KEY RATING DRIVERS

Credit Enhancement to Increase: The rating actions reflect Fitch's view that the notes are sufficiently protected by credit enhancement (CE) to absorb the projected losses commensurate with prevailing and higher rating scenarios, despite CE for BBVA 1 and 2 dropping due to the switch to pro-rata amortisation and reserve fund (RF) amortisation.

Both transactions feature a reverse sequential mechanism that envisages tranche thickness targets for the class B notes (9.6% for BBVA 1, currently 16.1%, and 4.5% for BBVA 2, met) and class C notes (6.8% for BBVA 1, currently 11.4%, and 4.0% for BBVA 2, met). Fitch expects CE for BBVA 1 to decrease to around 20.3% for the class B notes and 10.7% for the class C notes (currently 30.9% and 14.8%, respectively), when the thickness targets are met. Once the targets are met, we expect CE levels to start increasing. For BBVA 3 and Santander 3, we expect CE to continue increasing given the prevailing sequential amortisation of the notes.

Switch to Pro-Rata Amortisation: BBVA 1 and 2 notes' amortisation switched to pro-rata with reverse sequential mechanism that envisions tranche thickness targets since last review (Jun-22 and Sep-21, respectively). Combined with RF amortisation, the switch led to a short-term decrease in CE levels.

Weaker Than Expected Recoveries: Fitch has applied a 25% haircut to the asset model estimated recovery rates (RR) for the BBVA RMBS transactions, considering the record of cumulative recoveries on defaults of about 34% as per the latest reporting date, which compares with an average of about 65% for the rest of Fitch-rated Spanish RMBS transactions. This is a variation from the European RMBS Criteria and has a maximum model-implied rating impact of minus four notches (BBVA 2's class B and C notes).

Payment Interruption Risk Caps Ratings: The transactions remain exposed to unmitigated payment interruption risk in the event of a servicer disruption, as Fitch deems the available structural mitigants insufficient to cover stressed senior fees, net swap payments and senior note interest due amounts while an alternative servicer arrangement is implemented. As a result, the maximum achievable rating remains 'A+sf', as per Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

BBVA 1 and BBVA 2 have an Environmental, Social and Governance (ESG) Relevance Score of '5' for Transaction & Collateral Structure due to unmitigated payment

interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a downward adjustment to the ratings of at least one notch.

BBVA 3 has an ESG Relevance Score of '4' for Transaction & Collateral Structure due to exposure to payment interruption risk, which could have a negative impact on the credit profile and is relevant to the ratings in conjunction with other factors. In addition, it has an ESG Relevance Score of '4' for Transaction Parties & Operational Risk due to the breach of account bank replacement triggers, which has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to negative rating action/downgrade:

The transactions' performance may be affected by changes in market conditions and economic environment. Weakening economic performance is strongly correlated to increasing levels of delinquencies and defaults that could reduce CE available to the notes. Unanticipated declines in recoveries could also result in lower net proceeds, which may make certain notes susceptible to negative rating action, depending on the extent of the decline in recoveries.

Fitch conducts sensitivity analyses by stressing both a transaction's base-case foreclosure frequency (FF) and RR assumptions, and examining the rating implications on all classes of issued notes. A 15% increase in WAFF and a 15% decrease in WARR indicate downgrades of up to five notches on the notes.

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Stable to improved asset performance driven by stable delinquencies and defaults would lead to increasing CE levels and, potentially, upgrades. A decrease in WAFF of 15% and an increase in WARR of 15% indicate upgrades of no more than three notches on the notes.

For the senior notes, improved liquidity protection against a servicer disruption event. This because the ratings are currently capped at 'A+sf' due to unmitigated payment interruption risk.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

CRITERIA VARIATION

Fitch has applied a 25% haircut to the asset model estimated RR for the BBVA RMBS transactions, considering the record of cumulative recoveries on defaults of about 30 to 40% as per the latest reporting date. This compares with an average of about 65% for the rest of Spanish RMBS transactions rated by Fitch. This is a variation from the European RMBS Criteria and has a maximum model-implied rating impact of minus four notches (BBVA 2's class B and C notes).

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Overall, and together with any assumptions referred to above, Fitch's assessment of the

information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

ESG CONSIDERATIONS

BBVA RMBS 1, FTA has an ESG Relevance Score of '5' for Transaction & Collateral Structure due to unmitigated payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a downward adjustment to the ratings of at least one notch.

BBVA RMBS 2, FTA has an ESG Relevance Score of '5' for Transaction & Collateral Structure due to unmitigated payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a downward adjustment to the ratings of at least one notch.

BBVA RMBS 3, FTA has an ESG Relevance Score of '4' for Transaction & Collateral Structure due to exposure to payment interruption risk, which could have a negative impact on the credit profile and is relevant to the ratings in conjunction with other factors. In addition, it has an ESG Relevance Score of '4' for Transaction Parties & Operational Risk due to the breach of account bank replacement triggers, which has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg

DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers.

Please read these limitations and disclaimers by following this link:

<https://www.fitchratings.com/understandingcreditratings>. In addition, the following <https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of

permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously

evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those

subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

SOLICITATION STATUS

The ratings above were solicited and assigned or maintained by Fitch at the request of the rated entity/issuer or a related third party. Any exceptions follow below.

ENDORSEMENT POLICY

Fitch's international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch's approach to endorsement in the EU and the UK can be found on Fitch's [Regulatory Affairs](#) page on Fitch's website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
