

Pursuant to article 227 of law 6/2023 of 17 March, on the Spanish Securities Market and Investment Services, and its implementing regulations, SACYR, S.A. (“SACYR” or the “Company”) hereby reports the following:

#### **OTHER RELEVANT INFORMATION**

The Company, through its subsidiary Sacyr Concesiones, S.L.U., has reached an agreement for the sale of a 49% minority stake in the ERESMA toll road (Spain) to the consortium formed by GED Infrastructure and CASER Seguros.

The amount of the divestment totals 69 million euros, including the debt associated with the stake disposed of. Completion of the transaction is subject to compliance with the customary conditions precedent set out for this type of transaction.

As the Sacyr Group will maintain control of the asset, it will continue to be fully consolidated, so the transaction does not generate a capital gain but does have a positive impact on equity of 25 million euros.

This divestment is part of the policy of rotation of mature non-strategic assets and/or minority stakes.

Madrid, 22 May 2023
