, and that, due to multiple factors, future results may differ materially from expected results. Among such factors, the following are worth highlighting: the development of the insurance market and the general economic situation of those countries where the Group operates; circumstances which may affect the competitiveness of insurance products and services; changes in the basis of calculation of mortality and morbidity tables which may affect the insurance activities of the Life and Health segments; frequency and severity of claims covered; effectiveness of the Groups reinsurance policies and fluctuations in the cost and availability of covers offered by third party reinsurers; changes in the legal environment; adverse legal actions; changes in monetary policy; variations in interest rates and exchange rates; fluctuations in liquidity and the value and profitability of assets which make up the investment portfolio; restrictions in the access to third party financing.

MAPFRE S.A. does not undertake to update or revise periodically the content of this document.

Certain numerical figures included in the Investor Presentation have been rounded. Therefore, discrepancies in tables between totals and the sums of the amounts listed may occur due to such rounding.
