

Call for Entries for the Seventh Edition of the Finanzas para Todos Awards of the Financial Education Plan

23 June 2022

Call for entries for the seventh edition of the Finanzas para Todos Awards of the Financial Education Plan, sponsored by the Spanish National Securities Market Commission (CNMV), the Bank of Spain, and the Spanish Ministry for Economic Affairs and Digital Transformation.

These awards aim to promote excellence in financial education initiatives taken in Spain, acknowledging the work of those institutions or persons who have shown exceptional dedication and commitment in this area.

The Finanzas para Todos Awards have two categories: for the best financial education initiative and for the best track record in the development of the Financial Education Plan.

The first category is open to any natural or legal person who may have launched, after 1 January 2021, financial education initiatives which, due to their novelty or social outreach, are deemed relevant.

The second category is open to institutions considered as collaborators of the Financial Education Plan and which may have stood out for promoting and disseminating the national financial education strategy.

The winners of the Finanzas para Todos Awards will be selected on 23 September 2022 by a panel formed by representatives of the Bank of Spain, CNMV, and the Spanish Ministry for Economic Affairs and Digital Transformation. Prizes will be given on 3 October 2022, coinciding with the Seventh Edition of the Financial Education Day.

The period to submit applications is between 23 June until 16 September 2022.
