● Series T Class C ES0313814073	LT	Asf Rating Outlook Negative	Affirmed	Asf Rating Outlook Stable
Bankinter 7, FTH				

[VIEW ADDITIONAL RATING DETAILS](#)

TRANSACTION SUMMARY

The transactions comprise residential mortgages originated and serviced by Bankinter, S.A. (NR).

KEY RATING DRIVERS

Resilient to Coronavirus Additional Stresses

The affirmations reflect our view that the notes are sufficiently protected by credit enhancement (CE) and excess spread to absorb the additional projected losses driven by the coronavirus and the related containment measures, which are producing an economic recession and increased unemployment in Spain.

We also consider a downside coronavirus scenario for sensitivity purposes whereby a more severe and prolonged period of stress is assumed, which accommodates a further 15% increase to the portfolio weighted average foreclosure frequency (WAFF) and a 15% decrease to the WA recovery rates (WARR). See "EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic" at www.fitchratings.com.

We expect structural CE for Bankinter 7 to continue increasing driven by the prevailing sequential amortisation of the notes that will continue when the portfolio's outstanding balance falls below 10% of the portfolio initial balance (10.3% as of end of October). For Bankinter 9T, we expect CE to remain broadly stable given the prevailing pro-rata amortisation of the notes.

Withstands Catalonia Lease Stresses

The rating analysis reflects the potentially adverse effects of Catalanian Decree Law 17/2019, which allows some defaulted borrowers in the region that meet defined eligibility criteria to remain in their homes as tenants for as long as 14 years paying a low monthly rent. The share of the portfolio balance that is located in Catalonia ranges between 18% and 27% for both transactions. Fitch's analysis has accounted for a longer recovery timing on future loan defaults in Catalonia that ranges between 72 and 96 months under 'B' and 'AAA' rating stresses, respectively, compared with 48 and 60 months applicable to other regions (see "Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia" at www.fitchratings.com).

Excessive Counterparty Risk Caps Junior Notes

Bankinter 7 and Bankinter 9T class C notes are capped at the issuer account bank provider's deposit rating (Banco Santander S.A., A-/Negative/F2, deposit rating A), as the main source of structural CE for these notes is the reserve fund held at the account bank. The rating cap reflects the excessive counterparty dependence on the SPV account bank holding the cash reserves, as the sudden loss of these amounts could imply a downgrade of 10 or more notches of the notes in accordance with Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

The revision of the Outlook on these tranches to Negative from Stable is driven by that on the account bank provider.

Low Payment Holidays Take-up

Fitch does not expect the COVID-19 emergency support measures introduced by the Spanish government and banks for borrowers in vulnerability to negatively affect the SPVs' liquidity positions, given the very low take-up rate of payment holidays in both transactions of less than 1% relative to current portfolio balances as of October 2020. Additionally, the high portfolios seasoning of over 17 years and the large share of floating-rate loans that enjoy the low interest-rate environment are strong mitigating factors against macroeconomic uncertainty.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Bankinter 7 and Bankinter 9T class A and B notes are rated at the highest level on Fitch's scale and cannot be upgraded.

For Bankinter 7 and Bankinter 9T class C notes, an upgrade of the SPV account bank's Long-Term Deposit Rating could trigger an upgrade of the notes. This is because the ratings are capped at the bank rating given the excessive counterparty risk exposure.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

For Bankinter 7 and Bankinter 9T class A and B notes, a downgrade of Spain's Long-Term Issuer Default Rating (IDR) that could decrease the maximum achievable rating for Spanish structured finance transactions. This because the class A and B notes are capped at the 'AAAsf' maximum achievable rating in Spain, six notches above the sovereign IDR.

For Bankinter 7 and Bankinter 9T class C notes, a downgrade of the SPV account bank's Long-Term Deposit Rating could trigger a corresponding downgrade of the notes. This is because the ratings are capped at the bank rating given the excessive counterparty risk exposure.

A longer-than-expected coronavirus crisis that erodes macroeconomic fundamentals and the mortgage market in Spain beyond Fitch's current base case and downside sensitivities. CE ratios unable to fully compensate the credit losses and cash flow stresses associated with the current ratings scenarios, all else being equal.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G - 10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the

transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

Bankinter 7 and Bankinter 9T Class C notes' ratings are capped at Banco Santander S.A.'s (SPV account bank provider) long-term Deposit Rating of 'A' due to excessive counterparty exposure, in accordance with Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

ESG CONSIDERATIONS

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such

as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to

US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
